BILLING CODE 4310-05-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 123

[SW-10-FRL 2272-2]

Hazardous Waste Management Program; Washington Application for Interim Authorization, Phase I and Phase II Components A and B

Correction

FR Doc. 82-34701 was published on page 57022 in the issue of Wednesday, December 22, 1982. It announced a public hearing and comment period. It was incorrectly published as a Rule document and should have appeared in the Proposed Rules section of the **Federal Register.**

BILLING CODE 1505-01-M

40 CFR Part 610

[AMS-FRL-2231-6]

Amendment and Clarification of the Test Procedures and Evaluation Criteria for Fuel Economy Retrofit Devices

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed rulemaking.

SUMMARY: To eliminate the present confusion regarding the Agency's authority to test fuel additives as part of its retrofit device evaluation program, this rulemaking proposes that the definition of "retrofit devise" in EPA's fuel economy retrofit device evaluation regulations, 40 CFR Part 610, be revised to include fuel additives and thereby make it consistent with the provisions of the Motor Vehicle Information and Cost Savings Act, 15 U.S.C. 2011. This rulemaking also proposes to revise the definition of a "manufacturer" so that the Agency can more efficiently administer the retrofit device evaluation program. Finally, this rulemaking proposes to require the Administrator to notify manufacturers when it intends to test their fuel economy retrofit device, and to afford them the right to comment on the test design and to observe the test sessions. This formally guarantees certain rights to manufacturers which heretofore had been courteously granted by the Agency as common practice during its evaluation programs.

DATES: Comments must be submitted on or before February 28, 1983.

ADDRESS: Comments should be submitted to: U.S. Environmental Protection Agency, Central Docket Section (A-130), Gallery 1, West Tower Lobby, Waterside Mall, 401 M Street, SW., Washington, D.C. 20460, ATTN: Docket No. A-82-01.

FOR FURTHER INFORMATION CONTACT: Merrill W. Korth, Test and Evaluation Branch, Emission Control Technology Division, Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, MI 48105. Telephone (313) 668-4299.

SUPPLEMENTARY INFORMATION: Since publication of the fuel economy retrofit device regulations, 40 CFR Part 610, 44 FR 17946 (March 23, 1979), EPA has evaluated over 30 fuel econmy retrofit devices. The devices generally have been mechanical and/or electrical in design. Recently, however, EPA has been receiving requests to evaluate fuel additives as part of the retrofit device evaluation program. EPA considered it appropriate to evaluate fuel additives under the program because; (1) Section 511 of the Motor Vehicle Information and Cost Savings Act, 15 U.S.C. 2011, (hereafter referred to as "MVICSA") includes fuel additives within the definition of "retrofit device", (2) MVICSA requires EPA to evaluate retrofit devices to determine their effect on fuel economy and emissions of air pollutants, (3) EPA has test procedures in place for evaluating regulated exhaust emissions and fuel economy, and (4) EPA has been interpreting the regulations to mean that fuel additives are included within the definition of retrofit device. For these reasons, EPA has evaluated and tested a number of fuel additives.

During its evaluation of fuel additives under its retrofit device testing program, EPA has found three areas of the existing fuel economy retrofit device regulations which require amendment and/or clarification. First, the preamble to the existing regulations states:

> Although fuel additives are also included in this definition (referring to retrofit devices), EPA has not yet developed test protocols for fuel additives, therefor, these rules will not apply to fuel additives. Fuel additive protocols used in this program are being developed as a part of EPA's responsibility to evaluate the emissions impact of fuel additives under Section 211 of the Clean Air Act, 42 U.S.C. 7545 ("The Act") [1] and will be published in a future rulemaking (44 FR 17946, March 23, 1979).

Some manufacturers of fuel additives have interpreted this to mean that EPA had not established test procedures for regulated emissions and fuel economy and that these procedures were being developed under Section 211 of the Act.

A second area caused further confusion in that the preamble includes fuel additives as retrofit devices while the regulatory definition does not. Because of the regulatory definition of retrofit device, and the interpretation of the preamble, some manufacturers have questioned the legality of EPA's evaluating and testing of fuel additives.

The Agency has always considered fuel additives to be included within the definition of retrofit device. In developing the current retrofit device regulations, the Agency intended to include the identical definition of retrofit devices as contained within the MVICSA. However, because certain language was inadvertently omitted from the regulatory definition, fuel additives were not included within the definition of a retrofit device. EPA proposes to change the regulatory definition to specifically include fuel additives. In doing so, the regulatory definition will correspond to the MVICSA definition.

In addition, EPA intended that the preamble contrast the different purposes of the testing of fuel additives under the MVICSA with the testing of fuels and fuel additives under Section 211 of the Act, 42 U.S.C. 7545. Because this relationship was not adequately stated, the Agency would like to make this relationship clear.

(1) For the purposes of the MVICSA, the Agency intends to evaluate and test fuel additives as part of its retrofit device evaluation program to determine the effects of fuel additives on fuel economy and emissions. The Agency has test procedures in place which it believes are appropriate for measuring the effect of fuel additives on regulated emissions and fuel economy. These are the same test procedures that have been used for several years for the new vehicle certification and fuel economy programs and also for evaluations of other retrofit devices. Because the Agency believes these procedures are also appropriate for fuel additives, this proposal would make them applicable to the evaluation of fuel additives. Further, in accordance with 40 CFR 610.31(c), EPA will modify these test procedures, as needed, so that a technically correct evaluation of a particular fuel additive can be performed. Comments are specifically solicited on whether these protocols are appropriate for testing and evaluating fuel additives.

(2) For the purposes of Section 211 of the Act, 42 U.S.C. 7545, the Agency has not yet developed test protocols for determining the health effects of fuel additives. It should be emphasized that the fuel economy and emission testing of a fuel additive under the MVICSA would in no way fulfill the responsibility of the manufacturer to perform any health effects tests required by any regulations issued in the future under Section 211 of the Act.

(3) Test procedures and protocols for health effects are being developed under Section 211 of the Act, 42 U.S.C. 7545, and will be published in a later rulemaking.

The third area of the regulations requiring amendment and clarification is the definition of a "manufacturer" as it applies to retrofit devices. The current

[1] Section 211 of the Act directs EPA to regulate fuels and fuel additives. Section 211(b)(2) directs the Administrator to require manufacturers of fuels and fuel additives to conduct tests to determine potential public health effects. Additionally, it provides that such tests shall be conducted in conformity with test procedures and protocols established by the Administrator. These test procedures for determining health effects caused by fuels and fuel additives have not yet been developed.

regulation, 40 CFR Part 610.11(a)(8), defines a manufacturer as "a person or company who is engaged in the business of manufacturing, distributing, or selling retrofit devices for which a fuel economy improvement claim is made." Further, 40 CFR 610.12 states that a retrofit device evaluation program will be initiated by either the Federal Trade Commission, the EPA Administrator, or upon the application of any manufacturer of a retrofit device. Together, these two sections allow distributors and other persons selling a retrofit device to make application for an EPA evaluation of that device. In some instances, this has resulted in two or more individuals applying for an EPA evaluation of the same retrofit device. The multiple applications have led to confusion, delays, and additional paperwork. Moreover, one manufacturer (who actually produces or assembles the device) has protested that the MVICSA does not provide for the initiation of an evaluation by distributors or dealers (and perhaps even competitors) of the device, i.e., that the manufacturer (one who actually produces or assembles the device) is the only person outside the government who can initiate a device evaluation.

To remedy these problems, this rulemaking proposes to narrow the current regulatory definition by defining a "manufacturer" as one who actually produces or assembles a retrofit device. Therefore, distributors, dealers, and anyone else connected with a device will be precluded from initiating an evaluation unless authorized by the manufacturer. EPA does not expect this change to have a significant impact on distributors and dealers because few applications for evaluation have been made by distributors and dealers and in those instances the application was generally with the consent of the manufacturer.

Finally, this rulemaking proposes to formally assure manufacturers of fuel economy retrofit devices certain rights which until now have been courteously granted, as common practice, by the Agency during its evaluation programs. Specifically, this rulemaking proposes that the Administrator be required to make a reasonable effort to notify manufacturers when the Agency intends to test their devices, to afford them the opportunity to comment on specific test designs, and to attend the test sessions. By guaranteeing these rights, the Agency hopes that more manufacturers will be encouraged to participate in the Agency's testing of their device, early in the test program to resolve minor differences in opinion regarding test designs and thereby improving the evaluation program.

Administrative Designation

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not major because it will not result in an annual effect on the economy of $100 million or more, a major increase in costs or prices for consumers, individual industries, or government agencies, or significant adverse effects on competition, employment, investment, productivity, or innovation.

This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291.

Effect on Small Entities

I certify that this action will not have a significant economic impact on a substantial number of small entities. Thus, the Agency has not prepared an analysis under the Regulatory Flexibility Act.

Reporting and Recordkeeping Requirements

This rule creates no new reporting or recordkeeping requirements. It merely clarifies that fuel additives can be tested under the fuel economy retrofit program and makes no change to the existing reporting and recordkeeping requirements.

Availability of Documents

Copies of material relevant to this relemaking are located in Public Docket No. A–82–01, at the U.S. Environmental Protection Agency, Central Docket Section (A–130), Gallery 1, West Tower Lobby, Waterside Mall, 401 M Street SW., Washington, D.C. 20460. The docket may be inspected between 8 a.m. and 4 p.m., Monday through Friday. A reasonable fee may be charged for copying services.

List of Subjects in 40 CFR Part 610

Fuel Economy, Gasoline, Motor Vehicles.

(15 U.S.C. 2011)

Dated: December 20, 1982.

Anne M. Gorsuch,

Administrator.

PART 610—[AMENDED]

For the reasons set forth in the preamble, EPA proposes to amend 40 CFR Part 610 as follows:

1. The authority citation for Part 61 reads as follows:

Authority: Sec. 511, Motor Vehicle Information and Cost Savings Act as amended (Sec. 301. Pub. L. 94–163, 89 Stat. 915, (15 U.S.C. 2011)).

2. In § 610.11, paragraphs (a)(1), (a)(1)(i), (a)(1)(ii), and (a)(4) are proposed to be revised to read as follows:

§ 610.11 Definitions.

(a) * * *

(1) "Retrofit device" or "device" means any component, equipment, or other device, (except flow measuring instruments or other driving aids) or fuel additive or substance:

(i) Which is designed to be installed in or on an automobile as an addition to, as a replacement for, or through alteration or modification of, any original component, equipment, or other devices, or which is to be added directly to the fuel supply of an automobile by means other than service station fuel dispenser pumps; and

(ii) Which any manufacturer, dealer, or distributor of such device represents will provide higher fuel economy than would have resulted with the automobile as originally equipped, as determined under rules of the Administrator.

* * * * *

(4) "Manufacturer" means a person or company which is engaged in the business of producing or assembling a retrofit device for which a fuel economy improvement claim is made.

* * * * *

3. In § 610.30, it is proposed that paragraph (d) be added as follows:

§ 610.30 General.

* * * * *

(d) For each device the Agency intends to test, the Administrator will make a reasonable effort to give to the manufacturer prior notice of the Agency's intent to test the device, and to provide the manufacturer the opportunity to comment on the specific test design and to attend the test sessions.

Fitness Determination of PEE DEE Air Express, Inc. d.b.a. Trans Southern Airways

AGENCY: Civil Aeronautics Board.

ACTION: Notice of Commuter Air Carrier Fitness Determination—Order 82-12-102, Order to Show Cause.

SUMMARY: The Board is proposing to find that PEE DEE Air Express, Inc. d/b/a Trans Southern Airways is fit, willing, and able to provide commuter air carrier service under section 419(c)(2) of the Federal Aviation Act, as amended, and that the aircraft used in this service will conform applicable safety standards. The complete text of the order is available, as noted below.

DATE: Responses: All interested persons wishing to respond to the board's tentative fitness determination shall serve their responses on all persons listed below no later than January 7, 1983, together with a summary of the testimony, statistical data, and other material relied upon to support the allegations.

ADDRESS: Responses or additional data should be filed with the Special Authories Divisions, Room 915, Civil Aeronautics Board, Washington, D.C. 20428, and with all persons listed in Attachment A to Order 82-12-102.

FOR FURTHER INFORMATION CONTACT: Mrs. Ava Kleinman, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428, (202) 673-5345.

SUPPLEMENTARY INFORMATION: The complete text of Order 82-12-102 is available from the Distritution Section, Room 100, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428. Persons outside the metropolitan area may send a postcard request for Order 82-12-102 to that address.

By the Civil Aeronautics Board: December 21, 1982.

Phyllis T. Kaylor,
Secretary.

CIVIL RIGHTS COMMISSION

Alabama Advisory Committee; Agenda and Notice of Public Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Alabama Advisory Committee to the Commission will convene at 11:00a and will end at 2:30p, on January 26, 1983, at The Madison, Fountain Room C, 120 Madison Avenue, Montgomery, Alabama 36104. The purpose of this meeting is to report, plan and implement selected Advisory Committee projects.

Persons desiring additional information or planning a presentation to the Committee, should contact the Chairperson, Ms. Abigail Turner, P.O. Box 2963, Mobile, Alabama 36601, (205) 433-7409; or the Southern Regional Office, Citizens Trust Bank Building, Room 362, 75 Piedmont Avenue, N.E., Atlanta, Georgia 30303, (404) 242-4391.

The meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission

Dated at Washington, D.C., December 22, 1982.

John I. Binkley,
Advisory Committee Management Officer.

[FR Doc. 82-35097 Filed 12-27-82; 8:45 am]
BILLING CODE 6335-01-M

South Carolina Advisory Committee; Agenda and Notice of Public Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the South Carolina Advisory Committee to the Commission will convene at 1:00p and will end at 3:30p, on January 19, 1983, at The Gressette Senate Office Building, Room 201, State Capitol Complex, Columbia SC 29201. The purpose of this meeting is to discuss proposal for study on utilization of Chapter 2 educational block grant funds (plan implementation of project), report on Commission funding, and discuss program plans for FY 83.

Persons desiring additional information or planning a presentation to the Committee should contact the Chairperson, Dr. Oscar P. Butler, Jr., P.O. Box 1705, South Carolina State College, Orangeburg, SC 29117, (803) 536-7040; or the Southern Regional Office, Citizens Trust Bank Building, Room 362, 75 Piedmont Avenue, N.E., Atlanta, Georgia 30303, (404) 242-4391.

The meeting wil be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., December 22, 1982.

John I. Binkley,
Advisory Committee Management Officer.

BILLING CODE 6335-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

Toshiba Ampex Company, Ltd.; Order

The Office of Export Enforcement, United States Department of Commerce, initiated administrative proceedings pursuant to Section 11(c) of the Export Administration Act of 1979 (50 U.S.C. app. 2401, *et seq.*) (Supp. III 1979) (the "Act") and Part 388, of the Export Administration Regulations (15 CFR Part 368, *et seq.* (1981)) (the "Regulations")

against Toshiba Ampex Company, Ltd. ("TOAMCO"), by issuing a Charging Letter alleging that, in the year 1976, TOAMCO violated §§ 387.2 and 387.4 of the Regulations.

The Department and TOAMCO have entered into a Consent Agreement whereby each party has agreed to settle this matter: (1) By a denial to TOAMCO of all export privileges, subject to certain exceptions, for a period ending three months from the date of this order, (2) by a further denial to TOAMCO of the privilege of participating in any transaction which requires a validated export license or reexport authorization, subject to certain exceptions, for a period ending one year from the date of this order, (3) by payment of a civil penalty by TOAMCO in the amount of $6,000, and (4) by undertaking certain corrective measures to ensure compliance with the Regulations.

The Hearing Commissioner approves the Consent Agreement.

It is therefore ordered

First. TOAMCO is denied export privileges, pursuant to Section 11(c)(2) of the Act, as follows:

A. For a period ending three months from the date of this Order, TOAMCO is denied all export privileges, except as authorized by Paragraph 1 of the Consent Agreement.

B. For a period ending one year from the date of this Order, TOAMCO is denied all privileges of participating, directly or indirectly, in any transaction which requires a validated export license or reexport authorization, except as authorized by Paragraph 1 of the Consent Agreement.

C. The last nine months of the denial period set forth in Paragraph B. above is suspended pursuant to § 388.16(c) of the Regulations, to be waived at the end of this period, provided TOAMCO has committed no violation of the Act, the Regulations, or this Order.

Second. TOAMCO is assessed a civil penalty, pursuant to Section 11(c)(1) of the Act, in the amount of $6,000 to be paid withing 20 days of the service of this Order, in the manner specified in the attached instructions.

Third. Within six months after the date of this Order, TOAMCO shall submit a written report to the Director, Office of Export Enforcement, setting forth in detail the steps TOAMCO has taken to implement the corrective measures specified in the Consent Agreement with respect to continuing operations. Because a copy of such report and accompanying documents may be available for public inspection and copying, TOAMCO may submit, for such public inspection, a duplicate of this report, marked "Public Inspection Copy," and may edit this copy to delete information that would be properly exempt from public disclosure under 5 U.S.C. 552.

Fourth. The Charging Letter, the Consent Agreement and this Order shall be made available for public inspection pursuant to Section 388.20(c) of the Regulations.

This Order is effective immediately.

Dated: December 17, 1982.

Thomas W. Hoya,

Hearing Commissioner.

[FR Doc. 82-35101 Filed 12-27-82; 8:45 am]

BILLING CODE 3510-25-M

National Bureau of Standards

[Docket No. 21206-243]

Proposed Federal Information Processing Standard for Codes for Identification of Hydrologic Units in United States and the Caribbean Outlying Areas

Under the provisions of Public Law 89-306 and Executive Order 11717, the Secretary of Commerce is authorized to establish uniform Federal automatic data processing (ADP) standards. A proposed standard for coding and identification of hydrologic units is being recommended for Federal use. It represents Federal adoption of a data standard developed by the U.S. Geological Survey in cooperation with the U.S. Water Resources Council.

Prior to the submission of this proposal to the Secretary of Commerce for review and approval, it is essential to assure that consideration is given to the views of manufacturers, the public, and State and local governments. The purpose of this notice is to solicit such views.

The proposed Federal Information Processing Standard (FIPS) contains two parts: (1) An announcement part which provides information concerning the applicability, implementation, and maintenance of the standard; and (2) the specifications which adopt the set of codes for identification of hydrologic units published in *Geological Survey Circular 878-A* by the U.S. Geological Survey. Only the announcement is provided in this notice.

Interested parties may obtain copies of the specifications from and submit comments in writing to the Director, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, ATTENTION: Proposed FIPS for Hydrologic Units. To be considered, comments on this proposed standard must be received on or before March 28, 1983.

Written comments received in response to this notice plus written comments obtained from Federal departments and independent agencies will be made part of the public record and will be available for inspection and copying in the Central Reference and Records Inspection Facility, Room 6628, Main Commerce Building, 14th Street between Constitution Avenue and E Street, N.W., Washington, D.C. 20230.

Persons desiring further information about the proposed FIPS for Hydrologic Units may contact Mr. Roy G. Saltman, Data Element and Representation Standards Program, Data Management and Programming Languages Division, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, telephone: 301/921-3491.

Dated: December 22, 1982.

Ernest Ambler,

Director.

Federal Information Processing Standards Publication

1982 (Month) (Day)

Announcing the Standard for Codes for the Identification of Hydrologic Units in the United States and the Caribbean Outlying Areas

Federal Information Processing Standards Publications (FIPS PUBS) are issued by the National Bureau of Standards in accordance with section 111(f)(2) of the Federal Property and Administrative Services Act of 1949, as amended, Public Law 89-306 (79 Stat. 1127), Executive Order 11717 (38 FR 12315), dated May 11, 1973, and Part 6 of Title 15 Code of Federal Regulations.

1. *Name of Standard:* Codes for the Identification of Hydrologic Units in the United States and the Caribbean Outlying Areas, (FIPS PUB——).

2. *Category of Standard:* Federal General Data Standard, Representations and Codes: Earth Science Series.

3. *Explanation:* This standard adopts the set of codes used to identify hydrologic units published in *Geological Survey Circular 878-A*. These codes identify a hydrologic system that divides the United States and Caribbean outlying areas into 21 major regions. These regions are further subdivided into approximately 2150 units that delineate river basins having drainage areas usually greater than 700 square miles. The codes provide a standardized base for use by water-resources organizations in the storage, retrieval, and exchange of hydrologic data; the indexing and inventorying of hydrologic data and information; the cataloging of water-data acquisition activities; and a variety of other applications.

This data standard is one of a series developed under the leadership of the U.S. Geological Survey for use in automated earth-science systems. Earth sciences include

geology, topography, geography, and hydrology, and are concerned with the material and morphology of the Earth and physical forces relating to the Earth.

4. *Approving Authority:* The Secretary of Commerce.

5. *Maintenance Agency:* U.S. Geological Survey, Water Resources Division, Office of Water Data Coordination, 417 National Center, Reston, VA 22092. Questions concerning the list of entities and codes should be addressed to the Office of Water Data Coordination, which will make all necessary amendments to the standard. The Geological Survey has assumed the leadership in developing and maintaining earth-science data element and representation standards under the terms of a Memorandum of Understanding signed in February 1980 by the National Bureau of Standards of the Department of Commerce and the Geological Survey, a bureau of the Department of the Interior.

The Maintenance Agency is responsible for the content of the standard and will provide the National Bureau of Standards with information on adopted changes. Change notices to the standard will be issued by the National Bureau of Standards. Users of the standard who need to be notified of changes may complete the change request form included in this publication and return the form to the address indicated.

6. *Cross Index:* None.

7. *Applicability:* This Federal general data element and representation standard is made available for data interchange among executive departments and independent agencies and for Federal data interchange with the non-Federal sector including industry, State, local, and other governments, and the public at large.

8. *Implementation Schedule:* This standard becomes effective upon publication in the **Federal Register** of an announcement by the National Bureau of Standards of approval by the Secretary of Commerce. Use by Federal agencies is encouraged when such use contributes to operational benefits, efficiency, or economy.

9. *Specifications:* This standard adopts U.S. Geological Survey Circular 878–A, *Codes for the Identification of Hydrologic Units in the United States and the Caribbean Outlying Areas*, July, 1981, Reston, VA, except for cataloging units 21030001 (Panama Canal Zone) and 21030003 (Roncador and Serrana Banks), which are deleted.

10. *Where To Obtain Copies of the Standard:* Copies of this publication and the associated specifications are available for sale by the National Technical Information Service (NTIS), U.S. Department of Commerce, Springfield, VA 22161. When ordering, refer to Federal Information Processing Standards Publication —— (FIPS PUB ——) and title. If microfiche is desired, this should be specified.

Inquiries concerning the FIPS data element standards program may be directed to the Program Manager, Data Element and Representation Standards, National Bureau of Standards, Washington, D.C. 20234; telephone (301) 921–3491.

[FR Doc. 82–35086 Filed 12–27–82; 8:45 am]
BILLING CODE 3510–CN–M

National Oceanic and Atmospheric Administration

North Pacific Fishery Management Council; Halibut Moratorium; Public Hearings

AGENCY: National Oceanic and Atmospheric Administration (NOAA) Commerce.

ACTION: Public Hearings.

SUMMARY: The North Pacific Fishery Management Council (Council) and the National Marine Fisheries Service, Alaska Region, will hold public hearings on a proposed moratorium on participation in the Alaska halibut fishery. These will be the first three in a series of proposed hearings.

DATES AND LOCATIONS: The first hearing will be held in Juneau, Alaska, from 1:00 p.m. to 7:00 p.m. on Friday, January 7, 1983, in the Gastineau Room of the Baranof Hotel. The second hearing will be held in Petersburg, Alaska, from 1:00 p.m. to 7:00 p.m. on Saturday, January 8, 1983, in the City Council Chambers, Municipal Building. The third hearing will be held in Ketchikan, Alaska, from 3:30 p.m. to 7:00 p.m. on Sunday, January 9, 1982, in the Conference Room 207, State Office Building, 415 Main Street. Additional hearings planned for Seattle and Kodiak will be announced at a later date. Winter travel in Alaska is sometimes difficult, making it necessary to consider alternative hearing locations and times. Cancellations and new locations, if necessary, will be publicized locally by telephone, radio, newspaper, and television.

FOR FURTHER INFORMATION CONTACT: Jim H. Branson, Executive Director, North Pacific Fishery Management Council, P.O. Box 3136 DDT (605 West Fourth Avenue, Room 166), Anchorage, Alaska 99510; telephone (907) 274–4563.

SUPPLEMENTARY INFORMATION: The proposed rule which is currently under Administration review would impose a moratorium on the entry of certain fishermen into the halibut fishery in waters under U.S. jurisdiction in the North Pacific Ocean International Pacific Halibut Commission (IPHC management area 2C and 3) and that part of the Bering Sea and Aleutians south of 56°N Latitude (IPHC management area 4). As currently written, the proposed rule would forbid any person to harvest and sell halibut for commercial purposes from May 1, 1983, through December 31, 1985, who had not lawfully harvested and sold halibut from those waters between January 1, 1978, and December 31, 1982. This action is deemed necessary by the Council to prevent a surge of new participation in the fishery in hopes of obtaining rights under a limited entry system currently under Council consideration.

Dated: December 22, 1983.

Joe P. Clem

Acting Chief, Operations Coordination Group, National Marine Fisheries Service.

BILLING CODE 3510–22–M

Office of the Secretary

Agency Forms Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35)

Agency: International Trade Administration
Title: Trade Opportunity Program (TOP) Registration Form
Form Number(s): Agency–ITA–427P; OMB—0625–0046
Type of Request: Extension
Burden: (9,000 respondents; 2,250 reporting hours
Needs and uses: Companies subscribe to the TOP Notice Service of Bulletin Service which enables a company to receive Trade opportunities according to its overseas interest. The form is used for registration purposes and it allows subscribers to select the specific trade opportunities information suited to their needs.
Affected public: U.S. manufactures that subscribe to the TOP Notice Service or Bulletin Service
Frequency: On occasion
Respondent's obligation: Voluntary
OMB Desk Officer: Ken Allen, 395–3785.

Agency: International Trade Administration
Title: Titanium Sponge and Ingot
Form Number(s): Agency—ITA–0945;' OMB—None
Type of Request: New
Burden: 20 respondents; 20 reporting hours
Needs and uses: The Federal Emergency Management Agency needs capacity data for national stockpiling planning and industry planning. The Department of Defense will use the data for continuing mobilization planning programs.
Affected public: Producers of Titanium Sponge and Ingot
Frequency: Nonrecurring
Respondent's obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785.

Agency: International Trade Administration
Title: Reports of Requests for Restricitive Trade Practice or Boycott—Single for Multiple Transaction
Form Number(s): Agency—ITA–621P, 6051P, 6051P-a; OMB—0625–0036

Type of Request: Extension
Burden: 1,700 respondents; 35,250 reporting hours
Needs and uses: In order to enable the Department to enforce compliance with the antiboycott law, records are to be retained and certain reports must be filed. These requirements permit the Department to monitor boycott requests.
Affected public: Any U.S. industry or person which receives a request to take any action having the effect of furthering or supporting an restrictive trade practice or boycott.
Frequency: Quarterly
Respondent's obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785.

Agency: Minority Business Development Agency
Title: MBDA Business Development Report
Form Number(s): Agency—MBDA–115; OMB—0640–0005
Type of Request: Revision
Burden: 100 respondents; 10,000 reporting hours
Needs and uses: The Business Development Report collects statistical information on clients assisted by each Minority Business Development Center. The information is used to evaluate the performance of each reporting organization.
Affected public: MBDA Minority Business Development Centers report this collection each quarter.
Frequency: Quarterly
Respondent's obligation: Required to obtain or retain benefit
OMBN Desk Officer: Tim Sprehe, 395–4814.

Agency: National Oceanic and Atmospheric Administration
Title: Interim Capital Construction Fund Family of Forms (merge of Interim Capital Construction Agreement and Certificate of Construction/Reconstruction)
Form Number(s): Agency—NOAA–88–14; OMB—0640–0090 and 0648–0091
Type of Request: Revision
Burden: 500 respondents; 2,250 reporting hours
Needs and uses: Information is used to establish eligibility of applicant for financial assistance benefits, to formalize the Agreement controlling the applicant's objectives and use of funds, and to certify completion of the Agreement's objectives.
Affected public: U.S. Fishermen applying for benefits under this program
Frequency: On occasion
Respondent's obligation: Required to obtain or retain benefit
OMB Desk Officer: Ken Allen, 395–3785.

Copies of the above information collection proposals can be obtained by calling or writing DOC Clearance Officer, Edward Michals (202) 377–4217, Department of Commerce, Room 6622, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Written comments and recommendations for the proposed information collections should be sent to the respective OMB Desk Officer, Room 3235, New Executive Office Building, Washington, D.C. 20503.

Edward Michals,
Departmental Clearance Officer.

BILLING CODE 3510–CW–M

Announcement of Public Availability of Report on Closed Meeting of Advisory Committees

AGENCY: Department of Commerce.

ACTION: Announcing Public Availability of Report on Closed Meetings of Advisory Committees.

SUMMARY: The Department of Commerce has prepared its report on the activities of closed or partially-closed meetings of advisory committees, as required by the Federal Advisory Committee Act and Office of Management and Budget Circular A–63 of March 1974.

ADDRESSES: Copies of the reports have been filed and are available for public inspection at two locations:

Library of Congress, Newspaper and Current Periodicals Reading Room, Room 1026, John Adams Building, 2nd and Independence Avenue, S.E. Washington, D.C. 20540.

Department of Commerce, Central Reference and Records Inspection Facility, Room 6628, Herbert C. Hoover Building, 14th and Constitution Avenue, N.W., Washington, D.C. 20230, telephone (202) 377–4217, Attention Mrs. G. LeBoo or Mr. A. Pinkney.

SUPPLEMENTARY INFORMATION: The reports cover the closed and partially-closed meetings held in 1981 for 30 Department of Commerce advisory committees and several subcommittees, the names of which are listed below.

Committee (Subcommittee)

Advisory Committee on East-West Trade
Committee of Chairmen of the Industry Secor Advisory Committee (ISAC) for Trade Policy Matters (TPM)
Computer Peripherals, Components, and Related Test Equipment Technical Advisory Committee
Computer Systems Technical Advisory Committee
—Hardware Subcommittee
Electronic Instrumentation Technical Advisory Committee
Industry Functional Advisory Committee on Customs Valuations for Trade Policy Matters
Industry Functional Advisory committee on Standards for Trade Policy Matters
ISAC on Aerospace Equipment for TPM
ISAC on Capital Goods for TPM
ISAC on Chemical and Allied Products for TPM
ISAC on Consumer Goods for TPM
ISAC on Electronics and Instrumentation for TPM
ISAC on Ferrous Ores and Metals for TPM
ISAC on Footwear, Leather, and Leather Products for TPM
ISAC on Industrial and Construction Materials and Supplies for TPM
ISAC on Lumber and Wood Products for TPM
ISAC on Nonferrous Ores and Metals for TPM
ISAC on Paper and Paper Products for TPM
ISAC on Services for TPM
ISAC on Smalll and Minority Business for TPM
ISAC on Textiles and Apparel for TPM
ISAC on Transportation, Construction, and Agricultural Equipment for TPM
ISAC on Wholesaling and Retailing for TPM
National Advisory Committee on Oceans and Atmosphere
New England Fishery Management Council
Numerically Controlled Machine Tool Technical Advisory Committee
Pacific Fishery Management Council
Semiconductor Technical Advisory Committee
—Discrete Semiconductor Device Subcommittee
—Microcircuit Subcommittee
—Semiconductor Manufacturing Materials and Equipment Subcommittee
Telecommunications Equipment Technical Advisory Committee
—Switching Subcommittee
Western Pacific Fishery Management Council

At the end of the year the Department of Commerce had 45 other advisory committees which did not hold any closed or partially-closed meetings during the reporting period.

FOR FURTHER INFORMATIN CONTACT: Mrs. Yvonne Barnes, Committee Management Analyst, U.S. Department of Commerce, Washington, D.C. 20230, telephone (202) 377–4217.

Dated: December 3, 1982

Marilyn S. McLennan
Chief, Information Policy and Management Division, Office of Information Management.

BILLING CODE 3510–CW–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Intent To Impose Controls on Imports of Cotton, Wool, and Man-Made Fiber Textiles and Apparel from the People's Republic of China

The Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of September 17, 1980, as amended, between the Governments of the United States and the People's Republic of China is scheduled to expire on December 31, 1982. Negotiations have been held in an effort to reach a new agreement. To date, no new agreement has been reached; however, negotiations are expected to continue in an attempt to conclude a mutually acceptable agreement.

The purpose of this notice is to advise the public that, if no mutually satisfactory solution is reached by January 15, 1983, the United States Government will take further action under Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), to control imports of cotton, wool, and man-made fiber textile products from the People's Republic of China, effective on January 1, 1983.

In order to carry out the Arrangement Regarding International Trade in Textiles, the MFA, Section 204 authorizes regulation of textiles and textile products from non-signatories to the MFA. These import controls are deemed necessary to avoid frustration of the purposes of the MFA, under which the textile trade of signatory countries is controlled.

In addition, Article 8 of the MFA requires the United States, as a participating country, to ensure that trade in textiles and textile products from MFA member countries is not more severely restrained than trade in similar goods from non-participating countries which are causing or threatening market disruption.

For the above reasons, it has been determined that, should no arrangement be reached by January 15, 1983, the categories listed below should be controlled, effective as of January 1, 1983, for the merchandise exported during the periods indicated below, produced or manufactured in the People's Republic of China, at the following levels.

Category	Limit	Time period (Jan. 1 to Dec. 31, 1983)
315	[1] 92,500,000	
331	[2] 3,382,165	
334	[3] 192,000	
335	[3] 265,000	
338	[3] 601,929	
338 pt	[3] 338,351	
339	[3] 865,280	
340	[3] 584,064	
341	[3] 443,456	
342	[3] 94,744	
347/348	[3] 1,414,672	
445/446	[3] 252,500	
448	[3] 13,060	
631	[3] 433,879	
645/646	[3] 583,495	
649	[3] 485,618	

[1] Square yards.
[2] Dozen pairs.
[3] Dozen.

The levels for Categories 335, 342, 445/446, and 645/646 may be adjusted for swing available from other categories under unilateral restraint up to the amounts specified, upon request by the Government of the People's Republic of China. The amount available for Category 335 is 18,550 dozen; for Category 342, 4,737 dozen; for Category 445/446, 12/625 dozen; and for 645/646, 35,010 dozen.

Category	Limit (dozen)	Time period (July 30, 1982 to July 29, 1983)

BILLING CODE 3510-25-M

COPYRIGHT ROYALTY TRIBUNAL

[Docket No. CRT 81-1]

1980 Cable Royalty Distribution Proceeding

AGENCY: Copyright Royalty Tribunal.

ACTION: Notice.

FOR FURTHER INFORMATION CONTACT: Eddie W. Ray, Chairman, Copyright Royalty Tribunal, 1111 20th Street, NW., Rm. 450, Washington, D.C. 20036, 202-653-5175.

SUPPLEMENTARY INFORMATION: 17 USC 111(d)(4) authorizes the Copyright Royalty Tribunal (Tribunal) to distribute royalty fees paid by cable systems to certain copyright owners who have filed claims with the Tribunal. The procedures for distribution of the cable royalty fees are set forth at 17 USC 111(d)(5).

The Tribunal on March 2, 1982 (47 FR 8808) issued public notice declaring the existence of a controversy concerning the distribution among copyright owners of cable royalty fees paid by cable systems for secondary transmission during 1980 pursuant to 17 U.S.C. 111(d)(5)(B). In accordance with the conduct of the 1978 and 1979 proceedings, the Tribunal resolved that the distribution proceeding would be conducted in two phases. Phase I would determine the allocation of cable royalties to specific groups of claimants. Phase II would allocate cable royalties to individual claimants within each group.

In order to permit the Tribunal to proceed to Phase II of this proceeding, the Tribunal is publishing this summary statement of its Phase I determinations. In accordance with 17 U.S.C. 803(b), a full and complete statement of the Tribunal's conclusions of law, findings of fact, and other relevant determinations will be included in the Tribunal's final determination. Final distribution of cable royalties to claimants will be made at the conclusion of this proceeding. This notice does not constitute a "final determination" pursuant to 17 U.S.C. 803(b) of a "final decision" under 17 U.S.C. 80(e) and 17 U.S.C. 810.

The Tribunal, in its final determination, will provide for the following allocation to categories of the specified percentage of the sum available for distribution:

1. Motion Picture Association of America and other program syndicators including claimants for programs syndicated by commercial television—70%.
2. Joint Sports Claimants—15%.

3. Public Broadcasting Service (for all purposes)—5.25%.
4. U.S. Television Broadcasters—4.25%.
5. Music Performing Rights Societies—4.50%.
6. Canadian Claimants (except radio)—.75%.
7. National Public Radio—.25%.
8. Devotional Claimants—0.

No award for any U.S. commercial radio claim. The award for commercial television covers all copyrightable interests, except program syndication.

In preparation for Phase II of this proceeding, the Tribunal directs that not later than January 12, 1983, each claimant category shall notify the Tribunal of any voluntary agreements for distribution of royalty fees among the claimants within a category. The Tribunal further directs that not later than January 12, 1983 any claimant desiring to present evidence during Phase II shall notify the Tribunal of such intention, and the Phase II issues to be decided.

The Tribunal directs that not later than January 18, 1983 parties shall file with the Tribunal and exchange with other parties their direct, written cases, including list of witnesses, prehearing statements, any written witness statements, and all documentary evidence.

Phase II hearings will commence at 10:00 a.m., January 25, 1983 at a location to be announced. Dates and procedures for Phase II rebuttal cases will be announced later.

Commissioner Burg dissents from the Phase I royalty allocation.

All communications on the above matters shall be addressed to Edward W. Ray, Chairman, Copyright Royalty Tribunal, 1111 20th Street, NW, Suite 450, Washington, D.C. 20036, (202) 653–5175.

Dated: December 21, 1982.

Edward W. Ray,

Chairman.

Public Information Collection Requirement Submitted to OMB for Review

The Department of Defense has submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Each entry contains the following information: (1) Type of Submission; (2) Title of Information Collection and Form Number if applicable; (3) Abstract statement of the need for and the uses to be made of the information collected; (4) Type of Respondent; (5) An estimate of the number of responses; (6) An estimate of the total number of hours needed to provide the information; (7) To whom comments regarding the information collection are to be forwarded; (8) The point of contact from whom a copy of the information proposal may be obtained.

Extension

ASVAB Validation Against Benchmark Industrial Business Occupations.

This contract is designed to validate the test performance of individuals who take the Armed Services Vocational Aptitude Battery by comparing that performance on the test to their work performance. This validation is necessary in order to provide pertinent job validity information to high school counselors who will be counseling students going into the world of work. Without this validity information, the credibility of the program will suffer greatly.

Vocational training organizations: 4,000 responses; 1,000 hours.

Forward comments to Edward Springer, OMB Desk Officer, Room 3235, NEOB, Washington, D.C. 20503, and John V. Wenderoth, DOD Clearance Officer, OASD(C), DIRMS, IRAD, Room 1A658, Pentagon, Washington, D.C. 20301, telephone (202) 697–1195.

A copy of the information collection proposal may be obtained from David O. Cochran, DAAC–OPI, Room 1D667, Pentagon, Washington, D.C. 20310, telephone (202) 695–5111.

Dated: December 21, 1982.

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

Privacy Act of 1974; Amendments to Systems of Records

AGENCY: Department of the Army, DoD.

ACTION: Addition, deletion of, and amendments to notices for systems of records.

SUMMARY: The Department of the Army proposes to add 1, delete 15, and amend 4 system notices for systems of records suject to the Privacy Act of 1974. Following identification of changes, the amended notices are set forth in their entirety below.

DATE: Actions shall be effective January 27, 1983 unless public comments are received which result in a contrary determination.

ADDRESS: Comments may be submitted to Headquarters, Department of the Army, ATTN: DAAG–AMR–S, Room 1146, Hoffman Building 1, 2641 Eisenhower Avenue, Alexandria, VA 22331.

FOR FURTHER INFORMATION CONTACT: Mrs. Dorothy Karkanen, Office of The Adjutant General, Department of the Army, at the above address; telephone: 703/325–6163

SUPPLEMENTARY INFORMATION: The Department of the Army inventory of system notices for systems of records subject to the Privacy Act of 1974 appeared in the **Federal Register** at:

FR Doc. 82–674 (47 FR 2544), January 18, 1982
FR Doc. 82–5277 (47 FR 8610), March 1, 1982
FR Doc. 82–11002 (47 FR 17324), April 22, 1982
FR Doc. 82–12993 (47 FR 20654), May 13, 1982

SYSTEM NAME:

Medical Facility Administration Records.

SYSTEM LOCATION:

Medical centers, hospitals, health clinics. Addresses are in the appendix to the Army's inventory of system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who are authorized to use services of an Army medical facility.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information in this system generally relates to administration at a medical facility, as opposed to an individual's health/care. Typically, records comprise birth; death; accountability of patients (e.g., bed charts, transfer, leave requests, etc.); receipts for patients' personal property; prescriptions for medications, eye glasses; hearing aids, prosthetic devices; diet/special nourishment plans; blood donor; charges, receipts and accounting documents of payments for medical/dental services; and similar records/reports.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army to enhance efficient management practices and effective patient administration.

Birth records may be disclosed to States' Bureau of Vital Statistics; overseas birth records are disclosed to the Department of State.

Death records may be disclosed to Federal, State, and private sector authorities having legitimate need therefor.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Cards; paper records in file folders; microfiche.

RETRIEVABILITY:

By individual's surname or SSN.

SAFEGUARDS:

Records are maintained within secured buildings in areas accessible only to persons having official need therefor who are properly trained and screened.

RETENTION AND DISPOSAL:

Records of transient value (e.g., issuance of spectacles/prosthetics, diet/food plan, etc.) are destroyed within 3 months of patient's release. Other records have varying periods of retention as follows:

Record of birth/death: 2 years.

Patient accountability (admission/discharge): 5 years.

Blood donor: 5 years or when no longer required for medical/legal reasons, whichever is later.

Record of patient's personal property: 3 years.

SYSTEM MANAGER(S) AND ADDRESS:

The Surgeon General, Headquarters, Department of the Army, The Pentagon, Washington, DC 20310.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether or not information exists on them in this system should contact the commander at the medical facility where service/care was provided. Inquirer should furnish full name, SSN, details which will assist in locating record, and signature.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information from this system of records should provide information in "Notification procedure".

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; medical facility reports.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

System name:

Users' Profile System (44 FR 74006), December 17, 1979.

Reason:

Records are covered in proposed amended system notice A1401.06aDAAG appearing in this **Federal Register.**

Amendments

AO314.24DAAG

System name:

NAF Employee Insurance Files (44 FR 73798), December 17, 1979.

Changes:

System name:

After "Insurance", insert "and Retirement".

Authority:

Delete "PL 591, 93rd Congress"; substitute therefor: "Pub. L. 95–595".

Notification procedure:

Change entry to read: "Information may be obtained from: HQDA (DAAG–NFI–B), Room 1248, Hoffman Building 1, 2461 Eisenhower Avenue, Alexandria, VA 22331; (703) 325–9730."

Contesting record procedures:

Delete entry; substitute therefor: "The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505)."

AO708.02aDAPC

System name:

Official Military Personnel file (46 FR 6469), January 21, 1981.

Changes:

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Before the final paragraph, insert the following:

"Federal Emergency Management Agency: to facilitate participation of Army members in civil defense planning, training, and emergency operations pursuant to the military support of civil defense as prescribed by DOD Directive 3025.10 and Army Regulation 500–70.

"Other elements of the Federal Government pursuant to their respective authority and responsibility."

AO715.01aDAPC

System name:

Personnel Data Card (44 FR 73892), December 17, 1979.

Changes.

System name:

Insert "SIDPERS" prior to "Personnel".

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Retention and disposal:

Change "8 years" to "1 year"; change period to semi-colon and add: "they are then shipped to the National Personnel Records Center (MPR), St. Louis, MO where they are retained 74 additional years before being destroyed."

Contesting record procedures:

After "determinations", delete remainder and insert in lieu thereof: "are contained in Army Regulation 340–21 (32 CFR Part 505)."

A1401.08aDAAG

System name:

Alphabetical Library Borrowers' File (44 FR 73999), December 17, 1979.

Changes:

System Identification:

Substitute ".07b" for ".08a".

System name:

Change title to read: "Library Borrowers/Users' Profile Files".

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Delete entry; substitute therefore: "By the Army to identify individuals authorized to borrow library materials; to insure that all library property is returned and individual's account is cleared; and to provide librarian useful information for selecting, ordering and meeting user requirements."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Retention and disposal:

Delete entry; substitute therefore: "Records are destroyed when no longer needed to obtain and/or control library materials."

System manager(s) and address:

After "Army", delete remainder and substitute therefor: "DAAG–LM, 2461 Eisenhower Avenue, Alexandria, VA 22331."

A0314.24DAAG

SYSTEM NAME:

Nonappropriated Fund Employee Insurance and Retirement Files.

SYSTEM LOCATION:

HQDA, The Adjutant General's Office, Club and Community Activities Management Directorate, 2461 Eisenhower Avenue, Alexandria, VA 22331.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Army nonappropriate fund (NAF) employees who participate in the NAF Group Insurance and Retirement Plan.

CATEGORIES OF RECORD IN THE SYSTEM:

Monthly and cumulative insurance and retirement deductions for each NAF employee, together with employee's name and SSN.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 95–595; 26 U.S.C. 401a.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLIDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army to substantiate initial enrollment and subsequent changes in the NAF Group Insurance and Retirement Plan; to verify monthly deductions and to compute annuities, refunds and death benefits.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes/disks, microfiche, paper records.

RETRIEVABILITY:

By individual's surname within each NAF activity.

SAFEGUARDS:

Records are located in controlled areas within building having security guards; information is accessed only by individuals who are properly cleared and trained and have need therefor in the performance of official duties.

RETENTION AND DISPOSAL:

Records are permanent. They are retained in active file until individual terminates employment, retires or is deceased; held 1 additional year in inactive file, and sebquently retired to the Washington National Records Center, Suitland, MD.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army, Club and Community Activities Management Directorate, 2461 Eisenhower Avenue, Alexandria, VA 22331.

NOTIFICATION PROCEDURE:

Information may be obtained from HQDA (DAAG–NGI–B), Room 1248, Hoffman Building 1, 2461 Eisenhower Avenue, Alexandria, VA., (703) 325–9730.

RECORD ACCESS PROCEDURES:

Individuals should address their request as specified in "Notification procedure" and furnish their full name, Social Security Account Number, NAF activity in which employed, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual; NAF Personnel Offices.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0708.02aDAPC

SYSTEM NAME:

Official Military Personnel File.

SYSTEM LOCATION:

Primary: Personnel Information Systems Directorate, US Army Military Personnel Center (MILPERCEN), 200 Stovall Street, Alexandria, VA 22332.

Secondary: US Army Enlisted Records and Evaluation Center; US Army Reserve Components Personnel and Administration Center; and National Personnel Records Center, General Services Administration.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Each individual on active duty in the US Army in enlisted, appointed, or commissioned status, or in a USA or AUS retired status; each individual not on active duty who has a reserve status in an enlisted, appointed or commissioned status, or in a retired reserve status; and each individual who was an enlisted, appointed, or commissioned member of the US Army and who was completely separated by discharge, death, or other termination of his/her military status.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records include enlistment contract; Veterans Administration laws; physical evaluation board proceedings; military occupational specialty data; statement of service; qualification record; group life insurance election; emergency data; application for appointment; qualification/evaluation report; oath of office; medical examination; security questionnaire; application for retired pay; application for correction of military records; application for active duty; transfer or discharge report; active

duty report; voluntary reduction; line of duty and misconduct determinations; discharge or separation reviews; police record checks consent/declaration of parent/guardian; Army ROTC supplemental agreement; award recommendations; academic reports; casualty reports; US field medical card; retirement points; deferment; pre-induction processing and commissioning data; transcripts of military records; summary sheets review of conscientious objector; election of options; oath of enlistment extensions; survivor benefit plans; efficiency reports; records of proceeding, Title 10 U.S.C. section 815 appellate actions; determination of moral eligibility; waiver of disqualifications; temporary disability record; change of name; statements for enlistment; acknowledgments of service requirements; retired benefits; application for review of physical evaluation board and disability board; appointments; designations; evaluations; extensions; birth certificates; photographs; citizenship statements and status; educational constructive credit/transcripts; flight status board reviews; assignment agreements/limitations/wiavers/election and travel; efficiency appeals; promotion/reduction recommendations/approvals/declinations/announcements/notifications/reconsiderations/worksheets/elections/letters of notification to deferred officers and promotion passover notifications; absence without leave and desertion records; FBI reports; SSA correspondence; miscellaneous correspondence, documents, and military orders relating to military service including information pertaining to dependents, inter-service action, in-service details, determinations, reliefs, component; awards, pay entitlements, releases, transfers, and other military service data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army: to maintain, use, collect, and disseminate information with respect to an individual holding a military status or former military status, including regular reserve, retired, former member separated, or deceased. Information pertains to individual's former, current, and subsequent to active duty status; birth; citizenship; parentage; home of record; education; training; dependents; travel; language proficiency; former and current associations; brotherhood, memberships and related affiliations with organizations and like collective elements which service member divulges as having meaning, substance, or significance to his/her military service status; assignment history; and other related military experiences, qualifications training, preferences, restrictions, and status actions.

Department of State: to issue passport/visa/ to document persona non-grata status, attache' assignments, and related administration of personnel assigned and performing duty with the Department of State.

Department of Treasury: to issue bonds; to collect and record income taxes.

Department of Defense: to authorize and consummate interdepartmental actions relating to inter-service requirements pertaining to the Army, Navy, Air Force, and Coast Guard (when the latter is operational under DOE).

Department of Justice: to file fingerprints; to perform intelligence function.

Department of Agriculture: to coordinate matters related to its advanced education program.

Department of labor: to accomplish actions required under Federal Employees Compensation Act.

Department of Health and Human Services: to provide services authorized by medical, health, and related functions authorized by 10 U.S.C., sections 1074–1079.

Nuclear Regulatory Commission: to accomplish requirements incident to nuclear accident/incident control officer functions.

American Red Cross: to accomplish coordination and complete service functions including blood donor programs and emergency investigative support and notifications.

Civil Aeronautics Board: to accomplish flight qualifications, certification, and licensing actions.

Federal Aviation Agency: to determine rating and certification (including medical) of in-service aviators.

General Services Administration: for records storage and archival services and for printing of directories and related material which includes personal data.

US Postal Service: to accomplish postal service authorization involving postal officers and mail clerk authorizations.

Veterans Administration: to provide information relating to benefits, pensions, in-service loans, insurance, and appropriate hospital support.

Bureau of Immigration and Naturalization: to comply with statutes relating to alien registration and annual residence/location.

Office of the President of the United States of America: to exchange required information relating to White House Fellows, regular Army promotions, aides, and related support functions staffed by Army members.

Federal Maritime Commission: to obtain licenses for military members accredited as captain, mate, and harbor master for duty as Transportation Corps warrant officer.

Each of the several States, and US possessions: to support state bonus applications; to fulfill income tax requirements appropriate to the service member's home of record; to record name changes in state bureaus of vital statistics; and for National Guard affairs.

Civilian educational and training institutions: to accomplish student registration, tuition support, tests, and related requirements incident to in-service education programs in compliance with 10 U.S.C., Chapters 102 and 103.

Social Security Administration: to obtain or verify Social Security Account Number; to transmit Federal Insurance Compensation Act deductions from Member's wages.

Department of Transportation: to coordinate and exchange necessary information pertaining to inter-service relationships between US Coast Guard and US Army when service members perform duty with the USCG.

Civil authorities: for compliance with 10 U.S.C. 814.

Department of the Air Force: to administer personnel support for Army members assigned for duty with the Air Force.

Department of the Navy: to administer personnel support for Army members assigned for duty with the Navy or Marine Corps.

US International Communication Agency: to investigate applicants for sensitive positions pursuant to Executive Order 10450.

Federal Emergency Management Agency: to facilitate participation of Army members in civil defense planning, training, and emergency operations pursuant to the military support of civil defense as prescribed by DOD Directive 3025.10 and Army Regulation 500–70.

Other elements of the Federal Government pursuant to their respective authority and responsibility.

Record of the identity, diagnosis, prognosis, or treatment of any client/

patient, irrespective of whether or when he/she ceases to be a client/patient, maintained in connection with the performance of any alcohol or drug abuse prevention and treatment function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, shall, except as provided therein, be confidential and be disclosed only for the purposes and under the circumstances expressly authorized in 21 U.S.C. 1175 and 42 U.S.C. 4582. These statutes take precedence over the Privacy Act of 1974 in regard to accessibility of such records except to the individual to whom the record pertains. Blanket "routine uses" identified in 44 FR 72728 do not apply to these records.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Microfiche stored randomly in electro-mechanical storage/retrieval devices. Temporary files consist of paper records in file folders; selected data automated for management purposes on tapes, disks, cards, and other computer media.

RETRIEVABILITY:

Alphabetically by surname; automated data retrieved by name, SSN, or ADP parameter; records of reserve, retired, and deceased persons retrieved by SSN terminal digit sequence.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel; automated records are further protected by authorized passwork system for access terminals, controlled access to operation locations, and controlled output distribution.

RETENTION AND DISPOSAL:

Microfiche and paper records are permanent; they are retained in active file until termination of service, held in inactive file in accordance with retention and retirement schedule and subsequently retired to the National Personnel Records Center, St Louis, MO.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Inquiries for records of commissioned or warrant officers (including members of Reserve Components) serving on active duty should be sent to: Commander, US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332; (703) 325–9606.

Inquiries for records of enlisted members (including members of Reserve Components) serving on active duty should be sent to: Commander, US Army Enlisted Records and Evaluation Center, Ft Benjamin Harrison, IN 46249; (317) 542–3361.

Inquiries for records of commissioned officers or warrant officers in a reserve status not on active duty, or Army enlisted reservists not on active duty, or members of the National Guard who performed active duty, or commissioned officers, warrant officers, or enlisted members in a retired status should be sent to: Commander, US Army Reserve Components Personnel and Administration Center, 9700 Page Boulevard, St Louis, MO 63132; (314) 268–7770.

Inquiries for records of commissioned officers and warrant officers who were completely separated from the service after 30 June 1917, or enlisted members who were completely separated after 31 October 1912 should be sent to: Chief, National Personnel Records Center, General Services Administration, 9700 Page Boulevard, St Louis, MO 63132; (314) 268–7262.

RECORD ACCESS PROCEDURES:

Written requests should contain full name of individual, service identification number, current or former military status, and appropriate return address.

Personal visits may be made to the appropriate location based on the individual's status; individual should provide commonly acceptable identification such as valid driver's license, employment identification, and verbal information relating to his/her military status.

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

Enlistment, appointment, or commission related forms pertaining to individual's military status; academic, training, or qualifications records acquired prior to or during military service; correspondence, forms, records, documents, and other relevant papers originating in or collected by DA staff agencies and commands, other Federal agencies, commission, boards, or authority, state and local governmental entities; civilian education and training institutions; and members of the public when such information obtained directly concerns the military service member.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A0715.01aDAPC

SYSTEM NAME:

SIDPERS Personnel Data Card.

SYSTEM LOCATION:

Each active Army unit furnishing personnel and strength data to the Department of the Army.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty Army members (commissioned, warrant, and enlisted).

CATEGORIES OF RECORDS IN THE SYSTEM:

DA Form 2475–2 which includes individual's name, Social Security Number, organization, unit, station, grade and pay group, bloodtype, duty assignment, duty phone, local address and phone number, name and address of next-of-kin, home of record, place of birth, awards, military occupational specialty evaluation data, and unit commander's name and grade. In addition, records include actions reported as SIDPERS change report remarks on members assigned/attached to a military unit bearing on the legal and financial rights of the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., section 301; 10 U.S.C., section 3012.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Army: to account for and maintain data relating to each assigned and/or attached active military person; to support the accounting of and reporting function incident to maintenance of the Officer Master File, Enlisted Master File, the Military Personnel Records Jacket, and the Official Military Personnel File; for personnel management actions and reports.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; magnetic tapes and disks.

RETRIEVABILITY:

By individual's surname; SSN.

SAFEGUARDS:

Records are maintained in secured areas accessible only to authorized

personnel who are trained, cleared, and have official need for the information.

RETENTION AND DISPOSAL:

Records are retained in the reporting unit for 1 year following the date of the last entry on the personnel data card; they are than shipped to the National Personnel Records Center (MPR), St. Louis, MO where they are retained 74 additional years before being destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, US Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the reporting unit of assignment/attachment of the individual.

RECORD ACCESS PROCEDURES:

Individual should write or visit the reporting unit of assignment/attachment, furnishing name, SSN, military or other normally acceptable indentification, and details that will assist in locating the information sought.

CONTESTING RECORD PROCEDURES:

The Army's rules for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the Enlistment Record (DD Form 4), Report of Separation (DD Form 214) for reenlistees, Extension of enlistment (DA Form 1695), Special Orders issued by enlistment/reenlistment authorities, personal information furnished by the individual, documents/records/reports/forms originated within the reporting unit.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

A1401.07bDAAG

SYSTEM NAME:

Library Borrowers'/Users' Profile Files.

SYSTEM LOCATION:

Libraries on Army installations/activities. Addresses are contained in the appendix to the Army's inventory of system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Authorized users of Army library facilities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, SSN, and telephone number of the user.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C., section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Army to identify individuals authorized to borrow library materials; to insure that all library property is returned and individual's account is cleared; and to provide librarian useful information for selecting, ordering, and meeting user requirements.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Card files, magnetic tapes, computer printouts.

RETRIEVABILITY:

By user's surname, SSN, and/or residence.

SAFEGUARDS:

Information is maintained in areas accessible only to authorized persons who have official need therefor. Libraries are secured during non-duty hours.

RETENTION AND DISPOSAL:

Records are destroyed when no longer needed to obtain and/or control library materials.

SYSTEM MANAGER(S) AND ADDRESS:

The Adjutant General, Headquarters, Department of the Army (DAAG–LM), 2461 Eisenhower Avenue, Alexandria, VA 22331.

NOTIFICATION PROCEDURE:

Individuals desiring to know whether this system contains information on them should inquired of the specific library that provided services, furnishing their name, period in which a user, and any other information that would assist in locating applicable records.

RECORD ACCESS PROCEDURES:

Individuals seeking access should follow the guidance in "Notification procedure".

CONTESTING RECORD PROCEDURES:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340–21 (32 CFR Part 505).

RECORD SOURCE CATEGORIES:

From the individual.

Office of the Secretary

Privacy Act of 1974; Publication of a Notice for a System of Records

AGENCY: Office of the Secretary of Defense.

ACTION: Publication of a system notice.

SUMMARY: The Office of the Secretary of Defense publishes a notice for a system of records subject to the Privacy Act of 1974.

DATE: This notice will become effective January 27, 1983.

ADDRESS: Send any comments to the system manager identified in the system notice.

FOR FURTHER INFORMATION CONTACT: Mr. Robert L. Gilliat, Assistant General Counsel (Manpower and Health Affairs), Office of the Secretary of Defense, Room 3E–999, The Pentagon, Washington, D.C. 20301; telephone: 202/697–9341.

SUPPLEMENTARY INFORMATION: The text of the system notice is set forth below. A new system report as required by 5 U.S.C. 552a(o) was submitted on November 22, 1982.

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

December 21, 1982.

DCG 06

SYSTEM NAME:

Attorney and summer intern Position Applications

SYSTEM LOCATION:

Office of the Assistant General Counsel (Manpower & Health Affairs), Office of the Secretary of Defense, Room 3E999, Pentagon, Washington, D.C. 20301.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any person who applies to the Office of General Counsel of DoD for an attorney position or for a summer intern position.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain copies of letters and any other documents submitted by applicants, such as resumes, SF–171s, and applicant writing samples, and also contains responses from the Office of the General Counsel.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5, United States Code, Section 3101.

PURPOSE(S):

To consider applicant qualifications for available positions in the Office of the General Counsel and the Defense Legal Services Agency.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS, AND THE PURPOSES OF SUCH USES:

To consider applicant qualifications for available positions in other employing authorities in the DoD, when requested.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

Documents filed chronologically in folders. Summer intern applicants filed alphabetically, with separate storage for first and second year students.

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

By name card index indicating date in chronological file folder. Summer intern files retrievable by alphabetical file folders.

SAFEGUARDS:

Building employs security guards. Records are maintained in file cabinets to which office personnel grant access only to those with a need to know. Training and screening of office personnel regarding protection of sensitive legal files is applicable to the subject file.

RETENTION AND DISPOSAL:

Records are maintained for a one-year period. They are destroyed monthly. Summer intern applicant files are destroyed at the end of the summer.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant General Cousel (Manpower & Health Affairs), Office of the Secretary of Defense, Room 3E999, Pentagon, Washington, D.C. 20301.

NOTIFICATION PROCEDURE:

Information may be obtained from: Assistant General Counsel (Manpower & Health Affairs), Office of the Secretary of Defense, Room 3E999, Pentagon, Washington, D.C. 20301. Telephone: 202–697–9341.

RECORD ACCESS PROCEDURE:

Requests from individuals should be addressed to the above System Manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR 286b (see also OSD Administrative Instruction Number 81).

RECORD SOURCE CATEGORIES:

Application and related forms from the individual applying for position.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Defense Science Board Task Force on International Industry-to-Industry Armaments Cooperation; Advisory Committee Meeting

The Defense Science Board Task Force on International Industry-to-Industry Armaments Cooperation will meet in closed session on 19 January 1983 in the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Research and Engineering on scientific and technical matters as they affect the perceived needs of the Department of Defense.

At the meeting on 19 January 1983 the Defense Science Board Task Force on International Industry-to-Industry Armaments Cooperation will continue its review of the Defense Department's policies, plans and procedures which impede or might impede international arms cooperation and thereby have the potential for adversely impacting the collective security of the United States, its friends and Allies. In this context, the Task Force will also analyze the effect current international cooperation policies have on the utility of the US, its friends and Allies to achieve in good order and sustain mobilization capacities.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Pub. L. No. 92–463, as amended (5 U.S.C. App. I, (1976)), it has been determined that this DSB Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1976), and that accordingly these meetings will be closed to the public.

Dated: December 22, 1982.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Service, Department of Defense.

DEPARTMENT OF ENERGY

Economic Regulatory Administration

Canadian and Mexican Natural Gas Imports; Conference

AGENCY: Economic Regulatory Adminstration, DOE.

ACTION: Notice of Conference.

SUMMARY: The Department of Energy (DOE) will hold a public conference with respect to importation of Canadian and Mexican natural gas on January 18, 1983, beginning at 10:00 a.m., e.s.t., in the auditorium, Room GE–086, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C., in which all interested persons are invited to participate. The purpose of the conference is to solicit comments on various issues related to overland imported natural gas. The DOE is seeking information to define the nature and extent of concerns associated with these imports in current and future markets and how these concerns might be resolved. This conference will afford interested persons the opportunity to present their views to the DOE on these matters.

DATES: The conference will be held on January 18, 1983. Request to speak should be made by close-of-business on January 12, 1983. Written comments may be submitted in lieu of an oral presentation. These written comments will be due by close-of-business on January 18, 1983.

FOR FURTHER INFORMATION CONTACT:

Robert M. Stronach (Natural Gas Division, Office of Fuels Programs), Economic Regulatory Administration, Room GA–007 (RG–43, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. 20585 (202) 252–9482.

James K. White (Assistant General Counsel, Natural Gas and Mineral Leasing), Forrestal Building, Room 6E–042, 1000 Independence Avenue, SW., Washington, D.C. 20585 (202) 252–6667.

Jack C. Vandenberg (Public Affairs), Economic Regulatory Administration, 12th & Pennsylvania Avenue, N.W., Federal Building, Room 4309, Washington, D.C. 20461 (202) 633–8108.

Background

The DOE has the responsibility under section 3 of the Natural Gas Act to authorize imports of natural gas unless it finds that such imports will not be consistent with the public interest. The DOE has decided to solicit public

comment from interested parties on the nature and extent of concerns associated with natural gas imports from Canada and Mexico and to seek views on appropriate solutions. In recent import proceedings, we have found that imported gas will be needed in the U.S. in the future as long as the price is reasonable, and we have noted the long history of reliability of our overland gas imports. We are now seeking suggestions for an approach that would permit flexible prices responsive to market forces while at the same time ensuring that the public interest is served.

As of April 1, 1981, Canadian gas imports reached a uniform border price of $4.94 per MMBtu, after five increased that more than doubled the price in less than two years. The Canadian government sets the price of its gas exports based on the price of crude oil imported into eastern Canada adjusted for certain transportation costs. The price of Mexican imports is essentially tied to the price of a group of representative crude oils or the Canadian price, whichever is higher. These imports have experienced similar price increases since gas started flowing from Mexico in 1980. (All import prices are authorized by the U.S. on a case-by-case basis.)

Accordingly to intervenors in various import proceedings, letters received from the public, their Congressional representatives, industry and consumer groups, and others, Canadian and Mexican gas may be priced higher than supply, demand and completing oil prices would permit in a free market. Furthermore, lower cost domestic gas which is now available as a result of reduced demand is often not taken, while at the same time take-or-pay requirements in most contracts for Canadian and Mexican gas may cause pipelines to take the higher cost imported gas. Although imports account for less than 5 percent of the total U.S. natural gas supply, these imports may have a substantial impact on the price of gas in certain states and regions, particularly in the Midwest, the Northwest and California.

Matters To Be Discussed at Conference

The DOE is particularly interested in responses to the following questions. Persons wishing to comment are encouraged to focus on their region, state, service area, company, association of group, or on their interest as a producer, transporter, distributor, importer or consumer of natural gas. Participation by state public utility commissions is especially welcome.

(1) What types of alternative pricing systems, as opposed to a uniform border price, would permit imported natural gas to enter the domestic system at competitive prices? How would such a system assure flexibility to serve individual markets over time?

(2) How can a market-oriented, flexible pricing system for imports be implemented? How would state energy regulatory authorities view such a system?

(3) With more flexible prices, would take-or-pay or minimum bill requirements cease to be a serious concern? If so, why? If not, how could these problems be resolved?

(4) Has the cost of Canadian and Mexican gas made it more difficult to sell gas in U.S. markets? If so, how?

(5) Is a premium price appropriate for imported gas? If so, under what conditions?

Conference Procedures

The conference will be conducted in an informal manner using a panel approach to permit participation by the various elements of the DOE and other concerned agencies. The presiding official will conduct the conference in a fashion that will facilitate the orderly presentation of interested persons' oral statements. The DOE reserves the right to select the persons to be heard at this conference, to schedule their respective statements, and to establish the procedures governing the conduct of the conference. All interested persons are encouraged to present their views: however, statements may be subject to time limitations if determined necessary by the presiding official.

Questions will be asked of persons presenting statements by members of the panel and a free dialogue between the panel and the speakers will be encouraged. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity for further comments, time permitting. The presiding official may also allow questions from the audience if time permits. Any further procedural rules needed for the proper conduct of the conference will be announced by the presiding official.

This conference will be open to the public. However, any person who wishes to be scheduled to make an oral statement at the conference should notify the Director, Natural Gas Division, Office of Fuels Programs, Economic Regulatory Administration, RG–43, Forrestal Building, 1000 Independence Avenue SW., Washington, D. C. 20585, (202 252–9482, on or before January 12, 1982. This request should indicate the person (with address and telephone number) who wishes to speak and the amount of time desired. Any person making an oral presentation should bring at least 50 copies of their statement to the conference for distribution to other attendees. Persons wishing to speak at the conference who have not scheduled time will be given an opportunity to do so if time permits.

Any person who wishes to file written comments with the DOE in lieu of an oral presentation or in addition to their oral statement must make such filing with the Director, Natural Gas Division, By January 18, 1982, at the above address. The filing should be labeled "Overland Imported Natural Gas Comments." Any submission including information or data considered confidential by the person furnishing it must be so identified on the first page of the document, one copy only. The person also should submit a copy of the document with the confidential material excluded. The DOE reserves the right to determine the confidential status of the information or data and to treat it according to our determination. All comments (with confidential material excluded) received by the DOE will be available for public inspection in the Natural Gas Division Docket Room, Room GA–007, Forrestal Building, 1000 Independence Avenue Ave. SW., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

A transcript of the conference will be made and will be available for public review at the Natural Gas Division Docket Room at the above address between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, D.C. on December 22, 1982.

Rayburn Hanzlik,

Administrator, Economic Regulatory Administration.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. CP83–89–000]

Algonquin Gas Transmission Co.; Application

December 21, 1982.

Take notice that on November 5, 1982, Algonquin Gas Transmission Company (Applicant), 1284 Soldiers Field Road, Boston, Massachusetts 02135, filed in Docket No. CP83–89–000 [1] an application

[1] This application was orginally submitted as *Algonquin Gas Transmission Company*, Docket Nos. CP67–303, CP69–41, and CP75–349 and as *Texas Eastern Transmission Corporation and Algonquin Gas Transmission Company*, Docket No. CP68–238

pursuant to Section 7(c) of the Natural Gas Act, for amendment of four of its existing certificates of public convenience and necessity issued in Docket Nos. CP67–303, CP68–238, CP68–41, and CP75–349, all as more fully described in the application which is on file with the Commission and open to public inspection.

Applicant requests clarification or in the alternative amendment of the authorizations issued in Docket Nos. CP67–303, CP69–41, CP75–349, and CP68–238, so as to authorize the past and future transportation of excess quantities of natural gas on behalf of three of its existing transportation customers, Central Hudson Gas & Electric Corporation (Central Hudson), Orange and Rockland Utilities, Inc., (Orange and Rockland), and Consolidated Edison Company of New York, Inc., (Con Ed). Applicant asserts that it intends to perform the transportation on a best-efforts basis, pursuant to Section 7 of Applicant's Rate Schedule T–1.

Applicant states that it has been advised by the Commission's staff that the existing authorizations for the subject transportation services for Central Hudson and for Orange and Rockland are narrower than the language of Rate Schedule T–1 and do not authorize best-efforts transportation of gas tendered by Texas Eastern for the account of those Rate Schedule T–1 customers. Further, Applicant states that by the same reasoning it would appear that the Rate Schedule T–1 transportation of gas supplied by Tennessee Gas Pipeline Company, a Division of Tenneco Inc., for the account of either Central Hudson or the remaining Rate Schedule T–1 customer, Con Ed, may not be covered by the existing authorizations.

Applicant states no additional facilities are required to effectuate the transportation of natural gas proposed herein.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (19 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82–35111 Filed 12–27–82; 8:45 am]

BILLING CODE 6717–01–M

[Project No. 6789–001]

Atkins, Callis H.; Exemption From Licensing

Issued December 22, 1982.

A notice of exemption from licensing of a small hydroelectric project known as the Advance Mills Project No. 6789, was filed on November 26, 1982, by Callis H. Atkins. The proposed hydroelectric project would have an installed capacity of 100 kW and would be located on the North Rivanna River in Albermarle County, Virginia.

Pursuant to Sections 4.109(b) and 375.308(ss) of the Commission's regulations, and subject to the terms and conditions set forth in Section 4.111 of the Commission's regulations, the Director, Office of Electric Power Regulation, issues this notification that the above project is exempted from licensing as of December 25, 1982.

Lawrence R. Anderson,

Director, Office of Electric Power Regulation.

[FR Doc. 82–35113 Filed 12–27–82; 8:45 am]

BILLING CODE 6717–01–M

[Project No. 5225–001]

Barrett, Harold T., Jr.; Surrender of Preliminary Permit

December 21, 1982.

Take notice that Harold T. Barrett, Jr., Permittee for the proposed Tallassee Shoals Hydropower Project No. 5225, has requested that its preliminary permit be terminated. The permit was issued on December 17, 1981, and would have expired on May 31, 1983. The project would have been located on the Middle Oconee River in Clarke and Jackson Counties, Georgia.

The Permittee filed its request on November 29, 1982, and the surrender of the preliminary permit for Project No. 5225 is deemed accepted as of the date of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RE81–102–001]

Board of Public Utilities, Kansas City, Kansas; Application for Exemption

December 22, 1982.

Take notice that Kansas City Board of Public Utilities (KCB) filed an application on November 18, 1982 for exemption from certain requirements of Part 290 of the Commission's Regulations concerning collection and reporting of cost of service information under Section 133 of the Public Utility Regulatory Policies Act, Order No. 48 (44 FR 58687, October 11, 1979). Exemption is sought from the requirement to file on or before June 30, 1984, information on the costs of providing electric service as specified in Sections 290.201(j), 290.302 (a) and (b), and 290.403(b).

In its application for exemption KCB states that it should not be required to file the specified data for the following reasons (in part):

(1) No record is kept of common utility plant and expenses.

(2) No accounting distinction is made between fixed versus variable maintenance expenses.

(3) KCB's load research program is still in the formative stages and the accuracy level specified in Section 290.403(b) will not be possible.

Copies of the application for exemption are on file with the Commission and are available for public inspection. The Commission's regulations require that said utility also apply to any State regulatory authority having jurisdiction over it to have the application published in any official

State publication in which electric rate change applications are usually noticed, and that the utility publish a summary of the application in newspapers of general circulation in the affected jurisdiction.

Any person desiring to present written views, arguments, or other comments on the application for exemption should file such information with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before 45 days following the date this notice is published in the **Federal Register**. Within that 45 day period such person must also serve a copy of such comments on: Robert L. Sadrakula, Kansas City Board of Public Utilities, 700 Minnesota Avenue, Kansas City, Kansas 66101.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RE80-2-001]

Cliffs Electric Service Co.; Application for Exemption

December 22, 1982.

Take notice that Cliffs Electric Service Company (Cliffs Electric) filed an application on November 5, 1982 for exemption from certain requirements of Part 290 of the Commission's Regulations concerning collection and reporting of cost of service information under Section 133 of the Public Utility Regulatory Policies Act, Order No. 48 (44 FR 58687, October 11, 1979). Exemption is sought from the requirement to file on or before June 30, 1984, information on the costs of providing electric service as specified in Subparts B, C, D, and E.

On April 22, 1980, the Commission issued an order (Docket No. RE80-2-000) granting Cliffs Electric an exemption from the requirements of Subparts B, C, D, and E of Part 290 of the Commission's regulations for the filings that would otherwise have been required on or before November 1, 1980 and June 30, 1982. In addition, the order stated that future applications for exemption by Cliffs Electric shall include a statement as to whether the nature of its retail service (industrial load consisting of iron mines owned or operated by applicant's parent company) is substantially the same as described in its previous application for exemption. In its current application for exemption, Cliffs Electric states that it should not be required to file the specified data since its retail service is substantially the same as described in its previous application.

Copies of the application for exemption are on file with the Commission and are available for public inspection. The Commission's regulations require that said utility also apply to any State regulatory authority having jurisdiction over it to have the application published in any official State publication in which electric rate change applications are usually noticed, and that the utility publish a summary of the application in newspapers of general circulation in the affected jurisdiction.

Any person desiring to present written views, arguments, or other comments on the application for exemption should file such information with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before 45 days following the date this notice is published in the **Federal Register**. Within that 45 day period such person must also serve a copy of such comments on: William J. Madden, Jr., Esq., Debevoise & Liberman, 1200 17th Street, NW., Washington, D.C. 20036.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-185-000]

Consumers Power Co.; Filing

December 21, 1982.

The filing Company submits the following:

Take notice that Consumers Power Company (Consumers) on December 8, 1982, tendered for filing Amendment No. 1 to the Transmission Agreement between Consumers and the Dow Chemical Company (Transmission Agreement). The Transmission Agreement became effective May 25, 1979, and was accepted for filing by letter of September 11, 1979 in FERC Docket No. ER79-556. The proposed changes would supplement and modify paragraph No. 3 of the Transmission Agreement by substituting a $0.24 per kilowatt per week demand charge for the existing $0.19 per kilowatt per week demand charge. In addition the existing paragraph No. 12 of the Transmission Agreement is cancelled by Amendment No. 1 and a new paragraph No. 12 is substituted stating that unless earlier terminated by mutual agreement of Consumers and Dow-Midland the Transmission Agreement shall continue to be in effect until the effective date of the Agreement for Electric Service between Consumers and the Dow Chemical Company (dated June 21, 1978) or until July 31, 1984, whichever date is earlier.

Consumers states that the charge for transmission service by Consumers is $0.24 per kilowatt per week, based on the maximum scheduled one-hour kilowatt demand during the each week determined at Consumers point of interconnection with Detroit Edison. This rate is consistent with (1) Amendment No. 4 to the Consumers-Edison-Toledo Operating Agreement (Docket No. ER81-514-000 accepted for filing at FERC on 7/6/81) and (2) Amendment No. 16 to the Consumers-Edison-I&M Operating Agreement (Docket ER80-174 accepted for filing at FERC on October 17, 1980).

Copies of the filing were served upon the Dow Chemical Company, the Michigan Public Service Commission and the Detroit Edison Company.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before January 5, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-90-000]

Gas Gathering Corp.; Application

December 22, 1982.

Take notice that on November 16, 1982, Gas Gathering Corporation (Applicant), P.O. Box 519, Hammond, Louisiana 70404, filed in Docket No. CP83-90-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas on behalf of United Gas Pipe Line Company (United), all as more fully set forth in the application which is on file with the Commission and open for public inspection.

Applicant states that on August 27, 1982, it entered into a transportation agreement with United in which Applicant agreed to transport up to 5,000

Mcf of natural gas per day for United. It is asserted that the gas subject to this agreement is produced from Davis Oil Company's St. Martin Land Company No. 1 well located in St. Martin Parish, Louisiana. Applicant states that it would transport the subject volumes approximately 27 miles and deliver equivalent volumes for United's account to Transcontinental Gas Pipe Line Corporation's Sherburne Meter Station in Pointe Coupee Parish, Louisiana.

It is asserted that Applicant assessed United 9.25 cents per MMtu for this service.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 13, 1983 file with the Federal Energy Regulatory Commission, Washington, D.C. 29426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necesity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-182-000]

Montana Power Co.; Filing

December 21, 1982.

The filing Company submits the following:

Take notice that Montana Power Company (Montana) on December 7, tendered for filing a Letter Agreement dated June 1, 1982, Between Montana and Western Area Power Administration (WAPA) providing for the sale of nonfirm energy.

Montana States that under the terms of this Letter Agreement, it will make available to WAPA nonfirm energy.

Montana indicates that the terms of the Letter Agreement have been agreed to by the parties.

Montana further states that the rate for nonfirm energy sold to WAPA under this Letter Agreement shall be between 11.98 ($0.01108) and 15.0 ($0.015) mills per kilowatt-hour.

An effective date of May 1, 1982 is proposed and waiver of the Commission's notice requirements is therefore requested.

Montana also tendered for filing a Notice of Cancellation of an agreement for the sale of nonfirm energy between Montana and Western Area Power Administration (WAPA). According to Montana this agreement has expired as of its own terms and has not been renewed.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before January 5, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. CP70-195-002]

Natural Gas Pipeline Co. of America; Petition To Amend

December 22, 1982.

Take notice that on November 22, 1982, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP70-195-002 a petition to further amend the order issued July 30, 1970, [1] as amended, in Docket No. CP70-195 pursuant to Section 7 of the Natural Gas Act so as to reduce the contract transportation quantity for the transportation of natural gas for NICOR Supply Inc. (Supply), from 1,350 Mcf per day to 775 Mcf per day, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that by order issued July 13, 1970, as amended, it was authorized to transport gas for Supply from the Green No. 1 well in Beckham County, Oklahoma, to Supply's parent company, Northen Illinois Gas Company. It is stated that production from the Green No. 1 well has decreased and that Supply has requested from Petitioner a reduction in the daily transportation quantity Petitioner is obligated to transport to 775 Mcf per day.

Petitioner indicates that its Rate Schedule X-30 provides Supply with the right to change the contract transportation quantity only once.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before January 6, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protest filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary

[1] This proceeding was commenced before the FPC. By joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the Commission.

[Docket No. ER83-184-000]

New England Power Pool; Filing

December 21, 1982.

The filing Company submits the following:

Take notice that on December 8, 1982, the New England Power Pool (NEPOOL) Executive Committee filed an Agreement Amending New England Power Pool Agreement (Amendment) dated as of June 1, 1982, which modifies the provisions of the New England Power Pool Agreement, dated as of September 1, 1971.

NEPOOL Executive Committee indicates that the Amendment (1) changes Section 8.13(c) to clarify and expand the authority of the pool's Operations Committee to adopt and implement uniform rules and procedures for determining when a participant's generating unit's outage for maintenance shall be approved for Scheduled Outage Service and to determine whether the applicable Capability for a unit to be used in determining the amount of a participant's Scheduled Outage Service shall be the unit's Seasonal Capability or its Temporary Capability and (2) modifies Section 12.6 to conform to the changes being made in Section 8.13(c) and to resolve various questions of interpretation which have arisen regarding the rights of the participants to receive Scheduled Outage Service pursuant to this section.

NEPOOL proposes that the Amendment become effective as of December 1, 1982, and has requested waiver of the Commission's notice requirements.

Copies of the filing were served upon all electric utilities furnishing or receiving service under the NEPOOL Agreement.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214) All such motions or protests should be filed on or before January 5, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER83-175-000]

Pennsylvania Power & Light Co.; Filing

December 22, 1982.

The filing Company submits the following:

Take notice that Pennsylvania Power & Light Company (PP&L) on December 3, 1982, tendered for filing as a rate schedule an executed agreement dated as of November 24, 1982 between PP&L and Orange and Rockland Utilities, Inc. ("Orange and Rockland"). The proposed rate schedule provides for the sale of interruptible power and energy by PP&L to Orange and Rockland.

The rate schedule provides for a maximum energy reservation charge rate of $24.70 per megawatt hour and an energy charge rate based upon the incremental cost of providing the energy.

PP&L requests waiver of the Notice requirements of Section 205 of the Federal Power Act and Section 35.3 of the Commission's Regulations so that the proposed rate schedule can be made effective December 3, 1982.

PP&L states that a copy of its filing was served on Orange and Rockland and the Pennsylvania Public Utility Commission.

Any person desiring to be heard or to protest said application should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.212). All such motions or protests should be filed on or before December 30, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. CP83-102-000]

United Gas Pipe Line Co.; Application

December 21, 1982.

Take notice that on November 23, 1982, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP83-102-000, an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to the sales of natural gas to Natural Gas Pipeline Company of America (Natural) for resale at a delivery point in Polk County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

United states that it has been authorized to make sales of natural gas to Natural for resale in volumes of up to 75,000 Mcf per day since November 14, 1962, and that these sales are made pursuant to United's Rate Schedule PL-N. United states that the service agreement between United and Natural for these sales expires on December 31, 1982, and that Natural has informed United that it does not desire to purchase gas subsequent to that date and requests United to seek abandonment of service.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 7, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if

the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

BILLING CODE 6717-01-M

[Docket No. CP83-104-000]

United Gas Pipe Line Co.; Request Under Blanket Authorization

December 22, 1982.

Take notice that on November 23, 1982, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in docket No. CP83-104-000 a request pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) That Applicant proposes to install a 1-inch sales tap under the authorization issued in Docket No. CP82-430-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Applicant states that pursuant to the terms of an April 17, 1979, service agreement with Entex, Inc. (Entex), a distributor, Applicant would install a 1-inch sales tap on Applicant's 10-inch Iowa-Franklin line in Lafayette, Louisiana, for Entex to redeliver natural gas averaging 11 Mcf per day to the Mobile Homes Estates for residential use. It is indicated that peak day and annual volumes to be delivered at the proposed tap would be 52 Mcf and 4,015 Mcf, respectively. Applicant would make the proposed gas sale pursuant to its Rate Schedule DG-S, it is explained.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. OF83-85-000]

Coronado Shores Condominium Association #1; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

December 22, 1982.

On December 9, 1982, Coronado Shores Condominium Association #1, 1730 Avenida del Mundo, Coronado, California 92118, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying cogeneration facility pursuant to section 292.207 of the Commission's rules.

The topping cycle cogeneration facility will be located at the Applicant's address. The facility will consist of a reciprocating engine/generator set with heat recovery systems. The electric power production capacity of the facility will be 150 kilowatts. Recovered heat will be used in heating applications. The primary energy source to the facility will be natural gas. Installation of the facility is anticipated to begin in the spring of 1983. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. QF83-83-000]

Genstar Building Materials Co.; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

December 22, 1982.

On December 7, 1982, Genstar Building Materials Company, 580 Decker Drive, Irving, Texas, 75062 filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying cogeneration facility pursuant to section 292.207 of the Commission's rules.

The topping-cycle cogeneration facility will be located adjacent to the Company's manufacturing facility in Savannah, Georgia. The facility will consist of two gas turbine generators from which discharged hot gas will be recovered and used in process applications. The primary energy source will be natural gas. Capacity of the facility will be 1600 kilowatts. Installation of the facility began in August 1982. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

Office of Energy Research

Proposal for "A Survey of Occupational Employment in Nuclear-Related Activities" (Form ER-828)

AGENCY: Office of Energy Research (OER) DOE.

ACTION: Notice of Proposed Form ER-828, "A Survey of Occupational

Employment in Nuclear-Related Activities".

SUMMARY: The Office of Energy Research of the Department of Energy (DOE) is proposing Form ER–828, "A Survey of Occupational Employment in Nuclear-Related Activities," designed to supersede Form ERDA–601, effective March 15, 1983. OER would implement Form ER–828 to continue the data series.

DATE: Written comments must be submitted on or before January 27, 1983.

ADDRESS: Comments should be sent to Ms. June S. Chewning at the address listed immediately below.

FOR FURTHER INFORMATION CONTACT: To obtain additional information or copies of the ER–828, contact Ms. June S. Chewning (ER–43), Senior Manpower Analyst, Office of Energy Research, Department of Energy, Mail Station: 3F–032, 1000 Independence Avenue, SW, Washington, D.C. 20585, (202) 252–6641

SUPPLEMENTARY INFORMATION:

I. Current Action
II. Differences Between Form ERDA–601 and Form ER–828
III. Request for Comments

I. Current Action

OER proposes Form ER–828, "A Survey of Occupational Employment in Nuclear-Related Activities," designed to supersede Form ERDA–601 with a similar title, which expired effective April 1982. OER plans to implement Form ER–828 to continue the data series initiated by the Atomic Energy Commission and the Bureau of Labor Statistics in 1960. Form ER–828 would be conditional upon approval of the Office of Management and Budget. The data will be collected and processed by the Oak Ridge Associated Universities, Inc. OER will publish aggregated data from ER–828 in a highlights report of the findings, and will include information from the survey in publications incorporating data on other energy sources form various surveys conducted by OER. Publications will be distributed to requesters from industry, academia, the general public, DOE and other Federal and State government agencies. OER and other DOE components will use the information in conjunction with data from other sources in making projections of needs for nuclear trained manpower and for program planning. The respondent burden, defined as person-hours required to complete a form, varies depending on firm size and personnel data keeping methods. However, the burden is estimated to be slightly less than for the predecessor Form ERDA–601, i.e., 2.5 hours instead of 2.75.

II. Differences Between Form ERDA–601 and Form ER–828

The data collected on Form ER–828 and its predecessor Form ERDA–601 are identical. A copy of Form ERDA–601 is included. The only differences in the data collections are:

A. The survey will be conducted for the Office of Energy Research rather than for the Office of Light Water Reactors.

B. The survey has been renamed, "A Survey of Occupational Employment in Nuclear-Related Activities," and has been assigned a new form number, ER–828. All necesssary changes in the form required to incorporate the new sponsor, title, and number, will be made.

C. Section 2 ("Scope of Survey") will be revised. Questions concerning past establishment involvement in nuclear-related activities will be deleted. The wording and format of the question pertaining to present establishment involvement in nuclear-related activities will be reworded and redesigned to clarify that establishments not engaged in nuclear-related activities should complete section 2 and return the form. This allows deletion of out-of-scope establishments form the mailing list eliminating further contact.

D. Section 5 ("Occupational Employment in Nuclear or Nuclear-Related Activities") will be revised. The section title and references to the survey will be changed as per the new survey title. The section 5 instructions will be reworded to remove ambiguity as to which workers should be included in the section 5 occupational breakdowns for total nuclear-related workers and nuclear-related workers conducting R&D. Because of small employment totals in past survey years, the occupational group, "medical scientists" will be deleted, as will its definition in the "Occupational Definitions" section. Medical scientists will be reported under "All other life scientists."

E. Section 6 ("Employment in Nuclear or Nuclear-Related Activities by Industrial Segments") will be revised. The section title and references to the survey will be changed as per the new survey title. The instructions will be revised to clarify the identification of the establishment's principal nuclear-related activity. This revision will incorporate the methodology employed by Department of Labor and Department of Commerce establishment surveys by defining principal activities as that which involves the largest value of goods or services produced. The ambiguity of the present instructions concerning where the principal activity is to be listed will be clarified.

III. Request for Comments

Form ERDA–601 is reproduced following this notice. OER invites prospective respondents to comment on the planned revisions within 30 days of the publication of this notice. The following general guidelines are provided to assist in the preparation of responses:

(As a potential data provider)

A. Are the instructions and definitions clear and sufficient?

B. Can the data be submitted using the definitions included in the instructions?

C. Can the data be submitted in accordance with the response time specified in the instructions?

D. How many hours, including time for preparation and administrative review, will your company require to complete and submit the form?

E. What is the estimated cost of completing this form, including the direct and indirect costs associated with the data collection? Direct costs should include all costs, such as development, assembly, equipment, ADP and other administrative costs directly attributable to providing this information.

F. How can the form be improved?

(As a potential user)

A. Do you need data at the levels of detail indicated on the form?

B. For what purposes would you use these data? (Be specific)

C. How could the form be improved to better meet your specific data needs?

D. Are there alternative sources of data and do you use them? What are their deficiencies?

OER is also interested in receiving comments from persons as to their views on the need for the collection of this information at all.

Comments submitted in response to this Notice will be included in the request for Office of Management and Budget approval of this data collection and will become a matter of public record.

Issued in Washington, D.C., December 17, 1982.

Yvonne M. Bishop,

Director, Statistical Standards, Energy Information Administration.

BILLING CODE 6450-01-M

Oak Ridge Associated Universities for
the Office of Light Water Reactors
U.S. Department of Energy

A Survey of Occupational Employment in Nuclear or Nuclear Energy-Related Activities, 1981

The information collected on this form will be held in confidence and will be used for statistical purposes only by the U.S. Department of Energy.

This report is authorized by the Energy Reorganization Act of 1974, Public Law 93438. Your voluntary cooperation is needed to make the results of this survey comprehensive, accurate and timely.

Form Approved
O.M.B. No. 38R-0191

Collection Agency for the U.S. Department of Energy

(This request for information relates to)

(Please change address or ZIP code if incorrect.)

General Instructions

A questionnaire is provided for each establishment of your organization which presumably is engaged in nuclear or nuclear energy-related activities

This questionnaire should be completed for the reporting unit identified on the address label above.

In case your organization has *other* establishments engaged in nuclear or nuclear energy-related activities, an additional questionnaire which provides no reporting unit identification is enclosed In such cases, enter the name and address of the establishment in the address label area as above.

Additional questionnaires or information may be obtained on request from Oak Ridge Associated Universities, P.O Box 117, Oak Ridge, TN 37830 or by telephoning Area Code 615-576-3410

Please complete the questionnaire and return it to us in the enclosed addressed envelope, which requires no postage The second blank copy is for your files
PLEASE RETURN THIS QUESTIONNAIRE WITHIN 3 WEEKS

Person to be contacted if questions arise concerning this report

Name and Title *(Please print or type)*

Telephone *(Include Area Code)*

1. Do you wish to receive a report on the findings of this survey? *(Check if yes.)* ☐

2. Scope of Survey

For the purpose of this survey, an establishment is considered to be in nuclear or nuclear energy-related activities if all or any part of the establishment is engaged in any of the activities listed in definition A on page 3. In most cases, an establishment is at a single physical location. This survey **excludes** mining and onsite facility construction (design and manufacture are included in the survey). On this basis——

Were any employees of this reporting unit engaged in nuclear or nuclear energy-related activities as of **April 15, 1981?** Yes ☐ (21) No ☐ (22)
July 12, 1977? Yes ☐ (23) No ☐ (24)
July 12, 1975? Yes ☐ (25) No ☐ (26)

If you checked "Yes" as of April 15, 1981, please complete the remainder of the questionnaire.

If you checked "No", please return the questionnaire to avoid further correspondence

3. Type of Establishment Identification *(Check one.)*

Type 1 Nonprofit Research Establishment ☐ (31)

Type 2 Private Industrial and/or Research Establishment ☐ (32)

Type 3. DOE-Owned Research Laboratory, Test Facility, and/or Production Facility ☐ (33)

4. Employment Summary

Data should relate to the payroll period including April 15, 1981

		Employment
4.1	**Total Employment.** Enter the total number of employees of the establishment (both full- and part-time, salaried and hourly, production, maintenance, office-clerical, administrative, managerial, etc.). Include all personnel whether or not engaged in nuclear or nuclear energy-related activities. **Exclude** temporary employees hired under a sponsored summer student or comparable program . . . . . (99999)	
4.2	**Total Employment in Nuclear or Nuclear Energy-Related Activities.** Of the total number of employees reported above, how many were working in nuclear or nuclear energy-related activities? **(Include a reasonable pro rata distribution of indirect employees of the establishment whose work is necessary to the conduct of nuclear or nuclear energy-related activities. Exclude persons working onsite in facility construction.)** . . . . . (88888)	

Remarks

ERDA-801 April 1981

5. Occupational Employment in Nuclear or Nuclear Energy-Related Activities *(As of the payroll including April 15, 1981)*

For the occupations listed below, classify employees who worked in nuclear or nuclear-energy related activities by the occupation in which they spent most of their time. Do not classify an employee in more than one occupation. Employees reported in column 1 who spend 50% or more of their time in research and development activities also should be reported in column 2. *Definitions are provided on page 4.*

Occupation	As of April 15, 1981 Occupation Code	Total (1)	R&D* (2)
MANAGERS (see definition)	10010		
TOTAL ENGINEERS (see definition)			
Chemical Engineers	21003		
Civil Engineers	21004		
Electrical and Electronics Engineers	21005		
Mechanical Engineers	[illegible]		
Nuclear and Reactor Engineers (see definition)	21015		
Metallurgical Engineers	21016		
All Other Engineers	[illegible]		
TOTAL MATHEMATICIANS (see definition)	[illegible]		
TOTAL PHYSICAL AND EARTH SCIENTISTS (see definition)			
Chemists	22201		
Geologists and Geophysicists	22202		
Physicists	22206		
Metallurgists	22206		
All Other Physical Scientists	[illegible]		
TOTAL LIFE SCIENTISTS (see definition)			
Biological Scientists (see definition)	22303		
Medical Scientists (see definition)	22305		
Health Physicists (see definition)	22307		
All Other Life Scientists	22399		
ALL OTHER PROFESSIONAL WORKERS (see definition)	[illegible]		

Occupation	As of April 15, 1981 Occupation Code	Total (1)	R&D* (2)
TOTAL TECHNICIANS (see definition)			
Draftsmen	[illegible]		
Electrical and Electronics Technicians	[illegible]		
All Other Engineering Technicians	[illegible]		
Physical Science Technicians	[illegible]		
Life Science Technicians	[illegible]		
Health Physics Technicians and Radiation Monitors	33003		
Senior Nuclear Reactor Operators (see definition)	[illegible]		
Nuclear Reactor Operators (see definition)	34050		
Auxiliary Reactor Operators (see definition)	34051		
All Other Technicians	[illegible]		
WELDERS WITH NUCLEAR CERTIFICATION (see definition)	58015		
ALL OTHER SKILLED CRAFT WORKERS (see definition)	59001		
CLERICAL WORKERS (see definition)	60000		
ALL OTHER WORKERS who spend more than 50% of their time in nuclear-related activities (service workers, sales workers, laborers, operatives, and all other workers not classified above) (see definition)	[illegible]		

SUMMATION INSTRUCTIONS: The sum of all employment in nuclear or nuclear energy-related activities, by occupation, entered in column 1 above must equal the entry in item 4.2.

***RESEARCH AND DEVELOPMENT**

Include in this function employees who spend the greatest proportion of their time performing, managing, or administering basic and applied research in engineering, mathematics, physical, life (including medicine), and other sciences; and in the design and development of prototypes and processes. For purposes of this study, research and development includes the following types of activities: (a) Pursuit of planned research of new knowledge, whether or not the research has reference to a specific application. (b) Application of existing knowledge to problems involved in the creation of a new product or process, including work required to evaluate possible uses. (c) Application of existing knowledge to problems involved in the improvement of an existing product or process

[illegible]

8. Employment in Nuclear or Nuclear Energy-Related Activities by Industrial Segments

Distribute total employment in the Nuclear or Nuclear Energy-Related Activities (item 4.2) as of April 15, 1981, as follows:

Column 1 — List each industrial segment (see definition A) in descending order of the number or proportion of employees in each segment as of April 15, 1981. The principal segment of the establishment should appear on line 8.1.

Column 2 — List the segment number for each activity shown in column 1. (See definition A.)

Columns 3 & 4 — Distribute the total employment reported in item 4.2 by segment in column 3, if available. If employment data are not available, show a percentage distribution by segment in column 4 of the total employment reported in item 4.2. There should be an entry in either columns 3 or 4 for every segment shown in columns 1 and 2. The total of column 4, if used in lieu of column 3, should equal 100%.

	Industrial Segment Name	Industrial Segment No.	Distribution of Employees Engaged in Nuclear or Nuclear Energy-Related Activities	
			Number of Employees	Percent of Total
	(1)	(2)	(3)	(4)
8.1				
8.2				
8.3				
8.4			Total = Item 4.2	100%

*Principal nuclear or nuclear energy-related activity

Definitions for the Survey of Occupational Employment in Nuclear or Nuclear Energy-Related Activities

A. Industrial Segments. Nuclear or nuclear energy-related activities are comprised of the following industrial segments:

Code Description

1. **Uranium Milling:** Reduction of uranium ores to concentrates. Excludes mining.
2. **Processing and Enrichment of Reactor Fuel Materials:** Refining of reactor fuel concentrates and conversion of refined fuel concentrates and recovered U-235/U-238 to uranium hexafluoride, enrichment of these fuel materials in the isotope U-235, followed by conversion to oxides, carbides, or other fuel compositions.
3. **Production of Special Materials for Use in Reactors:** Preparation and treatment of core structural and cladding materials such as zirconium, control rod materials such as hafnium and boron, and moderators such as heavy water and graphite.
4. **Reactor and Reactor Component Design and Manufacturing:** The design and/or manufacture of nuclear reactors and reactor components, including control rods and drives for power, test, and research purposes and missile and space applications. Includes the assembly, testing, and disassembly of reactors and the testing of materials for reactor use.
5. **Fuel Fabrication:** Production of fuel forms (pellets, coated particles, etc.), and encapsulation of fuel forms in fuel assemblies.
6. **Transportation of Nuclear Materials:** Packaging and interfacility transportation of special nuclear materials, fabricated fuel assemblies, irradiated fuel assemblies, and other radioactive materials.
7. **Chemical Reprocessing and Disposal of Irradiated Materials:** Separation and recovery of fertile and fissile fuel materials, and of by-product materials. Includes purification, concentration, and packaging of fuel and by-product materials; storage and solidification of high-level wastes; collection, packaging, and disposal of low-level wastes.
8. **Design and Engineering of Nuclear Facilities:** Design and engineering of all nuclear facilities with the exception of those included in segments 4 (reactor and reactor components), 5 (fuel fabrication), 11 (nuclear instruments, gauges, and control devices), and 12 (accelerators). Excludes persons working onsite in facility construction.
9. **Nuclear Reactor Operation and Maintenance:** Operation and maintenance of nuclear power production, test, and research reactors. Includes operation and maintenance of auxiliary systems for supply and treatment of power, air, water, etc.
10. **Radioisotopes:** Manufacture, processing, and packaging of radioisotopes, including radiochemicals, radiopharmaceuticals, and other radioactive labeled compounds. Includes irradiation of medical supplies, food, and agricultural products, and of commercial materials. Excludes in-plant processing incidental to another activity.
11. **Design and Manufacture of Nuclear Instruments, Gauges, and Control Devices:** Design and manufacture of hot cell and laboratory instruments and monitoring and control devices, radiographic and teletherapy equipment, activation analysis systems, etc.
12. **Accelerators:** The design, engineering, manufacturing and/or construction, operation/maintenance, and research and development conducted for all classes of accelerators.
13. **Environmental and Ecological Research and Evaluation:** Activities to preserve, improve, or restore the natural environmental and ecological balance. Types of activities covered are thermal effects and effects of irradiation on plants, animals, and marine life.
14. **Biology and Medical Research:** Research on the interaction of radiation with biological systems; use of radiation and radioisotopes in diagnosis and treatment of illnesses; study of effects of low-level radiation and ingestion of toxic and radioactive materials on biological systems.
15. **Reactor Research, Development, and Evaluation:** Activities relating to research, development, and demonstration of new fission reactor systems, components, fuels, moderators, etc. Includes development, conduct, evaluation, and analysis of reactor safety tests.
16. **Commercial Laboratory Services:** Provides laboratory service activities for other establishments. Examples of services are activation analysis, film badge service, mass spectrometry, radiography, and physical testing.
17. **Health Physics and Industrial Safety:** Establishes, evaluates, and monitors working conditions for compliance with industrial safety and radiation exposure standards.
18. **Weapons Development and Production:** Develops, designs, tests, and fabricates nuclear weapons.
19. **Research and Development in Nuclear Energy:** Investigations directed toward the development of new or fuller scientific knowledge of the subject. It also covers systematic application of scientific knowledge directed toward the creation of new or substantially improved processes, procedures, techniques, etc. It excludes research and development reported under segments 12, 13, 14, and 15, which are to be reported separately.
20. **Industrial Radiography:** Commercial radiographic services. Excludes in-plant radiography where its use is incidental to another activity.
21. **Miscellaneous:** Activities not classified in any of the above segments, such as consultant services, laundry services, and leasing services.

Definitions for the Survey of Occupational Employment in Nuclear or Nuclear Energy-Related Activities—*Continued*

B. Occupational Definitions

Employees in the specialized occupations covered by this survey should be counted on a "Working As" basis, as of the date of the report (April 15, 1981), regardless of field of degree or whether they hold a college degree. For example, an employee trained as an Engineer but working as a Mathematician as of the date of the report should be reported as a Mathematician. Similarly, an employee trained as a Life Science Technician but working as a Health Physics Technician as of the date of the report should be reported as a Health Physics Technician. Include all employees in research and development, production, management, technical service, sales, and other positions which require them to use the indicated level of knowledge in their work. **Exclude** persons working onsite in facility construction.

Managers (Occ. Code 10000): Include persons concerned with policymaking, planning, organizing, staffing, directing, and/or controlling activities that are common to many types of organizations, usually through subordinate supervisors who directly supervise the activities of the company or establishment work force and/or professional or technical management.

Engineers (Occ. Code 21000): Count all persons actually engaged in engineering work at a level which requires knowledge of engineering equivalent at least to that acquired through completion of a 4-year college course, regardless of whether they hold a college degree. **Exclude** persons trained in engineering, but currently employed in positions not requiring the use of such training.

Nuclear and Reactor Engineers (Occ. Code 21015): Count all engineers who are concerned with the release, control, and use of all types of energy from nuclear sources, including the design and development of fission or fusion reactors for the controlled release of nuclear energy, and the applications of radiation. **Exclude** Nuclear Reactor Operators.

Mathematicians (Occ. Code 22100): Count only those persons whose positions require a knowledge of mathematics equivalent at least to that acquired through a 4-year college course with a major in mathematics and who spend the greatest proportion of their time in development or application of mathematical techniques, regardless of whether they hold a college degree. **Include** Actuaries, Statisticians, and Computer Programmers only if they specialize in mathematical techniques. **Exclude** Accountants.

Physical and Earth Scientists (Occ. Code 22200): Count all Chemists, Physicists, Metallurgists, Geologists, Geophysicists, and other Physical and Earth Scientists who are actually engaged in scientific work at a level which requires a knowledge of the physical sciences equivalent to that acquired through completion of a 4-year college course with a major in one of the physical sciences, regardless of whether they hold a college degree. Exclude persons trained in the physical sciences but currently employed in positions not requiring the use of such training.

Life Scientists (Occ. Code 22300): Count all Health Physicists, Medical Scientists, Agricultural Scientists, Biological Scientists, and other Life Scientists who are actually engaged in scientific work at a level which requires a knowledge of the life sciences equivalent to that acquired through completion of a 4-year college course with a major in one of the life science fields, regardless of whether they hold a college degree. **Exclude** persons trained in the life sciences but currently employed in positions not requiring the use of such training. **Exclude** Psychologists. See definitions for Health Physicists and Biological Scientists.

Biological Scientists (Occ. Code 22303): Count all persons who meet the general requirements for "Life Scientists" and who spend the greatest proportion of their time in scientific work dealing with life processes other than those classified in the agricultural and medical sciences. **Include** Pathologists, Microbiologists, Pharmacologists, Toxicologists, Botanists, Zoologists, etc.

Medical Scientists (Occ. Code 22305): Count only those Physicians, Dentists, Public Health Specialists, Pharmacists, and members of other scientific professions who meet the general requirements for "Life Scientists" and who are concerned with the understanding of human diseases and improvements of human health, and spend the greatest proportion of their time in clinical or laboratory investigation or other research, production, technical writing, and related activities. **Exclude** from this category all practitioners——that is, those Medical Scientists who spend the greatest proportion of their time providing care to patients, dispensing drugs or services, or in diagnosis, etc. Persons working as Pathologists, Microbiologists, Pharmacologists, etc., should be excluded from the figures for Medical Scientists and included in the figures for Biological Scientists.

Health Physicists (Occ. Code 22307): Count all persons who meet the general requirements for "Life Scientists or Engineers" and who are concerned with programs to protect plant and laboratory personnel from radiation hazards; develop inspection standards, radiation exposure limits, and decontamination procedures, conduct tests to insure that radiation is not in excess of permissible limits; and design or modify such health physics equipment as detectors and counters to improve radiation protection.

All Other Professional Workers (Occ. Code 29000): Include all other workers concerned with such fields as law, education, labor, and business relations requiring a substantial educational preparation, usually at the university level.

Technicians (Occ. Code 30000): Count all persons actually engaged in technical work at a level which requires knowledge of engineering, mathematical, and physical or life sciences, comparable to that acquired either through study at technical institutes, junior colleges, or other formal post-high school training **less extensive than a 4-year college course** or through equivalent on-the-job training or experience. Some typical job titles are Draftsman, Surveyor, Laboratory Assistant, Physical Science Aide, and Electronic Technician. All persons in positions that require the indicated level of knowledge should be counted, regardless of job title or department in which employed. **Computer Programmers** who meet the above definition of Technicians should be reported under "All Other Technicians," Occupation Code 39000. **Exclude** those persons whose positions require knowledge of training consistent with the foregoing definitions of Engineers, Mathematicians, or Scientists, and report them in the appropriate occupational category on the questionnaire. Also, **exclude** all craftsmen such as Machinists and Electricians.

Nuclear Reactor Operators (Occ. Codes 34049, 34050, 34051): Count all persons who spend the greatest proportion of their time in (a) the actual manipulation of the controls of a nuclear reactor, or (b) directing others in the manipulation of such controls. Under Nuclear Regulatory Commission (NRC) licensing regulations, the former are referred to as "operators" and the latter as "senior operators." Count as "auxiliary operators," those persons who are not licensed operators but work under the supervision of either nuclear or senior operators while preparing to fulfill NRC requirements to become licensed operators. A nuclear reactor is an apparatus, other than a nuclear weapon, designed or used to sustain nuclear fission and self-supporting chain reaction (e.g., power reactors, test reactors, production reactors, research reactors, critical assemblies). **Exclude** persons who spend the greatest proportion of their time as Nuclear Reactor Engineers or in performing other functions of a professional, scientific, or engineering nature.

Welders with Nuclear Certification (Occ. Code 58015): Count all persons certified under NRC requirements who join surfaces, or otherwise make or repair structures or parts, using gas or electric welding, soldering, or brazing equipment with or without filler material; who fuse to join or shape lead products or parts, using a gas torch; who cut or perforate metal, using gas or electric welding equipment.

All Other Skilled Crafts and Kindred Workers (Instrument Repairer, Painter, Maintenance, Patternmaker, Metal Die Setter, Die Sinker, Etc.) Exclude persons working onsite in facility construction. **(Occ. Code 59001):** Include all other skilled crafts and kindred workers in production, maintenance, repair, power plant, and material handling occupations that predominantly require a thorough and comprehensive knowledge of processes involved in the work, the exercise of considerable independent judgment, usually a high degree of manual dexterity, and in some instances, extensive responsibility for valuable product or equipment. Workers in these occupations usually become qualified by serving apprenticeships or completing extensive training periods. **Occupations should be counted as skilled if the specific vocational preparation required to perform them involves training or other preparation of two years or more.**

Clerical Workers (Occ. Code 60000): Include office and plant clerical personnel. **Office clerical work** involves preparing, transcribing, transferring, systematizing, and preserving communications and records; collating accounts and distributing information. Typical examples are Secretaries, Stenographers, Typists, File Clerks, Office Machine Operators, Bookkeepers, Cashiers, Messengers, and Telephone Operators. **Plant clerical work** involves planning, coordinating, or expediting of production and the flow of work; or the clerical aspects of receiving, storing, issuing, or shipping of materials, merchandise, supplies, or equipment.

All Other Workers (Occ. Code 88999): Include service and sales workers, operatives, laborers, and all other workers not classified above. **Exclude** persons working onsite in facility construction.

FEDERAL HOME LOAN BANK BOARD

[No. 82-811-A]

Prices for Federal Home Loan Bank Services

Dated: December 16, 1982.

AGENCY: Federal Home Loan Bank Board.

ACTION: Notice of prices for Federal Home Loan Bank services.

SUMMARY: The Office of District Banks and the Office of Policy and Economic Research of the Federal Home Loan Bank Board are publishing, pursuant to delegated authority, the prices charged by the Federal Home Loan Banks for (1) processing and settlement of items and (2) demand deposit services offered to member institutions.

FOR FURTHER INFORMATION CONTACT: Ashley C. Speir, Jr., Office of District Banks (202)-377-6656) or Jerry Hartzog, Office of Policy and Economic Research (202-377-6782), Federal Home Loan Bank Board, 1700 G Street, N.W., Washington, D.C. 20552.

SUPPLEMENTARY INFORMATION: Section 11(e) of the Federal Home Loan Bank Act (12 U.S.C. 1431(e)) authorizes the Federal Home Loan Banks: (1) To accept demand deposits from member institutions, (2) to be drawees of payment instruments, (3) to engage in collection and settlement of payment instruments drawn on or issued by members and eligible institutions, and (4) to engage in such incidental activities as are necessary to the exercise of such authority.

Section 11(e)(2)(B) of the Bank Act (12 U.S.C. 1431(e)(2)(B)) requires the Federal Home Loan Banks to charge fees for services authorized in that section, which fees are "to be determined and regulated by the Board consistent with the principles set forth in section 11A(c) of the Federal Reserve Act." Board regulations at 12 CFR 534.6 require that the Director of the Office of District Banks and the Director of the Office of Policy and Economic Research (or their designees) review, approve, and publish at least annually these fees. The regulations specify that the fees must be reviewed in accordance with the following pricing principles:

(1) In determining the fees for services provided under this Part, a Federal Home Loan Bank must take into account all direct and indirect costs of providing the services.

(2) Prices must reflect the imputed rate of return that would have been earned and the taxes that would have been paid if the Bank were a private corporation, by using a cost of capital adjustment factor applied to those assets used in providing services authorized under this part.

(3) All costs must be fully recovered within a period not exceeding five years. The prices charged for collection, processing, and settlement services must yield at least a competitive rate of return within a period not exceeding five years [1] after offering such services.

In accordance with these principles, the Director of the Office of the District Banks and the Director of the Office of Policy and Economic Research have reviewed and approved the current prices for Federal Home Loan Bank services, which are published herewith. The services and their prices are divided into two categories: (1) Services involved in the processing and settlement of items drawn on or issued by member institutions (Schedule A); and (2) services relating to demand deposit accounts maintained by member institutions with the Banks (Schedule B).

The services described in the attached schedules are not identical for any two Banks, as each Bank's program is tailored to meet the needs of the member institutions in the Bank's district. Furthermore, the volume of services rendered varies significantly among the districts, with the result that the costs of providing the services also vary from district to district. In light of these considerations, the Board continues its practice of approving separate district fee structures rather than adopting a uniform pricing scheme. This policy is consistent with the Congressional intent that pricing encourage competition.

It is not required that each processing step or transaction performed by a Bank be specifically priced. This policy permits the Banks to establish fee schedules that are in line with the marketing practices of providers of correspondent services in each district. However, total revenue from services must be sufficient to cover costs. In the case of item processing and settlement services, fees must be sufficient to recover all start-up costs within five years. Demand deposit service expenses must be recovered annually, because the Banks have provided these services for many years, and thus have attained mature service volumes.

The price analysis incorporates an imputed "cost of capital adjustment factor" of fifteen percent. This adjustment factor is required by 12 CFR 534.6(b)(2) in order to yield a fee structure competitive with prices charged by private-sector servicers. The current fifteen-percent figure was derived in accordance with a formula which is described in detail at 45 FR 64161 (September 29, 1980).

The directors of the Office of District Banks and the Office of Policy and Economic Research of the Federal Home Loan Bank Board hereby give notice of the following fee schedules for Federal Home Loan Bank services:

Sechedule A: Item Processing and Settlement Services

Federal Home Loan Bank of Boston

Service	Fee per month
Account maintenance	$3.00
Checks cleared	.05
Deposits	.25
Debit/credit memos	.10
Stop payment orders	1.00
Nonroutine statements	1.00
Wire transfers-out	2.50

Federal Home Loan Bank of Boston—Continued

Service	Fee per month
Full reconcilement per issue	.04

Service includes master deposit account with additional disbursement accounts for checks writing purposes. Each disbursement account can be reconciled on a periodic basis. Service also includes line of credit to cover overdrafts or short term advances.

Description

Account Maintenance—cost of maintaining account on computer. Includes one member statement per month. *Checks Cleared*—checks paid on each disbursement account. *Deposits*—funds deposited to member accounts.

Debit/Credit Memos—internal debits/credits processed against member accounts. *Stop Payment Orders*—member request to stop payment on issued check. *Non-Routine Statements*—account statements other than one per month. *Wire Transfers Out*—electronic transfer of funds out of a member's account, to another financial institution. *Full Reconcilement Per Issue*—service provided to reconcile paid checks.

Federal Home Loan Bank of New York

Money Orders and Checks

First 10,000 items per month—$.195 each.
10,000 plus items per month—$.145 each.

This fee covers all aspects of the check service including the cost of the blank instruments, stop payment orders, inquiries, and photocopies of paid items stored on microfilm. Blank stock is resupplied automatically, and other forms such as stop payment orders, photo request cards, check control sheets, and address labels are supplied on request.

Wire Out—$7.00

This covers all the costs associated with the wire-out service, including compensating balances held at correspondent banks, third party call-back confirmations, and follow-up investigations.

Coupon Processing, Bond Redemption and Federal Recurring Payments—$4.00

Coupon Processing—This fee covers the costs passed on to the Bank by the custodian bank for processing coupons as they come due, and the Bank's costs related to control of the paper work, and crediting the proceeds to the member's demand account.

Bond Redemption—This fee is applied once for a group of bond received in one batch and covers the cost of handling and crediting the member for the proceeds.

Federal Recurring Payments—This fee is applied each time a credit is received from the Federal Reserve Bank on behalf of a member, and covers the cost of handling the credit.

Bulk Deposits—$.12

This fee represents the pass-through of costs from our correspondent bank at which the items are deposited. The correspondence MICR encodes the items, prepares cash letters, delivers the items to the clearance system, and transmits credit information to the Bank.

Depository Transfer Checks—$1.00

This fee represents the cost of processing checks drawn on member-designated depository banks. It covers the cost of receiving instructions from member, issuance of check, presentment and subsequent credit to member's demand account.

Any special services will be charged on an hourly basis.

Federal Home Loan Bank of Cincinnati

The Federal Home Loan Bank of Cincinnati offers to its members a complete Demand Deposit Account program. The salient features of the program include account reconciliation, fine sorting of checks, safekeeping of money orders and reconciled checks, and the Idle Funds Transfer Program. The Bank pays for all member checks and money orders and only requires a compensating balance in return for item services. If the member decides to pay for the printing charge of the checks and money orders, an allowance will be made to the prices listed below:

Service	Fee (unit cost)
Cashier's checks	$0.135
General disbursement	.135
Money order	.105
Demand	.135
Dividend	.095
Special	.135
Christmas	.20
Escrow	.135
Construction	.135
Unreconciled	.20
Magnetic tape	.043
Advices	.06
Stop payments	2.00
Deposits	.07
Credits	.11
Wire transfers-out	4.00
Charges	.11
Photocopies	1.00
Depository transfer checks (DTC)	2.00

Overdrafts are charged at the 90-day advance rate plus a $25.00 fee.

Federal Home Loan Bank of Indianapolis

The Demand Deposit clearings will have the following service charges:

Federal Home Loan Bank of Topeka

Service	Fee (per item)
1. Standard service[1]	$0.15
2. Truncated standard service[2]	.12
3. Unreconciled service[3]	.11
4. Truncated unreconciled service[4]	.08

Descriptions:
[1] Standard Service—Includes check reconciliation as well as all other services associated with DDA. Checks are matched to a register file built by paper (maintenance) or magnetic tape data.
[2] Truncated Standard Service—Identical to No. 1 except that checks are not returned to the association. Checks are on file 90 days, then destroyed. The 3¢ discount from our standard service fee is possible through reduced filing, reader/sorter processing, postage and preparation for mailing.
[3] Unreconciled Service—The Bank merely debits the DDA statement for clearing checks. No register files are built or maintained by the system. At statement cycle date, a magnetic tape of paid checks is sent to the association as input for its own automated checks reconciliation system. The physical checks are fine—sorted by check number and returned with the statement. The 4¢ discount is made available since the Bank does not have to manually prepare and enter check maintenance data. Data files at the Bank are 25% smaller for this service.
[4] Truncated Unreconciled Service—This service is identical to No. 3 except that checks are not returned to the association.

BILLING CODE 6720-01-M

FEDERAL RESERVE SYSTEM

Agency Forms Under Review

December 20, 1982.

Background

When executive departments and independent agencies propose public use forms, reporting, or recordkeeping requirements, the Office of management and Budget (OMB) reviews and acts on those requirements under the Paperwork Reduction Act [44 U.S.C. Chapter 35]. Departments and agencies use a number of techniques to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carring out its responsibilities under the act also considers comments on the forms and recordkeeping requirements that will affect the public. Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. OMB's usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

List of Forms Under Review

Immediately following the submission of a request by the Federal Reserve for OMB approval of a reporting or recordkeeping requirement, a description of the report in published is the **Federal Register**. This information contains the name and telephone number of the Federal Reserve Board clearance officer (from whom a copy of the form and supporting documents is available). The entries are grouped by type of submission—i.e., new forms revisions extensions (burden change), extensions (no change), and reinstatements.

Copies of the proposed forms and supporting documents may be obtained from the Federal Reserve Board clearance officer whose name, address, and telephone number appear below. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF 83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review.

FOR FURTHER INFORMATION CONTACT:

Federal Reserve Board Clearance Office-Cynthia Glassman—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-3829)

OMB Reviewer—Richard Sheppard—Office of Information and regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 3208, Washington, D.C. 20503 (202-395-6880)

Request for Deletion of an Existing Report

1. Report title: Monthly Report of Outstanding Commercial and Industrial Loans to U.S. Addressees, by Industry
Agency form number: FR 2416a
Frequency: Monthly
Reporters: Commercial banks
SIC Code: 602pt.
Small businesses are affected.
General description of report:
Respondent's obligation to respond is voluntary [12 U.S.C. 248(a), (i) and 353 *et seq.*]; a pledge of confidentiality is promised [5 U.S.C. 552(b) (4) and (b) (8)].

The report collects data by business of borrower. The data are used for monitoring sources of demand for business loans at banks and the extent of only term lending by banks. For some time the Federal Reserve has been able to make only limited use of the 2416a data. It has become increasingly difficult to categorize loan data by type of industry given the rise in conglomerate activity that has occurred over recent years. Therefore, it was decided that the 2416a should be discountinued.

Board of Governors of the Federal Reserve System, December 21, 1982.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Arthur Bancshares Corp. et al.; Formation of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become bank holding companies by acquiring voting shares or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, indentifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Federal Reserve Bank of Chicago** (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Arthur Bancshares Corp.*, Arthur, Illinois; to become a bank holding company by acquiring 100 percent (less directors' qualifying shares) of the voting shares of State Bank of Arthur, Arthur, Illinois. Comments on this application must be received not later than January 20, 1983.

B. **Board of Governors of the Federal Reserve System** (William W. Wiles, Secretary) Washington, D.C. 20551:

1. *Revenswood Financial Corporation*, Chicago, Illinois; to become a bank holding company by acquiring 100 percent of the voting shares of Bank of Ravenswood, Chicago, Illinois. This application may be inspected at the offices of the Board of Governors or the Federal Reserve Bank of Chicago. Comments on this application must by received not later than January 20, 1983.

Board of Governors of the Federal Reserve System, December 21, 1982.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Mellon National Corp.; Merger of Bank Holding Companies

Mellon National Corporation, Pittsburgh, Pennsylvania, has applied for the Board's approval under section 3(a)(5) of the Bank Holding Company Act (12 U.S.C. 1842(a)(5)) to merge with

The Girard Company, Philadelphia, Pennsylvania. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The Girard Company, Bala Cynwyd, Pennsylvania, also engages in the following nonbank activities: leasing personal property and equipment; providing data processing services; underwriting credit life and credit accident and health insurance and provide portfolio investment advice to individuals outside the United States. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions in section 4 of the Act (12 U.S.C. 1843).

Mellon National Corporation would also acquire Girard International Bank, Miami, Florida, and New York City, New York, a corporation organized pursuant to section 25(a) of the Federal Reserve Act (12 U.S.C. 611 et seq.).

The application may be inspected at the offices of the Board of Governors or the Federal Reserve Bank of Cleveland. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 17, 1983. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Govenors of the Federal Reserve System, December 21, 1982.

James McAfee,

Associate Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control

Immunization Practices Advisory Committee; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control announces the following Committee meeting.

Name: Immunization Practices Advisory Committee
Dates: January 24-25, 1983
Place: Conference Room 207, Centers for Disease Control, 1600 Clifton Road, NE., Atlanta, Georgia 30333
Time: 8:15 a.m.
Type of Meeting: Open
Contact Person: Jeffrey P. Koplan, M.D., Executive Secretary of Committee (1-3035), Centers for Disease Control, 1600 Clifton Road, NE., Atlanta, Georgia 30333

Purpose:

The Committee will discuss such topics as influenza, Hepatitis B, Japanese B encephalitis, and smallpox vaccines; guidelines for hospital workers; and will consider other matters of relevance among the Committee's objectives.

Agenda items are subject to change as priorities dictate.

The meeting is open to the public for observation and participation. A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: December 17, 1982.

William H. Foege,

Director, Centers for Disease Control.

[FR Doc. 82-35057 Filed 12-27-82; 8:45 am]

BILLING CODE 4160-18-M

National Institute for Occupational Safety and Health; Occupational Safety and Health Field Research Projects; Correction

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control, Public Health Service, HHS.

ACTION: Notice of Research Project Initiation; Correction.

SUMMARY: This document corrects a notice of research project initiation that appeared at page 49471 in the **Federal Register** of Monday, November 1, 1982 (47 FR 49471). This action is necessary to make the notice consistent with language used in the NIOSH criteria document on polychlorinated biphenyls (PCB's).

FOR FURTHER INFORMATION CONTACT: David P. Brown, Division of Surveillance, Hazard Evaluations, and Field Studies, NIOSH, Robert A. Taft Laboratories, 4676 Columbia Parkway, Cincinnati, OH 45226, Telephone: (513) 684-2894.

SUPPLEMENTARY INFORMATION: Field work on a research project entitled "Reproductive History Study of Women Exposed to Polychlorinated Biphenyls in the Workplace" is scheduled to begin on December 13, 1982. A notice to that effect was published as FR Doc. 82-29883 appearing on page 49471 in the November 1, 1982, issue of the **Federal Register.**

On page 49471, column 3, in the first paragraph under the heading "Background", the following sentence should be deleted:

"In animals and humans, PCB's have been found to be carcinogenic."

In its place should be substituted the following language to be consistent with the NIOSH criteria document on PCB's:

"PCB's have also been found to induce tumors in experimental animals after repeated oral ingestion. Because of these findings, PCB's are considered to have carcinogenic potential in humans."

Dated: December 17, 1982.

J. Donald Millar,

Director, National Institute for Occupational Safety and Health.

BILLING CODE 4190-19-M

Food and Drug Administration

[Docket No. 82F-0364]

Ciba-Geigy Corp.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Ciba-Geigy Corp. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of tris(2,4-di-*tert*-butylphenyl)phosphite as an antioxidant and/or thermal stabilizer for polycarbonate resins.

FOR FURTHER INFORMATION CONTACT: Julius Smith, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B3664) has been filed by Ciba-Geigy Corp., Three Skyline Dr., Hawthorne, NY 10532, proposing that § 178.2010(b) (21 CFR 178.2010(b)) be amended to provide for the safe use of tris(2,4-di-*tert*-butylphenyl)phosphite as an antioxidant and/or thermal stabilizer for polycarbonate resins complying with § 177.1580 (21 CFR 177.1580).

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no

significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday.

Dated: December 16, 1982.

Sanford A. Miller,

Director, Bureau of Foods.

[FR Doc. 82–34917 Filed 12–27–82; 8:45 am]

BILLING CODE 4160–01–M

[Docket No. 82F–0370]

M & T Chemicals, Inc.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that M&T Chemicals, Inc. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of mono(*n*-octyl)tin,*S*,*S*',*S*'' tris (isooctylmercaptoacetate) as a stabilizer in polyvinyl chloride and vinyl chloride copolymers intended for food-contact applications.

FOR FURTHER INFORMATION CONTACT: Vir Anand, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 3B3680) has been filed by M&T Chemicals, Inc., P.O. Box 1104, Rahway, NJ 07065, proposing that the food additive regulations be amended to provide for the use of mono(*n*-octyl)tin,*S*,*S*',*S*'' tris (isooctylmercaptoacetate) as a stabilizer in polyvinyl chloride and vinyl chloride copolymers intended for use in contact with food.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: December 16, 1982.

Sanford A. Miller,

Director, Bureau of Foods.

[FR Doc. 82–34918 Filed 12–27–82; 8:45 am]

BILLING CODE 4160–01–M

[Docket No. 82F–0026]

Toyo Seikan Kaisha, Ltd.; Filing of Food Additive Petition; Amendment

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the amendment of a filing notice published on March 19, 1982 (47 FR 11971) on behalf of Toyo Seikan Kaisha, Ltd. This notice amends the list of substances convered by the food additive petition to include an optional trimethoxysilane coupling agent.

FOR FURTHER INFORMATION CONTACT: Terry C. Troxell, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given of the amendment of filing notice published on March 19, 1982 announcing the filing of a petition (FAP 2B3615) by Toyo Seikan Kaisha, Ltd., 3–1 Uchisaiwaicho 1-Chome, Chiyoda-ku, Tokyo 100, Japan. This amendment to the filing notice adds trimethoxysilane coupling agents containing amino, epoxy,ether and/or mercapto groups as optional coupling agents in the 2-component aliphatic polyurethane laminating adheasive for fabricating retortable pouches described in the filing notice.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: December 16, 1982.

BILLING CODE 4160–01–M

Health Care Financing Administration

Medicare and Medicaid Programs; Tax Equity and Fiscal Responsibility Act of 1982; Information Notice on Medicare and Medicaid Amendments

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: General notice.

SUMMARY: This notice describes briefly some of the provisions of Title I of the Tax Equity and Fiscal Responsibility Act of 1982 (Pub. L. 97–248, enacted September 3, 1982) that affect eligibility, benefits, reimbursement, and

administration of the Medicare and Medicaid programs.

We wish to bring to the attention of the public several provisions that are, in large part, self-explanatory and that are now or will soon become effective. These provisions will be implemented on the dates indicated, even though specific regulations have not been published. We will incorporate these new provisions in regulations, program instructions, and other materials as appropriate.

DATES: The effective date of each statutory provision is given in the "Supplementary Information" section of this document.

Since this notice merely contains a brief description of statutory changes and does not contain policy interpretations or regulatory changes, we are not providing a specified period for receipt of comments. However, we will consider all comments received in future review of the need for departmental legislative initiatives, regulations, or administrative actions.

ADDRESS: Address comments in writing to: Health Care Financing Administration, U.S. Department of Health and Human Services, Attention: BPP–232–GN, P.O. Box 17073, Baltimore, Maryland 21235.

If you prefer, you may deliver your comments to Room 309–G Hubert H. Humphrey Building, 200 Independence Ave., S.W., Washington, D.C., or to Room 132, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland 21207.

In commenting, please refer to file code BPP–232–GN.

Comments will be available for public inspection as they are received, beginning approximately three weeks after publication, in Room 309–G of the Department's offices at 200 Independence Ave., S.W., Washington, D.C. 20201, on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (202–245–7890).

FOR FURTHER INFORMATION CONTACT: Thomas Falloon, (301) 594–9774.

SUPPLEMENTARY INFORMATION:

Background

On September 3, 1982, the Tax Equity and Fiscal Responsibility Act of 1982, Pub. L. 97–248, was enacted. Title I of this Act (the Medicare and Medicaid Amendments of 1982) added a variety of new provisions to encourage cost effectiveness and efficient operation among individuals and institutions furnishing services under Medicare and Medicaid.

This notice describes briefly some of the provisions of the new legislation relating to the Medicare and Medicaid programs that are sufficiently complete and clear that we believe they can take effect without issuance of regulations. We have provided a summary of these provisions to give notice to program administrators, providers of services, beneficiaries, and the general public that they are being implemented. We will also incorporate many of these provisions in conforming regulations and program issuances, as appropriate, at a later date.

There are provisions in the new law that conflict with current regulations, or portions of current regulations. To the extent that the new statutory provisions conflict with our existing regulations, the provisions of the new law supersede those portions of the regulations. Other portions of the same regulations and all other existing regulations remain in effect.

This Notice is not intended to be an exhaustive listing of new provisions that are self-implementing. We note that, with respect to all Medicaid provisions that are self-implementing, States may adopt any lawful interpretation of these new provisions until final regulations are adopted or interpretations are issued.

Summary of Specific Provisions

(The section numbers cited before each item refer to the provisions of the Tax Equity and Fiscal Responsibility Act of 1982.)

1. *Section 101(b)(3)—Prospective payments for hospitals and skilled nursing facilities.* The provision requires the Secretary to develop in consultation with the Senate Finance Committee and House Ways and Means Committee, Medicare prospective reimbursement proposals for hospitals, skilled nursing facilities and to the extent feasible other providers, and to report to the committees on the proposals by December 31, 1982.

Amends: Section 1135 of the Social Security Act (the Act).

2. *Section 112—Reimbursement for inpatient radiology and pathology services.* This amendment eliminates the special 100 percent reimbursement rate currently applicable to services to hospital inpatients that are furnished by radiologists and pathologists who accept assignment in all cases for these services. Thus, Medicare will pay for such services on the same basis as for other physicians' services; i.e., 80 percent of the reasonable charge after the Part B (Supplementary Medical Insurance) deductible has been met.

Amends: Sections 1833(a)(1) and (b)(1) of the Act.

Effective: This provision applies to services furnished on or after October 1, 1982.

3. *Section 115—Prohibition of payment for ineffective drugs.* This amendment provides for implementation of section 2103 of the Omnibus Budget Reconciliation Act of 1981, Pub. L. 97–35. Section 2103 prohibited the use of Federal funds under Medicare Part B and under Medicaid to pay for certain less than effective drugs. The regulations implementing this provision were published in the **Federal Register** on October 1, 1981 (46 FR 48550) and are located at 42 CFR 405.232(c), 441.10(f) and 441.25. However, subsequent legislation has led to delays in the implementation of this provision.

Repeals: Section 131 of Pub. L. 97–92, Joint Resolution Making Further Continuing Appropriations for Fiscal Year 1982 and for Other Purposes.

Suspends: Sections 209 and 210 of the Departments of Labor, Health and Human Services, and Education and Related Agencies Appropriation Act, 1982.

Effective: September 30, 1982.

4. *Section 121—Medicare coverage of Federal employees.* This amendment cross-refers to section 278 of Pub. L. 97–248 that makes Federal employment subject to the hospital insurance portion of the FICA tax. Therefore, Federal employees will earn credit toward, and may qualify for, full Medicare protection based on their Federal employment. This means—(1) Medicare protection will be available to Federal employees on the basis of age, disability, or end-stage renal disease requiring dialysis or a kidney transplant; and (2) spouses age 65 and over and disabled adult children of Federal employees may also be eligible for Medicare. Also, Federal employees who perform service during January 1983 will receive credit for their Federal service performed before January 1, 1983.

Amends: Sections 226(a)(2), 226(b) and (b)(2)(B), 226(g), 226A(a)(1) and 1811 of the Social Security Act; Sections 1402(b) and 3122 of the Internal Revenue Code of 1954.

Adds: Section 3121(u) of the Internal Revenue Code of 1954. Sections 210(p); 226(a)(2)(B), (a)(2)(C)(i) and (a)(2)(C)(ii), (b)(2)(C)(i), (b)(2)(C)(ii)(I) and (b)(2)(C)(ii)(II); and 226(h) of the Social Security Act.

Effective: January 1, 1983.

5. *Section 124—Part B premium as a constant percentage of costs.* This amendment suspends the current limitation on annual inreases in the Part

B (Supplementary Medical Insurance) premium and increases the premium on July 1, 1983, and on July 1, 1984 to a level that will result in monthly premiums being equal to 25 percent of the Supplementary Medical Insurance program costs for aged beneficiaries. During this period, premium increases would not be limited to, as required by section 1839(c)(2) of the Act, the lower percentage of—(1) the most recent increase in cash social security benefits; or (2) the increase in the costs of the Supplementary Medical Insurance program. The method of calculating premiums in effect before this amendment resumes July 1, 1985.

Amends: Sections 1839 (c)(2) and (c)(3); and 1844(a)(1)(A)(i) and (a)(1)(B)(i) of the Act.

Adds: Sections 1839 (g)(1) and (g)(2) of the Act.

Effective: These provisions are effective from July 1, 1983 through June 30, 1985.

6. *Section 125—Special Medicare enrollment without penalty for merchant seamen.* This provision establishes a special enrollment period for merchant seamen. During this period, merchant seamen who were eligible for both Medicare in September 1981 and services provided under the Public Health Service Act at any time during the period beginning on March 10, 1981 through September 30, 1981 (the last day merchant seaman were eligible for care at Public Health Service hospitals), may enroll in the Supplementary Medical Insurance program, with the option of entitlement beginning the month after enrollment, or October 1981. Premium amounts will not be subject to the usual increase for late enrollment. Those few seamen who are eligible for hospital insurance for which a premium must be paid will have the same options for month of entitlement.

Effective: October 1, 1982 through December 31, 1982.

7. *Section 128—Technical corrections relating to Medicare.* These provisions make technical changes in title XVIII of the Act, the Omnibus Budget Reconciliation Act of 1981, Pub. L. 97–35, and the Internal Revenue Code of 1954.

Amends: Sections 1842(b)(3)(B)(ii)(II); 1861 (e) and (cc)(1); 1862 (b)(1), (b)(2)(A), and (b)(2)(B); 1865 (b); 1866 (a)(1)(B) and (b); 1870(c) and 1884 of the Act; Section 162 of the Internal Revenue Code of 1954; Section 2143(b)(1) and 2203(f)(3) of the Omnibus Budget Reconciliation Act of 1981.

Effective: Amended sections 1842(b)(3)(B)(ii)(II); 1861(e); 1865(b); 1866(a)(1)(B); and 1870(c) of the Act are effective September 3, 1982.

Any other amendment made to the Act or to the Internal Revenue Code of 1954 made by these Medicare technical amendments are effective as if it had been originally included as a part of Pub. L. 97–35.

8. *Section 134—Medicaid coverage of home care for certain disabled children.* This provision gives States the option of covering under Medicaid certain disabled children age 18 or under who are living at home. A State could extend such protection to an individual who would be eligible for supplemental security income (or State supplemental income) payments, and therefore Medicaid, if that individual were in a medical institution. The State must determine that— (a) the child requires the level of care provided in an institution; (b) it is appropriate to provide such care outside of the institution; and (c) the estimated cost of care at home is no higher than the estimated cost of institutional care.

Amends: Section 1902(e) of the Act.

Effective: October 1, 1982.

9. *Section 136—Medicaid funding in American Samoa.* This amendment provides Medicaid funding to the territory of American Samoa. Federal matching of 50 percent of expenditures is authorized up to a maximum of $750,000 per year. Due to the unique circumstances in the health system in American Samoa, the Secretary may waive any Medicaid requirements, other than those relating to the Federal Medical assistance percentage, the $750,000 per year maximum, and the requirement that Federal matching payments be available only for amounts expended by American Samoa.

Amends: Sections 1101(a)(1), 1108(c), 1902(j), and 1905(b)(2) of the Act.

Effective Date: October 1, 1982.

10. *Section 137—Technical corrections relating to Medicaid.* These provisions make technical changes in title XIX of the Act, the Omnibus Reconciliation Act of 1980, Pub. L. 96–499, and the Omnibus Budget Reconciliation Act of 1981, Pub. L. 97–35.

Among other changes, this section—

• Specifies that an exception to the effective date of October 1, 1981 can be made for the State plan requirement that States— (1) Inform all eligible children of EPSDT services, (2) provide or arrange for requested screening services, and (3) arrange for corrective treatment, if the Secretary detemines that action by the State legislature is required to make these plan changes. If State legislation is needed, EPSDT informing, screening, and treatment requirements that were paragraphs 403(g)(1), (2), and (3) of the Act (prior to their repeal) apply until the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after August 13, 1981–137(a)(4).

• Restates a State's authority to cover optional categorical groups and requires that at least the standard mandatory services in section 1902(a)(10)(A) of the Act be provided for these groups–137(b)(7).

• Requires States that provide Medicaid to the medically needy to use a single standard for income eligibility and a single standard for resource eligibility for all groups of medically needy. Also, this amendment requires that in determining income and resource eligibility for the medically needy, States must use the same methodology that is used for determining income and resource eligibility in the most appropriate cash assistance program. Thus, in States in which the supplemental security income program (SSI) is in effect and that provide Medicaid to all SSI recipients, the methodology for determining the income and resources of the aged, blind, or disabled medically needy must be that of the SSI program. For other medically needy individuals, the methodology must be the same as would be employed in determining cash assistance eligibility under the most appropriate State plan to which the medically needy group is most closely categorically related–137(b)(8).

• Revises minimum requirements for coverage of medically needy children to require States with medically needy programs to cover as medically needy, individuals under age 18, who, except for income and resources, would be eligible for Medicaid as a member of a categorically needy group whom the State is required to cover under section 1902(a)(10)(A)(i) (generally, cash assistance recipients)–137(b)(9).

• Exempts Federally qualified HMOs from utilization control penalty requirements–137(b)(11).

• Requires recertification of care every 60 days (rather than annually) for all individuals in intermediate care facilities, except for those individuals in intermediate care facilities for the mentally retarded for whom annual recertification still applies–137(b)(12).

• Clarifies Secretarial/State authority to inspect the records of an HMO that relate to either— (1) the ability of the HMO to bear the risk of financial loss; or (2) the services performed and reimbursement levels. Before this amendment, the statute may have appeared to allow inspection only of records containing both types of information–137(b)(14)(A).

- Clarifies that claims made before FY 82 (rather than FY 81) are excluded from the Medicaid reduction provision—137(b)(15)(A).
- Specifies that Indian Health Service payments and payments to State fraud control units are excluded from the Medicaid Reduction provision—137(b)(15)(B).
- Ensures that Arizona is excluded from the Medicaid reduction provisions—137(b)(15)(C).
- Clarifies that, in determining if States qualify for an offset to Medicaid reduction due to the hospital cost review program, the Secretary may specify the annual period to use in calculations rather than using calendar years—137(b)(15)(D).
- Includes definition of United States in determining increases in hospital costs in the United States—137(B)(15)(E).
- Modifies the target rate provision to exclude the Indian Health Service and State Medicaid fraud control unit payments—137(b)(16)(A).
- Removes, for purpose of calculating States' target rates only, the effect of changes after FY 1981 in States' Federal medical assistance percentages—137(b)(16)(E).
- Adds pregnant women as a discrete category of individuals who could receive medical assistance—137(b)(18).
- Revokes the Secretary's authority under section 1915(b) to waive the requirements for States contracting on a risk basis with Health Maintenance Organizations (HMOs) and other prepaid entities found at section 1903(m) of the Social Security Act. However, this limitation on the Secretary's waiver authority does not apply where a waiver was granted by the Secretary and the arrangement was in place before August 10, 1982. This exemption extends only for the period for which the waiver was initially approved—137(b)(19).
- The type of services that may be covered by a primary care case management system or a specialty physician services arrangement under section 1915(b) of Act has been changed from "primary care services" to "medical care services." This means that specialty physician services arrangements need not include primary care services—137(b)(20).
- Clarifies that in evaluating an individual's need for home and community-based services, the State must also look at an individual's eligibility for the services provided under the home and community-based waiver—137(b)(22).
- Clarifies that fraud and abuse recoveries greater than 1 percent can be carried forward for more than one quarter for determining whether a State achieves sufficient recoveries to have its reduction reduced by one percent under section 1903(s)(2)(C) of the Act—137(b)(26).

Amends: Sections 914 (b)(2)(A) and (c)(2) of the Omnibus Reconciliation Act of 1980, Pub. L. 96–499.

Sections 2161 (b), (c)(1) and (c)(2); 2171(a)(3); 2181(b); and 2193(c)(3)(B) of Pub. L. 97–35.

Sections 501 (b)(1)(D) and (b)(2); 505 (2)(B) and (2)(D); 1134(4); 1902 (a), (a)(10)(A), (a)(10)(C)(i), (a)(10)(C)(ii) and (b); 1903 (f)(3), (g)(1), (g)(1)(A), (k), (m)(2)(A), (s)(1)(A), (s)(1)(C), (s)(3)(D), (s)(4)(B), (s)(5)(B), (t)(1)(A), (t)(1)(B), (t)(1)(C), (t)(2)(A) and (t)(3); 1905 (a), (a)(1) and (h)(1)(C); and 1915 (b), (b)(1), (c)(1), (c)(2)(B), (c)(3), (c)(4) and (f) of the Act.

Adds: Section 1905(a)(vii) of the Act.

Effective: The amendments to Pub. L. 96–499 are effective September 3, 1982.

Except as provided in the following three sentences, any amendment to Pub. L. 97–35 made by this section is effective as if it had been originally included in the provision of Pub. L. 97–35 to which the amendment relates.

Section 1903(f)(3) of the Social Security Act is effective October 1, 1982.

The limitation on the Secretary's waiver authority applicable to section 1903(m) of the Act under section 1915(b) of the Act is effective August 10, 1982.

Except as otherwise provided, any amendment to the Social Security Act made by the preceding provisions of this section is effective as if it had been originally included in the provision of the Social Security Act to which the amendment relates, as such provision of the Social Security Act was amended by the Omnibus Budget Reconciliation Act of 1981.

In the September 29, September 30, and October 1, 1982 issues of the **Federal Register**, we publish proposed and final regulations concerning many other provisions of the Tax Equity and Fiscal Responsibility Act of 1982. Most of those provisions concern reimbursement to providers of medical services. We will also develop regulations, program instructions and other materials for the other provisions of the new legislation, as appropriate, over the next few months.

(Sections 101(b)(3), 112, 115, 121, 124, 125, 128, 134, 136, 137, and 278 of the Tax Equity and Fiscal Responsibility Act of 1982, Pub. L. 97–248)

Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Programs; No. 13.773, Medicare-Hospital Insurance Program; and No. 13.774, Medicare-Supplementary Medical Insurance Program.

Dated: November 24, 1982.

Carolyne K. Davis,

Administrator, Health Care Financing Administration.

Approved: December 16, 1982.

Richard S. Schweiker,

Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[INT–DES 82–78]

Yellowstone Diversion Project; Availability of Draft Environmental Statement and Public Hearing Notice

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement on Intake Water Company's proposed Yellowstone Diversion Project. This statement (INT–DES 82–78, dated December 22, 1982) was made available to the public on December 22, 1982.

The draft environmental statement describes the potential effects of the Bureau's proposal to permit Intake Water Company to construct facilities to divert water from the Yellowstone River near Intake, Montana, to an offstream reservoir site for subsequent municipal, industrial and possibly agricultural use. Intake Water Company holds a water right from the state of Montana for the diversion. Approximately 135 acres of land administered by the Bureaus of Reclamation and Land Management will be needed for the pumping plant, pipeline and reservoir.

Written comments must be submitted to the Regional Director by March 1, 1983.

Copies are available for inspection at the following locations:

Director, Office of Environmental Affairs, Room 7622, Bureau of Reclamation, Washington, DC 20240, Telephone: (202) 343–4991

Division of Management Support, General Services, Library Section, Code 950, Engineering and Research Center, Denver Federal Center, Denver, CO 80225, Telephone: (303) 234–3019

Regional Director, Bureau of Reclamation, Federal Building, 316 N. 26th, Billings, MT 59103, Telephone: (406) 657–6214

Single copies of the statement may be obtained on request to the Director, Office of Environmental Affairs, Bureau of Reclamation, or the Regional Director,

at the above addresses. Copies will also be available for inspection in libraries in the project vicinity.

A public hearing will be held February 16, 1983, at Glendive, Montana, Best Western Holiday Lodge, Holiday Lodge Basement, 7:00 p.m.

Oral statements at the hearing will be limited to a period of 15 minutes. Speakers will not be allowed to trade their time to obtain a longer oral presentation; however, the person authorized to conduct the hearing may allow any speaker to provide additional oral comment after all persons wishing to make comment have been heard. Speakers will be scheduled according to the time perference mentioned in their letter or telephone request, whenever possible, and any scheduled speaker not present when called will lose his or her privilege in the scheduled order and his or her name will be recalled at the end of the scheduled speakers. Requests for scheduled presentations should be received prior to 4:30 p.m., February 14, 1983. The final date for submission to the record for all supplemental comments will be March 1, 1983.

Organizations or individuals desiring to present a statement at the hearing should write the Regional Director, Bureau of Reclamation, Upper Missouri Region, P.O. Box 2553, Billings, Montana 59103, or telephone (406) 657–6605 or (406) 657–6558 and announce their intention to participate.

Comments will be accepted from other parties present following the presentation of all scheduled testimonies.

If further information is needed, phone (406) 657–6605 or (406) 657–6558.

Dated: December 22, 1982.

Robert N. Broadbent,

Commissioner of Reclamation.

Fish and Wildlife Service

Endangered Species Permit; Receipt of Applications

The applicants listed below wish to conduct certain activities with Endangered Species:

Applicant: Leland B. Hayes, Quail Breeder's Society, Redmond, OR—PRT 2–9841.

The applicant requests a permit to export ten (10) captive-bred masked bobwhite quail (*Colinus virginanus ridgewayi*) to the World Pheasant Association, England, for enhancement of propagation.

Applicant: Walter B. Sturgeon, Durham, NH—PRT 2–9854.

The applicant requests a permit to purchase in interstate commerce six (6) captive-bred nene geese (*Branta sandvicensis*) from the San Diego Zoo, California, for enhancement of propagation.

Applicant: Denver Zoo, Denver, CO—PRT 2–9882.

The applicant requests a permit to import on a breeding loan one male lowland gorilla (*Gorilla gorilla*) for enhancement of propagation from the Rotterdam Zoo, the Netherlands.

Applicant: National Zoological Park, Washington, D.C., PRT 2–9879.

The applicant requests a permit to import two male Cuban crocodiles (*Crocodylus rhombifer*) for enhancement of propagation from the Havana Zoo, Cuba.

Applicant: Milwaukee County Zoo, Milwaukee, WI—PRT 2–9884.

The applicant request a permit to import one male gorilla (*Gorilla gorilla*) for enhancement of propagation from Osnabruck Zoo, West Germany.

Humane care and treatment during transport, if applicable, has been indicated by the applicants.

Documents and other information submitted with these applications are available to the public during normal business hours in Room 601, 1000 N. Glebe Rd., Arlington, Virginia, or by writing to the U.S. Fish & Wildlife Service, WPO, P.O. Box 3654, Arlington, VA 22203.

Interested persons may comment on these applications within 30 days of the date of this publication by submitting written data, views, or arguments to the above address. Please refer to the file number when submitting comments.

Dated: December 22, 1982.

Larry LaRochelle,

Acting Chief, Branch of Permits, Federal Wildlife Permit Office.

INTERSTATE COMMERCE COMMISSION

[Decision-Notice—OP3 MC–F–064]

Motor Carriers; Finance Application

The following applications seek approval to consolidate, purchase merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by 49 CFR 1182.1 of the Commission's Rules of Practice. See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.S. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1182.2. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1182.2 (d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Decided: December 21, 1982.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 3 (202) 275–5223.

MC–F–15019, filed November 30, 1982. KUSKOKWIM TRANSPORTATION COMPANY d.b.a. KUSKOWIM TRANSPORTATION COMPANY (KTC) (429 D St., Suite 307, Anchorage, AK 99501)—PURCHASE—UNITED TRANSPORTATION, INC. (UTI) (Box 285, Bethel, AK). Representative: Michael Joseph, 1776 F St., NW., Washington, D.C. 20006. KTC, a joint venture, seeks authority to purchase the interstate operating rights and properties of UTI. Kuskokwim Transportation Services Corporation (Services), and in turn Kuskokwim Corporation, its noncarrier parent which controls 51 percent interest, and Puget Sound Tug & Barge Company (Puget) and in turn its noncarrier parent, Crowley Maritime Corp. which controls a 49 percent interest in KTC, seek to acquire control of said rights through the transition. KTC is seeking to acquire the operating rights contained in Certificate No. MC–123284, authorizing the transportation of *general commodities*, (1) between Bethel, AK, and points within 9 miles thereof, limited, in point of time expiring on December 21, 1985, to the extent that it authorizes the transportation of classes A and B explosives, and (2) *bulk petroleum products*, between Bethel, AK, and points within 25 miles thereof; and in Certificate W–1152: (Sub-Nos. 2 and 5) authorizing the transportation of *general commodities* by self-propelled vehicles, between specified points in Alaska on the Kuskokwim River, in seasonal operations from May 15 to October 15. KTC holds no authority from the Commission. Services and Puget (both noncarriers), control KTC. Services is a wholly owned subsidiary of The Kuskokwim Corporation (Kuskokwim), and Puget is a wholly owned subsidiary of Crowley Maritime Corporation (Crowley). Crowley owns all of the stock of (a) Crowley Towing and Transportation Co., which in turn, owns all of the stock of TMT Intermodal Transport, Inc. (MC–141323), (b) Puget, which in turn, owns the stock in Arctic Lighterage Company (MC–141642 and Subnumbers thereunder) and (W–1229 Sub–No. 1). Puget owns all of the stock of (a) Drummond Lighterage Company (W–580 Sub–No. 10), (b) Columbia Common Carriers, Inc. (W–1305), (c) Mukluk Freight Lines, Inc. (MC–118518 Sub–Nos. 8 and 12X), (d) North Star Forwarding Co. (FF–308 and Sub No. 1), (e) Northwestern Construction, Inc. (MC–145829). Crowley owns all of the stock of Harbor Tug & Barge Company, which in turn, owns all of the stock of Harbor Carriers, Inc. (W–379 Sub–No. 5).

Condition.—Kuskokwim Corporation, which controls Kuskokwim Transportation Services Corporation, and Crowley Maritime Corporation, which controls Puget Sound Tug & Barge Co., are necessary parties to the application and must each seek joinder, as such, in the application.

BILLING CODE 7035–01–M

[Volume No. OP3–MCFC–61]

Motor Carriers; Finance Applications; Decision Notice

Decided: December 16, 1982.

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find: Each transaction is exempt from section 11343 of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsideration; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1181.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 20 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no farther effect.

It is ordered: The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

By the Commission, Review Board Number 3, Members Krock, Joyce, and Dowell.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 3, (202) 275–5223.

MC–FC 81017. By decision of December 16, 1982 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1181, Review Board Number 3 approved the transfer to Frank J. and Shirley Fratzola, doing business as Thomas Gerrity Moving and Storage, Taylor, PA, of Certificate No. MC–129539, issued April 30, 1968 to Scranton Moving Company, Inc., authorizing the transportation of household goods, over irregular routes, between Scranton, PA, and points within 25 miles thereof (except Wilkes-Barre, PA), on the one hand, and, on the other, points in MA, CT, NY, NJ, MD, DE, and DC. Representative: Peter P. Tayoun, Suite 611 Connell Building, Scranton, PA 18503.

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

In the matter of Motor Common and Contract Carriers of Property (except fitness-only); Motor Common Carriers of Passengers (public interest); Freight Forwarders; Water Carriers; Household Goods Brokers.

The following applications for motor common or contract carriers of property, water carriage, freight forwarders, and household goods brokers are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common carriage of passengers, filed on or after November 19, 1982, are governed by Subpart D of 49 CFR Part 1160, published in the **Federal Register** on November 24, 1982, at 47 FR 53271. For compliance procedures see 49 CFR 1160.86. Carriers operating pursuant to an intrastate certificate also must comply with 49 U.S.C. 10922(c)(2)(E). Persons wishing to appose an application must follow the rules under 49 CFR Part 1160, Subpart E. In addition to fitness grounds, these applications

may be opposed on the grounds that the transportation to be authorized is not consistent with the public interest.

Applicant's representative is required to mail a copy of an application including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title, 49, Subtitle IV, United States Code, and the Commission's regulations.

We make an additional preliminary finding with respect to each of the following types of applications as indicated: common carrier of property—that the service proposed will serve a useful public purpose, responsive to a public demand or need; water common carrier—that the transportation to be provided under the certificate is or will be required by the public convenience and necessity; water contract carrier, motor contract carrier of property, freight forwarder, and household goods broker—that the transportation will be consistent with the public interest and the transportation policy of section 10101 of chapter 101 of Title 49 of the United States Code.

These presumptions shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the appplicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries to Team Five at (202) 275–7289.

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

In the matter of Motor Common and Contract Carriers of Property (fitness-only); Motor Common Carriers of Passengers (fitness-only); Motor Contract Carriers of Passengers; Property Brokers (other than household goods).

The following applications for motor common or contract carriage of property and for a broker of property (other than household goods) are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** on December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common or contract carriage of passengers filed on or after November 19, 1982, are governed by Subpart D of the Commission's Rules of Practice. See 49 CFR Part 1160, Subpart D, published in the **Federal Register** on November 24, 1982, at 49 FR 53271. For compliance procedures, see 49 CFR 1160.86. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E.

These applications may be protested only on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members Carleton, Williams, Ewing.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

Please direct status inquiries to Team Four at (202) 275–7669.

Volume No. Op 4–083

Decided: December 17, 1982.

MC 28657 (Sub-6), filed December 7, 1982. Applicant: I–V COACHES, INC., 1600 Bayou St., Vincennes, IN 47591. Representative: Harry J. Harman, 700 Harrison Bldg., 143 W Market St., Indianapolis, IN 46204, (317) 634–4242. Transporting *passengers*, in special and charter operations, between points in the U.S. (except AK and HI).

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 138297 (Sub-14), filed December 7, 1982. Applicant: CENTRAL FLORIDA COACH LINES, INC., P.O. Box 127, Mountaintop, PA 18707. [Volume No. 318]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: December 20, 1982.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with the criteria set forth in 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Review Board No. 2, Members Carleton, Williams and Ewing.

Agatha L. Mergenovich,

Secretary.

MC 228 (Sub-83)X, filed December 1, 1982. Applicant: HUDSON TRANSIT LINES, INC., 17 Franklin Turnpike, Mahwah, N.J. 07430. Representative: Michael J. Marzano, 99 Kinderkamack Rd., Westwood, NJ 07675. Sub 63: authorize service at all intermediate points on passenger carrier's specified alternate route between Poughkeepsie, NY and Fishkill, NY.

MC 85255 (Sub-74)X, filed November 22, 1982. Applicant: PUGET SOUND TRUCK LINES, INC., P.O. Box 24526, Seattle, WA 98124. Representative: James F. Walker, (same as applicant). Subs 23, 26, 60F, and 72F, (1) broaden to (a) "forest products, and lumber and wood products" from forest products, lumber lath, and shingles, in Sub 23; (b) "machinery, building materials, and metal products" from machinery, contractors' equipment, and structural steel, in Sub 26; (c) "building materials" from insulation, in Sub 60F; (d) "pulp, paper, and related products" from paper and paper products, in Sub 72F; (2) expand Kirkland, WA to King County, WA, Sub 60F; (3) change one-way to radial authority in Subs 26 and 60F.

MC 141236 (Sub-2)X, filed December 6, 1982. Applicant: TWINCO TRUCKING CO., INC., 145 Talmadge Rd., Edison, NJ 08817. Representative: Ronald I. Shapss, 450 Seventh Avenue, New York, N.Y. 10123. Lead and Sub 1 permits, broaden territorial authority to "between points in the U.S. (except Alaska and Hawaii), under continuing contract(s) with named shipper.

Motor Carriers; Republications of Grants of Operating Rights Authority Prior to Certification

[Decision Volume No. 081]

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the **Federal Register.**

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this **Federal Register** notice. Such pleading shall address specifically the issue(s) indicated as the purpose for republication. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

Agatha L. Mergenovich,

Secretary.

MC 149267 (Sub-No. 3) (republication), filed February 9, 1982; published in the

Federal Register issue of March 1, 1982; and republished this issue. Applicant: SUPER TRUCK LINES, INC., 801 West Pershing Road, Chicago, Illinois 60609. Representative: William Shipley, P.O. Box 1585, Hot Springs, Arizona 71901, Phone: 501–262–3600. In a dicision, by the Commission, acting as an Appellate Division, decided November 10, 1982, and finds that performance by applicant: To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting (1) for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the United States; (2) *shipments weighing 100 pounds or less if* transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the United States and (3) *general commodities*, between Weston and Parriott, GA; Kahoka, Wayland, Memphis, Downing, and Lancaster, MO; Arm, Oakville, Hathorn, Columbia, Michigan City, Lamar, Hudsonville, Waterford, Abbeville, Oxford, Taylor, Water Valley, Velma, and Coffeeville, MS; Garwin and Toledo, IA; Equality and Shawneetown, IL; Nelson, NE; Benton, Thompsonville, Masonville, and Edgoten, KY; Kenwood, Hickory Point, Doddsville, Fox Bluff, Chapmansboro, Malesus, Medon, Toone, Boliver, Hickory Valley, and Lexington, TN; Hamilton, Helmer, Wolcottsville, and Wakarusa, IN; Edgefield, SC; and International, UT, on the one hand, and, on the other, points in the United States. To the extent this Certificate authorizes the transportation of classes A and B explosives, it shall be limited in point of time to a period expiring five (5) years from its date of issuance.

Note: Applicant must submit to the Deputy Director, Section of Operating Rights, Interstate Commerce Commission, Washington, DC 20423, a statement certifying that all rail service has actually terminated in connection with authority granted in Part (3) herein.

The purpose of this republication is to delete territorial exclusions in parts (1), (2) and (3); and also to delete commodity exclusions in part (3).

DEPARTMENT OF LABOR

Employment and Training Administration

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for adjustment assistance issued during the period December 13, 1982—December 17, 1982.

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) That sales or production or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–13,555; Canton Malleable Iron Co., Canton, OH

TA–W–13,519; The Timken Co., Columbis, OH

TA–W–13,406; Philips ECG, Inc., Electronic Receiving Tube Plant, Emporium, PA

In the following case the investigation revealed that criterion (3) had not been met. Increased imports did not contribute importantly to workers separations at the firm.

TA–W–13,548; Pirelli Cable Corp., Allendale, NJ

In the following cases the investigation revealed that criterion (3) has not been met for the reasons specified.

TA–W–13,553; Big Mountain Coals, Inc., Prenter, WV

Aggregate U.S. imports of coal are negligible.

TA–W–13,516; Taylor & Gaskin, Inc., Detroit, MI

Aggregate imports of conveyors are negligible.

TA–W–13,524; Consolidation Coal Co., Pageton Preparation Plant, Pageton, WV

Aggregate U.S. imports of coal or coke did not increase as required for certification.

TA–W–13,586; Pacific Machinery, Division of Theo H. Davies & Co., Inc., Hilo, HI

The investigation revealed that workers of the firm did not produce an article within the meaning of Section 222(3) of the Act.

TA–W–13,511; Medusa Cement Co., Charlevoix, MI

Aggregate U.S. imports of hydraulic cement and clinker did not increase as required for certification.

TA–W–13,411; Norris industries, Compressed Gas Cylinder Div., West Milwaukee, WI

Aggregate U.S. imports of high pressure gas cylinders did not increase as required for certification.

TA–W–13,189; Hermitage, Inc., Camden, SC

Aggregate U.S. imports of cotton gauge and most sponges are negligible.

TA–W–13,416; U.S. Steel Mining Co., Inc., #9 Mine, McDowell, WV

Imports did not increase as required for certification.

TA–W–13,419; U.S. Steel Mining Co., Inc., #10 Mine, McDowell, WV

Imports did not increase as required for certification.

TA–W–13,420; U.S. Steel Mining Co., Inc., #2 Mine, McDowell, WV

Imports did not increase as required for certification.

TA–W–13,421; U.S. Steel Mining Co., Inc., Alpheus Cleaning Plant, McDowell, WV

Imports did not increase as required for certification.

TA–W–13,421A; U.S. Steel Mining Co., Inc., District Maintenance Shop, McDowell, WV

Imports did not increase as required for certification.

TA–W–13,421B; U.S. Steel Mining Co., Inc., Contour Mine, McDowell, WV

Imports did not increase as required for certification.

TA–W–13,422; U.S. Steel Mining Co., Inc., #4 Mine, McDowell, WV

Imports did not increase as required for certification.

TA-W-13,423; U.S. Steel Mining Co., Inc., #14 Mine, McDowell, WV

Imports did not increase as required for certification.

Affirmative Determinations

TA-W-13,516; Rugi Industries, Inc., Miami, FL

A certification was issued in response to a petition received on April 30, 1982 covering all workers separated on or after April 26, 1981 and before March 31, 1982.

TA-W-13,503; Donner-Hanna Coke Joint Venture, Buffalo, NY

A certification was issued in response to a petition received on May 25, 1982 covering all workers separated on or after February 1, 1982.

I hereby certify that the aforementioned determinations were issued during the period December 13, 1982—December 17, 1982. Copies of these determinations are available for inspection in Room 10,332, U.S. Department of Labor, 601 D Street, NW, Washington, D.C. 20213 during normal business hours or will be mailed to persons who write to the above address.

Dated: December 21, 1982.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance

[FR Doc. 82-35110 Filed 12-27-82; 8:45 am]

BILLING CODE 4510-30-M

Federal-State Unemployment Compensation Program; Extended Benefits; Ending of Extended Benefit Period in State of Oregon

This notice announces the ending of the Extended Benefit Period in the State of Oregon, effective on December 18, 1982.

Background

The Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) established the Extended Benefit Program as a part of the Federal-State Extended Unemployment Compensation Program. The Extended Benefit Program takes effect during periods of high unemployment in a State, to furnish up to 13 weeks of extended unemployment benefits to eligible individuals who have exhausted their rights to regular unemployment benefits under permanent State and Federal unemployment compensation laws. The Act is implemented by State unemployment compensation laws and by Part 615 of Title 20 of the Code of Federal Regulations (20 CFR Part 615).

Extended Benefits are payable in a State during an Extended Benefit Period, which is triggered "on" when the rate of insured unemployment in the State reaches the State trigger rate set in the act and the State law. During an Extended Benefit Period individuals are eligible for a maximum of up to 13 weeks of benefits, but the total of Extended Benefits and regular benefits together may not exceed 39 weeks.

The Act and the State unemployment compensation laws also provide that an Extended Benefit Period in a State will trigger "off" when the rate of insured unemployment in the State is no longer at the trigger rate set in the law. A benefit period actually terminates at the end of the third week after the week for which there is an off indicator, but not less than 13 weeks after the benefit period began.

An Extended Benefit Period commenced in the State of Oregon on March 16, 1980 and has now triggered off.

Determination of "off" Indicator

The head of the employment security agency of the State named above has determined that the rate of insured unemployment in the State for the period consisting of the week ending on November 27, 1982, and the immediately preceding twelve weeks, fell below the State trigger rate, so that for that week there was an "off" indicator in the State.

Therefore, the Extended Benefit Period in the state terminated with the week ending on December 18, 1982.

Information for Claimants

The State employment security agency will furnish a written notice to each individual who is filing claims for Extended Benefits of the end of the Extended Benefit Period and its effect on the individual's right to Extended Benefits. 20 CFR 615.13(d)(3).

Persons who wish information about their rights to Extended Benefits in the State named above should contact the nearest State employment service office or unemployment compensation claims office in their locality.

Signed at Washington, D.C. on December 20, 1982.

Albert Angrisami,

Assistant Secretary of Labor.

BILLING CODE 4510-30-M

Office of Pension and Welfare Benefit Programs, Labor

Proposed Exemptions

AGENCY: Office of Pension and Welfare Benefit Programs, Labor

ACTION: Notice of Proposed Exemptions

SUMMARY: This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code).

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption, unless otherwise stated in the Notice of Pendency, within 45 days from the date of publication of this **Federal Register** Notice. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. Attention: Application No. stated in each Notice of Pendency. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C. 20216.

Notice to Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of pendency of the exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

SUPPLEMENTARY INFORMATION: The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in

ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of pendency are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

[Application No. D–3681]

Retirement Plan of Girard Bank (the Plan) Located in Philadelphia, Pennsylvania

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to: (1) The proposed 99 year lease by the Plan of a certain parcel of land and improvements thereon (the Property) from Girard Bank (the Bank), the Plan sponsor; (2) the proposed sublease, for ten years, of the Property by the Plan to Girard Realty Corporation (GRC), a party in interest with respect to the Plan; (3) the proposed sublease, for ten years, of the Property by GRC to the Bank; and (4) the possible purchase of the Property by the Plan from the Bank.

EFFECTIVE DATE: If granted, the exemption will be effective December 27, 1982.

Written Comments and Hearing Requests: All interested persons ae invited to submit written comments or requests for a hearing on the pending exemption within 33 days from the date of publication of this **Federal Register** notice. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption.

1. The Plan is a defined benefit pension plan which had approximately 3600 participants and net assets of approximately $45,045,234 on December 31, 1981. The Bank is the trustee of the Plan as well as the Plan sponsor. The Bank and GRC are each wholly owned subsidiaries of The Girard Company. The Property, which includes a certified historic building located at the northeast corner of Second and Chestnut Streets in Philadelphia, is used by the Bank for retail banking services and office space. The Property underwent extensive exterior and interior renovations during 1976 and 1977 at a cost of approximately $1,500,000 to the Bank. A recent appraisal of the Property on August 12, 1982 by Mr. Harvey Zalesne (Zalesne) and Mr. Joel D. Kulick (Kulick) of the firm of Zalesne & Herd, Philadelphia, Pennsylvania, indicated a fair market value of $2,000,000 and a fair market rental value of $300,000 per year. Zalesne, Kulick and Zalesne & Herd are independent of The Girard Company and its affiliates, and have extensive experience in appraising commercial properties. Kulick is an M.A.I. certified appraiser.

2. The Bank proposes to lease the Property to the Plan pursuant to a 99 year lease (the Lease). The Plan will lease the Property for $2,000,000, payable in advance, plus one dollar per year. This amount is the fair market value of the Property as determined by Zalesne and Kulick and represents less than five percent of the Plan's current assets. The Lease will be triple net, i.e. the Plan will be responsible for all taxes, maintenance fees and expenses, utility charges, insurance premiums and similar charges incurred with respect to the Property. The Bank, however, will warrant to the Plan and hold the Plan harmless for the first ten years of the Lease term as to the structural soundness of the building on the Property and as to the fact that the building meets all applicable building codes. A purchase option provision in the Lease will permit the Plan to purchase the fee simple interest in the Property at any time during the Lease term for one dollar. The Plan will also have the unilateral right to terminate the Lease at any time by giving ninety days notice to the Bank, however, the Plan will have no rights to any refunds of any rent already paid to the Bank at the time of termination.

3. Upon execution of the Lease, the Plan will sublease the Property to GRC (the GRC Sublease), which will in turn sublease the Property back to the Bank (the Bank Sublease). Both subleases will also be triple net. The applicants state that they have been advised that use of the long term Lease, purchase option and leaseback arrangements may enable the Plan to command a higher price for the Property in any subsequent sale of the Property, should the Plan exercise its purchase option and sell the Property, because the Property will not be reappraised for local tax purposes until upward of a year after its purchase, thereby lowering a subsequent purchaser's initial carrying costs.

4. The GRC Sublease will have a term of ten years, but may be terminated by the Plan, as lessor, at any time after two years from its commencement. The initial rental to be paid to the Plan by GRC will be $300,000 per year, which is the fair market rental value of the Property as determined on August 12, 1982 by Zalesne and Kulick. An escalation clause in the GRC Sublease provides for an automatic increase of 2.5% of the prior year's rental rate each year, and additionally, the Property will be re-appraised every two years and the rent will be adjusted upward if necessary, to reflect at least the then current fair market value of the Property as determined by a qualified, independent appraiser. The GRC Sublease, which is triple net, provides that GRC will be responsible for all taxes, maintenance fees and expenses, utility charges, insurance premiums and similar charges incurred with respect to the Property.

5. GRC will then sublease the Property to the Bank for a ten year period. The Bank Sublease, which is also triple net, will have the same terms and conditions as the GRC Sublease. However, should the Plan decide to terminate the GRC Sublease, the Bank Sublease would be automatically terminated.

6. The real estate firm of Strouse, Greenberg & Co. (Strouse), Philadelphia, Pennsylvania, which is independent of all parties to the proposed transactions, has accepted appointment as an independent fiduciary for the Plan with respect to the subject transactions. Strouse will approve and monitor the Leases on behalf of the Plan, will be the sole party to authorize, on behalf of the Plan, the Plan's exercise of its rights to purchase the Property or to terminate the Lease from the Bank and/or the GRC Sublease, and additionally, will take any steps necessary to enforce the rights of the Plan with regard to all the subject transactions. Strouse has reviewed its undertakings as an independent fiduciary with attorneys at Dechert, Price & Rhoads, Philadelphia, Pennsylvania, who have extensive experience in matters involving fiduciary responsibility and employee benefit plans.

Strouse has reviewed the needs of the Plan, the Plan's most recent financial statements, the proposed Lease, the GRC Sublease and the Bank Sublease (collectively, the Leases), the appraisals of fair market value and fair rental value

of the Property and various financial studies and analyses of the real estate industry, and represents that the proposed transactions are fair to the Plan and in the best interest of the Plan's participants and beneficiaries because: (1) The price of the 99 year Lease from the Bank to the Plan is not more than the appraised fair market value of the Porperty; (2) the Plan's option to purchase the Property for one dollar permits the Plan to resell the Property at any time that Strouse and the Plan believe such a resale would be in the best interests of the participants and beneficiaries in the Plan, any such resale being subject to the sublease to GRC, which may be canceled any time after two years; (3) the rate of return to the Plan of 15% per annum under the GRC Sublease is favorable to the Plan and not less than the appraised fair rental value under a "triple net lease", where the sublessee, GRC, pays all expenses, taxes and the like; (4) the biannual adjustment of rental rates under the subleases will reflect increases in the appraised fair market rental value of the Property during the ten year term of the subleases; (5) the Plan had net assets as of December 13, 1981 of $43,045,234 and paid benefits in 1981 of $2,633,675, an assets to benefits ratio of 20.1. The investment of $2,000,000 in the Property, about one-twentieth of the Plan's fund, will yield an amount ($300,000) equal to more than one-tenth of the Plan's requirements for benefit payments; (6) the yield on the Plan's investment in the Property will be substantially in excess of the average yield on the Plan's other assets, when compared with the 1981 results; and (7) the Plan's sublessee, GRC, an affiliate of the Bank, will in turn sublease the Property to the Bank, which is a responsible financial institution. The most recent Federal Reserve Bank report available to Strouse, that of March 31, 1982, shows the total equity capital of the Bank was $276,780,000, and Strouse is advised that the Bank ranked 54th among United States commercial banks based upon its total equity capital.

7. In summary, the applicants represent that the proposed transaction meets the statutory criteria for an exemption under section 408(a) of the Act because: (1) The fair market value and fair market rental value of the Property have been determined by a qualified, independent appraiser; (2) escalation clauses in the subleases to GRC and the Bank provide for automatic increases of 2.5% of the prior year's rental rate each year, and additionally, the fair market rental value of the Property will be reappraised once every two years to ensure that the Plan is always receiving at least the fair market rental value of the Property; (3) an independent fiduciary has reviewed the needs of the Plan and the proposed transactions and has determined that the proposed transactions are appropriate for the Plan and in the best interests of the Plan's participants and beneficiaries; (4) the independent fiduciary will monitor the Leases on the Plan's behalf, authorize the exercise of the purchase option and the termination of the Lease and/or the GRC Sublease on the Plan's behalf and will take any steps necessary to protect the rights of the Plan and its participants and beneficiarie; (5) the proposed transactions will involve less than five percent of the Plan's current assets; and (6) the Bank, as trustee of the Plan, has determined that the transactions are appropriate for the Plan and in the best interests and protective of the Plan's participants and beneficiaries.

[Application No. D–3719]

The Profit-Sharing Plan and Trust for Employees of the Havi Corporation and Its Subsidiaries (the Plan), Located in Hinsdale, Illinois

Progosed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in acccordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code shall not apply to the purchase of certain real property (the Land) by the Plan and the lease of the Land to Messrs. Theodore F. Perlman and Robert E. Rocque (the Developers), who are principals of Havi Corporation (the Employer), provided the terms and conditions of the transactions are not less favorable to the Plan than those obtainable in similar transactions with an unrelated party.

Summary of Facts and Representations

1. The Employer is a Delaware corporation maintaining its principal place of business at 911 North Elm Street, Hinsdale, Illinois. The Employer is the parent of an affiliated group of corporations (the Havi Group) which includes the Perlman Rocque Company (North), a Minnesota corporation; the Perlman Rocque Company (P–R), an Illinois corporation; and Golden Arch Express, Inc. (GAX), an Illinois corporation. The Employer is engaged primarily in providing management and administrative services to its operating subsidiaries and affiliates, and in distributing foodstuffs, paper goods and supplies through its Perseco Company Division (Perseco). Both North and P–R supply foods and related foods products to McDonald's franchises. GAX is an interstate carrier and transports, by truck, the supplies of the Havi Group to the McDonald's franchises and performs transportation services for McDonald's independent of the Employer. A new wholly owned subsidiary of the Employer, the Perlman Rocque Company, Inc. of Indiana, has been formed and it will in the future provide food supply services to other McDonald's franchises. This corporation will also participate in the Plan. The stock of all of the corporations participating in the Havi Group is held by members of the Theodore F. Perlman and Robert E. Rocque families.

2. The Plan is a profit sharing plan covering all eligible non-union employees of the Employer and those corporations of the Havi Group which have adopted it. As of January 30, 1982, the Plan had an estimated 157 participants and total assets of $2,228,584. American National Bank and Truct Company of Chicago, located in Chicago, Illinois serves as the Plan trustee (the Trustee). The Trustee is responsible for all investment decisions with respect to the assets of the Plan.

3. The Employer desires to centralize its existing operations by causing it, Perseco and GAX to be housed in one facility. To accomplish this objectiye, the Employer proposes to have the Plan engage in several transactions, among which includes the lease for which it is requesting an exemption. Initially, it is proposed that the Plan purchase the Land for cash from an unrelated party. Then, the Plan will lease the Land to the Developers pursuant to the terms and conditions of a ground lease (the Ground Lease). Within an eighteen month period, the Developers will cause an office building (the Building) to be erected on the Land. Afterwards, the Developers will lease space in the Building to the Employer, its subsidiaries and affiliates.

4. The Land which the Plan will purchase for cash from an unrelated party consists of approximately four acres situated in Westmont, DuPage County, Illinois. The Land is specifically identified as "Lot 2, in Oakmont Centre,

Unit II." The purchase price for the Land is approximately $635,000 as determined by an independent appraisal. The purchase price represents nearly 25 percent of the Plan's total asets. To evidence its ownership of the Land, the Plan will receive a recorded warranty deed.

5. With respect to the Ground Lease executed between the Plan and the Developers, the Plan will receive base rent (payable semiannually in arrears commencing on its purchase of the Land) in an amount equal to 11½ percent of the purchase price (approximately $73,000). In addition to the base rent, the Plan will receive 20 percent of any cost-of-living increases received by the Developers from tenants leasing space in the Building. The Developers will pay, or cause to be paid, all real estate taxes and assessments levied upon and all operating expenses related to the Land and the Building.

The duration of the Ground Lease will be forty years, unless terminated sooner. Commencing on the twelfth year of the Ground Lease, and at the end of each five year period thereafter, and appraisal of the Land and Building will be made by an independent appraiser. Based on the appraisal, the base rent will bear the greater of the rent then being paid (which rent will include all cost-of-living adjustments to date) or 11½ percent of the appraised value. For a period of six months, commencing at the end of the twelfth year and each five year increment thereafter (the Put Option Period) the Plan may require the Developers to purchase the Land for the greater of its then appraised value or the original purchase price (the Put Option), provided an independent fiduciary designated to oversee the proposed transactions makes the decision relative to the exercise of the Put Option. The payment is to be made in four consecutive equal annual installments, with the balance of the principal bearing interest at the prime rate of Continental Illinois National Bank and Trust Company of Chicago, Chicago, Illinois. In the event the Plan elects not to exercise the Put Option, the Developers, for a six month period commencing at the expiration of each Put Option Period may purchase the Land from the Plan at the greater of its purchase price or its then appraised value (the Call Option). Payment by the Developers is to be made within the six month Call Option period.

If a default occurs under the Ground Lease, the Plan will have all rights customarily granted to and/or reserved to ground lessors, including the right to terminate the Ground Lease and accelerate all payments due thereunder or seek indemnification from the Employer which has agreed to guarantee the Ground Lease. As of January 30, 1982, the Employer and members of the Havi Group had combined total assets of $36,254,944.

6. The purchase price and fair rental value of Land have been determined by Messrs. Frank A. Slivka, MAI appraiser and Thomas Rogers, a staff appraiser (the Appraisers) in an appraisal report dated August 6, 1982 and in an addendum to the appraisal report dated October 7, 1982.

The Appraisers are unrelated to the Plan, Employer and other parties in interest and are affiliated with Mid America Appraisal and Research Corporation, a real estate consulting firm located in Chicago, Illinois. Based on their analyses of the Land, the Appraisers have placed its fair market value at $635,000 as of May 31, 1982. The Appraisers also opine that based on their experience and judgment as well as their evaluation of all available data, the Ground Lease rental rate of 11½ percent is within the range of fair market rental, though it tends to be near the middle to lower end of the rental range. The Appraisers note that although the Ground Lease has a term of forty years, it may be considered a twelve year investment with a termination date in 1994 since either the Plan or Developers may exercise the Put or Call Options on the twelfth year the Ground Lease is in effect. Assuming either of the parties exercises their respective Option, the Appraisers state that the Plan will be free to make alternative investments.

7. The Trustee has agreed to serve as the independent fiduciary for the proposed transactions. By letter dated September 27, 1982, the Trustee states that although the Employer maintains deposits with the bank ranging between $500,000 to $1 million, these deposits represents an extremely small percentage of the Trustee's average deposits of some $1.9 billion. In addition, the Trustee states that no shareholder of the employer is represented on the Board of Directors of the bank.

As the independent fiduciary, the Trustee will review and monitor the purchase and lease transactions. The Trustee will also make the decision pertaining to the Plan's exercise of the Put Option and it will otherwise protect and enforce the interests of the Plan.

The Trustee believes the proposed transactions are prudent investments for the Plan and in the best interests and protective of the Plan's participants and beneficiaries. The Trustee will not cause the Plan to buy the Land unless it determines that the Land is purchased for its fair market value. With respect to the Put and Call Options, the Trustee has reviewed their terms and it considers them to be appropriate. The Trustee has also reviewed the provisions of the Ground Lease, including the cost-of-living features, and the leases the Developers intend to make to members of the Havi Group. Based on its evaluation of these leases, the Trustee is satisfied that the base rent to be paid the Plan plus the cost-of-living increments are appropriate and represent fair market value. The Trustee has further considered the propriety of not having the land reappraised for the first twelve years that the Ground Lease is in effect and it believes this condition is acceptable.

Concerning the 11½ percent base rental rate for the Ground Lease, the Trustee states that it is competitive with the market rate and it carries with it the possibility of a higher rate because of increases in the cost-of-living. Although the Ground Lease is for a forty year term, the Trustee notes that the Plan retains the right to recoup the entire investment in twelve years and in each five year increment thereafter. The Trustee also states that the proposed investment in the Land (which represents less than 25 percent of the Plan's current assets) along with a 15 percent investment in common stock will continue the Plan's conservative investment posture.

8. In summary, it is represented that the the proposed transactions satisfy the criteria of section 408(a) of the Act because: (a) the Trustee, as the independent fiduciary, has determined that the Plan's investment in the Land and the Ground Lease to the Developers is in the best interests of the Plan and its participants and beneficiaries; (b) the Trustee will monitor the terms of the Land acquisition as well as the provisions of the Ground Lease, including the Plan's exercise of the Put Option; (c) the Plan will purchase the Land at a cost equal to its fair market value under the direction of the Trustee; (d) the Plan will lease the Land for its fair rental value under the Ground Lease which will contain escalator clauses and require appraisals of the Land at five year intervals after the Ground Lease has been in effect for twelve years; and (e) the Employer will guarantee payments under the Ground Lease in the event of a default by the Developers.

FOR FURTHER INFORMATION CONTACT: Ms. Jan D. Broady of the Department,

telephone (202) 523–8971. (This is not a toll-free number.).

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete, and that each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 22nd day of December 1982.

Alan D. Lebowitz,

Assistant Administrator for Fiduciary Standards, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

MERIT SYSTEMS PROTECTION BOARD

Privacy Act of 1974; Annual Publication of Systems of Records

AGENCY: Merit Systems Protection Board.

ACTION: Annual publication of systems of records.

SUMMARY: The Merit Systems Protection Board (MSPB) publishes this document pursuant to the requirements of the Privacy Act of 1974 at 5 U.S.C. 552a(e)(4). This Act requires agencies to publish annually in the **Federal Register** a notice of the existence and character of their systems of records.

ADDRESS: Office of the Secretary, Merit Systems Protection Board, 1120 Vermont Avenue, NW., Washington, D.C., 20419.

FOR FURTHER INFORMATION CONTACT: Kathy Semone, Assistant Secretary, 202–653–7200.

SUPPLEMENTARY INFORMATION: MSPB previously published the full text of its systems of records at 46 FR 32530, June 23, 1981, and amended its system entitled MSPB/GOVT–1, Appeal and Case Records at 46 FR 42372, August 20, 1981. The Notice has been corrected to reflect the current addresses of the Board and its Regional Offices. References to "Field Offices" contained within the notice as originally published have been revised to reflect the change in designation of these offices to "Regional Offices" and identification of system locations and system managers has been revised to reflect changes in the position titles of the managers. The authority for maintenance of the system entitled MSPB/INTERNAL–6, Security Office Control Records, has been updated to reflect the issuance of Executive Order 12356 concerning national security information.

Finally, the system entitled MSPB/GOVT–1, Appeal and Case Records, has been modified to exclude appeals filed within agencies prior to September 9, 1974 from coverage. The retention period previously established for these records was seven years; that period has now expired. The MSPB provided notice of its intent to exclude such appeals from coverage in the preamble to the publication of its systems notice on June 23, 1981. Accordingly, any agency continuing to maintain records of appeals filed prior to September 9, 1974 now becomes responsible for publication of its own system notice with respect to those records.

This Notice contains no changes in routine uses for the systems contained herein. It does not contain any material which would require a new or altered systems report as described in Office of Management and Budget (OMB) Circular A–108.

Dated: December 15, 1982.

For the Board.

Herbert E. Ellingwood,

Chairman.

APPENDIX

MSPB/INTERNAL–1

SYSTEM NAME:

Pay, Leave, and Travel Records.

SYSTEM LOCATION:

Director, Office of Administration, Merit Systems Protection Board (MSPB), 1120 Vermont Avenue, N.W., Washington, D.C. 20419, and MSPB Regional Offices (see list of Regional Office addresses in the Appendix).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of the Merit Systems Protection Board.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system, both manual and automated, contains various records relating to pay, leave, and travel. This includes information such as: name; date of birth; social security number; home address; grade; employing organization; timekeeper number; salary; pay plan; number of hours worked; leave accrual, usage, and balance; Civil Service Retirement contributions; FICA withholdings; Federal, State, and Local tax withholdings; Federal Employees' Group Life Insurance withholdings; Federal Employees' Health Benefits Withholdings; charitable deductions; allotments to financial organizations; garnishment documents; savings bond

allotments; union and management association dues withholding allotments; and travel expenses.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1205, 5501 et seq., 5525 et seq., 5701 et seq., and 6301 et seq; 31 U.S.C. 66a.

PURPOSE(S):

These records are used to administer the pay, leave, and travel functions of the Merit Systems Protection Board.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information from these records may be disclosed:

a. To the Department of the Treasury to issue checks and U.S. Savings Bonds.

b. To the Department of Labor in connection with a claim filed by an employee for compensation due to a job-connected injury or illness.

c. To State offices of unemployment compensation in connection with claims filed by former MSBP employees for unemployment compensation.

d. To Federal Employees' Group Life Insurance or Health Benefits carriers in connection with survivor annuity or health benefits claims or records reconciliations.

e. To the Interal Revenue Service and State and local tax authorities.

f. To the Social Security Administration in connection with FICA withholdings and benefits.

g. To the Office of Personnel Management in connection with payroll deductions for Civil Service retirement plans.

h. To the Combined Federal Campaign in connection with payroll deductions for charity.

i. To the authorized employees of another Federal agency that provides MSPB with manual and automated assistance in processing pay, leave, and travel records.

j. In the event the individual to whom the record pertains dies, to the person appointed as representative of the estate, or the person designated by the representative, or to a designated beneficiary. When a representative of the estate has not been appointed, the individual's next of kin may be recognized as the representative of the estate.

k. To officials of labor organizations recognized under 5 U.S.C. Chapter 71 as to the identity of Board employees contributing union dues each pay period and the amount of dues withheld from each contributor.

l. To officials of labor organizations recognized under 5 U.S.C. Chapter 71 when relevant and necessary to their duties of exclusive representation concerning personnel policies, practices, and matters affecting working conditions.

m. To the appropriate Federal, State, or local agency responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, or order, where the MSPB becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation.

n. To any source from which the MSPB requests additional information relevant to an MSPB determination concerning an individual's pay, leave, or travel expenses, to the extent necessary to identify the individual, inform the source of the purpose(s) of the request, and to identify the type of information requested.

o. To the Federal agency, at its request, for purposes connected with: the hiring or retention of an employee; the issuance of a security clearance; the conduct of a suitability or security investigation of an individual; the classification of a job; the letting of a contract; or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

p. To the Office of Management and Budget at any stage in the legislative coordination and clearance process in connection with private relief legislation as set forth in OMB Circular No. A–19.

q. To a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

r. To another Federal agency or to a court when the Government is party ot a judicial processing before the court.

s. To the National Archives and Records Service (General Services Administration) pursuant to records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

t. In response to a request for discovery or for appearance of a witness, if the information is relevant to the subject matter involved in a pending judicial or administrative processing.

u. To officials of the Office of Personnel Management, the Federal Labor Relations Authority and the Equal Employment Opportunity Commission when requested in the performance of their authorized duties.

v. To the General Accounting Office for auditing purposes.

POLICIES AND PRACTICES OF STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders and loose leaf binders, and on cards, magnetic tapes and discs.

RETRIEVABILITY:

These records are retrieved by name, social security number, or Merit Systems Protection Board employee identification number.

SAFEGUARDS:

These records are located in lockable metal filing cabinets or in a secured facility and are available only to authorized personnel.

RETENTION AND DISPOSAL:

These records are maintained for varying periods of time in accordance with GAS General Records Schedule 2. Disposal or manual records is by shredding or burning; magnetic tapes and discs are erased.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Administration, Merit Systems Protection Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419.

NOTIFICATION PROCEDURES:

Individuals wishing to determine whether this system of records contains information about them should contact the System Manager indicated above or the MSPB Regional Office where the individual is or was employed. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date of birth.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSBP's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquires.

RECORD ACCESS PROCEDURES:

Individuals requesting access to their records should contact the System Manager indicated above or the MSPB Regional Office where the individual is or was employed. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date of birth.

Individuals requesting access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1201.11 regarding access to records and verification of identity.

CONTESTING RECORD PROCEDURES:

Individual wishing to request amendment of records about them should contact the System Manager indicated above, or the MSPB Regional Office where the individual is or was employed. Individuals must furnish the following information for their record to be located and identified:

a. Full name; and

b. Date of birth.

Individuals requesting amendment of their records must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

a. The individual to whom the record pertains;

b. Merit Systems Protection Board officials responsible for pay, leave and travel functions; and

c. Other official personnel documents of MSPB.

MSPB/INTERNAL-2

SYSTEM NAME:

Motor Vehicle and Accident Report Records.

SYSTEM LOCATION:

Director, Administrative Services Division, Office of Administration Merit Systems Protection Board (MSPB) 1120 Vermont Avenue, N.W., Washington, D.C. 20419, and MSPB Regional Offices (see list of Regional Office addresses in the Appendix).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of the Merit Systems Protection Board.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains documents related to the authorization and issuance to an individual of a Government motor vehicle operator's permit; also included are reports, correspondence, and fiscal documents concerning automobile accidents occurring in a Government-owned or leased automobile or in a privately-owned vehicle while on official business.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1205, 28 U.S.C. 2671 et seq.

PURPOSE(S):

The records serve to document issuance of a Government motor vehicle operator's accident reports and related document may be used in claims settlement litigation regarding an accident involving a Government motor vehicle or privately-owned vehicle while being used on official business.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Information from these records may be disclosed:

a. To the appropriate Federal, State, or local agency responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, or order, where the MSPB becomes aware of a violation or potential violation of civil or criminal law or regulation.

b. To any source from which the MSPB requests additional information (to the extent necessary to identify the individual, inform the source of the purpose of the request, and identify the type of information requested) where necessary to obtain information relevant to an MSPB decision concerning the hiring or retention of an employee, the issuance of a security clearance, the conduct of a security or suitability investigation of an individual, the classification of jobs, the letting of a contract, or the issuance of a grant or other benefit.

c. To a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

d. To another Federal agency or to a court when the Government is party to a judicial proceeding before the court.

e. To the National Archives and Records Service (General Services Administration) pursuant to records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

f. To officials of labor organizations recognized under 5 U.S.C. Chapter 71 when relevant and necessary to their duties of exclusive representation concerning personnel policies, practices, and matters affecting working conditions.

g. To a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the conduct of a suitability or security investigation, the classification of jobs, or the award of a contract, license, grant or other benefit.

h. To the General Services Administration about accidents involving Government-owned or leased automobiles.

i. To insurance carriers about accidents involving privately-owned vehicles.

j. In response to a request for discovery or for the appearance of a witness, if the information is relevant to the subject matter involved in a pending judicial or administrative proceeding.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders and on indexed application cards.

RETRIEVABILITY:

Records are retrieved by name of the individual on whom they are maintained.

SAFEGUARDS:

Records are maintained in a secured area and are available only to authorized personnel whose duties require access.

RETENTION AND DISPOSAL:

Motor vehicle operator records are maintained for three years after the separation of the employee (operator) and are destroyed by shredding. Accident reports are maintained for three years after the date of the report and are destroyed by shreding, except in cases involving litigation. In cases involving litigation, these records are maintained until all litigation has been settled.

SYSTEM MANAGER(S) AND ADDRESSES:

a. For motor vehicle operator records: Director, Administrative Services Division, Office of Administration, Merit System Protection Board, 1120 Vermont Avenue, N.W. Washington, D.C. 20419.

b. For accident report records: General Counsel, Merit Systems Protection Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419.

NOTIFICATION PROCEDURES:

Individuals wishing to inquire whether this system of records contains information about them should contact the appropriate office as follows:

a. For accident report records: Contact the System Manager indicated above;

b. For motor vehicles operator records for current or former MSPB employees: Contact the System Manager indicated above; or the MSPB Regional Office in which employed (see list of Regional Office addresses in the Appendix).

Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date of birth.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the Board's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURES:

Individuals wishing to request access to records about them should contact the appropriate office as follows:

a. For accident report records: Contact the System Manager indicated above;

b. For motor vehicle operator records of current or former MSPB employees: Contact the System Manager indicated above or the MSPB Regional Office in which employed (see list of Regional Office addresses in the Appendix).

Individual must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date of birth.

Individuals requesting access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 concerning access to records and verification of identity.

CONTESTING RECORD PROCEDURES:

Individuals wishing to request amendment of their records should contact the appropriate office as follows:

a. For accident report records: Contact the System Manager for these records indicated above;

b. For motor vehicle operator records for current or former MSPB employees: Contact the System Manager indicated above; or the MSPB Regional Office in which employed (see list of Regional Office addresses in the Appendix).

Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date of birth.

Individuals requesting amendment must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

a. The individual to whom the record pertains;

b. MSPB employees and other parties involved in the accident;

c. Witnesses to the accident;

d. Police reports and reports of investigation; and

e. Officials of the MSPB and the General Services Administration.

MSPB/INTERNAL-3

SYSTEM NAME:

Grievance Records.

SYSTEM LOCATION:

Personnel Management Division, Office of Administration, Merit Systems Protection Board (MSPB), 1120 Vermont Avenue, NW., Washington, D.C. 20419

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of the Merit Systems Protection Board who have filed grievances in accordance with the MSPB's procedures as established under 5 CFR 771, Subpart C.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains records relating to grievances filed by MSPB employees. The case files contain all documents related to the grievance, including statements of witnesses, reports or transcripts of interviews and hearings, the employee's written request for reviews of the initial grievance, designation of the grievance examiner, any written comments by the grievant or his/her representative upon review of the file at the completion of the inquiry, the examiner's report of findings and recommendations, the grievance decision, and correspondence and exhibits related to the grievance. The system does not include files and records of any grievance filed under negotiated procedures with recognized labor organizations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1205, 5 CFR 771.

PURPOSE(S):

These records are used to process grievance filed by MSPB employees for personal relief in matters of concern or dissatisfaction that are subject to the control of MSPB management.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information from these records may be disclosed:

a. To any source from which the MSPB requests additional information in the course of processing a grievance, to the extent necessary to identify the individual, inform the source of the purpose(s) of the request, and identify the type of information requested.

b. To the appropriate Federal, State, or local agency responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, or order, where the MSPB becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation.

c. To a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the conducting of security or suitability investigation of an individual, the classifying of jobs, the letting of a contract or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

d. To a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

e. To another Federal agency or to a court when the Government is party to a judicial proceeding before the court.

f. To the National Archives and Records Service (General Services Administration) pursuant to records management inspection conducted under authority of 44 U.S.C. 2904 and 2906.

g. To officials of the Office of Personnel Management; the Federal Labor Relations Authority; and the Equal Employment Opportunity Commission when requested in performance of their authorized duties.

h. In response to a request for discovery or for appearance of a witness, if the information is relevant to the subject matter involved in a pending judicial or administrative proceeding.

i. To officials of labor organizations recognized under 5 U.S.C. Chapter 71 when relevant and necessary to their duties of exclusive representation concerning personnel policies, practices, and matters affecting work conditions.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders.

RETRIEVABILITY:

These records are retrieved by the names of the individuals on whom they are maintained.

SAFEGUARDS:

These records are maintained in lockable metal filing cabinets to which only authorized personnel have access.

RETENTION AND DISPOSAL:

These records are disposed of three years after closing of the case. Disposal is by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Personnel, Merit Systems Protection Board, 1120 Vermont Avenue, NW., Washington, D.C. 20419.

NOTIFICATION PROCEDURES:

Individuals wishing to determine whether this system of records contains information about them should contact the System Manager indicated above. Individuals who have filed grievances are aware of that fact and have been

given an opportunity to review the record. Individuals must furnish the following information for their records to be located and identified:

a. Full name;

b. Date of birth; and

c. Approximate date of closing of the case and kind of action taken.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.1 regarding such inquiries.

RECORDS ACCESS PROCEDURES:

Individuals requesting access to their records should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name;

b. Date of birth; and

c. Approximate date of closing of the case and kind of action taken.

Individuals requesting access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding access to records and verification of identity.

CONTESTING RECORDS PROCEDURES:

Review of requests from individuals seeking amendment of their records which have been the subject of a judicial or quasijudicial action will be limited in scope. Review of amendment requests of these records will be restricted to determining if the record accurately documents the action of the officer ruling on the case, and will not include a review of the merits of the action, determination, or finding.

Individuals wishing to request amendment of their records to correct factual errors should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified.

a. Full name;

b. Date of birth; and

c. Approximate date of closing of the case and kind of action taken.

Individuals requesting amendment must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

a. The individual on whom the record is maintained;

b. Witnesses;

c. Agency officials; and

d. Related correspondence from organizations or persons.

MSPB/INTERNAL-4

SYSTEM NAME:

Employee Incentive Awards and Recognition Records.

SYSTEM LOCATION:

Personnel Management Division, Office of Administration, Merit Systems Protection Board (MSPB), 1120 Vermont Avenue, N.W., Washington, D.C. 20419.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of the Merit Systems Protection Board who have been nominated for special recognition for achievements either within or outside the employee's job responsibilities and for length of service to the Government.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains information including or relating to the name, title, grade, duty station, and length of service; incentive award or quality step increase recipients; the recommendation, authorization disposition actions by approving officials; and related documentation and correspondence.

AUTHORITY FOR MAINTENANCE OF SYSTEM:

5 U.S.C. 1205, 5 U.S.C. 4501 et seq. and 5 U.S.C. 5336.

PURPOSE(S):

These records are collected and maintained to provide a basis for the recognition of MSPB employees through the granting of incentive awards and quality step increase.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information from these records may be disclosed:

a. To other Federal agencies and other organizations to process and approve suggestions and nominations for awards or quality step increases for MSPB employees.

b. To the Office of Attorney General and the President of the United States in reviewing recommended awards.

c. To other government agencies to recommend whether suggestions should be adopted in instances where the suggestion made by an MSPB employee affects the functions or responsibilities of the agencies.

d. To a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

e. To other public (Federal, State, or local) or private organizations, including news media, which grant or publicize employee awards or honors.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders.

RETRIEVABILITY:

These records are retrieved by the office to which the employee is or was assigned at the time the award or nomination was made, and by the name of the recipient of each award or nomination for award.

SAFEGUARDS:

These records are maintained in lockable metal filing cabinets. Access to and use of these records are limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

These records are retained for five years, then sent to a Federal Record Center.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Personnel, Merit Systems Protection Board, 1120 Vermont Avenue, NW., Washington, D.C. 20419.

NOTIFICATION PROCEDURES:

Individuals wishing to determine whether this system of records contains information about them should contact the System Manager indicated above or the Regional Office where the individual is or was employed. Individuals must furnish the following information for their records to be located and identified:

a. Full name;

b. Date of the suggestion or nomination for award; and

c. Duty station at the time the suggestion or nomination for award was made.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORDS ACCESS PROCEDURES:

Individuals requesting access to their records should contact the System Manager indicated above or the Regional Office where the individual is or was employed. Individuals must furnish the following information for their records to be located and identified:

a. Full name;

b. Date of the suggestion or nomination for award or quality step increase; and

c. Duty station at the time the suggestion or nomination for award was made.

Individuals requesting access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding access to records and verification of identity.

CONTESTING RECORD PROCEDURES:

Individuals wishing to request amendment of records about themselves should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name;

b. Date of the suggestion or nomination for award or quality step increase; and

c. Duty station at the time the suggestion or nomination for award was made.

Individuals requesting amendment must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

a. Individuals submitting suggestions or nominations for awards or quality step increases;

b. Supervisors of employees;

c. Evaluators of suggestions or nominations for awards or quality step increases;

d. Official Personnel Folders; and

e. Staff of the Personnel Management Division, General Accounting Office, and other Federal agencies.

MSPB/INTERNAL-5

SYSTEM NAME:

Individual Production Reports.

SYSTEM LOCATION:

Office of the Managing Director, Merit Systems Protection Board (MSPB), 1120 Vermont Avenue, NW., Washington, D.C. 20419, and at MSPB Regional Offices (see list of Regional Office addresses in the Appendix).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former MSPB employees who have adjudicated appeals.

CATEGORIES OF RECORDS IN THE SYSTEM:

The records contain production information by type of appeal; number of cases decided; number of hearings held; calendar days elapsed on an average and median basis for each type of case; and the case disposition by type of appeal.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 1205, 3301 et seq. 4103, 4302, 4501 et. seq.

PURPOSES:

Records are maintained in this system to provide an effective management tool in determining proper assignment, transfer, promotion, detail, training, reassignment, and other personnel actions affecting presiding officials.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Information from these recores may be disclosed:

a. To another Federal agency or to a court when the Government is party to a judicial proceeding before the court.

b. To a congressional office in response to an inquiry from that office.

c. To the National Archives and Records Service (General Services Administration) pursuant to records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

d. In response to a request for discovery or for appearance of a witness, if the information is relevant to the subject matter involved in a pending judicial or administrative proceeding.

e. To officials of the Office of Personnel Management, the Federal Labor Relations Authority and the Equal Employment Opportunity Commission when requested in the performance of their authorized duties.

POLICIES AND PRACTICES OF STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in binders and on computer tapes and discs.

RETRIEVABILITY:

Records are retrieved by the name of the individual on whom they are maintained and by an appeals officer code number.

SAFEGUARDS:

Records are located in lockable cabinets. Access is restricted to those employees who have a need to use these records.

RETENTION AND DISPOSAL:

The record is maintained during the period of the individual's service with the Board and destroyed by shredding one year after the individual leaves the Board's employ.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Managing Director for Regional Operations and Director, Office of Appeals, Merit Systems Protection Board, 1120 Vermont Avenue, NW., Washington, D.C. 20419.

NOTIFICATION PROCEDURES:

Individuals wishing to determine whether this system of records contains information about them should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date and location of the last appeal office assignment.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURES:

Individuals requesting access to their records should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date and location of last appeals office assignment.

Individuals requesting access must also comply with the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding access to records and verification of identity.

CONTESTING RECORD PROCEDURES:

Individuals requesting amendment of their records should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date and location of last appeals office assignment.

Individuals requesting amendment must also comply with the MSPB's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

Information in this system of records is provided by:

a. The individual on whom the records are maintained;

b. Case Control Records used as computer data input; and

c. Production information by the Regional Director.

MSPB/INTERNAL-6

SYSTEM NAME:

Security Office Control Records.

SYSTEM LOCATION:

Security Office, Office of Administration, Merit Systems Protection Board, 1120 Vermont Ave., N.W., Washington, D.C. 20419.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former Merit Systems Protection Board employees for whom there is an investigative file. The system also contains cards on employees stationed in MSPB Regional Offices for whom the appointing authority is retained in Washington, D.C., and for whom there is an investigative file.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system consists of cards, filed alphabetically, containing name, social security number, date and place of birth, position sensitivity, type and date of investigations, and date and level of clearance.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1205 and E.O. 12356.

PURPOSE(S):

These records are used to document security investigations and clearances of MSPB employees.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

There are no disclosures of this information outside of the security office, except to provide information to a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

POLICIES AND PRACTICES OF STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored on cards.

RETRIEVABILITY:

Records are retrieved by the name and date of birth of the individual on whom they are maintained.

SAFEGUARDS:

The cards are stored in locked file cabinets contained within a secured area. These cards do not leave the security office.

RETENTION AND DISPOSAL:

Records are maintained for one year after the individual leaves the Board and then are destroyed by burning.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Administration, Merit Systems Protection Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419.

NOTIFICATION PROCEDURES:

Individuals wishing to determine whether this system of records contains information about them should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date of birth.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURES:

Individuals requesting access to their records should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date of birth.

Individuals requesting access must also follow the MSPB Privacy Act regulations set forth at 5 CFR 1201.11 regarding access to records and verification of identity.

CONTESTING RECORD PROCEDURES:

Individuals requesting amendment of their records should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Date of birth.

Individuals requesting amendment must also follow the MSPB Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

a. The individual to whom the information applies;

b. The investigative files maintained by the Investigations division, Associate Director/Staffing Systems and Services, Office of Personnel Management; and

c. Employment information maintained by the Board's Director of Personnel.

MSPB/CENTRAL-1

SYSTEM NAME:

Survey Mailing Lists.

SYSTEM LOCATION:

Office of Merit Systems Review and Studies, Merit Systems Protection Board (MSPB) 1120 Vermont Avenue, NW., Washington, D.C. 20419 or with private sector contractors participating in the conduct of MSPB surveys.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Federal employees who have responded affirmatively to MSPB inquiries regarding participation in confidential surveys conducted by the Office of Merit Systems Review & Studies.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information in this system includes the name and home address of federal employees who have responded affirmatively to inquiries of the Office of Merit Systems Review and Studies regarding participation in an MSPB survey or surveys.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1205

PURPOSE(S):

Information in this system is used to provide for the mailing of confidential survey questionnaires to survey participants. The questionnaires are used in conjunction with MSPB's performance of merit system studies, as required by 5 U.S.C. 1205, to determine the extent to which merit system principles effectively operate within the Government.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

There are no routine uses for this system which is used solely to provide for mailing of questionnaires to persons covered by this system in conjunction with their participation in confidential surveys conducted by the Office of Merit Systems Review and Studies.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained on computer tapes and discs.

RETRIEVABILITY:

These records are retrieved by the names of the individuals on whom they are maintained.

SAFEGUARDS:

These records are stored in secured rooms. Access to and use of these records is limited to those specially designated MSPB or contractor personnel who are responsible for mailing the questionnaries to survey participants. Personnel screening is employed to prevent unauthorized access or disclosure.

RETENTION AND DISPOSAL:

These records are maintained until all questionnaries have been mailed. The records are destroyed by erasure upon completion of the mailing.

SYSTEM MANAGER(S) AND ADDRESS:

Office of Merit Systems Review and Studies, Merit Systems Protection Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419.

NOTIFICATION PROCEDURE:

Individuals inquiring whether this system of records contains information about them should contact the System Manager indicated above. Individuals who have expressed an interest in participating in a Merit Systems survey are aware of that fact. It is necessary to furnish the following information when making inquiries about records:

a. Full name; and

b. Name of survey in which individual desired to participate.

Individuals making inquireies as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURES:

Individuals requesting access to their records should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Name of survey in which individual desired to participate.

Individuals seeking access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding access to records and verification of identity.

CONTESTING RECORDS PROCEDURES:

Individuals requesting amendment should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Name of survey in which individual desired to participate.

Individuals requesting amendment must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

Information in this system is obtained initially from the Office of Personnel Management and is subsequently affirmed by the individual to whom the record pertains.

SYSTEM NAME:

Panel Respondent Mailing List.

SYSTEM LOCATION:

Office of Merit Systems Review and Studies, Merit Systems Protection Board (MSPB), 1120 Vermont Ave., N.W., Washington, D.C. 20419 or with private sector contractors participating in the conduct of MSPB surveys.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Federal employees who serve on a semi-permanent panel surveyed quarterly by the Office of Merit Systems Review and Studies by means of confidential questionnaires on issues relevant to the civil service and the merit system.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information in this system includes the name, address and duty station of Federal employees who have agreed to serve as panel members.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1205.

PURPOSE(S):

Information in this system is used to provide for the mailing of confidential survey questionnaires to panel members. The questionnaires are used in conjunction with MSPB's performance of merit system studies, as required by 5 U.S.C. 1205, to determine the extent to which merit system principles effectively operate within the Government.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

There are no routine uses for this system which is used solely to provide for the mailing of confidential questionnaires to panel members approximately four times a year.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained on computer tapes and discs.

RETRIEVABILITY:

These records are retrieved by the names of the individuals to whom they pertain.

SAFEGUARDS:

These records are stored in secured rooms. Access to and use of the records is limited to specially designated MSPB or contractor personnel who are responsible for mailing questionnaires to panel members. Personnel screening is employed to prevent unauthorized access or disclosure.

RETENTION AND DISPOSAL:

These records are retained for the life of the panel, a period not to exceed 1.5 years. Upon dissolution of the panel, the records are destroyed by erasure of the computer tape or disc on which they are stored.

SYSTEM MANAGER(S) AND ADDRESS:

Office of Merit Systems Review and Studies, Merit Systems Protection Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419.

NOTIFICATION PROCEDURES:

Individuals inquiring whether this system of records contains information about them should contact the System Manager indicated above. Individuals who are members of a panel are aware of that fact. It is necessary to furnish the following information when making inquiries about records:

a. Full name; and

b. Panel on which individual served.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURES:

Individuals requesting access to their records should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Panel on which individual served.

Individuals seeking access must also follow the MSPB's Privacy Act regulations set forth at CFR 1205.11 regarding access to records and verification of identity.

CONTESTING RECORDS PROCEDURES:

Individuals requesting amendment of records pertaining to them should contact the System Manager indicated above.

Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Panel on which the individual served.

Individuals requesting amendment must also follow the MSPB's Privacy Act regulations set forth a 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

Information in this system is obtained initially from the Office of Personnel

Management and is subsequently affirmed by the individual to whom the record pertains.

MSPB/CENTRAL–3

SYSTEM NAME:

Correspondence Control Records.

SYSTEM LOCATION:

Office of the Secretary, Merit Systems Protection Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have written the MSPB on Official business and whose letters are controlled in order to assure appropriate and timely response; individuals who have written the White House or Congressional offices and whose letters are referred to MSPB for reply or response.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains information identifying the correspondent, subject, date and disposition of the correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1205.

PURPOSE(S):

These records are used to control correspondence with the Board in order to assure appropriate and timely responses.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information from these records may be disclosed to another Federal agency to whom correspondence is referred for reply.

POLICIES AND PRACTICES FOR STROING, RETRIEVING, ACCESSING, RETAINING , DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained on file cards.

RETRIEVABILITY:

These records are retrieved by the name of the correspondent or individual on whose behalf the correspondence is transmitted, and the date of the correspondence.

SAFEGUARDS:

Access to and use of these records is limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

These records are retained for two years, then destroyed by shredding.

SYSTEM MANAGERS AND ADDRESS:

Secretary, Merit Systems Protection Board, 1120 Vermont Avenue, NW., Washington, D.C. 20419.

NOTIFICATION PROCEDURE:

Individuals wishing to determine whether this system of records contains information about them should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Approximate date of the correspondence; and

c. Name of the person writing the correspondence if transmitted on behalf of the individual.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURES:

Individuals requesting access to their records should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name;

b. Approximate date of the correspondence; and

c. Name of the person writing the correspondence if transmitted on behalf of the individual.

Individuals requesting access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding access to records and verification of identity.

CONTESTING RECORDS PROCEDURES:

Individuals wishing to request amendment of records pertaining to them should contact the System Manager indicated above.

Individuals must furnish the following information for their records to be located and identified:

a. Full name;

b. Approximate date of correspondence; and

c. Name of the person writing the correspondence if transmitted on behalf of the individual.

Individuals requesting amendment must also follow the Board's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

Information in this system is provided by the individual to whom the record pertains or by individuals or organizations writing on behalf of the individual.

MSPB/CENTRAL–4

SYSTEM NAME:

General Correspondence Records.

SYSTEM LOCATION:

Merit Systems Protection Board (MSPB), 1120 Vermont Avenue, N.W., Washington, D.C. 20419 and MSPB Regional Offices (see list of Regional Office addresses in the Appendix).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former Federal employees and members of the public who have written the MSPB seeking information, registering complaints, or making known their views.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains the incoming correspondence and a copy of the MSPB's reply of referral.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C.1250.

PURPOSE(S):

These records are used to document correspondence with the Board.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information from these records may be disclosed:

a. To another agency to whom the incoming correspondence is referred for reply.

b. To the appropriate Federal, State, or local agency responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, or order where there is an indication of a violation or potential violation of a civil or criminal law or regulation.

c. To a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders.

RETRIEVABILITY:

These records are retrieved by name and date of correspondence.

SAFEGUARDS:

These records are maintained in lockable metal filing cabinets. Access to and use of these records is limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

These records are retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Secretary, Merit Systems Protection Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419, and the MSPB Regional Offices (see list of Regional Office addresses in the Appendix).

NOTIFICATION PROCEDURE:

Individuals wishing to determine whether this system of records contains information about them should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and indentified:

a. Full name; and

b. Approximate date of correspondence with the Board.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURES:

Individuals requesting access to their records should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Approximate date of correspondence with the Board.

Individuals requesting access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding access to records and verification of identity.

CONTESTING RECORDS PROCEDURES:

Individuals wishing to request amendment of records should contact the appropriate System Manager indicated above.

Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Approximate date of correspondence with the Board.

Individuals requesting amendment must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

a. Individual to whom the record pertains;

b. Official documents relating to the correspondence; and

c. Related correspondence from agencies, organizations or persons.

MSPB/CENTRAL-5

SYSTEM NAME:

Freedom of Information Act/Privacy Act Case Records.

SYSTEM LOCATION:

Office of the Secretary, Merit Systems Protection Board (MSPB), 1120 Vermont Avenue, NW., Washington, D.C. 20419, and MSPB Regional Offices (see list of Regional Office addresses in Appendix).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

This system contains records and related correspondence on individuals who have filed with the MSPB:

a. Requests for information under the provisions of the Freedom of Information Act (5 U.S.C. 552) including requests for review of initial denials of such requests; and

b. Requests under the provisions of the Privacy Act (5 U.S.C. 522a) for records about themselves, including:

(1) Requests for notification of the existence of records;

(2) Requests for access to these records;

(3) Requests for amendment of these records; and

(4) Requests for review of initial denials of such requests for notification, access, and amendment.

Note.—Since these PA/FOIA case records contain inquiries and requests regarding any of the MSPB's other systems of records subject to the Privacy Act, information about individuals from any of these other systems may become part of this PA/FOIA Case Records system. .

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains correspondence and other documents related to requests made by individuals to the MSPB for:

a. Information under the provisions of the FOIA (5 U.S.C. 552) including requests for review of initial denials of such requests; and

b. Information under provisions of the Privacy Act (5 U.S.C. 552a) and requests for review of initial denials of such requests made under the MSPB's Privacy Act regulations including requests for:

(1) Notification of the existence of records;

(2) Access to records;

(3) Amendment of records;

(4) Review of initial denials of such requests for notification, access or amendment; and

(5) Requests for an accounting of disclosure of records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 552, 552a, 1205.

PURPOSE(S):

These records are maintained to process an individual's requests made under the provisions of the Freedom of Information and Privacy Act. The records are also used by the MSPB to prepare its annual reports to OMB and Congress required by the Privacy and Freedom of Information Acts.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Information from these records may be disclosed:

a. To the Office of Management and Budget at any stage in the legislative coordination and clearance process in connection with private relief legislation as set forth in OMB Circular No. A-19.

b. To a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

c. To a Federal agency or to a court when the Government is a party to a judicial proceeding before the court.

d. To the National Archives and Records Service (General Services Administration) in record management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

e. To officials of the Office of Personnel Management, Federal Labor Relations Authority, and the Equal Employment Opportunity Commission in conjunction with the performance of their authorized duties.

f. To Federal agencies in order to obtain advice and recommendation concerning matters on which the agency has specialized experience or particular competence which the MSPB may use in making required determinations under the Freedom of Information Act or Privacy Act of 1974.

g. To any source from which the MSPB requests additional, information (to the extent necessary to identify the individual, inform the source of the purpose of the request and to identify the type of information requested), where necessary to obtain information relevant to an MSPB decision concerning a Privacy or Freedom of Information Act request.

h. In response to a request for discovery or for appearance of a witness, if the information is relevant to the subject matter involved in a pending judicial or administrative proceeding.

i. To the appropriate Federal, State, or local agency responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, or order where the MSPB becomes aware of an indication of a violation or

potential violation of civil or criminal law or regulation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders.

RETRIEVABILITY:

These records are retrieved by name of the individual on whom they are maintained and the date of request.

SAFEGUARDS:

These records are maintained in lockable metal filing cabinets. Access to and use of these records is limited to those persons whose official duties require such access.

RETENTION AND DISPOSAL:

These records are maintained for five years, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Secretary, Merit System Protections Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419, and MSPB Regional Offices (see list of Regional Office addresses in the Appendix).

NOTIFICATION PROCEDURE:

Idividuals wishing to determine whether this system of records contains information about them should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and indentified:

a. Full name; and

b. Approximate date of original request or appeal.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURE:

Individuals requesting access to their records should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Approximate date of original request or appeal.

Individuals requesting access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding access to records and verification of identity.

CONTESTING RECORD PROCEDURES:

Individuals wishing to request amendment of records about them should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name; and

b. Approximate date of original request or appeal.

Individuals requesting amendment must also follow the MSPB's regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity

Note.—The amendment provisions for this system are not intended to permit an individual a second opportunity to request amendment of a record which was the subject of the initial Privacy Act amendment request which created the record in the system. That is, after an individual has requested amendment of a specific record in an office system under provisions of the Privacy Act that specific record may itself become part of this system of Privacy Act/FOIA Case Records. An individual may not subsequently request amendment of that specific record again simply because a copy of the record has become part of the second system of Privacy Act/FOIA Case Records.

RECORD SOURCE CATEGORIES:

a. The individual who is the subject of the records;

b. MSPB officials who respond to Privacy Act/FOIA requests;

c. Official personnel documents of the MSPB, including records from any other MSPB system of records included in this notice;

d. Other sources whom the MSPB believes have information pertinent to an MSPB decision on a Privacy Act or Freedom of Information Act request; and

e. Other agencies referring the request to the MSPB.

MSPB/CENTRAL-6

SYSTEM NAME:

Litigation and Claim Records.

SYSTEM LOCATION:

Office of the General Counsel, Merit Systems Protection Board (MSPB), 1120 Vermont Avenue, N.W., Washington, D.C. 20419.

CATEGORIES OF INDIVIDUAL COVERED BY THE SYSTEM:

a. Individuals who file civil actions against the MSPB, its officials and employees.

b. Individuals who are parties to actions in which an MSPB final decision is involved but in which the MSPB is not a party to the proceeding.

c. Individuals who file claims against the MSPB under the Federal Tort Claims Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system includes the following kinds of records: documentation of litigation, including complaints, answers, motions, briefs, orders and decisions; claims and supporting documentation submitted under Federal Tort Claims Act, together with correspondence and records of final administrative determinations.

AUTHORITY FOR MAINTENANCE OF THE RECORDS:

5 U.S.C 1205, 7703; 28 U.S.C. 2672.

PURPOSE(S):

These records are maintained to defend the MSPB against lawsuits and to settle administrative claims brought against the MSPB.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information from these records may be disclosed:

a. To the appropriate Federal, State, or local agency responsible for investigating, prosecuting, enforcing or implementing a statute, rule, regulation, or order where the Merit Systems Protection Board becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation.

b. To any source from which the MSPB requests information relevant to an MSPB determination concerning one of the purposes for maintenance of the system.

c. To a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the conduct of a security or suitability investigation of an individual, the classification of jobs, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

d. To a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

e. To a Federal agency or to a court when the Government is party to a judicial proceeding before the court.

f. To the National Archives and Records Service (General Services Administration) for records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

g. To the insurance carrier of an employee of, or a claimant against, the MSPB under the Federal Tort Claims

Act in order to determine the proper assignment of any liability.

h. In response to a request for discovery or for appearance of a witness, if the information is relevant to the subject matter involved in a pending judicial or administrative proceeding.

i. To officials of the Office of Personnel Management, Federal Labor Relations Authority, and the Equal Employment Opportunity Commission when requested in connection with the performance of their authorized duties.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are maintained in file folders in lockable metal filing cabinets.

RETRIEVABILITY:

Records are retrieved by the name of the individual on whom they are maintained.

SAFEGUARDS:

Records are available only to authorized personnel of the General Counsel's Office and to other specially designated personnel of the MSPB.

RETENTION AND DISPOSAL:

These records are maintained for two years after completion of the litigation or claims settlement and then are destroyed by shredding.

SYSTEM MANAGERS AND ADDRESS:

General Counsel, Office of General Counsel, Merit Systems Protection Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419.

NOTIFICATION PROCEDURES:

Individuals wishing to determine whether this system contains a record about them should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name;
b. Date of birth;
c. Description of type of record; and
d. Court action number if applicable.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURES:

Individuals requesting access to their record should contact the System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name;
b. Date of birth;
c. Description of type of record; and
d. Court action number if applicable.

Individuals requesting access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding access to records and verification of identify.

CONTESTING RECORDS PROCEDURES:

Review of request from individuals seeking amendment of their records which have been or could have been the subject of a judicial or quasi-judicial action will be limited in scope. Review of amendment requests of these records will be restricted to determining if the record accurately documents the action of the agency or administrative body ruling on the case, and will not include a review of the merits of the action, determination, or finding.

Individuals wishing to request amendment of their records to correct factual errors should contact the appropriate system manager indicated above. Individuals must furnish the following for their records to be located and identified:

a. Full name;
b. Date of birth;
c. Description of type of record; and
d. Court action number if applicable.

Individuals requesting amendment must also follow MSPB's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

RECORD SOURCE CATEGORIES:

a. The individual on whom the record is maintained;
b. Agency officials and records;
c. Records of MSPB and Equal Employment Opportunity Commission administrative proceedings and court documents; and
d. Witnesses.

MSPB/GOVT-1

SYSTEM NAME:

Appeal and Case Records.

SYSTEM LOCATION:

Office of the Secretary, Merit System Protection Board (MSPB), 1120 Vermont Avenue, N.W., Washington, D.C. 20419, the MSPB Regional Offices (see list of Regional Office addresses in the Appendix), and various Federal agencies.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

a. Current and former Federal employees and applicants for employment who have filed an appeal with the MSPB, or its predecessors, or with respect to whom the Special Counsel or a Federal agency has petitioned the MSPB, concerning any matter over which the MSPB has original or appellate jurisdiction.

b. Current and former employees of State and local governments who have been investigated by the Special Counsel and have had a hearing before the MSPB concerning possible violation of the Hatch Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records contains information or documents, including briefs, pleadings and motions, exhibits, hearing transcripts and MSPB decisions, which comprise the administrative records of appeals and other matters arising under the original and appellate jurisdiction of the MSPB.

This system includes records of appeals filed with the former Federal Employee Appeals Authority and the Appeals Review Board of the Civil Service Commission. This system also includes records of appeals and cases before the MSPB, the Federal Employee Appeals Authority and the Appeals Review Board which are maintained by Federal agencies that are parties to the proceedings.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1205, 1206, 1207, 1208, 7701, and 7702.

PURPOSE(S):

These records are used to document and adjudicate appeals and other matters arising under the MSPB's original and appellate jurisdiction.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Information from the record may be disclosed:

a. To officials of the Equal employment Opportunity Commission or the Special Panel convened under authority of 5 U.S.C. 7702 when requested in connection with the performance of their authorized duties.

b. To officials of the Office of Personnel Management and the Federal Labor Relations Authority in connection with the performance of their authorized duties.

c. To a member of Congress or the Government Accounting Office regarding the status of an appeal.

d. To a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

e. To a person from the record of an individual in response to an inquiry

made by that person on behalf of the individual to whom the record pertains.

f. To an appropriate Federal, or local agency responsible for investigating, prosecuting, enforcing, or implementing a statute, rule regulation, or order upon request of that agency where there is an indication of a violation or potential violation of civil or criminal law or regulation.

g. To the Office of Management and Budget at any stage in the legislative coordination and clearance process in connection with private relief legislation as set forth in OMB Circular No. A–19.

h. To another Federal agency or to a court when the Goverment is party to a suit before the court.

i. To any person making an inquiry regarding the status of a proceeding before the MSPB, the nature of the proceeding, and, if applicable, the MSPB decision in the matter.

j. To the National Archives and Records Service (General Services Administration) in records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

k. In response to a request for discovery or for appearance of a witness, if the information is relevant to the subject matter involved in a pending judicial or administrative proceeding.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM;

STORAGE:

These records are maintained in file folders, binders, docket cards, microfiche, and computer tapes and discs.

RETRIEVABILITY:

These records are retrieved by the names of the individuals on whom they are maintained or by docket control or decision numbers.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access. Personnel screening is employed to prevent unauthorized disclosure.

RETENTION AND DISPOSAL:

These records are maintained up to two years after a final determination by the MSPB or, in some instances, other administrative authorities or the courts. Thereafter, they are transferred by GSA Regional Federal Records Centers. They are destroyed by the Federal Records Centers when the records are seven years old.

SYSTEM MANAGER(S) AND ADDRESS:

Secretary, Merit System Protection Board, 1120 Vermont Avenue, N.W., Washington, D.C. 20419, the MSPB Regional Offices (see list of Regional Office addresses in the Appendix), or the Personnel Officer of the agency within which the appeal arose.

NOTIFICATION PROCEDURES:

Individuals inquiring whether this system of records contains information about them should contact the appropriate System Manager indicated above. Individuals who have filed appeals or are parties to matters before the MSPB are aware of that fact and have been provided a copy of the record. It is necessary to furnish the following information respecting the individual when making inquiries about records:

a. Full name;

b. Date of birth;

c. Kind of action taken by the agency;

d. Date and location of the filing of the appeal or other matter with the MSPB; and

e. If appropriate, the respective MSPB docket or decision control number.

Individuals making inquiries as to the existence of records pertaining to themselves must also follow the Board's Privacy Act regulations set forth at 5 CFR 1205.11 regarding such inquiries.

RECORD ACCESS PROCEDURES:

Individuals requesting access to their records should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name;

b. Date of birth;

c. Kind of action taken by the agency;

d. Date and location of the filing of the appeal or other matter with the MSPB; and

e. If appropriate, the respective MSPB docket or decision control number.

Individuals seeking access must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.11 regarding access to records and verification of identity.

CONTESTING RECORDS PROCEDURES:

Individuals requesting amendment should contact the appropriate System Manager indicated above. Individuals must furnish the following information for their records to be located and identified:

a. Full name;

b. Date of birth;

c. Kind of action taken by the agency;

d. Date and location of the filing of the appeal or other matter with the MSPB; and

e. If appropriate, the respective MSPB docket or decision control number.

Individuals requesting amendment must also follow the MSPB's Privacy Act regulations set forth at 5 CFR 1205.21 regarding amendment of records and verification of identity.

These provisions for amendment of the record are not intended to permit the alteration of evidence presented in the course of adjudication before the Board, before or after the Board has rendered a decision on the appeal.

RECORD SOURCE CATEGORIES:

The source of these records are:

a. The individual to whom the record pertains;

b. The agency employing the above individual;

c. The Merit Systems Protection Board, the Office of Personnel Management, Equal Employment Opportunity Commission, the Office of the Special Counsel; and

d. Other individuals or organizations from whom the MSPB has received testimony, affidavits or other documents.

NATIONAL SCIENCE FOUNDATION

National Science Board; Commission on Precollege Education in Mathematics, Science and Technology; Open Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, the National Science Foundation announces the following meeting:

Name: National Science Board Commission on Precollege Education in Mathematics, Science and Technology.

Date and Time: January 14, 1983; 9:00 a.m.–4:30 p.m., January 15, 1983; 9:00 a.m.–12:00 p.m.

Place: National Science Foundation, Room 540, 1800 G St., N.W., Washington, D.C. 20550

Type of Meeting: Open.

Contact Person: Dr. Richard S. Nicholson, Executive Director, Commission on Precollege Education in Mathematics, Science and Technology, Room 527, National Science Foundation, Washington, D.C. 20550.

Summary Minutes: Contact Dr. Richard S. Nicholson at the above address.

Purpose of Commission Meeting and Agenda: The Commission will define an agenda for activities leading to its final recommendations. In addition, presentations by experts on topics relevant to Commission concerns will take place. These will include discussions about current and emerging educational technologies, and implications from cognitive research for the improvement of science and mathematics learning and teaching.

M. Rebecca Winkler,
Committee Management Coordinator.
December 22, 1982.

NUCLEAR REGULATORY COMMISSION

Ad Hoc Committee for Review of Nuclear Reactor Licensing Reform Proposals; Meeting

Notice is hereby given in accordance with Section 10 of the Federal Advisory Committee Act that NRC's Ad Hoc Committee for Review of Nuclear Reactor Licensing Reform Proposals will hold its next meeting at 9:30 a.m., January 12, 1983. This meeting will take place at the office of Shaw, Pittman, Potts and Trowbridge, South Building, 9th Floor Lobby, 1800 M Street, NW, Washington, DC and will be open for public observation.

At this meeting, the committee will begin its review of administrative proposals for reforming the NRC's licensing process for nuclear plants. A transcript of the meeting will be made available for public inspection and copying at NRC's Public Document Room, 1717 H Street, NW, Washington, DC.

Further information on the meeting may be obtained from Mr. Rothschild, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555. (Telephone 202/634–1465).

Dated: at Washington, D.C. this 22nd day of December, 1982.

John C. Hoyle,
Advisory Committee, Management Officer.

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards Nuclear Regulatory Commission, Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards will hold a meeting on January 6–8, 1983, in Room 1046, 1717 H Street, NW, Washington, DC. Notice of this meeting was published in the Federa Register on November 17, 1982.

The agenda for the subject meeting will be as follows:

Thursday, January 6, 1983

8:45 A.M.–10:00 A.M.: Resolution of Generic Issues (Open)—The members of the ACRS will discuss the methodology proposed by NRC to establish priorities for resolution of outstanding generic issues applicable to light water reactors. Members of the NRC Staff will participate in this discussion to the degree considered appropriate.

110:00 A.M.–11:00 A.M.: Seismic Design of Nuclear Facilities (Open)—The ACRS will discuss a proposed report to the NRC regarding seismic margins in nuclear power plants.

11:00 A.M.–12:00 Noon: Hydraulic Control Unit Line Integrity (Open)—The members will hear and discuss a response from members of the NRC Staff regarding the recommendations of the ACRS for review of HCU piping integrity in the event of LOCA within the drywell of pressure suppression containment systems.

12:00 Noon–12:30 P.M.: Future ACRS Activities (Open)—The members of the Committee will discuss anticipated ACRS Subcommittee and proposed full Committee activities. Activities of individual ACRS members will also be discussed.

1:30 P.M.–6:00 P.M.: NRC Safety Research Program and Budget (Closed)—The members will discuss the proposed ACRS report to the U.S. Congress regarding the proposed NRC Safety Research Program and Budget for FY 1984–85. Representatives of the NRC Staff will participate to the degree considered appropriate.

This portion of the meeting will be closed to discuss information regarding the impact of proposed budget reductions on continuing the proposed research contracts.

Friday, January 7, 1983

8:30 A.M.–12:00 Noon and 1:00 P.M.–3:30 P.M.: Clinch River Breeder Reactor (Open)—The members of the Committee will hear and discuss details of the plant design regarding proposed construction of the Clinch River Breeder Reactor. ACRS consultants, representatives of the NRC Staff, the Department of Energy, and the Applicant will participate.

Portions of this session will be closed as necessary to discuss Proprietary Information applicable to this matter.

3:30 P.M. –6:00 P.M.: NRC Safety Research Program and Budget (closed)–The members will discuss the proposed ACRS report to the U.S. Congress regarding the proposed NRC Safety Research Program and Budget for FY 1984–85. Representatives of the NRC Staff will participate to the degree considered appropriate.

This portion of the meeting will be closed to discuss information regarding the impact of proposed budget reductions on continuing and proposed research contracts.

Saturday, January 8, 1983

8:30 A.M.–10:30 A.M.: ACRS Subcommittee Activity (Open)—The members will hear and discuss reports of designated subcommittees regarding ongoing safety related activities including proposed revisions of NRC Regulatory Guides, and the proposed NRC policy statement on Severe Accidents and Related Views on Nuclear Reactor Regulation.

10:30 A.M.–12:30 P.M. and 1:30 P.M.–3:30 P.M.: Proposed ACRS Reports (Open/Closed)—The members will discuss proposed reports to the NRC and the U.S. Congress regarding matters considered during this meeting.

The session on the NRC Safety Research Program and Budget will be closed to discuss information regarding the impact of proposed budget reductions on continuing and proposed research contracts.

3:30 P.M.–4:30 P.M. Concluding Session (Open)—Members will complete discussion of items considered during this meeting.

Procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 1, 1982 (47 FR 43474). In accordance with these procedures, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Committee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS Executive Director as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. Use of still, motion picture and television cameras during this meeting may be limited to selected portions of the meeting as determined by the Chairman. Information regarding the time to be set aside for this purpose may be obtained by a telephone call to the ACRS Executive Director (R.F. Fraley) prior to the meeting. In view of the possiblility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the ACRS Executive Director if such rescheduling would result in major inconvenience.

I have determined in accordance with Subsection 10(d) Pub. L. 92–463 that it is necessary to close portions of this meeting as noted above to discuss Proprietary Information (5 U.S.C. 552b(c)(4)) and information the premature disclosure of which would frustrate the Commission's ability to implement affected programs effectively. The authority to close this portion is Exemption 9(b) of the Sunshine Act (5 U.S.C. 552b(c)(9)(b)).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted can be obtained by a prepaid telephone call to the ACRS Executive Director, Mr. Raymond F. Fraley (telephone 202/634–3265), between 8:15 A.M. and 5:00 P.M. EST.

Dated: December 22, 1982.

John C. Hoyle,

Advisory Committee Management Officer.

BILLING CODE 7590-01-M

[Docket Nos. 50–295 and 50–304]

Commonwealth Edison Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 79 to Facility Operating License No. DPR–39, and Amendment No. 69 to Facility Operating License No. DPR–48 issued to the Commonwealth Edison Company (the licensee), which revised Technical Specifications for operation of Zion Station, Units 1 and 2 (the facilities) located in Zion, Illinois. These amendments were effective December 3, 1982.

The amendments revise the Technical Specifications for the penetrations pressurization system to accurately define the conditions of operation, applicable modes, and actions to be taken for inoperable systems.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) The application for amendments dated December 3, 1982, (2) the Commission's letter dated December 6, 1982, (3) Amendments Nos. 79 and 69 to License Nos. DPR–39 and DPR–48, and (4) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Zion-Benton Public Library District, 2600 Emmaus Avenue, Zion, Illinois 60099. A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 20th day of December 1982.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Chief, Operating Reactors Branch #1, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50–213]

Connecticut Yankee Atomic Power Co.; Granting of Relief From Certain Requirements of ASME Code Section XI Inservice Inspection Requirements

The U.S. Nuclear Regulatory Commission (the Commission) has granted relief from certain requirements of the ASME Code, Section XI, "Rules for Inservice Inspection of Nuclear Power Plant Components" to the Connecticut Yankee Atomic Power Company. The relief relates to the Inservice Inspection Program for the Haddam Neck Plant (the facility) located in Middlesex County, Connecticut. The ASME Code requirements are incorporated by reference into the Commission's rules and regulations in 10 CFR Part 50. The relief is effective as of its date of issuance.

The relief allows postponement of inservice inspection requirements involving volumetric and visual examinations of a reactor coolant pump casing, pursuant to 10 CFR 50.55a(g)(6)(i) of the Commission's regulations.

The request for relief complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the letter granting relief. Prior public notice of this action was not required since the granting of relief from ASME Code requirements does not involve a significant hazards consideration.

The Commission has determined that the granting of relief will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this action.

For further details with respect to this action, see (1) The licensee's letter dated September 3, 1982, and (2) the Commission's letter to the licensee dated December 21, 1982, which contains the Commission's related evaluation. These items are available for public inspection at the

Commission's Public Document Room, 1717 H Street, NW., Washington, DC 20555 and at the Russell Library, 119 Broad Street, Middletown, Connecticut 06457. A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 21st day of December 1982.

For the Nuclear Regulatory Commission.

Dennis M. Crutchfield,

Chief, Operating Reactors Branch #5, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-311]

Public Service Electric and Gas Co. et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 15 to Facility Operating License No. DPR-75, issued to Public Service Electric and Gas Company, Philadelphia Electric Company, Delmarva Power and Light Company and Atlantic City Electric Company (the licensees), which revised the license for operation of the Salem Nuclear Generating Station, Unit No. 2 (the facility) located in Salem County, New Jersey. The amendment is effective as of the date of issuance.

The amendment authorizes deferral of an 18-month Technical Specification surveillance requirement from December 5, 1982, until the first refueling outage in January 1983.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see: (1) The application for amendment dated December 2, 1982, (2) Amendment No. 15 to License No. DPR-75, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Salem Free Public Library, 112 West Broadway, Salem, New Jersey. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 3rd day of December 1982.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-M

[Docket Nos. 50-443/444]

Public Service Company of New Hampshire, et al.*; Availability of the Final Environmental Statement for Seabrook Station, Units 1 and 2

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that a Final Environmental Statement (NUREG-0895) has been prepared by the Commission's Office of Nuclear Reactor Regulation related to the proposed operation of the Seabrook Station, Units 1 and 2, located in Rockingham County, New Hampshire.

Copies of NUREG-0895 are available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C., and at the Exeter Public Library, Front Street, Exeter, New Hampshire 03883. The document is also being made available at the Office of the Coordinator of Federal Funds, Room 124, State House, Concord, New Hampshire 03301 and at the Strafford Rockingham Regional Council, 1 Water Street, Exeter, New Hampshire 03833.

The notice of availability of the Draft Environmental Statement for the Seabrook Station and request for comments from interested persons was published in the **Federal Register** on May 21, 1982 (47 FR 22264). Comments received from Federal, State and local agencies and interested members of the public have been included in an appendix to the Final Environmental Statement.

Copies of the Final Environmental Statement (NUREG-0895) may be purchased at current rates, from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161, and by GPO deposit account holders by calling (301) 492-9530 or by writing to the U.S. Nuclear Regulatory Commission, Attn: Publication Sales Manager.

Dated at Bethesda, Maryland, this 20th day of December, 1982.

For the Nuclear Regulatory Commission.

George W. Knighton,

Chief, Licensing Branch No. 3, Division of Licensing.

*The current construction permit holders for Seabrook Station are: Bangor Hydro-Electric Company, Canal Electric Company, Central Maine Power Company, Central Vermont Public Service Corporation, Connecticut Light & Power Company, Fitchburg Gas & Electric Light Company, Hudson Light & Power Department, Maine Public Service Company, Massachusetts Municipal Wholesale Electric Company, Montaup Electric Company, New England Power Company, New Hampshire Electric Cooperative, Inc., Public Service Company of New Hampshire, Taunton Municipal Lighting Plant, The United Illuminating Company, Vermont Electric Cooperative, Inc., and Washington Electric Cooperative, Inc.

OFFICE OF PERSONNEL MANAGEMENT

Excepted Service

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: This gives notice of positions placed or revoked under Schedules A, B, and C in the excepted service, as required by Civil Service Rule VI, Exceptions from the Competitive Service.

FOR FURTHER INFORMATION CONTACT: William Bohling, 202-632-6000.

SUPPLEMENTARY INFORMATION: The Office of Personnel Management published its last monthly notice updating appointing authorities established or revoked under the Excepted Service provisions of 5 CFR Part 213 on October 29, 1982 (47 FR 49119). Individual authorities established or revoked under Schedules A, B, or C between October 1, 1982 and November 30, 1982 appear in a listing below. Future notices will be published on the fourth Tuesday of each month, or as soon as possible thereafter. A consolidated listing of all authorities will be published as of June 30 of each year.

Schedule A

The following exceptions are established:

Department of Defense

Schedule A authority 213.3106(b)(6) has been revised to allow DOD to appoint dependents of all U.S. personnel assigned overseas (previously applied only to dependents of DOD personnel.) Effective November 1, 1982.

Department of the Interior

Schedule A authority 213.3112 (a)(1) has been revised to permit appointments to continuing, as well as time limited, positions for technical, maintenance, and clerical positions, at or below grades GS–7, WG–10, or equivalent. Effective November 8, 1982. The following exception is revoked:

Merit Systems Protection Board

One Paralegal Specialist, GS–9, Office of the Special Counsel; revoked effective November 22, 1982, because the authority is no longer needed.

Schedule B

The following exception is established:

Export-Import Bank of the U.S.

One position of Food Service Worker, WG–7804–3, in the Office of the President and Chairman. Effective November 12, 1983.

Schedule C

ACTION

One Deputy Assistant Director for Legislative and Governmental Affairs. Effective October 5, 1982.

One Staff Assistant to the Deputy Director. Effector October 6, 1982.

One Special Assistant to the Director. Effective October 15, 1982.

Department of Agriculture

One Private Secretary to the Deputy Assistant Secretary for Food and Consumer Services. Effective October 5, 1982.

One Special Assistant to the Manager, Federal Crop Insurance Corportation. Effective October 5, 1982.

One Special Assistant to the Deputy Assistant Secretary for Administration, Office of Administration. Effective October 6, 1982.

One Private Secretary to the Director, Office of Rural Development Policy. Effective October 6, 1982.

One Staff Assistant to the Special Assistant to the Secretary, Office of the Secretary. Effective October 6, 1982.

One Private Secretary to the Assistant Secretary for Food and Consumer Services. Effective November 1, 1982.

One Confidential Assistant to the Inspector General, Office of the Inspector General. Effective November 8, 1982.

One Secretary (Typing) to the Deputy Assistant Secretary for Administration, Office of the Secretary. Effective November 8, 1982.

One Secretary (Typing) to the Executive Assistant to the Secretary, Office of the Secretary. Effective November 8, 1982.

Department of the Air Force

One Assistant to the Administrator, Rural Electrification Administration. Effective October 22, 1982.

One Special Assistant to the General Counsel of the Air Force, Office of the Secretary of the Air Force. Effective October 28, 1982.

One Staff Assistant to the Secretary of the Air Force, Office of the Secretay of the Air Force. Effective November 22, 1982.

Department of Commerce

One Congressional Liaison Officer, Economic Development Administration. Effective October 5, 1982.

One Special Assistant to the Director, Office of Public Affairs. Effective October 5, 1982.

One Confidential Assistant to the Associate Administrator, National Oceanic and Atmospheric Administration. Effective October 13, 1982.

One private Secretary to the Under Secretary, Office of Economic Affairs. Effective October 15, 1982.

One Deputy director, Office of Business Liaison. Effective October 18, 1982.

One Confidential Assistant to the Associate General Counsel for Legislation and Regulation, Office of the Secretary. Effective November 8, 1982.

One Information Receptionist to the Executive Assistant to the Secretary, Office of the Secretary. Effective November 16, 1982

One Confidential Assistant to the Deputy Assistant Secretary for Industry Projects, International Trade Administration. Effective November 16, 1982.

One Private Secretary and Confidential Assistant to the Deputy Administrator, National Oceanic and Atmospheric Administration. Effective November 16, 1982.

One Secretary to the Deputy Assistant Secretary, International Trade Administration. Effective November 16, 1982.

One Confidential Assistant to the Assistant Secretary for Trade Administration. Effective November 22, 1982.

One Confidential Assistant to the Director General of U.S. and Foreign Commercial Services, International Trade Administration. Effective November 23, 1982.

One Special Assistant to the Secretary of Commerce, Office of the Secretary. Effective November 30, 1982.

One Confidential Assistant to the Deputy Assistant Secretary for East Asia and the Pacific, International Trade Administration. Effective November 30, 1982.

Department of Defense

One Executive Assistant to the Assistant Secretary of Defense (Research and Engineering). Effective October 6, 1982.

One Special Assistant to the Director, Defense Audiovisual Agency. Effective October 21, 1982.

One Private Secretary to the Assistant Secretary of Defense (Development and Support/PDUSD Research and Engineering). Effective November 15. 1982.

Department of Education

One Special Assistant to the Director, Office of Bilingual Education and Minority Languages Affairs. Effective October 6, 1982.

One Confidential Assistant to the Assistant Secretary, Office of Postsecondary Education. Effective October 6, 1982.

One Special Assistant to the Duputy Under Secretary for Planning, Budget and Evaluation. Effective October 6, 1982.

One Personal Assistant to the Duputy Under Secretary for Management. Effective October 8, 1982.

One Special Assistant to the Deputy Under Secretary for Intergovernmental and Interagency Affairs. Effective October 8, 1982.

One Personal Assistant to the Assistant Secretary, Office of Education Research and Improvement. Effective October 12, 1982.

One Confidential Assistant to the Deputy Under Secretary for Intergovernmental and Interagency Affairs. Effective October 13, 1982.

One Special Concerns Officer, Office for Civil Rights. Effective October 14, 1982.

One Personal Assistant to the General Counsel, Office of the General Counsel. Effective October 14, 1982.

One Confidential Assistant to the Assistant Secretary, Office of Educational Research and Improvement. Effective October 18, 1982.

One Special Assistant to the Assistant Secretry for Civil Rights. Effective October 28, 1982.

One Personal Assistant to the Deputy General Counsel, Office of the General Counsel. Effective November 16, 1982.

One Special Assistant to the Assistant Secretary, Office of Educational Research and Improvement. Effective November 22, 1982.

One Confidential Assistant to the Deputy Assistant Secretary, Office of Legislation and Public Affairs. Effective November 22, 1982.

One Confidential Assistant to the Assistant Secretary for Postsecondary Education. Effective November 23, 1982.

One Personal Assistant to the Secretary, Office of the Secretary. Effective November 23, 1982.

One Special assistant to the Deputy Assistant Secretary for Institutional Support and International Education, Office of Postesecondary Education. Effective November 23, 1982.

One Confidential Assistant to the Executive Assistant. Office of the Secretary. Effective November 23, 1982.

One Confidential Assistant to the Director, Regional Liaison Office, Office of the Under Secretary. Effective November 23, 1982.

Department of Energy

One Staff Assistant to the Administrator, Economic Regulatory Administration. Effective October 5, 1982.

One Chief, Secretarial Travel Branch, Office of Congressional, Intergovernmental, and Public Affairs. Effective October 5, 1982.

One Special Assistant to the Administrator, Bonneville Power Administration. Effective October 18, 1982.

Department of Health and Human Services

One Special Assistant to the Director, Office for Civil Rights. Effective October 6, 1982.

One Public Affairs Specialist, Office of Human Development Services. Effective October 21, 1982.

One Deputy Director, Office of Legislation and Policy. Effective November 16, 1982.

One Confidential Assistant to the Deputy Assistant Secretary for Planning and Evaluation (Health). Effective October 29, 1982.

Department of Housing and Urban Development

One Special Assistant to the Assistant Secretary for Fair Housing and Equal Opportunity. Effective October 5, 1982.

One Staff Assistant to the Comptroller of the Solar Bank, Solar Energy and Energy Conservation Bank (SE&ECB). Effective October 6, 1982.

One Special Assistant to the Regional Administrator, Office of the Regional Administrator. Effective October 15, 1982.

One Special Assistant to the Assistant Secretary for Policy Development and Research. Effective October 20, 1982.

One Staff Assistant to the Deputy Assistant Secretary for Housing Studies. Effective October 21, 1982.

One Staff Assistant to the President, Government National Mortgage Association. Effective October 22, 1982.

One Staff Assistant to the Assistant Secretary for Policy Development and Research. Effective October 25, 1982.

One Special Assistant to the Secretary (Executive Secretariat Operations), Office of the Assistant Secretary for Administration. Effective October 26, 1982.

One Senior Assistant for Legislation to the Deputy Assistant Secretary for Legislation, Office of Legislation and Congressional Relations. Effective October 26, 1982.

One Senior Legislative Specialist, Office of Legislation and Congressional Relations. Effective October 26, 1982.

One Senior Legislative Specialist, Office of Legislation and Congressional Relations. Effective October 26, 1982.

One Assistant for Congressional Relations to the Deputy Assistant Secretary for Congressional Relations, Office of Legislation and Congressional Relations. Effective November 1, 1982.

One Special Advisor for Minority Programs, Office of the Deputy Secretary for Intergovernmental Relations. Effective November 10, 1982.

One Public Affairs Specialist, Office of Public Affairs. Effective November 15, 1982.

One Assistant for Congressional Relations to the Deputy Assistant Secretary for Congressional Relations, Office of Legislation and Congressional Relations. Effective November 19, 1982.

One Special Assistant to the General Deputy Assistant Secretary for Housing-Deputy Federal Commissioner, Office of the Assistant Secretary for Housing. Effective November 29, 1982.

One Staff Director to the Regional Administrator, Region II, in New York, Office of the Regional Administrator/Chairman. Effective November 29, 1982.

Department of the Interior

One Special Programs Liaison, Office of the Associate Director. Effective October 4, 1982.

One Special Assistant to the Assistant Secretary, Office of the Secretary. Effective October 6, 1982.

Department of Justice

One Assistant to the Director of Congressional and Public Affairs, Immigration and Naturalization Service. Effective October 6, 1982.

One Special Assistant to the Commissioner, Immigration and Naturalization Service. Effective October 6, 1982.

One Special Assistant to the Director, Women's Bureau. Effective October 6, 1982.

One Staff Assistant to the Counselor, Office of the Attorney General. Effective October 15, 1982.

One Confidential Assistant to the Assistant Attorney General, Office of Legal Policy. Effective October 19, 1982.

One Attorney-Advisor to the Assistant Attorney General, Civil Rights Division. Effective November 5, 1982.

One Special Assistant (Security) to the Associate Commissioner for Enforcement. Effective November 5, 1982.

Department of Labor

One Secretary to the Secretary of Labor. Effective October 12, 1982.

One Confidential Staff Assistant to the Director, Office of Workers' Compensation Programs. Effective October 20, 1982.

One Private Secretary to the Deputy Under Secretary, Office of the Deputy Under Secretary. Effective November 1, 1982.

Department of State

One Congressional Relations Specialist, Bureau of International Organization Affairs. Effective October 6, 1982.

One Member, Policy Planning Staff. Effective October 12, 1982.

One Special Assistant to the Assistant Secretary, Bureau of International Organization Affairs. Effective October 12, 1982.

One Special Assistant to the Assistant Secretary, Bureau of International Organization Affairs. Effective October 12, 1982.

One Staff Assistant to the Counselor, Counselor of the Department. Effective October 13, 1982.

One Assistant to the Under Secretary for Security Assistance, Science and Technology. Effective October 13, 1982.

One Protocol Officer (Visits), Office of the Chief of Protocol. Effective October 15, 1982.

One Deputy Assistant Secretary, Bureau of Human Rights and

Humanitarian Affairs. Effective October 25, 1982.

POSTAL SERVICE

Increase in Rates for Preferred-Rate Mailers Caused by Decrease in Congressional Subsidy

AGENCY: Postal Service.

ACTION: Notice of Increases in Preferred Postage Rates.

SUMMARY: This is to give notice that postage rates for preferred-rate mailers will be increased, as the result of the continuing resolution H.J. Res. 631, signed into law on December 21, 1982. The increase in postage rates is required to make up the difference between the amount of revenue forgone subsidy appropriated by Congress in the continuing resolution and the amount which is authorized to be appropriated by 39 U.S.C. 2401(c). The new rates are contained in the Appendix to this notice.

EFFECTIVE DATE: 12:01 a.m., January 9, 1983.

FOR FURTHER INFORMATION CONTACT: Don S. Allen, (202) 245–4418.

SUPPLEMENTARY INFORMATION: H.J. Res. 631 sets forth the revenue forgone appropriation for the Postal Service for free and reduced-rate mail. The amount appropriated is less than that authorized under 39 U.S.C. 2401(c). Therefore, in accordance with 39 U.S.C. 3627, the Board of Governors of the Postal Service met on December 21, 1982, and adopted the following Resolution.

In keeping with H.J. Res. 631 (97th Congress), Further Continuing Appropriations, 1983, which provides that postal rates for all preferred rate mailers covered by section 3626 of title 39, United States Code, shall be at step 14, the rates for all preferred rate categories will be adjusted to the step 14 level of the schedules contained in Appendix Two of the Governors' Decision of September 29, 1981 (46 FR 51091–92). The adjustments shall become effective at 12:01 A.M. on January 9, 1983.

Accordingly, effective at 12:01 a.m. on January 9, 1983, the rates for all preferred-rate categories are adjusted to the step 14 level. The new rates are contained in the Appendix to this notice (39 U.S.C. 401, 403, 404, 2401(c), 3626, 3627).

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 22771; (70-6791)]

Consolidated Natural Gas Co. and CNG Development Co.; Proposal To Finance Gas Exploration Operations of Newly Organized Nonutility Subsidiary

December 10, 1982.

Consolidated Natural Gas Company ("Consolidated"), 100 Broadway, New York, New York 10005, a registered holding company, and its nonutility subsidiary CNG Development Company ("CNGD"), Four Gateway Center, Pittsburgh, Pennsylvania 15222, have filed with this Commission an application-declaration and amendments thereto pursuant to Sections 6(a), 7, 9(a), 10 and 13 of the Public Utility Holding Company Act of 1935 ("Act") and Rules 50(a)(3), 86, 87, 90 and 91 promulgated thereunder.

Consolidated proposes to finance the start-up operations of its newly organized subsidiary CNGD, which will engage in natural gas and oil exploration in several Appalachian States including West Virginia, Pennsylvania, Ohio and New York. Consolidated intends to purchase, for an amount not to exceed $20 million, up to 200,000 shares of CNGD's common stock, $100 par value per share, during the period ending May 31, 1983. CNGD will use the proceeds from the sale of common stock for the drilling of wells, operation and maintenance expenses, working capital purposes, and the acquisition of gas exploration leases exclusively from nonaffiliated persons. By post-effective amendment, CNGD may seek authorization to acquire producing or undeveloped leases, in the Appalachian region, from affiliated subsidiaries. CNGD will sell the gas it produces primarily to Consolidated's utility subsidiaries and their suppliers.

Consolidated has advanced the following reasons for the proposed transactions: (1) A desire to centralize into one subsidiary all exploration, development, leasing and related activities in the Appalachian region; (2) Consolidated's only other production subsidiary, CNG Producing Company ("CNG Producing"), is currently focusing its primary exploration operations in the Gulf of Mexico where geology, operations and drilling techniques differ substantially from the Appalachian region; and (3) several operating subsidiaries of Consolidated possess personnel with many years of experience in Appalachian drilling activities.

It is anticipated that qualified management personnel, scientists and engineers involved in production activities will be transferred permanently to CNGD from various utility subsidiaries including Consolidated Gas Supply Corporation ("Supply"), The East Ohio Gas Company ("East Ohio"), and The Peoples Natural Gas Service Company ("Peoples"). Consolidated Natural Gas Service Company ("Service") will provide certain management and administrative services to CNGD under a service agreement in the same form as existing agreements between Service and other subsidiaries of Consolidated. Supply will render certain legal, accounting and other services to CNGD under an agreement in the same form as an existing agreement for such services between Supply and CNG Producing. All such services will be accounted for and charged in accordance with the cost reimbursement requirements of Rules 90 and 91 under the Act.

It also indicated that, because of the resulting concentration of engineering and technical personnel in CNGD, it may provide under contract to Supply, Peoples and East Ohio, certain technical services related to the production or drilling operations of these subsidiaries. CNGD will provide such services only at the request of the subsidiary and at cost in accordance with the above-cited rules. However, in no event will charges by CNGD exceed the total expense that would have been incurred by the subsidiary had the service been performed by that subsidiary's own internal staff.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by January 5, 1983, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve copies on the applicants-declarants at the addresses specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application-declaration, as amended, or as it may be further amended, may be granted and permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010-01-M

[Release No. 34-19330; File No. SR-NASD-80-10]

Self-Regulatory Organizations; Proposed Rule Change; National Association of Securities Dealers, Inc., Relating to Options in NASDAQ NMS Index

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on December 1, 1982, the National Association of Securities Dealers, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

This rule filing involves the addition of the NASDAQ NMS Indices to Exhibit A of the NASD's Options filing which designated those NASDAQ indices which the NASD proposes to trade options in.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purposes of, and basis for the proposed rule change. The texts of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B and C below of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

The Association has determined to create various NMS Indices and to trade

options on them. The purpose of an NMS Index Option would be identical to that of the other NASDAQ Index Options, i.e., to provide an opportunity for investors and market makers to hedge their positions against the systematic risk associated with holding NASDAQ NMS securities.

Statutory Basis—The proposed rule change is consistent with the provisions of Sections 15A(b)(2), 15A)(b)(6) and 15A(b)(7) of the Act in providing a system of regulation for trading in NASDAQ Index Options Contracts.

B. Self-Regulatory Organization's Statement on Burden on Competition

As stated in Amendment No. 1, the NASD does not believe that the trading of options on NASDAQ indices, including NMS Indices, will impose any burden on competition, but will, in fact, increase competition by creating a market that does not exist.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period: (i) As the Commission may designate up to 90 days of such date if it finds a much longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 5th Street, N.W., Washington, D C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication. For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: December 13, 1982.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 19351; (SR-Phlx-82-2)]

Philadelphia Stock Exchange, Inc.; Order Approving Proposed Rule Change

December 20, 1982.

The Philadelphia Stock Exchange, Inc. ("Phlx") 1900 Market Street, Philadelphia, PA 19103, submitted on October 28, 1982, copies of a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b-4 thereunder, to amend its by-laws and rules relating to the disciplinary procedures of the exchange. The proposed amendments would provide for the appointment on a case-by-case basis of hearing panels that would conduct the hearing of disciplinary cases and recommends decisions to the Phlx Business Conduct Committee; give the Phlx Business Conduct Committee exclusive jurisdiction to to render the initial decision in disciplinary cases; establish a new Phlx standing committee, the Disciplinary Review Committee, that would have jurisdiction to review on appeal decisions of the Business Conduct Committee; leave with the Phlx Board of Governors authority to review on its own motion all decisions in disciplinary cases; narrow the class of disciplinary cases that may give rise to Phlx's summary judgment procedures; clarify Phlx's pre-hearing procedures; and clarify when a respondent in a disciplinary case defaults and the consequences of such a default. In addition, the Phlx proposes to adopt a rule specifically prohibiting conduct inconsistent with just and equitable principles of trade.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by the issuance of a Commission Release (Securities Exchange Act Release No. 19225, November 8, 1982) and by publication in the **Federal Register** (47 FR 51979, November 18, 1982). No comments were received with respect to the proposed rule change.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, the requirements of Section 6 and the rules and the regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[File No. 1-5833]

Sonat Offshore Drilling Inc. (5% Convertible Subordinated Debentures (due 12-1-92)); Application to Withdraw from Listing and Registration

December 20, 1982.

The above named issuer has filed an application with the Securities and Exchange Commission pursuant to Section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2-2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the American Stock Exchange, Inc. ("Amex").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

Sonat Offshore Drilling Inc. ("Company") has determined to remove its debentures for listing and registration on the Amex because during the calendar year 1981 and the nine months ended September 30 1982, only $86,000 and $61,000 principal amount, respectively, of the debentures were traded on the Amex. In addition, as of

September 14, 1982, there was $1,568,000 of the debentures outstanding and held by approximately 147 holders of record. In this regard, the Company believes that the cost and expenses of continued listing on the Amex is not justifies. The Amex has no objection to this matter.

Any interested person may, on or before January 12, 1983, submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimons,

Secretary.

DEPARTMENT OF STATE

Office of the Secretary

[Public Notice CM-8/588]

Modem Working Party of Study Group D, U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT); Meeting

The Department of State announces that the Modem Working Party of Study Group D of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT) will meet on January 6 and 7, 1983 at the Sheraton Sand Key Hotel, Clearwater, Florida. Meetings will start at 9:00 a.m. on both days.

Study Group D deals with telecommunication matters relating to the development of international digital data transmission services; the Modem Working Party reviews actual and proposed CCITT recommendations pertaining to the specifications and use of modems in data transmission.

Members of the general public may attend the meeting and join in the discussion subject to instructions of the Chair. Requests for further information may be directed to Thijs de Haas, Chairman of U.S. CCITT Study Group D, Institute for Telecommunication Sciences, National Telecommunications and Information Administration, Boulder, Colorado 80303, telephone (303) 499-1000, ext. 3728.

Dated: December 9, 1982.

Arthur L. Freeman,

Director, Office of International Communications Policy.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Trade Policy Staff Committee Review; Review and Solicitation of Public Comment Regarding the Proposed Modification of the List of Articles Eligible For Duty-Free Treatment Under the U.S. Generalized System of Preferences to Remove High Carbon Ferromanganese

Notice is hereby given that the Trade Policy Staff Committee (TPSC) has initiated a review of the removal of high carbon ferromanganese classified under TSUS 606.30 of the Tariff Schedules of the United States Annotated from the list of products currently eligible for duty-free treatment under the U.S. Generalize System of Preferences (19 U.S.C. 2461-2465). Interested parties are requested to provide written comments to the TPSC regarding the removal of this product from the GSP not later than February 1, 1983. A public hearing on the proposed modification will not be scheduled unless specifically requested by an interested party.

All submissions should conform to 15 CFR 2003.2 and be submitted in twenty copies, in English, to the Chairman of the GSP Subcommittee of the Trade Policy Staff Committee. Information

submitted in connection with the proposed modification will be subject to public inspection by appointment with the staff of the GSP Information Center, except for information granted "business confidential" status pursuant to 15 CFR 2003.6 and 15 CFR 2007.7. Parties submitting briefs or statements containing confidential information must indicate clearly on the cover page of each of the twenty copies submitted and each page within the document, where appropriate, that confidential materials are included. Non-confidential summaries of all confidential material must be submitted in twenty copies, in English, at the same time that confidential submissions are filed.

All communications with regard to the proposed modification should be addressed to GSP Subcommittee, Office of the United States Trade Representative, 600 17th Street NW., Room 316, Washington, D.C. 20506. The telephone number of the GSP Subcommittee is (202) 395–6971. Questions may also be directed to any member of the staff of the GSP Information Center.

Frederick L. Montgomery,

Chairman, Trade Policy Staff Committee.

BILLING CODE 3190-01-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Delegation Order No. 42 (Rev. 17); Effective December 21, 1982]

Delegation of Authority

AGENCY: Internal Revenue Service, Treasury.

ACTION: Delegation of authority.

SUMMARY: The authority to execute consents fixing the period of limitations on assessment or collection under provisions of the 1939 and 1954 Internal Revenue Codes on cases under their jurisdiction can be redelegated by a Service Center Director but not below Returns Program Managers and by a District Director but not below Examination Support Staff/Section Revenue Agent (Tax Shelter), Grade GS–11. The text of the delegation order appears below.

EFFECTIVE DATE: December 21, 1982.

FOR FURTHER INFORMATION CONTACT: A. Duarte, OP:EX:G:E, 1111 Constitution Ave., N.W., Room 2010, Washington, D.C. 20224, Telephone number, 202–566–3632 (Not a Toll-Free telephone number)

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the Treasury directive appearing in the **Federal Register** for Wednesday, November 8, 1978.

Frederic P. Williams,

Deputy Assistant Commissioner (Examination).

Authority to Execute Consents Fixing the Period of Limitations on Assessment or Collection Under Provisions of the 1939 and 1954 Internal Revenue Codes

1. Pursuant to authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 120; Order No. 150–2; 26 CFR 301.6501(c)–1; 26 CFR 301.6502–1; 26 CFR 301.6901–1(d); and 26 CFR 301.7701–9; the authority to sign all consents fixing the period of limitations on assessment or collection is delegated to the following officials:

a. Chief Counsel
b. Regional Counsels
c. Regional Directors of Appeals
d. Service Center Directors
e. District Directors

2. This authority may be redelegated but not below the following levels for each activity:

a. Service Centers—Chief, Accounting Branch; Chief, Correspondence and Processing Section; Revenue Officers; Chief, Quality Review Staff; and Returns Program Managers;

b. Collection—Chiefs, Office Branches and Office Groups; Revenue Officers; Chiefs, Technical and Office Compliance Branches and Groups; Revenue Representative Supervisors;

c. Examination—Reviewers, Grade GS–11; Group Managers; Case Managers; Returns Program Managers; Classifiers/Screeners, Grade GS–11; and Examination Support Staff/Section Revenue Agent (Tax Shelter), Grade GS–11;

d. Criminal Investigation—Chiefs, Criminal Investigation Divisions, except this authority in streamlined districts is limited to the District Director;

e. Appeals—Appeals Officers;

f. Foreign Operations District—Representatives at foreign posts; Revenue Agents, Tax Auditors, and Special Agents on foreign assignments; and levels b, c, and d, above; and

g. District Employee Plans and Exempt Organizations—Reviewers, Grade GS–11; Group Managers.

3. No authority is delegated under this Order to the District Counsel.

4. This Order supersedes Delegation Order No. 42 (Rev. 16), issued March 21, 1982.

Issued: December 21, 1982.

James I. Owens,

Deputy Commissioner.

BILLING CODE 4830-01-M

Office of the Secretary

[Number: 150–87]

Authority for Commissioner of Internal Revenue to Undertake Certain Tax Audits and Checks and to Furnish Tax Return Information Related Thereto to Assistant Secretary (Administration) and Others

November 23, 1982.

In accordance with the authority vested in me as Secretary of the Treasury, including 26 U.S.C. 7602, 26 U.S.C.6103(c) and (g)(2), 31 U.S.C. 321(b), Executive Order No. 11222, 31 CFR Part C, and for the purpose of promoting public confidence in the Department of the Treasury and its administration of the Federal tax system, it is hereby ordered that:

1. *Introduction*—The Commissioner of Internal Revenue shall conduct tax audits, tax checks and income tax filing record checks as provided for by this Order.

2. *Definitions*—As used in this Order, the term:

a. "Income tax filing record check" means a search by IRS of its records to verify that a tax return has been filed with it for the immediately preceding year.

b. "Tax Audit" means a review by IRS to determine the correct Federal income tax liability of an individual for the immediately preceding two years.

c. "Tax Check" means a search by IRS of its records to determine:

(1) Whether the individual has filed returns with respect to Federal income taxes for the immediately preceding three years;

(2) whether there has been a failure to pay any tax within 45 days after notice and demand, or whether there has been assessed a penalty under the Internal Revenue Code of 1954, as amended, for negligence in the current year or immediately preceding three years;

(3) whether there is a record of an investigation for possible criminal offenses under the Internal Revenue laws, and the results of any such investigation; and

(4) whether there is a record of a civil penalty assessed, or proposed for assessment, under the Internal Revenue Code of 1954, as amended, for fraud.

3. *Tax Audits*—a. Prior to the nomination by the President of a person to a position in the Department or an international financial institution, the Commissioner, upon request therefor as provided in section 6.b. of this Order, shall cause a tax audit to be performed.

b. Prior to the appointment by the Secretary (or as soon thereafter as practicable) of a person to a position:

(1) Of a confidential or policy determining character (Schedule C or Noncareer Executive Assignment) with the Department at Grades GS–14 through 18, inclusive, SES levels 1 through 6, or Executive Schedule Levels V and IV, or similar position on other pay systems compensated at comparable rates, or

(2) With an international financial institution, the Commissioner, upon request therefor as provided in section 6.b. of this Order, shall cause a tax audit to be performed.

c. Promptly after the effective date of this Order, the Commissioner, upon request therefor as provided in section 6.b. of this Order, shall cause a tax audit to be performed with respect to each person who was not audited under provisions of Treasury Department Order No. 150–87 of July 29, 1977 prior to this Order being issued, and who has entered on duty in a position described in subsection a. or b. of this section.

4. *Tax Checks*—a. On an annual basis, and as close to the anniversary date of the appointment to the position as is practicable, the Commissioner, upon request therefor as provided in section 6.b. of this Order, shall cause a tax check with respect to the immediately preceding year to be performed with respect to each person who then continues to serve in a position described in section 3. of this Order.

b. Prior to effectuation of a personnel action assigning a person to any category of positions as specified below, the Commissioner, upon request therefor as provided in section 6.b. of this Order, shall cause a tax check to be performed with respect to each person selected:

(1) By the President or the Secretary or his designees to a position described in section 3. of this Order;

(2) For initial entry into any position at any grade from GS–14 through 18, inclusive, SES levels 1 through 6 or Executive Schedule Levels V and IV, or similar positions in other pay systems compensated at comparable rates; and

(3) For initial appointment as an expert, consultant, or advisory committee member.

5. *Income Tax Filing Record Checks*—Prior to a person entering on duty in a position by appointment or promotion from within the Department and on an annual basis, as close to the anniversary date of the appointment to a position as is practicable, the Commissioner, upon request therefor as provided in section 6.b. of this Order, shall cause an income tax filing record check to be performed with respect to each person who then continues to serve in a position desribed in section 4.b.(2) or (3) of this Order.

6. *Procedure*—a. The Assistant Secretary (Administration), or his designee, shall request each person subject to a tax audit or tax check (or both) under this Order to execute an appropriate form providing the information necessary to identify the person and locate his or her tax records and authorizing the disclosure of tax return information as provided in this Order. The original of the executed form shall remain on file with the Assistant Secretary (Administration), or his designee. A copy of the executed form shall accompany each request to the Commissioner for a tax audit or tax check. If the person declines to execute the form, the tax audit or tax check (or both) shall nevertheless be performed as specified in this Order based on such information as is avilable from other sources.

b. The Commissioner shall cause a tax audit or check (or both), as appropriate under this Order, to be made upon receipt of a request therefor from the Assistant Secretary (Administration), or his designee.

c. Upon completion of such tax audit or check (or both), the results shall be forwarded (if an appropriate disclosure authorization has been executed), for information purposes, to the Assistant Secretary (Administration), or his designees; or as requested; or to IRS officers. This shall be done in a manner consistent with sections 7. and 8. of this Order.

d. In the case of income tax filing record checks, a list of the names and social security numbers of those persons for whom such checks are to be made shall be furnished to the Commissioner, or his designee, on a staggered basis throughout the year by the Assistant Secretary (Administration), or his designee. Upon receiving these lists, the Commissioner shall cause, as soon as is practicable, a tax filing record check to be made on each person listed.

e. Upon completion of such income tax filing record checks, the results shall be forwarded to IRS officers for appropriate tax administration enforcement action, if warranted, in accordance with section 8. of this Order.

7. *Disclosure*—To the extent permitted by the executed disclosure authorization, the Commissioner, or his designee, shall furnish the results of a tax audit or tax check in summary form to the Assistant Secretary (Administration), or his designee. The underlying documentation including audit reports, tax returns and return information shall also be furnished to the Assistant Secretary (Adminstration), or his designee, when specifically requested in writing by the Assistant Secretary (Administration). Any or all of the same information shall similarly be furnished directly to:

a. The President,

b. Representatives of the Executive Office of the President,

c. The Secretary, or

d. The Deputy Secretary,

when the Commissioner is requested to do so, in writing, by the Assistant Secretary (Administration). The Assistant Secretary (Administration) may also provide this information, on his own initiative, to any of the above persons or other Treasury officers who have a need to know such information, such as those exercising personnel administration functions in the various Bureaus or Offices of the Department.

8. *Non-disclosure*—In any instance in which a tax audit or tax check has been performed by the Internal Revenue Service, and no individually signed disclosure authorization has been provided, and in the case of income tax filing record checks, the results of such tax audit or tax check or income tax filing record checks shall not be disclosed under this Order to anyone not employed by the Internal Revenue Service, but such results shall be furnished to appropriate officials of the Internal Revenue Service for such tax administration enforcement action as is warranted.

9. *Circumstances Warranting Immediate Disclosure*—a. The Commissioner shall on his own initiative furnish to the Assistant Secretary (Administration), immediately following the event, the information that a civil penalty for fraud has been assessed, or is proposed for assessment, or an investigation for a possible criminal offense under the internal revenue laws has been commenced or completed with respect to any Treasury officer, employee, consultant, advisory committee member, or other person serving in the Department or an international financial institution and described in section 3. or 4. of this Order, who has provided a written disclosure authorization under section 6.a. of this Order. Such information shall not be furnished under this Order with respect to a person who has not provided an individually signed disclosure authorization.

b. The Commissioner shall on his own initiative furnish information that a civil penalty for fraud has been assessed, or is proposed for assessment, or an investigation for a possible criminal offense under the internal revene laws

has been commenced or completed with respect to any Treasury officer, employee, or other person serving in the Department described in section 3. or 4. of this Order. The Inspector General is also designated to receive any underlying documentation and same will be provided directly to the Inspector General by the Internal Revenue Service when the Inspector General specifically requests such information in writing.

Additionally, the Inspector General is authorized to furnish such information to any persons specified in section 7. of this Order or other Treasury officers who have a need to know such information to the same extent that I have authority under such order to furnish others with such information. Such information shall not be furnished under this Order with respect to a person who has not provided an individually signed disclosure authorization.

10. *Confidentiality*—It is the policy of the Department of the Treasury to make every effort to protect the privacy of all taxpayers, including its own officers and employees. Accordingly, disclosures under this Order shall be kept to the minimum necessary to promote public confidence in the Department and the administration of the Federal tax system.

11. *Effect on other regulations and programs*—a. Notwithstanding any other provisions of this Order:

(1) The Internal Revenue Service shall conduct and review tax audits, checks and income tax filing record checks in accordance with the Order with regard to its employees and those in the Office of Chief Counsel, IRS, at Grades GS–15 and below; but the results of such audits, checks, and income tax filing record checks shall not be forwarded to the Assistant Secretary (Administration), except as provided for by section 9. of this order. Each employee of the Internal Revenue Service or Office of Chief Counsel, who would otherwise be subject to a tax audit or tax check (or both) under the provisions of this Order, shall be asked to execute an appropriate disclosure authorization so that tax return information may be provided to persons authorized to receive it under section 7. of this Order.

(2) Information forwarded to the Assistant Secretary (Administration), with respect to the Internal Revenue Service officers and those in the Office of Chief Counsel, at SES levels 1 and above, or at Grades GS–16 and above, will, after the review process, be returned to the Commissioner or Chief Counsel, as appropriate, for safekeeping.

(3) All disclosure authorizations executed by employees or officers of the Internal Revenue Service or Office of Chief Counsel will remain on file with the Commissioner, or his designee, or the Chief Counsel, or his designee, as appropriate.

b. In addition, nothing in this Order precludes the Internal Revenue Service, or other Services, Bureaus or Offices of the Department which administer Federal tax or revenue laws, from adopting, with respect to their officers and employees, more stringent provisions than are provided for in sections 3., 4. and 5. of this Order, as may be allowed by law.

c. The requirements of this Order are in addition to any other audit procedures adminstered by the Internal Revenue Service and applicable to all taxpayers generally. Nothing in this Order is intended to affect, in any way, the process by which the Internal Revenue Service selects returns for audit under the usual procedures applicable to all taxpayers.

d. Nothing in this Order affects the authority of those Treasury officers, in individual Bureaus or Offices of the Department, who exercise personnel administration functions.

2. Supersession—This Order supersedes Treasury Department Order No. 150–87, dated July 29, 1977, and Treasury Department Order No. 150–87(A), dated November 2, 1978.

3. Effective Date—This Order is effective November 20, 1978.

Donald T. Regan,

Secretary of the Treasury.

BILLING CODE 4810-25-M

Sunshine Act Meetings

Federal Register
Vol. 47, No. 249
Tuesday, December 28, 1982

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94–409) 5 U.S.C. 552b(e)(3).

CONTENTS

Item
Securities and Exchange Commission. 1

1

SECURITIES AND EXCHANGE COMMISSION

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following meetings during the week of January 3, 1983, at 450 5th Street, N.W., Washington, D.C.

A closed meeting will be held on Tuesday, January 4, 1983, at 10:00 a.m.

An open meeting will be held on Thursday, January 6, 1983, at 10:00 a.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered a the closed meeting may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c) (4), (8), (9)(A) and (10) and 17 CFR 200.402(a) (4), (8), (9)(i) and (10).

Commissioners Treadway, as duty officer, voted to consider the items listed for the closed meeting in closed session.

The subject matter of the closed meeting scheduled for Tuesday, January 3, 1983, at 10:00 a.m., will be:

Access to investigative files by Federal, State, or Self-Regulatory authorities.
Institution of administrative proceedings of an enforcement nature.
Institution of injuctive action. Opinions.

The subject matter of the open meeting scheduled for Thursday, January 6, 1983, at 10:00 a.m., will be:

Consideration of whether to grant the application of John B. Licata to become an association person in an unsupervised, proprietary capacity with Argus Management Corporation. For further information, Please contact Mary Binno at (202) 272–2318.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Catherine McGuire at (202) 272–2401.

December 23, 1982.

Part II

Department of Health and Human Services

Office of the Secretary

Nondiscrimination on the Basis of Age in Programs or Activities Receiving Federal Financial Assistance From HHS

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

45 CFR Part 91

Nondiscrimination on the Basis of Age in Programs or Activities Receiving Federal Financial Assistance From HHS

AGENCY: Health and Human Services Department.

ACTION: Final rules.

SUMMARY: These final regulations implement provisions of the Age Discrimination Act of 1975, and the general, governmentwide regulation published in the **Federal Register** on June 12, 1979, codified at 45 CFR Part 90.

The Age Discrimination Act of 1975 prohibits discrimination on the basis of age in programs or activities receiving Federal financial assistance. The Act also contains certain exceptions that permit, under limited circumstances, use of age distinctions or factors other than age that may have a disproportionate effect on the basis of age. The Act applies to persons of all ages.

These final regulations are designed to guide the actions of recipients of financial assistance from HHS. The regulations incorporate the basic standards for determining what is age discrimination that were set forth in the general regulations. They discuss the responsibilities of HHS recipients and the investigations, conciliation and enforcement procedures HHS will use to ensure compliance with the Act.

EFFECTIVE DATE: January 27, 1983.

FOR FURTHER INFORMATION CONTACT: Kathleen A. O'Brien, Office for Civil Rights, Office of Management & Policy, HHS, Room 5414 HHS North Building, 300 Independence Avenue S.W., Washington, D.C. 20201. (202) 245–6700.

SUPPLEMENTARY INFORMATION:

The preamble to the final regulations, containing supplementary information, is divided into the following six sections:

I. Background—provides a brief history of the development of the Act and these regulations.

II. Regulatory Procedures—explains compliance with various regulatory requirements.

III. Rulemaking History—describes the steps taken to secure public participation in the development of the age discrimination regulations.

IV. Overview of the Regulations—summarizes the contents of the final regulations and explains any changes made from the proposed regulations published on September 24, 1979.

V. Important Questions About the Regulations—answers some important questions raised during the development of these regulations.

VI. Examples of How HHS Interprets the Exceptions—illustrates how the exceptions might be applied to hypothetical situations involving HHS recipients.

I. Background

In November 1975 Congress enacted the Age Discrimination Act (42 U.S.C. 6101 *et seq.*) as part of the amendments to the Older Americans Act (Pub. L. 94–135). The Act prohibits discrimination on the basis of age in all programs and activities receiving Federal financial assistance.

The Act prohibits recipients of Federal financial assistance from taking actions that result in denying or limiting services or otherwise discriminating on the basis of age. The Act also contains certain exceptions that permit, under limited circumstances, use of age distinctions or factors other than age that may have a disproportionate effect on the basis of age.

Like other civil rights statutes, the Act applies only to programs or activities in which there is an intermediary (recipient) standing between the Federal financial assistance and the ultimate beneficiary of that assistance. The Act does not apply to programs of direct assistance (such as the Social Security program) in which Federal funds flow directly and unconditionally from the Federal government to the individual beneficiary of those funds.

Prior to the development of any regulations, the Act required the Commission on Civil Rights to conduct a study of age discrimination in federally funded programs and activities. The Commission transmitted its study to the President and the Congress on January 10, 1978. The Commission published the second part of its study in January 1979. The Act also required each affected Federal agency to respond to the Commission's findings and recommendations, and provided time for the Congress to consider amendments to the Act.

After receipt of the report from the Commission on Civil Rights and the Federal agency responses to that report, the Congress considered amendments to the Age Discrimination Act. In October 1978, Congress amended the Act (Pub. L. 95–478). The amendments: (1) Added a private right of action to the Age Discrimination Act; (2) provided a mechanism for the disbursal to alternate recipients of funds that have been withheld under the Age Discrimination Act; (3) added a requirement that the Department of Health, Education and Welfare (now HHS) approve the final regulations of other Federal agencies; (4) made the effective date of regulations implementing the Act no earlier than July 1, 1979; (5) required annual reports to the Congress on progress in implementing the Act; and (6) removed the word "unreasonable" from the Act's statement of purpose. The 1978 amendments left intact the exceptions to the general prohibition against age discrimination contained in the 1975 Act. The amended Act continues to apply to persons of all ages.

The Act requires HEW to issue proposed and then final general regulations setting standards to be followed by all Federal departments and agencies in implementing the Act. HEW issued proposed general regulations on December 1, 1978 and final general regulations on June 12, 1979. Those general regulations and the prohibition against age discrimination became effective on July 1, 1979.

The Act requires each department or agency which operates programs of Federal financial assistance to issue proposed and then final regulations which must be consistent with the general regulations. The Secretary of HEW (now HHS) must approve all agency and department regulations.

On September 24, 1979, HEW issued proposed age discrimination regulations governing the actions of recipients of HEW funds. In May 1980 HEW became HHS according to the Department of Education Organization Act (Pub. L. 96–88). These are the final HHS age discrimination regulations.

II. Regulatory Procedures

Impact Analysis Executive Order 12291

Executive Order 12291 requires that a regulatory impact analysis be prepared for major rules. A major rule is defined in the Order as any rule that has an annual effect on the national economy of $100 million or more—or certain other specified effects. The Department concludes that the regulations implementing the Age Discrimination Act are not major rules within the meaning of the Executive Order because they do not have an effect on the economy of $100 million or more, or otherwise meet the threshold criteria.

Regulatory Flexibility Act of 1980:

The Regulatory Flexibility Act (5 U.S.C. Ch. 6) requires the Federal government to anticipate and reduce the impact of rules and paperwork requirements on small businesses. For each rule with a "significant economic impact on a substantial number of small

entities" an analysis must be prepared describing the rule's impact on small entities. Small entities are defined by the Act to include small businesses, small nonprofit organizations, and small governmental entities. Based on the cost analysis of the age regulation, the Department finds that the effect of the age regulations on small entities is minimal. Therefore, a regulatory flexibility analysis is not required.

Paperwork Reduction Act (Recordkeeping and Reporting Requirements)

These proposed rules place no new reporting or data collection requirements on recipients which require OMB clearance pursuant to the Paperwork Reduction Act.

III. Rulemaking History

HHS has been vitally concerned about the need for public participation in the development of these regulations because of the substantial impact the Age Discrimination Act could have on the operation of federally assisted programs.

As a first step in its obligation to issue general, government-wide regulations, HEW published in the **Federal Register** its Notice of Intent to Issue Age Discrimination Regulations (NOI) on March 2, 1978 (42 FR 5756). The NOI briefly identified some of the major issues addressed later in the regulatory process.

The Notice of Proposed Rulemaking (NPRM) for the general regulations was published in the **Federal Register** (42 FR 56428–56446) on December 1, 1978. At certain key places in the proposed general regulations, HEW presented options for public consideration and comment. Publication of the proposed rules was followed by a 90-day comment period.

HEW distributed more than 16,000 copies of the proposed general regulations. Copies were mailed to every member of Congress, every State governor, the head of every Federal agency that provides Federal financial assistance, administrators of federally assisted programs, recipients of Federal funds at the State and local levels, interested groups and individuals. In January and early February 1979, HEW held public hearings in Washington, D.C. and in each of HEW's 10 regions in order to obtain public comment on the proposed general regulations. A total of 170 witnesses made presentations at those hearings. In addition, 246 written comments were received. The comments and verbatim transcripts from the 11 hearings were analyzed and used in the development of the final general regulations published on June 12, 1979.

HEW published its own proposed regulations setting out the age discrimination requirements for its recipients on September 24, 1979. The Department, primarily through its Regional Offices, carried out a major distribution of the proposed regulations to HEW recipients and interested organizations and individuals. Over 40,000 copies of the proposed rules were distributed during the 60 day public comment period.

In addition, staff from the Age Discrimination Task Force conducted informational meetings in Wisconsin, Oregon, Florida and Washington, D.C. during October and early November 1979 to explain the requirements of both sets of regulations. Seventy-two persons sent written comments containing suggestions for improving the proposed regulations. Appendix A to these final regulations contains an analysis of the comments received and responses to those comments.

Implementation by HHS of the age discrimination regulations provides several more opportunities for public comment. Twelve months after the publication of these final regulations HHS will publish the results of a review of the age distinctions it imposes on its recipients by means of regulations, policies and administrative practices. The review, which will be published for public comment, is designed to determine whether each age distinction is permissible under the Act and implementing regulations. HHS will no longer adopt new age distinctions in the administration of its programs of financial assistance unless the age distinction meets the requirements of these regulations and has been published in a regulation after opportunity for public comment. Finally, HHS will examine the effectiveness of these regulations after 30 months, and publish its assessment for comment in the **Federal Register**.

IV. Overview of the Regulations

The following paragraphs summarize the text of the final HHS age discrimination regulations and explain any changes that have been made as a result of the public participation process. The final regulations are divided into 4 subparts:

Subpart A—General
Subpart B—Standards for Determining Age Discrimination
Subpart C—Duties of HHS Recipients
Subpart D—Investigation, Conciliation and Enforcement Procedures

There are also two appendices. Appendix A contains an analysis of the public comments; Appendix B contains a listing of the age distinctions found in statutes and regulations governing HHS assisted programs.

Subpart A—General

Subpart A explains the purpose of the HHS age discrimination regulations, which is to set out the Department's policies and procedures under the Act and the general regulations. (§ 91.1) These regulations apply to each HHS recipient and to all programs or activities receiving Federal financial assistance from HHS. (§ 91.2)

Although the Act generally covers all programs and activities that receive Federal financial assistance, it does not apply to any age distinction "established under authority of any law" which provides benefits or establishes criteria for participation on the basis of age or in age related terms. Thus, age distinctions that are "established under authority of any law" may continue in use. These regulations adopt without change the definition of "any law" established in the general regulations. Therefore, these regulations do not apply to age distinctions contained in Federal statutes, State statutes, or local statutes or ordinances adopted by elected, general purpose legislative bodies. (§ 91.2)

The Act also excludes from its coverage most employment practices, except in programs funded under the public service employment titles of the Comprehensive Employment and Training Act (CETA). However, the Age Discrimination in Employment Act (ADEA), administered by the Equal Employment Opportunity Commission (EEOC), continues to be the Federal statute that prohibits employment discrimination against most persons between the ages of 40 and 70 (except in Federal employment, where there is no upper age limit). Subpart A also defines terms used in these regulations. (§ 91.3)

Subpart B—Standards for Determining Age Discrimination

Subpart B of these regulations incorporates the basic standards for determining what is age discrimination, which are set out in the general regulations.

The regulations state that no person in the United States shall, on the basis of age, be denied the benefits of, be excluded from participation in, or be subject to discrimination under, any program or activity receiving Federal financial assistance. (§ 91.11)

The specific prohibited actions are patterned after the regulations issued under Title VI of the Civil Rights Act of 1964 (45 CFR Part 80). As a general rule, separate or different treatment which denies or limits service from, or participation in, a program receiving Federal funds will be prohibited by these regulations.

The Act does include some exceptions to the general rule against age discrimination. The regulations provide definitions for two terms that are essential to an understanding of these exceptions: "normal operation" and "statutory objective." (§ 91.12)

The regulations adopt the four-part test established in the general regulations to determine when an explicit age distinction is necessary to the normal operation of a program or to the achievement of a statutory objective of a program. The test (see § 91.13 of the regulations) requires that: The age distinction be used as a measure of another characteristic(s); the other characteristic(s) must be measured in order for the program to continue to operate normally or to meet a statutory objective; the other characteristic(s) can reasonably be measured by age; and the other characteristic(s) is impractical to measure directly on an individual basis.

All parts of the test must be met for an explicit age distinction to satisfy one of these exceptions and to continue in use in a federally assisted program. This four-part test will be used to scrutinize age distinctions that are imposed by recipients in the administration of federally assisted programs, when the recipient alleges the distinction is necessary to the normal operation or the achievement of a statutory objective of a program and when the age distinction is not specifically authorized by a Federal, State, or local statute.

Recipients of Federal funds are also permitted to take an action otherwise prohibited by the Act, if the action is based on *"reasonable factors other than age."* In that event, the action may be taken even though it has a disproportionate effect on persons of different ages. The regulations require, however, that the factor bear a direct and substantial relationship to the program's normal operation or statutory objective. (§ 91.14)

These regulations place on the recipient of HHS funds the burden of proving that an age distinction or other action falls within the exceptions discussed above. (§ 91.15)

There are three other instances in which an HHS recipient may use age distinctions that would otherwise be prohibited by the Act and these regulations: (1) a recipient may take voluntary affirmative action to overcome the effects of conditions that have resulted in limited participation in the recipient's program on the basis of age (§ 91.16); (2) a recipient may give special benefits to the elderly or to children (§ 91.17); and (3) a recipient may comply with age distinctions contained in HHS regulations. (§ 91.18)

Subpart C—Duties of HHS Recipients

Subpart C explains the duties of HHS recipients which are established by the General regulations.

HHS recipients have primary responsibility to ensure that their programs and activities are in compliance with the Act, the general regulations and these regulations. Recipients must also maintain records to the extent required to determine compliance with the Act and its regulations. (§ 91.31)

Where an HHS recipient passes on financial assistance to subrecipients, the recipient must notify subrecipients of their obligations under the Act and its regulations. HHS recipients must also inform beneficiaries about the protections provided by the Act and its regulations. (§ 91.32)

Each recipient of Federal financial assistance must sign an assurance that it will comply with the Act and its regulations. (§ 91.33)

HHS may require recipients employing the equivalent of 15 or more fulltime employees to examine their use of age distinctions under the Act as part of a compliance review or a complaint investigation conducted by the Department. (§ 91.33)

This self-evaluation requirement has been revised from the provision contained in the government-wide regulation and the Notice of Proposed Rule Making. The prior versions would have required all recipients employing 15 or more employees to complete a written self-evaluation. Section 91.33 states that such recipients *may* be required to undertake a self-evaluation as part of a compliance review and complaint investigation conducted by the Department. The change is based upon HHS' determination that to be consistent with the requirements of the Paperwork Reduction Act of 1980, enacted after the publication of the NPRN, the paperwork burden associated with the self-evaluation must be limited to recipients where circumstances indicate, in connection with a compliance review of complaint investigation, the need for the self-evaluation.

Each HHS recipient must keep records and make available to HHS upon request information that HHS determines is necessary to establish whether the recipient is in compliance with the Act and its regulations. Recipients must also allow HHS reasonable access to books and records to the extent HHS finds necessary to determine compliance with the Act and its regulations. (§ 91.34)

Subpart D—Investigation, Conciliation and Enforcement Procedures

Subpart D of these regulations establishes the procedures HHS will use in its investigation, conciliation and enforcement activities. These procedures are closely tied to requirements in the general regulations, primarily in Subpart D. Additional information on the filing of complaints and on mediation is provided in Section V of this preamble.

HHS may conduct compliance or pre-award reviews or use other similar procedures to ensure compliance with the Act and its regulations. These procedures may be used even in the absence of a complaint against a recipient. The reviews may be as comprehensive as necessary to determine whether a violation has occurred. (§ 91.41)

Complaints of age discrimination may be filed with HHS by an individual or a class or by a third party. The complaint must allege discrimination occurring on or after July 1, 1979. A complainant must file a complaint within 180 days from the date the complainant first knew of the alleged act of discrimination, although HHS may extend this time limit for good cause. The filing date for a complaint will be the date upon which the complaint is sufficient to be processed. A complaint must identify the parties involved and the date the complainant first had knowledge of the alleged violation, describe generally the practice complained of, and be signed by the complainant. HHS will notify the recipient and the complainant of their rights and obligations under the complaint procedure, including the right to have a representative at all stages of the process. HHS will permit a complainant to add information to a complaint when necessary to meet the requirements of a sufficient complaint. HHS will return to the complainant any complaint that does not fall within the jurisdiction of the Act and will explain the reason(s) why the complaint is outside the jurisdiction of the Act. (§ 91.42)

HHS will refer to mediation all sufficient complaints that fall within the coverage of the Act. On June 12, 1979, the Secretary of HEW designated the Federal Mediation and Conciliation

Service (FMCS) to manage the mediation process which was established by the general regulations for all ADA complaints. Complainants and recipients are required to participate in the effort to reach a mutually satisfactory mediated settlement of the complaint, although they need not meet with the mediator at the same time. Generally, mediation may last no more than 60 days from the date a complaint is filed with HHS. The mediator will have the authority to terminate the mediation at any time before the end of the 60 day period if the process appears to have broken down. The mediator also has the authority to extend the 60 day mediation period where settlement is likely. A settlement based on terms satisfactory to both parties will be put in writing and sent to HHS. HHS will take no further action on a complaint that has been successfully mediated. The mediator will protect the confidentiality of all information obtained in the course of mediation. (§ 91.43)

HHS will investigate complaints that are unresolved after mediation or are reopened because the mediation agreement is violated. HHS will first attempt to resolve the complaint through informal fact-finding. An agreement reached during informal investigation will be signed by both parties and by an HHS official. The agreement will not affect any other enforcement effort by HHS. The settlement is not a finding of discrimination against a recipient. If these informal efforts do not succeed, HHS will develop formal findings through further investigation of the complaint. (§ 91.44)

A recipient may not intimidate or retaliate against any person who attempts to exercise a right protected by the Act or who participates in any aspect of the proceedings used to resolve allegations of age discrimination. (§ 91.45)

The procedures for securing compliance with the Act and these regulations are taken from the general regulations. The procedures include termination of Federal funds after an opportunity for a hearing on the record, referral to the Department of Justice, or the use of the services of any Federal, State or local government agency to correct a violation. These regulations include a provision for the deferral of new Federal financial assistance from HHS when termination proceedings are initiated. (§ 91.46)

HHS will use the procedural provisions contained in the regulations implementing Title VI of the Civil Rights Act of 1964 to enforce the HHS age discrimination regulations. These provisions are at 45 CFR 80.9–80.11 and 45 CFR 81. (§ 91.47)

Where HHS finds that a recipient has discriminated on the basis of age, HHS may require the recipient to take necessary remedial action to overcome the effects of the discrimination. (§ 91.48)

When HHS withholds funds from a recipient (according to the provisions of § 91.46), the Secretary may disburse those funds to an alternate recipient. The alternate recipient must demonstrate the ability to comply with these regulations and to achieve the goals of the Federal statute which authorizes the financial assistance. (§ 91.49)

Complainants may file civil actions when administrative remedies are exhausted. Administrative remedies are exhausted if either 180 days have elapsed since the complainant filed the complaint and HHS has made no finding, or if HHS issues a finding in favor of the recipient. The complainant may then file a suit in a U.S. district court where the recipient is found or transacts business. The complainant must indicate, at the time the suit is filed, if attorney's fees will be demanded in the event that the complainant is successful. No action can be brought if the same alleged violation by the same recipient is the subject of a pending action in any U.S. court. Complainants who wish to file an action must give 30 days notice to the Attorney General, the Secretary, and the recipient. (§ 91.50)

Appendices

These regulations contain two appendices. Appendix A is an analysis of the comments received on the proposed rules and the responses to those comments. Appendix B is a listing of age distinctions contained in the statutes and regulations governing the operation of HHS financial assistance programs. This appendix is designed to aid recipients by identifying those age distinctions which are derived from Federal statutes and regulations. The list of age distinctions in Appendix B is preceded by a more detailed explanation of the purpose of the listing and how it is organized.

V. Important Questions

This section of the preamble answers some important questions about these regulations. Some of the material first appeared in the general regulations published in June 1979, but is repeated here because it is important to an understanding of the provisions which HHS has incorporated in these regulations. The other questions were raised during the public comment period on the proposed HEW regulations.

1. *What Ages Does the Act Cover?*

Section 303 of the Act prohibits discrimination on the basis of age in federally assisted programs or activities. Although the legislative history indicates Congressional concern for the problems of the elderly in particular, the Congress made it clear in its conference committee report that the Act is intended to apply to persons of all ages. Nowhere in the amendment process was there any discussion of limiting or changing the coverage of the Act. It continues to extend protection to persons of all ages.

Various advocacy groups for older persons suggested that HHS construe the general regulations to protect only the elderly or to provide greater protection for older persons than for other age groups. This construction is not legally supportable in view of the legislative history and the plain language of the Act. Thus all regulations issued to implement the Act provide protection to persons of all ages.

2. *When Is the Prohibition Against Age Discrimination Effective?*

The Act provides that its prohibition of age discrimination becomes effective upon the issuance of regulations. Section 304 provides for the issuance of age discrimination regulations in two phases:

(a) HEW [HHS] publishes general, government-wide regulations to implement the prohibition against age discrimination in federally assisted programs; and

(b) Each Federal agency (including HEW [HHS]) then publishes regulations specific to its programs and consistent with general regulations.

The Act's prohibition of age discrimination became effective when the first set of regulations, the general regulations became effective on July 1, 1979. The general regulations established standards for determining what is age discrimination and procedures for enforcing the Act. All Federal agencies must adopt those standards in their agency specific regulations.

3. *Where Can Complaints of Age Discrimination Be Filed With HHS?*

Complaints involving HHS recipients and beneficiaries should be sent to: Office of Program Operations, Office for Civil Rights, Department of Health and Human Services, 330 Independence Avenue, SW., Washington, D.C. 20201.

The complaint must allege age discrimination occurring after July 1, 1979. The complaint should: (a) Identify the parties involved; (b) give the date of

the alleged violation or when the complainant first knew of the alleged violation; (c) generally describe what happened; and (d) be signed by the complainant.

HHS screens all complaints and refers those which describe actions covered by the Act and contain the necessary information to the FMCS for mediation. The FMCS began mediating age discrimination complaints on November 1, 1979.

The Act states that a complainant may file a civil action 180 days from the date the complaint was filed with the Federal agency if the agency has taken no action, or upon the date the agency makes a determination in favor of the recipient, whichever comes first. For purposes of exhaustion of administrative remedies within HHS, the 180 day period will run from the date the complaint is filed with HHS. In cases where HHS has not taken final action on a complaint and 180 days have passed, the complainant retains the option either to file a civil action, or have HHS continue to pursue the complaint through the administrative processes. HHS retains the option to continue its enforcement activities even if a private court suit is filed.

4. *What Are the Rules Against Age Discrimination?*

These regulations adopt without change the rules against age discrimination from the general regulations. The general regulations provide that, except as provided in the Act and its regulations,"* * * no person in the United States shall, on the basis of age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any program or activity receiving Federal financial assistance." It means that, unless permitted by one of the exceptions, recipients of HHS assistance may not, either directly or indirectly, do anything to exclude persons from their programs or activities on the basis of age. Nor may recipients do anything that is not permitted by one of the exceptions to deny or limit persons on the basis of their age in their efforts to participate in HHS assisted programs or activities.

The prohibition against age discrimination does not include an absolute prohibition against separate treatment on the basis of age. As a general rule, separate or different treatment which denies or limits services from, or participation in, a program receiving financial assistance from HHS would be prohibited by these regulations. Separate or different treatment which does not deny or limit services is allowable. Separate or different treatment may be necessary to normal operation or to the achievement of a statutory objective by the recipient and may qualify as an exception under these regulations.

5. *What Is the Meaning of the Exception for Age Distinctions "Established Under Authority of Any Law"?*

The Age Discrimination Act applies to all programs and activities that receive Federal financial assistance. However, the Act does not apply to age distinctions "established under authority of any law" that provide benefits or establish criteria for participation on the basis of age or in age related terms. Age distinctions that qualify under this exemption do not require further scrutiny under these regulations.

The regulations define the term "any law" to mean a Federal, State or local statute or ordinance adopted by an elected, general purpose legislative body. This provision does *not* provide an automatic exemption for age distinctions that are contained in regulations or in ordinances enacted by bodies which are not elected or are special-purpose even though elected, such as State or local school boards. The first part of Appendix B of these regulations contains a list of the age distinctions found in Federal statutes administered by HHS.

The exemption for age distinctions "established under authority of any law" applies to both explicit uses of age (e.g. a statute that defines an adult to be a person over age 18) and the use of age-related terms (e.g. statutes that refer only to "adults" or "children" or "youths" without defining those terms explicitly). When a statute (Federal, State or local) uses, but does not define, an age-related term, HHS will accept reasonable definitions of those terms in regulations without further scrutiny. Thus, for example, HHS would not ordinarily question a definition of "child" as a person up to age 18, but would seek further justification of a regulation which defines "child" as a person up to age 30.

6. *When Is An Age Distinction Necessary to the Normal Operation or to the Achievement of a Statutory Objective of a Program or Activity?*

These regulations incorporate from the general regulations the four-part test for determining when an explicit age distinction is necessary to the normal operation of a program or activity, or to the achievement of a statutory objective. HHS will use this four-part test to scrutinize age distinctions imposed in the administration of federally assisted programs, but which are not explicitly authorized by a Federal, State or local statute or ordinance adopted by an elected, general-purpose legislative body. If the age distinction in question fails any part of the four-part test, the recipient of HHS funds may not continue to use that age distinction.

The four-part test is designed to require careful scrutiny of age distinctions in programs receiving Federal financial assistance and to weed out age distinctions that are neither directly related to an essential characteristic of a program nor based on explicitly stated objectives of a law. It is not intended to serve as a basis for permitting continued use of age distinctions for the sake of administrative convenience, if this results in denial or limitation of services on the basis of age.

HHS encourages its recipients to apply every age distinction flexibly; that is, to permit a person who demonstrates eligibility to participate in the activity or program even though he or she would otherwise be barred by the age distinction. Other things being equal, a distinction under review is more likely to qualify under any of the exceptions if it does not automtically bar all those who do not meet the age requirements.

7. *When Is the Use of a Factor Other Than Age Exempted From the Coverage of These Regulations?*

The Age Discrimination Act permits a recipient of Federal funds to examine its use of factors other than age which have a disproportionate effect on the basis of age in light of the individual facts and circumstances surrounding their use. This examination will determine whether use of the factor other than age is sufficiently related to achieving a legitimate program purpose and therefore justifies limiting or denying services or participation to persons disproportionately excluded because of age.

8. *What Are "Special Benefits" for the Elderly or Children?*

These regulations incorporate the provision of the general regulations permitting a recipient of a program to provide special benefits for children or the elderly.

The special benefits provision resulted from HHS' belief that Congress did not intend to disturb the practice of providing special benefits to children or the elderly. These special benefits often take the form of special discounts or reduced fees for the elderly in a federally funded program.

The provision allowing special benefits has been revised somewhat from that contained in the government-wide regulations and the Notice of Proposed Rule Making to make it clear

that special benefits are presumed to be within the statutory exemption applicable to actions necessary to the normal operation of a program. The earlier versions stated that special benefits to the elderly or to children shall be presumed to be voluntary affirmative action to overcome the effects of past underparticipation in the recipient's program by the elderly or children so long as the special benefits do not have the effect of excluding otherwise eligible persons from participation in the program. HHS has determined that the new wording is more consistent with the Congressional intent that the normal operation of programs properly designed to provide for special benefits for the elderly or children not be disturbed. Thus, such special benefits are entitled to a presumption of validity. In reviewing such special benefits in specific cases to insure that they are in fact consistent with the Act and Congressional intent, HHS will consider the rationale for the special benefit, the effect on other individuals, and all other relevant factors.

The regulations leave to the reasonable discretion of the recipient the definition of who qualifies as "children" or "the elderly" for purposes of receiving a special benefit.

9. *What Is the Effect of Age Distinctions Contained in HHS Regulations?*

A new § 91.18 has been added to make explicit what is implicit in § 90.32 of the government-wide regulation. Section 90.32 of the government-wide regulation established the mechanism for determining that age distinctions imposed by government agencies are consistent with the Age Discrimination Act and implementing regulations. Under this Section, agencies must within 12 months, review age distinctions imposed on recipients by regulations, policies and administrative practices. Each agency must then publish, for public comment, in the **Federal Register** a comprehensive accounting of all such age distinctions, listing those to be continued, the justification for their continuance, those to be adopted by regulations, and those to be eliminated. After this 12-month period, agencies may not continue any age distinction that has not already been adopted by regulation or is adopted by regulation under the Administrative Procedure Act using the notice and comment procedures specified in 5 U.S.C. 553. In addition, beginning with the effective date of an agency's final regulations, an agency may not impose a new age distinction unless it is adopted by regulation under the Administrative Procedure Act using these notice and comment procedures.

This comprehensive mechanism for carefully scrutinizing age distinctions imposed by Federal agencies on recipients to insure their consistency with the Age Discrimination Act and implementing regulations is based upon public participation and the rulemaking process of the Administrative Procedure Act, through which the appropriateness and validity of any age distinctions can be thoroughly evaluated. Implicit in this far-reaching mechanism is that age distinctions contained in regulations adopted under the Administrative Procedure Act are entitled to a very strong presumption of permissibility. The new § 91.18 makes this explicit by providing that any age distinction contained in a rule or regulation issued by HHS will be presumed to be within the statutory exemption applicable to actions necessary to the achievement of a statutory objective of the program to which the rule or regulation applies. This does not mean that such age distinctions are immune from additional scrutiny to insure their consistency with the Age Discrimination Act and implementing regulations, but that such further scrutiny will be under the general standards of the Act, rather than under the process established for previously unreviewed age distinctions, in which the recipient has the burden of proving that the detailed standards contained in § 91.13 of the regulation have been met. Since the review process or rulemaking proceeding subjected the age distinctions to scrutiny on all possible bases, it is appropriate that any subsequent review be limited to determining violations of fundamental statutory requirements. This provision thus reaffirms that recipients upon whom age distinctions are imposed by HHS regulations adopted pursuant to statutory authority and under the Administrative Procedure Act, as well as the public, can be assured that such age distinctions have been carefully considered and are believed by HHS to be permissible under the Age Discrimination Act and implementing regulations.

10. *Do the Regulations Require Proportional Allocation of Services and Funds by Age?*

Some believe that certain age groups, especially the elderly, do not get their "fair share" of funds or program slots in certain federally funded programs. These persons argue that the serious underrepresentation of certain age groups in the allocation of program funds or services *is* age discrimination and should be prohibited by these regulations.

These regulations do *not* require proportional program participation by age or the proportional allocation of funds by age. However, disproportionate allocation of funds or program participation may be one element that triggers an examination of whether age discrimination exists in the federally funded program or activity. If further inquiry is necessary, the recipient may show that the disparity in rates of participation, fund allocation, or services has nondiscriminatory causes.

11. *How Do These Regulations Affect the Relationship Between Similar General and Age-Targeted Programs?*

Federal funds are used to support a number of programs that provide similar services or benefits both to the general population and to a selected age group within the population. Does the existence of an age-targeted program in any way relieve the general program of its obligation to serve the age group eligible for the age-targeted program?

HHS believes that any deviation from a policy of serving all eligible persons regardless of age that results in a denial or limitation of service on the basis of age is only permissible if that action can satisfy one of the exceptions in these regulations. A general program can focus its services by referring persons to existing age-targeted programs only if those actions do not result in the denial of services to the individual or in the provision of lesser or different services.

12. *Why is Mediation a Required Step in Resolving Complaints of Age Discrimination?*

HHS supports mediation as an important innovation in the resolution of age discrimination complaints. The mediation process represents an effort to provide faster and more creative resolution of complaints through informal methods of dispute resolution. While mediation does represent a new step in the complaint resolution process, the experience in resolving complaints under other civil rights statutes indicates that the 60 days allowed for mediation will not significantly delay the enforcement process.

Mediation is being used with increasing success to resolve disputes between parties outside the traditional area of labor management negotiations. The most important feature of the mediation process is that it will be under the supervision of an impartial third party, a mediator assigned by the FMCS. FMCS was designated by the Secretary of HEW to mediate age discrimination complaints for all Federal departments and agencies which

distribute Federal financial assistance. The mediator is in no way connected with HHS or the funding agency in the age discrimination dispute. Instead, mediators have been recruited and selected by the FMCS. Each mediator is assigned to the dispute by the FMCS without consultation with HHS.

The mediators have been specially trained in procedures for resolving disputes and in the requirements of the Age Discrimination Act and its implementing regulations. The mediator will contact the two parties and explain the procedures to both the complainant and the recipient. Mediation does not necessarily mean that the two parties to the dispute must meet face-to-face; each may meet separately or otherwise discuss the matter with the mediator. Since the mediated settlement must be satisfactory to both parties, neither the complainant nor the recipient is compelled to settle the complaint. A complainant who believes that he or she is not receiving full satisfaction in the mediation process need not agree to a settlement of the dispute. A complainant will have to wait no more than 60 days for the complaint to be returned to HHS for its investigation to begin.

This 60 day period will count as part of the 180 days which HHS has to resolve the complaint before a court action can be filed by the complainant. The 60 day period may be extended by the mediator with the concurrence of HHS, for not more than 30 days if the mediator determines that agreement will likely be reached during the extended period.

The mediation process has been designed to minimize expenses to the parties. The mediator can travel to the location of the parties and the services of the mediator will be paid for by the Federal government. The mediation itself is conducted in an informal atmosphere in which both sides attempt to resolve the dispute in a mutually satisfactory manner. This should encourage the parties to discuss their dispute without resort to efforts to build a formal legal case.

HHS believes that the Age Discrimination Act offers a unique opportunity to try this innovative approach to the resolution of disputes. The mediation process is being monitored very closely as it is used to resolve age discrimination complaints received by all recipients of Federal financial assistance. The results of this evaluation will be reported as part of the required review of the effectiveness of the general age discrimination regulations.

VI. Examples of How HHS Interprets the Exceptions to the Prohibition Against Age Discrimination

This section illustrates how HHS would apply the exceptions to the prohibition against age discrimination in situations involving recipients of HHS funds. The examples are intended to illustrate how HHS would apply the standards in these regulations to analyze whether use of any age distinction or a factor other than age is permissible or impermissible under these regulations. The examples are purely hypothetical. Each assumes that the institution involved received funds from HHS and that no exception to the prohibition against age discrimination applies other than the one being discussed. The reader should keep in mind that even slightly different factual situations may require a different analysis and may result in a different conclusion. Thus, recipients of HHS funds should realize the need still exists for case-by-case analysis of any action that raises questions of compliance with the requirements of these regulations.

A. Actions Involving Separate Treatment (§ 91.11)

Examples—*Permissible Separate Treatment:*

1. A hospital which receives funds from HHS treats children under 16 years of age in a separate unit from the adults served by the hospital. However, essentially comparable services are provided both age groups, including laboratory facilities, specialized care and treatment, and access to the facilities. This separate treatment of the two age groups does not result in a denial or limitation of services, and the practice, therefore is *permissible.*

2. A sports league sponsored by a local youth program which receives Federal Title XX funds separates children into three or more age groupings for sports which require physical development or emotional maturity. Essentially comparable sports programs are provided for each age group. The groupings by age *are permissible* because no denial or limitation of service results.

Example—*Prohibited Separate Treatment:*

1. A State mental hospital has a separate geriatrics wing. Patients in this wing have less supervision, receive fewer therapeutic visits, have fewer recreational opportunities, and receive less rehabilitation. Because a denial or limitation of service results, this separate treatment would be prohibited (unless it could be justified under one of the Act's exceptions).

B. Age Distinctions "Established Under Authority of Any Law" (§ 91.2)

Examples—*Age distinctions in HHS-administered Federal statutes:*

1. The Health Maintenance Organization (HMO) Act limits enrollment of beneficiaries entitled to benefits under Title XVIII of the Social Security Act (SSA). The SSA requires "* * * each health maintenance organization with which the Secretary enters into a contract under this section shall have an enrolled membership at least half of which consists of individuals who have not attained *age 65.*" (42 U.S.C. 1395mm) [Emphasis added]

2. The Aid to Families with Dependent Children (AFDC) program enables "each State to furnish financial assistance or rehabilitation and other services to needy dependent *children* and the parents or relatives with whom they are living. The term * * * *child* is defined * * * as * * * (A) under the *age of 18;* or (B) at the option of the State under the *age of 19* and a full-time student * * *." (42 U.S.C. 601 *et seq.*) (Emphasis added)

3. The Older Americans Act authorizes the provision of "assistance in the development of new or improved programs to help *older persons.*" Specifically, it requires States in their State plans to "provide with respect to nutrition services that each project providing nutrition services will be available to individuals *aged 60 or older,* and to their spouses * * *" (42 U.S.C. 3027) (Emphasis added)

Examples—Age distinctions in State and local statutes which may affect HHS funded programs:

1. Age limits for requiring parental consent for medical procedures.

2. Age limits for services to those in the "juvenile" justice system.

3. Age limits for compulsory health procedures, such as particular vaccinations against disease.

4. Maximum age limits for "under age" wards of the State.

C. Age Distinctions That Are Necessary To Normal Operation or to the Achievement of a Statutory Objective. (§ 91.13)

To qualify for the normal operation or statutory objective exception, an explicit use of age must meet all four parts of the test set out in § 91.31 which requires that:

(a) the age distinction must be used as a measure of another characteristic(s);

(b) the other characteristics(s) must be measured for the program to operate normally or to meet its statutory objective;

(c) the other characteristic(s) can be reasonably measured by using age; and

(d) it is impractical to measure the other characteristic(s) for each individual participant.

Examples—*Permissible Uses of Age Related To Normal Operation:*

1. Head Start grantees operate programs which provide comprehensive health, nutritional, educational, social, and other services for children who have not reached compulsory school age. Neither the statute creating Head Start nor its implementing regulations specifies a minimum age limit for Head Start participants.

A local Head Start grantee operates a center that offers a highly structured program stressing group activities to promote the educational, social and nutritional development of the children enrolled. Because of the nature of the center's program, its physical layout, and the training and experience of its staff, the center generally

limits enrollment in its program to children who are at least 3 years old.

Anaylsis of the Use of Age:

(a) The minimum age restriction is used as an approximation of the level of development and the capacity for self-discipline that the child must possess in order to profit from this particular center's pre-school child development program; and

(b) A child's readiness for this pre-school child development program must be measured for the Head Start center to meet its objectives. The enrollment of younger children who are not ready for this program would require significant changes in the program such as providing greater assistance in feeding, changing diapers, clothes, etc., which would impair the center's ability to meet its objectives; and

(c) Age 3 reasonably approximates the level of development at which children are able to respond to simple commands, move about without assistance, feed themselves, control body functions and perform other basic activities that are an essential part of this center's pre-school child development activities; and

(d) It is impractical to measure directly and individually each child's level of physical, mental and emotional development.

The minimum age restriction passes all four parts of the test and, therefore, *is necessary* for the normal operation of the Head Start center.

2. A community organization receiving Federal financial assistance provides a drug and alcohol education program to young people between the ages of 12 and 20. The organization claims that its objective is to prevent young people from first taking drugs.

Analysis of the Use of Age:

(a) Ages 12–20 are used as a measure of the period when persons are first confronted with the decision of whether or not to use particular drugs; and

(b) This period of decision must be measured in order for the organization's objective (prevention rather than treatment) to be met; and

(c) Ages 12–20 are a reasonable measure of when youth are confronted with decisions to use particular drugs; and

(d) It is impractical to measure on an individual basis the point in time when an individual is first faced with the decision about whether or not to use drugs.

The use of age passes all parts of the four-part test, and therefore, *is necessary* for the normal operation of the program.

Examples—*Prohibited Uses of Age Related to Normal Operation:*

1. A medical school generally does not admit persons age 35 and over. This practice results in turning away qualified applicants over 35.

The school claims that it has as an objective, the teaching of qualified medical students who, upon graduation, will practice as long as possible. The school believes that this objective requires it to select younger applicants over older ones.

Analysis of the Use of Age:

(a) Age is used as an approximation of the potential years of medical practice after graduation;

(b) The approximation of the potential years of practice after graduation is not necessary to the normal operation of the medical school. The basic objective of the medical school is to train competent and qualified medical doctors. The achievement of a high average longevity of practice for its graduates cannot be considered a medical school's program objective under the Act. The admission of qualified persons over age 35 does not require significant changes in the medical school program which would impair its ability to educate physicians. (The use of age *fails* this part of the test.)

(c) The age of an applicant may be a reasonable approximation of the longevity of practice; and

(d) It is not possible to measure directly the actual longevity of a graduate's practice.

The use of age to restrict medical school applicants for the purpose of achieving greater longevity of practice does not pass part (b) of the test. Therefore, the use of age *is not necessary* to the normal operation of this medical school's program.

2. A university which receives funds from HHS for its graduate social work program limits fellowships in the program to persons under age 25. The university claims that the fellowship program is designed to encourage talented but inexperienced and untrained individuals to pursue graduate training in social work.

Analysis of the Use of Age:

(a) Age is used as an approximation of lack of experience and training in social work.

(b) Measurement of the lack of experience and training is necessary to the normal operation of the department's graduate fellowship program.

(c) Age, however, is not a reasonable measure of an individual's experience or training. Talented but inexperienced and untrained individuals of all ages may be seeking graduate aid through the social work program. (The use of the age *fails* this part of the test.)

(d) Lack of experience and training in the field of social work can reasonably be measured directly on an individual basis. (The use of the age *fails* this part of the test.)

The age limitation on the university's graduate social work fellowships does not pass either parts (c) or (d) of the four-part test. The use of age, therefore *is not necessary* to the normal operation of the graduate fellowship program.

3. A CPR program run by a local health department does not train anyone over age 65 to do CPR. The program claims that its objective is to train individuals who have the physical capability to perform CPR on heart attack victims, and that persons over 65 are unlikely to have that capability.

Analysis of the Use of Age:

(a) Age is used as an approximation of the physical ability to perform CPR.

(b) The physical ability to perform CPR must be measured for the program to achieve its objective.

(c) Age, however, is not a reasonable measure of an individual's ability to perform CPR. (The use of the age *fails* this part of the test.)

(d) Physical ability to perform CPR can be measured directly. Trainees can be tested for strength and endurance and can be screened for medical problems. (The use of the age *fails* this part of the test.)

The use of age 65 by the CPR training program does not pass parts (c) and (d) of the four-part test. The use of age, therefore, is *not necessary* to the normal operation of the CPR program.

Examples—Permissible Uses of Age Related to Statutory Objectives:

1. Applications for grants for disease control programs under the Public Health Service Act can only be approved if they "contain assurances satisfactory to the Secretary that * * * the applicant will conduct such programs as may be necessary (i) to develop an awareness in those persons in the area served by the applicant who are most susceptible to the disease or conditions * * * of appropriate preventive behavior and measures (including immunization) and diagnostic procedures for such disease, and (ii) to facilitate their access to such measures and procedures." (42 U.S.C. 247b).

A local public health program generally gives priority in immunizations to age categories most susceptible to the disease (e.g. the immunizaton program is directed to children under 15).

Analysis of the Use of Age:

(a) Age is used as a measure of susceptibility to a particular disease; e.g. ages 1–14 is a measure of susceptibility to measles;

(b) Susceptibility to the disease must be measured for the statutory objective to be met;

(c) Age is a reasonable measure of susceptibility to the particular disease; e.g. epidemiological evidence shows that children ages 1–14 are more susceptible to measles; and

(d) Susceptibility to the disease is impractical to measure directly on an individual basis.

The use of age passes all parts of the four-part test. Thus, age *is necessary* to the achievement of the explicit statutory objective to give priority in immunization to age categories most susceptible to the disease in question.

Examples—*Prohibited Uses of Age Related to Statutory Objectives:*

1. The statutory objective of the Federal Work Incentive Program (WIN) is to provide job training and placement services to individuals receiving Aid to Families with Dependent Children (AFDC) so that they may be employed and ultimately become self-sufficient. A local WIN office takes the age of the applicant into account and gives a lower priority for the older person who will be more difficult to place in employment.

Analysis of the Use of Age:

(a) Age is used as an approximation of the individual's employability after training has been completed.

(b) The selection of applicants most likely to be employed following the training is necessary to achieve the statutory objective.

(c) Age is not a reasonable measure of the employability of an applicant. (The use of age *fails* this part of the test.)

(d) Employability can reasonably be measured on an individual basis. (The use of age *fails* this part of the test.)

The use of age as a factor in screening applicants for training under the WIN program does not pass parts (c) and (d) and, therefore, *is not necessary* to achieve the objective of the Federal WIN program.

2. Title IV of the Social Security Act defines child welfare services as "public social services which supplement, or substitute for, parental care and supervision for the purpose of * * * protecting and promoting the welfare of children, including * * * where needed, the provision of adequate care of children away from their homes in foster family homes."

A State welfare agency sets a maximum age limit of 65 for foster parents. They claim that to meet their statutory objective of providing "adequate care" they cannot select anyone over 65 to be a foster parent.

Analysis of the Use of Age:

(a) Age is used as an approximation of the physical stamina and emotional maturity required to provide parental supervision to children.

(b) It is necessary to assess ability to provide parental supervision to achieve the program statutory objective of "adequate" foster care.

(c) Age is not a reasonable measure of the physical and emotional ability to provide parental supervision to a child. Physical stamina and emotional maturity are highly variable in adults and while there might be variations as people age, there is no specific age beyond which an individual does not have sufficient physical stamina or emotional resources to be an "adequate" foster parent. (The use of age *fails* this part of the test.)

(d) Applicants to be foster parents are screened individually—there is no reason why an individual's physical stamina and emotional maturity cannot be assessed directly at that time. (The use of age *fails* this part of the test.)

D. *The Use of Factors Other Than Age* (§91.14)

Example— *Permissible Uses of Factors Other than Age:*

1. A skills training program which receives Federal Work Incentive Program (WIN) funds uses a physical fitness test as a factor for selecting participants to train for a certain job. The job involves frequent heavy lifting and other demands for physical strength and stamina. Even though older persons might fail the test more frequently than younger persons, the physical fitness test measures a characteristic that bears a *direct and substantial relationship* to the job which persons are being trained and, therefore, *is permissible* under the Act.

Example—*Prohibited Uses of Factors Other than Age:*

1. A training program which receives WIN funds uses a physical fitness test to select participants for a clerical training program. It is claimed that persons who pass the test are likely to do better work than those who are unable to pass the test. Even if this were true, the relationship between the requirements of the test and the requirements of the type of job for which training is being offered *is not direct and substantial.* It is so tenuous and limited that it will not justify the test's age discriminatory effect. In this situation, use of the test would *violate* the Act.

List of Subjects in 45 CFR Part 91

Aged, Civil rights.

Dated: December 1, 1982.

Betty Lou Dotson,

Director Office of Civil Rights Department of Health and Human Services.

Approved: December 6, 1982.

Richard S. Schweiker,

Secretary, Department of Health and Human Services

The Department of Health and Human Services adds Part 91 to Title 45 of the Code of Federal Regulations as set forth below:

PART 91—NONDISCRIMINATION ON THE BASIS OF AGE IN HHS PROGRAMS OR ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Subpart A—General

Sec.

91.1 What is the purpose of the Age Discrimination Act of 1975?
91.2 What is the purpose of HHS' age discrimination regulations?
91.3 To what programs do these regulations apply?
91.4 Definitions of terms used in these regulations.

Subpart B—Standards for Determining Age Discrimination

91.11 Rules against age discrimination.
91.12 Definitions of "normal operation" and "statutory objective."
91.13 Exceptions to the rules against age discrimination: Normal operation or statutory objective of any program or activity.
91.14 Exceptions to the rules against age discrimination: Reasonable factors other than age.
91.15 Burden of proof.
91.16 Affirmative action by recipients.
91.17 Special benefits for children and the elderly.
91.18 Age distinctions contained in HHS regulations.

Subpart C—Duties of HHS Recipients

91.31 General responsibilities.
91.32 Notice to subrecipients and beneficiaries.
91.33 Assurance of compliance and recipient assessment of age distinctions.
91.34 Information requirements.

Subpart D—Investigation, Conciliation, and Enforcement Procedures

91.41 Compliance reviews.
91.42 Complaints.
91.43 Mediation.
91.44 Investigation.
91.45 Prohibition against intimidation or retaliation.
91.46 Compliance procedure.
91.47 Hearings, decisions, post-termination proceedings.
91.48 Remedial action by recipient.
91.49 Alternate funds disbursal procedure.
91.50 Exhaustion of administrative remedies.

Authority: Age Discrimination Act of 1975, as amended, 42 U.S.C. 6101 et seq. (45 CFR Part 90)

Subpart A—General

§ 91.1 What is the purpose of the Age Discrimination Act of 1975?

The Age Discrimination Act of 1975, as amended, is designed to prohibit discrimination on the basis of age in programs or activities receiving Federal financial assistance. The Act also permits federally assisted programs and activities, and recipients of Federal funds, to continue to use certain age distinctions and factors other than age which meet the requirements of the Act and these regulations.

§ 91.2 What is the purpose of HHS' age discrimination regulations?

The purpose of these regulations is to set out HHS' policies and procedures under the Age Discrimination Act of 1975 and the general age discrimination regulations at 45 CFR Part 90.[1] The Act and the general regulations prohibit discrimination on the basis of age in programs or activities receiving Federal financial assistance. The Act and the general regulations permit federally assisted programs and activities, and recipients of Federal funds, to continue to use age distinctions and factors other than age which meet the requirements of the Act and its implementing regulations.

§ 91.3 To what programs do these regulations apply?

(a) The Act and these regulations apply to each HHS recipient and to each program or activity operated by the recipient which receives or benefits from Federal financial assistance provided by HHS.

(b) The Act and these regulations do not apply to:

(1) An age distinction contained in that part of a Federal, State, or local statute or ordinance adopted by an elected, general purpose legislative body which:

(i) Provides any benefits or assistance to persons based on age; or

[1] Published at 44 FR 33768, June 12, 1979.

(ii) Establishes criteria for participation in age-related terms; or

(iii) Describes intended beneficiaries or target groups in age-related terms.

(2) Any employment practice of any employer, employment agency, labor organization, or any labor-management joint apprenticeship training program, except for any program or activity receiving Federal financial assistance for public service employment under the Comprehensive Employment and Training Act (CETA), (29 U.S.C. 801 et seq.)

§ 91.4 Definition of terms used in these regulations.

As used in these regulations, the term:

"Act" means the Age Discrimination Act of 1975, as amended, (Title III of Pub. L. 94–135).

"Action" means any act, activity, policy, rule, standard, or method of administration; or the use of any policy, rule, standard, or method of admininstration.

"Age" means how old a person is, or the number of years from the date of a person's birth.

"Age distinction" means any action using age or an age-related term.

"Age-related term" means a word or words which necessarily imply a particular age or range of ages (for example, "children," "adult," "older persons," but not "student").

"Agency" means a Federal department or agency that is empowered to extend financial assistance.

"Federal financial assistance" means any grant, entitlement, loan, cooperative agreement, contract (other than a procurement contract or a contract of insurance or guaranty), or any other arrangement by which the agency provides or otherwise makes available assistance in the form of:

(a) Funds; or

(c) Services of Federal personnel; or

(c) Real and personal property or any interest in or use of property, including:

(1) Transfers or leases of property for less than fair market value or for reduced consideration; and

(2) Proceeds from a subsequent transfer or lease of property if the Federal share of its fair market value is not returned to the Federal Government.

"HHS" means the United States Department of Health and Human Services.

"Recipient" means any State or its political subdivision, any instrumentality of a State or its political subdivision, any public or private agency, institution, organization, or other entity, or any person to which Federal financial assistance is extended, directly or through another recipient. Recipient includes any successor, assignee, or transferee, but excludes the ultimate beneficiary of the assistance.

"Secretary" means the Secretary of Health and Human Services, or his or her designee.

"Subrecipient" means any of the entities in the definition of "recipient" to which a recipient extends or passes on Federal financial assistance. A subrecipient is generally regarded as a recipient of Federal financial assistance and has all the duties of a recipient in these regulations.

"United States" means the fifty States, the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, Guam, Wake Island, the Canal Zone, the Trust Territory of the Pacific Islands, the Northern Marianas, and the territories and possessions of the United States.

Subpart B—Standards for Determining Age Discrimination

§ 91.11 Rule against age discrimination.

The rules stated in this section are limited by the exceptions contained in §§ 91.13 and 91.14 of these regulations.

(a) General rule: No person in the United States shall, on the basis of age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any program or activity receiving Federal financial assistance.

(b) Specific rules: A recipient may not, in any program or activity receiving Federal financial assistance, directly or through contractual licensing, or other arrangements, use age distinctions or take any other actions which have the effect, on the basis of age, of:

(1) Excluding individuals from, denying them the benefits of, or subjecting them to discrimination under, a program or activity receiving Federal financial assistance; or

(2) Denying or limiting individuals in their opportunity to participate in any program or activity receiving Federal financial assistance.

(c) The specific forms of age discrimination listed in paragraph (b) of this section do not necessarily constitute a complete list.

§ 91.12 Definitions of "normal operation" and "statutory objective."

For purposes of §§ 91.13 and 91.14, the terms "normal operation" and "statutory objective" shall have the following meaning:

(a) "Normal operation" means the operation of a program or activity without significant changes that would impair its ability to meet its objectives.

(b) "Statutory objective" means any purpose of a program or activity expressly stated in any Federal statute, State statute, or local statute or ordinance adopted by an elected, general purpose legislative body.

§ 91.13 Exceptions to the rules against age discrimination: Normal operation or statutory objective of any program or activity.

A recipient is permitted to take an action, otherwise prohibited by § 91.11, if the action reasonably takes into account age as a factor necessary to the normal operation or the achievement of any statutory objective of a program or activity. An action reasonably takes into account age as a factor necessary to the normal operation or the achievement of any statutory objective of a program or activity, if:

(a) Age is used as a measure or approximation of one or more other characteristics; and

(b) The other characteristic(s) must be measured or approximated in order for the normal operation of the program or activity to continue, or to achieve any statutory objective of the program or activity; and

(c) The other characteristic(s) can be reasonably measured or approximated by the use of age; and

(d) The other characteristic(s) are impractical to measure directly on an individual basis.

§ 91.14 Exceptions to the rules against age discrimination: Reasonable factors other than age.

A recipient is permitted to take an action otherwise prohibited by Section 91.11 which is based on a factor other than age, even though that action may have a disproportionate effect on persons of different ages. An action may be based on a factor other than age only is the factor bears a direct and substantial relationship to the normal operation of the program or activity or to the achievement of a statutory objective.

§ 91.15 Burden of proof.

The burden of proving that an age distinction or other action falls within the exceptions outlined in §§ 91.13 and 91.14 is on the recipient of Federal financial assistance.

§ 91.16 Affirmative action by recipient.

Even in the absence of a finding of discrimination, a recipient may take affirmative action to overcome the effects of conditions that resulted in limited participation in the recipient's program or activity on the basis of age.

§ 91.17 Special benefits for children and the elderly.

If a recipient operating a program provides special benefits to the elderly or to children, such use of age distinctions shall be presumed to be necessary to the normal operation of the program, notwithstanding the provisions of § 91.13.

§ 91.18 Age distinctions contained in HHS regulations.

Any age distinctions contained in a rule or regulation issued by HHS shall be presumed to be necessary to the achievement of a statutory objective of the program to which the rule or regulation applies, notwithstanding the provisions of § 91.13.

Subpart C—Duties of HHS Recipients

§ 91.31 General responsibilities.

Each HHS recipient has primary responsibility to ensure that its programs and activities are in compliance with the Act and these regulations, and shall take steps to eliminate violations of the Act. A recipient also has responsibility to maintain records, provide information, and to afford HHS access to its records to the extent HHS finds necessary to determine whether the recipient is in compliance with the Act and these regulations.

§ 91.32 Notice to subrecipients and beneficiaries.

(a) Where a recipient passes on Federal financial assistance from HHS to subrecipients, the recipient shall provide the subrecipients written notice of their obligations under the Act and these regulations.

(b) Each recipient shall make necessary information about the Act and these regulations available to its program beneficiaries in order to inform them about the protections against discrimination provided by the Act and these regulations.

§ 91.33 Assurance of compliance and recipient assessment of age distinctions.

(a) Each recipient of Federal financial assistance from HHS shall sign a written assurance as specified by HHS that it will comply with the Act and these regulations.

(b) *Recipient assessment of age distinctions.* (1) As part of a compliance review under § 91.41 or complaint investigation under § 91.44, HHS may require a recipient employing the equivalent of 15 or more employees to complete a written self-evaluation, in a manner specified by the responsible Department official, of any age distinction imposed in its program or activity receiving Federal financial assistance from HHS to assess the recipient's compliance with the Act.

(2) Whenever an assessment indicates a violation of the Act and the HHS regulations, the recipient shall take corrective action.

§ 91.34 Information requirements.

Each recipient shall:

(a) Keep records in a form and containing information which HHS determines may be necessary to ascertain whether the recipient is complying with the Act and these regulations.

(b) Provide to HHS, upon request, information and reports which HHS determines are necessary to ascertain whether the recipient is complying with the Act and these regulations.

(c) Permit reasonable access by HHS to the books, records, accounts, and other recipient facilities and sources of information to the extent HHS determines is necessary to ascertain whether the recipient is complying with the Act and these regulations.

Subpart D—Investigation, Conciliation, and Enforcement Procedures

§ 91.41 Compliance reviews.

(a) HHS may conduct compliance reviews and pre-award reviews or use other similar procedures that will permit it to investigate and correct violations of the Act and these regulations. HHS may conduct these reviews even in the absence of a complaint against a recipient. The reviews may be as comprehensive as necessary to determine whether a violation of the Act and these regulations has occurred.

(b) If a compliance review or pre-award review indicates a violation of the Act or these regulations, HHS will attempt to achieve voluntary compliance with the Act. If voluntary compliance cannot be achieved, HHS will arrange for enforcement as decribed in § 91.46.

§ 91.42 Complaints.

(a) Any person, individually or as a member of a class or on behalf of others, may file a complaint with HHS, alleging discrimination prohibited by the Act or these regulations based on an action occurring on or after July 1, 1979. A complainant shall file a complaint within 180 days from the date the complainant first had knowledge of the alleged act of discrimination. However, for good cause shown, HHS may extend this time limit.

(b) HHS will consider the date a complaint is filed to be the date upon which the complaint is sufficent to be processed.

(c) HHS will attempt to facilitate the filing of complaints wherever possible, including taking the following measures:

(1) Accepting as a sufficient complaint, any written statement which identifies the parties involved and the date the complainant first had knowledge of the alleged violation, describes generally the action or practice complained of, and is signed by the complainant.

(2) Freely permitting a complainant to add information to the complaint to meet the requirements of a sufficient complaint.

(3) Notifying the complainant and the recipient of their rights and obligations under the complaint procedure, including the right to have a representative at all stages of the complaint procedure.

(4) Notifying the complainant and the recipient (or their representatives) of their right to contact HHS for information and assistance regarding the complaint resolution process.

(d) HHS will return to the complainant any complaint outside the jurisdiction of these regulations, and will state the reason(s) why it is outside the jurisdiction of these regulations.

§ 91.43 Mediation.

(a) HHS will promptly refer to a mediation agency designated by the Secretary all sufficient complaints that:

(1) Fall within the jurisdiction of the Act and these regulations, unless the age distinction complained of is clearly within an exception; and,

(2) Contain all information necessary for further processing.

(b) Both the complainant and the recipient shall participate in the mediation process to the extent necessary to reach an agreement or make an informed judgment that an agreement is not possible.

(c) If the complainant and the recipient reach an agreement, the mediator shall prepare a written statement of the agreement and have the complainant and the recipient sign it. The mediator shall send a copy of the agreement to HHS. HHS will take no further action on the complaint unless the complainant or the recipient fails to comply with the agreement.

(d) The mediator shall protect the confidentiality of all information obtained in the course of the mediation process. No mediator shall testify in any adjudicative proceeding, produce any document, or otherwise disclose any information obtained in the course of the mediation process without prior

approval of the head of the mediation agency.

(e) The mediation will proceed for a maximum of 60 days after a complaint is filed with HHS. Mediation ends if:

(1) 60 days elapse from the time the complaint is filed; *or*

(2) Prior to the end of that 60-day period, an agreement is reached; *or*

(3) Prior to the end of that 60-day period, the mediator determines that an agreement cannot be reached.

This 60-day period may be extended by the mediator, with the concurrence of HHS, for not more than 30 days if the mediator determines that agreement will likely be reached during such extended period.

(f) The mediator shall return unresolved complaints to HHS.

§ 91.44 Investigation.

(a) *Informal investigation.* (1) HHS will investigate complaints that are unresolved after mediation or are reopened because of a violation of a mediation agreement.

(2) As part of the initial investigation HHS will use informal fact finding methods, including joint or separate discussions with the complainant and recipient, to establish the fact and, if possible, settle the complaint on terms that are mutually agreeable to the parties. HHS may seek the assistance of any involved State program agency.

(3) HHS will put any agreement in writing and have it signed by the parties and an authorized official at HHS.

(4) The settlement shall not affect the operation of any other enforcement effort of HHS, including compliance reviews and investigation of other complaints which may involve the recipient.

(5) The settlement is not a finding of discrimination against a recipient.

(b) *Formal investigation.* If HHS cannot resolve the complaint through informal investigation, it will begin to develop formal findings through further investigation of the complaint. If the investigation indicates a violation of these regulations HHS will attempt to obtain voluntary compliance. If HHS cannot obtain voluntary compliance it will begin enforcement as described in § 91.46

§ 91.45 Prohibition against intimidation or retaliation.

A recipient may not engage in acts of intimidation or retaliation against any person who:

(a) Attempts to assert a right protected by the Act or these regulations; or

(b) Cooperates in any mediation, investigation, hearing, or other part of HHS' investigation, conciliation, and enforcement process.

§ 91.46 Compliance procedure.

(a) HHS may enforce the Act and these regulations through:

(1) Termination of a recipient's Federal financial assistance from HHS under the program or activity involved where the recipient has violated the Act or these regulations. The determination of the recipient's violation may be made only after a recipient has had an opportunity for a hearing on the record before an administrative law judge.

(2) Any other means authorized by law including but not limited to:

(i) Referral to the Department of Justice for proceedings to enforce any rights of the United States or obligations of the recipient created by the Act or these regulations.

(ii) Use of any requirement of or referral to any Federal, State, or local government agency that will have the effect of correcting a violation of the Act or these regulations.

(b) HHS will limit any termination under § 91.46(a)(1) to the particular recipient and particular program or activity or part of such program and activity HHS finds in violation of these regulations. HHS will not base any part of a termination on a finding with respect to any program or activity of the recipient which does not receive Federal financial assistance from HHS.

(c) HHS will take no action under paragraph (a) until:

(1) The Secretary has advised the recipient of its failure to comply with the Act and these regulations and has determined that voluntary compliance cannot be obtained.

(2) Thirty days have elapsed after the Secretary has sent a written report of the circumstances and grounds of the action to the committees of the Congress having legislative jurisdiction over the Federal program or activity involved. The Secretary will file a report whenever any action is taken under paragraph (a).

(d) HHS also may defer granting new Federal financial assistance from HHS to a recipient when a hearing under § 91.46(a)(1) is initiated.

(1) New Federal financial assistance from HHS includes all assistance for which HHS requires an application or approval, including renewal or continuation of existing activities, or authorization of new activities, during the deferral period. New Federal financial assistance from HHS does not include increases in funding as a result of changed computation of formula awards or assistance approved prior to the beginning of a hearing under § 91.46(a)(1).

(2) HHS will not begin a deferral until the recipient has received a notice of an opportunity for a hearing under § 91.46(a)(1). HHS will not continue a deferral for more than 60 days unless a hearing has begun within that time or the time for beginning the hearing has been extended by mutual consent of the recipient and the Secretary. HHS will not continue a deferral for more than 30 days after the close of the hearing, unless the hearing results in a finding against the recipient.

(3) HHS will limit any deferral to the particular recipient and particular program or activity or part of such program or activity HHS finds in violation of these regulations. HHS will not base any part of a deferral on a finding with respect to any program or activity of the recipient which does not, and would not in connection with the new funds, receive Federal financial assistance from HHS.

§ 91.47 Hearings, decisions, post-termination proceedings.

Certain HHS procedural provisions applicable to Title VI of the Civil Rights Act of 1964 apply to HHS enforcement of these regulations. They are found at 45 CFR 80.9 through 80.11 and 45 CFR Part 81.

§ 91.48 Remedial action by recipient.

Where HHS finds a recipient has discriminated on the basis of age, the recipient shall take any remedial action that HHS may require to overcome the effects of the discrimination. If another recipient exercises control over the recipient that has discriminated, HHS may require both recipients to take remedial action.

§ 91.49 Alternate funds disbursal procedure.

(a) When HHS withholds funds from a recipient under these regulations, the Secretary may disburse the withheld funds directly to an alternate recipient: any public or non-profit private organization or agency, or State or political subdivision of the State.

(b) The Secretary will require any alternate recipient to demonstrate:

(1) The ability to comply with these regulations; and

(2) The ability to achieve the goals of the Federal statute authorizing the program or activity.

§ 91.50 Exhaustion of administrative remedies.

(a) A complainant may file a civil action following the exhaustion of administrative remedies under the Act.

Administrative remedies are exhausted if:

(1) 180 days have elapsed since the complainant filed the complaint and HHS has made no finding with regard to the complaint; or

(2) HHS issues any finding in favor of the recipient.

(b) If HHS fails to make a finding within 180 days or issues a finding in favor of the recipient, HHS shall:

(1) Promptly advise the complainant of this fact; and

(2) Advise the complainant of his or her right to bring a civil action for injunctive relief; and

(3) Inform the complainant:

(i) That the complainant may bring a civil action only in a United States district court for the district in which the recipient is found or transacts business;

(ii) That a complainant prevailing in a civil action has the right to be awarded the costs of the action, including reasonable attorney's fees, but that the complainant must demand these costs in the complaint;

(iii) That before commencing the action the complainant shall give 30 days notice by registered mail to the Secretary, the Attorney General of the United States, and the recipient;

(iv) That the notice must state: the alleged violation of the Act; the relief requested; the court in which the complainant is bringing the action; and, whether or not attorney's fees are demanded in the event the complainant prevails; and

(v) That the complainant may not bring an action if the same alleged violation of the Act by the same recipient is the subject of a pending action in any court of the United States.

Appendix A—Comment Analysis

The following comments, suggestions, and criticisms were made at public meetings or submitted in writing in response to the proposed rules. After the summary of each comment, a response is set forth stating the changes which have been made in the regulations or the reasons why no change was deemed necessary or appropriate. The comments follow sequentially the questions posed by the Department in the preamble to the proposed rule, and then the sections of the proposed regulations.

HHS Regulations Format

Comment: Several commenters disagreed with the format suggested in the proposed regulations, cross-referencing provisions from the general regulations into the HHS specific regulations, because the referenced regulations (1) might not be accessible to the user, or (2) might be amended without the user's knowledge. These commenters requested that subparts A and B of the general regulations be repeated in the HHS specific regulations. Some commenters preferred cross-referencing as a means of differentiating between general requirements and those requirements specific to HHS recipients. A few commenters approved the cross-referencing format on the condition that HHS provide recipients directly with information and training materials containing all applicable requirements, or that the HHS regulations contain all cross-referenced regulations in an appendix.

Response: HHS is persuaded by the comments that the cross-referencing of substantive requirements from the general regulations into the HHS specific regulations is more confusing than time-saving. Accordingly, rather than incorporate substantive provisions of the general regulations into the HHS regulations by reference, substantive provisions are set forth independently in the HHS regulations. These regulations will continue to adopt by reference the hearing procedures used in other civil rights regulations (45 C.F.R. Part 80.9–80.11 and Part 81).

Use of Examples to Illustrate the Standards, Generally

Comment: Many commenters stated that examples provide helpful guidance in understanding the ADA standards. Some of these commenters requested that examples be included in the text of the final HHS regulations and one suggested that examples be located in an appendix.

Response: HHS has included examples in the preamble to the final regulations to illustrate how the ADA standards might be applied in particular situations. Readers are cautioned that the examples are limited to the facts presented and are intended only as guidance to clarify the standards set out in the HHS regulations. The examples should *not* be considered as definitive judgments by HHS.

Examples—Permissible Separate Treatment

Comment: One commenter stated that separate treatment should be permitted only when based on factors *other* than age (e.g., health, safety, physical ability), because permitting separate treatment on the basis of chronological age will open the door for the type of "separate but equal" rationale that has been discredited in other civil rights areas.

Response: HHS is sensitive to the need for careful scrutiny of separate treatment to assure that it is not a basis for denying or limiting opportunity to participate in a federally funded program, and believes that the standards in these regulations are sufficient to safeguard against abusive uses of age. On the other hand, HHS believes it is the intent of Congress to permit separate treatment based on age when there is no denial or limitation of service, e.g., in programs where separate treatment allows service to be more responsive to needs of different age groups and therefore may result in better services for each group.

Examples—Prohibited Uses of Age Related to Normal Operation

Comment: A few commenters objected to the example of limiting medical school admission to persons age 35 or under as a prohibited use of age because of concern about health care costs. These commenters supported the use of age limits for medical school admission as a way to conserve scarce dollar resources.

Response: HHS has retained this example. As explained in the analysis of comments received on the general regulations, cost-benefit considerations alone are not a justification for using age distinctions. Cost benefit considerations may be used only where the use of age otherwise meets the requirements of the test set out in section 90.14 of the general regulations.

Alternate Approaches to Regulations—Should the Regulations Address Practices of Specific HHS Recipients, Such as Hospitals?

Comment: Most commenters stated that the regulations should not address practices of specific recipients. Some commenters stated that including illustrative examples in the preamble to the regulations is a better method of clarifying the regulatory standards than attempting to cover the wide variety of recipient programs by specific regulatory provision. No commenters favored addressing specific recipient practices in the HHS regulations.

Response: Based on the commenters' support for HHS's position that separate provisions addressing the practices of specific HHS recipients are unnecessary, HHS has not included such separate provisions.

Should the Regulations Set Out More Detailed Requirements About What Technical Assistance and Educational Materials HHS Provides Its Recipients?

Comment: Most commenters agreed with HHS that the administrative details of technical assistance and educational materials need not be included in the regulations. A few commenters requested that HHS include information on these topics either in an appendix, or in a general regulatory provision.

Response: HHS is committed to providing technical assistance and educational materials by whatever means is most useful to recipients. HHS believes that this commitment is best met by being able to respond to recipients in the manner most effective to the need presented. The regulations therefore continue to require that HHS provide technical assistance and educational materials but do not attempt to define in advance the manner in which the assistance must be delivered.

Should the Regulations Include More Detailed Provisions for Disbursing Funds to Alternate Recipients in the Case of a Fund Termination?

Comment: Most commenters stated that it is impossible to make detailed provision for disbursing funds to alternate recipients in the case of a fund termination and that the only reasonable method is a case by case determination.

Response: HHS has determined that the ADA establishes a minimum standard for selecting an alternate recipient and that any further attempt by HHS to define that standard may unduly restrict the Department's ability to carry out the purpose of the ADA. The final regulations therefore

do not elaborate on the statutory standard for selecting an alternate recipient.

Should HHS Use Hearing Procedures Other Than Those Used for Other Discrimination Matters?

Comment: Commenters generally agreed with HHS that the ADA regulations should incorporate the Title VI hearing procedures set out in 45 CFR Part 80.9–80.11 and Part 81 which are the procedures used for hearings, decisions, and post termination proceedings in conjunction with other civil rights statutes.

Response: The final regulations incorporate the hearing procedures set out in 45 CFR Part 80.9–80.11 and Part 81.

Subpart A—General

Section 91.3 Definitions—"subrecipient"

Comment: Commenters generally supported retaining the definition of subrecipient in the final HHS regulations. One commenter found the definition cumbersome because the recipient should be the primary focus of responsibility in these regulations.

Response: HHS has retained the definition of subrecipient in the final regulations because so many commenters questioned whether a subrecipient's obligations differ from those of a recipient. The obligations of an HHS recipient are not based on whether the recipient receives Federal financial assistance directly from HHS or indirectly (as a subrecipient) through another HHS recipient. The definition therefore states clearly that the subrecipient "has all the duties of a recipient in these regulations."

Subpart C—Duties of HHS Recipients

Section 91.31 General Responsibilities

Comment: One commenter requested clarification on who should be responsible for compliance within a multi-unit institution, such as a hospital, when HHS extends a single grant of Federal financial assistance to an institution which then redistributes portions of that assistance to various components within the institution.

Response: Each HHS recipient of federal financial assistance has responsibility to ensure that its programs and activities are in compliance with the ADA and these regulations. Procedures for assuring compliance are left to the discretion of the recipient institution.

Section 91.33 Recipient Self-evaluation

The requirement for a self-evaluation that appeared in the ADA general regulation has been revised in the final HHS regulations to require, at the discretion of HHS while conducting a complaint investigation or compliance review, that certain recipients examine age distinctions used in their programs to determine whether these age distinctions are permitted under the Act and regulations.

In addition, there is a requirement that each recipient complete an assurance of compliance similiar to the assurance of compliance requirement contained in other civil rights regulations.

Section 91.34 Information Requirements

Comment: A number of commenters stated that although it is reasonable for HHS to require information from recipients concerning compliance, HHS should describe as specifically as possible the kinds of data recipients are expected to keep. These commenters stated that because of the cost and time involved in gathering and maintaining data, HHS should keep information requirements to a minimum.

Response: HHS has revised this section to parallel the compliance information sections in the Title VI, Title IX and Section 504 implementing regulations. While recognizing the need for data sufficient to assess recipient compliance, HHS remains committed to lessening the data gathering burden on recipients. HHS further recognizes that there exists no established body of knowledge or experience to guide the assessment of age discrimination. The regulations, therefore, do not impose specific data requirements upon recipients; rather, they allow HHS to be flexible in determining what kinds of data should be kept by recipients, based on what kinds of data prove useful as we gain experience with the ADA, and age descrimination issues become clearer.

Subpart D—Investigation, Conciliation, and Enforcement Procedures

Section 91.41 Compliance Reviews

Comment: Several commenters stated that the regulations should state clearly what compliance reviews will entail: the scope of a review, and what will trigger it. One commenter requested that the regulations specifically limit any compliance review to those portions of an activity or program that receives Federal financial assistance from HHS. A few commenters questioned HHS's authority to conduct a compliance review where no complaint has been filed or in the absence of reasonable grounds to indicate a violation has occurred.

Response: The ADA charges HHS with responsibility to ensure that no person is discriminated against on the basis of age under any program receiving HHS funds. The compliance review provision in the ADA regulations is similar to the compliance review provisions in the Title VI, Title IX and Section 504 implementing regulations. It is one of several ways in which HHS carries out its responsibility to assure that programs receiving HHS funds are in compliance with the law. The compliance review serves an important oversight function and may be triggered in one of two ways: It may be the direct result of a complaint that alerts HHS to look more closely at a particular program, or it may be part of HHS's ongoing review of a cross section of HHS programs.

Section 91.42 Complaints

Section 91.42(a) Third Party Complaints

Comment: Some commenters opposed third party complaints unless the third party is acting in a legal capacity for the real complainant. These commenters objected to allowing third parties to enter into settlement agreements or to initiate civil actions.

Response: The provision for third party complaints in these regulations is consistent with similar provisions in other HHS regulations implementing civil rights statutes. HHS believes that all allegations of age discrimination should be officially reported and that third party complaints are a useful means of alerting HHS to possible violations of the ADA and these regulations.

Section 91.43 Mediation

Comment: One commenter suggested that any findings of fact made by the mediator should be forwarded to HHS.

Response: The general regulations require that the confidentiality of the mediation be protected. The language of § 91.43(d) is identical to that in § 90.43(c)(3)(iv) of the general regulations. The confidentiality provision deals exclusively with protecting the neutrality of the mediator and protecting the public interest in the success of the mediation process. The parties must be able to speak freely in the mediation without fear that the mediator will testify or provide information in a later enforcement proceeding. The parties must not be bound in subsequent administrative or court proceedings by the statements made in mediation. The terms of any settlement agreed to in mediation will be sent to the agency which received the complaint originally.

§ 91.46 Compliance Procedure

§ 91.46(d) Deferral of new Federal financial assistance

Comment: One commenter stated that the provision allowing HHS to defer granting new Federal financial assistance, when a hearing has been initiated, is unfair because it imposes a penalty prior to establishing the recipient's noncompliance. This commenter suggested that a recipient who defends successfully against a charge of noncompliance should be reimbursed for the cost of the proceedings.

Response: The regulations allow HHS discretion to defer new funds pending the outcome of a hearing to determine whether there has been a violation of the ADA or these regulations. The ADA deferral procedure is consistent with the compliance procedures used under Title VI of the Civil Rights Act of 1964 and the concept of deferral is supported by the Department of Justice in their role as coordinator of Federal enforcement of Title VI. There is no authority under which these regulations can provide for the reimbursement of costs to a recipient who successfully defends against a charge of noncompliance.

§ 91.49 Alternate Funds Disbursal Procedure

Comment: A question was raised concerning the difference between the definition of "recipient" [. . . any public or private agency . . .] found in Section 90.4 of the general regulations, and what the commenter read as a more restrictive definition of "alternate recipient" [. . . any public or *nonprofit* private . . agency . . .] in Section 91.49 of the HHS regulations. (emphasis added)

Response: The 90.4 definition parallels the definition of recipient found in the regulations

implementing other civil rights statutes (e.g., Title VI). Section 305(b) of the Age Discrimination Act requires each Federal agency to make provision in its regulations for the disbursal of withheld funds to an alternate recipient which may be, among others "any public or nonprofit private organization or agency. . . ." HHS has made provision for its alternate funds disbursal procedure in § 91.49 and has adopted directly from the ADA the language defining an alternate recipient.

HHS Activities

For the information of recipients and other reviewers, the following is a summary of activities that the general regulations require of HHS. The citation in brackets is to the section of the general regulations which HHS is summarizing.

(1) Review age distinctions HHS imposes on its recipients to determine whether they are permissible under the Act. HHS will publish the results of that review for public comment 12 months after HHS publishes its final regulations. [§ 90.32]

(2) Cooperate for all compliance and enforcement purposes with other Federal agencies which provide Federal financial assistance to the same recipient or class of recipients. [§ 90.33]

(3) Make annual reports to the Congress describing HHS' efforts to carry out the Act. [§ 90.34]

(4) Attempt to ensure that HHS recipients comply voluntarily with the Act. [§ 90.42]

(5) Provide notice and technical assistance to HHS recipients and make available educational materials. [§ 90.43(a)]

(6) Review the effectiveness of these regulations 30 months after they become effective. [§ 90.62]

Appendix

Section 90.31(f) of the general regulations requires each Federal agency to publish an appendix to its final age discrimination regulations containing a list of each age distinction in a Federal statute or in regulations affecting financial assistance administered by the agency. This appendix is HHS's list of age distinctions contained in Federal statutes or in final HHS regulations which:

(1) Provide benefits or assistance to persons based upon age; or

(2) Establish criteria for participation in age-related terms; or

(3) Describe intended beneficiaries or target groups in age-related terms.

The survey of age distinctions affecting HHS' programs of Federal financial assistance is for informational purposes only. Appendix B deals only with HHS programs covered by the Age Discrimination Act. It does not list age distinctions used by HHS in its direct assistance programs, such as the Supplemental Security Income Program, where the Federal assistance goes directly to the ultimate beneficiary rather than through another recipient (e.g. a grantee).

In addition, the appendix contains age distinctions only in HHS regulations which were in final form on January 1, 1982.

How to Read the Appendix of HHS Age Distinctions

The appendix has two sections: A list of age distinctions in Federal statutes, and a list of age distinctions in HHS regulations. The lists are further divided by operating division. The columns should be read from left to right for each age distinction. The first column contains the popular name of the program; the second column has the statute name, public law number and U.S. Code citation (for statutes) of the regulation name and Code of Federal Regulations citation (for regulations); the third column contains the section number of the public law and a description of the age distinction; the fourth column cites the Catalog of Federal Domestic Assistance number where it is available. Several of the cited programs were incorporated into block grants by the Omnibus Budget Reconciliation Act of 1981. (Pub. L. 97-35) FY'82 is the transition period for many of these programs. Where appropriate, this information is noted in the appendix.

AGE DISTINCTIONS IN STATUTES AFFECTING HHS

[Public Health Service, Office of Human Development Services, Health Care Financing Administration, and Social Security Administration]

Program	Statute	Section and age distinction	CFDA No.
Public Health Service (PHS)			
Vitamins and Minerals	Federal Food, Drug, and Cosmetic Act (FDC Act).	21 U.S.C. 350 provides that, except in the case of, among others, *children* under the age of 12, the Secretary may not establish maximum potency limits for vitamins and minerals, nor classify a vitamin or mineral as a drug solely because it is more potent than nutritionally useful.	
Infant Formula	Infant Formula Act of 1980 Pub. L. 96-359	21 U.S.C. 350(a) establishes a program to ensure the safety and nutrition of *infant* formula.	
Misbranded Drugs and Devices	FDC Act	21 U.S.C. 3529(f) provides that a drug or device is deemed misbranded unless its label bears adequate warnings against use by *children* where its use may be dangerous to health.	
Filled Milk	Filled Milk Act	21 U.S.C. 61 states that the prohibition against filled milk does not apply to any food compound not readily mistaken for milk or cream where such compound is designed for feeding *infants* and *young children* and is customarily used on physician's order.	
Adolescent Pregnancy Program	Title VI of the Health Services Centers Amendment of 1978, P.L. 95-626, as amended by P.L. 97-35; 42 U.S.C. 300a-21 *et seq.*	Sec. 601(b)(i) The Secretary may make grants to provide "services, give primary emphasis to *adolescents* who are *17 years of age or under* and are pregnant or who are parents.". *Note:* This is now in the Maternal and Child Health Block Grant.	
Aging	Public Health Service Act, as amended. P.L. 78-410; 42 U.S.C. 298k-4.	Sec. 463(a) "The Secretary (1) shall, through the Institute carry out the purposes of section 301 with respect to research investigations, experiments, demonstrations, and studies related to the aging process and the diseases and other special problems and needs of *the aged*. . . ." Sec. 463(c) "The Secretary, through the Institute, shall carry out public information and education programs designed to disseminate as widely as possible the findings of Institute-sponsored and other relevant *aging* research and studies and other information about the process of aging which may assist elderly and near-elderly persons in dealing with, and all Americans in understanding, the problems and processes associated with growing older."	13.866
Alcohol Abuse and Alcoholism Demonstration Projects.	Title III of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970, as amended. P.L. 91-616 as amended by P.L. 93-282, P.L. 96-180, P.L. 97-35; 42 U.S.C. 4577.	Sec. 311(c)(4) The Secretary shall encourage the submission of and give special consideration to applications under this section for programs and projects "aimed at underserved populations such as . . ." *youth*, the *elderly*. . . .	13.051
Appalachian Demonstration Health Projects	Title II of the Regional Development Act of 1965, as amended, P.L. 94-188; 42 U.S.C. 3181.	Sec. 202(a) The Secretary is authorized to make grants for . . . "*child* care projects. . ."	
Childhood Immunization Programs	Title III of the Public Health Service Act, as amended, P.L. 92-449; 42 U.S.C. 247b.	Sec. 317(j)(1)(A) The Secretary may make grants "for disease control programs to immunize *children* against immunizable diseases (including measles, rubella, poliomyelitis, diphtheria, pertussis, tetanus, and mumps.) . . ."	13.268
Genetic Diseases Testing and Counseling Programs and Information and Education Programs.	Title XI of the Public Health Service Act, as amended, P.L. 95-626, as amended by P.L. 97-35; 42 U.S.C. 300b *et seq.*	Sec. 1104(a)(4)(A)(ii) Applicants for community-wide testing and counseling services grants or contracts . . . where appropriate the services will be directed especially but not exclusively to persons entering their *child-producing years*. . . *Note:* This is now in the Maternal and Child Health Block Grant. FY '82 is the transition period.	

AGE DISTINCTIONS IN STATUTES AFFECTING HHS—Continued

[Public Health Service, Office of Human Development Services, Health Care Financing Administration, and Social Security Administration]

Program	Statute	Section and age distinction	CFDA No.
Health Maintenance Organization	Title XIII of the Public Health Service Act, P.L. 93-222, as amended by P.L. 94-460 and P.L. 95-559.	Sec. 1302(1) defines "basic health services" which must be provided to members of health maintenance organizations. Preventive health services are included under the definition of basic health services at Sec. 1302(1)(H): Preventive health services including (i) immunizations, (ii) well-*child* care from birth, (iii) periodic health evaluations for *adults*, (iv) voluntary family planning services, (v) infertility services, and (vi) *children's* eye and ear examinations	
Maternal and Child Health and Crippled Children's Services.	Title V of the Social Security Act, P.L. 95-83, as amended by P.L. 97-35; 42 U.S.C. 701 *et. seq.*.	*Note:* Age related terms are found throughout Title V of the Social Security Act. See, for example §§ 571,512.	
Research for mothers and children (NICHD)	Title IV-E of the Public Health Service Act, as amended, P.L. 94-63; 42 U.S.C. 289d.	Sec. 441(a) The Surgeon General is authorized, with the approval of the Secretary, to establish in the Public Health Service the National Institute of Child Health and Human Development for the conduct and support of research and training relating to maternal health, *child* health, and human development, including research and training in the special health problems and requirements of mothers and *children* and in the basic sciences relating to the process of human growth and development, including prenatal development. (b) The Secretary shall carry out through the National Institute of Child Health and Human Development the purposes of section 301 with respect to the conduct and support of research which specifically relates to sudden *infant* death syndrome.	13.865
Drug Abuse Demonstration Projects	Title IV of the Drug Abuse Prevention Treatment and Rehabilitation Act, P.L. 92-255 as amended by P.L. 94-239, P.L. 94-371, P.L. 95-461, P.L. 96-181, P.L. 97-35; 21 U.S.C 1177.	Sec. 410(d) The Secretary shall give special consideration to applications under this section for programs and projects "aimed at underserved populations such as . . . *youth*, the *elderly* . . ."	
National Health Service Corps Program	Title III of the Public Health Service Act, P.L. 94-484; 42 U.S.C. 254k.	Sec. 332(b)(2) In establishing criteria for the designation of health manpower shortage areas the Secretary shall take into consideration indicators such as "*infant* mortality" Sec. 334(b)(2) authorizes the Secretary to waive payment by an entity to which Corps personnel are assigned where a significant percentage of the area served are *"elderly"*.	
Community Health Center	Title III of the Public Health Service Act, P.L. 78-410, P.L. 94-63, P.L. 94-278, P.L. 95-626; 42 U.S.C. 254c.	Sec. 330(b)(1)(c) defines primary health services to include *children's* eye and ear examinations . . . prenatal services, and well *child* services.	13.224
Family Planning Services, Research and Training.	Title X of the Public Health Service Act, P.L. 91-572, 94-63, 94-439, 95-83, 95-613; 42 U.S.C. 300.	Sec. 1001(a) Projects must offer family planning services, "including . . . services for *adolescents*".	13.217
Migrant Health	Title III of the Public Health Service Act, P.L. 78-410, P.L. 94-63, P.L. 95-626; 42 U.S.C. 254b.	Sec. 329(a)(1) defines the term "migrant health centers" and states that services may be provided to "individuals who have previously been migratory agricultural workers, but can no longer be defined as a "migratory agricultural worker" *because of age* . . ". Sec. 329(a)(5) includes in the definition of "primary health services," preventive health services (including *children's* eye and ear examination . . . prenatal services, well *child* services . . .).	
Adolescent Family Life Demonstration Projects.	Title XX of Public Health Service Act, P.L. 97-35; 42 U.S.C. 300z *et seq.*.	Sec. 2002(a)(9) *'Adolescent'* means and individual under the age of 19; and (10) *'unemancipated minor'* means a minor who is subject to the control, authority, and supervision of his or her parents or guardians, as determined under State [redacted]	
Maternal and Child Health Services Block Grant.	Title V of the Social Security Act, as amended by P.L. 97-35.	Sec. 501(a): For the purpose of enabling each State—(1) to assure mothers and *child* . . . access to quality maternal and child health services (2) to reduce *infant* mortality and the incidence of preventable diseases and handicapping conditions among *children* . . .. (3) provide rehabilitation services for blind and disabled individuals *under the age of 16* receiving benefits under Title XVI of this Act	
Office of Human Development Services (OHDS)			
Child Welfare Services State Grants Program	Title IV-B of the Social Security Act, P.L. 96-272; 42 U.S.C. 620, 42 U.S.C. 625.	Sec. 420(a): For the purpose of enabling the United States, through the Secretary, to cooperate with State public welfare agencies in establishing, extending, and strengthening *child* welfare services Sec. 425(a)(1): For the purposes of this title, the term "*child* welfare services" means public social services which are directed toward the accomplishment of the following purposes. (A) protecting and promoting the welfare of all *children*, including handicapped, homeless, dependent, or neglected *children*; (B) preventing or remedying, or assisting in the solution of problems which may result in the neglect, abuse, exploitation, or delinquency of *children*; (C) preventing the unnecessary separation of *children* from their families by identifying family problems, assisting families in resolving their problems, and preventing breakup of the family where the prevention of *child* removal is desirable and possible; (D) restoring to their families *children* who have been removed, by the provision of services to the *child* and the families; (E) placing *children* in suitable adoptive homes, in cases where a restoration to the biological family is not possible or appropriate; and (F) assuring adequate care of *children* away from their homes, in cases where the *child* cannot be returned home or cannot be placed for adoption.	13.645
Federal Payments for Foster care and Adoption Assistance.	Title IV-E of the Social Security Act, P.L. 96-272 as amended 42 U.S.C. 670 *et seq.*	Sec. 470: For the purpose of enabling each State to provide, in appropriate cases, foster care and adoption assistance for *children* who otherwise would be eligible for assistance under the State's plan approved under part A . . .	[1] 13.658 [2] 13.659
WIN Social Services	Title IV-A of the Social Security Act, P.L. 92-223; 42 U.S.C. 602.	Sec. 402(a)(19)(G): A State plan for aid and services to needy families with *children* must . . . provide . . . "that the State agency will have in effect a special program which . . . will provide . . . [necessary] *child* care services" to individuals eligible for the Work Incentive Program.	

AGE DISTINCTIONS IN STATUTES AFFECTING HHS—Continued

Program	Statute	Section and age distinction	CFDA No.
Child Welfare Services Research and Demonstration.	Title IV-B of the Social Security Act, P.L. 90-248; 42 U.S.C. 626 (a)(1)(A), (B), (C) and (2).	Section 426(a) provides (1) For grants . . . (A) to public or other nonprofit institutions of higher learning, and to public or other nonprofit agencies and organizations engaged in research or *child* welfare activities, for special research or demonstration projects in the field of child welfare which are of regional or national significance and for special projects for the demonstration of new methods or facilities which show promise of substantial contribution to the advancement of *child* welfare; (B) to State or local public agencies responsible for administering, or supervising the administration of, the plan under this part, for projects for the demonstration of the utilization of research (including findings resulting therefrom) in the field of *child* welfare in order to encourage experimental and special types of welfare services. . . .	13.608
Child Welfare Services Training Grants		(C) For grants to public or other nonprofit institutions of higher learning for special projects for training personnel for work in the field of *child* welfare, including traineeships with such stipends and allowances as may be permitted by the Secretary; (2) For contracts or jointly financed cooperative arrangements with States and public and other organizations and agencies for the conduct of research, special projects, or demonstration projects relating to such matters.	13.648
Child Abuse and Neglect State Grants	Child Abuse Prevention and Treatment Act, P.L. 93-247 as amended; 42 U.S.C. 5102.	Sec. 3: For purposes of this Act the term *"child* abuse and neglect" means the physical or mental injury, sexual abuse or exploitation, negligent treatment or maltreatment of a *child under the age of 18 or the age specified by the child protection law of the State in question*, by a person who is responsible for the *child's* welfare under circumstances which indicate that the *child's* health or welfare is harmed or threatened thereby, as determined in accordance with regulations prescribed by the Secretary.	13.628
	42 U.S.C. 5103	Sec. 4(b)(1): The Secretary, through the Center, is authorized to make grants to the States for the purpose of assisting the States in developing, strengthening, and carrying out *child* abuse and neglect prevention and treatment programs.	
Social Service Block Grants	Title XX Block Grants to States for Social Services as amended, P.L. 97-35; 42 U.S.C. 1397 *et seq.*	Sec. 2001: Federal assistance to States for services directed at one of five goals. Goal (3) is that of "preventing or remedying neglect, abuse, or exploitation of *children* and *adults* unable to protect their own interests . . ."	
Head Start Program	Head Start Act of 1981 P.L. 97-35, 42 U.S.C. 9833, et seq.	Sec. 638: Federal financial assistance may be provided to eligible Head Start agencies "for the planning, conduct, administration, and evaluation of a Head-start program focused primarily upon *children* from low income families who *have not reached the age of compulsory school* attendance . . ." Sec. 649: Research, demonstration, and pilot project grants and contracts designed to test or assist in development of new approaches or methods to further purposes of the part.	
Runaway Youth Program	Title III of the Juvenile Justice and Delinquency Prevention Act, P.L. 93-415 as amended by P.L. 95-115; 42 U.S.C. 5701 *et seq.*	Sec. 311: The purpose of the Act is to develop local facilities to deal primarily with the immediate needs of runaway youth or otherwise homeless *youth*. . . . [Act also uses terms *"children" "juveniles"* and *"young people"* without specifying chronological age.]	
Title III Grants for Community State and Programs on Aging.	Title III of the Older Americans Act of 1965, P.L. 89-73 as amended 42 U.S.C. 3001 *et* [illegible]	Sec. 301-337: Grants to the States to develop greater capacity and foster the development of comprehensive and coordinated service systems to serve *older individuals*. Funding is provided for a broad variety of social services including long-term care, ombudsman program services, nutrition services and legal services; for multi-purpose senior centers; and for planning and administration. See Sections 307(a)(3)(B); 307(a)(11); 307(a)(13); 307(a)(15)(C) and (D).	13.633 13.635 13.639
Title VI Grants for Indian Tribes	Title VI of the Older Americans Act, P.L. 95-478 as amended by P.L. 97-115; 42 U.S.C. 3057.	Sec. 603: The Commissioner may make grants to eligible tribal organizations to pay all of the costs for delivery of social services and nutritional services for Indians who are *aged 60 and older*. See also: Sections 602(a)(1); and 604(a)(6), (7), (8) and (10).	
Title IV of the Older American Act P.L. 97-115 as amended.	42 U.S.C. 3035a P.L. 97-115	Sec. 422: Grants to support the development or operation of model projects to demonstrate methods to improve or expand supportive services or nutrition services or otherwise promote the well-being of *older individuals*.	
	41 U.S.C. 3035b	Sec. 423: Grants to "support the development of comprehensive coordinated systems of community long-term care for *older individuals*.	
	42 U.S.C. 3035c	Sec. 424 Grants and contracts to support legal research, technical assistance, etc. to organizations developing or providing pro bono or reduced fee legal services to *older individuals*, and for demonstration projects relating to delivery of legal services to individuals with social or economic need.	
	42 U.S.C. 3035d	Sec. 425 National impact demonstration grants or contracts directed to expanding services to or promoting the well-being of *older individuals*.	
	42 U.S.C. 3035e	Sec. 426 Grants for model programs relating to utility costs for *older people*.	
Developmental Disabilities Program	Part A of the Developmental Disabilities and Bill of Rights Act. P.L. 95-602 as amended 42 U.S.C. 6000 *et* [illegible]	Sec. 102(7) The term "developmental disability" means a severe, chronic disability of a person which—(A) is attributable to a mental or physical impairment . . . (B) is manifested before the person attains *age 22*; (C) is likely to continue indefinitely; (D) Results in substantial functional limitations in three or more areas of major life activity . . ."	13.630

Program	Statute	Section and age distinction	CFDA No.
Inpatient Psychiatric Facility Services	42 U.S.C. 1396d(h)(1)(C) and (h)(2)	Sec. 1905(a)(16) and (h)(1)(C) and (h)(2): Inpatient psychiatric facility services *for individuals under 21*; if provided (provided *until 22 if receiving services at 21*) See also § 1905(a)(13) and (18) Medicaid must also be provided to persons receiving Aid to Families With Dependent Children under Title IV–A of the Act (*under 18 or students under 21* (Sec. 406(a)(2)). A state may at its option provide Medicaid to medically needy who meet the age and other criteria of titles I, IV–A and XVI, but whose income or resources exceed the eligibility limits for those programs (Sec. 1905(a)(i)–(v) and (vii)) Sec. 1903(a)(1) and (b)(1)–Medicaid may not be provided for services to *individuals 65 or over* or disabled individuals who could have been enrolled in Medicare and had these services paid for under Medicare.	
MEDICARE			
Health Insurance for the Aged and Disabled	Title XVIII of, the Social Security Act, (Health Insurance for the Aged and Disabled), as amended.	Part A—Hospital Insurance Benefits for the Aged and Disabled.	13.773
	Title XVIII of the Social Security Act, P.L. 89–97; 42 U.S.C. 1395 *et seq.*	Sec. 1811. The insurance program for which entitlement is established by sections 226 and 226A provides basic protection against the costs protection against the costs of hospital, hospital, related post-hospital and home health services, in accordance with this part for (1) *individuals who are age 65 or over* and are eligible for retirement benefits under title II of this Act . . . or under the railroad retirement system, (2) *individuals under age 65* who have been entitled for not less than 24 months to benefits under title II of this Act . . . on the basis of a disability, and (3) certain individuals who do not meet the conditions specified in either clause (1) or (2) but who are medically determined to have end stage renal disease. See also: Section 1818(a)(1).
Hospital Insurance Benefits for the Aged and Disabled.	Title II of the Social Security Act, as amended, 42 U.S.C. 426.	Sec. 226 provides that: (a) Every individual who—(1) *has attained age 65*, and (2)(A) is entitled to monthly insurance benefits under section 202; (B) is a qualified railroad retirement beneficiary, or (C) [applies to certain Federal employees ,] shall be entitled to hospital insurance benefits under part A of Title XVIII . . . (b) Every individual who—(1) *has not attained age 65*, and (2)(A) is entitled to, and has for 24 calendar months been entitled to, (i) disability insurance benefits under section 223 or (ii) *child's* insurance benefits under section 202(d) by reason of a disability (as defined in section 223(d) or (iii) widow's insurance benefits under section 202(e) or widower's insurance benefits under section 202(f) by reason of a disability (as defined in section 223(d), or (B) is, and has been for not less than 24 months a disabled qualified railroad retirement beneficiary, within the meaning of section 7(d) of the Railroad Retirement Act of 1974, or (c) [applies to certain Federal employees], shall be entitled to hospital insurance benefits under Part A of Title XVIII for each month beginning with the later of (I) July 1973 or (II) the twenty-fifth month of his entitlement or status as a qualified railroad retirement beneficiary described in paragraph (2), and ending . . . with the month following the month in which notice of termination of such entitlement to benefits or status as a qualified railroad retirement beneficiary described in paragraph (2) is mailed to him, or if earlier, with the month before the month in which *he attains age 65* . . . (c) For purposes of subsection (a)(1) entitlement of an individual to hospital insurance benefits for a month shall consist of entitlement to have payments made under, and subject to limitations in Part A of Title XVIII on his behalf for inpatient hospital services, post-hospital extended care services, and home health services (as such terms are defined in Part C of Title XVIII) furnished him in the United States (or outside the United States in the case of inpatient hospital services furnished under the conditions described in section 1814(f)) during such month, . . . (e)(1) For purposes of determining entitlement to hospital insurance benefits under subsection (b) in the case of widows and widowers described in paragraph (2)(A)(iii) thereof— (A) the term *"age 60"* in sections 202(e)(1)(B)(ii), 202(e)(5), 202(f)(1)(B)(ii), and 202 (f)(6) shall be deemed to read *"age 65"*. (B) the phrase "before she attained *age 60"* in the matter following subparagraph (F) of section 202(e)(1) and the phrase "before he attained *age 60"* in the matter following subparagraph (F) of section 202(f)(1) shall each be deemed to read "based on a disability . . ." (2) For purposes of determining entitlement to hospital insurance benefits under subsection (b) in the case of an *individual under age 65* who is entitled to benefits under section 202, and who was entitled to widow's insurance benefits or widower's insurance benefits based on disability for the month before the first month in which such individual was so entitled to old-age insurance benefits (but ceased to be entitled to such widow's or widower's insurance benefits upon becoming entitled to such old-age insurance benefits), such individual shall be deemed to have continued to be entitled to such widow's insurance benefits or widower's insurance benefits for and after such first month. (3) For purposes of determining entitlement to hospital insurance benefits under subsection (b) *any disabled widow age 50 or older* who is entitled to mother's insurance benefits (and who would have been entitled to widow's insurance benefits by reason of disability if she had filed for such widow's benefits) shall, upon application, for such hospital insurance benefits be deemed to have filed for such widow's benefits and shall, upon furnishing proof of such disability prior to July 1, 1974, under such procedures as the Secretary may prescribe, be deemed to have been entitled to such widow's benefits as of the time she would have been entitled to such widow's benefits if she had filed a timely application therefor.	
Transitional Provision	Title I of the Social Security amendments of 1965, P.L. 89–97; 42 U.S.C. 426a.	Sec. 103. Transitional provision on eligibility of uninsured individuals for hospital insurance benefits-entitlement to benefits.	

AGE DISTINCTIONS IN STATUTES AFFECTING HHS—Continued

[Public Health Service, Office of Human Development Services, Health Care Financing Administration, and Social Security Administration]

Program	Statute	Section and age distinction	CFDA No.
		(a) Anyone who—(1) has *attained the age of 65*, (2)(A) attained such age before 1968, or (B) has not less than 3 quarters of coverage . . whenever acquired, for each calendar year elapsing after 1966 and before the year in which he attained such age, . . . shall (subject to the limitations in this section) be deemed, solely for purposes of section 426 of this title, to be entitled to monthly insurance benefits under such section 402 for each month,	
End Stage Renal Disease Entitlements Provisions	Title II of the Social Security Act, as amended, P.L. 95-292 as amended by 3278 of P.L. 97-248; 42 U.S.C. [426(1)] 426-1.	Sec. 226A. End stage renal disease program—Entitlement to benefits: (a) Notwithstanding any provision to the contrary in section 226 or title XVIII, every individual who—. (1)(A) is fully or currently insured (as such terms are defined in section 214 of this Act), or would be fully or currently insured if (i) his service as an employee (as defined in the Railroad Retirement Act of 1974) after December 31, 1936, were included in the term "employment" for purposes of this title, and (ii) [applies to certain Federal employees], described in subparagraph (A) or (B)(i); or (B) is entitled to monthly insurance benefits under this title, (ii) is entitled to an annuity under the Railroad Retirement Act of 1974, or (iii) [applies to certain Federal employees]; or (C) is the spouse or dependent *child* (as defined in regulations) of an individual . . . (2) is medically determined to have end stage renal disease; and (3) has filed an application for benefits under this section; shall, in accordance with the succeeding provisions of this section, be entitled to benefits under part A and eligible to enroll under part B of Title XVIII, subject to the deductible, premium, and coinsurance provisions of that title.	
Premium Hospital Insurance	42 U.S.C. 1395i-2	Sec. 1818. Hospital insurance benefits for uninsured individuals not otherwise eligible—Individuals eligible to enroll. (a) Every individual who—(1) *has attained the age of 65*, (2) is enrolled under part B of this title, (3) is a resident of the United States, * * * and (4) is not otherwise entitled to benefits under this part, shall be eligible to enroll in the insurance program established by this part.	
Medicare Part B Supplementary Medical Insurance Benefits for the Aged and Disabled.	Title XVIII of the Social Security Act P.L. 89-97; 42 U.S.C. 1395j *et seq.*	Sec. 1836. Every individual who * * * is entitled to hospital insurance benefits under part A or *has attained age 65* * * * *is eligible to enroll.* See also Sec. 1862(a)(3) as amended by P.L. 97-248 § 116.	
Social Security Administration (SSA)			
Aid to the Aged, Blind, or Disabled (AABD)	Title XVI of the Social Security Act, as amended, P.L. 87-543; 42 U.S.C. 1381, 42 U.S.C. 1385.	This title is presently in effect in Puerto Rico only Sec. 1601 now enables States to furnish financial assistance to needy individuals *who are 65 years of age or over*, are blind or *who are 18 years of age or over* and permanently and totally disabled. Section 1605 defines "aid to the aged, blind or disabled" as money payments to, or—medical care in behalf—of needy *individuals who are 65 years of age or older*, are blind, or *age 18 years of age or over* and permanently and totally disabled. This does not include an individual who is an inmate in a public institution (except as a patient in a medical institution) or an *individual under age 65* who is a patient in an institution for tuberculosis or mental diseases.	13.761
Aid to Families with Dependent Children (AFDC).	Title IV-A of the Social Security Act, as amended, P.L. 271; 42 U.S.C. 601 *et seq.*	Sec. 401—Encourages the care of dependent children in their own homes and in the homes of relatives by enabling each State to furnish financial assistance or rehabilitation and other services to needy dependent *children* and the parents or relatives with whom they are living. The term dependent *child* is defined in Section 406(a) as a needy *child* who has been deprived or parental support—and "who is (A) *under the age of 18* or (B) at the option of the State, under the age of 19 and a full-time student in a secondary school (or in the equivalent level of vocational or technical training), if, before he attains age 19, he may reasonably be expected to complete the program of such secondary school (or such training).	
Aid to the Permanently and Totally Disabled (APTD).	Title XIV of the Social Security Act, as amended, P.L. 87-543; 42 U.S.C. 1351, 42 U.S.C. 1355.	This title is presently in effect for Guam and the Virgin Islands only Sec. 1401—Enables States to furnish financial assistance to needy *individuals 18 years of age and older* who are permanently and totally disabled and encouraging each State to furnish rehabilitation and other service to help such individuals. Sec. 1405—defines "aid to the permanently and totally disabled" as money payments to or "medical care in behalf of, or any type or remedial care recognized under State law in behalf of, needy *individuals 18 years of age or older* who are permanently and totally disabled. . .".	13.761 13.802
Federal Old-Age Survivors, and Disability Insurance Benefits (OASDI).	Title II of the Social Security Act, as amended, P.L. 89-97; 42 U.S.C. 422.	Sec. 222(d)(1)—For the purpose of making vocational rehabilitation services more readily available to disabled individuals who are—. (A) entitled to disability insurance benefits, or (B) entitled to *child's* insurance benefits *after having attained age 18*, or (C) entitled to widow's insurance benefits *prior to attaining age 60*, or (D) entitled to widower's insurance benefits prior to attaining age 60, to the end that savings will result to the Trust Fund as a result of rehabilitating such individuals into substantial gainful activity, there are authorized to be transferred from the Trust Funds, sums to enable the Secretary to pay for reimbursement for the reasonable and necessary costs of rehabilitation services which result in such individuals performing substantial gainful activity for a continuous period of nine months.	
Old Age Assistance Program (OAA)	Title I of the Social Security Act, as amended P.L. 271; 42 U.S.C. 301.	This title is presently in effect in Guam and the Virgin Islands only Sec. 1—To enable States to furnish financial assistance to aged needy individuals. Old age assistance is defined in Section 6 as "money payments" or medical care to needy individuals who are *65 years of age or older*. This does not include an individual who is an inmate of a public institution (except as a patient in a medical institution).	13.761

AGE DISTINCTIONS IN STATUTES AFFECTING HHS—Continued

[Public Health Service, Office of Human Development Services, Health Care Financing Administration, and Social Security Administration]

Program	Statute	Section and age distinction	CFDA No.
Supplemental Security Income Program (SSI)	Title XVI of the Social Security Act, as amended P.L. 92-603; 42 U.S.C. 1382d.	Sec. 1615(a)—A blind or disabled person "*who has not attained age 65*" shall be referred for vocational rehabilitation service or in the case of blind or disabled children who *have "not attained age 16"* shall be referred to the State agency administering the State plan, which provides counseling for *disabled children*, service plans and prompt referral to appropriate medical, education and social services and to provide for *children age 6 and under* or who have never attended public school, who require preparation for public education, medical, social, developmental and rehabilitation services. "Effective October 1, 1982, pursuant to section 2193(c)(8) of Pub. L. 97-35, the Omnibus Budget Reconciliation Act of 1981, the age distinctions under the SSI program are as follows: Sec. 1615(a)—A blind or disabled person '*who has not attained age 65*' shall be referred for vocational rehabilitation service or in the case of blind or disabled children who have '*not attained age 16*' for a review not less often than quarterly of such person's disability or blindness and his need for and use of the vocational rehabilitation services".	13.807
Child Support and Establishment of Paternity	Title IV-D of the Social Security Act, as amended, P.L. 93-647; 42 U.S.C. 651.	Section 451—Authorizes the appropriation of funds for the purpose of enforcing the support obligations owed by absent parents to their *children*, and spouses or former spouses with whom the children are living locating absent parents, establishing paternity and obtaining *child* and spousal support. Section 452(a) authorizes the Secretary of HEW to establish a separate organizational unit under the direction of the Secretary's designee who shall establish such standards for State programs for locating absent parents, establishing paternity and obtaining *child* and spousal support as he determines to be necessary to assure that such program will be effective. Section 454(a) provides that a State plan for *child* and spousal support, in addition to other requirements must provide that such State will undertake (A) in the case of a *child* born out of wedlock with respect to whom an assignment under section 402(a)(26) of this title is effective, to establish the paternity of such child—, and (B) in the case of any *child* with respect to whom such assignment is effective, to secure support for such *child* from his parent—. Section 462 defines "child support", when used in reference to the legal obligations of an individual to provide such support to mean periodic payments of funds for the support and maintenance of a *child* or *children* with respect to which such individual has such an obligation and includes but is not limited to, payments to provide for health care, education, recreation, clothing, or to meet other specific needs of such a *child* or *children*. . . .

AGE DISTINCTIONS IN REGULATIONS AFFECTING HHS

[Public Health Service, Social Security Administration, Office of Human Development Services, and Health Care Financing Administration]

Program	Regulation	Section and age distinction	CFDA No.
Public Health Service, Food and Drug Administration			
Labeling of Drugs for Human Use	Labeling 21 CFR Part 201	Sec. 201.19 sets forth certain requirements concerning the use of the term "*infant*" in human drug labeling Sec. 201.57(f)(9) sets forth requirements concerning labeling for prescription drugs with pediatric indications. Sec. 201.308(c) sets forth a warning statement concerning *children* for the labeling of ipecac syrup. Sec. 201.314 contains age distinctions with respect to the labeling of drugs containing salicylates as follows: (a)—*children*, young children (c)—*child, children under 3* years of age (c)(3)—adults (d)—adults (e)(1)—*children, children under 3* years of age, *children greater than 3* years, *children down to age 6, younger children* (2)—*children under 3* years of age, *younger children*, adults (g)(1)—*children* Sec. 201.315 sets forth a warning statement concerning *children under 3* years of age for over-the-counter drugs for minor sore throats	
Prescription Drug Advertising	Prescription Drug Advertising, 21 CFR Part [redacted].	Sec. 202.1(e)(7)(x) *geriatric patients* are given as an example with respect to an advertisement promoting use of a drug in a selected class of patients.	
Special Requirements for Specific Human Drugs.	Special Requirements for Specific Human Drugs, 21 CFR Part 250.	Sec. 250.250(c)(3)(i) sets forth certain labeling requirements with respect to *infants*.	
Methadone	Drugs Used for Treatment of Narcotic Addicts, 21 CFR Part 291.	Sec. 291.505 discusses the use of methadone in the treatment of patients of various age groups as follows: (d)(3)(ii) and (iv) for patients *under the age of 18*.	
New Drugs	New Drugs, 21 CFR Part 310	Sec. 310.201 establishes conditions for exemption from prescription requirements for certain drugs. Makes numerous references to various age groups i.e., *adult, children 6–12 years, children 3–6 years, children under 12 years, children under 3 years, children under 6 years, children 6 years and over*. Sec. 310.500(e) labeling guidelines for the drug digoxin include directions for use for *newborn infants, infants 1 month–2 years, children 2–10 years, children over 10 years, and adults*.	
Drug Labeling	Interpretative Statements Re Warnings on Drugs and Devices for Over-the-Counter Sale, 21 CFR Part 369.	Sec. 369.20 sets forth recommended caution and warnings statements for the labeling of various drugs. Includes caution warnings concerning women of childbearing age, *children, children under 6 years of age, infants, children under 3 years of age*. Sec. 369.21 sets forth required caution and warning statements for the labeling of various drugs. Includes caution and warning statements concerning *children, children under 3 years of age, children under 12 years of age, children 6 years of age, children under 2 years of age*.	

AGE DISTINCTIONS IN REGULATIONS AFFECTING HHS—Continued

[Public Health Service, Social Security Administration, Office of Human Development Services, and Health Care Financing Administration]

Program	Regulation	Section and age distinction	CFDA No.
Radioactive Drugs	Prescription Drugs for Human Use Generally Recognized As Safe and Effective and Not Misbranded; Drugs Used in Research 21 CFR Part 361.	Sec. 361.1(b)(3)(i) establishes generally recognized as safe limits for the radiation dose to an *adult* research subject. Sec. 361.1(b)(3)(ii) established a maximum radiation dose for research subjects under 18 years of age. Sec. 361.1(c)(3) concerns certain reporting requirements for research involving research subjects under 18 years of age. Sec. 361.1(d)(5) sets forth certain requirements concerning the selection of human research subjects, those at least 18 years of age, those less than 18 years of age, *minors*, and females of childbearing age.	
OTC Drugs	Over-the-counter (OTC) Human Drugs Which are Generally Recognized as safe and Effective and Not Misbranded 21 CFR Part 330.	Sec. 330.1(g) requires a warning in the labeling to keep all drugs out of the reach of *children*.	
Medical Devices	Labeling 21 CFR Part 801	Sec. 801.403 sets forth recommended warnings and caution statements for specific medical devices with respect to *children* and the *elderly*. Sec. 801.420(c)(3) sets forth certain labeling requirements for hearing aids with respect to *children* who are prospective hearing aid users. Sec. 801.421 sets forth conditions for the waiver of the medical evaluation requirements for prospective haring aid users 18 years of age or older.	
Exemptions from Federal Preemption of State and Local Medical Device Requirements.	Exemptions for Specific States 21 CFR Part 808.	Sec. 808.71(a)(1) exempts Massachusetts General Laws, Chapter 93, Section 72, to the extent that it requires a hearing test evaluation for a *child* under the age of 18. Sec. 808.85(b) preempts Ohio Revised Code, section 4747.09, the last two sentences with respect to medical examination of *children*. Sec. 808.101(a) exempts District of Columbia Act 2–79, section 5, to the extent that it requires an audiological evaluation for *children* under the age of 18.	
Classification of Devices	21 CFR Parts 864–884	Classification regulations establish the regulatory controls necessary to assure the safety and effectiveness of medical devices. Certain of the devices are intended for persons of specific age groups, such as *infants*. Example: Sec. 880.5680 Pediatric position holder. The device is intended to hold an infant or a child in a desired position for therapeutic or diagnostic purposes, e.g., in a crib under a radiant warm.	
Childhood Lead-Based Paint Poisoning Program Control.	Grants for the Prevention of Lead-Based Paint Poisoning; 42 CFR Part 91.	Sec. 91.1 This regulation applies to programs for prevention, detection and treatment of incidents of lead-based paint poisoning among *children under 6 years of age*. Note: This program is now in the Maternal & Child Health Block Grant. FY '82 is the transition period.	13.266
Childhood Immunization	Grants for Disease Control, Subpart B	This grant program is directed toward the population susceptible to *childhood* diseases. A *childhood* immunization program is defined in the regulation as a disease control program to immunize *children* against vaccine preventable diseases including poliomyelitis, measles, mumps, rubella, diphtheria, pertussis, and tetanus.	13.268
Influenza Immunization	Grants for Influenza Immunization programs, Subpart E.	This grant program is directed toward programs to immunize persons in high-risk groups against influenza. The regulation defines high-risk groups to mean those groups of persons at highest risk of serious illness or death due to influenza and its complications, as specified in grant guidelines. [The grant guidelines for the program define the high-risk target population to include persons *age 6 months through 64 years* with certain medical disabilities (as specified by the Advisory Committee on Immunization Practices) and *all persons age 65 and over.*].	
Community Health Services	Grants for Community Health Services, 42 CFR Part 51c.	51c.102(e)(2)(4): Applicants for grants must provide an assessment of the need for services, taking into account, among other things, health indices for the population to be served, such as infant mortality rate, and demongraphic factors affecting the need and demand for services, such as percentage of the population *age 65 and over*. Sec. 51c.102(h) defines "Primary health services" to include: "(3) Preventive health services, including . . . *children's* eye and ear examination, prenatal and post partum care, prenatal services, well *child* care (including periodic screening) . . . ".	
Indian Health-Inpatient and Out-patient Care	Indian Health-Availability of Services, 42 CFR 36, Subpart B.	Sec. 36.11 uses the terms school *children* as an example of a special group receiving a preventive care service.	13.228
Maternal and Child Health and Crippled Children's Services.	Grants for Maternal and Child Health and Crippled Children's Services, Subpart A, 42 CFR Part 51a.	Sec. 51a.101 *et seq.* All of Subpart A is age-related toward services for *children* and women of child-bearing age. *Crippled children* is defined for program purposes as an individual *under the age of 21*. *Note:* Maternal & Child Block Grant. FY '82 is the transition period	13.211 (CC) and 13.232 (MCH)
Special Projects of Regional or National Significance.	Special Projects of Regional and National Significance, 42 CFR Part 51a, Subpart B.	Sec. 51a.201 *et seq.* Subpart B provides for demonstration of innovative methods of providing services to mothers and *children*.	13.211 13.232
Maternal and Child Health Research Projects	Subpart D Project Grants to Institutions of Higher Learning.	Sec. 51a.401 *et seq.* Subpart D provides for the administration of projects which contribute to the advancement of maternal and *child* health, the advancement of services for *crippled children*, or the training of personnel for health-care related services for mothers and *children* Note: Although included in the Maternal Child Health legislation, this program is part of the 15% Federal set aside program which remains categorical. The recent block grant rules removed all of Part 51a after Oct. 1, 1982. Subparts B & D should have been retained and steps are being taken by BCHS to get subparts B & D put back into effect.	13.233
Maternal and Child Health Research Projects	Research Projects Relating to Maternal and Child Health, 42 CFR Part 205.	Sec. 205.1(2) refers to the Section 512, Social Security Act, authorization for research projects relating to *maternal* and *child* health and *crippled children's* services. The other applicable portions of the regulations are designed to carry out the research activities for the improvement of maternal and *child* health.	11.231
Migrant Health Services	Grants for Migrant Health Services, 42 CFR Part 56, Subpart A.	Sec. 56.104(b)(4) (ii) and (iv) requires that applications for grants provide an assessment of the need for services, taking into account, among other things, health indices for the population to be served, such as *infant* mortality rate, and demographic factors affecting the need and demand for services, such as percentages of such population *age 65 and over*.

Referral and Services for Blind and Disabled Children Receiving Supplemental Security Income Benefits	Referral and Services for Blind and Disabled Children Receiving Supplemental Security Income Benefits, 42 CFR Part 51a Subpart C.	The regulations carry out the statutory requirement for provision of services for SSI recipients *under 16 years of age* who are referred to the State crippled children's agency or another State agency which administers programs for disabled *children*. The age-related requirements are provision of *all* services including treatment for *children age 6 or under* or who have never attended public school, and establishment of individual service plans, counseling, referral and monitoring services for *all* other *children* receiving SSI benefits who are *7 to 16 years of age*. Note: This is now part of the Maternal and Child Health Block Grant. FY '82 is the transition period.	13.807
Social Security Administration (SSA)			
Aid to the Aged, Blind or Disabled (AABD)	Coverage and conditions of eligibility in financial assistance programs 45 CFR Part 233 (cont.).	Sec. 233.60 Institutional status (a) Federal financial participation. (2) (ii) Federal financial participation under title XVI of the Social Security Act is not available in payments to or in behalf of any individual who *has not attained 65 years of age* and who is a patient in an institution for tuberculosis or mental diseases—	13.761
Aid to Families with Dependent Children (AFDC.		Sec. 233.90 Factors specific to AFDC. (b) Conditions for plan approval. (2) An otherwise eligible *child who is under the age of 18 years* may not be denied AFDC, regardless of whether he attends school or makes satisfactory grades. (3) A State may elect to include in its AFDC program *children age 18* who are full-time students in a secondary school, or in the equivalent level of vocational or technical training, and who may reasonably be expected to complete the program before reaching age 19.	
Aid to Families with Dependent Children (AFDC).	Coverage and conditions of eligibility in financial assistance programs 45 CFR Part 233 (cont.).	Sec. 233.120 Emergency assistance to needy families with children (b)(1) Federal financial participation is available for emergency assistance to or on behalf of a needy *child under the age of 21* and any other member of the household in which he is living if— (i) Such *child* is (or, within 6 months prior to the month in which such assistance is requested, has been) living with any of the relatives specified in section 406(a)(1) of the Act in a place of residence maintained by one or more of such relatives as his or their own home. (ii) Such *child* is without resources immediately accessible to meet his needs. (iii) The emergency assistance is necessary to avoid destitution of such *child* or to provide living arrangements for him in a home, and (iv) His destitution or need for living arrangements did not arise because he or such relative refused without good cause to accept employment or training for employment.	13.761
	The following list of regulation sections also use age or age-related terms. However, the terms refer to eligible individuals as defined, by age, as shown above. For example, 45 CFR 234.60 provides "protective payments for dependent children." These regulation sections do not contain conditions or requirements that relate to age except as age is defined above.	45 CFR Secs: 201.3, 201.14; 205.10; 205.25; 205.146, 206.10; 224.1; 224.20; 224.22; 232.2; 232.10; 232.11; 232.12; 232.20; 232.40; 232.42; 232.43; 232.49; 233.40; 233.100; 233.110; 234.60; 234.70; 234.120; 235.70; 237.50.	
Assistance Programs Office of Family Assistance.	Training and use of subprofessionals and volunteers—45 CFR Part 225.	Sec. 225.2 State plan requirements The State plan for financial assistance programs under titles I, IV–A, X, XIV, or XVI of the Social Security Act for Guam, Puerto Rico and the Virgin Islands or for child welfare under title IV (Part B) of the Act must (a) Provide for the training and effective use of subprofessional staff as community service aids through part-time or full-time employment of persons of low income and, where applicable, of recipients and for that purpose will provide for: (1) Such methods of recruitment and selection as will offer opportunity for full-time or part-time employment of persons of low income and little or no formal education, including employment of *young and middle aged adults, older persons,* and the physically and mentally disabled. . .	13.761
	Assistance to individuals 65 years of age or older in institutions for mental diseases—45 CFR Part 208.	Sec. 208.1(a) A State plan under titles I, XVI of the Social Security Act which includes assistance to or in behalf of individuals *age 65 years of age or older* who are patients in institution for mental diseases must provide for—(3) the development of alternate plans of care, making maximum utilization of available resources for recipient *65 years of age or older* who would otherwise need care in institutions, to meet their medical, social and financial needs.	13.761
Old Age Assistance Program (OAA)	Coverage and Conditions of Eligibility in Financial Assistance Programs—45 CFR Part 233 (cont.).	Sec. 233.10 General Provisions regarding coverage and eligibility The following is a summary statement regarding the groups for whom Federal financial participation is available. (More detailed information is given elsewhere.) (b)(2)(i) OAA—for needy individuals under the plan who are *65 years of age or older*	
Aid to Families with Dependent Children (AFDC).		(ii) AFDC—for: (a) Needy *children* under the plan who are: (1) *Under the age of 18*, or age 18 if a full-time student in a secondary school or in the equivalent level of vocational or technical training, and reasonably expected to complete the program before reaching age 19; (2) Deprived of parental support or care by reason of the death, continued absence from the home, or physical or mental incapacity of a parent, or unemployment of a father; and (3) Living in the home of a parent or of certain relatives specified in the Act, or in foster care under certain conditions. (b) The parent or other caretaker relative of a dependent *child* and, in certain situations, the parent's spouse.	
Aid to Blind (AB)		(iii) AB—for needy individuals under the plan who are blind	
Aid to the Permanently and Totally Disabled (APTD).		(iv) APTD—for needy individuals under the plan who are *18 years of age or older* and permanently and totally disabled.

Program	Regulation	Section and age distinction	CFDA No.
Aid to the Aged, Blind and Disabled (AABD)		(a) AABD—for needy individuals under the plan who are aged, blind, or *18 years of age or older* and permanently and totally disabled.	
Aid to the Aged, Blind and Disabled (AABD) (cont.).	Coverage and conditions of eligibility in financial assistance programs: 45 CFR part 233 (cont.).	Sec. 233.30 Age.	13.761
		(a) Condition for plan approval. A State plan under Title I or XVI of the Social Security Act may not impose any age requirement of *more than 65 years*.	
		(b) Federal financial participation.	
		(1) Federal financial participation is available in financial assistance provided to otherwise eligible persons who were, for any portion of the month for which assistance is paid:	
		(i) In OAA or AABD with respect to *the aged, 65 years of age or over;*	
		(ii) In AFDC, *under 18 years of age;* or age 18 if a full-time student in a secondary school, or in the equivalent level of vocational or technical training, and reasonably expected to complete the program before reaching age 19;	
		(iii) In AB or AABD with respect of the blind, any age;	
		(iv) In APTD or AABD with respect to the disabled, *18 years of age or older*	
		(2) Federal determination of whether an individual meets the age requirement of the Social Security Act will be made according to the common-law method (under which a specific age is attained the day before the anniversary of birth), unless the State plan specifies that the popular usage method (under which an age is attained on the anniversary of birth), is used.	
		(3) The State agency may adopt an arbitrary date such as July 1 as the point from which age will be computed in all instances where the month of an individual's birth is not available, but the year can be established.	
Child Support Enforcement Program	Office of Child Support Enforcement 45 CFR Parts 301, 302 and 305.	Sec. 302.17 The State plan shall provide a copy of State statutes or regulations . . . that provide procedures to be used in the determination of paternity of a *child* born out of wedlock and to establish the *child* support obligation of a responsible parent and to enforce such child support obligations.	
		302.31 The State plan shall provide that: (a) The (IV–D) agency will undertake:	
		(1) In the case of a *child* born out of wedlock with respect to whom an assignment under Sec. 232.11 is effective, to establish the paternity of the *child*; and.	
		(2) In the case of any *child* with respect to whom such assignment is effective, to secure support for such *child* from any person who is legally liable for such support . . .	
The cited section of the regulations refer to child support, child support obligations and child support enforcement but do not pertain to eligibility requirements for children or families with dependent children or otherwise of individuals.		301.1; 301.13; 301.15; 302.32; 302.34; 302.36; 302.37; 302.40; 302.51; 302.52; 302.70; 302.72; 304.20; 304.21; 304.22; 304.23; 304.24; 304.29; 305.0; 305.10; 305.24; 305.27; 305.28; 305.37; 305.50;.	
		Note: The Department is currently developing amending regulations to reflect changes in the Child Support Enforcement Program under the Omnibus Budget Reconciliation Act of 1981..	
Supplemental Security Income Program (SSI)	Supplemental Security Income for the Aged, Blind and Disabled 20 CFR Part 416.	Sec. 416.1710—Referrals. *Persons 16 years of age* or older under 65 years old and receiving supplemental security income (SSI) benefits, will be referred to the State agency providing vocational rehabilitation services. *Persons under age 16,* will be referred to an agency administering services under the State plan for crippled children's services.	13.807
Office of Human Development Services (OHDS)			
Title III of the Older Americans Act of 1965, as amended.	Basis and purpose of part	Sec. 1321.1 This part prescribes requirements State agencies must meet to receive grants to develop comprehensive and coordinated systems for the delivery of social and nutrition services under Title III. . . .	
Grants for State and Community Program on Aging.	45 CFR Part 1321		
	Staffing	Sec. 1321.17(c) *Preference.* Subject to merit system requirements, the State agency must give preference in hiring to persons *age 60 or older.*	
	Agency Responsibility: general	Sec. 1321.41(d) The State agency must represent the interests of *older persons* before legislative, executive and regulatory bodies in the State..	
	Long-term care ombudsman program	Sec. 1321.43(a) *General rule.* The State agency must establish and operate a statewide long-term care ombudsman program that meets the requirements of paragraphs (c) through (f) of this section. The State agency may operate the ombudsman program directly, or by contract or other arrangment, with any public agency or private nonprofit organization, except one that is.	
	Service delivery systems responsibilities; general.	Sec. 1321.45(a) The State agency must: . . . (5) Provide adequate and effective opportunities for *older persons* to express their views to the State agency on policy development and program implementation under the plan;.	
		(6) Give preference to *older persons* with the greatest economic or social need in the delivery of services under the State plan;	
		(13) Coordinate legal services for *older persons* in the State, give technical assistance, advice, and training in the provision of legal services to *older persons;* and make reasonable efforts to maintain existing levels of those services;	
		(16) Ensure that all *older persons* in the State have reasonably convenient access to information and referral services;	
	State advisory council	Sec. 1321.47(a) *Functions of the council.* [A State advisory council on aging must be established] . . . to advise and help the State agency to . . . (3) Represent the interests of *older persons.*	
	Intrastate funding formula	Sec. 1321.49(b) [An intrastate funding formula (developed for the allocation of funds to area agencies] must . . . (3) Reflect the proportion of *persons age 60 and over* among the planning and service areas in the State; and (4) Reflect the proportion . . . of *persons age 60 and over* in greatest economic or social need.	
	Designation of planning and service areas	Sec. 1321.53(c) *Factors to be used in designation.* In dividing the State into planning and service areas, the State agency must consider —(1) the distribution . . . of *persons age 60 and over* including those with the greatest economic need.

Program	Regulation	Section and age distinction	CFDA No.
	Interstate planning and service area	Sec. 1321.57(d) If the Commissioner approves the request for designation of an interstate planning and service area, the Commissioner reduces the allotment(s) of the State(s) without lead responsibility for administering programs within the area in proportion to the number of individuals age *age 60 and older* in the State(s) portion of the area, and adds the amount(s) to the allotment of the State with lead responsibility	
	Designation and function of area agencies	Sec. 1321.61(c) *Functions of area agencies.* The area agency must— (2) Serve as the advocate and focal point for *older persons* in the planning and [redacted]	
	Staffing	Sec. 1321.69(c) *Preference.* Subject to merit system requirements the area agency must give preference in hiring to *persons 60 or older*	
	Comprehensive and coordinated service delivery system.	Sec. 1321.75(a) The area plan must provide for the development of a comprehensive and coordinated service delivery system for social and nutrition services needed by *older persons* in the planning and service area in which the area agency enters into cooperative arrangements with other service planners and providers to— (1) Facilitate access to and utilization of all existing services; and (2) Develop social and nutrition services effectively and efficiently to meet the needs of *older persons.*	
	Content of area plan	Sec. 1321.77(b) *Area agency function requirements.* An area plan must provide that the area agency function requirements are met for . . . (7) Considering the views of *older persons* . . .; (10) Coordination with other Federal programs serving *older persons* . . (c) *Service delivery requirements.* An area plan must provide that the service delivery requirements are met for—(1) Giving preference to older persons with greatest economic or social need . . .; (3) All service providers concerning . . . advisory role for *older persons* . . . (e) *Information requirements.* The area plan must specify—(2) A resource allocation plan indicating the propsoed use of all funds for programs for *older persons* directly administered by the area agency; . . . (5) Proposed methods for giving preference to those with greatest economic social need . . . (i) Must include . . . consideration of *older persons* . . .; and (ii) May not include . . . a means test . . . (i.e.,) the use of an *older person's* income or resources to deny or limit that person's receipt of services	
	Advocacy responsibilities of the area agency	Sec. 1321.91 The area agency must—(b) Conduct public hearings on the needs of *older persons;* (c) Represent the interests of *older persons* to public officials, public and private agencies or organizations; . . . (e) Coordinate planning with other agencies and organizations to promote new or expanded benefits and opportunities for *older persons*	
	Area agency general planning and management responsibilities.	Sec. 1321.93. The area agency must—. . . (b) Assess the services needed by *older persons* . . . and the effectiveness of the use of resources in meeting these needs; . . . (g) give preference in the delivery of services . . . to *older persons* with the greatest economic or social need; . . . (i) Provide adequate and effective opportunities for *older persons* to express their views to the area agency on policy development and program implementation (j) Have outreach efforts to identify *older persons* and inform them of the availability of services under the plan . . .; (k) If possible, have arrangements with children's day care organizations so that *older persons* can volunteer to help provide day care; (l) If possible, have arrangements . . . to use the services provided *older individuals* under the community schools program	
	Designation of community focal points for service delivery.	Sec. 1321.95(b) *Procedures for designating community focal points for service delivery.* (1) [In designating and developing community focal point] . . . the area agency must consider—(i) Communities with the greatest incidence of *older persons* with the greatest economic or social need; (c) *Developing collocation of services.* The area agency must—(1) Establish guidelines for operating schedules at the focal point which are convenient for *older persons* in the community;	
	Area agency advisory council	Sec. 1321.97(a) *Functions of council.* [An advisory council must be established to] . . . advise the agency to . . . (3) Represent the interests of *older persons;* and (4) Review and comment on all community policies, and programs and actions which affect *older persons.* (b) *Composition of the Council.* The advisory council must be made up of—(1) More than 50 percent older persons and include— (i) *Older persons* with greatest economic or social need; . . (2) Representatives of *older persons* . . .	
	Outreach, training, and coordination requirements.	Sec. 1321.107. All service providers . . . must comply with procedures established by the area agency for—(a) Outreach activities to ensure participation of eligible *older persons;* (b) Training and use of *elderly* and other volunteers and paid [redacted] . . .	
	Preference for older persons with greatest economic or social need.	Sec. 1321.109. All service providers . . . must follow priorities . . . for serving *older persons* with greatest economic or social need . . .	
	Contributions for services under the area plan	Sec. 1321.111(a) *Opportunity to contribute.* Each service provider must—(1) Provide each *older person* with a free and voluntary oportunity to contribute to the cost of the service; (2) Protect the privacy of each *older person* with respect to his or her contribution; . . . (b) *Contribution schedules.* . . . In developing a contribution schedule the provider must consider the income ranges of *older persons* in the community and the provider's other sources of income. (c) *Failure to contribute.* A service provider that receives funds may not deny any *older person* a service because the *older person* will not or cannot contribute to the cost of the service. (d) *Contributions as program income.* Contributions made by *older persons* are considered program income.	
	Multipurpose senior centers	Sec. 1321.121(a) *Purpose of making awards.* The area agency may award social service funds under this part to a public or private non-profit agency for the following purposes—(1) Acquiring . . . a facility . . . for use as a multipurpose senior center; (2) Constructing a facility . . . for use as a multipurpose senior [redacted]	
	Health safety, and construction requirements.	Sec. 1321.123(b) *Life Safety.* . . . the State agency may require a recipient of any multipupose senior center award to—. . . (3) Have a plan for assuring the safety of *older persons* in a natural disaster or other safety threatening situations.	

AGE DISTINCTIONS IN REGULATIONS AFFECTING HHS

[Public Health Service, Social Security Administration, Office of Human Development Services, and Health Care Financing Administration]

Program	Regulation	Section and age distinction	CFDA No.
	Funding and use requirements	Sec. 1321.135(c) In a facility that is shared with other age groups, funds received . . . may support only—(1) That part . . . used by *older persons;* or (2) A proportionate share of the costs based on the extent of use of the facility by *older persons* . . .	
	Nutrition Services	Section 1321.141(a) *Purpose of making awards.* The area agency may award nutrition service funds received under this part to provide meals and other nutrition services, including outreach, and nutrition education, to *older persons* In making these awards the area agency must assure that congregate meals are provided and that home-delivered meals are provided based on an assessment of need by the area agency and nutrition service providers. (b) *Eligibility.* (1) *Congregate nutrition services.* A person age *60 or older,* and the spouse of the person regardless of age, are eligible to participate in congregate nutrition services . . . (2) *Home-delivered nutrition services.* A person *age 60 or over* who is homebound . . . is eligible to receive a home-delivered meal . . under this part must be in addition to any legal services being provided to *older persons* in the planning and service area.	
	Special requirements for nutrition services providers.	Sec. 1321.145(a) *Requirements for congregate providers.* Each congregate provider must—. . . (2) Locate congregate nutrition services as close as possible and, where feasible and appropriate, within walking distance, to the majority of eligible *older persons* . . . (b) *Requirements for home-delivered meals providers.* Each home-delivered meals provider must: . . . (3) With the consent of the *older person* bring to the attention of appropriate officials . . . conditions or circumstances which place the *older person* . . . in imminent danger.	
	Food requirements for all services providers	Sec. 1321.147(f)(2) *Food stamp program* . . . The nutrition services provider must coordinate its activities with agencies responsible for administering the food stamp program to facilitate participation of eligible *older persons* . . .	
	Legal Services	Sec. 1321.151(a) *Purpose of award.* The area agency must award social service funds under this part for legal services to *older persons* with economic or social needs. The purpose of awards under this section is to increase the availability of legal services with a priority on *older persons* with the greatest economic or social need in order to assist them to secure their rights, benefits and entitlements, and to assist them in achieving the objectives of the Act. Legal services provided with funds under this part must be in addition to any legal services being provided to older persons in the planning and service area.	
	Information and Referral Services	Sec. 1321.161(a) The area plan must provide for information and referral services sufficient to ensure that all *older persons* within the planning and service area have reasonably convenient access to the service. (b) In areas in which a significant number of *older persons* do not speak English as their principal language, the service provider must provide information and referral services in the language spoken by the *older persons.* (c) . . . A provider information and referral services must— (1) Maintain current information with respect to the opportunities and services available to *older persons;* (2) Develop current lists of *older persons* in need of services and opportunities; and (3) Employ a specially trained staff to inform *older persons* of the opportunities and services which are available and to assist *older persons* to take advantage of the opportunties and services. (d) An information and referral services provider may disclose information by name about an *older persons* only with the informed consent of the *older person* . . .	
	Allotments and grants to States	Sec. 1321.181(c) *Amounts allotted for social and nutrition services.* From the sums appropnated each fiscal year for social and nutrition services, each State is allotted an amount based on the ratio of its population age *60 and older* to the national population age *60 and older.* . .	
	Fifty percent	Sec. 1321.187(b) *Waiver.* The State agency . . . may waive the [fifty percent service] requirement . . . for any . . . service for which the area aging demonstrate . . . that the services provided from other sources meet the needs of *older persons.* . .	
	Obligation and reallotment	Sec. 1321.197(b) *Reallotment* . . . (2) If an Indian tribal organization receives a grant . . . the commissioner withholds a portion of the State's allotments for . . . services . . . based on the number of *older Indians.* . .	
Grants to Indian Tribes for Social and Nutritional Services.	Title VI of the Older Americans Act, 45 CFR Part 1328; basis and scope.	Section 1328.1 This part implements Title VI of the Older Americans Act, as amended, by establishing the requirements that an Indian tribal organization must meet in order to receive a grant to provide social and nutrition services to *older Indians,* and to acquire, alter, or renovate a facility for use as an Indian multipurpose senior center. This part also prescribes application and hearing requirements and procedures for these grants.	
	Definitions	Sec. 1328.3 "Older Indians" means a member of an Indian tribe who is *60 years of age or older.*	
	Tribal organization eligibility	Sec. 1328.7(a) A tribal organization is eligible to apply for a grant . . . If it . . . (2) Represents *75 or more older* who will receive services . . .; (3) Demonstrates its ability to deliver social and nutrition services to *older Indians* . . . (4) Assures that the *older Indians* it represents under its grant do not receive services under Title III of the [Older Americans] Act. . . (b) A tribal organization may represent *older Indians* from more than one tribe. (d) A tribal organization may not provide services funded under 45 CFR Part 1321 [Grants for State and Community Programs on Aging] to any *older Indian* represented by the tribal organization under this part.	
	Tribal organization responsibilities	Sec. 1328.9 A tribal organization, must—(a) Propose the geographic boundaries of its service area . . . *older Indians* in the service area may receive services only under this part . . . (e) Use a needs assessment to determine the kinds and levels of services needed by *older Indians* in the service area . . . (2) . . . If the tribal organization uses a needs assessment due for a State, region or area it must show how it decided the findings were applicable to the *older Indians.* (g) Provide for outreach efforts to identify *older Indians* and inform them of the availability of services. . .	

AGE DISTINCTIONS IN REGULATIONS AFFECTING HHS—Continued

[Public Health Service, Social Security Administration, Office of Human Development Services, and Health Care Financing Administration]

Program	Regulation	Section and age distinction	OPTM No.
	Tribal Organization Responsibilities (cont.)	Section 1328.9(h) A tribal organization, must coordinate, to the extent feasible, with other community agencies including area agencies on aging, in the service area, in planning and providing services to *older Indians* . . . (i) A tribal organization, must give preference, wherever feasible, to employing *older Indians* for full/and part-time staff positions to carry out activities under this part. (k) Provide each *older Indian* with a full and voluntary opportunity to contribute to the cost of the services . . . (l) Have procedures [subject to the requirements provided] to ensure [the confidentiality of] . . . information about an *older Indian* . . . (n) Represent the interests of *older Indians* . . . (q) Provide services under this part in a plain and uniform manner to all providers . . . (t) Ensure that all services . . . are provided without consideration of an *older Indian's* income and resources or ability to pay for services . . .	
	Advisory Council	Sec. 1328.11(b) The advisory council must be [established] and made up of more than 50 percent *older Indians* . . . (c) The tribal organization must use the advisory council in . . . (3) Providing advice and guidance on matters concerning the *older Indians* . . .	
	Contributors	Sec. 1328.13(a) *General rule.* A tribal organization must—(1) Provide each *older Indian* with a free and voluntary opportunity to contribute to the cost of the service; (2) protect the privacy of each *older Indian* with respect to his or her contributions . . . (b) *Contributions schedules.* A tribal organization may develop a suggested contribution schedule for services provided. . . . In developing a contribution schedule for services provided. In developing a contribution schedule the tribal organization must consider the income ranges of *older Indian* . . . (c) *Failure to contribute.* A service provider that receives funds may not deny any older Indian a service because the *older Indian* will not or cannot contribute to the cost of the service. (d) *Contributions as program income.* Contributions made by a *older Indian* are considered program income and are to be used for allowable costs of additional services . . .	
	Required and optional services	Sec. 1328.17(a) *Services that must be provided or provided for under this part.* A tribal organization that receives a grant . . . must . . . (2) Provide for information and referral services . . . If information and referral services are being provided from other sources . . . the tribal organization must demonstrate in its application that the needs of the *older Indians* in the service area are being met for that category of service. (b) *Other services that may be provided under a grant under this part.* The tribal organization may provide additional services necessary for the welfare of *older Indians* that ae designed to meet the unique social and nutrition needs of *older* [illegible]	
	Nutrition Services	Section 1328.21(a) *General rule.* The tribal organization must provide nutrition services to *older Indians* at home or in a congregate setting, and may provide nutrition services to the spouses of *older Indians.* (b) *Food requirements for all nutrition services.* The tribal organization must ensure that . . . (2) Menus are provided to meet the particular . . . needs of eligible *older Indians* . . . (3) Appropriate food containers and utensils are available for use by disabled *older Indians* upon request . . . (e) *Food Stamps.* Where applicable the tribal organization must work with agencies responsible for administering the Food Stamp Program to facilitate participation of eligible *older Indians*	
	Legal Services	Section 1328.23(a) *Purpose.* The tribal organization must provide legal services to *older Indians* with social or economic needs. The purpose of legal services under this part is to increase the availability of legal aid to *older Indians* with social or economic needs in order to assist them to secure their rights, benefits and entitlement, and to assist them in achieving the objectives of the Act. Legal Services provided with funds under this part must be in addition to, and not in substitution for, any other legal services provided to *older Indians* represented by the tribal organization, except that legal services which had been provided under Title III of the Act would not continue to be available to *older Indians* served under this part. (b) *Conditions legal service providers must meet* . . . (2) Unless the tribal organizations directly provides legal services, the tribal organization must award funds to the legal services provider(s) that most fully meet(s) the following standards. The legal services provider(s) must— (i) Have staff with expertise in specific areas of law affecting *older Indians* . . . (ii) Demonstrate the capacity to provide effective . . . representation in the areas of law affecting *older Indians* . . . (v) Have offices and/or outreach sites which are convenient and accessible to *older Indians* in the community and (vi) Demonstrate the capacity to obtain other resources to provide legal services to [illegible] (3) Each legal service provider must— (i) Make efforts to involve the private bar in legal services provided under this part, including groups within the private bar that furnish legal services to *older persons* on a pro bono and reduced fee basis . . . (c) *Case Priorities.* A legal service provider . . . may . . . set priorities for the categories of cases for which it will provide legal representation in order to concentrate on *older Indians* . . . (d) *Information about income and resources.* A legal services provider may not require an *older Indian* to disclose information about income or resources as a condition for providing legal services . . .	
	Information and Referral Services	Sec. 1328.25(a) The tribal organization must provide information and referral services so that *older Indians* have reasonably convenient access to those [illegible] (b) If a significant number of *older Indians* in the service area do not use English as their principal language, the tribal organization must provide for information and referral services in the language those individuals speak. (c) The tribal organization must establish or have a list of all services that are available to *older Indians* in the service area. (d) The tribal organization must provide assistance to *older Indians* to help them take advantage of the available service; and (e) The tribal organization must maintain a list of services needed or requested by the *older Indians.*	

AGE DISTINCTIONS IN REGULATIONS AFFECTING HHS—Continued

[Public Health Service, Social Security Administration, Office of Human Development Services, and Health Care Financing Administration]

Program	Regulation	Section and age distinction	CFDA No.
	Long-Term Care Ombudsman Services	Sec. 1328.27 (a) *General rule* . . . no tribal organization public agency, or private nonprofit organization may operate an ombudsman program if it is—(1) Responsible for licensing or certifying long-term care facilities or other residential facilities for *older persons;* (2) An association, or an affiliate or agent of an association, of long-term care facilities for *older persons* (b) *Appointing an ombudsman.* The tribal organization must assure that an individual is designated to serve as the long-term care ombudsman and that the following responsibility(ies) are delegated to the ombudsman: (1) Investigate and resolve complaints made by, or for, older *Indians* residing in the long-term care facilities about administrative actions that may adversely affect their health, safety, welfare or rights (3) Provide information to the tribal organization, and to the Commissioner on request, about problems of *older Indians* residing in long-term care facilities in the service area . . .	
	Health and Safety Requirements	Sec. 1328.25(b) *Life Safety* . . . the tribal organization may require a recipient of any multipurpose senior center award to (3) Have a plan for assuring the safety of *older persons* in a natural disaster or other safety threatening situations.	
	Surplus Educational Facilities from the Bureau of Indian Affairs.	Sec. 1328.37 If an eligible tribal organization applies for a grant under this part to renovate a surplus educational facility the Bureau of Indian Affairs (BIA) has made available for use as a center, the tribal organization (c) May renovate the center to become an extended care facility or a community center providing nutrition, social and child care services. If a center will be used for services other than services to *older Indians*, the tribal organization may use funds under this part only— (1) To alter that portion of the center used by *older Indians;* or (2) For a proportionate share of the alteration costs based on the extent of use of the facility by *older Indians.*	
	Preapplication Requirements	Sec. 1328.39(b) The tribal organization must include in the preapplication, information to demonstrate that it meets the eligibility requirements specified in § 1328.7. The preapplication must include (2) Documentation of the number of *older Indians* that the tribal organization represents . . . (3) Documentation of its ability to deliver social and nutrition services to *older Indians* . . . (4) An assurance from the tribal organization that it has methods and procedures to ensure that *older Indians* will not receive services under 45 CFR Part 1321 for the duration of the grant under this part.	
	Application Requirements	Sec. 1328.43(c) *Application assurances.* A tribal organization must provide satisfactory assurances in its application that it has methods and procedures to ensure that the older Indians served under the grant do not receive services under Part 1321 for the period of the grant	
	Prohibition on Consideration of Program Benefits as Personal Income.	Sec. 1328.51 Benefits derived from this program cannot be considered as part of an *older Indian's* income in qualifying for other Federal programs.	
Runaway Youth Program	45 CFR Part 1351—Significant terms	Sec. 1351.1 For purpose of this part: (f) "Homeless Youth" means a person *under 18 years of age* who is in need of services and without a place of shelter where he or she receives supervision and care. (1) "Runaway Youth" means *a person under 18 years of age* who absents himself or herself from home or place of legal residence without the permission of parents or legal guardian.	
	Purpose	Sec. 1351.10—"The purpose of the Runaway Program is to establish or strengthen existing or proposed community-based runaway *youth* projects to provide temporary shelter and care to runaway or otherwise homeless *youth* who are in need of temporary shelter, counseling, and aftercare services"	
	Criteria for funding Runaway Youth Programs	Sec. 1351.18. In reviewing applications HHS [considers] . a number of factors . . . : (b) the number of runaway or otherwise homeless *youth* in the area in which the . . . project is located; (c) The availability of services to *youth* in the area . . . ; (d) Plans for meeting the best interests of the *youth* . . . ; (e) Plans for the delivery of aftercare or counseling services to *youth* . . .	
	Additional information	Sec. 1351.19(b)(1) *Confidential information.* All information of individuals served by a runaway youth project shall be confidential and shall not be disclosed or transferred to any individual without written consent of the *youth* . . . (2) *Medical, psychiatric or psychological treatment.* No *youth* shall be subject to medical, psychiatric or psychological treatment without the consent of the *youth* . . .	
Child Abuse and Neglect Prevention and Treatment program.	45 CFR Part 1340, Purpose of the program	Sec. 1340.1-1 (a) The basic purpose of this program is to assist States and localities, and non-profit private organizations in carrying out their responsibilities for the protection of *children* and for the amelioration of their environment, particularly as an integral part of a family unit whose adult member(s) need help in coping with emotional or environmental stresses	13.628
	Definitions	Sec. 1340.1-2 For purposes of this part—. (b)(2) "Child" means a person *under the age of 18* . . .	
	Demonstrations	Sec. 1340.2-1(b) *Nature of demonstration programs and projects.* (1) Such demonstrations may include, but are not limited to efforts to provide additional or more effective ways of preventing, identifying or treating *child* abuse and neglect; testing the feasibility of providing services . . . ; innovative services or and methods . . . ; methods of coordinating (e) *Special criterion for selection-equitable distribution.* The formula . . . [must include] a minimum amount and an additional amount based on the number of *children under the age of eighteen* . . .	
	Technical assistance	Sec. 1340.2-2 Technical assistance . . . will be furnished by the National Center on Child Abuse and Neglect [for] . . . the prevention, identification and treatment of *child* abuse and neglect	
	Training materials	Sec. 1340.2-3 The National Center on Child Abuse and Neglect . . . will develop . . . and conduct training for personnel who . . . engage in the prevention, identification and treatment of child abuse and neglect.	
	Research	Sec. 1340.2-4 The National Center on Child Abuse and Neglect will conduct research into the causes of child abuse and neglect and into the prevention, identification, and treatment . . .	
	Purpose and eligible applicants	Sec. 1340.3-1(a) States that qualify . . . may receive grants to initiate or continue the support of programs which can be expected to assist the State in developing, strengthening, and carrying out child abuse and neglect prevention and treatment programs . . .	

AGE DISTINCTIONS IN REGULATIONS AFFECTING HHS—Continued

[Public Health Service, Social Security Administration, Office of Human Development Services, and Health Care Financing Administration]

Program	Regulation	Section and age distinction	CFDA No.
	Establishment of Compliance	Sec. 1240.3–2(b) Whichever State office, agency, or organization is designated by the Governor, may apply for financial assistance under section 4(b)(1) for the payment of reasonable and necessary expenses in developing, strengthening, and carrying out *child* abuse and neglect prevention and treatment programs. Such State office, agency, or organization need not be limited in its mandate or activities to *child* abuse and neglect. Such State office, agency, or organization designated by the Governor may enter into purchase agreements with other offices, agencies, or organizations (including Indian Tribal governments) to conduct activities under the grant. The application for such funds shall include a description of the activities presently conducted by the State and its political sub-divisions in relation to preventing and treating *child* abuse and neglect, the activities to be assisted under the grant, a statement of how the proposed activities are expected to develop, strengthen or carry out *child* abuse prevention and treatment programs . . .	
	Qualifications for Assistance	Sec. 1340.3–3(a) The Act enumerates ten elements of a comprehensive system to prevent and treat *child* abuse and neglect which a State must have in order to qualify for assistance under section 4(b)(1). The enactment of identical laws and procedures in the States is not necessary. Rather, as its purpose, the Act seeks to insure that all States receiving assistance under this subsection (in meeting the ten requirements) must provide what may be grouped into four fundamental *child* protective capabilities: (1) Detection through third party reporting of *children* in danger, including mandatory and permissive reporting of suspected *child* abuse and neglect; (2) *child* protective services to provide non-criminal investigations for the verification of reports, to provide immediate protection of *children* through such means as protective custody, and to provide rehabilitative and ameliorative services; (3) *juvenile* or family court action to remove a *child* or to impose treatment services; and (4) law enforcement investigations and criminal court prosecution, when appropriate. (b) . . . it is not necessary for States to adopt language for the definition of "child abuse and neglect" identical to that used in the Act . . . (d) . . . the State shall satisfy . . . the following . . .: (1) The State must have in effect a child abuse and neglect law . . . (2) The State must provide for the reporting of known or suspected instances of child abuse and neglect . . . (3)(i) A State must provide . . . an appropriate investigation . . . (ii) that upon a finding of abuse or neglect, immediate steps . . . be taken to protect the health and welfare of the . . . *child* . . .	
	Approval of applications, plan amendments, and funds.	Sec. 1340.3–5(a) The Secretary shall approve an application for funds . . . if he finds . . . (2) that the funds are intended to be used to develop, strengthen, or carry out *child* abuse or neglect prevention or treatment programs. (b) The Secretary shall approve the initial or continued use of funds for . . . projects related to *child* abuse and neglect . . .	
Head Start Program	Program performance standards for operation of Head Start Programs by grantees and Delegate Agencies.	Sec. 1304.1–3(a) The Head Start Program is based on the premise that all *children* share certain needs, and that children of low income families, in particular, can benefit from a comprehensive developmental program to meet those . . .	13.600
	45 CFR Part 1304, Head Start programs goals.	(b) The overall goal of the Head Start Program is to bring about a greater degree of social competence in *children* of low income families. By social competence is meant the *child's* everday effectiveness in dealing with both present environment and later responsibilities in school and life. Social competence takes into account the interrelatedness of cognitive and intellectual development, physical and mental health nutritional needs and other factors that enable a *child* to function optimally. The Head Start Program is a comprehensive developmental approach to helping children achieve social competence.	
	Eligibility Requirements and Limitations for Enrollment in Head Start, 45 CFR Part 1305 Age eligibility of children.	Sec. 1305.3 Unless the Headstart agency's approved grant provides otherwise, only those children *between three years of age and the age of compulsory school attendance* are eligible to enroll and participate in the Head Start program.	
Child Welfare Services State Grants	Service Programs for Families and Children: Title IV, Parts A and B of the Social Security Act, 45 CFR Part 1392 Child Welfare Services.	Sec. 1392.2(a) There must be a single unit, within the single State agency, at the State level and also at the local level to provide or supervise all services to families and *children* . . .	
	Use of subprofessional personnel	Sec. 1392.6(b) The State plan must also include: . . . (4) Annual progression in the utilization of increasing numbers of subprofessional staff in achieving the service goals for families and children.	
	Use of volunteers	Sec. 1392.7(a) . . . provisions must be made for the training and effective use of nonpaid or partially paid volunteers representing various *age* groups . . .	
Medicaid	Eligibility in the States and District of Columbia . . . 42 CFR Part 435; Definitions.	Sec. 435.4 . . . "Categorically needy" means aged, blind or disabled individuals or families and *children* (1) who are otherwise eligible for medicaid and who meet the financial eligibility requirements for AFDC SSI, or an optional State supplement . . .; or (2) Whose categorical eligibility is protected by statute . . . "Families and children" refers to eligible members of families with *children* who are financially eligible under AFDC or medically needy rules and who are deprived of parental support and care as defined under the AFDC program (see 45 CFR 233.90, 233.100). In addition, this group includes individuals *under age 21* who are not deprived of parental support or care but are financially eligible under AFDC rules or medically needy rules (see optional coverage group, (435.222). It does not include individuals *under age 21* whose eligibility for medicaid is based on blindness or disability—for these individuals, SSI rules govern;	
Health Care Financing Administration (HCFA)			
	Children for whom adoption or foster care maintenance payments are made.	Sec. 435.118 The agency must provide medicaid to *children* for whom adoption assistance or foster care maintenance payments are made . . . Sec. 435.222 Individuals under age 21 who would be eligible for AFDC but do not qualify as dependent *children* (a) The agency may provide Medicaid to individuals *under age 21* (or, at State option, *under age 20, 19 or 18*) who would be eligible for AFDC if they met the definition of dependent *child*. (See 45 CFR 233.90(c)(1).) (b) The agency may cover all individuals described in paragraph (a) of this section or reasonable classifications of those individuals (such as the following:)	

AGE DISTINCTIONS IN STATUTES AFFECTING HHS—Continued

[Public Health Service, Office of Human Development Services, Health Care Financing Administration, and Social Security Administration]

Program	Statute	Section and age distinction	CFDA No
		(1) Individuals [*under age 21*] in foster homes or private institutions for whom a public agency is assuming a full or partial financial responsibility. If the agency covers these individuals, it may also provide Medicaid to individuals [*under age 21*] placed in foster homes or private institutions by private nonprofit agencies (2) Individuals [*under age 21*] in adoptions subsidized in full or in part by a public agency (3) Individuals [*under age 21*] in intermediate care facilities, if intermeidate care facility services are provided under the plan. If the agency covers these individuals, it may also provide medicaid to individuals in intermediate care facilities for the mentally retarded (4) Individuals [*under age 21*] receiving active treatment as inpatients in psychiatric facilities or programs, if inpatient psychiatric services for individuals [*under 21*] are provided under the plan	
		DEPENDENCE	
	Categorical Requirements for Eligibility 42 CFR Part 435.	Sec. 435.510 Determination of dependency. For families with dependent [*childen*] who are not receiving AFDC, the agency must use the definitions and procedures set forth under the State's AFDC plan to determine whether—. (a) an individual [*under age 21*] is a dependent child because he is deprived of parental support or care; and (b) An individual is an eligible member of a family with dependent children	
		AGE	
		Sec. 435.520 Age requirements for [*the age*] and [*children*] (a) The agency must not impose— (1) An age requirement of [*more than 65 years*]; (2) An age requirement that excludes an individual [*under age 19*] who would be eligible for AFDC if he met AFDC age or school attendance requirements; or (3) A lower age requirement than that under the State's AFDC plan. (b) In determining age, the agency must use the common-law method (under which an age is reached the day before the anniversary of birth), except— (1) For families and children, the agency must use the popular usage method (under which an age is reached on the anniversary of birth), if this method is used under the State's AFDC plan; and (2) For *aged* blind, or disabled individuals, the agency may use the popular usage method, if the plan provides under (435.121, for coverage of *aged*, blind, or disabled individuals who meet more restrictive eligibility requirements than those under SSI. (c) The agency may use an arbitrary date, such as July 1, for determining an individual's age if the year, but not the month, of his birth is known. Medicare—Health Insurance for the Aged and Disabled.	Federal Health Insurance for the Aged and Disabled, 42 CFR Part 405.	Subpart A—Hospital Insurance Benefits Sec. 405.101 Hospital insurance benefits; general (a) An individual who meets the conditions for entitlement to hospital insurance benefits provided under Part A of Title XVIII of the Act is eligible to have payment made on his behalf, or to him directly (for certain hospital services) subject to the conditions and limitations set out in this Part 405 and in the Act for: (1) Inpatient hospital services, post hospital extended care services, and post hospital home health services furnished to him during any month for which he meets such conditions for entitlement to hospital insurance benefits; (b) Except where payment may be made to the individual for certain hospital services (see §§ 405.156 and 405.157), payment for the services covered under the hospital insurance benefits program is made to the institution or agency eligible to receive payment rather than to the individual to whom the services are furnished. Sec. 405.102 Hospital insurance benefits for *individuals age 65 or over* (a) Conditions of entitlement. An individual is entitled to hospital insurance benefits under the provisions described in this Subpart A *if such individual has attained age 65* and (1) Is entitled to monthly insurance benefits under section 202 of the Social Security Act as described in Subpart D of Part 404 of this chapter; or (2) Is a "qualified railroad retirement beneficiary" as described in paragraph (b) of this section; or (3) Is deemed entitled to monthly insurance benefits under section 202 of the Social Security Act solely for purposes of entitlement to hospital insurance benefits, by meeting the requirements prescribed in § 405.103. Sec. 405.103 Transitional provisions for entitlement of *aged* uninsured individuals to hospital insurance benefits. (a) Requirements. Unless excluded under the provisions of paragraph (b) of this section, an individual *age 65 or over* will be deemed entitled to monthly insurance benefits under section 202 of the Social Security Act, solely for purposes of entitlement to hospital insurance benefits (see § 405.102(a)(3)), if such individual (1)(i) *Attained age 65 before 1968,* or (ii) *Attained age 65 after 1967* and has not less than three quarters of coverage (as defined in Subpart B of Part 404 of this chapter or in section 5(k)(1) of the Railroad Retirement Act of 1937), whenever acquired for each calendar year after 1966 and before the year he attained age 65; (2) Is not entitled to hospital insurance benefits as provided in § 405.102(a)(1) and would not be entitled to such benefits upon filing an application for monthly insurance benefits under section 202 of the Social Security Act; . . . Sec. 405.104 Entitlement to hospital insurance benefits based on end-stage renal disease. (b) Definitions. "Dependent *child*" means a person who, on the first day he has end-stage renal disease, is unmarried and meets the dependency requirements for entitlement to *child's* social security benefits on the basis of a parent's earnings (see 20 CFR 404.323–404.327(a) and: (1) Is *under age 22;* or (2) Is under a disability that began *before age 22;* or (3) Is under age 26, is receiving at least one-half support from that parent, and has continuously received at least one-half support from that parent since the day before attaining *age 22.* (c) Conditions of entitlement. An individual is entitled to Medicare, part A benefits based on end-stage renal disease if he is medically determined to have that disease and meets the following conditions: He is: (iii) The spouse or dependent child or a person who meets the requirements of paragraph (c)(1)(i) or (c)(1)(ii) of this section. Sec. 405.105 Hospital insurance entitlement based on entitlement to disability insurance benefits. (a) Conditions of entitlement— (1) General. An individual is entitled to hospital insurance benefits described in this Subpart A if such individual: (i) *Has not attained age 65* and is entitled, and has for the 24 preceding consecutive calendar months been entitled, to— (A) Disability insurance benefits under section 223 of the Social Security Act (see 20 CFR § 404.305 of this chapter), or (B) Child's insurance benefits under section 202(d) of the Social Security Act by reason of disability (see 20 CFR § 404.320(a)(4)(iii) of this chapter), or (C) Widow's insurance benefits under section 202(e) of the Social Security Act by reason of disability (see 20 CFR § 404.328(a)(3)(ii) of this chapter and paragraph (a)(2), (4) and (5) of this section), or (D) Widower's insurance benefits under section 202(f) of the Social Security Act by reason of disability (see 20 CFR § 404.331(a)(3)(ii) of this chapter and paragraphs (a)(3) and (4) of this section); or (ii) *Has not attained age 65* and is, and has for the immediately preceding 24 consecutive calendar months been, a disabled qualified railroad retirement beneficiary under section 7(d) of the Railroad Retirement Act of 1974. (2) Modification of age requirement for widow's insurance benefits. For purposes of determining entitlement to hospital insurance benefits under paragraph (a)(1)(i)(C) of this section 20 CFR 404.328(a)(3)(ii) and 404.328(e) are modified by *substituting "age 65" where "age 60"* appears therein.

Part III

Department of Labor

Mine Safety and Health Administration

Safety Standards for Fire Prevention and Control

DEPARTMENT OF LABOR

Mine Safety and Health Administration

30 CFR Parts 55, 56, and 57

Safety Standards for Fire Prevention and Control

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice of availability of preproposal drafts.

SUMMARY: The Mine Safety and Health Administration (MSHA) has developed a preproposal draft of revisions to current fire prevention and control standards for the metal and nonmetal mining industry. MSHA seeks comment from all interested parties on the preproposal draft. Copies of the draft may be obtained by contacting the Agency.

DATES: Comments must be received on or before February 28, 1983.

ADDRESSES: Send comments to the Office of Standards, Regulations and Variances; MSHA; Room 631, Ballston Towers #3; 4015 Wilson Boulevard, Arlington, Virginia 22203.

FOR FURTHER INFORMATION CONTACT: Patricia W. Silvey, Acting Director, Office of Standards, Regulations and Variances, MSHA, (703) 235–1910.

SUPPLEMENTARY INFORMATION: On March 25, 1980, MSHA published an Advance Notice of Proposed Rulemaking (ANPRM) in the **Federal Register** (45 FR 19267) announcing its comprehensive review of existing metal and nonmetal mine safety and health standards in 30 CFR Parts 55, 56, and 57. The Agency is reviewing the standards to eliminate duplicative and unnecessary standards, provide alternative methods of compliance, reduce recordkeeping requirements, and upgrade provisions consistent with advances in mining technology. MSHA believes that this review will result in more effective regulations for assuring the safety and health of miners. The review is consistent with the specific goals of Executive Order 12291, the Regulatory Flexibility Act, and the Paperwork Reduction Act.

On November 20, 1981, MSHA published a subsequent ANPRM in the **Federal Register** (45 FR 57253) listing eight sections the Agency had selected for priority review. Standards related to fire prevention and control were included in the priority group.

On March 9, 1982, MSHA published a notice in the **Federal Register** announcing public conferences to discuss issues related to the standards under priority review. The Section 4 conferences were concluded in April 1982. During the conferences many commenters requested that the Agency make available a preproposal draft of the standards under review before issuing a proposed rule.

MSHA has now completed development of the preproposal draft for Section .4. In addition to revising the substance of the existing standards, the Agency has reorganized Parts 55, 56 and 57 into a single Part 58. This reorganization would eliminate the current repetition of identical standards in the Code of Federal Regulations. The revised standards are designated general, surface, and underground so that they would apply only to the appropriate mining application.

The Agency requests comment on the substance of the preproposal standards, as well as on the reorganization of the standards. In addition, the Agency is interested in any economic data or other regulatory impact information commenters may wish to submit.

A copy of the preproposal draft has been mailed to persons and organizations known to be interested. All other interested persons and organizations may obtain a copy of the draft by submitting a request to the address provided above. The document contains the Agency's intended revisions, a comparison with existing provisions, and a summary explanation of the proposed changes.

Dated: December 21, 1982.

Thomas J. Shepich,

Deputy Assistant Secretary for Mine Safety and Health.

Part IV

Department of Health and Human Services

Food and Drug Administration

Labeling for Salicylate-Containing Drug Products; Advance Notice of Proposed Rulemaking

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 201

[Docket No. 82N-0158]

Labeling for Salicylate-Containing Drug Products

AGENCY: Food and Drug Administration.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Food and and Drug Administration (FDA) is considering proposing to require certain over-the-counter (OTC) and prescription saliciylate-containing drug products for human use to bear a warning against the use of the products for the treatment of flu or chickenpox in children or adolescents under 16 years of age, because salicylates may be associated with the development of Reye syndrome (RS) in this age group. This advance notice describes the recent studies reporting an association between salicylate use and the development of RS and discusses various criticisms of these studies. This advance notice also discusses specific warning statements under consideration by the agency. FDA is publishing this advance notice so that the agency will have the benefit of a broad range of views early in the rulemaking process, and so that all interested persons will have an opportunity to express their opinions.

DATE: Comments by February 28, 1983.

ADDRESS: Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Paul O. Fehnel, Jr., National Center for Drugs and Biologics (HFN-7), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-6490.

SUPPLEMENTARY INFORMATION: FDA is considering whether to propose a rule that would require, among other things, that the labeling of certain salicylate-containing OTC and prescription drug products for human use bear a warning that salicylates should not be used in persons under 16 years of age with flu or chickenpox. FDA is considering this action because of recent studies reporting that the use of salicylates to treat these conditions is associated with the development of RS. The products under consideration for bearing a warning are: (1) systemically absorbed OTC salicylate-containing drug products for human use that are administered orally or rectally; and (2) systemically absorbed prescription salicylate-containing drug products for human use that are administered orally, rectally, or parenterally. The agency invites comments on any matter relevant to the proposed rulemaking being considered.

I. Background

A. *Reye syndrome.* RS is a disease of unknown cause that is characterized by severe vomiting and irritability or lethargy which may progress to delirium and coma. The illness is described clincially as having an acute onset in which the initial symptom is usually vomiting, which may be profuse and persistent, and which is often accompanied by a change in mental status. The Centers for Disease Control (CDC) has established an epidemiologic case definition for establishing the diagnosis of RS (Ref. 1). In addition, for purposes of management and study, a system of classifying the symptoms of RS into stages has been developed. The stages are zero to V, with V exhibiting the most severe symptoms.

The disease is classically described as occurring in a child or adolescent during the course of or while recovering from a mild respiratory tract infection, influenza, chickenpox, or other viral illness (Refs. 2, 3, and 46). (The illness occurring before RS may be referred to as the antecedent illness.) Influenza and chickenpox are the most commonly associated viral illnesses. The estimated incidence of RS is 0.37 to 4.7 per 100,000 persons under 18 years of age (Ref. 2), but its incidence may be 30 to 60 per 100,000 persons under 18 years of age (Ref. 2), but its incidence may be 30 to 60 per 100,000 in children of that age who have contracted influenza B (Ref. 3). CDC estimates that RS affects 600 to 1,200 children in the United States each year. A careful analysis of RS cases indicates that it is primarily observed in children between 6 months and 15 years of age (Ref. 3). The age distribution of the disease appears to depend on the type of the antecedent illness. Chickenpox-associated RS is found mainly in the 5- to 9-year age group; influenza B-associated RS is seen mainly in the 10- to 14-year age group (Ref. 3).

The mortality rate is high. In the past several years, the case fatality rate reported to CDC has been between 20 and 30 percent (Refs. 1 and 21). Permanent brain damage occurs in many other cases (Ref. 2).

RS was first described by the pathologist Douglas Reye of Australia in 1963 (Ref. 4). Subsequently, there has been substantial interest in monitoring the occurence of the disease and in attempting to identify causative factors. CDC first initiated nationwide surveilliance for the disease in December 1973, in an effort to monitor its incidence during an anticipated epidemic of influenza. In December 1976, CDC and State health departments again intensified surveillance, and have been continuously maintaining surveillance since that time. Since 1976, between 200 and 500 patients per year meeting the CDC case definition have been reported to that agency. As in most disease surveillance systems, reported cases are recognized to represent only a fraction of the actual total, but increases in the number of reported cases have been observed during years of major influenza B and influenza A activity in 1977, 1979, and 1980.

Due in part to the rapid onset of RS, it has been suggested that a toxic agent interacting with the viral infection may be a causative factor in the production of the disease. Suspected agents have included environmental toxins and common medications. In its November-December 1976 *Drug Bulletin,* FDA reported a recommendation of its Neurologic Drugs Advisory Committee against the use of antiemetics, aspirin, and acetaminophen in children whose signs and symptoms indicate RS (Refs. 5 and 6).

A number of investigators have suggested the possiblility that RS may be associated with salicylates. In 1962, before Reye's initial report, Mortimer reported on four cases of fatal varicella (chickenpox) infections associated with hypoglycemia. Mortimer postulated that salicylates may have caused the hypoglycemia and the subsequent unexpected severe illnesss (Ref. 7).

In 1964, Utian reported 14 cases of what appeared to by RS and considered salicylate intoxication as a possible cause of the illness in these children (Ref. 8). In 1965, Giles suggested that a direct association existed between RS and salicylates and that in RS patients an enzyme system involving carbohydrate metabolism might by hypersensitive to salicylate (Ref. 9). In 1968, Norman reported a case of biopsy-confirmed RS associated with isolation of influenza B from the liver (Ref. 10). This patient was on long-term salicylate therapy for juvenile arthritis.

In the 1970's, several authors discussed the distinction between RS and acute salicylate intoxication. Evidence to suggest that RS and salicylism (salicylate intoxication) may be biochemically distinct was reported by Hilty in 1974 and updated in 1981 by Romshe and Hilty (Refs. 11 and 12). Hilty suggested that RS can be

distinguished from salicylism and other causes of hepatic damage by quantitative analysis of serum amino acids.

Several descriptive studies and two case-control studies examining medication histories of patients with RS were published in the 1970's. Among the studies that reported detailed information on aspirin use, the aspirin use ranged from 53 to 100 percent. The highest rates were reported in studies where information was more likely to be complete. For example, studies involving extensive home interviews found a higher prevalence of salicylate use amont RS patients. Aspirin was the only medication received by all RS patients interviewed by Reynolds, but because the doses were not considered to be excessive, the association was not emphasized (Ref. 13). In 1975, Linneman reported a history of aspirin use in 94.6 percent of 56 RS cases with known medication histories (Ref. 14).

Corey reviewed national surveillance data collected from 1973–1974 by CDC (Ref. 15). Data collection for aspirin use was based primarily on reviews on national surveillance forms supplemented in 16 percent of cases by personal communications with health personnel. In the subset of patients for whom medication history was available, 78 percent reported using aspirin. Corey expressed reservations about accuracy of the medication histories obtained through this system, noting that many patients may have erroneously reported not using aspirin.

Two case-control studies published before 1980, one conducted by Ruben (Ref. 16) and the other conducted by Corey (Ref. 17), compared medication histories of RS patients and controls. In both studies, however, interviews too place many months after the occurrence of RS, and controls were not matched for a history of illness temporally and clinically similar to cases. Medication questions, therefore, were not limited to those medications taken for the illness preceding RS in patients, or for the comparable illness in controls. Starko and colleagues (Ref. 18) were the first investigators to conduct such a study. This study is discussed below.

B. *Studies reporting an associaton between salicylates and RS.* For several years, CDC has been involved in investigations of RS. Within the past few years, four case-control studies have been conducted by the Arizona, Ohio, and Michigan State Health Departments in cooperation with CDC. The reports of these studies indicated as an association between RS and the ingestion of salicylates (e.g., aspirin) during the antecedent illness. On the basis of its review of the first three studies (Arizona, Ohio, and first Michigan study), CDC published a recommendation in the *Morbidity and Morality Weekly Report* on November 7, 1980 (Ref. 19) that "parents should be advised to use caution when administering salicylates to treat children with viral illness, particularly chickenpox and influenza-like illnesses."

A consensus development conference was held at the National Institutes of Health (NIH) in March 1981 to address diagnostic criteria and treatment of RS. Because the conference had not been called to review the first three State studies that had been recently completed at the time of the conference, data from the studies were not presented but were discussed by several participants. The conference report stated that the studies discussed at the conference indicate "an increase in the estimated relative risk of Reye's syndrome, which does not appear to be due to chance" (Ref. 46). The conference report advised that "caution in the use of salicylates in children with influenza and those with varicella is prudent." However, the report also pointed out that "certain similarities between salicylism and Reye's syndrome and those studies reporting an association between Reye's syndrome and salicylate ingestion indicate a need for further carefully designed studies before recommending changes in antipyretic therapy in children" (Reg. 46).

In November 1981, CDC convened a group of outside consultants to review the four State studies. The consultants concluded that there is "strong epidemiologic evidence for an association between the occurrence of Reye syndrome and the prior ingestion of salicylate containing medication" (Ref. 20). The consultants recommended that "until the nature of the association between salicylates and Reye syndrome is clarified, the use of salicylates should be avoided, when possible, for children with varicella infections and during presumed influenza outbreaks" (Id.). In the *Morbidity and Mortality Weekly Report* of February 12, 1982 (Ref. 21), CDC reported that the studies indicated an association between salicylates and RS and stated that "until definitive information is available, CDC advises physicians and parents of the possibility of increased risk of Reye syndrome associated with the use of salicylates for children with chickenpox or influenza-like illness."

C. *FDA review of the four State studies.* In response to the reported association between salicylates and RS, FDA formed a working group composed of members of the agency to review the available data to determine the quality and strength of the association. Despite the apparent association between salicylates and RS reported by the four State studies, the working group recognized that the studies required careful evaluation both because of the inherent limitations of case-control methodology and because of questions raised by earlier reviews of the studies. Case-control studies attempt retrospectively to assess the relationship of an existing disease or disorder to other variables or attributes, such as exposure to medications. After the initial identification of cases, that is, persons with the disease under investigation, a suitable control group of persons without the disease is identified for comparison purposes. The relationship of an attribute to the disease under investigation is examined by comparing the case group and the control group to determine how frequently the attribute is present in each group. Thus, in the RS studies, the investigators attempted to match reported cases of RS with control subjects who appeared to match the case subjects as closely as possible except for the development of RS.

The FDA working group recognized that an adequate evaluation of the four State studies would require consideration of the design and execution of the studies, including such questions as: (1) Potential differences in the type and severity of antecedent viral illness in cases and controls; (2) comparability and accuracy of the drug histories in cases and controls; (3) potential confusion as to the active ingredients in drugs administered to cases and controls; (4) potential differences in methods of collecting data for cases and controls; (5) the period of recall time and differences in the periods of recall time for cases and controls; (6) criteria used for diagnoses of RS and, especially, the criteria employed to establish the onset of RS; and (7) the reasons for the exclusion of reported RS cases from the studies.

In evaluating the available date, the FDA working group's activity included the following:

1. Review of materials available from the investigators in Arizona, Michigan, and Ohio.

2. Review of summaries provided by CDC on studies concerning RS and salicylates (Ref. 22).

3. Review of wrtitten analyses by employees or consultants of Sterling Drug (Refs. 23, 24, 25, and 26) and Schering-Plough (Ref. 27), which are two manufacturers of salicylate drug

products, and meetings with representatives of the two companies to hear presentations of these analyses by each firm (Refs. 28, 29, and 30).

4. Review of the written information presented by the Health Research Group (HRG) and meeting with representatives of HRG to hear their interpretation of the data (Refs. 31 and 32).

5. Site visits to the Michigan State Health Department and the Ohio State Health Department to obtain further details on how the studies in these States were conducted and to audit certain data from the study records (Ref. 33).

6. A meeting with scientists from CDC and National Institutes of Health, at which suggestions for analysis of the date were discussed.

The FDA working group prepared a preliminary report of its review of the four State studies and available information relating to the interpretation of these studies (Ref. 34). That report, dated May 18, 1982, presents a detailed discussion of the results of the studies and the working group's analysis of the data. The following summarizes the results of the four State studies and the working group's analysis of those studies:

1. *Arizona study.* The first reported case-control study on RS was conducted by Starko et al. in Arizona (Ref. 18). The study included 7 school children, hospitalized December 21 through 25, 1978, during an outbreak of influenza A/Brazil and 16 classmate controls who were ill during December 1978. All seven cases had recent influenza A (H1N1) infections, according to the analysis of blood samples collected. Blood samples were not collected for the control group.

The major finding of the study was that all 7 of the cases, but only 8 of the 16 controls, gave a history of salicylate ingestion during the antecedent illness for cases or during the viral illness for controls. Because the study lacked daily medication recording and had a small sample size, the working group did not attempt to conduct a more detailed analysis of the data from this study.

2. *Michigan studies.* Two case-control studies were performed by the Michigan Health Department. The first study was conducted during the months of March and April 1980 following an influenza B outbreak during the winter of 1979–1980. The second study began on September 1, 1980, and continued into 1981. Influenza A (H3N2) virus predominated during the second study. A report of these two studies has been published in the June 11, 1982 issue of the *Journal of the American Medical Association* (Ref. 35).

Under the Michigan State health code, physicians are required to report cases of RS to the State health department within 10 days. During the first study, 56 cases were reported. Twenty-five of the 56 patients were selected for the study because they lived within driving distance of the Michigan Health Department. During the second study, there were 17 cases reported; 5 of the 17 second study cases were excluded by the Michigan Health Department.

During both studies, controls were matched to cases on the basis of gastrointestinal (GI) symptoms, respiratory illness, or chickenpox. In the second study, cases and controls also were matched by temperature strata as follows: less than 100 degrees Fahrenheit, 100.1 to 102.9 degrees, and 103 degrees and over. For the cases, the date of protracted vomiting or behavioral change was established as the date of onset of RS.

In the first study, interviews with parents of children with RS were conducted an average of 45.5 days (4 to 83 days) after the onset of RS. During the second study, interviews took place an average of 4.8 days (2 to 10 days) after the onset of RS in the cases. Interviews for the control groups were conducted an average of 55.3 days (9 to 121 days) for the first study, an average of 12.2 days (3 to 40 days) for the second study.

In the first study, 24 of 25 (96 percent) cases took salicylate-containing medication before the onset of pernicious vomiting, compared to 30 of 46 (65 percent) controls. When highest measured temperature was used retrospectively to match controls to cases to attempt to ensure comparability, the difference in salicylate ingestion remained significant in that 14 of 14 (100 percent) cases as compared to 14 of 19 (73 percent) controls ($p<.05$) had ingested salicylates. During the second year of the study, 12 of 12 (100 percent) cases as compared to only 13 of 29 (45 percent) controls ($p<.002$) were reported to have received salicylate-containing medications. Medications containing acetaminophen but not salicylates were taken by 8 controls (17.8 percent) and 1 case (4 percent) in year 1 and by 9 controls (31 percent) and no cases in year 2.

Daily medication use was recorded in the second Michigan study for the 12 cases included in the study and their associated controls. This daily record was used to determine whether the cases and controls used salicylates on day 1; day 1 or 2; or day 1, 2, or 3 of their antecedent illness. The FDA working group was thus able to evaluate the apparent association between salicylate ingestion and RS using data where the salicylate use was most likely to be before the onset of RS and most likely to be in response to symptoms of the antecedent illness. Because the data sets to be analyzed consisted of cases matched to one or two controls on the basis of multiple characteristics (age, race, sex, geography, and fever), the working group employed a multiple conditional logistic analysis. That approach accounts for the variable matching to give a valid estimate of the excess risk associated with the cases and salicylate use. The multiple conditional logistic analysis showed that on day 1 of the antecedent illness, cases were 9.1 times more likely to have taken aspirin than their matched controls and that this was statistically highly significant. Because all of the cases used salicylates on days 2 and 3, this analysis could not be performed for day 1 or 2, or for day 1, 2, or 3.

3. *Ohio study.* The Ohio study was initiated under a contract from CDC in December 1978. The original study, developed by CDC investigators in cooperation with the Ohio State Department of Health, was designed to examine the possible relationship between RS and respiratory viral illnesses. The Ohio State Department of Health also wanted to conduct an exploratory investigation of other possible risk factors, including medications, environmental toxins, and a number of other variables which had been mentioned in the literature. The study was conducted from December 1978 through March 1980 and included 97 cases of RS. Thirty-three of the cases have been identified as "first year" because they were investigated before the collection of data about the development of symptoms and the administration of drugs on a day-to-day basis. The 64 cases for which such data were collected are referred to as "second year."

For both years of the study combined, the Ohio State Department of Health found that salicylates were the only medications which were taken significantly more frequently in cases (94 of 97=96.8 percent) than in controls (110 of 156=70.5 percent) before the development of symptoms of RS. Medications containing acetaminophen but not salicylates were taken by 29 of 156 (18.6 percent) controls but only 1 of 97 (1 percent) cases. Medication containing acetaminophen in combination with salicylates were taken by 16 of 97 (16 percent) cases compared to 51 of 160 (32 percent) controls ($p<0.01$).

The Ohio State University Biometry Facility performed a multiple logistic

analysis using a model which included histories of salicylate ingestion, fever, headache, and sore throat. Adjusting for these potentially distorting variables, cases were found to be 11.5 ($p<0.001$) times more likely than controls to have taken salicylates. Similar results were obtained for each year of the study. The Ohio investigators also compared salicylate use in cases and controls matched by highest level of fever. Data had been collected on whether or not the case or control had a fever. If fever was present, the highest level of fever was recorded. The known fever levels were then divided into three strata (98.7 to 99.9; 100.0 to 101.9; 102.0 or higher). Although the prevalence of fever was significantly greater in cases than in controls (74 of 97 cases and 95 of 156 controls had fever ($p<0.01$)), among those with fever, at each temperature stratum salicylate use was consistently greater among cases (100 percent at each stratum used salicylate) than among controls (67 percent, 81 percent, and 75 percent used salicylate at the respective strata). A report of the Ohio study has been published in the August 13, 1982 issue of the *Journal of the American Medical Association* (Ref. 75).

Members of the FDA working group made a site visit to the Ohio Department of Health on March 8–10, 1982. They considered it important to evaluate the administration of medications and the development of symptoms on a daily basis to attempt to ensure that the administration of drugs before the onset of RS could be identified. By evaluating the data on a daily basis, the working group could attempt to adjust for any differences between cases and controls in symptoms that might be distorting the results of the analysis. By ascertaining which drugs had been administered before the onset of RS, the working group could test the hypothesis that the salicylate use by the cases might reflect treatment of the symptoms of RS rather than those of the antecedent illness and therefore would not be regarded as a possible cause of RS.

The only data which permitted such an evaluation were the data collected during the second year of the Ohio study. For that reason, the working group examined in detail the original State records of the 64 second-year cases and their associated controls. The working group transcribed the information concerning the daily administration of medication and the daily development of symptoms from the original State records. The working group also audited a sample of the first-year cases and the stage 0 cases that were not included in the study and the available information from all the fatal cases. On the basis of this evaluation, the working group concluded that the coding of information from the original investigational records had been performed with an unusually high degree of accuracy. No significant discrepancies were found by examining the original case and control questionnaire forms and comparing them with the coding of the data for computer compilation and analysis.

The Ohio second-year data enabled the FDA working group to analyze both the administration of medication and the development of symptoms on a daily basis, to attempt to adjust for confounding variables in cases and controls, and to attempt to ensure that the drugs under consideration were administered before RS was present. As was done with the Michigan data, FDA performed a multiple conditional logistic analysis of salicylate exposure during days 1 to 3 of the antecedent illness which adjusted for possible differences between cases and controls which might have been explained by differences in the presence of headache, fever, cough, and sore throat. These symptoms are those for which salicylate-containing products may have been used. One hypothesis would suggest that if the cases had different symptoms (e.g., more headache or fever) than controls, the higher salicylate user cases could be attributable to the presence of symptoms more likely to be treated with salicylates. In order to examine the possibility that salicylates might have been used to treat early symptoms of RS rather than an antecedent illness, cases (and their matched controls) with 4 or fewer days between the onset of the antecedent illness and the onset of RS were eliminated. On the basis of this analysis, FDA's working group found that cases of RS were still significantly more likely to have used salicylates. There was significantly less use of acetaminophen in the cases than in controls.

The FDA working group also considered a hypotheseis that some of the statistical association in the Ohio second year based on salicylate use during days 1 to 3 might be explained by the administration of salicylates after the symptoms of RS had already appeared in some of the cases. As noted earlier, RS typically develops in a child who appears to be recovering from antecedent illness. Approximately half of the cases (33) had at least a 1-day period between the symptoms of the antecedent illness and the onset of RS when no symptoms were recorded (these are referred to as biphasic cases). However, a number of cases (30) did not appear to have a symptom-free period between the recorded date of onset of the antecedent illness and the onset of RS (these are referred to as monophasic cases). In one case it was not possible to determine monophasic or biphasic status; therefore, that case was not used in the analysis.

Statistical analyses showed a different relative rate of salicylate usage between the monophasic cases and the biphasic cases as compared to their controls. Multivariate conditional logistic analysis of the data on the biphasic cases showed that these cases did not use salicylates in the first 3 days of their illness to any significantly greater extent than their controls. The same analysis of the group with the monophasic illnesses showed that these cases did have a significant excess of use of salicylates over their controls.

The FDA working group also compared salicylate usage in the biphasic versus the monophasic cases (Ref. 74). This analysis showed that fewer cases with biphasic illness used salicylates during days 1 to 3 than those with monophasic illness, although the difference is not significant (82 percent versus 93 percent, $p=.17$).

These analyses appear to indicate that there is a difference between the monophasic and biphasic cases. However, further examination of the data reveals that other factors require consideration in interpreting the relative rates of salicylate usage between cases and controls. The criteria upon which cases were divided into monophasic and biphasic groups were based solely on the symptom pattern reported in the cases. Consequently, the distribution of variables (e.g., salicylate use, headache, fever, etc.) in the controls for the two groups would be expected to be roughly the same. It is not the same. Salicylate use in the biphasic control group was significantly greater during days 1 to 3 than in the monophasic control group (76.5 percent versus 58.3 percent, $p<.05$). The FDA working group analyzed covariates (fever, headache, cough, sore throat) in the controls for the two groups and did not find symptom differences to explain the greater use of salicylates in the controls for the biphasic than for the monophasic patients.

The FDA working group recognized that at least three possible interpretations of these findings could be considered:

1. Because RS is thought to be a biphasic, rather than a monophasic illness, it might be argued that some of the monophasic cases either had no

antecedent viral illness, the viral illness was not detected, or the symptoms of the antecedent illness and the symptoms of RS were overlapping. Therefore, it could be further argued that in some of the monophasic cases, salicylates might not have been administered before the onset of RS, that salicylates might actually have been used to treat the symptoms of RS, and that salicylate use in those cases might not be implicated as a causative factor in the development of RS.

2. That salicylate use might hasten the development of RS.

3. That the division into groups with monophasic and biphasic illnesses might not have been meaningful and was associated with an artifactual difference in the respective control groups that resulted in irrelevant statistial differences in the relative risks calculated for the two groups of RS cases.

Because the FDA working group could not eliminate this third interpretation, it was unable to conclude that the statistical association in the Ohio second year could be explained by the administration of salicylates after the symptoms of RS had appeared.

4. *Working group summary.* The FDA working group considered that its analysis of the data from the second year of the Ohio study was pivotal to the assessment of the possible association between the use of salicylates in the preceding viral illness and the subsequent development of RS. The working group concluded that its analysis of the data from that study showed that patients with RS (cases) had a greater frequency of salicylate use during the first 3 days of the antecedent viral illness than did children matched for certain selected variables with an illness of a similar nature (controls). The working group found that cases of RS in the study were significantly more likely to have used salicylates, and this association continued even when the data were statistically adjusted to account for differences in cases and controls for the symptoms headache, fever, sore throat, and cough and when cases with 4 or fewer days between the onset of antecedent illness and the onset of RS were eliminated. In addition, the working group found there was significantly less use of acetaminophen in the cases than in the controls.

The FDA working group report also recognized that the association between salicylates and RS observed in the four State studies might be reflective of factors other than a causative role of salicylates in the development of RS. In addition, the report raised the question whether in some cases the symptoms of RS had developed earlier than was recognized, so that treatment was given after the onset of RS and not during the antecedent illness. Because the working group report reflected a preliminary review and was prepared to provide information for consideration at a public meeting, the working group did not resolve these questions before the public meeting.

D. *Reye syndrome workshop.* A Reye syndrome workshop sponsored by FDA, CDC, and the National Institute of Allergy and Infectious Diseases of the National Institutes of Health was held on May 24, 1982. A notice announcing the workshop was published in the **Federal Register** (47FR 20862; May 14, 1982) (Ref. 36). The workshop was scheduled to provide interested persons, including industry and consumer group representatives, an opportunity to discuss the currently available data on RS and to make written submissions and to give oral presentations. A transcript of the meeting was prepared (Ref. 37).

Before the workshop, FDA had made data available that was in its possession and on which it had relied in preparing the working group's preliminary review. The data in the agency's possession did not include the original forms used in conducting the four State studies. (The agency has since obtained the original data in the Ohio study (Ref. 111).) The data did include FDA's transcription of certain data from the second year of the Ohio study and the second year of the Michigan study (Ref. 38). In addition, the data included a data computer tape provided by the Ohio Department of Public Health on its RS investigation (Ref. 65).

The workshop was attended by invited experts from the academic community, the drug industry, and consumer organizations. The scientific panel members (primarily from the academic community) were asked to review and discuss the data and presentations, but were not asked to make formal recommendations to the sponsoring organizations. However, the members of the scientific panel were provided an opportunity to comment at the close of the meeting. Some of the panel members indicated that the available data were adequate to establish an association between salicylates and RS. Others indicated a belief that the data showed a possible association. Some members indicated that a causal relationship between salicylates and RS had not been shown. Several of the members agreed that physicians and the public should be advised of the possible risks of the use of salicylates to treat certain viral illnesses in children (Ref. 37).

E. *FDA evaluation of the four State studies.* FDA evaluated the four State studies to address questions concerning the design and execution of the studies. FDA's evaluation of the data from the four State studies included a careful consideration of questions raised concerning the quality of the data. Industry representatives and others contend that the data do not establish an association between salicylate use and the development of RS. In support of this contention they have raised objections to the design and execution of the studies generally, as well as objections to the evaluation of specific factors. FDA scientists have reviewed the questions raised thus far. Summaries of the questions, as well as the agency's tentative responses, follow.

1. It is claimed that the data from the State studies have not been adequately analyzed. Inadequacies in the data analysis, it is argued, included no independent review of the primary data base (e.g., completed questionnaires), no audit of the secondary data base (e.g., computer tapes coding information from the questionnaires), no proper multivariate analysis of the data, and no sensitivity analysis of the odds ratio that measured the purported salicylate-RS association. The argument is that because the data analysis was inadequate, the studies cannot be said to have demonstrated an association between salicylate use and RS.

As discussed above, the FDA working group did review the primary data from both Michigan studies and from both years of the Ohio study. The working group also performed a selected audit of the computer tapes from the Ohio study and concluded that the coding of information from the original investigational records had been done with an unusually high degree of accuracy.

The Ohio State Health Department performed a multivariate analysis of the data from the Ohio study and found a statistically significant association between RS and salicylate use. In addition, the FDA working group's analysis included multivariate analysis using the multiple conditional logistic model (Ref. 112). This form of analysis is primarily designed to analyze matched case-control data where adjustment for covariates is desired. The results of these analyses also support the conclusion that there is an association between salicylate use and RS.

The sensitivity analysis referred to in the criticisms of the State studies is intended to determine the effects of

misclassification on the odds ratio, the measure of association used in these studies. Theoretical studies in the literature (Refs. 40 to 45) have shown that if the misclassification bias is nondifferential, that is, the same level of misclassification exists in both the cases and controls, then the odds ratio tends towards the "null" hypothesis. In other words, the estimated odds ratio will always tend to be less than the true odds ratio. That is, if the same level of misclassification exists in both the cases and controls in the Reye's studies, then the cases are even more likely to have used salicylates in relation to the controls than the analyses have shown. However, if the misclassification is differential, affecting one group more than the other, then the estimated odds ratio can be either less than the true odds ratio or greater.

Without specific information as to the nature of any potential misclassification bias in these studies, the bias' effects cannot be estimated and, therefore, cannot be corrected for. In none of the studies reported are there data indicating that a differential misclassification is operating. Nor are there any supplementary data supporting such a claim. Therefore, a sensitivity analysis may be either unnecessary or impossible with respect to these RS studies.

2. It is claimed that the studies were conducted without a protocol that defined precisely the methods of data acquisition, data anlaysis, and study monitoring used in the studies. The suggestion is that lack of a protocol may lead to such problems as inconsistencies in interview techniques employed by different interviewers or inconsistent matching of cases and controls, which may distort the study results.

The FDA working group found that better documentation of operational procedures for the studies could have been provided. However, for both years of the Michigan study there was a protocol that included eligibility criteria, so that cases and controls could be consistently matched. Although there was no formal protocol for the Ohio study, the study did have an operational manual which described eligibility criteria, as well as the interviewing procedures. Thus, there were plans for both the Ohio and Michigan studies to guard against distorting inconsistencies.

3. It is claimed that there was no matching of cases and controls on the basis of severity of the antecedent illness. Thus, it is contended, the cases were sicker than controls with respect to such factors as the presence of fever, the degree of fever, and the amount of liquid intake during the acute illness. The severity of illness, it is argued, may have determined the parent's choice of antipyretic drug thereapy. The argument is that matching cases and controls for such variables as reduced fluid intake, use of antinauseant medication, and fever could eliminate the association between salicylate use and RS.

The investigators attempted to control for severity by matching cases with ill controls who were from the same classroom and who were ill at about the same time, as well as by matching as many variables as possible. Such matching included, for example, matching cases that had chickenpox with controls that had chickenpox and cases that had respiratory illness with controls that had respiratory illness. Matching with respect to the degree of fever was done in the second year in Michigan, but not in the other studies. In the second-year Michigan study, which included matching by temperature strata, 12 of 12 cases (100 percent) and 13 of 29 controls (45 percent) reported receiving salicylate-containing medications ($p < .002$). When highest-measured temperature was used restrospectively to match cases and controls in the statistical analysis of the first-year Michigan study, the difference in salicylate ingestion remained significant (100 percent of cases, 73 percent of controls ($p < .05$)). As discussed earlier, the Ohio investigators also restrospectively matched cases and controls by temperature strata. At each temperature stratum salicylate use was consistently greater among cases than controls. FDA's multivariate conditional logistic analyses, which adjusted for fever, showed that the association between salicylates and RS remains significant.

The data also indicate that the administration of antinauseants is not significantly associated with the antecedent illness, but may be associated with the symptoms of the onset of RS. This was confirmed by FDA's analysis of the second year of the Ohio study, which shows that most antinauseant use was on the day of onset of RS or later. With respect to reduced fluid intake, the question was asked in such a manner that data available with respect to this factor cannot establish whether the reduction in intake was associated with the antecedent illness or with the onset of RS. In addition, FDA's multivariate conditional logistic analyses adjusted for other indications of severity of illness, including cough, headache, and sore throat. After adjusting for these measures of severity of antecedent illness, the association between salicylates and RS remains significant.

4. It is claimed that interviewer bias influenced the results of the studies. Interviewer bias could have resulted form the fact that interviewers were not "blinded", i.e., they knew in advance that the parents they interviewed were the parents of cases rather than controls or of controls rather than cases. Such knowledge, it is argued, could cause interviewers to question one group of parents more closely than the other, thereby producing more, or more reliable, information from that group. Prior knowledge by interviewers that salicylate drugs were suspected more strongly than other factors of being asssociated with RS could also have biased the questioning. These forms of interviewer bias could have produced biased reporting by the interviewees. For example, if the parents of cases were more closely questioned than parents of controls, it is possible that they would have been more likely to recall the specific medications administered to their children. It is therefore possible that such parents would have been more likely to have remembered that they had administered aspirin, whereas parents of controls would have remembered only that they administered a fever-reducing drug of some sort, thus falsely increasing the incidence of aspirin use in cases compared with controls. It is also possible that if interviewers knew of a potential connection between salicylates and RS, they might have persisted in asking parents of cases about medications until receiving a response mentioning a salicylate product, whereas they might not have so persisted when questioning parents of controls.

Although it is true that interviewers knew in advance which families had cases and which had controls, precautions were taken to prevent the introduction of bias into the interviews by reason of such knowledge. Interviewers in the Michigan and Ohio studies received training designed to standardize interviewing technique, so that parents of cases and parents of controls would be asked the same questions in a similar manner.

FDA's review of the questionnaries used in the Michigan and Ohio studies revealed no basis for concluding that salicylate drugs had been given undue attention by the interviewers or that other forms of interviewer bias tainted the responses. Moreover, in the Arizona study and the first Michigan study and the first year of the Ohio study, those conducting the investigation had not concluded that salicylate drugs were more likely than other factors to be

associated with RS. The interviewers in those studies, therefore, were unlikely to have biased the results by any intentional or unintentional desire to elicit information concerning a hypothesis implicating salicylates in the development of RS. Furthermore, interviewers in the second year of the Ohio study were not informed by the investigators that a possible association between salicylate drugs and RS was suspected.

Finally, the absence of significant interviewer bias in the Michigan studies is suggested by the fact that similar numbers of drug preparations were reported by cases and controls. Because parents of cases and parents of controls reported almost the same numbers of drug preparations given, it does not appear that interviewers persisted longer in their questioning about medications with parents of cases than with parents of controls.

5. It is claimed that the Ohio study may have been flawed by a bias in case selection. A physician at one of the six clinical centers participating in that study has stated that some of the cases he reported to the Ohio State Health Department were excluded from the study (Ref. 78). He indicated that at least four of the cases he reported had no history of salicylate ingestion.

The FDA working group has reviewed the case selection in the Ohio study for each of the participating centers (Refs. 79 and 80). During the 2 years of the study, 11 RS cases were reported from the clinic with which this physician is associated. The Ohio Health Department excluded 5 of those 11 cases from the study for the following reasons: 2 cases were stage 0; 1 case was too young (about 1 year old); 2 cases could not be matched. These exclusions were consistent with the eligibility criteria established and with the procedures used during the period of this study. Of the 11 cases reported from this clinic 8 (73 percent) had used salicylates; of the 6 cases from this clinic which were included in the study, 4 (67 percent) has used salicylates.

The working group saw no indication that the case selection process pertaining to the cases reported from one center was unique. Of all the cases reported to the Ohio Health Department, 183 of 196 (93.4 percent) had used salicylates. Among nonsalicylate users who were not included in the 97 matched cases, 6 were stage 0, 2 were preschool, and 2 apparently could not be matched. There were 31 cases who were not matched, although they were eligible based on stage, degree of illness, and age. Of those, 29 (93.5 percent) had used salicylates. Thus, it does not appear that cases were selected for matching based on whether or not they had used salicylates.

6. It is claimed that product confusion among parents caused misclassification of the drugs used by cases and controls. Thus, it has been argued that some parents may have thought a salicylate product was used when, in fact, it was a nonsalicylate product. It is also asserted that the documentation confirming the medication histories is inadequate. The assumption is that because the parents of cases were usually interviewed in the hospital it would be less likely that the investigators confirmed the cases' medication histories by visually inspecting the medication bottles. Confirmation by inspecting the medication bottles of the controls would be more likely because the interviews were conducted at the parents' home.

In Ohio, there was an extensive effort to identify ingredients properly for single as well as combination drugs. In Michigan, the interviewer notified the family to prepare for the interview and to show the medication bottle to the interviewer. Although parents, in some instances, may have been confused as to the identity of the active ingredient, interviewers in both Ohio and Michigan usually obtained brand names of the drug administered, which were then checked to determine and record the active drug ingredient. In Ohio, 90 percent of the cases and 91 percent of the controls supplied brand names; 100 percent of the acetaminophen identification was by brand name.

It is true that the documentation does not show which product identifications were confirmed by visual inspection of the bottles and which were not. However, there is also no documentation showing that any of the visual confirmations revealed a contradiction between the brand name identified and the brand name on the bottle label. Thus, any effect of the visual confirmation on the study analysis remains conjectural.

7. Analyses have been submitted by industry representatives to show that there is no significant statistical association between salicylate use and RS if two subsets of the second-year Ohio cases identified by FDA's working group are examined (Ref. 101). The following subsets of the 64 second-year Ohio cases were analyzed: (1) The 48 cases with more than 4 days of symptoms before the onset of RS and (2) the 41 cases in which the relationship of salicylate use to onset of RS could be ascertained with reasonable certainty.

The working group's analysis of those 48 cases with more than 4 days of symptoms before the onset of RS showed a positive and statistically significant association between salicylate exposure and RS. The industry submission's analysis of those 48 cases showed a positive association that was, however, not statistically significant. The difference between the working group's finding and the industry submission's finding with respect to this subject appears to result from the differences in the databases of the two analyses. The industry submission's coding of subjects from the second year of the Ohio study for exposure to salicylates or nonexposure to salicylates differs from the working group's coding with respect to 11 subjects. This difference appears to be primarily due to the fact that the industry submission had coded controls as exposed if salicylates were used at any time during their illnesses, whereas cases were coded as exposed only if a salicylates were used early in the course of illness. The working group coded a subject as exposed only if salicylate was used during the first 3 days of the illness, and this same coding was applied to both cases and controls.

The working group coded exposure according to the first 3 days of illness only in order to determine whether the frequency of salicylate use was related to the severity of symptoms of the antecent illness. The first 3 days is the time period when symptoms of viral illnesses are likely to be most severe. The working group performed a multiple conditional logistic analysis to test whether differences in symptoms accounted for a greater frequency of salicylate use in cases and found that there was still a significant association of salicylate use with RS after accounting for these differences. The working group attempted both to assure that the database did not include salicylates that were being given specifically to treat Rs and to determine whether salicylate use was the result of more severe illness in cases than controls. The industry analysis did not compare equivalent time periods in cases and controls and did not adjust for the severity of illness when examining the relationship between salicylate use and RS.

The industry submission also analyzed a subset of 41 cases in which the relationship of salicylate use to onset of RS could be ascertained with reasonable certainty. The industry submission argued that with this subset of 41 there is also no statistically significant association between salicylate use and RS. FDA's working group had identified and studied this subset of 41 cases in order to determine

whether salicylates were used for treatment of RS, regardless of whether they had been used initially for treatment of the antecedent illness. That is, the 23 cases that began salicylate use on day 1 or 2 of illness and continued until the onset of Rs were excluded from this subset because for those 23 cases it could not be determined when the salicylate use for the antecedent illness ended and the salicylate use for RS began. However, because this group of 41 cases does not include all RS cases who used salicylates before onset of RS, the association of RS with prior salicylate usage cannot be determined by comparing only these cases and their controls. Therefore, the industry submission's analysis using this subset of 41 cases to determine the frequency of use of aspirin before the onset of RS is an invalid approach.

8. The industry submission which analyzed the 46 and 41 case subsets also claimed that some of the product identifications recorded on the case report forms are insufficient to determine whether the products contained salicylates (Ref. 101). The industry submission argued that 7 of the subjects in the second year of the Ohio study (4 cases and 3 controls) who were identified as having been exposed to salicylate had received medications which had not been clearly identified as containing salicylates ("indeterminate" medications).

The submission argued that even when all 64 cases are examined, the assumptions about the 7 indeterminate medications lead to critical differences in the results. Using its database, the industry submission presented an analysis showing that when it is assumed that the 7 subjects who took indeterminate medications were exposed to salicylates, the result is a statistically significant association between salicylates and RS. However, when it is assumed that these 7 subjects were not exposed to salicylates, the association is no longer statistically significant. The submission argued that if only 3 of the indeterminant cases are assumed to be unexposed, the results are not statistically significant.

The industry submission based its identification of "indeterminate" medication on the fact that the trade names of some salicylate-containing products are very similar to the trade names of non-salicylate-containing products. For example, "Brand X" may contain aspirin and "Brand X-AF" may contain acetaminophen. FDA's working group assumed that a listing on a case report form for "Brand X" would mean literally that, and would not have been so listed if the brand name were at all different. Therefore, the working group listed these products as salicylates. However, if it were assumed (as the industry submission assumed) that the correct names of these products could not be determined, then the appropriate approach would be to exclude these subjects from the analysis. That is, if the salicylate exposure is unknown, that subject should not be included as either exposed or unexposed, because either assumption would improperly bias the results. When the subjects identified by the industry submission as having taken "indeterminate" medications are excluded from analysis of all 64 cases, the association between salicylate use and RS remains significant, regardless of whether the industry submission's database or the working group's database is used.

9. It is claimed that, even over relatively short periods of time, parents do not accurately remember significant details about medications they administered to their children, the symptoms their children had during illness, or their children's behavior patterns (e.g., fluid intake) during illness. If recall were equally inaccurate for both groups of parents, it would not ordinarily be expected to bias the information reported for cases and controls. However, in case-control studies parents of cases are typically interviewed shortly after their children's illness, whereas parents of controls are often interviewed weeks or months after illness, and this was true of the Ohio and Michigan studies. Also, parents of cases—children with RS—might remember important details concerning medication or severity of symptoms more clearly than parents of controls, whose children had a far less serious illness. Such differential recall, it is thought, could have biased the results of the Ohio and Michigan studies.

In both the Ohio and the Michigan studies the investigators attempted to identify and interview the parents of controls as quickly as possible, thus minimizing the time differential between the two groups of parents as much as is practicable in case-control studies. Nevertheless, neither the time diffeential, nor any possible difference in recall accuracy between parents of RS children and parents of control children, could have been entirely eliminated.

Two observations, however, tend to negate the existence of significant recall bias stemming from these factors. First, recall bias would not be expected to result in the selective underreporting of the use of salicylate drugs, and overreporting of the use of acetaminophen, by the control group parents. Recall bias should have produced, instead, underreporting of both medications by the parents of controls. The parents of controls would have had no reason to remember administering an salicylate product. Second, as previously noted, similar numbers of total drug products were reported by both cases and controls in the Michigan studies. Therefore, it does not appear that parents of controls had, in the time period between the child's illness and the interviewer's questioning, forgotten the medications they gave during the illness to any greater degree than the parents of cases had forgotten the medications they had administered.

10. It is claimed that the data do not establish a dose-response relationship between salicylate ingestion and the development of RS. It is argued that one would expect there to be such a relationship if salicylate drugs caused RS. The absence of such a relationship, it is argued, would suggest that a causal relationship between salicylate drugs and RS is biologically implausible.

It is correct that the data do not show a dose-response relationship between salicylates and RS. The data are inadequate to show either the existence or the absence of such a relationship. Demonstration of a dose-response relationship would clearly strengthen an association between salicylates and RS, but its absence does not negate the existence of an association. A correlation between salicylate blood levels and the development of RS has also not been clearly demonstrated. The methodologies reported often lack sensitivity and are affected by confounding factors, such as ketosis (which is present in dehydrated children, such as those who have RS). The significance of the blood levels measured depends on various factors, including information about the amount and timing of all salicylate drugs administered and the physical condition of the child. Data of the requisite quality to determine whether a dose-response relationship exists were not obtained during any of the studies.

Demonstration of a dose-response effect might strengthen the evidence of a causal relationship, but is not essential to show an association or a causal role of salicylates in RS. If the effect of salicylates in RS were dose dependent (e.g., the more toxin taken or present, the greater the toxic response), then such a relationship possibly could be demonstrated by clinical history and by laboratory tests. However, if the role of

salicylates is independent of dose, as it appears to be, then any exposure to salicylates, not necessarily exposure at toxic levels, could be a triggering factor in RS. That is, it is possible that a small amount of salicylates administered under certain circumstances will trigger RS and that it makes no difference whether or not larger amounts are administered. Thus, it is biologically plausible that salicylates could be a factor in causing RS even if no dose-response relationship were shown.

11. It has been argued that the association between salicylates and RS cannot be reconciled with certain facts concerning the identification and the patterns of incidence of RS. The argument is that because aspirin has been so widely used for so many years, it is unlikely that aspirin causes a disease that: (1) Has only recently been identified; (2) is very rare; (3) is geographically concentrated; and (4) occurs in Caucasians 90 percent of the time. It has also been argued that the facts that not all children who take salicylates for flu or chickenpox symptoms get RS and that some children get RS without having taken salicylates are inconsistent with a causal connection between salicylate use and RS.

The fact that RS was only identified as a specific disease in 1963 does not mean that it did not exist prior to that time—only that it had not yet been identified as a specific illness. RS is a rare disease; a rare disease is often not identified until sufficient information is accumulated and communicated to interested scientists to allow them to differentiate the symptoms of the disease from those of other diseases. That RS is rare does not, however, mean that there can be no causal relationship between salicylate use and RS. Administration of a drug can result in serious harm in only a small percentage of cases, yet nevertheless be the causal agent. For example, administration of chloramphenicol at a certain dosage has been estimated to cause fatal aplastic anemia in 1 out of 40,500 patients (Ref. 64). The data do show that not all children taking a salicylate for symptoms of flu or chickenpox develop RS. There must be more than one factor involved in the development of RS. That is, there may be certain preconditions, such as genetic predisposition, necessary before RS develops. Salicylate use could be one element in a chain of causes that lead to RS if most of the elements are present. Nor does the fact that a few cases of RS have been identified in which no salicylates were used prove that salicylates can have no causal role in RS. Salicylate use may be one among several possible causes, not all of which need be present for RS to develop. A number of environmental agents, such as insecticides, mycotoxins, and aflatoxins, have been suggested as possible factors in causing RS (Refs. 81 and 82). However, none of these agents have been confirmed as factors in causing RS by later studies.

Observed geographic differences in the incidence of Reye syndrome may reflect the varying levels of interest of health departments, communities, and physicians and the varying reporting requirements in different States. Whether some environmental agents present in different geographical locations may also be implicated in RS cases is unknown. As yet, there have been no adequate studies conducted to determine whether, in fact, RS does occur disproportionately in certain geographic areas. Even if future studies were to define geographic differences in the incidence of this disease, it is possible that factors other than salicylate use (including influenza and other as yet unidentified risk factors) might explain such observed differences.

Why 90 percent of the RS cases reported each year are among Caucasians is also not understood. It may be that Caucasians have different exposure to predisposing conditions of RS that have not as yet been identified. Perhaps there is a genetic predisposition to RS that is greater among Caucasians. As has been discussed before, salicylate use could be causally associated with RS without being the sole cause. Therefore, the fact that some factor other than salicylate use may result in more RS in Caucasians does not mean that salicylate use does not cause RS.

12. It has been argued that it is likely that a number of the children identified as cases did not actually have RS. The argument that some of the cases probably were misidentified rests on two main points: (1) Not all of the cases of RS were confirmed by liver biopsy and (2) there were low death rates among the study participants. It is claimed that the lack of biopsy confirmation is significant in light of an unpublished study conducted by Sokol, Heubi, and others in Cincinnati, OH. An abstract of their study indicates that 26 percent of subjects diagnosed as having stage I RS using CDC/NIH consensus conference diagnostic criteria were biopsy negative for RS (Ref. 83). It is also stated that in the second year of the Ohio study only 4 percent of the cases died, whereas the national death rate from RS is approximately 22 percent to 40 percent.

It is true that not all of the RS cases were biopsy confirmed. The investigators in all four State studies used criteria developed by CDC (Ref. 1) and NIH (Ref. 46) to diagnose RS accurately. A liver biopsy is a procedure not to be undertaken lightly, especially in an uncooperative, critically ill child with defective coagulation (Ref. 46). Approximately 26 percent of the cases were biopsied in the 2 years of the Ohio study. None of the children included in the Ohio study who were biopsied were biopsy negative.

None of the patients in the Sokol-Heubi study were included in the four State studies (Ref. 84). All of the patients in the Sokol-Heubi study with stages II through V RS (four patients) were biopsy positive. Among the stage I RS patients, 14 of 19 were biopsy positive. Of these 14 biopsy-confirmed RS case, 100 percent had salicylate exposure; only 1 of the biopsy negative cases had salicylate exposure. Thus, although the Sokol-Heubi study suggests that there are difficulties in diagnosing stage I RS, the study also suggests that there is an association between salicylate exposure and biopsy-confirmed RS cases.

Mortality rates for RS cases have decreased since the 80 percent rate reported in Reye's original study (Ref. 4). In 1974 the death rate from RS in the United States was 41 percent (Ref. 77); in 1981 the national RS death rate was 28 percent (Ref. 1). It is likely that early recognition of RS and greater use of intensive medical support have resulted in the lowered mortality rate (Ref. 2). The RS death rate in Ohio in the last 10 years has been consistently lower than the national average—in Ohio the death rate was 23 percent in 1973, 13 percent in 1976, and 3 percent in 1977 (Ref. 56). A possible reason for the low Ohio death rates is that the children were identified as RS cases at a less severe stage and received prompt, aggressive supportive therapy. Although it is not entirely clear why the Ohio RS death rate has been consistently lower than the national average, the 4 percent death rate in the second year of the Ohio study is consistent with the usual low rate in Ohio.

Furthermore, as the American Academy of Pediatrics' Committee on Infectious Diseases has pointed out, if any misclassified cases could be eliminated from the analysis, it would be expected that an association between aspirin and RS would be strengthened rather than weakened (Ref. 47). This results from the fact that non-RS individuals, misclassified as RS

cases, would probably exhibit salicylate patterns more like their controls and hence would dilute an association. Thus, elimination of these cases would further enhance the differences in salicylate use between cases and controls, therefore strengthening an association.

13. It has been argued that an association between salicylates and RS cannot be reconciled with the fact that the liver pathology of RS is different from the liver pathology of salicylism and that the serum patterns of amino acids, free fatty acids, ketones, and urates in RS are different from the serum patterns of the same substances in salicylism.

The liver pathologies and the serum patterns of RS and salicylism do differ. It is generally agreed, however, that RS is neither the same as salicylism nor the results of salicylism. Therefore, it would not be expected that RS and salicylism would have the same liver pathologies and serum patterns. The fact that the liver pathologies and serum patterns of RS and salicylism differ would not negate the existence of an association between salicylism use and RS; it would also be irrelevant to the question of whether salicylism use might be a causal factor in the development of RS.

14. It has been argued that the association between salicylates and RS cannot be reconciled with the fact that the concentration of salicylates needed to produce one proposed mechanism for salicylates' role in RS occurs at levels that have probably not been reached in most cases. That is, it is claimed that the concentration of salicylates needed to produce a 50-percent inhibition of rate-limiting enzymes for mitochondrial oxidative phosphorylatin has not been shown to have been reached in most RS cases.

The mechanisms acting in the origin and development of RS are not fully understood. The possible mechanisms by which salicylates might contribute to causing RS are also not fully understood. One possible mechanism postulated for a causal role of salicylates in RS is that the salicylates inhibit certain mitochondrial functions. Whether this particular postulate can be supported theoretically or by future clinical data is not crucial in determining whether salicylate use plays a causal role in the development of RS.

15. It has been argued that the association between salicylates and RS cannot be reconciled with the fact that the incidence of RS in children with rheumatic disease (such as juvenile rheumatoid arthritis), who regularly receive high dosages of salicylates, is not higher that the incidence of RS in the general population.

The incidence of RS in children with rheumatic disease who are on high-dose salicylate therapy cannot be determined on the basis of the available data. Cases of RS among these children have been reported (Refs. 10 and 37 (at page 129)). More information on the incidence of RS in this group of children may be useful in understanding the relationship between salicylates and RS. It should be noted again that even if salicylate use is shown to be one causal factor in the development of RS, it is not the sole causal factor. The existence of an antecedent illness, such as the flu or chickenpox, has already been strongly implicated in the development of RS. Perhaps genetic predisposition is also a factor in what may be shown to be a chain of causal factors. Because children with rheumatoid arthritis already have a pathologic disorder, that disorder may be in some way associated with a greater or lesser likelihood of developing RS.

16. It has been argued that there is a medical risk in suggesting that salicylates not be used to treat high fever in children because of the possible harm, including convulsions and damage to the central nervous system, that prolonged high fever can cause. Suggestions have been made that consumers should not be subject to such a risk and that rather than warning consumers against salicylate use, the agency should advise consumers that they should exercise prudence in the use of all medications in children. It has been argued that cautioning against salicylate use will lead to more use of acetaminophen products, which pose risks of liver toxicity. It has also been suggested that a label warning on salicylates concerning RS might lead parents to believe that by not giving their children salicylate products they have removed all risk of RS.

A label warning statement being considered by the agency for certain salicylate-containing drug products would advise consumers against the use of salicylates in persons under 16 years of age with flu or chickenpox unless directed by a doctor. Fever is often associated with these diseases; prolonged high fever can lead to convulsions and, in very rare cases, permanent damage. There are, however, alternative antipyretic drugs that do not contain salicylates. Although there is a risk of liver toxicity associated with acetaminophen use, this risk stems from drug overdose and can be avoided in children largely through use of child-resistant containers. Salicylates also can be dangerous to children if taken in overdose.

More importantly, most levels of fever probably do not require any drug therapy and are not harmful. The American Academy of Pediatrics' Committee on Infectious Diseases has suggested that when a physician believes that control of fever is necessary, such alternative means of fever control as increased fluid intake and sponging with tepid water should be considered (Ref. 47). The labeling statement under consideration would not warn against salicylate use in children in all circumstances. The possible benefits of salicylates might outweigh the risk of Reye syndrome in certain patients, such as those with juvenile rhevmatoid arthritis for whom the risk of Reye syndrome may be less important than the benefits gained in treating this chronic debilitating disease.

Prudent use of all medications, including antipyretics in children, is, of course, advisable. However, such general advice may not be sufficient to protect against specifically recognized risks. The agency's educational campaign, discussed in detail below, informs parents about the symptoms of RS and stresses the importance of early emergency medical treatment. Because of the educational campaign parents should have increased awareness of the syndrome and be more likely to recognize it when it occurs. Warning parents through labeling statements about the possible risks of RS from treating certain childhood illnesses with salicylates would not necessarily imply that abstaining from salicylate use prevents RS.

17. It has been argued that, despite the uncertainties in the data, the public should be warned of the association between salicylate use and the development of RS. It is also claimed that, although the public should be advised generally to use caution in administering antipyretics to children, the available data do not justify a labeling warning requirement specifically for salicylate-containing products. In the June 1982 issue of *Pediatrics*, the American Academy of Pediatrics published a recommendation of its Committee on Infectious Diseases that "[i]nasmuch as salicylates are over-the-counter preparations, education of parents to their avoidance in influenza and varicella [chicken pox] requires a total community effort. We urge that the appropriate governmental agencies undertake appropriate review and necessary action to inform the public at large" (Ref. 47). On November 8, 1982, the Executive Board of the American

Academy of Pediatrics stated its belief that labeling aspirin-containing preparations as contraindicated in treatment of influenza or chicken pox "should be delayed until more conclusive evidence of the association of aspirin administration and Reye's Syndrome is shown by further investigation" (Ref. 85). Subsequently, on November 19, 1982, the American Academy of Pediatrics stated that it "continues to be concerned about the possible association of aspirin and Reye's Syndrome and has alerted physicians to use caution in recommending aspirin for treatment of influenza and chicken pox symptoms" (Ref. 86). The American Academy of Pediatrics added that it believed "the current labeling [on aspirin] which includes 'flu' among those conditions which may be treated with aspirin is inappropriate" and recommended deletion of the flu indication from the labeling of children's aspirin-containing products (Ref. 86). These and other comments raise questions about the quality of data which should exist to support regulatory actions. The comments also raise questions about the differences between two types of agency actions—advice to the public and label warning requirements. These questions are discussed in the following section.

F. *Regulatory evaluation.* The agency has statutory authority to undertake various kinds of activities to protect the public health, including initiating public educational campaigns and requiring labeling warnings on drug products. FDA has evaluated the recent reports on the relationship between salicylate use and RS and has considered the potential risks to the public health suggested by those reports in considering which related activities to initiate.

Section 310(b) of the Public Health Service Act, 42 U.S.C. 242o(b), directs the Secretary of HHS to issue "information related to public health, in the form of publications or otherwise, for the use of the public" and to publish "other pertinent health information for the use of persons and institutions concerned with health services." Section 311(a) of the Public Health Service Act, 42 U.S.C. 243(a), directs the Secretary to "advise the several States on matters relating to the preservation and improvement of the public health." Functions of the Secretary under these sections that relate to the responsibilities of FDA have been delegated to the Commissioner of Food and Drugs. See 21 CFR 5.10 (a)(2), (19).

Section 705(b) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 375(b), authorizes the Secretary to disseminate information regarding drugs "in situations involving, in the opinion of the Secretary, imminent danger to health or gross deception of the consumer." The magnitude of the potential danger need not be estimated, however, because section 705(b) is not a limitation upon the authority of the Secretary. It has been held that "even in the absence of this statute there would be nothing to prevent the [Federal officials] from disseminating information to the public. The [Federal officals] are performing a public duty when they are urging the use of certain treatments or warning the public against the use of certain treatments." *Hoxsey Cancer Clinic* v. *Folsom*, 155 F. Supp. 376, 378 (D.D.C. 1957). See *United States* v. *An Article of Device . . . Dispulse Mfg. Corp.*, 262 F. Supp. 728 (D. Conn. 1967). The functions of the Secretary under the Federal Food, Drug, and Cosmetic Act have also been delegate to the Commissioner of Food and Drugs. See 21 CFR 5.10(a)(1).

As discussed above, several groups and numerous individuals have suggested that, until the relationship between salicylate use and RS is clarified, physicians and the public should be advised of the possible risks of using salicylates to treat certain viral illnesses in children. Case-control studies are inherently limited by possible distortions resulting from interviewer bias, recall bias, or imperfect matching of cases and controls. However, the data which first indicate potential health risks are often flawed or equivocal. In some cases, it may be years before data are available to establish definitively that a serious health risk accompanies the use of a particular product.

With rare diseases, such as RS, the agency has no option except to rely on case-control studies, because prospective studes of a population at risk for a disease that may occur, as here, at an annual rate of less than 5 cases per 100,0900 population under 16 years of age would require an enormous number of subjects. The four State studes are consistent in their results. Collectively, the result of the studies on their face would appear to establish an association between salicylate ingestion and RS—nearly every child who developed RS had take salicylates (137 of 141); while far fewer of the control group (151 of 247) had taken salicylates. Moreover, the Ohio and Michigan studies appear to establish a reverse association with the administration of acetaminophen (a nonsalicylate antipyretic and analgesic), in that control subjects were much more likely to have received this drug than were the cases.

A statistical association as reported by the four State studies might reflect a causative role for salicylates in the development of RS, or it might be associated with other factors. Although RS is a rare disease, the mortality rate is high. Until the relationship between salicylates and RS has been clarified, FDA believes that the interests of the public health require that physicians and the public be advised of the possible risks of administering salicylate-containing medication to children with flu or chickenpox. This position is consistent with the views expressed in a recent editorial in the August 13, 1982 edition of the *Journal of the American Medical Association* (Ref. 76).

On June 4, 1982, the Secretary of Health and Human Services announced that "medical experts have concluded that the use of salicylates such as aspirin in children with influenza and chickenpox and certain other viral infections has been sufficiently associated with Reye Syndrome to warrant warning physicians and parents" (Ref. 48). The Secretary announced that he had directed FDA to undertake an educational campaign aimed at medical care personnel, pharmacists, and parents. In addition, the Secretary directed the Surgeon General of the U.S. Public Health Service to issue an advisory. On September 20, 1982, the Secretary announced the details of the educational campaign that had been undertaken. These initiatives are explained in detail below.

As discussed in detail above, the four State studies reporting an association between salicylate use and RS have been extensively criticized. In addition to comments pointing out the inherent limitations of case-control studies, specific questions about the design, execution, and analyses of these particular studies have been raised. Certain individuals, as well as the Executive Board of the American Academy of Pediatrics, have maintained that a labeling warning statement concerning salicylate use and RS would be premature at this time. On November 18, 1982, the Department of Health and Human Services announced that the American Academy of Pediatrics Executive Board's statement of November 8, 1982 (Ref. 85) is the first time that concerns have been raised by an independent scientific body and that it is critical that they be resolved. The announcement advised that the Secretary has decided that new

government-supported studies are necessary to help resolve the scientific dispute over the reported association between RS and salicylate-containing drugs. The announcement also advised that the Secretary has directed the Public Health Service to make recommendations to him for new research to help resolve the scientific dispute. (A protocol for a new study had been submitted earlier by industry representatives (Ref. 87)). The announcement pointed out, however, that a significant body of qualified opinion believes that the available scientific evidence sufficiently establishes an association that the public should be informed. Accordingly, the announcement advised that the Secretary has decided to continue the previously initiated public educational campaign to warn parents and professionals of the need for caution. The continuation of the public educational campaign is consistent with the statement of the American Academy of Pediatrics that was issued on November 19, 1982 (Ref. 86).

Recognizing the controversy over whether the results of the four State studies justify requiring label warnings at this time, the Secretary on November 18, 1982, also announced that this advance notice would set forth the available information and invite comments on whether label warnings should be required. Evidence of a potential public health risk may be sufficient to make public education appropriate but may not necesarily justify requiring revised product labeling.

Any proposed rule concerning an RS-salicylate labeling warning would be promulgated under the authority of sections 201(n), 502 (a) and (f), and 701(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(n), 352 (a) and (f), and 371(a)). If warranted by new scientific information or by the response to this advance notice, the possible labeling warnings announced in this notice may be required through an interim final rule (i.e., one with immediate effect). The possible label warnings and other labeling revisions under consideration are discussed in detail below.

II. Educational Activities

A. *Departmental initiatives*—1. *Surgeon General's advisory.* The Surgeon General of the U.S. Public Health Service issued a Surgeon General's advisory in the *Morbidity and Mortality Weekly Report* of June 11, 1982 (Ref. 49). That advisory recommended against the use of salicylates and salicylate-containing medications for children with influenza and chickenpox. The association of salicylates with RS, the Surgeon General states, "is based upon evidence from epidemiologic studies that are sufficiently strong to justify this warning to parents and health care personnel."

2. *FDA Drug Bulletin.* FDA issued an article in the August 1982 *FDA Drug Bulletin* which was distributed to over one million health care professionals, including physicians, pharmacists, and nurses (Ref. 88). The article reviews the data generally and advises caution in the use of salicylates in those viral illnesses particularly associated with the development of RS.

3. *FDA Consumer.* FDA also included an article on RS in the October issue of its publication, *FDA Consumer* (Ref. 89). This article reviewed the information on RS in terms understandable to the lay public and pointed out that aspirin and other salicylates may be associated with RS. Reprints of the article were sent to all consumer affairs offices of FDA for distribution to the public.

4. *Surgeon General's newspaper column.* The Surgeon General issued a newspaper column that discussed the suspected relationship between aspirin and RS and advised against giving aspirin to children with chicken pox, influenza, or a flu-like illness (Ref. 90). Approximately 8,000 copies of the newspaper column were distributed in early October.

5. *Radio public service announcements.* The Surgeon General also made recordings explaining that there may be an association between Reyes syndrome and aspirin and cautioning parents not to give aspirin when their children have flu or chickenpox (Ref. 91). Approximately 8,000 copies of these radio announcements were sent to radio stations on October 8, 1982.

6. *Question-and-answer brochures.* An RS information brochure in question-and-answer format has been made available on request to pharmacies and primary care physicians (Ref. 92). Approximately 673,000 copies of the brochure have been supplied for distribution.

7. *Dear Consumer letter.* A "Dear Consumer" letter offering copies of the question-and-answer brochure was mailed October 8, 1982, to approximately 13,000 consumers (Ref. 93).

8. FDA continues to work with health professional groups, including physicians (particularly pediatricians), and all other related organizations to transmit relevant information.

9. FDA continues to work with consumer and other organizations to transmit relevant information.

B. *Other informational activities.* A number of other publications disseminated information concerning the relationship between salicylates and RS. For example, the *Journal of the American Medical Association* of June 11, 1982, included a report of the Michigan study in a paper entitled, "Aspirin as a Risk Factor in Reye's Syndrome" (Ref. 35). The June 1982 issue of *Pediatrics* included a special report on "Aspirin and Reyes Syndrome" which included the recommendation of its Committee on Infectious Diseases of the American Academy of Pediatrics that "aspirin should not be prescribed under usual circumstances for children with varicella [chickenpox] or those suspected of having influenza on the basis of clinical or epidemiologic evidence" (Ref. 47). The recommendation also urged that appropriate governmental agencies undertake appropriate review and necessary action to inform the public at large.

In addition to Federal governmental efforts, a number of State health agencies have taken action to publicize the association between salicylates and RS. For example, the report of the Michigan studies notes that the possible association between aspirin and RS had received extensive publicity in Michigan.

III. Possible Labeling Requirements Under Consideration

Having reviewed the four State studies in light of the questions concerning the studies recognized by its own staff as well as the questions raised by industry representatives, consumer representatives, and health professionals, FDA is considering proposing a rule that would require the labeling of certain OTC and prescription salicylate-containing products to bear a warning against use in persons under 16 with flu or chickenpox. In order to assist the agency in determining whether to propose an RS-salicylate warning, FDA is in this advance notice requesting comments on the available data—e.g., on the design, execution, and analysis of the relevant studies and on the quality and strength of any demonstrated RS-salicylate association. FDA has suggested above some possible responses to questions concerning the studies that have already been raised; comments on these tentative responses are also invited.

On September 20, 1982, the Secretary announced the texts of warning

statements that the agency is considering proposing to be required on the labeling of salicylate-containing products. For over-the-counter (OTC) drugs, a proposed warning might read: "Warning: This product contains a salicylate. Do not use in persons under 16 years of age with flu or chicken pox unless directed by your doctor. The use of salicylates to treat these conditions has been reported to be associated with a rare but serious childhood disease called Reyes syndrome." The agency believes that the term "flu" is commonly understood to include influenza and a variety of other viral illnesses. Thus, flu and chicken pox would cover the viral illnesses that have been associated with RS. For prescription drugs, a proposed warning might read: "Drugs of this class, salicylates, have been reported to be associated with the development of Reyes syndrome in children under 16 years of age with chicken pox, influenza, and influenza-like infections." In addition to comments concerning the data on the relationship between salicylates and RS, the agency invites comments on the specific working of any RS warnings that might be proposed for salicylate-containing products.

The agency also invites comments on the appropriate scope of any proposed RS warnings for salicylate-containing products. FDA is considering proposing that RS warning statements appear in the labeling of all systemically absorbed salicylate-containing prescription drugs for human use that are administered orally, rectally, or parenterally and of all systemically absorbed salicylate-containing OTC drugs for human use that are administered orally or rectally. The salicylate in the product may be present either as a single ingredient or in combination with one or more other ingredients. Thus, a proposed rule would apply not only to products that contain aspirin, but also to drug products that contain other salicylates, such as aminosalicylic acid, sodium salicylate, sodium aminosalicylate, magnesium salicylate, choline salicylate, bismuth subsalicylate, aluminum aspirin, and calcium carbaspirin. Salicylate-containing drug products that would not be included would be those that are administered topically, and those that are used as mouthwashes.

Salicylate-containing drug products are probably the most widely used OTC drug products on the market. Salicylates are commonly used in analgesic drug products for the temporary relief of occasional minor aches, pains and headache and in antipyretic products for the reduction of fever. Salicylates are also often combined with OTC cold, cough, and allergy drug products for their analgesic and antipyretic effect. Although these classes of products constitute the largest use of salicylates, salicylates are also used in other categories of drug products, such as antidiarrheals.

Salicylates are usually used in prescription drug products in combination with other active ingredients, although some salicylates, such as aminosalicylic acid, may be used as a single active ingredient. Many prescription drug products containing a salicylate, either because of the other active ingredients with which they are combined or because of the specific indication of a particular salicylate, would not be used in children or adolescents under 16 years of age to treat flu or chickenpox. For example, the indications for products containing aminosalicylic acid or sodium aminosalicylate are for use as an antitubercular product. It is possible, however, that such a product could be administered to an individual under 16 years of age during the flu season, and that this might put that individual at risk. And there are other prescription combination salicylate-containing products that, though not administered for treating flu or chickenpox, could also be administered during the flu season to a child or adolescent. For this reason, the agency is considering proposing a rule that would require that all systemically absorbed salicylate-containing prescription drug products for human use administered orally, rectally, or parenterally carry an appropriate warning in their labeling.

The location of an RS warning statement on OTC drug product labeling is another issue on which the agency invites comment. The agency is considering proposing that all OTC drug products subject to the rule bear the required warning statement on all accompanying labeling, such as the outside container or wrapper label, and on the package insert. If the immediate container label contains warnings, that label would also be required to bear the required warning statement. The warning statement would be required to appear as the first warning under the heading "Warning" on all labels and labeling on which it would be required to appear. The agency is also considering proposing that, for prescription drug products subject to the proposed rule, the warning be required to appear in the "Warnings" section of the prescription drug labeling described in § 201.100(d) (21 CFR 201.100(d)).

The agency also in contemplating proposing to amend § 201.314 to require that the labeling for OTC and prescription salicylate-containing drug products subject to the proposed rule packaged only for use in children (pediatric products) not be permitted to recommend the product for us in flu or chickenpox.

The labeling of OTC salicylate-containing drug products subject to the proposed rule under consideration and packaged only for use in adults or that include directions for use in both children and adults would be permitted to continue to include a recommendation that the product be used for the symptomatic relief of flu or chickenpox. Because an adult product could be used in adolescents under 16 years of age, however, any recommendation for use in flu or chickenpox would be required to be followed immediately by the statement, "See salicylate warning."

Recognizing that not all consumers read the warnings contained in the labeling of OTC drugs that they have purchased frequently, the agency might propose to require a statement to be added to the "Directions" section on the immediate container label of OTC drug products, if such label bears such information, and in the "Directions" section of all accompanying labeling. The "Directions" section of the labeling is the section that includes information on how much of the product to take and how often to take it. This section is probably the most widely read section of OTC labeling. The statement that might be proposed to be required in the "Directions" section is as follows: "For persons under 16 years of age see warning against use of salicylate for flu or chickenpox." The agency invites comments on this approach or on alternative ways to bring this information to the attention of the consumer.

The agency also requests information on how rapidly industry would be able to comply with a labeling warning requirement for salicylate-containing OTC and prescription products. FDA believes that it could be feasible to require revised labeling to appear on salicylate-containing products within 90 days of the date a final rule was published in the **Federal Register.** The agency is considering proposing that any product subject to the rule that does not bear the required labeling statements and that is initially introduced or initially delivered for introdution into interstate commerce 90 days after publication of the final rule would be considered misbranded and, therefore, subject to regulatory action.

FDA is not now contemplating an immediate market withdrawal of all salicylate-containing products upon the effective date of a final rule. A requirement for the labeling of all salicylate-containing drug products already shipped in interstate commerce that would take effect soon after a final regulation was published would be impracticable and extremely difficult to monitor or enforce. Most salicylate-containing products subject to the proposed rule under consideration are OTC products, with aspirin-containing products being the most widely sold and available. Aspirin, as well as many other OTC salicylate-containing products, are available not only in pharmacies, but in various types of other retail outlets, including grocery and convenience stores.

FDA does not now possess sufficient information about the effects that market withdrawal of salicylate-containing products would have on the supply of needed medications to suggest a suitable exemption period. The agency invites comment on an appropriate period of time to allow for exhaustion of supplies of salicylate-containing products initially introduced or initially delivered for introduction into interstate commerce before the effective date of a final rule.

IV. Economic and Environmental Impact

FDA has preliminarily examined the Regulatory Impact and Regulatory Flexibility implications of the proposed regulation under consideration in accordance with Executive Order 12291 and the Regulatory Flexibility Act. The agency estimates that a proposal like that being considered would impose direct one-time costs totaling approximately $15–17 million, of which $12–$13 million corresponds to direct expenses of label modifications to be accomplished within a relatively short compliance period. The other one-time costs would be for possible product reformulations and/or new product marketing expenses. The agency also estimates indirect effects on consumer expenditures as a result of shifts of purchases from aspirin-containing to higher prices acetaminophen-containing products in response to label warnings. This expenditure increment would be estimated initially at $40–$60 million per year but would be expected to decline as product proliferation increases price competition in markets for acetaminophen products. These impacts taken together are below the thresholds for a major rule as defined in Executive Order 12291.

The impacts on small business are also believed to be insufficient to warrant a Regulatory Flexibility Analysis. Most of the direct relabeling costs would be expected to be incurred by the larger firms that dominate total sales of affected products. Impacts on small firms of sales shifts from aspirin-containing to acetaminophen-containing would not be expected to be significant because data in the Census of Manufacturers strongly suggest that only a few small firms sell solely or largely aspirin-containing products. The agency requests that interested persons submit any information that would aid FDA in assessing the economic impact of a proposed rule on salicylate-containing product labeling.

The agency also believes that the action under consideration is of a type that would not individually or cumulatively have a significant impact on the human environment. FDA invites comments on any potential environmental consequences of the action discussed in this advance notice of proposed rulemaking.

List of Subjects in 21 CFR Part 201

Drugs, Labeling.

Part V

Department of Commerce

National Oceanic and Atmospheric Administration

Deep Seabed Mining; Regulations for Commercial Recovery; Advanced Notice of Proposed Rulemaking

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

15 CFR Part 971

[Docket No. 21123-235]

Deep Seabed Mining; Regulations for Commercial Recovery; Advance Notice of Proposed Rulemaking

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: Public Law No. 96-283, the Deep Seabed Hard Mineral Resources Act (The Act), authorizes the Administrator of the National Oceanic and Atmospheric Administration (NOAA) to issue to eligible United States citizen applicants licenses for exploration for and permits for the commercial recovery of deep seabed hard mineral resources. The Act also requires that NOAA issue regulations with respect to deep seabed mining licenses and permits.

This advance notice of proposed rulemaking pertaining to deep seabed mining activities is issued to provide interested persons with an early opportunity to contribute to the development of regulations for commercial recovery. Interested persons are invited to submit such written data and views as they may desire.

DATE: Comments should be received by March 28, 1983.

ADDRESS: Submit communications, which should identify this notice, to: James P. Lawless, Chief, Ocean Minerals and Energy Division, Office of Ocean and Coastal Resources Management, National Ocean Service, National Oceanic and Atmospheric Administration, 2001 Wisconsin Ave., N.W., Room 410, Page I Building, Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT: Laurence J. Aurbach, Chief, Deep Seabed Licenses, Ocean Minerals and Energy Division, Office of Ocean and Coastal Resources Management, National Ocean Service, National Oceanic and Atmospheric Administration, Suite 105, Page 1 Building, 2001 Wisconsin Avenue, N.W., Washington, D.C. (202) 653-8257.

SUPPLEMENTARY INFORMATION: During 1980 and 1981 NOAA engaged in a rulemaking process to implement the Act and thus put in place the U.S. legal regime to facilitate continued efforts by U.S. citizens to develop deep seabed hard mineral resources (i.e., manganese nodules). The implementing regulations, most of which were issued in final form on September 15, 1981 (46 FR 45890), apply to exploration activities only. Pursuant to the Act and those regulations, NOAA is authorized to issue licenses for exploration for deep seabed hard minerals. In early 1982 NOAA received exploration license applications from four consortia which had been pursuing seabed mining activities prior to enactment of the Act. NOAA anticipates the completion of processing of these applications in 1983. Meanwhile, as pre-enactment explorers, these consortia are authorized to continue with exploration activities.

In order for U.S. pioneer consortia to proceed with their efforts toward commercial recovery, which under the Act is not authorized to begin before January 1, 1988, NOAA realizes that they soon will be faced with the decision as to whether to commit significant new levels of resources to further technology development. In addition, other U.S. citizens may be considering the possibility of entering the field of deep seabed mining. In order to make these major financial decisions, these persons will need to be able to assess the framework of the legal regime for commercial recovery under which U.S. citizens would operate.

NOAA also recognizes that deep seabed hard minerals may be critical to meeting the long-range national interests of the United States. Thus it is appropriate to assure that U.S. citizens can continue with their orderly planning for the development of these resources.

In view of the above considerations, NOAA is hereby initiating efforts to establish the regulatory framework under the Act pursuant to which U.S. citizens will be able to engage in the commercial recovery of deep seabed hard mineral resources.

NOAA's final rules for exploration were supported by a programmatic environmental impact statement (PEIS) covering the impacts of exploration plus foreseeable commercial recovery activities, a combined Regulatory Impact Analysis and Regulatory Flexibility Analysis, and a discussion paper dated November 1980. These documents cover, in addition to exploration issues, many of the issues relating to the commercial recovery regulations. In this regard, NOAA also intends to categorize these upcoming regulations as "major" under Executive Order 12291. Thus, it will retain the approach and language of the above documents to the extent they are appropriate for commercial recovery an no need for modification is evident, and supplement them as necessary to address commercial recovery issues. Accordingly, this advance notice covers major issues that NOAA believes are unique to commercial recovery, or where there may be significant differences between exploration and commercial recovery, and does not address issues satisfactory resolved in the exploration regulations.

NOAA solicits comments on the issues identified in this notice and on any other issue involved in developing commerical recovery regulations. After evaluating comments on this advance notice and conducting other preliminary discussions, NOAA will issue a notice of proposed rulemaking. All comments submitted in response to this advance notice will be available for examination during normal business hours in Room 105 of 2001 Wisconsin Ave., N.W., Washington, D.C. Any person interested in receiving regulatory documents as they are developed in the future should so inform NOAA at the above address and should furnish his or her name, address, affiliation, and phone number.

The following discussion identifies general issue areas and sets forth questions in each. Currently foreseeable issues include the following:

Rights of Licensees and Non-licensees to a Permit. Under 15 CFR 970.102(c), a licensee who is otherwise eligible under the requirements of the Act and implementing regulations is entitled to a permit for commercial recovery from an area covered by its license. The Act suggests that Congress expected that a permit applicant will be a licensee. However, there are conceivable situations where this may not be the case.

- Should any special requirements for commercial recovery or conditions be attached to the entitlement referenced above?
- May an applicant who has not secured a licenese apply or a permit without establishing a priority of right through a license? Or may a permit application carry with it a priority of right to an unlicensed site? If not, should an applicant be permitted to file for both a license and a permit at the same time? In order to confirm a priority of right, is there any authority or need for NOAA to make substantial or full compliance determinations for permit applications?

Financial Responsibility. In order to certify a permit application pursuant to Section 103(c)(1) of the Act, the Administrator must find that the "applicant will be financially responsible to meet all obligations which may be required * * * to engage in the * * * commercial recovery proposed in the application." An

applicant must establish that he will be financially responsible to meet all obligations which may be required to carry out his plan for commercial recovery. This can be demonstrated in various ways, but ultimately NOAA must be able to relate the applicant's resources to his proposed expenditures.

- What evidence should NOAA require concerning resources provided by the applicant, its member companies, lenders, or equity investors?
- Must these resources by legally committed, at the time of application, or can a plan demonstrate the source of financing and the applicant's reason to expect that these resources will be committed, including what legal entity will be responsible for meeting this expectation?
- Should documentation such as cash flow analyses be required, to show that the operations once started will continue to be funded?

Technological Capability. In order to certify a permit application as called for by Section 103(c)(2) of the Act, the Administrator must find that the "applicant will have the technological capability to engage in * * * commercial recovery."

- Must an applicant demonstrate in its permit application that it has proven technological capability, through complete systems tests of recovery equipment at sea, transportation, processing and waste disposal technology, prior to submitting its permit application? Or would an application be acceptable if it presents analogous experience or sub-system demonstration of equipment, or other theoretical demonstration of ability ot build and operate the system, with a plan to test after receiving the permit?
- NOAA will need documentation that the applicant will have personnel and support contractors, properly qualified and trained, to recover nodules, transport them to shore, process them, and dispose of wastes. What level of detail will be necessary? For example, is it necessary to list specific people, or is a description of necessary qualifications, training programs, and appropriate credentials sufficient?
- Assuming that recovery technology evolves during the permit term, should the applicant be required to apprise NOAA of each incremental improvement?
- Section 109(b) of the Act states that NOAA is to require use of best available technologies (BAT) to protect safety, health, and the environment where commercial recovery activities have a significant effect on these areas, unless incremental benefits are clearly insufficient to justify the incremental costs. Since no such significant effects have as yet been identified, what criteria for or evidence of significance may be appropriate? What criteria should NOAA use to balance these costs and benefits? If such effects were significant, how should NOAA determine what are the best available technologies? Under what circumstances is it appropriate to require BAT regarding activities under previously issued permits?

Resources Assessment. Section 103 of the Act requires that an applicant's commercial recovery plan include a resource assessment and that the area applied for be a logical mining unit. Thus documentation of resources must be provided.

With respect to resource assessment, what level of detail and what factors are appropriate for the resource assessment which must accompany the recovery plan under section 103(a)(2)(C) of the Act?

To what extent and with what documentation should the applicant be required to justify, based upon license phase (and earlier) findings, a certain size logical mining unit?

Conservation of Resources. The Act in Section 110 stresses "prevention of waste" and "regard for * * * the future opportunity for the commercial recovery of the unrecovered balance of the hard mineral resources" as two goals to be considered in developing terms, conditions and restrictions (TCR). It further notes "national need" for hard mineral resources and several other factors to be taken into account in establishing TCR. Within this framework, NOAA intends to encourage the wise use of the deep seabed manganese nodule resource so as to insure that its role as a resource for the future is not precluded by first generation mining.

As one option, NOAA could require the applicant to justify the logic of its proposed mining plan with regard to the timing of mining rich zones (see PEIS, page 137).

Should NOAA specify mining patterns in order to enhance the opportunity for second generation mining (PEIS, page 136)?

Should the applicant's proposed nodule recovery efficiency (presumably estimated during license phase mining system tests) have to fall above some threshold value, below which mining might be judget excessively inefficient?

Although the Act's concern for conservation (Section 110) makes it clear that a NOAA TCR should not affect, except incidentally, the decision of which minerals or metals are to be recovered, it may be appropriate to require that waste disposal be conducted in such a manner that manganese is not rendered "unavailable" for the future (PEIS, pages 137–139). In this regard, should NOAA require or otherwise provide for the retention of manganese-rich tailings from an operation whch does not plan to recover manganese during processing, rather than allowing it to be disposed of, perhaps permanently through ocean disposal? What approaches may be appropriate to provide for the long term availability for use in the U.S. of manganese, which may not be needed in the current market?

What criteria are appropriate to consider, if necessary, to prevent unwarranted generation of waste, as well as preparation of contingency plans to recover these wastes?

Environmental Effects and Safeguards. In order to prevent significant harm to the marine environment, Section 109(b) of the Act requires NOAA to issue appropriate TCR, including in certain cases use of BAT (see above). The PEIS discusses exploration activities as well as commercial recovery using anticipated "first generation" systems and procedures.

Until more is learned during research about benthic repopulation, it might be advisable to provide for avoiding a linear alignment of commercial mining sites, possibly by providing for limited areas to be left unmined to act as "bridges" to facilitate repopulation of mined areas (PEIS, pages 132–134). If this approach were taken, what factors would be appropriate to determine when such a linear alignment should not be permitted?

Although under the Act, Section 109(f), "stable reference areas" are not to be established unilaterally by the U.S., NOAA is proceeding with an examination of criteria for potential site selection for such areas, as part of its broader consideration of benthic impacts (PEIS, pages 134–135). If such areas were to be established in the future, what relationship should there be between these areas and mineable areas? What procedure shuld be used if stable reference areas were to be established?

With respect to the Act's requirement that a permittee monitor its activities, should NOAA state performance or prescriptive measures with respect to monitoring? Are other approaches more appropriate?

To what extent should the permittees be responsbile for monitoring long-term, farfield, cumulative effects of all nodule

mining activities in the North Equatorial Pacific?

• NOAA is mindful of the potential risk that a permittee might be required under the Act to cease operation upon discovery of a significant adverse environmental impact (see, for example, Sections 103(a)(2)(D)(ii), 106(a) and 106(c) of the Act). To help assure that potentially significant adverse environmental impacts listed in the PEIS may be mitigated, if they occur, by the imposition of corrective measures, should applicants be required to submit contingency plans describing how they would modify activities if it became necessary to mitigate such impacts? Alternatively, should NOAA not require such contingency plans in applications, but instead let the permittee assume the risk of a NOAA order to cease operations or to implement government-prescribed corrective measures? Examples of mitigation could include reducing the effects of the surface discharge (e.g., through discharge at some depth below the surface) or of the benthic plume (PEIS, pages 99–111).

• What documentation, if any, should be provided with permit applications which could be used in obtaining from the Environmental Protection Agency a National Pollutant Discharge Elimination System (NPDES) permit, as required by Section 109(e) of the Act?

• Following receipt of an application for a permit, NOAA intends to supplement the site-specific EIS prepared during the license process, which may already have been supplemented to address testing of mining systems. Should NOAA prescribe that, by the time of permit application or a year prior to testing under a permit for recovery, detailed environmental data for the minesite shall have been submitted?

NOAA Actions Relating to Onshore Activities. Onshore, environmental impacts occur from the port, transportation, processing, and waste disposal facilities. Authority to control those facilities is vested in Federal, state, and local agencies. NOAA intends to act as lead agency for preparation of an environmental impact statement relating to a commercial recovery permit, and thus to facilitate the onshore process with appropriate Federal, state and local agencies which would be responsible for issuing other permits.

• In this role, what information will NOAA need and should the applicant provide on issues such as alternative locations, compliance with Federal, state, and local laws, regulations, and permitting processes, and waste disposal requirements (see Technical Guidance Document, Section 3.5)?

• NOAA could complete its actions on a permit application significantly before other agencies could complete their actions on related permits. The Act gives guidance on the timing of NOAA actions on a permit application, but generally allows the Administrator to extend the time periods if the Administrator finds there is good reason to do so. Because factors the Administrator considered in his decision-making could change significantly based on the actions of other agencies, should he withhold final action on a permit application until other agencies complete their actions? Should the regulation address what NOAA should do if it processed the permit application to expedite issuance, and then a post-issuance action by another agency caused a major change in the assumptions upon which the NOAA permit was issued?

Processing Outside the U.S. Under Section 102(c)(5) of the Act, if processing outside the U.S. is necessary to make the project economically viable, NOAA can authorize processing outside the U.S., but only with assurances that the processed minerals will be returned to the U.S. for domestic use if the Administrator determines that the national interest so requires. What form of assurance (written statement, TCR, surety bond) would be appropriate? What criteria should NOAA use to determine the economic viability of the activity? What factors are relevant in considering "national interest"? What information should the applicant provide? Should environmental regulations or impacts at the foreign site be considered? Is economic viability for processing plants different from the normal business risks of any other heavy industrial facility located in the U.S.?

Other Issues. NOAA invites public comment on any other issue which should be considered in developing these regulations.

If there is sufficient public interest in or considerations raised with respect to any of these issues, NOAA will hold one or more workshops or discussion sessions to solicit further comment from interested persons in advance of issuing a Notice of Proposed Rulemaking. If appropriate, NOAA may issue a discussion paper for further comment. Those who are concerned about specific issues should identify the areas of their interest in their correspondence to NOAA so they can be placed on appropriate mailing lists.

This advance notice of proposed rulemaking is issued under the authority of section 308 of Pub. L. 96–283.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.) Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/FHWA	USDA/SCS		DOT/FHWA	USDA/SCS
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/MA	LABOR		DOT/MA	LABOR
DOT/NHTSA	HHS/FDA		DOT/NHTSA	HHS/FDA
DOT/RSPA			DOT/RSPA	
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	

Listing of Public Laws

Last Listing December 23, 1982

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (telephone 202–275–3030).

H.R. 6005 / Pub. L. 97–375. Congressional Reports Elimination Act of 1982. (December 21, 1982; 96 Stat. 1819) Price: $2.25.

H.R. 5553 / Pub. L. 97–376. To provide for the use and disposition of Miami Indians judgment funds in dockets 124–B and 254 before the United States Court of Claims, and for other purposes. (December 21, 1982; 96 Stat. 1828) Price: $1.75.

H.J. Res. 631 / Pub. L. 97–377. Making further continuing appropriations and providing for productive employment for the fiscal year 1983, and for other purposes. (December 21, 1982; 96 Stat. 1830)

H.R. 7144 / Pub. L. 97–378. District of Columbia Appropriation Act, 1983. (December 22, 1982; 96 Stat.) Price: $2.25.

H.R. 6417 / Pub. L. 97–379. To amend Public Law 96–432 relating to the United States Capitol Grounds. (December 22, 1982; 96 Stat.) Price: $1.75.

S. 1444 / Pub. L. 97–380. To authorize the Administrator of General Services to donate to State and local governments certain Federal personal property loaned to them for civil defense use, and for other purposes. (December 22, 1982; 96 Stat.) Price: $1.75.

S. 1681 / Pub. L. 97–381. To designate the southern Nevada water project the "Robert B. Griffith Water Project". (December 22, 1982; 96 Stat.) Price: $1.75.

S. 1894 / Pub. L. 97–382. Indian Mineral Development Act of 1982. (December 22, 1982; 96 Stat.) Price: $1.75.

S. 2034 / Pub. L. 97–383. To designate the lock and dam known as the Jones Bluff Lock and Dam, located on the Alabama River, as the "Robert F. Henry Lock and Dam". (December 22, 1982; 96 Stat.) Price: $1.75.

S. 2710 / Pub. L. 97–384. To establish the Charles C. Deam Wilderness in the Hoosier National Forest, Indiana. (December 22, 1982; 96 Stat.) Price: $1.75.

H.R. 2329 / Pub. L. 97–385. Conferring jurisdiction on certain courts of the United States to hear and render judgment in connection with certain claims of the Cherokee Nation of Oklahoma. (December 23, 1982; 96 Stat.) Price: $1.75.

H.R. 4364 / Pub. L. 97–386. To declare that the United States holds in trust for the Pascua Yaqui Tribe of Arizona certain land in Pima County, Arizona. (December 23, 1982; 96 Stat.) Price: $1.75.

S. 2611 / Pub. L. 97–387. To amend the Peace Corps Act. (December 23, 1982; 96 Stat.) Price: $1.75.

S. 3073 / Pub. L. 97–388. To provide for the distribution within the United States of the United States Information Agency film entitled "Dumas Malone: A Journey With Mr. Jefferson". (December 23, 1982; 96 Stat.) Price: $1.75.

The Federal Register

Regulations appear as agency documents which are published daily in the **Federal Register** and codified annually in the **Code of Federal Regulations**

The **Federal Register**, published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps people up to date on the Federal regulations currently in effect.

Mailed monthly as part of a **Federal Register** subscription are: the LSA (List of CFR Sections Affected) which leads users of the **Code of Federal Regulations** to amendatory actions published in the daily **Federal Register**; and the cumulative **Federal Register Index**.

The **Code of Federal Regulations** (CFR) contains the annual codification of the final regulations printed in the **Federal Register**. Each of the 50 titles is updated annually.

Subscription Prices:

Federal Register
One year: $300 domestic; $375 foreign
Six months: $150 domestic; $187.50 foreign

Code of Federal Regulations
One year: $615 domestic; $768.75 foreign
Single volumes: Individually priced.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 47, No. 250
Wednesday, December 29, 1982

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 52

United States Standards for Grades of Orange Juice

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule; correction.

SUMMARY: This document corrects a portion of the USDA's amendment to the United States Standards for Grades of Orange Juice appearing on pages 55455–55463 in the **Federal Register** of December 10, 1982, with respect to the minimum and maximum requirements for Brix/Acid Ratio in "Grade A" Canned Concentrated Orange Juice.

EFFECTIVE DATE: December 29, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. Paul Jennings, Processed Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, telephone (202) 447–6247.

SUPPLEMENTARY INFORMATION: This document corrects a portion of the USDA's amendment to the United States Standards for Grades of Orange Juice appearing on pages 55455–55463 in the **Federal Register** of December 10, 1982, with respect to the minimum and maximum requirements for Brix/Acid Ratio in "Grade A" Canned Concentrated Orange Juice. An inadvertent typing error resulted in an error in Table V. The requirements for Brix/Acid Ratio should have read (from left to right) Min Max Min Max instead of Max Min Max Min.

§ 52.1557 [Correction]

Accordingly the United States Standards for Grades of Orange Juice, §52.1557, Table V is amended to read as follows:

	Min	Max	Min	Max
°Brix/Acid Ratio.....	11.5:1	20.0:1	12.0:1	20.0:1

in the "Grade A" column. There are no changes in the "Grade B" column.

Since this change is made only to correct an inadvertent error in the original amendment, it has been determined that additional relevant information would not be made available by public participation in rulemaking proceeding on this amendment and good cause is found, under the administrative procedure provisions of 5 U.S.C. 533, that notice and other public procedure with respect to this amendment are impracticable and unnecessary. Furthermore, good cause is found for making this amendment effective less than 30 days after publication in the **Federal Register.**

Done at Washington, D.C. on December 23, 1982.

Eddie F. Kimbrell,

Deputy Administrator, Commodity Services.

BILLING CODE 3410–02–M

Animal and Plant Health Inspection Service

7 CFR Part 371

Organization, Functions, and Delegations of Authority, Deputy Administrator for Management

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document revises the statement of organization, functions and delegations of authority of the Animal and Plant Health Inspection Service to assign responsibility for administration of the Foreign Service personnel system for APHIS employees serving abroad to the Deputy Administrator for Management and the Human Resources Division. Further, certain organizational realignment within administrative management places safety and health concerns with Administrative Services Division and the responsibility for micrographics, records and communications and telecommunications with the Automated Data Systems Staff.

EFFECTIVE DATE: December 29, 1982.

FOR FURTHER INFORMATION CONTACT: John C. Frey, Animal and Plant Health Inspection Service, USDA, 6505 Belcrest Rd., Hyattsville, MD 20782 (301–436–6466).

SUPPLEMENTARY INFORMATION: The statement of organization, functions, and delegations of authority of the Animal and Plant Health Inspection Service is being amended to delegate to the Deputy Administrator for Management, the functional responsibility for administering the Foreign Service personnel system for employees of APHIS carrying out the missions of APHIS which require service abroad. The Secretary has delegated the responsibility for administering the Foreign Service personnel system for APHIS employees to the Assistant Secretary for Marketing and Inspection Services, who in turn has delegated such authority to the Administrator, Animal and Plant Health Inspection Service (47 FR 49009). In addition, the statement is also being amended to reflect realignments of certain administrative responsibilities whereby the concern for safety and health previously vested with the Human Resources Division is to be placed in the Administrative Services Division; likewise, responsibility for micrographics, records and communications, and telecommunications is being placed with the Automated Data Systems Staff. These changes are made in order to consolidate related functions which will result in better coordination and more effective services.

This rule relates to internal agency management, and therefore, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and other public procedures with respect thereto are impractical and contrary to the public interest, and good cause is found for making this rule effective less than 30 days after publication in the **Federal Register.** Further, since this rule relates to internal agency management, it is exempt from the provisions of E.O. 12291. Finally, this action is not a rule as defined by Public Law 96–354, the Regulatory Flexibility Act, and thus is exempt from the provisions of that Act.

List of Subjects in 7 CFR Part 371

Organization and functions (Government agencies).

PART 371—ORGANIZATION, FUNCTIONS AND DELEGATIONS OF AUTHORITY

Accordingly, 7 CFR Part 371 is amended as follows:

1. The authority citation for Part 371 reads as follows:

Authority: 5 U.S.C. 301.

2. Section 371.2 is amended by revising paragraph (e)(7) and by adding a new paragraph (e)(10) to read as follows:

§ 371.2 The Office of the Administrator.

* * * * *

(e) * * *

(7) Coordinating General Accounting Office and Office of the Inspector General activities in APHIS.

* * * * *

(10) Providing leadership and coordination for activities associated with APHIS international programs. Administering the Foreign Service personnel system for employees of APHIS in accordance with Section 202(a)(2) of the Foreign Service Act of 1980 (22 U.S.C. 3922), E.O. 12363, dated May 21, 1982), and the provisions of 7 CFR 2.51 (a)(1).

* * * * *

3. Section 371.5 is amended by revising paragraphs (b)(2) and (b)(3), (c)(2) and (d)(2) through (d)(5) and by adding a new paragraph (d)(6) to read as follows:

§ 371.5 Administrative management.

* * * * *

(b) * * *

(2) Planning, providing staff leadership and assistance to APHIS managers and program leaders in the areas of EEO and Civil Rights; organization; position management; performance appraisal; position classification; salary and wage administration; employee development and training pertaining to executive and managerial development, supervisory, administrative and clerical training and related activities; recruitment and placement, employee relations, and labor management relations.

(3) Providing leadership and coordination for activities associated with APHIS international programs; developing, implementing, and evaluating policies and procedures relating to the Foreign Service personnel system in APHIS.

* * * * *

(c) * * *

(2) Planning, providing staff leadership and operating administrative services and assistance to APHIS managers and supervisors in: real and personal property management and utilization; and procurement of supplies, equipment, and services through competitive and noncompetitive procedures or from established contract sources; safety, health and environmental concerns; providing for the development and control of forms, reports, records security, printing and distribution, mail and shuttle service; and providing overall direction and coordination for the design and construction of APHIS facilities; and directives management.

* * * * *

(d) * * *

(2) Planning directing and conducting studies to determine the feasibility of applying automated data systems and techniques to Agency operations. Determining the advantages of using automated systems and processing in terms of economic and other considerations.

(3) Developing and designing automated data systems, standards, and new and improved methods and techniques for translation into basic program structures relative to systems analysis, computer programming and equipment utilization and capabilities. Assisting Agency managers in determining informational requirements. Analyzing types and volume of data involved, cost of present methods and cost and other advantages of applying electronic data processing.

(4) Developing computer programs to meet objectives of specific programs and projects, including all levels of electronic data processing documentation and the testing or "debugging" of machine programs. Designing procedures and advising in the development of source documents to facilitate the conversion of data from source documents to machine media.

(5) Reviewing and evaluating existing systems and computer programs and implementing improvements.

(6) Planning, managing and/or coordinating agency policies, methods, and procedures for telecommunications, records management, micrographics and correspondence management.

9 CFR Part 92

[Docket No. 82-089]

Importation of Animals Through the Harry S Truman Animal Import Center

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule; correction.

SUMMARY: This document corrects references to paragraphs which were amended in a rule concerning the requirements for importing animals into the United States through the Harry S Truman Animal Import Center. This action is needed to correct an administrative oversight which resulted in revising a paragraph which did not exist, revising a paragraph to remove a footnote which was not located in that paragraph and revising a portion of another paragraph which did not exist.

EFFECTIVE DATE: December 28th, 1982.

FOR FURTHER INFORMATION CONTACT: Dr. Melvin Crane, VS, APHIS, USDA, Import-Export Staff, Room 819, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-8170.

SUPPLEMENTARY INFORMATION: On May 21, 1982, there was published in the **Federal Register** (47 FR 22079-22082) a final rulemaking document revising certain paragraphs in Title 9, Code of Federal Regulations, § 92.41 (9 CFR 92.41), the regulations concerning the requirements for importing animals through the Harry S Truman Animal Import Center. This rulemaking document contained three references to paragraphs which were revised which were not correct. These incorrect references resulted from a failure to take into account an interim rulemaking document published in the **Federal Register** on September 22, 1981, (46 FR 46784-46787) and affirmed in the **Federal Register** on May 19, 1982 (47 FR 21529) which, among other things, redesignated 9 CFR 92.41(b), (c), and (d) as 9 CFR 92.41(c), (d), and (e), respectively.

Done at Washington, D.C., this 21st day of December, 1982.

J. K. Atwell,

Deputy Administrator, Veterinary Services.

Accordingly, FR Doc. 82-14004, published at 47 FR 22079-22082, May 21, 1982 is corrected as follows:

1. On page 22080, in the middle column, amendatory item 2 should read:

"2. Section 92.41(c)(7) is revised to read:"

2. On the same page, in the middle column, amendatory item 3 should read:

"3. In § 92.41(d), footnote 15 is removed and footnotes 16 and 17 are renumbered 15 and 16, respectively."

3. On the same page, in the middle column, item 4 should read

"4. In § 92.41, paragraph (d), the Cooperative and Trust Agreement is revised to read as follows:"

BILLING CODE 1505-01-M

EXPORT-IMPORT BANK OF THE UNITED STATES

12 CFR Part 403

Classification, Downgrading, Declassification, and Safeguarding of National Security Information

AGENCY: Export-Import Bank of the United States.

ACTION: Amendments to rules.

SUMMARY: The Export-Import Bank of the U.S. is amending its rules to conform to the provisions of Executive Order 12356 (47 FR 14874, April 6, 1982) and its implementing directive, Information Security Oversight Office Directive No. 1 (47 FR 27836, June 25, 1982). These orders, effective August 1, 1982, establish procedures and criteria for classifying, declassifying and safeguarding national security information. The Bank's current rules are based upon Executive Order 12065 which was revoked by Executive Order 12356.

EFFECTIVE DATE: December 29, 1982.

FOR FURTHER INFORMATION CONTACT: Warren W. Glick, General Counsel, Export-Import Bank of the U.S., 811 Vermont Avenue, N.W., Washington, D.C. 20571 (202) 566-8334.

SUPPLEMENTARY INFORMATION: On April 2, 1982, the President issued E.O. 12356 "National Security Information," which supersedes E.O. 12065. This new E.O. 12356 and its Implementing Directive published by ISOO became effective August 1, 1982.

PART 403—[AMENDED]

The Export-Import Bank is amending 12 CFR Part 403 to conform with the requirements of E.O. 12356 and its implementing directive. Specifically, references to previous E.O. 12065 and its implementing directive have been replaced with references to E.O. 12356 and its implementing directive. In addition, paragraphs (a), (b), and (c) and the introductory text of § 403.9 are revised to read as follows:

§ 403.9 Mandatory review for declassification.

All information classified under E.O. 12356 or prior executive orders, except information described in § 3.4(b) of the Order, shall be subject to a review for declassification if:

(a) The request is made by a U.S. citizen or permanent resident alien, a Federal agency, or a State or local government and the request describes the document or material containing the information with sufficient specificity to enable the Bank to locate it with a reasonable amount of effort.

(b) A request for classified information under the Order will be processed in accordance with the Order. In such a case, however, the exemptions of the Freedom of Information Act and any other exemptions under applicable law may be invoked by the Bank to deny material on grounds other than classification.

(c) Requests may be addressed to the General Counsel, Export-Import Bank of the United States, 811 Vermont Avenue, NW., Washington, D.C. 20571.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

14 CFR Part 1203

Information Security Program

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: This revision is necessary to comply with the provisions of Section 1.2, Executive Order 12356, "National Security Information," dated April 6, 1982. The purpose of the revision is to designate a limited number of NASA officials having original classification authority as prescribed by the Executive Order. This revision accomplishes the stated purpose. Since this regulation involves a national security function, it is exempt from the procedures of 5 U.S.C. 553.

EFFECTIVE DATE: August 1, 1982.

FOR FURTHER INFORMATION CONTACT: Erwin V. Minter, NASA Security Office, Telephone (202) 755-3400.

List of Subjects in 14 CFR Part 1203

Classified information, Foreign relations.

PART 1203—INFORMATION SECURITY PROGRAM

14 CFR Part 1203 is amended by revising Subpart H to read as follows:

Subpart H—Delegation of Authority to Make Determinations in Original Classification Matters

Sec.
1203.800 Delegations.
1203.801 Redelegation.
1203.802 Reporting.

Authority: 42 U.S.C. 2451 et seq., and E.O 12356.

Subpart H—Delegation of Authority to Make Determinations in Original Classification Matters

§ 1203.800 Delegations.

(a) The NASA officials listed in paragraph (b) of this section are authorized to make, modify, or eliminate security classification assignments to information under their jurisdiction for which NASA has original classification authority. Such actions shall be in accordance with currently applicable criteria, guidelines, laws, and regulations and they shall be subject to any contrary determination that has been made by the Chairperson of the NASA Information Security Program Committee or by any other NASA official authorized to make such a determination.

(b) Designated Officials. (1) *TOP SECRET Classification Authority.*

(i) Administrator.

(ii) Deputy Administrator.

(iii) Associate Deputy Administrator.

(iv) Chairperson, NASA Information Security Program Committee.

(2) *SECRET and CONFIDENTIAL Classification Authority.*

(i) Officials listed in paragraph (b)(1) of this section.

(ii) Associate Administrator for Space Flight.

(iii) Associate Administrator for Space Science and Applications.

(iv) Associate Administrator for External Relations.

(v) Associate Administrator for the Management.

(vi) Associate Administrator for Aeronautics and Space Technology.

(vii) Associate Administrator for Space Tracking and Data Systems.

(viii) General Counsel.

(ix) Chief, NASA Security Office.

(x) Director, International Affairs Division.

(xi) NASA Security Classification Manager.

(xii) Field Installation Directors.

(xiii) Manager, NASA Resident Office—JPL.

(xiv) Installation Security Classification Officers.

(xv) Such other officials as may be delegated original classification authority.

(c) Written requests for original classification authority shall be forwarded to the Executive Secretary, NASA Information Security Program Committee with appropriate justification appended thereto. The Executive Secretary will submit such requests to the Committee Chairperson for a determination by the Committee regarding the validity of the requests. Findings and recommendations of the Committee will then be submitted by the Committee Chairperson to the Administrator for approval.

(d) The Executive Secretary shall maintain a list of all delegations of original classification authority by name or title of the position held.

(e) The NASA Information Security Program Committee shall conduct periodic review of delegation lists to ensure that the officials so designated have demonstrated a continuing need to exercise such authority.

(f) Original classification authority shall not be delegated to persons who only reproduce, extract, or summarize classified information, or who only apply classification markings derived from source material or as directed by a classification guide.

§ 1203.801 Redelegation.

Redelegation of TOP SECRET, SECRET, or CONFIDENTIAL original classification authority is not authorized.

§ 1203.802 Reporting.

The officials to whom original classification authority has been delegated herein shall ensure that feedback is provided to the Administrator through the NASA Information Security Program Committee. The Chairperson of the Committee shall keep the Administrator currently informed of all significant actions, problems, or other matters of substance related to the exercise of the authority delegated hereunder.

James M. Beggs,

Administrator.

NASA Information Security Program Committee

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: This revision updates the existing regulation on the NASA Information Security Program Committee. These technical changes include 3 changes in the titles of officials, and the deletion of a program office. These changes are made to reflect the current NASA organization.

EFFECTIVE DATE: August 1, 1982.

FOR FURTHER INFORMATION CONTACT: Erwin V. Minter, NASA Security Office, Telephone (202) 755-3400.

SUPPLEMENTARY INFORMATION: The Information Security Program Committee was established to comply with the provisions of Sections 3.4(d) and 5.3(a) of Executive Order 12356, "National Security Information," April 6, 1982. This revision specifically changes § 1203.900 and § 1203.902(a). This regulation involves a national security function and is exempt from the procedures of 5 U.S.C. 553.

List of Subjects in 14 CFR Part 1203

Classified information, Foreign relations.

14 CFR Part 1203, Subpart I is revised to read as follows:

PART 1203—INFORMATION SECURITY PROGRAM

Subpart I—NASA Information Security Program Committee

Sec.

1203.900 Establishment.
1203.901 Responsibilities.
1203.902 Membership.
1203.903 Ad hoc committees.
1203.904 Meetings.

Authority: 42 U.S.C. 2473; E.O. 12356.

Subpart I—NASA Information Security Program Committee

§ 1203.900 Establishment.

Pursuant to Executive Order 12356, "National Security Information," and the National Aeronautics and Space Act of 1958, as amended, there is established a NASA Information Security Program Committee (hereinafter referred to as the Committee) as part of the permanent administrative structure of NASA. The Director, DOD Affairs Division, is designated to act as the Chairperson of the Committee. The Head, Classification Management and Physical Security Section, NASA Security Office, is designated to act as the Committee Executive Secretary.

§ 1203.901 Responsibilities.

(a) The Chairperson reports to the Administrator concerning the management and direction of the NASA Information Security Program as provided for in Subpart B of this part. In this connection, the Chairperson is supported and advised by the Committee.

(b) The Committee shall act on all appeals from denials of declassification requests on all suggestions and complaints with respect to administration of the NASA Information Security Program as provided for in Subpart B of this part.

(c) The Executive Secretary of the Committee shall maintain all records produced by the Committee, its subcommittees, and its ad hoc panels.

(d) The NASA Security Office, NASA Headquarters, will provide staff assistance and support services for the Committee.

§ 1203.902 Membership.

The Committee will be comprised of the Chairperson, Executive Secretary, and one member designated by each of the following NASA officials:

(a) Associate Administrators for:

(1) Aeronautics and Space Technology.

(2) Space Science and Applications.

(3) Space Flight.

(4) Space Tracking and Data Systems.

(5) Management.

(6) External Relations.

(b) Associate Deputy Administrator.

(c) General Counsel.

§ 1203.903 Ad hoc committees.

The Chairperson is authorized to establish such ad hoc panels or subcommittees as may be necessary in the conduct of the Committee's work.

§ 1203.904 Meetings.

(a) Meetings will be held at the call of the Chairperson.

(b) Records produced by the Committee and the minutes of each

meeting will be maintained by the Executive Secretary.

[Release Nos. 33-6444; 34-19337; 35-22776; IC-12898; FR-9; S7-936]

Supplemental Disclosures of Oil and Gas Producing Activities

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Commission announces the adoption of final rules for supplemental oil and gas disclosures to require compliance with the provisions of Statement of Financial Accounting Standards No. 69 recently issued by the Financial Accounting Standards Board ("FASB"). These final rules also eliminate certain requirements for oil and gas disclosures set forth in Industry Guide 2 which duplicate requirements in Regulation S-X and the FASB statement. This action is consistent with the commitment announced in Accounting Series Release No. 289 to reexamine existing rules upon the development of an oil and gas disclosure standard by the FASB.

DATE: Effective for companies with fiscal years beginning on or after December 15, 1982, with earlier implementation encouraged. Where the supplemental oil and gas disclosures for years beginning before December 15, 1982, are presented in accordance with SFAS 69, the Commission will automatically waive the requirements of Rule 4-10(k) of Regulation S-X for those years.

FOR FURTHER INFORMATION CONTACT: M. Elizabeth Rader or John W. Albert (202-272-2130), Office of the Chief Accountant, Securities and Exchange Commission, Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION:

Background

On July 1, 1982, the Commission issued Securities Act Release No. 6412 (47 FR 28686) which proposed rules to require compliance with the provisions of an FASB statement of financial accounting standards expected to be issued upon finalization of an April 1982 FASB exposure draft on supplemental oil and gas disclosures. The Commission proposed rule amendments at that time to facilitate its prompt action on a final FASB standard. The Commission also proposed to revise certain disclosure requirements in Industry Guide 2 in order to eliminate duplication with Regulation S-X and the proposed FASB standard. On November 30, 1982, the FASB issued the related final standard as Statement of Financial Accounting Standards No. (SFAS) 69 entitled, "Disclosures about Oil and Gas Producing Activities." This statement supersedes the requirements of several earlier pronouncements [1] and establishes a comprehensive set of supplemental disclosures for oil and gas producing activities.

Summary of Conclusions

The Commission has evaluated the disclosures specified by SFAS 69 and, consistent with its evaluation of the exposure draft, has concluded that they provide adequate information about oil and gas producing activities, particularly because they include a presentation of a standardized measure of discounted future net cash flow relating to proved oil and gas reserves and a reconciliation of such standardized measure from period to period.

The Commission has also determined that this course of action is consistent with its responsibilities under the Energy Policy and Conservation Act of 1975 because the disclosures specified in SFAS 69 will be adequate to ensure the continued availability to the Department of Energy of the information necessary for an energy data base. In this regard, moreover, the Commission will continue to maintain in Regulation S-X its rules on accounting and reporting practices to be used by oil and gas producers in the preparation of the primary financial statements included in filings with the Commission.

Final SFAS 60 Disclosures

The supplemental disclosures adopted under SFAS 69 are substantially the same as those proposed in the exposure draft.[2] The four notable differences between the final standard and the exposure draft are as follows:

(1) A proposed requirement for geographic detail in the statement of changes in the standardized measure was deleted.

(2) Separate disclosure requirements were added for (a) costs incurred for acquisition of existing proved properties, if significant, and (b) affiliated and non-affiliated sales of oil and gas.

(3) Where a significant portion of proved reserve quantities or the related standardized measure of discounted future net cash flows is attributable to minority interests, the final standard requires disclosure of that fact and the approximate minority portion.

(4) The final statment adopts the significance criteria of SFAS 14 "Financial Reporting for Segments of a Business Enterprise" (certain ten percent tests based on total assets, revenues, and pretax operating income) to determine when oil and gas activities are sufficiently significant that the specified disclosures should be provided.

Commisson's Proposed Rules

The proposed rules differed from the FASB exposure draft in only a few respects. First, since the exposure draft required disclosures for "significant" oil and gas operations but did not define "significance," the Commission proposed to retain criteria for determining when oil and gas producing activities are significant. Second, the proposed amendments specified the periods for which the supplementary disclosures should be presented. Whereas the exposure draft called for disclosures only when a "complete set of financial statements" is presented, the Commission proposed that income statement related disclosures be presented for each annual income statement required, and that balance sheet related disclosures be presented for each year-end balance sheet required.

In addition, the Commission specifically encouraged comments concerning the existing Regulation S-X disclosure requirement for separate presentation of amounts of future net revenue from proved reserves applicable to each of the first three succeeding fiscal years. Although this

---

[1] Relevant provisions of FASB Statement Nos. 19, "Financial Accounting and Reporting by Oil and Gas Producing Companies," 25, "Suspension of Certain Accounting Requirements for Oil and Gas Producing Companies," 33, "Financial Reporting and Changing Prices," and 39, "Financial Reporting and Changing Prices: Specialized Assets—Mining and Oil and Gas," are amended by this standard.

[2] Publicly traded enterprises are thus required to disclose the following supplemental information about significant oil and gas activities:

—Proved oil and gas reserve quantities.

—Capitalized costs relating to oil and gas producing activities.

—Costs incurred in oil and gas producing activities.

—Results of operations for oil and gas producing activities.

—A standardized measure of discounted future net cash flows relating to proved oil and gas reserves (the "standardized measure").

requirement was not included in the disclosures described by the exposure draft, the Commission believed that it might provide information sufficiently useful to be included in the disclosure package, particularly when near-term cash flows are significantly affected by development and production expenditures.

Finally, the Commission also announced its intention to retain the safe harbor provision in Rule 4–10(k)(9) for disclosures made pursuant to its final rules.

Comments Received

The Commission received 37 letters of comment on its proposal to adopt the disclosure requirements of the FASB exposure draft and to revise Industry Guide 2.

Conformity With FASB Standard—Most commentators approved of the concept of conformity of Commission and FASB disclosure requirements. Their support or opposition to the Commission's specific proposed disclosures generally coincided with their position on the FASB's proposed presentation of a value-based standardized measure of discounted future net cash flows. Consistent with the response received by the FASB, approximately half the commentators supported the standardized measure as providing useful information. The other half contended that value-based information was too unreliable to be meaningful.

Three-year Disclosures of Undiscounted Future Net Revenue—Of the commentators addressing this issue, approximately two-thirds opposed its inclusion in the disclosure package. Supporters reiterated the position in the proposing release that these data were useful in assessing near-term cash flows. Analysts further believed the disclosures should be provided for more than three years. Opponents criticized the disclosure as inappropriate and not cost-beneficial because its objective was similar to that of the standardized measure, although the two items would be computed on different bases. They also viewed the additional disclosure as inconsistent with the objective of reducing disclosure volume.

Revisions of Guide 2—All commentators addressing these proposals supported the elimination of duplicative requirements. The commentators also offered various suggestions for a full reexamination of all the Guide 2 disclosures. These suggestions will be considered in the Commission's upcoming project to reevaluate the Guide 2 disclosures as a whole.

Evaluation of Comments

Based on a review and evaluation of the comment letters, the Commission has concluded that conformity of its disclosure requirements with those of the FASB is desirable. Although the final FASB standard contains certain differences from the exposure draft, the Commission continues to support the FASB's supplemental disclosure package as a whole and to believe that the standardized measure and the reconciliation of period-to-period changes in that standardized measure will provide meaningful and useful information for the assessment of future cash flows from oil and gas producing activities. Accordingly, the Commission is amending its rules for supplemental disclosures of oil and gas producing activities to require compliance with the provisions of SFAS 69. The only differences between the FASB standard and the Commission's rules will relate to certain matters, largely administrative in nature, discussed further in the section entitled "Final Rules." The Commission is also adopting its proposed revisions of Industry Guide 2.

Summary of Operations on the Basis of Reserve Recognition Accounting

By conforming its disclosure requirements with those of the FASB standard, the Commission is eliminating its requirement for a supplemental presentation of an earnings summary based on Reserve Recognition Accounting ("RRA"). The Commission believes that adequate consideration was given to the RRA earnings summary in the development of the FASB's supplemental disclosure package. Although the RRA earnings summary will no longer be required once registrants adopt the provisions of SFAS 69, the Commission encourages registrants who regard the RRA earnings summary as useful and relevant information to furnish the information on a voluntary basis.

Separate Disclosure of Undiscounted Future Net Revenues

As a further result of conforming its disclosure requirements with those of the FASB standard, the Commission will no longer require separate disclosure of the first three years of future net revenues on an undiscounted basis. In this decision, the Commission recognizes commentators' concerns that this disclosure could be redundant or confusing by comparison to the standardized measure. The Commission's primary objective in soliciting specific comments on this disclosure was to ensure that financial statement users have sufficient information to assess the impact of oil and gas producing activities on near-term cash flows and liquidity. The Commission continues to believe that this sort of information may in some circumstances be essential to an understanding of a company's financial position and results of operations. Accordingly, the Commission reminds registrants that disclosures of undiscounted future cash flows from oil and gas operations may be necessary in the Management's Discussion and Analysis of the financial statements. Such disclosures would ordinarily be expected where near-term cash flows are likely to be negative or only at a break-even level, and may be appropriate in other circumstances.

Discussion of Final Rules

The Commission has evaluated the differences between the FASB exposure draft and the final SFAS 69 and believes they are not sufficiently material to require re-exposure of the Commission's proposed rule changes. Overall, they reduce the compliance burden for detailed disclosure (by deleting the geographic breakdown of changes in the standardized measure) while making minor additions (e.g., information on affiliated sales and minority interests) only where necessary to a full understanding of the information presented.

Significance criteria—SFAS 69 also simplifies the compliance process by adopting the SFAS 14 "significance" criteria to determine whether enterprises are subject to its provisions. Thus, the supplemental disclosures are required whenever oil and gas revenues, pre-tax operating profit or loss, or identifiable assets exceed ten percent of comparable combined amounts for the consolidated enterprise. These materiality guidelines differ from the Commission's proposed rules in that the Commission's proposals did not include a revenue test and would have computed the asset test using the standardized measure rather than the historical cost of oil and gas assets.

The Commission believes that in most instances the significance criteria of SFAS 69 will identify the same enterprises as the Commission's proposed tests. Accordingly, in view of its commitment to conform its rules wherever practicable with those of the private sector, the Commission is not adopting its separate proposed significance tests. However, in those circumstances where the discounted present value of a registrant's oil and gas reserves in significantly in excess of

ten percent of consolidated total assets, the Commission expects that the general requirement for disclosure of material amounts will require that some disclosures be made, even if the stated SFAS 14 tests are not met.

Periods Presented—Since the final FASB standard, like the exposure draft, focuses only on complete annual sets of financial statements, the Commission is also adopting its proposal that disclosures related to annual periods be presented for each such annual period for which an annual income statement is required and that balance sheet disclosures be presented for each audited year-end balance sheet required.

Applicability of Commission Requirements—The final rules also specify that the subject supplemental disclosures shall be presented whenever required by the terms of the applicable Federal securities form. The SFAS 69 requirements apply to enterprises which are "publicly traded" as defined by the standard. This FASB definition is both broader and narrower than the class of enterprises currently required to provide supplemental oil and gas disclosures in Commission filings. The FASB definition includes certain small enterprises which although "traded" may not be required to file reports under either the Securities Act or the Securities Exchange Act. However, the FASB definition would not apply to other enterprises filing reports with the Commission such as certain limited partnerships, nor would it apply to companies providing information to investors under the Regulation D exemptions. The Commission recognizes that it has a different constituency and must retain the specific requirements of its various filing forms.

Limited Partnerships—Topic 12–A–3–C of the Staff Accounting Bulletin series currently states that in certain circumstances the staff will not take exception to omission of the value-based RRA disclosures required by Regulation S–X for limited partnerships engaged in oil and gas producing activities. This waiver applies only to value-based disclosures in periodic reports filled on Form 10–K where: (1) The partnership agreement contains buyout provision under which the general partner agrees to purchase the limited partnership interests that are offered for sale, based upon a specified valuation formula, and (2) some form of reserve value information is available to the limited partners pursuant to the partnership agreement. The staff anticipates that this policy will continue to apply to the comparable "standardized measure" disclosures specified in paragraphs 30–34 of SFAS 69. It should be noted, however, that the waiver in the Staff Accounting Bulletin extends only to value-based disclosures and not to reserve quantity disclosures or historical cost based information. In addition, the waiver was not intended to apply to limited partnerships where owners and buyers do not have some sort of value-based information otherwise automatically provided.

Safe Harbor—Since the Commission's requirements for supplemental oil and gas disclosures are being transferred from Rule 4–10(k) of Regulation S–X to a central repository for supplementary financial information in Regulation S–K, the final rules incorporate (within Rule 175 under the Securities Act of 1933 and the related safe harbor rules under the other Federal securities laws) the safe harbor provision set forth in existing Rule 4–10(k)(9). Various conforming changes are also being made to the proxy rules and to the specific filing requirements of certain Commission forms.

Effective Date and Transition

Consistent with the provisions of SFAS 69, the Commission's revised rules shall be effective for fiscal years beginning on or after December 15, 1982. Earlier implementation is encouraged but not required. The Commission strongly encourages but does not require registrants who elect to adopt the provisions of SFAS 69 early to restate the disclosures for prior years so that all information presented will be on a consistent basis.

The Commission's existing requirements in Rule 4–10(k) of Regulation S–X will continue to apply in their entirety to supplemental oil and gas disclosures for fiscal years beginning before December 15, 1982, *unless* the registrant elects to early adopt the disclosures specified by SFAS 69 or to restate disclosures for prior years in accordance with SFAS 69. Where the supplemental oil and gas disclosures for years beginning before December 15, 1982, are presented in accordance with SFAS 69, the Commission will automatically waive the requirements of Rule 4–10(k) for those years.

Codification Update

The "Codification of Financial Reporting Policies" announced in Financial Reporting Release No. 1 (April 15, 1982) (47 FR 21028) is updated to:

1. Remove section 406.02 and add a new Section 406.02 as follows:

406.02 Supplemental Disclosures.

2. Include in Section 406.02 the sections of this release entitled "Summary of Conclusions," "Summary of Operations on the Basis of Reserve Recognition Accounting," "Separate Disclosure of Undiscounted Future Net Revenues," "Discussion of Final Rules," and "Effective Date and Transition," identified as specified below:

a. Summary of Conclusions

b. Summary of Operations on the Basis of Reserve Recognition Accounting

c. Separate Disclosure of Undiscounted Future Net Revenues

d. Discussion of Final Rules

i. Significance Criteria (second paragraph)

ii. Applicability of Commission Requirements

iii. Limited Partnerships

e. Effective Date and Transition

This codification is a separate publication issued by the Commission. It will not be published in the Federal Register/Code of Federal Regulations System.

List of Subjects

17 CFR Parts 210, 229, 230, 231, 239, 240, and 241

Accounting, Reporting and recordkeeping requirements, Securities.

17 CFR Part 250

Accounting, Reporting and recordkeeping requirements, Securities, Utilities.

Text of Final Rules

Chapter II of Title 17 of the Code of Federal Regulations is amended as follows:

PART 210—FORM AND CONTENT OF AND REQUIREMENTS FOR FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, INVESTMENT COMPANY ACT OF 1940, AND ENERGY POLICY AND CONSERVATION ACT OF 1975

1. By adding a note to the end of paragraph (k) of § 210.4–10 as follows:

§ 210.4–10 Financial accounting and reporting for oil and gas producing activities pursuant to the Federal securities laws and the Energy Policy and Conservation Act of 1975.

* * * * *

(k) *Disclosure of oil and gas reserve information and historical financial data.*

Note.—*Deletion.* The requirements of this paragraph (k) shall not apply to supplemental disclosures accompanying financial statements for fiscal years beginning on or after December 15, 1982. For fiscal years beginning prior to that date, registrants may substitute the disclosures required under paragraph (c) of Item 302 of Regulation S–K (§ 229.302).

PART 229—STANDARD INSTRUCTIONS FOR FILING FORMS UNDER SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934 AND ENERGY POLICY AND CONSERVATION ACT OF 1975—REGULATION S–K

2. By revising the title of Part 229 to read as above:

3. By adding paragraph (c) to § 229.302 as follows:

§ 229.302 (Item 302) Supplementary financial information.

* * * * *

(c) Information about oil and gas producing activities.

Registrants engaged in oil and gas producing activities shall present the information about oil and gas producing activities (as those activities are defined in Regulation S–X, § 210.4–10(a)) specified in paragraphs 9–34 of Statement of Financial Accounting Standards ("SFAS") No. 69, "Disclosures about Oil and Gas Producing Activities." If such oil and gas producing activities are regarded as significant under one or more of the tests set forth in paragraph 8 of SFAS No. 69.

Instructions to Paragraph (c).

1. (a) SFAS No. 69 disclosures that relate to annual periods shall be presented for each annual period for which an income statement is required. (b) SFAS No. 69 disclosures required as of the end of an annual period shall be presented as of the date of each audited balance sheet required, and (c) SFAS No. 69 disclosures required as of the beginning of an annual period shall be presented as of the beginning of each annual period for which an income statement is required.

2. This paragraph, together with § 210.4–10 of Regulation S–X, prescribes financial reporting standards for the preparation of accounts by persons engaged, in whole or in part, in the production of crude oil or natural gas in the United States, pursuant to Section 503 of the Energy Policy and Conservation Act of 1975 (42 U.S.C. 8383) ("EPCA") and Section 11(c) of the Energy Supply and Environmental Coordination Act of 1974 (15 U.S.C. 796) ("ESECA") as amended by Section 506 of EPCA. The application of the paragraph to those oil and gas producing operations of companies regulated for ratemaking purposes on an individual-company-cost-of-service basis may, however, give appropriate recognition to differences arising because of the effect of the ratemaking process.

3. Any person exempted by the Department of Energy from any record-keeping or reporting requirements pursuant to Section 11(c) of ESECA, as amended, is similarly exempted from the related provisions of this paragraph in the preparation of accounts pursuant to EPCA. This exemption does not affect the applicability of this paragraph to filings pursuant to the federal securities laws.

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

4. By revising paragraph (b)(2) of § 230.175 to read as follows:

§ 230.175 Liability for certain statements by issuers.

* * * * *

(b) * * *

(2) Information which is disclosed in a document filed with the Commission, in Part I of a quarterly report on Form 10–Q or in an annual report to shareholders meeting the requirements of Rules 14a–3 (b) and (c) or 14c–3 (a) and (b) under the Securities Exchange Act of 1934 and which relates to (i) the effects of changing prices on the business enterprise, presented voluntarily or pursuant to Item 303 or Regulation S–K (§ 229.303 of this chapter), "Management's discussion and analysis of financial condition and results of operations," or Item 302 of Regulation S–K (§ 229.302 of this chapter), "Supplementary financial information," or (ii) the value of proved oil and gas reserves (such as a standardized measure of discounted future net cash flows relating to proved oil and gas reserves as set forth in paragraphs 30–34 of Statement of Financial Accounting Standards No. 69) presented voluntarily or pursuant to Item 302 of Regulation S–K (§ 229.302 of this chapter).

* * * * *

PART 231—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS THEREUNDER

5. By removing item 1 and paragraph A of item 3 of the Securities Act Industry Guide 2, Disclosure of Oil and Gas Operations, of Part 231 and redesignating and revising paragraphs B and C of Item 3 as paragraphs A and B respectively, to read as follows:

Guide 2. Disclosure of Oil and Gas Operations.

* * * * *

3. Production

A. For each of the last three fiscal years by the same geographic areas for which production data are required by Statement of Financial Accounting Standards (SFAS) No. 69:

(i) The average sales price (including transfers) per unit of oil produced and of gas produced;

(ii) The average production cost (lifting cost) per unit of production.

B. *Instructions.* Generally, net production should include only production that is owned by the registrant and produced to its interest, less royalties and production due others. However, in special situations (e.g., foreign production) net production before royalties may be provided, if more appropriate. If "net before royalty" production figures are furnished, the change from the usage of "net production" should be noted.

Any part of natural gas liquids production obtained through or from processing plant ownership rather than through leasehold ownership should be reported separately, if material.

Production of natural gas should include only marketable production of gas on an "as sold" basis. Production will include dry, residue, and wet gas, depending on whether liquids have been extracted before the registrant passed title. Flared gas, injected gas and gas consumed in operations should be omitted. Recovered gas-lift gas and reproduced gas should not be included until sold.

The transfer price of oil and gas produced should be determined in accordance with SFAS No. 69.

The average production cost per unit of production should be computed using production costs disclosed pursuant to SFAS No. 69. Units of production should be expressed in common units of production with oil or gas converted to a common unit of measure on the basis used in computing amortization (relative energy content or gross revenue method). *See* § 210.4–10(e)(3) or § 210.4–10(i)(3)(iii) of Regulation S–X, whichever is appropriate.

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

6. By adding Item 17B to Part I of the registration statement on Form S–18 as follows [Form S–18 does not appear in the Code of Federal Regulations but the form is discussed in § 239.28 of the Code of Federal Regulations]:

Item 17B. Supplementary Financial Information about Oil and Gas Producing Activities. Registrants engaged in oil and gas producing activities shall follow the disclosure standards specified in paragraph (c) of Item 302 of Regulation S–K [17 CFR 229.302] with respect to such activities.

* * * * *

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

7. By revisfng paragraph (b)(2) of § 240.3b–6 to read as follows:

§ 240.3b–6 Liability for certain statements by issuers.

* * * * *

(b) * * *

(2) Information which is disclosed in a document filed with the Commission, in part I of a quarterly report on Form 10–Q or in an annual report to shareholders meeting the requirements of Rules 14a–3 (b) and (c) or 14c–3 (a) and (b) under the Securities Exchange Act of 1934 and which relates to (i) the effects of changing prices on the business enterprise, presented voluntarily or pursuant to Item 303 of Regulation S–K (§ 229.303 of this chapter), "Management's discussion and analysis of financial condition and results of operations," or Item 302 of Regulation S–K (§ 229.302 of this chapter), "Supplementary financial information," or (ii) the value of proved oil and gas reserves (such as a standardized measure of discounted future net cash flows relating to proved oil and gas reserves as set forth in paragraphs 30–34 of Statement of Financial Accounting Standards No. 69) presented voluntarily or pursuant to Item 302 of Regulation S–K (§ 229.302 of this chapter).

* * * * *

§ 240.14a–3 [Amended]

8. By removing "Note 1" to paragraph (b)(1) of § 240.14a–3 and redesignating "Note 2" as "Note 1."

§ 240.14c–3 [Amended]

9. By removing "Note 1" to paragraph (a)(1) of § 240.14c–3 and redesignating "Note 2" as "Note 1."

PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND THE GENERAL RULES AND REGULATIONS THEREUNDER

10. By conforming Exchange Act Industry Guide 2 Disclosure of Oil and Gas Operations to the amendments adopted for Securities Act Industry Guide 2.

PART 250—GENERAL RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

11. By revising paragraph (b)(2) of § 250.103A to read as follows:

§ 250.103A Liability for certain statements by issuers.

* * * * *

(b) * * *

(2) Information which is disclosed in a document filed with the Commission, in part I of a quarterly report on Form 10–Q or in an annual report to shareholders meeting the requirements of Rules 14a–3 (b) and (c) or 14c–3 (a) and (b) under the Securities Exchange Act of 1934 and which relates to: (i) The effects of changing prices on the business enterprise, presented voluntarily or pursuant to Item 303 of Regulation S–K (§ 229.303 of this chapter), "Management's discussion and analysis of financial condition and results of operations," or Item 302 of Regulation S–K (§ 229.302 of this chapter), "Supplementary financial information," or (ii) the value of proved oil and gas reserves (such as a standardized measure of discounted future net cash flows relating to proved oil and gas reserves as set forth in paragraphs 30–34 of Statement of Financial Accounting Standards No. 69) presented voluntarily or pursuant to Item 302 of Regulation S–K (§ 229.302 of this chapter).

* * * * *

(Sec. 6, 7, 8, 10 and 19(a) (15 U.S.C. 77f, 77g, 77h, 77j, 77s) of the Securities Act of 1933; sec. 12, 13, 14, 15(d) and 23(a) (15 U.S.C. 78l, 78m, 78n, 78o(d), 78w) of the Securities Exchange Act of 1934; Sections 5(b), 14 and 20(a) ((15 U.S.C. 79e, 79n, 79t) of the Public Utility Holding Company Act of 1935; sec. 8, 30, 31(c) and 38(a) (15 U.S.C. 80a–8, 80a–29, 80a–30(c), 80a–37(a)) of the Investment Company Act of 1940 and sec. 503 (42 U.S.C. 6383) of the Energy Policy and Conservation Act of 1975)

As required by section 23(a)(2) of the Securities Exchange Act, the Commission has specifically considered the impact that the amendments will have on competition. The Commission finds that compliance with the amendments will not impose a burden on competition.

By the Commission.

Dated: December 15, 1982.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

NAVAJO AND HOPI INDIAN RELOCATION COMMISSION

25 CFR Part 700

Commission Operations and Relocation Procedures; Discretionary Funds; Revision of Regulations

AGENCY: Navajo and Hopi Indian Relocation Commission.

ACTION: Final rule.

SUMMARY: The Navajo and Hopi Indian Relocation Commission amends, in final form, its regulations for administration of discretionary funds. Certain sections have been rewritten in order to eliminate redundant language and clarify instructions to potential applicants. A provision has been added requiring recipients of grants and contracts to provide Indian preference in employment, training and the award of subcontracts and subgrants. The amendments are intended to achieve compliance with the Indian preference requirements of 25 U.S.C. 450e and to simplify and expedite administrative procedures.

EFFECTIVE DATE: December 29, 1982.

FOR FURTHER INFORMATION CONTACT: Paul M. Tessler, CFR Liaison Officer, P.O. Box KK, Flagstaff, Arizona, 86002, Telephone (602) 779–3311, extension 1376, FTS: 261–1376.

SUPPLEMENTARY INFORMATION: No comments were received on the Notice of Proposed Rulemaking published at 47 FR 47022, Oct. 22, 1982. A discussion of the final rule is as follows: The final rule in § 700.459 are amended by deleting paragraph (c) and by deleting language in paragraph (d) which refers to the listing of priorities.

The final rule are also revised in § 700.461 to eliminate annual solicitation and publications of project priorities. In conformity with the language Pub. L. 96–305, the Commission will annually solicit applications for programs which will facilitate and expedite the relocation efforts of the Commission. This change will allow maximum opportunity for applicants to propose programs beneficial to relocatees and host communities. In addition, as funds are available and priority projects are identified by the Commission, specific requests for proposals will be published by the Commission pursuant to Federal contract regulations.

The final rule in § 700.463 has been amended to establish a preapplication phase for grant applications. Under current regulations a preapplication is optional. Experience in administering the discretionary grants program has demonstrated that a preapplication stage is an efficient means of determing the appropriateness of proposed projects and identifying issues which must be clarified in order for an application to qualify for grant consideration.

The final rule in § 700.465 is amended by adding language which enhances the Commission's oversight ability with regard to construction projects. Additionally, § 700.465(e) was added for the same reasons.

The final rules in §§ 700.471 and 700.477 have been amended to assure compliance with Pub. L. 93–638 (25 U.S.C. 450e), the Indian Self-Determination Act. The Indian Self-

Determination Act provides in part as follows:

25 U.S.C. 450e Wages and Labor Standards.

(b) Any contract, subcontract, grant, or subgrant pursuant to this act [The Indian Self-Determination Act], the Act of April 16, 1934 (48 Stat. 596), as amended [25 U.S.C. § 452–457], or any other Act authorizing Federal contracts with or grants to Indian organizations or for the benefit of Indians, shall require that to the greatest extent feasible—

(1) Preferences and opportunities for training and employment in connection with the administration of such contracts or grants shall be given to Indians; and

(2) Preferences in the award of subcontracts and subgrants in connection with the administration of such contracts or grants shall be given to Indian organizations and to Indian owned economic enterprises as defined in Section 3 of the Indian Financing Act of 1974 (88 Stat. 77) 25 U.S.C. 1452

The Navajo and Hopi Indian Relocation Amendments Act of 1980, 25 U.S.C. 640d-25, (Pub. L. 96–305 Sec. 27), authorizes Federal contracts or grants for the benefits of Indians, and thus falls within the purview of the Indian Self-Determination Act. Therefore, any grant or contract of discretionary funds must require compliance with 25 U.S.C. 450e. The proposed revisions incorporate this requirement.

Additionally, § 700.471 now provides that applicants shall be notified of the Commission's approval or disapproval of grant applications. This provision was formerly contained in § 700.479(a).

The final rule in §700.479 has been amended only editorially.

List of Subjects in 25 CFR Part 700

Administrative practice and procedures, Conflict of interests, Freedom of information, Grant programs—Indians, Indians—claims, Indians—lands, Privacy, Real property acquisition, Relocation assistance.

Accordingly, the Navajo and Hopi Indian Relocation Commission revises, in final form, Subpart N of Part 700 of Title 25, Code of Federal Regulations, to read as follows:

PART 700—[AMENDED]

* * * * *

Subpart N—Discretionary Funds

Sec.

700.451 Purpose.
700.453 Definitions.
700.455 Financial Assistance.
700.457 Assistance to match or pay 30% of grants, contracts or other expenditures.
700.459 Assistance for demonstration projects and for provision of related facilities and services.
700.461 Method for Soliciting Applications.
700.463 Requirements for Applications.
700.465 Technical Feasibility.
700.467 Construction Costs.
700.469 Unallowable program and project costs.
700.471 Review and Approval.
700.473 Administrative Expenditures of the Commission.
700.475 Reports.
700.477 Administration of financial assistance and recordkeeping requirements.
700.479 Administrative review.

Authority: Pub. L. 93–531, as amended by Pub. L. 96–305.

* * * * *

Subpart N—Discretionary Funds

§ 700.451 Purpose.

(a) The purpose of this subpart is to establish procedures for the submission, review and approval, and administration of applications for financial assistance from the discretionary fund established by Pub. L. 93–531, as amended.

(b) The purpose of the discretionary fund is to provide financial assistance to activities which will facilitate and expedite the relocation and resettlement of individuals under the Act and ease the hardship incurred by these individuals.

§ 700.453 Definitions.

(a) Act means Pub. L. 93–531 (88 Stat. 1712, 25 U.S.C. 640d), as amended.

(b) Applicant means with respect to this subpart, any applicant as defined under § 700.457(c) or § 700.459(b).

(c) Business means any lawful activity, except a nonprofit organization, that is—

(1) Conducted primarily for the purchase, sale, lease and/or rental of personal and/or real property, and/or for the manufacture, processing, and/or marketing of products, commodities, and/or any other personal property; or

(2) Conducted primarily for the sale of services to the public.

(d) Commissioners means the three Commissioners of the Navajo and Hopi Indian Relocation Commission.

(e) In-kind contribution means a noncash contribution as described in attachment F of OMB Circular A–102.

(f) Local government means a local unit of government including specifically a county, municipality, city, town, township, local public authority, special district, council of governments, and other regional or interstate entity, or any agency or instrumentality of a local government.

(g) Nonprofit organization means a corporation, partnership, individual, or other public or private entity that is engaged in a lawful business, professional, or instructional activity on a nonprofit basis and that has established its nonprofit status under applicable Federal, State, or Tribal law.

(h) Related facilities means any building or structure normally found in a community and includes but is not limited to water, sewer and electrical lines, community centers, health centers and clinics, roads, and business establishments.

(i) Services means activities relating to human development including, but not limited to, educational and job training, mental health counseling, health care, and technical assistance in business administration, agriculture, and home economics.

(j) Tribe means the Navajo Chapter or the Hopi Village.

(k) Tribal subdivision means a Navajo Chapter or a Hopi Village.

§ 700.455 Financial assistance.

(a) The Commission may provide financial assistance to applicants eligible under this subpart from funds available for any fiscal year.

(b) To obtain financial assistance, an applicant shall submit an application in accordance with § 700.463.

(c) The Commission may make funding decisions throughout the year as applications are approved. The Commission shall, to the extent possible, make funds available throughout the year for approved applications. Based upon the merit of applications received under this subpart, the Commission shall determine how funds available under this subpart shall be apportioned among the activities described in § 700.457 and § 700.459.

§ 700.457 Assistance to match or pay 30% of grants, contracts or other expenditures.

(a) The purpose of applications for financial assistance under this section shall be to aid individuals subject to relocation under the Act and to assist the host communities, towns, cities, or other entities in adjusting to and meeting the needs of the relocatees. For this purpose, the discretionary fund may be used to match or pay not to exceed 30% (thirty percent) of any grant, contract, or other expenditure of the Federal Government, State or local government, tribal government or chapter, or private organization for the benefit of the Navajo or Hopi Tribe, if the Commission determines that such grant, contract, or expenditure would significantly assist the Commission in carrying out its responsibility or assist either tribe in meeting the burdens imposed by this Act.

(b) An "other expenditure" under this subsection is defined as cooperative agreements, direct provision of services,

or in-kind contributions. The Commission may match or pay not to exceed 30% (thirty percent) of another expenditure through a grant, contract, or cooperative agreement.

(c) Eligible applicants under this section for a grant, contract, or cooperative agreement are defined as States, local government, the Navajo and Hopi Tribes, tribal chapters or villages and profit and nonprofit organizations.

(d) Total Federal financial assistance under this section may reach 100% (one hundred percent) if the applicant receives 70% (seventy percent) Federal funding from Federal agencies other than the Commission.

(e) When another Federal agency is a primary source of financial assistance for an applicant, the Commission may, pursuant to an interagency agreement, transfer funds to the primary Federal agency providing financial assistance to the applicant.

(f) The Commission may, pursuant to an interagency agreement, transfer not to exceed 10% (ten percent) of the funds available under this subpart to another Federal agency directly assisting relocatees if such agency's activities would accomplish the purpose of paragraph (a) of this section. Financial assistance transferred to accomplish an eligible activity under paragraph (a) of this section may not exceed the funding limitation of paragraph (a) of this section.

(g) An applicant may apply for financial assistance under this section in accordance with the funding limitations described in paragraph (a) for the purpose of undertaking a technical feasibility study of a construction project or any major project with a total funding of over $200,000 (two hundred thousand dollars) or any dollar amount which the Commission may prescribe at some future time.

§ 700.459 Assistance for demonstration projects and for provision of related facilities and services.

(a) The purpose of applications for financial assistance under this section shall be to aid individuals subject to relocation under the Act. For this purpose, the discretionary fund may be used by the Commission to engage or participate either directly through Federal activities, or by cooperative agreement, grant, or contract in demonstration efforts to employ innovative energy or other technologies in providing housing and related facilities and services in the relocation and resettlement of individuals under this Act.

(b) Applicants eligible under this section to receive grants, cooperative agreements or contracts are: states, local governments, the Navajo and Hopi Tribes, tribal chapters, profit and nonprofit organizations, and individuals.

(c) Applicants for assistance under this section may receive up to 100% (one hundred percent) project or program funding from the Commission, however, the Commission may specify whether applications for certain types of programs or projects under this section require matching funding from the applicant.

(d) Activities described in §§ 700.457(a) and 700.459(a) may be provided by the Commission through in-house activities which receive financial assistance under this section.

(e) The Commission may, pursuant to an interagency agreement, transfer not to exceed 10% (ten percent) of the funds available under this subpart to another Federal agency directly assisting relocatees if such agency's activities would accomplish the purpose of §§ 700.457(a) and 700.459(a).

(f) An applicant may apply for financial assistance under this section for the purpose of undertaking a technical feasibility study of a construction project, or any major project with a total planned funding of over $200,000, (two hundred thousand dollars) or any dollar amount which the Commission may prescribe at some future time.

§ 700.461 Method for soliciting applications.

(a) The Commission shall utilize two methods to solicit applications for funding:

(1) The Commission shall issue an annual announcement of the availability of funds for programs which will most effectively meet the purposes of §§ 700.457(a) or 700.459(a). Applicants submitting applications under this announcement must demonstrate that the proposed project or program will effectively facilitate and expedite the relocation effort of the Commission.

(2) As priority needs are identified by the Commission, calls shall be issued during the fiscal year for specific proposals. Requests for proposal shall define the need to be addressed and the scope of work required.

(b) The annual announcements of the availability of funds and periodic requests for proposals shall be issued through the Commerce Business Daily and media which has regional and local circulation. The Commission may fund approved applications through grant, contract, or direct provision of services, pursuant to Pub. L. 93–531, as amended.

§ 700.463 Requirements for applications.

(a) Applicants shall submit preapplications for funding assistance. The preapplication shall be due by the closing date published by the Commission, and shall consist of:

(1) Standard Form 424;

(2) A brief narrative not to exceed one page describing how the program or project will meet the priorities established by the Commission pursuant to §§ 700.457 or 700.459.

(b) The Commission shall respond to each preapplication, and shall request each person submitting an acceptable preapplication to submit an application.

(c) Applications for financial assistance for a project or program may be submitted by the due date established by the Commission for a particular funding cycle. Applications received after the due date will be considered for the next funding cycle, although the Commission, at its discretion, may select such a project for funding under the current cycle. An original and 5 (five) copies of each application must be submitted to the Commission. Applications shall be submitted on such forms as the Commission may prescribe in conformity with OMB circulars A102 or A110.

(d) Applications under § 700.457 for matching financial assistance not to exceed 30% of another expenditure, shall include:

(1) A detail sheet showing the sources of matching funds, including both cash and in-kind contributions, and documentation that the applicant has fulfilled all of the requirements of any Federal agency, state or local government or chapter, or private organization from which the financial assistance is also requested; and

(2) A narrative statement which includes an explanation of how the application would aid relocatees and assist the host communities, towns, cities, or other entities in adjusting to and meeting the needs of relocatees.

(e) Applications for financial assistance under § 700.459 must justify the proposed project or program as a demonstration effort in order to be eligible for 100% funding.

(f) Applications shall contain a statement of how the applicant plans to comply with the provisions of the Indian Self-Determination Act (25 U.S.C. 450e) and the Act of April 16, 1934 (48 Stat. 596) as amended (25 U.S.C. 452–457).

§ 700.465 Technical feasibility.

Unless required by a non-Commission source of financial assistance, completed plans and specifications are

not required at the time an application is submitted for construction, technology, or another engineering project, however, an application for a construction, technology or another engineering project shall:

(a) Include sufficient information to determine the nature and scope of the project, its probable useful life, and a reasonable estimate of cost;

(b) Fully show that the applicant will follow design and performance criteria which conform to professionally recognized standards and which adequately define the technical capability of the project to serve current and foreseeable needs; and

(c) Justify any evidence or use of unorthodox design.

(d) Show that the applicant has a management plan for the facility which identifies probable sources of operating funds.

(e) An applicant who is awarded a grant under § 700.465 is required to submit completed plans and specifications for the construction, technology, or other engineering project prior to construction. The Commission shall review the completed plans and specifications for technical adequacy as part of its oversight function.

§ 700.467 Construction costs.

Construction costs and costs relating to construction such as machinery and equipment, architect/engineer services, and administrative services may be allowable as determined by the Commission.

§ 700.469 Unallowable program and project costs.

Costs for program or project operating expenses are not allowable except in the following cases—

(a) An application for an annual contract for services under §§ 700.457 or 700.459 may include necessary operating expenses; and

(b) An application for a demonstration effort under § 700.459 may include costs relating to the operation of the demonstration.

§ 700.471 Review and approval.

(a) Upon receipt of an application for financial assistance under this subpart, members of the Commission staff shall begin a preliminary review of the application with the intent of submitting a recommendation to the Commissioners of whether to accept or deny the application. The Commission staff may inform the applicant before its recommendation to the Commissioners, of any special problems or impediments which may result in a recommendation for disapproval; may offer any available technical assistance required to overcome such problems or impediments; and solicit the applicants written response.

(b) The Commission staff may solicit comments on an application from technical specialists, community groups and others, when such advice is needed to fully evaluate the application.

(c) The Commission staff shall forward the application with their recommendation to the Commissioners. The Commissioners may approve applications if they determine that:

(1) The application meets the requirements of this subpart;

(2) The application meets the intent of the Act;

(3) The application fully demonstrates that it will expedite the relocation and resettlement of individuals under the Act and ease the hardship incurred by these individuals or by the Tribes;

(4) The application is compatible with priorities identified by the Commission;

(5) The applicant can carry out the activities described in the application and can maintain proper financial controls on the activities for which financial assistance is requested;

(6) The applicant can and will comply with requirements for Indian preference in employment and training in connection with the administration of the grant, and preference to Indian organizations and Indian owned economic enterprises in the award of subcontracts or subgrants; and

(7) Funds are available.

(d) All applicants shall be notified in writing of the Commission's approval or disapproval of the grant applications.

§ 700.473 Administrative expenditures of the Commission.

The Commission may use funds in an amount not to exceed 5 percent of the funds authorized under this subpart for expenses relating to the administration of the discretionary fund including—

(a) Personnel, whose time is expended directly in support of such administration;

(b) Supplies which are expended directly in support of such administration;

(c) Contracts, where the work performed is directly related to such administration;

(d) Printing, directly in support of such administration; and

(e) Travel, directly related to such administration.

§ 700.475 Reports.

Reports shall be furnished by any recipient of financial assistance under this subpart, in such manner as may be required by the Commission.

§ 700.477 Administration of financial assistance and recordkeeping requirements.

(a) A State or local government [except an institution of higher education or a hospital since they are governed by paragraph (b)], or the Navajo or Hopi Tribe receiving a grant or cooperative agreement under this subpart shall comply with applicable law including the following requirements—

(1) Office of Management and Budget Circular A–102, entitled "Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments" including attachment C describing recordkeeping requirements; and

(2) Federal Management Circular 74–4 5 CFR Part 1310, entitled "Cost Principles Applicable to Grants and Contracts with State and Local Governments."

(b) A nonprofit organization, institution of higher education, or hospital receiving a grant or cooperative agreement under this subpart shall comply with applicable law including the following requirements—

(1) Office of Management and Budget Circular A–110, entitled "Grants and Agreements with Institutions of Higher Education, Hospitals and Other Nonprofit Organizations" including attachment C describing recordkeeping requirements; and

(2) Office of Management and Budget Circular A–122, entitled "Cost Principles for Nonprofit Organizations."

(c) A profit organization receiving a grant or cooperative agreement under this subpart shall comply with applicable law including Federal Procurement Regulations (41 CFR Subpart 1–15.2) for determining the reasonableness, allowability, and allocability of costs.

(d) A profit organization, tribal chapter, or individual receiving a grant or cooperative agreement under this subpart shall—

(1) Follow sound and proper procedures for the administration of the financial assistance including any procedures established by the Commission; and

(2) Retain records as required by the Commission.

(e) A State, local government, the Navajo or Hopi Tribe, a tribal chapter or an individual receiving a contract under this subpart shall comply with applicable law including Federal Procurement Regulations (41 CFR Parts 1–1 through 1–30). Recordkeeping requirements for contracts are described in §§ 1–3.814–2, 1–7.103–3, 1–7.103–18, 1–

7.603–20, and 1–7.603–7 of the Federal Procurement Regulations.

(f) A State, local government, profit or nonprofit organization, or an individual residing off of the Navajo or Hopi reservation applying for a grant or cooperative agreement under this subpart shall comply with Office of Management and Budget Circular A–95, entitled "Evaluation, Review and Coordination of Federal and Federally Assisted Programs and Projects" unless exempted under Part I, section 8.b. of this circular.

(g) Recipients of financial assistance under this subpart shall comply with other procedures which the Commission may from time to time prescribe for the administration of financial assistance provided under this subpart.

(h) A state or local government, nonprofit organization, institution of higher education, hospital, profit organization or individual receiving a grant, subgrant, contract or subcontract under this part shall comply with the provisions of the Indian Self-Determination Act (25 U.S.C. 450e) and the Act of April 16, 1934 (48 Stat. 596) as amended (25 U.S.C. 452–457) which require that to the greatest extent feasible:

(1) Preferences and opportunities for training and employment in connection with the administration of such contracts or grants shall be given to Indians; and

(2) Preference in the award of subcontracts and subgrants in connection with the administration of such contracts or grants shall be given to Indian organization and to Indian owned economic enterprises as defined in Section 3 of the Indian Financing Act of 1974 (88 Stat. 77) (25 U.S.C. 1452).

§ 700.479 Administrative review.

(a) If the Commissioners determine that implementation of an application approved according to § 700.471 fails to meet the requirements of this subpart, the Commissioners shall give notice to the recipient of their intent to terminate or suspend financial assistance to the recipient.

(b) The Commission shall issue such notice in written form sent by registered mail, return receipt requested, which notice shall include a statement of the reasons for the findings referred to in paragraph (a) of this section, and an explanation whether any amendments or actions would result in compliance with grant terms and conditions.

(c) Any person whose approved financial assistance is terminated or suspended under paragraph (b) of this section may request a review of such action by the Commission. Such request for review shall be in writing and must be mailed or delivered to the Commission not later than thirty (30) days after receipt of the notice from the Commission by the applicant. Such request for review shall state the reasons for the request and shall include any additional matters not before the Commission which the applicant deems appropriate. The Commission may grant or deny a review at its discretion and shall inform the applicant of its decision in writing.

Hawley Atkinson,

Chairman, Navajo-Hopi Indian Relocation Commission.

BILLING CODE 7560–01–M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 4a

[T.D. 7865]

Temporary Income Tax Regulations Relating to Source of Income; Source of Interest and Dividends

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provides temporary income tax regulations relating to the source of interest derived from resident alien individuals and domestic corporations and the source of dividends derived from domestic corporations under section 861 of the Internal Revenue Code of 1954. The temporary regulations are necessary to effectuate the intended purpose of the rules for determining the source of interest and dividend income.

EFFECTIVE DATE: The amendments are effective for interest and dividends received or accrued after December 29, 1982.

FOR FURTHER INFORMATION CONTACT: Martha E. Kadue of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T, 202–566–3238, not a toll-free call.

SUPPLEMENTARY INFORMATION:

Background

Section 861 prescribes rules for determining when certain items of gross income shall be treated as income from sources within the United States. Subsection (a)(1) states that interest on indebtedness of a United States resident (including a corporation) is generally treated as income from U.S. sources. One of the exceptions to this general rule, found in section 861(a)(1)(B), is for U.S. resident alien individuals and domestic corporations that have derived less than 20 percent of their gross income for their prior three taxable years from U.S. sources. Interest received from these individuals and corporations is treated as income from sources outside the United States under section 862(a)(1).

Subsection (a)(2)(A) of section 861 provides generally that dividends from domestic corporations are treated as income from U.S. sources. However, if the domestic corporation derived less than 20 percent of its gross income for its prior three taxable years from sources within the United States, the dividend is treated as income from sources outside the United States under section 862(a)(2).

Guam, the Commonwealth of the Northern Mariana Islands, and the Virgin Islands of the United States each have a separate territorial income tax system and generally apply the Internal Revenue Code as their territorial income tax law by substituting the name of the possession for the words "United States" as appropriate. These "mirror codes" include the source rules described above. Except as otherwise required, United States corporations are foreign corporations under these mirror codes. While each of these possessions has a separate tax system, each of those mirror codes together with the Internal Revenue Code forms an integrated scheme of income taxation.

Fixed and determinable annual and periodical income received by a U.S. person from sources within the above-mentioned possessions is not subject to tax to the recipient by certain of these possessions. These tax rules are generally designed to encourage U.S. investment in such possessions. They are not intended or designed to allow income earned in such possessions by a foreign person (not a citizen, resident, or domestic corporation of either jurisdiction) to avoid taxation by both the possession and the United States under sections 871(a) and 881(a) of their respective tax codes. Accordingly, these temporary regulations provide that income derived from Guam, the Commonwealth of the Northern Mariana Islands, and the Virgin Islands of the United States that is not subject to tax to the recipient by that jurisdiction is treated as U.S. source income for purposes of the source of income rules in section 861 (a)(1)(B) and (a)(2)(A). These temporary regulations shall be effective for interest and dividends

received or accrued after December 29, 1982.

This regulation is necessary to effectuate the intent of the statutory pattern described above. For this reason, it is found impractical to issue these regulations with notice and public comment procedures as outlined under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

Executive Order 12291

The Commissioner of Internal Revenue has determined that this final regulation is not subject to Executive Order 12291.

Drafting Information

The principal author of these temporary regulations is Martha E. Kadue of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and the Treasury Department participated in developing the regulations on matters of substance and style.

List of Subjects in 26 CFR Part 4a

Income tax, Sources of income.

Adoption of the temporary regulations

Accordingly, a new Part 4a, Temporary Income Tax Regulations Relating to Source of Income, is added to Title 26 of the Code of Federal Regulations, and the following temporary regulations are adopted:

PART 4a—TEMPORARY INCOME TAX REGULATIONS RELATING TO SOURCE OF INCOME

Sec.
§ 4a.861–1 Special rules for determining source of interest and dividends.

Authority: Sec. 7805, 68A Stat. 917 (26 U.S.C. 7805).

§ 4a.861–1 Special rules for determining source of interest and dividends.

(a) *In general.* For purposes of § 1.861–2(b)(2) and (c)(2), and § 1.861–3(a)(2), income derived from Guam, the Commonwealth of the Northern Mariana Islands, or the Virgin Islands of the United States that is not subject to tax to the recipient by that jurisdiction shall be considered income from sources within the United States.

(b) *Effective date.* This section shall be effective for interest and dividends received or accrued after December 29, 1982.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

Approved: December 22, 1982.

John E. Chapoton,
Assistant Secretary of the Treasury.

26 CFR Part 5f

[T. D. 7864]

Change in Annual Accounting Period of Possessions Corporations and Virgin Islands Corporations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations relating to changes in accounting periods under § 1.442–1(c) of the Income Tax Regulations and is necessitated by amendments to sections 936 and 934(b) by the Tax Equity and Fiscal Responsibility Act of 1982. These temporary regulations provide guidance to corporations entitled to benefits under section 936 or section 934(b) and which seek to change their annual accounting period.

DATE: The regulations apply to corporations which file, after September 3, 1982, statements for a change in annual accounting period.

FOR FURTHER INFORMATION CONTACT: Jacob Feldman of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224. Attention: CC:LR:T, (202) 566–3289, not a toll-free call.

SUPPLEMENTARY INFORMATION:

Background

Section 213 of the Tax Equity and Fiscal Responsibility Act of 1982 has changed the tax advantages derived by many corporations which have elected the benefits of section 936 (relating to Puerto Rico and possession tax credit) and corporations entitled to the benefits of section 934(b) (relating to certain domestic and Virgin Islands corporations). This statutory amendment is effective for taxable years beginning after December 31, 1982. Thus, the effect of the legislation could be delayed by a corporate taxpayer changing its annual accounting period to begin just before that date. Section 1.442–1(c) of the regulations provides for an automatic change in a taxpayer's annual accounting period if certain conditions are satisfied. Moreover, it appears that corporations entitled to benefits under sections 936 or 934(b) may be able to satisfy the conditions under the regulation. The effect of such automatic changes would be to delay the impact of the statutory amendments beyond the period that Congress intended. Therefore, this temporary regulations is issued to provide that an automatic change of annual accounting period is not permitted if the corporation has in effect an election under section 936 or is entitled to the benefits of section 934(b), and the change is attempted after September 3, 1982, the date of enactment of the Tax Equity and Fiscal Responsibility Act of 1982.

However, a taxpayer may still seek prior approval of the Commissioner to change its annual accounting period, in accordance with § 1.442–1(b).

For the reasons set forth above, there is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For these reasons, it is found impracticable to issue it with notice and public procedure under 5 U.S.C. 553(b) or subject to the effective date limitation of 5 U.S.C. 553(b).

Executive Order 12291

The Commissioner of Internal Revenue has determined that this temporary regulation is not a major regulation and, therefore, is not subject to Executive Order 12291.

Drafting information

The principal author of this regulation is Jacob Feldman of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices participated in developing the regulation, both on matters of substance and style.

List of Subjects in 26 CFR Part 5f

Income taxes, Tax Equity and Fiscal Responsibility Act of 1982.

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 5f is amended by the addition of the following new section in the appropriate place.

PART 5f—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX EQUITY AND FISCAL RESPONSIBILITY ACT OF 1982

Authority: 26 U.S.C. 7805.

§ 5f.442-1 Temporary regulations relating to change of annual accounting period.

(a) *In general.* Nowithstanding paragraph (c) (1) and (2) of § 1.442-1 of the Income Tax Regulations, a corporation which—

(1) Is described in section 934(b) and is an inhabitant of the Virgin Islands (within the meaning of section 28(a) of the Revised Organic Act of the Virgin Islands (48 U.S.C. 1642)), or

(2) Has in effect an election under section 936 may change its taxable year only if it secures the prior approval of the Commissioner in accordance with paragraph (b)(1) of § 1.422-1.

(b) *Effective date.* This section shall apply only if the statement described in paragraph (c)(1) of § 1.442-1 is filed after September 3, 1982.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

Approved: December 22, 1982.

John E. Chapoton,

Assistant Secretary of the Treasury.

BILLING CODE 4830-01-M

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 9

[T.D. ATF-122; Ref: Notice No. 402]

Solano County Green Valley Viticultural Area

AGENCY: Bureau of Alcohol, Tobacco and Firearms, Treasury.

ACTION: Final rule, Treasury decision.

SUMMARY: This final rule establishes a viticultural area in Solano County, California, to be known as "Green Valley" qualified by the words "Solano County." The Bureau of Alcohol, Tobacco and Firearms (ATF) believes the establishment of Solano County Green Valley as a viticultural area and its subsequent use as an appellation of origin on wine labels and in wine advertisements will allow wineries in the area to better designate where their wines come from and will enable consumers to better identify the wines from this area.

EFFECTIVE DATE: January 28, 1983.

FOR FURTHER INFORMATION CONTACT: Robert L. White, Research and Regulations Branch, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW., Washington, DC 20226 (202-566-7626).

SUPPLEMENTARY INFORMATION:

Background

On August 23, 1978, ATF published Treasury Decision ATF-53 (43 FR 37672, 54624) revising regulations in 27 CFR Part 4. These regulations allow the establishment of definite viticultural areas. The regulations also allow the name of an approved viticultural area to be used as an appellation of origin on wine labels and in wine advertisements.

On October 2, 1979, ATF published Treasury Decision ATF-60 (44 FR 56692) which added a new Part 9 to 27 CFR, for the listing of approved American viticultural areas.

Section 4.25a(e)(1), Title 27, CFR, defines an American viticultural area as a delimited grape-growing region distinguishable by geographical features. Section 4.25a(e)(2) outlines the procedure for proposing an American viticultural area. Any interested person may petition ATF to establish a grape-growing region as a viticultural area.

Mr. Ben A. Volkhardt, president of the West Solano County Grape Growers Association, petitioned ATF to establish a viticultural area in Solano County, California, to be known as "Green Valley." In response to this petition, ATF published a notice of proposed rulemaking, Notice No. 402, in the **Federal Register** on January 11, 1982 (47 FR 1149), proposing the establishment of the Green Valley viticultural area.

Comments

One comment was received during the comment period. The comment was from Ms. Audrey M. Sterling, one of the partners of the Iron Horse Ranch and Vineyard located in Sonoma County, California. Ms. Sterling stated that she has a petition pending with ATF for the establishment of a viticultural area in Sonoma County to be known as "Green Valley." She stated that her vineyard is located in a valley which has historically been known as "Green Valley." Ms. Sterling suggested that since ATF has two pending petitions for viticultural areas to be named Green Valley, one should be designated "Green Valley—Solano County" and the other should be designated "Green Valley—Sonoma County." As an alternative proposal, Ms. Sterling suggested that the names "Solano—Green Valley" and "Sonoma—Green Valley" be used.

After careful consideration of this comment, ATF has decided that the most appropriate name for this viticultural area is Green Valley provided that the words "Solano County" appear in direct conjunction with the name "Green Valley" on the wine label. To allow for flexibility in label design, the words "Solano County" may be reduced in type size to the minimum allowed in 27 CFR 4.38(b).

Evidence of the Name

The name of the area, Green Valley, was well documented by the petitioner. After evaluating the petition and the comment received, ATF believes that the name "Solano County" should be made a part of the viticultural area name in order to distinguish this area from Green Valley located in Sonoma County. ATF believes that the name "Green Valley", qualified by the words "Solano County," is the most appropriate name for this area and that the use of this name will eliminate any possible consumer confusion concerning which of the two "Green Valley" areas grew the grapes.

Geographical Evidence

In accordance with 27 CFR 4.25a(e)(2), a viticultural area should possess geographical features which distinguish the viticultural features of the area from surrounding areas.

The petition and attached documents show that Green Valley is located in the southwestern portion of Solano County adjacent to the Napa County line and west of Suisun Valley. Green Valley is a small valley approximately one mile wide and four miles long and has about 400 acres of grapes within its boundaries. It lies within the southern end of two ranges of the Coast Range, the Vaca Mountains on the east and the Mount George Range on the west. The valley terminates in the south at the marshlands of Suisun Bay.

Green Valley lies within the Coastal area climate and is characterized by cool, moist winds blowing inland from the ocean and bay almost continuously from May through early Fall.

The climate in Green Valley is mid-region III as classified by the University of California at Davis system of heat summation by degree-days.

The season totals for degree-days above 50 degrees Fahrenheit for Green Valley were 3,683.9 in 1973 and 3,498.2 in 1974. In comparison, the season totals for upper Suisun Valley were 3,768.4 in 1973 and 3,700.5 in 1974. In mid-Suisun Valley the season totals were 3,460.4 in 1973 and 3,256.3 in 1974. Suisun Valley lies directly east of Green Valley.

Due to the proximity of Green Valley to the Pacific Ocean, fog is very prevalent in the valley during the months of May, June, July and August. In contrast, fog hardly ever penetrates into

the nearby Suisun Valley or into the Vacaville-Dixon area which lies to the east of Suisun Valley.

The soil in Green Valley consists of Conejo clay loam. In contrast the soil in Suisun Valley consists of Brentwood clay loam, Sycamore silty clay loam, San Ysidro sandy loam, and Rincon clay loam. The soil in the Vacaville-Dixon area consists of Yolo loam, Yolo silty clay loam, and Brentwood clay loam.

The watershed in Green Valley drains southward into the Suisun Bay. In the Vacaville-Dixon area, which lies to the east of Green Valley and Suisun Valley, the watershed drains eastward into the Sacramento River.

After evaluating the petition and the comment received, ATF has determined that due to the topographic and climatic features of Green Valley, it is distinguishable from the surrounding areas.

Boundaries

The boundaries proposed by the petitioner are adopted. ATF believes that these boundaries delineate an area with distinguishable physical and climatic features.

Miscellaneous

ATF does not wish to give the impression by approving the Green Valley viticultural area that it is approving or endorsing the quality of the wine from this area. ATF is approving this area as being viticulturally distinct from surrounding areas, not better than other areas. By approving the area, wine producers are allowed to claim a distinction on labels and advertisements as to origin of the grapes. Any commercial advantage gained can only come from consumer acceptance of wines from Green Valley.

Executive Order 12291

It has been determined that this final regulation is not a "major rule" within the meaning of Executive Order 12291, 46 FR 13193 (February 17, 1981), because it will not have an annual effect on the economy of $100 million or more; it will not result in a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and it will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Regulatory Flexibility Act

The provisions of the Regulatory Flexibility Act relating to an initial and final regulatory flexibility analysis (5 U.S.C. 603, 604) are not applicable to this final rule because the final rule will not have a significant economic impact on a substantial number of small entities. The final rule will not impose, or otherwise cause, a significant increase in the reporting, recordkeeping, or other compliance burdens on a substantial number of small entities. The final rule is not expected to have significant secondary or incidental effects on a substantial number of small entities.

Accordingly, it is hereby certified under the provisions of section 3 of the Regulatory Flexibility Act (5 U.S.C. 605(b)), that this final rule will not have a significant economic impact on a substantial number of small entities.

Disclosure

A copy of the petition and appropriate maps with boundaries marked are available for inspection during normal business hours at the following location:

ATF Reading Room, Room 4405
Office of Public Affairs and Disclosure
12th and Pennsylvania Avenue, NW
Washington, DC 20226

Drafting Information

The principal author of this document is Robert L. White, Research and Regulations Branch, Bureau of Alcohol, Tobacco and Firearms. However, other personnel of the Bureau and of the Treasury Department have participated in the preparation of this document, both in matters of substance and style.

List of Subjects in 27 CFR Part 9

Administrative practice and procedure, Consumer protection, Viticultural areas, Wine.

Authority and Issuance

Accordingly, under the authority contained in section 5 of the Federal Alcohol Administration Act (49 Stat. 981, as amended; 27 U.S.C. 205), 27 CFR Part 9 is amended as follows:

PART 9—AMERICAN VITICULTURAL AREAS

Par. 1. The table of sections in 27 CFR Part 9, Subpart C, is amended to add the title of § 9.44 as follows:

Subpart C—Approved American Viticultural Areas

Sec.

* * * * *

§ 9.44 Solano County Green Valley.

* * * * *

Par. 2. Subpart C is amended by adding § 9.44 as follows:

Subpart C—Approved American Viticultural Areas

* * * * *

§ 9.44 Solano County Green Valley.

(a) *Name.* The name of the viticultural area described in this section is "Green Valley" qualified by the words "Solano County" in direct conjunction with the name "Green Valley." On a label the words "Solano County" may be reduced in type size to the minimum allowed in 27 CFR 4.38(b).

(b) *Approved maps.* The appropriate maps for determining the boundaries of the Green Valley viticultural area are two U.S.G.S. maps. They are titled:

(1) "Mt. George Quadrangle, California", 7.5 minute series (1968); and

(2) "Cordelia Quadrangle, California", 7.5 minute series (1968).

(c) *Boundaries.* The Green Valley viticultural area is located in Solano County, California. The beginning point is the intersection of the township line identified as T6N/T5N with the westernmost point of the Solano County/Napa County line on the north border of Section 4, located on U.S.G.S. map "Mt. George Quadrangle."

(1) From the beginning point, the boundary runs in a southerly direction along the Napa/Solano County border to State Road 12;

(2) Thence east along State Road 12 to where it intersects with Interstate 80;

(3) Thence southwest on Interstate 80 to where it intersects with the Southern Pacific Railroad track;

(4) Thence in an easterly direction along the Southern Pacific Railroad track to where it intersects with range line "R3W/R2W";

(5) Thence due north on range line "R3W/R2W" to where it intersects with the Solano County/Napa County line;

(6) Thence due west along the Solano County/Napa County line to the point of beginning.

Signed: November 17, 1982.
W. T. Drake,
Acting Director.
Approved: December 6, 1982.
David Q. Bates,
Deputy Assistant Secretary (Operations).

Department of the Army

32 CFR Part 505

[Army Reg. 340-21]

Privacy Act of 1974; Personal Privacy and Rights of Individuals Regarding Personal Records

AGENCY: Department of the Army, DOD.
ACTION: Final rule.

SUMMARY: The Army hereby adopts exemption rule for Army system of records A0917.10DASG, Family Advocacy Case Management Files.

EFFECTIVE DATE: January 17, 1983.

FOR FURTHER INFORMATION CONTACT: Mrs. Dorothy Karkanen, Office of The Adjutant General, Headquarters, Department of the Army (DAAG-AMR-S), 2461 Eisenhower Avenue, Alexandria, VA 22331; telephone (703) 325-6163.

SUPPLEMENTARY INFORMATION: In 47 FR 51767, November 17, 1982, the Army proposed to amend the exemption rule for the above system of records which had been re-described.

List of Subjects in 32 CFR Part 505

Privacy.

PART 505—[AMENDED]

In that no comments were received concerning this proposed amendment, the rule is adopted as proposed and § 505.9 of 32 CFR is amended to read as follows:

* * * * *

Exempted Record System

(Specific Exemptions)

ID—A0917.10DASG

SYSNAME—Family Advocacy Case Management Files.

EXEMPTION—All portions of this system which fall within 5 U.S.C. 552a(k)(2) and (5) are exempted from the following provisions of Title 5 U.S.C., section 552a: (d).

AUTHORITY—5 U.S.C., 552a(k)(2) and (5).

REASONS—Exemptions are needed in order to encourage persons having knowledge of abusive or neglectful acts toward children to report such sources from embarrassment or recriminations as well as to protect their right to privacy. It is essential that the identities of all individuals who furnish information under an express promise of confidentiality be protected. In the case of spouse abuse, it is important to protect the privacy of spouses seeking treatment. Additionally, granting individuals access to information relating to criminal and civil law enforcement could interfere with on-going investigations and the orderly administration of justice in that it could result in the concealment, alteration, destruction, or fabrication of information, could hamper the identification of offenders or alleged offenders, and the disposition of charges, and could jeopardize the safety and well-being of parents, children, and abused spouses.

COPYRIGHT ROYALTY TRIBUNAL

37 CFR Part 304

[Docket No. CRT 82-2]

1982 Adjustment of Royalty Schedule for Use of Certain Copyrighted Works in Connection With Noncommercial Broadcasting; Terms and Rates of Royalty Payments

AGENCY: Copyright Royalty Tribunal.
ACTION: Final rule.

SUMMARY: Copyright Royalty Tribunal (Tribunal) adopts rule establishing the terms and rates of royalty payments for the use of published nondramatic musical works and published pictorial, graphic, and sculptural works by public broadcasting entities as required by 17 U.S.C. 118 (b) and (c). The rule also establishes procedures by which copyright owners may receive reasonable notice of the use of their works, and for the keeping by public broadcasting entities of records of such use.

EFFECTIVE DATE: January 1, 1983.

FOR FURTHER INFORMATION CONTACT: Edward W. Ray, Chairman, Copyright Royalty Tribunal, 1111 20th Street, NW., Room 450, Washington, D.C. 20036, 202-653-5175.

SUPPLEMENTARY INFORMATION: 17 U.S.C. 118 establishes a copyright compulsory license for the use by noncommercial broadcasting of published nondramatic musical works and published pictorial, graphic, and sculptural works. 17 U.S.C. 118(c) provides that between June 30 and December 31, 1982 the Tribunal shall conduct a proceeding for the determination of reasonable terms and rates of royalty payments for the use of these works. 17 U.S.C. 118(b) requires the Tribunal to adopt regulations by which copyright owners may receive reasonable notice of the use of their works and for the keeping by public broadcasting entities of records of such uses. The Tribunal published in the Federal Register of June 30, 1982 (47 FR 28446) notice of the commencement of the proceeding required by 17 U.S.C. 118 (c) to adopt a schedule of rates and terms to replace those established by the Tribunal in 1978 (43 FR 25068-73), and subsequently amended.

The Tribunal conducted public hearings to receive testimony on the rates and terms of royalty payments and the regulations required by 17 U.S.C. 118(b) on November 12 and 15, 1982. The Tribunal at a public meeting on December 20, 1982 adopted the final rule.

17 U.S.C. 118(b)(2) provides that "License agreements voluntarily negotiated at any time between one or more copyright owners and one or more public broadcasting entities shall be given effect in lieu of any determination by the Tribunal." The Tribunal has been notified that voluntary agreements have been filed in the Copyright Office on behalf of the Public Broadcasting System (PBS) and National Public Radio (NPR) with each of the American Society of Composers, Authors and Publishers (ASCAP), Broadcast Music, Inc. (BMI), SESAC, and the Harry Fox Office.

The Tribunal on November 1, 1982 received a Joint Proposal of ASCAP and the Intercollegiate Broadcasting System (IBS), which includes among its membership the majority of noncommercial educational radio stations licensed to schools, colleges, and universities. These entities presented a joint proposal, rather than entering into a voluntary agreement, because IBS does not represent all noncommercial educational radio stations licensed to colleges and universities, and IBS does not have power to bind its members to an agreement. BMI and SESAC subsequently advised the Tribunal of their endorsement of the Joint Proposal.

Summary of Testimony

The Tribunal hearings were divided between the consideration of rates and terms for musical works and visual works.

The PBS music case was presented by Gwendolyn Wood, PBS Copyright Administrator, and James Klutz, Vice President and Chief Financial Officer of PBS. Ms. Wood testified as to the voluntary agreements reached by PBS, the music provisions of the regulations proposed by PBS, the experience of PBS with the Tribunal's 1978 regulations, and the PBS administration of the reporting requirements. Ms. Wood also testified that section 118 is "essential in enabling us to reach these voluntary agreements; it provides us with access that we need."

Mr. Klutz testified that during the next five years PBS faces a "most unsettled future" and that "sources of revenue have become less certain."

NPR's music case was presented by Carol Whitehorn, copyright attorney, NPR, and Thomas Warnock, NPR Executive Vice President. Ms. Whitehorn testified as to the voluntary agreements reached by NPR, NPR's opposition to cost-of-living adjustments (COLA's) and support for rate "step-ups" in lieu of COLA's, the experience of NPR with the Tribunal's 1978 regulations, the NPR administration of the reporting requirements, and the music regulations proposed by NPR. Mr. Warnock described the NPR sources of income, efforts to generate new sources of income, the role of the Corporation for Public Broadcasting in paying NPR's copyright costs, and NPR's need for "business certainty" in copyright expenditures and "the need to lower the annual increases."

Thomas J. Thomas, President of the National Federation of Community Broadcasters (NFCB), testified on behalf of those member stations who do not qualify for operational support of the Corporation for Public Broadcasting and thus are not included in the voluntary agreements reached by NPR with the music licensing agencies. He testified that there are about 21 Federation stations in this category, which account for "most of the stations" that would be covered by the Tribunal's schedule for unaffiliated stations. Mr. Thomas proposed that the Tribunal abolish the distinction between stations licensed to colleges and universities and unaffiliated stations. He testified that in 1978 the Tribunal established rates for community stations without adequate information because the stations were not represented, that the stations now remaining in the unaffiliated category have budgets of under $100,000 and an average of approximately $40,000, that commercial FM stations with budgets of less than $100,000 pay music license fees of 1.69 percent of revenues, that community stations play less music than commercial stations and that the ASCAP proposal is unjustified because it is based on a selective application of the existing fee schedule. He discussed NFCB's objections to revenue or budget based fee schedules, and their support for a schedule with a "step-up series of rates". Mr. Thomas proposed a schedule of fees commencing at $140 with increases of $10 a year for use of ASCAP and BMI music, and a schedule for use of SESAC music commencing at $31. The proposed schedule provides for payment of the royalty fee at the end of the year rather than at the start.[1]

The performing rights societies, ASCAP, BMI and SESAC, made a unified presentation. David Hockman, Director of Radio Licensing of ASCAP testified as to the justification for the application of a budget based license fee to the unaffiliated stations linked to a minimum fee and a COLA adjustment of the minimum fee,[2] that the ASCAP commercial radio station license fee is an effective rate of 1.9 percent, and described the collection of radio licensing fees. He also testified that a non-commercial compulsory license is not necessary. Mr. Nicholas Arcomano, Vice President and Counsel, SESAC, made a statement concerning the voluntary agreements entered into by SESAC, subscribed to the Joint Proposal establishing rates for the colleges and universities, and opposed relating the rates for unaffiliated stations to a percentage of budget.

Mr. Albert Berman, President of the Harry Fox Office explained the voluntary agreements reached for recording and synchronizing rights.

Mr. Leonard Feist, President of the National Music Publishers Association urged the Tribunal to adopt rates and terms applying to recording and synchronization rights not less favorable to music publishers than those provided in the voluntary agreements and to provide an appropriate rate of compensation for local non-commercial broadcasting uses of musical works. Mr. Feist also testified that a non-commercial broadcasting compulsory license for recording rights is not necessary.

The PBS visual case was presented by Gwendolyn Wood, PBS Copyright Administrator, and Andy Halper, General Counsel for WGBH Educational Foundation. Miss Wood testified as to the rates and terms proposed by PBS for use of visual works, explained that PBS had concluded that a separate local rate for visuals was appropriate because the bulk of such uses are on the local level, and that the rates proposed by the Coalition of Visual Artists Organizations (Coalition) would deny PBS access to visual works in their programs. Mr. Halper testified concerning the use of cue sheets for visual works and his experience in obtaining visual rights by purchase.

The case of the Coalition of Visual Artists Organizations encompassing ASMP (American Society of Magazine Photographers), The Graphic Artists Guild, Inc., National Cartoonists Society, Cartoonists Guild, Inc., Artists Equity Association, Inc., The Association of American Editorial Cartoonists, Artists Equity Association of New York, Inc., Foundation for the Community of Artists, Inc., Society of Illustrators, Inc., was presented by John Lewis Stage. He testified as to the creation and value of a photographer's body of creative work (known as a "stock file") which may be managed by a photo stock agency, the varied uses of stock photographs, rates for stock photographers, the visual rates proposed to the Tribunal by the Coalition, the use of visual cue sheets and the operation of the trust fund for unknown copyright owners. He testified that the existing system is "unworkable" and that the compulsory license of visual works should be repealed by Congress.

Policy Matters

In each of our royalty adjustment proceedings we look first to the Copyright Act and the legislative history for guidance. The Tribunal has consistently held that the Copyright Act does not contemplate the Tribunal establishing rates below the reasonable market value of the copyrighted works subject to a compulsory license. As we discussed in our 1978 public broadcasting opinion,[3] we have found the congressional committee reports to be particularly useful. The House Judiciary Committee report stated that Congress "did not intend that owners of copyrighted material be required to subsidize public broadcasting."[4] The

[3] 43 FR 25068.

[4] H.R. 94-1476, p. 118.

Senate Judiciary Committee report stated that section 118 "requires the payment of copyright royalties reflecting the fair value of the materials used." [5]

In our 1978 public broadcasting royalty determination, we observed that the public broadcasting proceeding was "not an appropriate occasion" for making judgments concerning the "relationship among the several performing rights societies as to the value of their repertory and the use of their music." We therefore stated that "the ratio resulting from this schedule of rates is not intended in any respect to establish a precedent for any other rate proceeding, including any future proceeding pursuant to 17 U.S.C. 118". The performing rights societies in the 1982 public broadcasting proceeding made a joint presentation. In the particular circumstances of this proceeding, it would not be appropriate for the Tribunal to use the ratios established here as a precedent in any other Tribunal proceeding or for any purpose.

Because of the requirements of the Copyright Act, the Tribunal in the 1978 proceeding was placed in the position of establishing some rates and terms in the absence of adequate record evidence because of the failure of certain interests to appear or submit evidence. We stated:

> The CRT has adopted this schedule on the basis of the record made in this proceeding. When this matter again comes before the CRT, the CRT will have the benefit of several years experience with this schedule. The CRT does not intend that the adoption of this schedule should preclude active consideration of alternative approaches in a future proceeding.[6]

While we have not been persuaded that any change in the basic structure of our rate schedule is necessary, we have on the basis of experience and an improved record made minor adjustments in the rate schedule and the reporting regulations. We discuss below the Tribunal's determinations on the principal issues requiring resolution in this proceeding.

Performance of Musical Compositions By Public Broadcasting Entities Licensed to Colleges and Universities

The IBS and ASCAP submitted a Joint Proposal, but IBS filed a letter at the time of the hearings indicating that the college stations found "completely acceptable" the proposals of other public broadcasting entities which provided for periodic stepped adjustments in lieu of an annual COLA, and for payment of the required fees at the end of the calendar year rather than at the beginning of the year.[7] This letter was received into evidence over the objections of the performing rights societies.

We have adopted the rates and terms of the Joint Proposal. The provisions of this proposal for an annual COLA and for payment by January 31 are reasonable, and in accord with our current regulation. Although we agreed to consider the altered position of IBS, the Tribunal expresses its disapproval of the circumstances in which this matter was presented by IBS, and the apparent failure to notify ASCAP of its modified position.

Performance of Musical Compositions by Public Broadcasting Entities Other Than NPR or College Stations

As a result of voluntary agreements and the exclusion of radio stations licensed to colleges and universities, the radio stations covered by § 304.6 is restricted to some 21 NFCB member stations and 26 other stations.[8] The Tribunal reviewed our existing rate schedule for unaffiliated stations in light of the record evidence as to the profile of the stations in this category.

We resolved that the rate should not be linked to wattage or percentage of the stations budget. We further resolved that we should adopt a flat rate with annual pre-determined adjustments. The pre-determined adjustments will accord the copyright owners a higher payment to reflect the increase in the cost of living, while providing the radio station with certainty as to the amount of the fee. We established our schedule in 304.6 taking into account the budgets of these stations (where known), the rates we have adopted for college stations, and the record evidence as to the fees paid for performance rights by the smallest commercial radio stations.

Local Recording Rates

The Tribunal reaffirms the conclusion we reached in the 1978 proceeding that "the copyright owners of musical works which are recorded under the statutory compulsory license by local stations and regional networks of PBS and NPR and other public broadcasting entities shall be compensated for such uses." [9] Based on the experience of the past four years, we have reviewed the relationship between the national and local recording rates. This review has persuaded us to reduce the local recording rates.

Visual Works

We have resolved that the Coalition evidence provides no basis for the establishment of reasonable royalty rates under section 118. In particular, we reject the use of stock photo house rates and rates published by the American Society of Magazine Photographers (ASMP) as the basis for the determination of section 118 rates. We concur in the PBS finding that "There is no clear or creditable evidence linking the New York City stock photo house letters or the ASMP booklet rates to television use of photographs." [10]

We have accepted the proposal of PBS that our schedule for visual works should be geared to the current Tribunal rates with stepped up increases. We have retained the provision of our schedule providing for unlimited broadcast use during a three year period. Our record indicates that three year rights is in accord with standard industry practice.

We have accepted the proposal of PBS that additional usage after the initial three year period should be available at a reduced rate because of the passage of time and the repetitious usage. We have also adopted the proposal of PBS that the appearance of an image of three seconds or less be paid at the background or montage rate rather than the featured display rate.

The Coalition has argued that our rule should provide for the reporting by PBS of "*all* uses of pictorial, graphic, and sculptural works—not merely those that are used subject to a compulsory license." [11] We hold that the Tribunal has no jurisdiction to require any recordkeeping or reporting other than for uses made pursuant to section 118.

List of Subjects in 37 CFR Part 304

Copyright, Radio, Television.

For the reasons set out above, 37 CFR Part 304 is revised to read as follows:

PART 304—USE OF CERTAIN COPYRIGHTED WORKS IN CONNECTION WITH NONCOMMERCIAL BROADCASTING

Sec.

304.1 General.
304.2 Definition of public broadcasting entity.
304.4 Performance of muscial composition by PBS, NPR and other public broadcasting entities engaged in the activities set forth in 17 U.S.C. 116(d).

304.11 Notice of restrictions on use of reproductions of transmission programs.
304.12 Amendment of certain regulations.
304.13 Issuance of interpretative regulations.

Authority: Pub. L. 94–553.

§ 304.1 General.

This Part 304 establishes terms and rates of royalty payments for certain activities using published nondramatic musical works and published pictorial, graphic, and sculptural works during a period beginning on January 1, 1983 and ending on December 31, 1987. Upon compliance with 17 U.S.C. 118, and the terms and rates of this part, a public broadcasting entity may engage in the activities with respect to such works set forth in 17 U.S.C. 118(d).

§ 304.2 Definition of public broadcasting entity.

As used in this part, the term "public broadcasting entity" means a noncommercial educational broadcast station as defined in section 397 of title 47 and any nonprofit institution or organization engaged in the activities described in 17 U.S.C. 118(d)(2).

§ 304.4 Performance of musical compositions by PBS, NPR and other public broadcasting entities engaged in the activities set forth in 17 U.S.C. 118(d).

The following schedule of rates and terms shall apply to the performance by PBS, NPR and other public broadcasting entities (other than those covered by §§ 304.5 and 304.6) engaged in the activities set forth in 17 U.S.C. 118(d), of copyrighted published nondramatic musical compositions, other than such compositions subject to the provisions of 17 U.S.C. 118(b)(2).

(a) *Determination of royalty rate.*

For the performance of such a work in a feature presentation of PBS:

1983–1984	1985–1986	1987
$140.00	$148.00	[illegible]

For the performance of such a work as background or theme music in a PBS program:

1983–1984	1985–1986	1987
[illegible]	[illegible]	[illegible]

For the performance of such a work in a feature presentation of a station of PBS:

1983–1984	1985–1986	1987
$10.00	$12.00	$13.00

For the performance of such a work as background or theme music in a program of a station of PBS:

1983–1984	1985–1986	1987
$2.50	$2.70	[illegible]

For the performance of such a work in a feature presentation of NPR:

1983–1984	1985–1986	1987
$14.00	$14.90	$15.85

For the performance of such a work as background or theme music in an NPR program:

1983–1984	1985–1986	1987
$3.50	[illegible]	[illegible]

For the performance of such a work in a feature presentation of a station of NPR:

1983–1984	1985–1986	1987
$1.00	$1.10	$1.15

For the performance of such a work as background or theme music in a program of a station of NPR:

1983–1984	1985–1986	1987
[illegible]	$0.30	$0.35

For the purpose of this schedule the rate for the performance of theme music in an entire series shall be double the single program theme rate.

In the event the work is first performed in a program of a station of PBS or NPR, and such program is subsequently distributed by PBS or NPR, an additional royalty payment shall be made equal to the difference between the rate specified in this section for a program of a station of PBS or NPR, respectively and the rate specified in this section for a PBS or NPR program, respectively.

(b) *Payment of royalty rate.* The required royalty rate shall be paid to each known copyright owner not later than July 31 of each calendar year for uses during the first six months of that calendar year, and not later than January 31 for uses during the last six months of the preceding calendar year.

(c) *Records of use.* PBS and NPR shall, upon the request of a copyright owner of a published musical work who believes a musical composition of such owner has been performed under the terms of this schedule, permit such copyright owner a reasonable opportunity to examine their standard cue sheets listing the nondramatic performances of musical compositions on PBS and NPR programs. Any local PBS and NPR station that is required by paragraph 4b of the PBS/NPR/ASCAP license agreement dated October 28, 1982 to prepare a music use report shall, upon request of a copyright owner who believes a musical composition of such owner has been performed under the terms of this schedule, permit such copyright owner to examine the report.

(d) *Terms of use.* The applicable fee in this schedule shall be the fee for the time period during which the first performance in a program occurred, and shall cover performances of such work in such program for a period of three years following the first performance.

§ 304.5 Performance of musical compositions by public broadcasting entities licensed to colleges or universities.

(a) *Scope.* This section applies to the performance of copyrighted published nondramatic musical compositions by nonprofit radio stations which are licensed to colleges, universities, or other nonprofit educational institutions and which are not affiliated with National Public Radio.

(b) *Voluntary license agreements.* Notwithstanding the schedule of rates and terms established by this section, the rates and terms of any license agreements entered into by copyright owners and colleges, universities, and other nonprofit educational institutions concerning the performance of copyrighted musical compositions, including performances by nonprofit radio stations, shall apply in lieu of the rates and terms of this section.

(c) *Royalty rate.* A public broadcasting entity within the scope of this section may perform published nondramatic music compositions subject to the following schedule of royalty rates:

For all such compositions in the repertory of ASCAP annually	$133
For all such compositions in the repertory of BMI annually	133
For all such compositions in the repertory of SESAC annually	29
For the performance of any other such composition	1

(d) *Payment of royalty rate.* The public broadcasting entity shall pay the required royalty rate to ASCAP, BMI and SESAC, not later than January 31 of each year.

(e) *Records of use.* A public broadcasting entity subject to this section shall furnish to ASCAP, BMI, and SESAC upon request, a music-use report during one week of each calendar year. ASCAP, BMI and SESAC shall not in any one calendar year request more than 10 stations to furnish such reports.

§ 304.6 Performance of musical compositions by other public broadcasting entities.

(a) *Scope.* This section applies to the performance of copyrighted published nondramatic musical compositions by radio stations not licensed to college, universities or other nonprofit educational institutions.

(b) *Voluntary license agreements.* Notwithstanding the schedule of rates and terms established in this section, the rates and terms of any license agreements entered into by copyright owners and nonprofit radio stations within the scope of this section concerning the performance of copyrighted musical compositions, including performances by nonprofit radio stations, shall apply in lieu of the rates and terms of this section.

(c) *Royalty rate.* A public broadcasting entity within the scope of this section may perform published nondramatic musical compositions subject to the following schedule of royalty rates:

For all such compositions in the repertory of ASCAP,
in 1983, $180;
in 1984, $190;
in 1985, $200;
in 1986, $210;
in 1987, $220

For all such compositions in the repertory of BMI,
in 1983, $180;
in 1984, $190;
in 1985, $200;
in 1986, $210;
in 1987, $220

For all such compositions in the repertory of SESAC,
in 1983, $40;
in 1984, $42;
in 1985, $44;
in 1986, $46;
in 1987, $48

For the performance of any other such composition, in 1983 through 1987, $1.

(d) *Payment of royalty rate.* The public broadcasting entity shall pay the required royalty rate to ASCAP, BMI, and SESAC not later than December 31 of each calendar year. The required fee for the performance of other musical compositions shall be paid not later than the end of the calendar year in which the work was performed.

(e) *Records of use.* A public broadcasting entity subject to this section shall furnish to ASCAP, BMI, and SESAC, upon request, a music use report during one week of each calendar year. ASCAP, BMI, and SESAC each shall not in any one calendar year request more than 5 stations to furnish such reports.

§ 304.7 Recording rights, rates and terms.

(a) *Scope.* This section establishes rates and terms for the recording of nondramatic performances and displays of musical works on and for the radio and television programs of public broadcasting entities, whether or not in synchronization or timed relationship with the visual or aural content, and for the making, reproduction, and distribution of copies and phonorecords of public broadcasting programs containing such recorded nondramatic performances and displays of musical works solely for the purpose of transmission by public broadcasting entities, as defined in 17 U.S.C. 118(g). The rates and terms established in this schedule include the making of the reproductions described in 17 U.S.C. 118(d)(3).

(b) *Royalty rate.* (1) For uses described in subsection (a) of a musical work in a PBS-distributed program:

	1983–1984	1985–1986	1987
Feature	[illegible]	[illegible]	[illegible]
Concert feature (per minute)	22.25	23.75	25.25
Background	37.50	40.00	[illegible]
Theme:			
Single program or first series program	37.50	40.00	42.50
Other series program	15.25	16.25	17.25

For such use other than in a PBS-distributed television program:

	1983–1984	[illegible]	1987
Feature	[illegible]	[illegible]	[illegible]
Concert feature (per minute)	1.50	[illegible]	1.70
Background	2.50	[illegible]	2.85
Theme			
Single program or first series program	2.50	2.70	2.85
Other series program	1.00	1.10	1.15

In the event the work is first recorded other than in a PBS-distributed program, and such program is subsequently distributed by PBS, an additional royalty payment shall be made equal to the difference between the rate specified in this section for other than a PBS-distributed program and the rate specified in this section for a PBS-distributed program.

(2) For uses licensed herein of a musical work in a NPR program, the royalty fees shall be calculated by multiplying the following per-composition rates by the number of different compositions in any NPR program distributed by NPR. For purposes of this schedule "National Public Radio" programs includes all programs produced in whole or in part by NPR, or by any NPR station or organization under contract with NPR.

	1983–1984	[illegible]	1987
Feature	$7.50	[illegible]	[illegible]
Concert feature (per half hour)	11.00	11.00	12.00
Background	3.75	4.00	4.25
Theme			
Single program or first series program	3.75	4.00	4.25
Other series program	1.50	1.60	1.70

(3) For the purposes of this schedule, a "Concert Feature" shall be deemed to be the nondramatic presentation of all or part of a symphony, concerto, or other serious work originally written for concert or opera performance.

(4) For such uses other than in a NPR produced radio program:

Feature	$.50
Feature (concert) (per ½ hour)	$1.00
Background	$.25

(5) The schedule of fees covers broadcast use for a period of three years following the first broadcast. Succeeding broadcast use periods will require the following additional payment: second three-year period—50 percent; each three-year period thereafter—25 percent; provided that a 100 percent additional payment prior to the expiration of the first three-year period will cover broadcast use during all subsequent broadcast use periods without limitation. Such succeeding uses which are subsequent to December 31, 1987

shall be subject to the rates established in this schedule.

(c) *Payment of royalty rates.* PBS, NPR, or other television public broadcasting entity shall pay the required royalty fees to each copyright owner not later than July 31 of each calendar year for uses during the first six months of that calendar year, and not later then January 31 for uses during the last six months of the preceding calendar year.

(d) *Records of use.* (1) Maintenance of cue sheets. PBS and its stations, NPR or other television public broadcasting entity shall maintain and furnish to copyright owners whose musical works are recorded pursuant to this schedule copies of their standard cue sheets or summaries of same listing the recording of the musical works of such copyright owners. Such cue sheets or summaries shall be furnished not later than July 31 of each calendar year for recording the first six months of the calendar year, and not later than January 31 of each calendar year for recordings during the second six months of the preceding calendar year.

(2) Content of cue sheets or summaries. Such cue sheets or summaries shall include:

(i) The title, composer and author to the extent such information is reasonably obtainable.

(ii) The type of use and manner of performance thereof in each case.

(iii) For Concert Feature music, the actual recorded time period on the program, plus all distribution and broadcast information available to the public broadcasting entity.

(e) *Filing of use reports with the Copyright Royalty Tribunal (CRT).* (1) Deposit of cue sheets or summaries. PBS and its stations, NPR, or other television public broadcasting entity shall deposit with the CRT copies of their standard music cue sheets or summaries of same (which may be in the form of hard copy of computerized reports) listing the recording pursuant to this schedule of the musical works of copyright owners. Such cue sheets or summaries shall be deposited not later than July 31 of each calendar year for recordings during the first six months of the calendar year, and not later than January 31 of each calendar year for recordings during the second six months of the preceding calendar year. PBS and NPR shall maintain at their offices copies of all standard music sheets from which such music use reports are prepared. Such music cue sheets shall be furnished to the Copyright Royalty Tribunal upon its request and also shall be available during regular business hours at the offices of PBS or NPR for examination by a copyright owner who believes a musical composition of such owner has been recorded pursuant to this schedule.

§ 304.8 Terms and rates of royalty payments for the use of published pictorial, graphic, and sculptural works.

(a) *Scope.* This section establishes rates and terms for the use of published pictorial, graphic, and sculptural works by public broadcasting entities for the activities described in 17 U.S.C. 118. The rates and terms established in this schedule include the making of the reproductions described in 17 U.S.C. 118(d)(3).

(b) *Royalty rate.* (1) The following schedule of rates shall apply to the use of works within the scope of this section:

For such uses in a PBS-distributed program:

For a featured display of a work.

1983–1984	1985–1986	1987
$45.75	$49.00	[illegible]

For background and montage display.

1983–1984	1985–1986	1987
$22.25	$23.75	$25.25

For use of a work for program identification or for thematic use.

1983–1984	1985–1986	1987
$90.25	$96.25	[illegible]

For the display of an art reproduction copyrighted separately from the work of fine art from which the work was reproduced, irrespective of whether the reproduced work of fine art is copyrighted so as to be subject also to payment of a display fee under the terms of this schedule.

1983–1984	1985–1986	1987
[illegible]	$31.50	$33.50

For such uses in other than PBS-distributed programs:

For a featured display of a work.

1983–1984	1985–1986	1987
[illegible]	[illegible]	[illegible]

For background and montage display.

1983–1984	1985–1986	1987
$15.25	$16.25	$17.25

For use of a work for program identification or for thematic use.

1983–1984	1985–1986	1987
$60.75	$64.75	$68.75

For the display of an art reproduction copyrighted separately from the work of fine art from which the work was reproduced, irrespective of whether the reproduced work of fine art is copyrighted so as to be subject also to payment of a display fee under the terms of this schedule.

1983–1984	1985–1986	1987
$15.25	$16.25	$17.25

For the purposes of this schedule the rate for the thematic use of a work in an entire series shall be double the single program theme rate.

In the event the work is first used other than in a PBS-distributed program, and such program is subsequently distributed by PBS, an additional royalty payment shall be made equal to the difference between the rate specified in this section for other than a PBS-distributed program and the rate specified in this section for a PBS-distributed program.

(2) "Featured display" for purposes of this schedule means a full-screen or substantially full-screen display *appearing on the screen for more than three seconds.* Any display less than full-screen or substantially full-screen, or *full-screen for three seconds or less,* is deemed to be a "background or montage display".

(3) "Thematic use" is the utilization of the work of one or more artists where the works constitute the central theme of the program or convey a story line.

(4) "Display of an art reproduction copyrighted separately from the work of fine art from which the work was reproduced" means a transparency or other reproduction of an underlying work of fine art.

(c) *Payment of royalty rate.* PBS or other public broadcasting entity shall pay the required royalty fees to each copyright owner not later than July 31 of each calendar year for uses during the first six months of that calendar year, and not later than January 31 for uses during the last six months of the preceding calendar year.

(d) *Records of use.* (1) PBS and its stations or other public broadcasting entity shall maintain and furnish either to copyright owners, or to the offices of generally recognized organizations representing the copyright owners of pictorial, graphic, and sculptural works, copies of their standard lists containing the pictorial, graphic, and sculptural works displayed on their programs. Such notice shall include the name of the copyright owner, if known, the specific source from which the work was taken, a description of the work used, the title of the program on which the work was used, and the date of the original broadcast of the program.

(2) Such listings shall be furnished not later than July 31 of each calendar year for displays during the first six months of the calendar year, and not later than January 31 of each calendar year for displays during the second six months of the preceding calendar year.

(e) *Filing of use reports with the CRT.* (1) PBS and its stations or other public broadcasting entity shall deposit with the CRT copies of their standard lists containing the pictorial, graphic, and sculptural works displayed on their programs. Such notice shall include the name of the copyright owner, if known, the specific source from which the work was taken, a description of the work used, the title of the program on which the work was used, and the date of the original broadcast of the program.

(2) Such listings shall be furnished not later than July 31 of each calendar year for displays during the first six months of the calendar year, and not later than January 31 of each calendar year for displays during the second six months of the preceding calendar year.

(f) *Terms of use.* (1) The rates of this schedule are for unlimited broadcast use for a period of three years from the date of the first broadcast use of the work under this schedule. Succeeding broadcast use periods will require the following additional payment: second three-year period—50 percent; each three-year period thereafter—25 percent; provided that a 100 percent additional payment prior to the expiration of the first three-year period will cover broadcast use during all subsequent broadcast use periods without limitation. Such succeeding uses which are subsequent to December 31, 1987 shall be subject to the rates established in this schedule.

(2) Pursuant to the provisions of 17 U.S.C. 118(f), nothing in this schedule shall be construed to permit, beyond the limits of fair use as provided in 17 U.S.C. 107, the production of a transmission program drawn to any substantial extent from a published compilation of pictorial, graphic, or sculptural works.

§ 304. Unknown copyright owners.

If PBS and its stations, NPR and its stations, or other public broadcasting entity is not aware of the identity of, or unable to locate, a copyright owner who is entitled to receive a royalty payment under this Part, they shall retain the required fee in a segregated trust account for a period of three years from the date of the required payment. No claim to such royalty fees shall be valid after the expiration of the three year period. Public broadcasting entities may establish a joint trust fund for the purposes of this section. Public broadcasting entities shall make available to the CRT, upon request, information concerning fees deposited in trust funds.

§ 304.10 Cost of living adjustment.

(a) On December 1, 1983 the CRT shall publish in the **Federal Register** a notice of the change in the cost of living as determined by the Consumer Price Index (all urban consumers, all items) from the May, 1982 to the last Index published prior to December 1, 1983. On each December 1 thereafter the CRT shall publish a notice of the change in the cost of living during the period from the first Index published subsequent to the previous notice, to the last index published prior to December 1 of that year.

(b) On the same date of the notices published pursuant to paragraph (a) of this section, the CRT shall publish in the **Federal Register** a revised schedule of rates for § 304.5, alone, which shall adjust those royalty amounts established in dollar amounts according to the change in the cost of living determined as provided in paragraph (a) of this section. Such royalty rates shall be fixed at the nearest dollar.

(c) The adjusted schedule of rates for § 304.5, alone, shall become effective thirty days after publication in the **Federal Register.**

§ 304.11 Notice of restrictions on use of reproductions of transmission programs.

Any public broadcasting entity which, pursuant to 17 U.S.C. 118, supplies a reproduction of a transmission program to governmental bodies or nonprofit institutions shall include with each copy of the reproduction a warning notice stating in substance that the reproductions may be used for a period of no more then seven days from the specified date of transmission, that the reproductions must be destroyed by the user before or at the end of such period, and that a failure to fully comply with these terms shall subject the body or institution to the remedies for infringement of copyright.

§ 304.12 Amendment of certain regulations.

Subject to 17 U.S.C. 118, the Administrative Procedure Act and the Rules of Procedure of the Copyright Royalty Tribunal, the CRT may at any time amend, modify or repeal regulations in this part adopted pursuant to 17 U.S.C. 118(b)(3) by which "copyright owners may receive reasonable notice of the use of their works" and "under which records of such use shall be kept by public broadcasting entities".

§ 304.13 Issuance of interpretative regulations.

Subject to 17 U.S.C. 118, the Administrative Procedure Act and the Rules of Procedure of the Copyright Royalty Tribunal, the CRT may at any time, either on its own motion or the motion of a person having a significant interest in the subject matter, issue such interpretative regulations as may be necessary or useful to the implementation of this Part. Such regulations may not prior to January 1, 1988, alter the schedule of rates and terms of royalty payments by this part.

Effective date: This part becomes effective on January 1, 1983.

Adopted: December 20, 1982.

Edward W. Ray,

Chairman.

[FR Doc. 82-35234 Filed 12-28-82; 8:45 am]

BILLING CODE 1410-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[OPP-00000/R383; PH-FRL 2275-1]

Pesticide Programs; Raw Agricultural Commodities; Definitions and Interpretations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation amends the definitions on the general and specific categories of raw agricultural commodities by adding "sweet potatoes" in the general category and designating "sweet potatoes, yams" as specific raw agricultural commodities. This amendment to expand the tolerances and exemptions established for residues of pesticide chemicals on the sweet potatoes, including yams, was

submitted by the Interregional Research Project No. 4 (IR–4).

EFFECTIVE DATE: December 29, 1982.

ADDRESS: Written objections may be submitted to the: Hearing Clerk (A–110), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Donald R. Stubbs, Emergency Response Section, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 716B, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–1192).

SUPPLEMENTARY INFORMATION: EPA issued a notice of proposed rulemaking published in the **Federal Register** of October 27, 1981 (46 FR 52397), which announced that the Interregional Research Project No. 4 (IR–4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, on behalf of the IR–4 Technical Committee, had proposed amending 40 CFR 180.1(h) by adding the general category "sweet potatoes" and the specific raw agricultural commodities "sweet potatoes, yams" to columns "A" and "B" respectively of § 180.1(h).

One comment was received relating to a statement in the Supplementary Information portion of the proposed rule. The commenter pointed out that true yams include species of the genus Dioscorea in addition to *D. batatas*. The Agency concurs and amends its original statement to read: "The term 'yams' may apply to certain varieties of sweet potatoes (*Ipomoea batatas*) as well as true yams (*Dioscorea* spp.)." No alteration to the proposed wording in 40 CFR 180.1(h) is needed.

The rationale for the amendment and other relevant material have been evaluated. The regulation is considered useful for the purpose for which it is sought. Therefore the regulation is established by amending 40 CFR 180.1(h) as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this notice in the **Federal Register**, file written objections with the Hearing Clerk, at the address given above. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Effective on: December 29, 1982.

List of Subjects in 40 CFR Part 180

Administrative practice and procedure, Agricultural commodities, Pesticides and pests.

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346(a)(e)))

Dated: December 16, 1982.

Edwin L. Johnson,

Director, Office of Pesticide Programs.

PART 180—[AMENDED]

Therefore, 40 CFR 180.1(h) is amended by alphabetically inserting "sweet potatoes" in column A and adding the specific raw agricultural commodities "sweet potatoes, yams" in column B to read as follows:

§ 180.1 Definitions and interpretations.

* * * * *

(h) * * *

A	B
Sweet potatoes	Sweet potatoes, yams.

BILLING CODE 6560–50

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

41 CFR Ch. 18, Parts 1, 3, 5 and 6

NASA Procurement Regulation: 1981 Edition and 1982 Amendments

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: This document announces a new 1981 edition [1] of NASA's procurement requirements and sets forth several procedural amendments contained in the new edition of the procurement requirements. The intended effect is to clarify the present NASA procurement system.

EFFECTIVE DATE: December 29, 1982.

FOR FURTHER INFORMATION CONTACT: James H. Wilson, Procurement Policy Division (Code HP–1), Office of Procurement, NASA Headquarters, Washington, D.C. 20546, Telephone: 202–755–2237.

SUPPLEMENTARY INFORMATION: The 1981 edition of NASA's procurement requirements contains substantive amendments to NASA regulations as reflected in rule documents published in the **Federal Register** through May of this year. In addition, several procedural changes to existing requirements were made in the 1981 edition and these changes are included in today's document.

NASA procurement requirements currently in effect include the 1981 edition as described above and amended by two rule documents published in the **Federal Register** on June 24, 1982 (47 CFR 27275) and October 18, 1982 (47 FR 46499).

1. In Part 1, 1.105, 1.107 and 1.108 are amended to state that Procurement Notices (PNs) will be used to revise the NASA Procurement Regulation in addition to other uses as set out in 1.105. The Procurement Notices that revise the NASA Procurement regulation will be published in the **Federal Register** also.

2. In Part 3, 3.1210 which required an annual report to Cost Accounting Standards Board has been deleted in accordance with Procurement Notice (PN) No. 81–3.

3. In Part 5, 5.701 is amended to clarify NASA's authority to procure under the Economy Act.

4. In Part 6, Subpart 6.1600 and paragraph 6.104, the regulatory coverage and clauses are incorporated which are consistent with the Trade Agreements Act of 1979, as implemented by Executive Order 12260 of December 31, 1980.

List of Subjects in 41 CFR Ch. 18, Parts 1, 3, 5 and 6.

Government procurement.

(The provisions of this document are issued under 42 U.S.C. 2473(c)(1).)

L. E. Hopkins,

Deputy Assistant Administrator for Procurement.

PART 1—GENERAL PROVISIONS

1. In Part 1, 1.105 and 1.107 are revised and 1.108(a)(i) amended by adding "and Procurement Notices;" to read as follows:

1.105 Amendment of Regulation.

(a) *Revisions.* This Regulation will be amended by issuance of Procurement Regulation Directives (PRD's) containing loose-leaf replacement pages which revise Parts, Subparts, or paragraphs. Also see (b) below. Each replacement page will bear, at the top, the PRD number and page number. A vertical bar at the beginning or end of a line indicates that a change has been made within that line.

(b) *Procurement Notices.*

[1] Filed with the original.

(1) Procurement Notices (PN's) shall also be published as often as may be necessary or advisable under any of the following circumstances:

(i) to promulgate as rapidly as possible selected material revising this Regulation, in a general or narrative manner, in advance of a specific page replacement type revision to this Regulation;

(ii) to disseminate material applicable to procurement which is not suitable for insertion in this Regulation but which may have the effect of a directive to, or be of importance and interest to its recipients; or

(iii) when the policy and/or procedure is expected to be effective for a period of one (1) year or less.

(2) Unless otherwise indicated, each item in a Procurement Notice will remain in effect until the effective date of that subsequent NASA PR revision which incorporates the item, or until specifically canceled.

(c) *Effective Date.* Statements in Procurement Regulation Directives and Procurement Notices to the effect that the material published therein is "effective upon receipt" or upon a specified date, or that changes set forth in the Directive or Notice are "to be used upon receipt," mean that any new or revised clauses or forms included in the Directive or Notice shall be included in invitations for bids and requests for proposals issued thereafter, unless a different meaning is expressed in the Directive or Notice. However, unless otherwise provided, the new revised clauses or forms need not be included in solicitations already in process of preparation where their inclusion would cause an undue delay in the solicitation.

(d) *Numbering.* Procurement Regulation Directives and Procurement Notices will be numbered consecutively on a calendar year basis beginning with number 1 prefixed by the last two digits of the calendar year, e.g., 81–1; 81–2; 81–3, etc.

1.106 [Reserved]

1.107 Dissemination of the Regulation, Revisions and Procurement Notices.

(a) The NASA Procurement Regulation and Procurement Regulation Directives (PRD's), will be distributed directly to NASA Headquarters and installations by the U.S. Government Printing Office. The number of copies of the Regulation, and Revisions thereof, will be distributed on the basis of the requirements furnished by each Headquarters office, and NASA field installation, to the Office of Procurement, NASA Headquarters (Code HP–1). Procurement Notices will be distributed by the Procurement Policy Division, Office of Procurement, NASA Headquarters. Both Procurement Regulation Directives and Procurement Notices which revise this Regulation will be published in the Federal Register.

(b) Heads of field installations will ensure that copies of the NASA Procurement Regulation and revisions thereto are distributed to all interested activities and individuals within their installation. Code HP–1 is responsible for distribution to Headquarters offices.

(c) Subscriptions to the NASA Procurement Regulation including applicable PRD's and PN's, may be purchased by private concerns and individuals from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20402.

(d) Compliance with a revision to the NASA Procurement Regulation shall be in accordance with the PRD or PN which contains the revision. Procurements initiated after receipt of new or revised clauses should, to the maximum practicable extent, include such clauses.

(e) Unless otherwise stated, invitations for bids which have been issued and bilateral agreements upon which negotiations have been completed prior to the receipt of new or revised contract clauses need not be amended to include the new or revised clauses if such amendment would unduly delay the procurement action.

1.108 Field Installation Instructions and Implementations of the NASA Procurement Regulation.

(a) * * *

(i) be consistent with the policies and procedures contained in this Regulation, NASA Procurement Regulation Directives and Procurement Notices;

* * * * *

PART 3—PROCUREMENT BY NEGOTIATION

3.1210 Removed and Reserved

2. In Part 3, 3.1210 is removed and reserved.

PART 5—INTERDEPARTMENTAL PROCUREMENT

3. In Part 5, 5.701 is revised to read as follows:

5.701 Authorization and Policy Relating to Placing and Filling Orders.

(a) It is the policy of NASA not to place Government agencies in direct competition with commercial sources. Accordingly, prior to soliciting bids or proposals from commercial sources, it shall be decided whether to obtain supplies or services from Government agencies. Invitations for bids and requests for proposals shall not be sent to Government agencies. Current market prices, recent procurement prices, or prices obtained by informational bids as provided in 1.309 may be used to ascertain whether procurement can be effected more economically from commercial sources.

(b) Each procurement office, when it is in the interest of the Government to do so, may place delivery orders on NASA Form 1379 or Standard Form 147 (see 3.608–6) with any Government agency other than the Department of Defense (for policies and procedures governing procurements from or through the Military Departments (see 5.752 and 5.1000–5.1005)) for supplies or services that any such requisitioned agency may be in a position to furnish or perform. An order for supplies or services will not be placed with an agency which is not in a position to furnish the supplies or is not equipped to perform the services. An order for services shall not be placed with an agency when such services can be performed as conveniently or more economically by private contractors.

PART 6—FOREIGN PURCHASES

4. In Part 6, Table of Contents, Subpart 16 is added to read as follows:

Subpart 16—Purchases Under the Trade Agreements Act of 1979

6.1600 Scope of Subpart..... 6–16:1
6.1601 Definitions..... 6–16:1
6.1602 Policy..... 6–16:1
6.1603 Exceptions..... 6–16:1
6.1604 Labor Surplus Area Set-Asides..... 6–16:2
6.1605 Procedures for Solicitation and Purchases..... 6–16:2
6.1606 Required Clauses..... 6–16:2

5. In Part 6, 6.104–3 and 6.104–5 are revised to read as follows:

6.104–3 *Certificate.* Solicitations shall require that each offer include a certificate substantially as follows:

Buy American—Trade Agreements Certificate (January 1981)

(a) The offeror hereby certifies that each end product, except the end products listed below, is a domestic end product (as defined in the clause entitled "Buy American Act and Trade Agreements Act") and that components of unknown origin have been considered to have been mined, produced, or manufactured outside the United States.

EXCLUDED END PRODUCTS

Line item No.	Country of Origin

List as necessary.

(b) Offers will be evaluated by giving certain preferences to domestic end products and designated country end products over other end products. In order to obtain such preferences in the evaluation of each excluded end product listed in (a) above, it is necessary that offerors identify and certify, below, those excluded end products identified above that are designated country end products or they will not be considered as such. Offerors must certify by inserting the applicable line item numbers in the brackets:

The offeror certifies that the following supplies qualify as "designated country end products" as that term is defined in the clause entitled "Buy American Act and Trade Agreements Act." (Insert line item No.)

(c) Offers will be evaluated in accordance with the policies and procedures of NASA PR Part 6.

6.104–5 *Contract Clause.* In accordance with the requirements of this Part, insert the following clause.

Buy American Act and Trade Agreements Act (January 1981)

(a) This clause implements the Buy American Act (41 U.S.C. Section 10a–d) and the Trade Agreements Act of 1979 (19 U.S.C. 2501 et seq.) by providing a preference to domestic end products over foreign end products except for certain foreign end products which meet the requirements for classification as designated country end products. For the purpose of this clause:

(i) "Components" means those articles, materials, and supplies which are directly incorporated into end products.

(ii) "End products" means articles, materials, and supplies which are to be acquired for public use. As to a given contract, the end products are the items to be delivered to the Government, as specified in the contract, including supplies to be acquired by the Government for public use in connection with service contracts but excluding installation and other services to be performed after delivery.

(iii) "Domestic end product" means (A) an unmanufactured end product which has been mined or produced in the United States, or (B) an end product manufactured in the United States if the cost of its designated country components, and its components which are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. The cost of components shall include transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate may be issued). A component shall also be considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind (A) determined by the Government to be not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality, or (B) as to which the Administrator has determined that it would be inconsistent with the public interest to apply the restrictions of the Buy American Act.

(iv) "Foreign end product" means an end product other than a domestic end product.

(v) "Designated country end product" means an item that (i) is wholly the growth, product, or manufacture of the designated country, or (ii) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed that of the product itself. It does not include service contracts per se.

(b) The contractor agrees that there will be delivered under this contract only domestic end products *unless*, in its offer, it specified delivery of foreign end products in the certificate entitled "Buy American—Trade Agreements Certificate," An offer certifying that a designated country end product will be supplied requires the contractor to supply a designated country end product, or, at the contractor's option, a domestic end product.

(c) Offers will be evaluated in accordance with the policies and procedures of NASA PR Part 6.

6. In Part 6, Subpart 16 is added to read as follows:

Subpart 16—Purchases Under The Trade Agreements Act of 1979

6.1600 Scope of Subpart. This Subpart sets forth additional policies and procedures peculiar to acquisitions subject to the Agreement on Government Procurement and Trade Agreements Act of 1979 (see P.L. 96–39; 19 U.S.C. 2501 et seq.).

6.1601 Definitions.

(a) *Designated country* means a country or instrumentality designated pursuant to the Act and listed below:

Austria	Japan
Bangladeah	Lesotho
Belgium	Luxembourg
Benin	Malawi
Bhutan	Maldives
Botswana	Mali
Burundi	Nepal
Canada	Netherlands
Cape Verde	Niger
Central African Republic	Norway
Chad	Rwanda
Comoros	Singapore
Denmark	Somalia
Federal Republic of Germany	Sweden
Finland	Switzerland
France	Western Samoa
Gambia	Sudan
Guinea	Tanzania U.R.
Haiti	Uganda
Hong Kong	United Kingdom
Ireland	Upper Volta
Italy	Yeman AR

(b) *Designated country end product* means an article that (i) is wholly the growth, product or manufacture of the designated country, or (ii) in the case of an article which consists in whole or in part of materials from another country of instrumentality, has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term "designated country end product" includes services (except transportation services) incidental to its supply *provided* that the value of these incidental services does not exceed that of the product itself. It does not include service contracts *per se*.

6.1602 Policy.

(a) Offers of a designated country end product with a total value of $182,000 or more are to be evaluated without regard to restrictions of the Buy American Act.

(b) Except where waived pursuant to Section 302(b)(2) of the Act, there shall be no purchase of an end product with a total value of $182,000 or more which is the product of a country listed below:

Greece

(c) No requirement shall be divided with the intent of reducing the value of the resulting offers below $182,000.

(d) The requirement of Subpart 7 that the responsibility for foreign contract procurement be centralized at NASA Headquarters does not apply to acquisitions that are subject to this Subpart. However, each buying office (including JPL) shall coordinate with Headquarters, Division of International Affairs (Code LI–15), before awarding a contract for a designated country end product.

6.1603 Exceptions. This subpart does not apply to:

(1) Products offered at a price below $182,000;

(2) products of countries not listed in 6.1601(a) or barred by 6.1602(b);

(3) purchases under small or small disadvantaged business preferences programs;

(4) purchases of arms, ammunition, war materials or purchases indispensable for national security or national defense purposes. If a buying office considers an individual acquisition to be a purchase "indispensable for national security or national defense purposes," and appropriate for exclusion from the provisions of this Subpart, a request with supporting rationale shall be submitted to Headquarters, Code L, Office of External Relations, for coordination with the Office of the U.S. Trade Representative;

(5) construction contracts;

(6) service contracts (but not those services incidental to the purchase of products, provided that the value of the service is not greater than the value of the product);

(7) research and development contracts;

(8) purchases by the Corps of Engineers;

(9) purchases of items for resale;

(10) purchase pursuant to Part 5, Subpart 4, Procurement from Federal Prisons Industries, Inc. and Subpart 5, Procurement From the Severely Handicapped;

(11) lease or rental agreements; and

(12) purchases for agencies not listed in Executive Order 12260 dated December 31, 1980.

6.1604 Labor Surplus Area Set-Asides. When responsive offers are received for a product, labor surplus area preference shall be accorded only to small business concerns (see 1.804–2(b)(1)).

6.1605 Procedures for Solicitation and Purchases. When the proposed acquisition is estimated to be $182,000 or more and not otherwise exempted by 6.1603, the following procedures shall apply:

(a) Consistent with user requirements, a minimum of 30 days from the date of the issuance of the solicitation to receipt of offers is required.

(b) Under no circumstances will technical requirements be imposed solely for the purpose of precluding the acquisition of products from designated countries.

(c) Proposals in response to solicitations anticipating competitive negotiations shall be opened in the presence of an impartial witness whose name shall be recorded in the file.

(d) The term "promptly," as used in 2.408–1, 3.106–3, and 3.804–3, shall, for purposes of this Subpart be construed to mean "within seven days."

(e) Solicitations shall contain a requirement that offers submitted in response to this solicitation shall be based on U.S. dollars and in the English language.

(f) Solicitations will require applicable duty charges to be included in the offered price, whether or not duty free certificates are obtained. Duty charges will be included in the price evaluation.

6.1606 Required Clauses. When this Subpart applies, each solicitation and resulting contract for a designated country end product shall contain the clause at 6.104–5 and the solicitation shall contain the certificate at 6.104–3. A contracting officer shall rely on the offeror's certification as submitted.

BILLING CODE 7510-10-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

National Flood Insurance Program; Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the nation.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM) showing base (100-year) flood elevations, for the community. This date may be obtained by contacting the office where the maps are available for inspection indicated on the table below.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: Dr. Brian R. Mrazik, Acting Chief, Engineering Branch, National Flood Insurance Program, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 287–0237.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the final determinations of flood elevations for each community listed.

This final rule is issued in accordance with Section 110 of the Flood Disaster Protection Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR Part 67. An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided, and the Agency has resolved the appeals presented by the community.

The Agency has developed criteria for flood plain management in floodprone areas in accordance with 44 CFR Part 60.

Pursuant to the provisions of 5 U.S.C. 605(b), the Associate Director, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that the final flood elevation determinations, if promulgated, will not have a significant economic impact on a substantial number of small entities. A flood elevation determination under section 1363 forms the basis for new local ordinances, which, if adopted by a local community, will govern future construction within the flood plan area. The elevation determination, however, impose no restriction unless and until the local community voluntarily adopts flood plain ordinances in accord with these elevations. Even if ordinances are adopted in compliance with Federal standards, the elevations prescribe how high to build in the flood plain and do not proscribe development. Thus, this action only forms the basis for future local actions. It imposes no new requirement; of itself it has no economic impact.

List of Subjects in 44 CFR Part 67

Flood insurance, Flood plains.

The final base (100-year) flood elevations for selected locations are:

FINAL BASE (100-YEAR) FLOOD ELEVATIONS

State	City/town/county	Source of flooding	Location	#Depth in feet above ground *Elevation in feet (NGVD)
Indiana	(T) Munster, Lake County (Docket No. FEMA-6074)	Little Calumet River	Downstream corporate limits (about 0.4 miles downstream of Hohman Avenue)	*598
			Upstream corporate limits (at confluence with Hart Ditch)	*599
		Hart Ditch	About 200 feet upstream of Ridge Road	*604
			About 350 feet downstream of Fran-Lin Parkway	*610
			About 475 feet upstream of Conrail	*619
			About 1,300 feet upstream of Main Street	*622
		Schoon Ditch	Just downstream of White Oak Avenue	*607
			Just upstream of Greenwood Avenue	*609
			About 1,100 feet upstream of Calumet Avenue	*614
Maps available for inspection at the City Hall, 805 Ridge Road, Munster, Indiana				
Kansas	(C) Great Bend, Barton County (Docket No. FEMA-6144)	Arkansas River	About 1.6 miles downstream of Main Street	*1,841
			About 6.3 miles upstream of Main Street	*1,889
		Wet Walnut Creek	About 0.5 mile downstream of confluence of Dry Walnut Creek	*1,839
			About 2.5 miles upstream of Kiowa Road	*1,848
		Dry Walnut Creek	About 0.55 mile downstream of Frey Street	*1,843
			Just upstream of Washington Street	*1,851
			Just downstream of Atchinson Topeka and Santa Fe Railway	*1,861
			About 0.85 mile upstream of State Route 96	*1,868
		Dry Walnut Diversion Creek	Just upstream of Navajo Road	*1,863
			Divergence with Dry Walnut Creek	*1,866
		Lichesky Ditch	Just downstream of Kiowa Road	*1,839
			Just downstream of Frey Street	*1,842
Maps available for inspection at City Hall, P.O Box 1168, Great Bend, Kansas				

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 1804, November 28, 1968), as amended (42 U.S.C. 4001–4128); E. O. 12127, 44 FR 19367; and delegation of authority to the Associate Director)

Issued: December 8, 1982.

Dave McLoughlin,

Acting Associate Director, State and Local Programs and Support.

Vol. 47, No. 250
Wednesday, December 29, 1982

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 52

United States Standards for Grades of Frozen Leafy Greens; Correction

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a portion of the USDA's proposed revision of the United States Standards for Grades of Frozen Leafy Greens (including spinach) appearing on pages 53875–53878 in the **Federal Register** of November 30, 1982, with respect to the term "each 2.5 cm increment."

DATE: Written comments must be received on or before January 31, 1983.

ADDRESS: Interested persons are invited to submit written comments concerning this proposal. Comments must be sent in duplicate to the Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Building, Washington, DC 20250. Comments should reference the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Mr. Melvin J. Horst, Processed Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447–6247.

SUPPLEMENTARY INFORMATION: This document corrects a portion of the proposed revision of the United States Standards for Grades of Frozen Leafy Greens (including spinach) appearing on pages 53875–53878 in the **Federal Register** of November 30, 1982, with respect to the term "each 2.5 cm increment." The intent of the proposed revision was to provide appropriate classifications and tolerances for the presence of extraneous vegetable material in all styles of frozen leafy greens. Chopped and pureed styles are restricted by definition to consist of product less than approximately 20 mm (0.78 in) in the longest dimension. It was intended to provide a measurement of extraneous vegetable material in terms of each 1.3 cm increment for chopped and pureed styles of frozen leafy greens. An inadvertent typing error resulted in the erroneous terminology "each 2.5 cm increment" in Table I under Chopped; pureed styles. In each instance under Table I, Chopped; pureed styles where "each 2.5 cm increment" appears, it should read "each 1.3 cm increment."

§52.1378 [Corrected]

Accordingly, the proposed revision of the United States Standards for Grades of Frozen Leafy Greens is amended to read as follows:

Section 52.1378, Table I, Chopped; pureed styles, Extraneous vegetable material: Group I, Group II, Group III, the words "each 2.5 cm increment" are amended to read "each 1.3 cm increment."

(Agricultural Marketing Act of 1946, Secs. 203, 205, 60 Stat. 1087, as amended, 1090, as amended (7 U.S.C. 1622, 1624).

Done at Washington, D.C. on December 23, 1982.

Eddie F. Kimbrell,

Deputy Administrator, Commodity Services.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Parts 154, 375 and 381

[Docket No. RM83–2–000]

Fees Applicable to Natural Gas Pipeline Rate Matters

December 15, 1982.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission (Commission) is proposing to amend its regulations to establish fees for services and benefits provided by the Commission under its jurisdictional statutes. The Commission is authorized by the Independent Offices Appropriations Act of 1952 (IOAA) to establish fees for services and benefits it provides. The fees are being proposed in a series of proposed rules, each rule relating to a different type of regulated entity or jurisdictional subject area.

This proposed rule would establish fees in Part 381 of the Commission's regulations for services and benefits provided to natural gas pipelines under the Natural Gas Act (NGA) and related authorities. The rule would require the payment of a fee upon the filing of: (1) Tariff filings for changes other than in rates under sections 4 and 5 of the NGA; (2) tariff filings that involve general changes in rates under sections 4 and 5 of the NGA; (3) tariff filings that track certain costs under sections 4 and 5 of the NGA, under settlement agreements with the Commission or under orders from the Commission and (4) petitions seeking advance Commission approval of rate treatment of research, development and demonstration expenditures.

DATE: Comments must be submitted to the Secretary of the Commission by February 14, 1983.

ADDRESSES: All filings should refer to Docket No. RM83–2–000 and should be addressed to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Kenneth F. Plumb, Secretary, Room 9310, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, (202) 357–8400.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Federal Energy Regulatory Commission (Commission) is proposing to amend its regulations to establish fees for services and benefits provided by the Commission under its jurisdictional statutes. The fees are being proposed in a series of proposed rules, each rule relating to a different type of regulated entity or jurisdictional subject area. By proposing fees in a series of individual rulemakings, the Commission intends to identify clearly each category of fees and to focus public comments. Nevertheless, the proposals are the product of a comprehensive examination of the potential fees associated with all the different functions and services performed by the Commision. The Commission will

consider issuing a consolidated final rule establishing fees for all services and benefits.

This proposed rule would establish, in Part 381 of the Commission's regulations, fees for certain services and benefits provided under the Natural Gas Act (NGA) [1] and the Natural Gas Policy Act of 1978 (NGPA).[2]

The rule would require payment of a fee upon the filing of the following:

(1) Tariff filings for changes other than in rates [3] under section 4 or section 5 of the NGA;

(2) Tariff filings that involve general changes in rates [4] under section 4 or section 5 of the NGA;

(3) Tariff filings that track changes in costs [5] under section 4 or section 5 of the NGA; and

(4) Petitions [6] seeking advance Commission approval of rate treatment of research, development, and demonstration expenditures.

The Commission is authorized by the Independent Offices Appropriations Act of 1952 (IOAA) [7] to establish fees for services and benefits it provides. The IOAA provides in pertinent part:

> [A]ny work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, or similar thing of value or utility performed, furnished, provided, granted, prepared, or issued by any Federal agency * * * to or for any person * * * shall be self-sustaining to the full extent possible, and the head of each Federal agency is authorized by regulation * * * to prescribe therefore such fee, charge, or price, if any, which he shall determine, in case none exists, or redetermine, in case of an existing one, to be fair and equitable taking into consideration the direct and indirect costs to the Government, value to the recipient, public policy or interest served, and other pertinent facts, and any amounts so determined or redetermined shall be collected and paid into the Treasury as miscellaneous receipts * * *.

The principal agency interpretation of the IOAA is Bureau of the Budget Circular A–25 [8] which states that a fee should be assessed against each identifiable recipient of a measurable unit or amount of Government service or property from which such recipient derives a special benefit.[9]

In accordance with the IOAA and authoritative interpretations of that statute, the Commission, in establishing any fees, must: [10]

A. Identify the service for which the fee is to be assessed;

B. Explain why that particular service benefits an identifiable recipient more than it benefits the general public;

C. Base the fee on as small a category of service as practical; and

D. Demonstrate what direct and indirect costs are incurred by the Commission in rendering the service, and show that those costs are incurred in connection with the service rendered the beneficiary.

II. Discussion.

The Commission believes that the fees set forth in this proposed rule would meet the four requirements outlined above.

A. Identification of Services

The categories of services and benefits provided in the area of natural gas pipeline rate matters for which the Commission proposes a fee in this rulemaking are the following:

1. Review of tariff filings for changes other than in rates under section 4 or section 5 of the NGA filed in accordance with Part 154;

2. Review of tariff filings that involve general changes in rates under section 4 or section 5 of the NGA filed in accordance with Part 154;

3. Review of tariff filings that track changes in costs under section 4 or section 5 of the NGA filed in accordance with Part 154 or pursuant to approved tariff provisions, orders of the Commission or settlement agreements with the Commission; and

4. Review of petitions seeking advance Commission approval of rate treatment of research, development, and demonstration expenditures filed in accordance with Part 154.

In the proposed rulemaking, the Commission is not proposing the charge fees for other actions it takes to implement its responsibilities relating to the area of natural gas pipeline rate matters. These actions are discussed in Subsection B of this discussion, in addition to those activities for which a fee is proposed.

B. Special Benefits to Identifiable Recipients

In delineating the services or benefits, for which agencies are permitted to charge under the terms of the IOAA, Budget Circular A–25 states that a fee may be charged to an identifiable recipient who derives a special benefit from a Government service.[11] In addition, the circular indicates that a "special benefit" has accrued if the recipient obtains "more immediate or substantial gains or values * * * than those which accrue to the general public."[12] Any fee charged under the IOAA is not rendered invalid because the public may also enjoy incidental benefits which flow from the service provided the recipient by the agency.[13] However, an agency may not charge for its services "when the identification of the ultimate beneficiary is obscure and the service can be considered as benefitting broadly the general public." [14] The proposed rule complies with these requirements in that the services for which fees would be charged under this rule provide special benefits to the applicants who invoke the Commission's procedures.

Commission acceptance of tariff filings for changes other than in rates allows the pipeline to amend an existing

gas tariff to change the terms and conditions of service. Such filings, if accepted by the Commission, permit changes in the general terms and conditions of the tariffs, rate schedules, service agreements and other miscellaneous tariff provisions, none of which changes any rate level or generates a change in annual revenues.[15] A pipeline must submit any change in its gas tariff to the Commission for its review and acceptance.

Commission acceptance of tariff filings that involve general changes in rates permits the pipeline to make the following changes [16] in rates: (1) General rate changes (increases or decreases) that affect the level for most, if not all, of the services provided by the pipeline and will enable it to recover its costs and earn a fair rate of return on jurisdictional sales; and (2) minor rate increases that usually relate to a few rate schedules and are designed to bring them into harmony with general tariff policy, to eliminate inequities or achieve other formal adjustments. A pipeline must submit any change in its rates to the Commission for its review and acceptance.

Another category of tariff filings permits the pipeline to adjust its rates for certain costs without the need to support the level of all other costs. These so-called "tracking filings" are treated separately for purposes of fees. Natural gas pipelines flow through certain "tracked costs" to their customers on the basis of the costs incurred. The pipelines are reimbursed dollar-for-dollar for these tracked costs. Although the pipelines make no profit from the "flow through" of these costs, they avoid the attrition in earnings that would otherwise occur without tracking authority. The Commission has the responsibility to ensure that rates charged by natural gas pipelines are just and reasonable whether these rates are established by general rate change filings or by tracking filings. In permitting pipelines to track certain costs, the Commission has found that the nature of these costs is sufficiently distinguishable from other costs so that they can be tracked without jeopardizing the overall relationship between costs and revenues. This relationship is subject to periodic review. The tracking filings themselves are subject to thorough review and analysis to ensure that only the proper costs are being tracked.

Advance Commission approval or rate treatment of research, development, and demonstration expenditures ensures that the pertinent research, development, and demonstration expenditures of the individual pipeline, group of pipelines, or entity acting on behalf of pipelines (such as the Gas Research Institute), will be considered by the Commission to be "valid, justifiable, and reasonable," [17] and that the pipelines incurring these expenditures will be allowed to flow through the costs to their jurisdictional customers.

With respect to each of the above services, the Commission believes that each identifiable applicant for these kinds of Commission services derives more substantial benefits than those benefits accruing to the general public. They are, therefore, the recipients of special benefits from the Commission. The Commission proposes to assess against any individual or entity, seeking these services, a fee, designed to recover the costs associated with providing that service.

As mentioned above, the Commission is not proposing in this rulemaking to establish fees for other actions it takes relating to natural gas pipeline rate matters. These actions include preliminary and formal enforcement investigations, administrative enforcement litigation and settlement of such litigation, news releases, litigation in the courts, and rulemakings. Generally, the recipients of these services are not readily identifiable.[18] Other actions the Commission takes relating to natural gas pipelines have been included in other rulemakings.

C. Smallest Practical Unit

In designing a fee schedule, the IOAA requires the Commission to base fees on the smallest unit of a category of service or benefit practical. In remanding fees established by the Federal Communications Commission, the Court of Appeals for the D.C. Circuit set forth the General rule:

> [W]e interpret the statute and the Supreme Court decisions to require reasonable particularization of the basis for the fees, accomplished by an allocation of costs to the smallest unit that is *practical*. In most cases, we expect this unit will be classes of carriers, or applicants or grantees or services which the Commission has already singled out for separate treatment in its 1975 fee schedule. Classification is always a difficult problem, involving as it does the drawing of lines; but the solution is not to group dissimilar entities together. The Commission must examine its expenses and set forth the maximum particularization of costs which it conveniently can make, so that the correctness of its actions can be reviewed.
>
> * * *
>
> Many of the expenses will no doubt separate naturally among classes of carriers and services * * *.[19]

The Commission recognizes that there may be significant differences in the costs incurred for individual filings or applications which are submitted for approval or review. Some filings are more complex or controversial than others or may require more time to process. The Commission is proposing to establish fees based on the narrowest categories of activities sharing common characteristics. Fee categories are generally delineated according to the nature of the services or benefits provided. For example, separate fees are established for general rate change filings and for tracking filings, even though these services are requested by a similar class of applicants. If it is practical to identify specific units within a general category of service as a basis for allocating the costs incurred by the Commission, a fee applicable to that unit is set forth. For example, the proposed rule establishes separate fees for those tariff filings that require an evidentiary hearing and for those that do not.

A fundamental consideration in developing a fee structure under the IOAA is the administrative practicality of establishing fees which relate, not just to categories of services, but also to subcategories of services or even individual agency services. This problem relates to the accessibility of cost data and the expense incurred in collecting the data. The Commission believes it has the authority to establish separate fees for any filing that initiates a proceeding and any filing that requires the Commission to undertake additional steps in that proceeding, such as requests for rehearing, intervention, or appeals. However, because the time spent in subsequent stages of a proceeding is not separately recorded by the Commission, the Commission has insufficient data at this time that are

---

[15] The Commission has incorporated into the proposed fees for pipeline certificate applications the costs incurred in reviewing tariff filings that relate directly to a natural gas pipeline certificate authorization or amendment thereto. Therefore, the Commission is not, in this rulemaking, assessing a separate fee for tariff filings submitted in connection with a pipeline certificate application. The Commission will continue to examine its data on costs incurred in these areas and will consider assessing separate fees for these tariff filings in its final rules.

[16] 18 CFR 154.63(a)(2)–(4)(1982).

[17] 18 CFR 154.38(d)(5)(1982).

[18] The Commission, however, is considering, in other rulemakings, fees for declaratory orders under all of its jurisdictional statutes and recovery of the costs of certain rulemakings. In those cases where a fee is proposed, the Commission believes that there are special benefits provided to identifiable recipients.

[19] Electronic Industries Association v. FCC, 554 F.2d 1109, 1116–17 (D.C. Cir. 1976) (emphasis added).

detailed enough to permit it to compute a fee for the separate stages of a proceeding. As a result, the Commission is proposing to establish fees for an entire proceeding or application process, broken down solely by whether or not there is a hearing. The Commission nevertheless requests comments on whether fee categories should be established for smaller classes of applicants, or separate stages of a proceeding, and the nature of the data that would be necessary to support such fee categories.

With respect to those costs that the Commission incurs in any proceeding after a tariff filing is set for hearing, this rule, as proposed, would follow the approach proposed for natural gas pipeline certificate-related fees [20] to recover, in one assessment, all costs associated with the hearing phase of a proceeding. This approach was adopted for certificate proceedings because of the infrequency of settlements after issuance of a hearing order. In the case of natural gas pipeline rate proceedings, the Commission is proposing the assessment of a single hearing-related fee because current data demonstrate that the vast majority of hearing-related costs are incurred before the first pre-hearing conference is convened. Those costs involve the conduct of staff's investigation and the preparation of cost of service, allocation and rate design, depreciation, and other analyses. The Commission nevertheless recognizes that there are costs that pertain only to the hearing *per se*, such as costs associated with administrative law judges and review of their initial decisions, and that are not incurred if a case is settled before the hearing process has run its full course. It may therefore be appropriate to assess fees for hearing-related costs in installments, as previously proposed for electric rate proceedings.[21] The Commission will continue to examine its cost data to determine at what stages of the hearing process costs are generally incurred, in anticipation of developing an appropriate method of assessing hearing-related fees according to particular phases of a formal proceeding.

D. Basis of Cost Recovery.

1. Direct and indirect costs included.

The fee schedule proposed by the Commission is designed to account for all types of recoverable costs associated with the processing of the specified applications and filings. The costs attributable to a particular Commission service are not merely the salaries if the employees who review the applications or filings. As the Fifth Circuit observed, in *Mississippi Power and Light* v. *NRC*, employees "must be supplied with working space, heating, lighting, telephone service and secretarial support. Arrangements must be made so that [they are] hired, paid on a regular basis and provided specialized training courses. Those and other costs such as depreciation and interest on plant and capital equipment are all necessarily incurred in the process of reviewing an application." [22] The following descriptions indicate what actual costs are incurred when the Commission supplies the identified services and benefits relating to the area of natural gas pipeline rate matters.

Natural gas pipeline tariff filings are processed principally by the Office of Pipeline and Producer Regulation (OPPR) and the Office of General Counsel (OGC). A notice of the filing is published in the **Federal Register**. The filing is analyzed from a legal and technical standpoint to determined whether the proposed changes comply with the Commission's regulations and guidelines relating to natural gas pipeline tariff filings, and, in the case of tariff filings that involve general changes in rates, whether the changes are consistent with the statutory "just and reasonable" standard. If the filing is determined to comply with all statutory and regulatory requirements and is uncontested, staff prepares a letter order accepting the changes, together with a memorandum in which staff summarizes the filing and the responses to the public notice, analyzes the filing and makes recommendations to accept the changes. The letter order and the memorandum are sent either to the Commission or to the Director of OPPR. If the recommendations of staff are accepted, the letter order is issued by the Commission or by the Director of OPPR pursuant to delegated authority.

If the changes are found not to comply fully with applicable statutory and regulatory requirements, staff prepares a memorandum to the Commission in which staff summarizes the filing and the responses to the public notice, analyzes the filing and makes recommendations whether to suspend the filing and set the matter for hearing. If the Commission does not set the matter for hearing, a letter order accepting the changes is issued either by the Commission or by the Director of OPPR pursuant to delegated authority. In those cases where the Commission determines that a genuine issue of material fact exists, the tariff filing is suspended, and the case is set for hearing before an administrative law judge.

If a tariff filing that involves general changes in rates is set for hearing, OPPR conducts an investigation of the books and records of the pipeline company, identifies areas of disagreement and prepares positions to be presented in any formal proceeding. OPPR's positions are summarized in so-called "top sheets," that form the bases for staff's settlement positions. In the case of either a tariff filing for changes other than in rates or a tariff filing that involves general changes in rates, staff, under the direction of an administrative law judge, meets with the filing pipeline and any other interested parties in a pre-hearing conference to discuss the various positions of all the participants in the proceeding and makes any adjustments where appropriate. Depending on the issues, OPPR, OGC, the Office of Regulatory Analysis (ORA), and the Office of the Chief Accountant (OCA) may participate in the hearing. At the conclusion of the hearing, the parties and staff file briefs and the administrative law judge issues a decision. Following the initial decision, the parties may file briefs on and opposing exceptions. In such cases, the Office of Opinions and Review (OOR) prepares a formal opinion for the Commission's consideration.

Tracking filings are processed principally by OPPR and OGC. A notice of the filing is published in the **Federal Register**. The filing is analyzed from a legal and technical standpoint to determine whether the proposed tracking filing complies with the Commission's regulations and guidelines relating to tracking filings, and whether it complies with any approved tariff provisions, orders by the Commission or settlement agreements with the Commission, the provisions of which it is intended to implement. If the filing is determined to comply with all the above requirements and is uncontested, staff prepares a letter order accepting the tracking filing, together with a memorandum in which staff summarizes the filing and the responses to the public notice, analyzes the filing and makes recommendations to accept the tracking filing. The letter order and the memorandum are sent either to the Commission or to the Director of OPPR.

[20] Notice of Proposed Rulemaking, "Fees Applicable to Natural Gas Pipelines," issued September 10, 1982, (Docket No. RM82-31-000). 47 F.R. 40834 (September 15, 1982).

[21] Notice of Proposed Rulemaking, "Fees Applicable to Electric Utilities, Cogenerators, and Small Power Producers," issued September 1, 1982. (Docket No. RM82-38-000). 47 F.R. 39851 (September 10, 1982).

[22] 601 F. 2d at 236.

If the recommendations of staff are accepted, the letter order is issued either by the Commission or by the Director of OPPR pursuant to delegated authority.

If the tracking filing is found not to comply fully with applicable statutory and regulatory requirements, or not to implement properly the provisions of approved tariff provisions, orders by the Commission or settlement agreements with the Commission, staff prepares a memorandum to the Commission in which staff summarizes the filing and the responses to the public notice, analyzes the filing and makes recommendations whether to suspend the filing and set the matter for hearing. If the Commission does not set the matter for hearing, a letter order accepting the tracking filing is issued either by the Commission or by the Director of OPPR pursuant to delegated authority. In those cases where the Commission determines that a genuine issue of material fact exists, the tracking filing is suspended and the case is set for hearing before an administrative law judge.

If the tracking filing is set for hearing, OPPR prepares an analysis in which staff determines what it believes to be the appropriate costs to be flowed through to the filing pipeline's customers. Before hearing, staff, under the direction of an administrative law judge, meets with the filing pipeline and any other interested parties in a pre-hearing conference to discuss the various positions in an effort to limit the areas to be litigated. Depending upon the issues, OPR, OGC, ORA and OCA may participate in a hearing. At the conclusion of the hearing, the parties and staff file briefs and the administrative law judge issues an initial decision. Following the initial decision, the parties may file briefs on and opposing exceptions. In such cases, OOR prepares a formal opinion for the Commission's consideration.

The largest single cost item permitted to be recovered through tracking filings is purchased gas costs, which are flowed through under the purchased gas adjustment clause (PGA). The Commission audits those pipelines that use PGA's to ensure that the pipelines are complying with the statutory and regulatory requirements for the use of PGA's. As the result of an audit, the Commission may find that a certain pipeline is not complying with its PGA regulations. The Commission can require such a pipeline to refund to its customers PGA costs improperly charged to its customers. PGA audits, conducted in conjuction with the use of PGA tracking filings by the pipelines, are necessary for responsible implementation of PGA tariff provisions. The cost of conducting PGA audits has therefore been incorporated into the costs used to determine the fees for tracking filings that are not suspended and set for hearing.

Pipelines must make refunds to their customers when it has been determined that they have overcharged their customers under provisions of a tariff filing, because of a refund made to the pipelines by producers or other pipelines, or for other reasons. Refund reports and plans, filed with the Commission pursuant to an order by the Commission or a settlement agreement with the Commission, are processed by OPPR and OGC. A notice of the filed refund report or plan is published in the **Federal Register**. The refund report or plan is reviewed by OPPR and OGC to determine whether it property implements the provisions of the underlying order or settlement agreement. If it is determined that the refund report or plan does not implement properly the underlying order or settlement agreement, a deficiency letter is sent to the company, requiring appropriate revisions and resubmittal of the refund report or plan. If the refund report or plan is found to be consistent with the requirements of the underlying order or settlement agreement, staff prepares a letter order accepting the refund report or plan and a memorandum in which staff summarizes the refund report or plan and the responses to the public notice, and makes recommendations to accept the refund report or plan. If the recommendations of staff are accepted, the letter order is issued by the Commission or by the Director of OPPR pursuant to delegated authority.

Review of refund reports and plans is necessary for the responsible implementation of the provisions of tariff filings. The costs of reviewing refund reports and plans relating to tariff filings that involve general changes in rates that are set for hearing and tariff filings that track changes in costs that either are or are not set for hearing have therefore been incorporated into the respective costs used to determine the fees for each of these services.

Petitions that are filed by pipelines, groups of pipelines, or entities acting on behalf of pipelines, to obtain advance Commission approval of rate treatment of research, development, and demonstration expenditures are processed by OPPR. A notice of the filing is published in the **Federal Register**. Staff reviews the proposed projects and submits a memorandum to the Commission with staff's judgment as to whether the expenditures are "valid, justifiable and reasonable," and, therefore, should be allowed to be flowed through to the jurisdictional customers of the pipelines sponsoring the projects. The Commission then issues an order either accepting or rejecting the petition, in whole or in part.

The Gas Research Institute, acting on behalf of its member pipelines, regularly files petitions to obtain advance Commission approval of rate treatment of its research, development, and demonstration expenditures. When the Gas Research Institute files such a petition, the Commission follows a special procedural schedule. Staff prepares a report in which it summarizes the proposed projects and presents the staff's judgment as to whether the expenditures are "valid, justifiable and reasonable," and as to whether the costs should be allowed to be flowed through to jurisdictional customers of the pipelines sponsoring the research, development, and demonstration projects. The report is sent to all intervenors.[23] Reply comments on the report from intervenors, and final comments from the Gas Research Institute are then submitted to the Commission. The Commission then issues an order either accepting or rejecting the Gas Research Institute's petition, in whole or in part.

2. *Methodology*

The Commission's calculation of the costs incurred to provide each of the services represented by a fee category is directly related to the amount of time the Commission spends providing each of these services. The proposed rules relies on information obtained through the Commission's management information system (MIS), which provides the amount of time spent on all the Commission functions. These data are recorded on a periodic basis. The functions are grouped into categories which represent the Commission's various programs, including gas wellhead pricing, gas pipeline rates, gas pipeline certificates, oil pipeline regulation, hydropower regulation, and electric power regulation.

The supervisor in each organizational unit reports through the MIS the amount of time spent by staff on each function, in terms of "work-months". A "work-month" is the unit of work represented by one employee's devotion of 100% of his or her time for one month. With

[23] All state public utilities commissions and all members of the Gas Research Institute automatically are made intervenors.

respect to each function, the supervisor records the number of projects initiated (receipts) and completed (completions) in a particular time period, insofar as the nature of the function involves the initiation and completion of projects. Most Commission functions can be measured in terms of the number of projects initiated and completed. In accordance with Commission practice, most of these projects are generally assigned docket numbers and, for purposes of this discussion, will be referred to as "docketed activities."

Other "support" functions regularly undertaken, with respect to any program, may not be measured in terms of receipts and completions and are not docketed. The nature of these functions makes impractical any measurements in terms of receipts and completions, but staff time is nevertheless spent performing these functions. This time is allocated and reported by unit supervisors.

These support functions will be referred to as "support activities" and can be divided into three categories. First, there are activities that involve general supervision, personnel management, and routine administrative functions such as maintenance of time and leave records, the handling of property and supplies, staff meetings, and the planning and organizing of leave.

Second, support staff responds to requests for information that do not contribute directly to the completion of a docketed activity. Examples include requests for information from the public, from the Congress, from the General Accounting Office, and from other governmental agencies.

Third, support staff establishes or reviews Commission operations and procedures. These activities include work on the Commission budget, management information systems, and program development functions such as special studies or briefings not identified with a docketed activity.

The Commission uses the following method to determine the cost of providing any service or benefit.[24] First, the work-months reported for a specific "docketed" activity are added to a pro-rata share of the work-months reported for the relevant "support" activities.[25] This figure, representing the total number of work-months dedicated to a given function for a year, is divided by the number of completions for that year for the given function. The resulting quotient represents the average number of work-months required to complete each function.

Second, the Commission used the following figures provided by the Office of Program Management to derive the average cost of a work-month, based on the Commission's FY 1982 budget.

Average annual salaries and fringe benefits (including the overhead for retirement and benefit insurance)	$37,518
Administrative overhead for one year per employee (including printing, communication, office space, rent, etc.)	8,468
Contracts for overhead services for one year per employee (microfilm, etc.)	2,406
Estimated average cost per employee for fiscal year 1982	$48,392

The total is divided by 12 to yield an average work-month cost of $4,032.67.

Third, in order to determined the cost of the function, the Commission multiplies the average cost per work-month by the average number of work-months required to complete the function.[26]

The Commission proposes to update the fees each year to reflect Commission costs. An updated fee schedule would be published in the **Federal Register** each year. The updated fee would be the product derived by multiplying each fee that is effective for the current fiscal year by the ratio of the average budgeted costs per employee for the next fiscal year to the average budgeted costs per employee for the current fiscal year. An applicant would be obliged to pay either the updated fee or, if the updated fee is not yet effective, the fee that is currently effective at the time of filing.

E. Exceptions to Full-Cost-Recovery

As a general policy, the Commission intends to establish fees which include all the recoverable costs associated with a particular benefit or service provided by the Commission. The Commission recognizes, however, that there may be instances in which a fee has an undesired effect on an applicant or other person requesting a service or benefit or otherwise proves infeasible. In such cases, the Commission may exercise discretion to reduce the fee for a category of service. Generally speaking, the Commission does not expect this issue to arise with regard to any service which is necessary to participation in a regulated business and continues to consider the possibility of full-cost-recovery for each category of service for which it proposes fees. The Commission specifically requests comments on this fundamental approach.

A primary concern presented by the establishment of fees is to ensure that the benefits and services provided by the Commission under its jurisdictional statutes remain reasonably available to interested persons. Any consideration of whether to establish a less than full-cost-recovery fee under new Part 381 for a category of service would depend initially on a threshold determination that a full-cost-recovery fee may discourage use of the service for which the fee is assessed. If it appears to the Commission that a full-cost-recovery fee would discourage filings or use of Commission services, it would then consider a reduction in the relevant fee. The determination of how far to reduce a fee will depend on four specific factors.

1. *Disproportionate economic burden.* The Commission may reduce the fee by a factor of forty to sixty-five percent, if it is shown that the individuals or entities the Commission expects to predominate in the potential class of payers are of the type on which the full-cost-recovery fee could be expected to impose a disproportionate economic burden. If the Commission service does not pertain to small entities, or involve any particular economic hardship, but if the imposition of a full-cost-recovery fee for that service, nevertheless, would discourage use of the service, then, the Commission would be inclined to reduce the fee by a smaller amount, not to exceed fifty percent of the full cost of the service.

2. *Encouraging use of a service.* The Commission may reduce the fee by twenty percent, if the service or procedure involved is of a type that the Commission wishes to encourage or if

[24] The fees categories proposed in this and other proposed fees rules are designed on the assumption that jurisdictional entities would continue to submit filings and applications in the same configurations as in the past. For instance, several tariff changes other than in rates are often submitted together by gas pipeline companies. Although the proposed fees schedules are designed to collect a separate fee for each discrete service or benefit provided, the Commission recognizes that the potential exists, in some cases, for jurisdictional entities to combine filings in order to avoid the assessment of fees. If the implementation of fee schedules causes jurisdictional entities to alter their reporting practices, the Commission would consider additional means to ensure that the Commission does recover all of the costs it incurs in providing these services.

[25] The Commission has excluded from its cost calculations those work-months associated with the second category of support activities, because those functions do not constitute part of the cost of providing a special benefit.

[26] The Commission is developing MIS date for FY 1982 and fiscal budget data for FY 1983. These data will be available by the time final fees rules are considered by the Commission. The Commission will use the most accurate and representative base year data available for establishing fees under the standard methodology proposed in this and the other fees rulemakings.

the Commission prefers that service or procedure to be utilized more often than others which would provide essentially the same benefit.

3. *Use of Commission time.* Related to the consideration of encouraging one service over another is a consideration of whose time and effort is required to provide the particular service. Commission time is more valuable and limited than is staff time. Therefore, a reduction of five percent may be made if a service requires only staff time for normal processing and does not include an appeal to the Commission.

4. *Reduction of processing time.* There may be some services the Commission provides with which the Commission has had little experience. Therefore, its data may not be as indicative of the average costs of providing that service over a longer period of time as its data for the costs of services it has been providing for many years. As the Commission gets more familiar with the processing or review of such an application or filing, it may become more efficient, thereby reducing the amount of time required to provide the service. To reflect this possibility, the Commission may reduce the fee by five percent if the service requested is one with which the Commission has had little experience.

III. Fees Proposed

The following table summarizes the average number of work-months (WM's) and average costs incurred in rendering the services for which the Commission proposes fees in this rulemaking: [27]

Service	Total WM's	Total completions	Average number WM's per completion	Average cost per completion
Review of tariff filings for changes other than in rates (without hearing)	44.40	118	.376	[1] $1,517
Review of tariff filings that involve general changes in rates (without hearing)	44.40	118	376	1,517
Hearing phase of either tariff filings for changes other than in rates or tariff filings that involve general changes in rates	1,121.10	101	11.10	44,762
Review of tariff filings that track changes in costs (tracking filings) (without hearing)	[illegible]	245	1.20	4,843
Hearing phase of filings that track changes in costs (without filings)	128.77	[illegible]	[illegible]	23,603

[1] The fees in these categories reflect the fact that the underlying data on gas pipeline tariff filings for changes other than in rates and tariff filings that involve general changes in rates are currently collected and maintained together. By proposing two fee categories, the Commission is indicating that it will segregate the data pertaining to these two kinds of tariff filings, in the anticipation of establishing two or more fees categories in this area.

The Commission proposes to use the standard methodology set forth in this and other fees rulemakings to determine all of the fees for natural gas pipeline rates matters, except the fee for petitions seeking advance Commission approval of rate treatment of research, development, and demonstration expenditures. Rather than devise a single fee for reviewing such petitions, the Commission proposes to use the direct billing procedure to recover these costs. The reasons for such an approach are as follows. Most of the Commission time spent in reviewing these petitions is spent reviewing petitions filed by the Gas Research Institute. However, pipelines, groups of pipelines, and entities acting on behalf of pipelines, also file petitions seeking advance Commission approval of expenditures for their own projects. These projects are usually much smaller than the Gas Research Institute's projects and require much less Commission time to review. If the Commission were to determine a fee based on the average cost per petition seeking advance Commission approval of rate treatment of research, development, and demonstration expenditures, the result might be to require these other entities to subsidize the cost of reviewing the Gas Research Institute's petitions. Therefore, the Commission proposes to direct bill, by means of the procedures set forth in §381.107, to cover the costs of processing any petition seeking advance Commission approval of rate treatment of research, development, and demonstration expenditures.

The following fees are therefore proposed: [28]

Service	Fee
Tariff filings for changes other than in rates (without hearing)	$1,500.00
Tariff filings that involve general changes in rates (without hearing)	1,500.00
Tariff filings for changes other than in rates and tariff filings that involve general changes in rates (with hearing)	46,200.00
Tariff filings that track changes in costs (without hearing)	4,800.00
Tariff filings that track changes in costs (with hearing)	28,400.00
Petitions seeking advance approval of rate treatment of research, development, and demonstration expenditures	Direct billed

In the pipeline rate area, a substantial amount of Commission costs are incurred in evidentiary hearings. Unlike many of the other services for which the Commission proposes fees, a significant number of tariff filings are set for hearing. Therfore, in order to be consistent with the policy of full-cost-recovery, the proposed fees, for tariff filings that are suspended and set for hearing, are designed to recover the average cost to the Commission of an evidentiary hearing.

This proposed rule would require only the person submitting the application or the filing to pay the fee, which includes the average cost of a hearing, on the theory that an applicant receives a special benefit and that an evidentiary hearing is a necessary part of the process conferring the benefit. In addition, the Commission currently does not have adequate data that allow allocation of costs among parties to a hearing, such as intervenors. Nevertheless, there may be instances where assessing a fee that includes all or part of the costs of a hearing against persons other than an applicant may be a viable approach under the IOAA. The Commissioner requests comments on this issue.

These fees have not been reduced according to the factors discussed in Section II. E., above, because generally these fees are proposed for services necessary for participation in a regulated industry, and, therefore, would not discourage use of the service. However, the Commission is considering reduction or waiver of fees assessed against small pipelines for tariff filings that are set for hearing. The Commission is concerned that the assessment of full-cost-recovery fees for these services might impose a disproportionate economic burden against small pipelines.

The Commission also is proposing procedures whereby the Commission may waive or reduce any of the proposed fees in specific circumstances. These procedures would give the Commission the discretion to waive or reduce the fees in order to avoid undue economic burden in particular cases. Factors which the Commission may consider in waiving or reducing a fee include the size and financial health of an applicant.

IV. Procedures for Paying Fees

In order to be consistent with the assessment of fees relating to natural gas pipeline rate matters, the Commission proposes to amend its current regulations regarding the procedures applicable to each of the applications and filings covered by the proposed fee schedule. The amended procedures would require that a certified check or money order for the appropriate amount, made payable to the United States Treasury, be included with each filing and application.

In addition, the proposal provides, in § 381.103(b), that any application or filing, which is not accompanied by the appropriate fee, would be considered deficient, and would not be processed

[27] The Commission is placing in the public file for this docket more detailed data relating to the costs incurred by the Commission which form the basis of the proposed fees.

[28] Fees are established by taking actual costs and rounding *down* to: (1) the nearest $5 increment, if the total cost is $100 or less; and (2) the nearest $100 increment, if the total cost is more than $100.

by the Commission. Consistent with this proposed rule, the Commission would consider rejecting and not processing a deficient filing, not assigning a filing date for a deficient filing, and suspending the continuation of a hearing, until such time that the added amount due for that application or filing is paid as required.

The Commission is considering whether to assess in installments the increment of the total fee that pertains to the evidentiary hearing process. In order to account for both the possibility of settlements before the completion of formal proceedings and the pattern of cost-incurrence by the Commission, the Commission may decide to assess portions of the hearing-related fees at specified junctures in the proceeding. For example, two-thirds of the fee could be due within 30 days after issuance of a suspension order, with the remainder due not later than 10 days before a hearing commences.

Furthermore, in the areas where the Commission presently charges fees, it follows, with minor exceptions, a policy of no refunds. The Commission expects to apply this no refund practice to all fees proposed in the new series of rulemakings under the IOAA, as well.

V. Direct Billing Alternative

As discussed above, the methodology that would be used to establish the fees for all of the fees categories covered in this rulemaking, other than the fee for petitions for advance Commission approval of rate treatment of research, development, and demonstration expenditures, is based on the average cost of processing the average filing. The Commission occasionally receives filings which are not representative of these average filings. These filings may be so extensive in scope and present issues of such complexity or difficulty that the Commission must devote an extraordinary amount of time and staff resources to processing them. The standard fees would bear no reasonable relationship to the actual cost of processing these extraordinary filings. Moreover, if the costs of processing these extraordinary filings were included in the average costs associated with average filings, persons submitting average filings would be subsidizing those submitting the extraordinary filings. Therefore, the Commission is proposing that in the case of an extraordinary filing, it would order a direct billing procedure.

Under this direct billing procedures, the Commission would periodically bill the person who submitted the filing for all the direct and indirect costs incurred by the Commission in processing the filing. The filing would be processed like other filings, but the amount of time and staff resources devoted to processing the filing would be recorded separately and would not be averaged with the time devoted to processing the average filing.

VI. Summary of Proposed Rule

This proposed rule establishes fees for services and benefits provided by the Commission in the area of natural gas pipeline rate matters in proposed Part 381 of Chapter I of Title 18 of the Code of Federal Regulations.

Proposed §§ 381.101 and 381.102 state the purpose of proposed Part 381 and provide definitions of the words "person", "work year cost", and "filing".

Proposed § 381.103 provides that each filing must be accompanied by the proper fee or that filing will be considered deficient, which could result in rejection of the filing. Section 381.103 also provides that if a filing for one service or benefit may be considered as falling within two or more fee categories, the higher or highest of the applicable fees must be paid.

Proposed § 381.104 requires the Commission to publish a revised fee schedule each year to reflect an increase or decrease in costs.

Proposed § 381.105 establishes the method of payment of the proposed fees.

Proposed § 381.106 provides that the Commission may waive or reduce fees if to do so is necessary to prevent an undue economic burden.

Proposed § 381.107 provides that the Commission may order any filing, the processing of which requires an extraordinary amount of time and staff resources, to be assessed fees under a direct billing procedure. Any fees paid under Part 381 upon submission of the filing would be credited against the direct bill.

Proposed § 381.408 establishes a $1,500 fee, payable upon the submission of a tariff filing for changes other than in rates. If the filing is set for hearing, § 381.408 establishes a total fee of $46,200, requiring an additional payment of $44,700, after the filing is set for hearing.

Proposed § 381.409 establishes a $1,500 fee, payable upon the submission of a tariff filing that involves general changes in rates. If the filing is set for hearing, § 381.409 establishes a total fee of $46,200, requiring an additional payment of $44,700, after the filing is set for hearing.

Proposed § 381.410 establishes a $4,800 fee, payable upon the submission of a tariff filing to track certain costs. If the filing is set for hearing, § 381.410 establishes a total fee of $28,400, requiring an additional payment of $23,600, after the filing is set for hearing.

Proposed § 381.411 establishes that a fee be determined and paid using the direct billing procedure set forth in § 381.107 upon the submission of a petition seeking advance Commission approval of rate treatment of research, development, and demonstration expenditures.

In addition, this proposed rule amends the Commission's regulations relating to the above mentioned categories of service to require each applicant to file the proper fee with each application.

VII. Initial Regulatory Flexibility Analysis

Whenever the Commission is required by section 553 of the Administrative Procedure Act (APA) (5 U.S.C. 553) to publish a general notice of proposed rulemaking, it is also required by section 603 of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612) to prepare and make available for public comment an initial regulatory flexibility analysis. The analysis must describe the impact the proposed rule will have on small entities. The broad purpose of the RFA is to ensure more careful and informed agency consideration of rules that may significantly affect small entities and to encourage analyses of these rules as well as the agency's consideration of alternative approaches that may better resolve any unnecessarily costly or adverse effects on small entities.

In this preamble, the Commission presents its reasons for this agency action, its objectives, and the legal basis for this rulemaking. As discussed, the proposed rule would establish a schedule of fees to be paid the Commission for certain benefits it provides. The proposed rule would not impose any reporting, recordkeeping, or compliance requirements.

This rule would affect natural gas pipelines subject to Commission jurisdiction under the NGA and the NGPA as well as non-jurisdictional entities seeking advance Commission approval of rate treatment of research, development, and demonstration expenditures. There are approximately 150 interstate natural gas pipelines in the United States. The Small Business Administration (SBA) regulations do not establish specific size standards for natural gas pipelines. (*See* 13 CFR Part 121). Most natural gas pipelines, however, especially interstate pipelines, are large businesses. Only about 40 interstate natural gas pipelines possibly could be classified as small entities.[29] Petitioners seeking advance Commission approval of rate treatment of research, development, and demonstration expenditures are pipelines, groups of pipelines, or entities

[29] Generally, the Commission considers small pipelines to be those pipelines classified as Class C or Class D natural gas companies, that is, companies earning $25,000 or more per year, but less than $1,000,000. (See 18 CFR Part 104, Uniform System of Accounts Prescribed for Natural Gas Companies Subject to the Provisions of the Natural Gas Act.) In addition, the Commission considers small entity pipelines to include those companies earning less than $25,000 a year or those that are so new that they cannot yet be classified.

owned or controlled by pipelines, and, therefore, usually are either large businesses, or are owned and controlled by large businesses.

Where a proposal may have significant economic impact on a substantial number of small entities, section 603(c) of the RFA requires the Commission to discuss significant alternatives to the proposal. The Commission has already attempted to minimize any disproportionate burden that the proposal would have on pipelines that may be small entities. The proposal contains a provision for waiver or reduction of any fees as needed to avoid imposition of an undue burden. The Commission, of course, could, consider reducing the fees, or even eliminating the fees, with respect to small entities. However, in proposing the fees the Commission also is attempting to satisfy the statutory directive of the IOAA to be "self-sustaining to the full extent possible." The Commission believes that the rule, as proposed, represents a fair balance that will satisfy the purposes of both the IOAA and the Regulatory Flexibility Act.

VIII. Written Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting data, views, or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, not later than February 14, 1983. Each person submitting a comment should indicate that the comments are being submitted in Docket No. RM83-2-000, and should give reasons, including any supporting data, for any recommendations. Comments should also indicate the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Commission. All comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. during business hours.

In consideration of the foregoing, the Commission proposes to amend Chapter I, Title 18, Code of Federal Regulations as set forth below.

By direction of the Commission.

Kenneth F. Plumb,

Secretary.

1. Chapter I is amended in its table of contents by adding in the appropriate numerical order, a new part and heading, to read as follows:

CHAPTER I—FEDERAL ENERGY REGULATORY COMMISSION

* * * * *

SUBCHAPTER W—REVISED GENERAL RULES

Part

* * * * *

381 Fees

* * * * *

PART 154—[AMENDED]

§ 154.24 [Amended]

2. Section 154.24 is amended by inserting between the word "part" and the period, the phrase "or is not accompanied with the fee prescribed in Part 381".

§ 154.38 [Amended]

3. Section 154.38(d)(5)(i) is amended in the third sentence by inserting between the word "reasonable" and the period, the phrase "and shall be accompanied by the fee prescribed in Part 381 of this chapter."

4. Section 154.63, paragraph (b) is amended by adding (b)(1)(iii) to read as follows:

§ 154.63 Changes in a tariff, executed service agreement or part thereof.

* * * * *

(b) * * *

(1) * * *

(iii) A fee in the amount prescribed in Part 381 of this chapter.

* * * * *

PART 375—[AMENDED]

§375.307 [Amended]

5. Section 375.307 is amended by adding a new paragraph (u) at the end thereof, to read as follows:

§ 375.307 Delegations to the Director of the Office of Pipeline and Producer Regulation

* * * * *

(u) Waive or reduce the fees prescribed in Subpart D of Part 381.

6. Subchapter W is amended by adding a new Part 381 to read as follows:

Subpart A—General Provisions

§ 381.101 Purpose.

The purpose of this part is to set forth the fees that the Commission has established for services and benefits provided by the Commission.

§ 381.102 Definitions.

(a) "Person" means any person, group, association, organization, partnership, corporation, or business, except those engaged in the transaction of official business of the Government.

(b) "Work year cost" means the ratio of the Commission's budgeted expenses during any given fiscal year to the authorized staff level for that fiscal year.

(c) "Filing" means any application, petition, request, or motion submitted to the Commission in connection with any of the services or benefits for which a fee is established in this part.

§ 381.103 Filings.

(a) *Submittal of fees.* Except as provided in § 381.106, a fee in the amount set forth in this part must accompany each filing for which a fee has been established.

(b) *Deficiencies.* (1) Any filing which is not accompanied by either the fee established for that filing or a request for reduction or waiver in accordance with § 381.106 is deficient.

(2) The Secretary will inform any person who submits a deficient filing that:

(i) Such filing will be rejected, unless the appropriate fee is submitted within a specified time;

(ii) The Commission will not process any filing which is deficient under this paragraph; and

(iii) The date of filing will be deemed the date on which the Commission receives the appropriate fee.

(3) This provision does not preclude a determination that a filing is deficient for any other reason.

(c) *Choice of two fees.* If a filing for one service or benefit may be considered as falling within two or more categories of service for which a fee is established, that filing must be accompanied by the higher or highest of the applicable fees.

§ 381.104 Annual adjustment of fees.

(a) *Update and publication.* Beginning in fiscal year 1983, fees established in this part are updated annually, in accordance with this section. Updated fees are published in the **Federal Register** and as an appendix to this part.

(b) *Payment of updated fees.* Any person who, after fiscal year 1982, submits a filing for which a fee is established in this part must pay the updated fee under this section or, if the fee has not been updated at the time of the filing, the currently effective fee.

(c) *Formula.* The fee applicable to a fee category in each fiscal year is the fee for the previous fiscal year for that category, multiplied by the ratio of the work year cost for the fiscal year for which the fee is determined to the work year cost for the previous fiscal year. The fee is rounded down to the nearest five dollar increment.

(d) *Effective date of fee.* Any fee updated under this section becomes effective on the thirtieth day after publication in the **Federal Register** of the revised appendices to this part, or the first day of the fiscal year for which the fee is updated, whichever is later.

§ 381.105 Method of payment.

Fee payments must be made by certified check or money order payable to the Treasurer of the United States.

§ 381.106 Reductions and waivers.

(a) *When to request.* (1) Except as otherwise provided in paragraph (a)(2) of this section, an applicant may request a waiver or reduction of a fee prescribed in this part at the time that a filing is submitted to the Commission.

(2) Any request for waiver or reduction of the fees prescribed for any rate schedule filing or tariff filing filed under the Federal Power Act, Natural Gas Act, or Interstate Commerce Act, must be submitted at least 30 days prior to submission of the filing.

(b) *Basis.* The applicant must show that waiver of reduction of the fee is necessary to prevent undue economic burden on the applicant.

(c) *Commission action.* Within 21 days of the submission a request for waiver or reduction, the Commission or its delegatee will notify the applicant of the decision to grant or deny that request. The filing will not be processed until disposition of the waiver request.

§ 381.107 Direct billing.

(a) *Applicability.* If a filing presents issues of fact or law, procedural difficulty, or technical complexity, which require an extraordinary amount of Commission time and effort to be devoted to processing that filing, the Commission will institute a direct billing procedure for that filing. Fees assessed by a direct billing procedure in accordance with this section will supersede the fees established in this part for the appropriate category of service.

(b) *Procedures.* (1) If the Commission determines that a filing meets the standards prescribed in paragraph (a), the Commission may order that the full cost of processing the filing be recovered under a direct billing procedure. The Commission will make a direct billing determination under this paragraph not later than one year after the filing is accepted for filing by the Commission.

(2) Direct billing will not be instituted with respect to any filing until the person who submitted the filing is notified that direct billing will be applied to the filing in lieu of the fees established under this part.

(3) Any fee submitted with the filing will be applied, as a credit, to the amount billed directly for processing costs. The secretary will thereafter periodically bill the person who submitted the filing for the actual direct and indirect costs which are incurred in processing the filing after the Commission orders the direct billing procedure instituted.

Subpart B—Feed Applicable to General Functions [Reserved]

Subpart C—Fees Applicable to the Natural Gas Policy Act of 1978 [Reserved]

Subpart D—Fees Applicable to the Natural Gas Act and Related Authorities

Sec.

381.401 Blanket small producer certificates. [Reserved]
381.402 Producer certificates of public convenience and necessity. [Reserved]
381.403 Producer rate schedules. [Reserved]
381.404 Pipeline certificate applications. [Reserved]
381.405 Requests for authorization under the blanket certificate notice and protest procedures. [Reserved]
381.406 Curtailment filings. [Reserved]
381.407 Amendment. [Reserved]

§ 381.406 Pipeline tariff filings for changes other than in rates.

(a) *Definition.* Tariff filings for changes other than in rates include tariff filings that:

(1) Do not change any rate level or generate a change in a pipeline company's annual revenues;

(2) Change general terms and conditions of tariffs, rate schedules, service agreements, and other miscellaneous tariff provisions.

(b) *Fee.* Unless the Commission orders direct billing under § 381.107 or otherwise, the initial fee established for a tariff filing for changes other than in rates is $1,500 for fiscal year 1982 and, for subsequent fiscal years, is the fee established by § 381.104. The fee established for a tariff filing for changes other than in rates that is set for hearing is $46,200 for fiscal year 1982 and, for subsequent fiscal years, is the fee established by § 381.104. The fee filed under this paragraph must be submitted in accordance with Subpart A of this part and Part 154.

(c) *Procedures.* Any person who submits a tariff filing for changes other than in rates that is set for hearing must pay the difference between the initial fee and the fee established for a filing that is set for hearing, not later than 30 days after the issuance of an order setting the matter for hearing.

§ 381.409 Pipeline tariff filings that involve general changes in rates.

(a) *Definition.* For the purposes of this section, tariff filings that involve general chnges in rates include tariff filings under § 154.63(a) (2) (3) and (4), that:

(1) Either increase or decrease most, if not all, of a pipeline's rates applicable to the various jurisdictional services it provides; and

(2) Relate to a few rate schedules and are designed to bring them into harmony with general tariff policy, eliminate inequities, or achieve other formal adjustments.

(b) *Fee.* Unless the Commission orders direct billing under § 381.107 or otherwise, the initial fee established for a tariff filing that involves general changes in rates is $1,500 for fiscal year 1982 and, for subsequent fiscal years, is the fee established by § 381.10. The fee established for a tariff filing that involves general changes in rates that is set for hearing is $46,200 for fiscal year 1982 and, for subsequent fiscal years, is the fee established by § 381.104. The fee filed under this paragraph must be submitted in accordance with Subpart A of this part and Part 154.

(c) *Procedures.* Any person who submits a tariff filing that involves general changes in rates that is set for hearing must pay the difference between the initial fee and the fee established for a filing that is set for hearing, not later than 30 days after the issuance of an order setting the matter for hearing.

§ 381.410 Pipeline tariff filings that track certain costs.

(a) *Definition.* For the purposes of this section, tariff filings that track certain costs include all tariff filings made by natural gas pipelines under approved tariff provisions, orders of the Commission or settlement agreements with the Commission to enable the Commission to track costs associated with purchased gas costs, research, development, and demonstration costs, incrementally priced gas, advance payments, demand charge adjustments, transportation and compression costs, natural gas storage costs, and other similar costs.

(b) *Fees.* Unless the Commission orders direct billing under § 381.107 or otherwise, the inital fee established for a tariff filing that tracks certain costs is $4,800 for fiscal year 1982 and, for subsequent fiscal years, is the fee established by § 381.104. The fee established for a tariff filing that tracks certain costs that is set for hearing is $28,400 for fiscal year 1982 and, for subsequent fiscal years, is the fee established by § 381.104. The fee under this paragraph must be submitted in accordance with Subpart A of this part and Part 154.

(c) *Procedure.* Any person who submits a tariff filing that tracks costs that is set for hearing must pay the difference between the intial fee and the fee established for a filing that is set for hearing, not later than 30 days after the issuance of an order setting the matter for hearing.

§ 381.411 Petitions for advance approval of rate treatment of research, development, and demonstration expenditures.

The fee for a petition seeking advance Commission approval of rate treatment of research, development, and demonstration expenditures will be determined and billed according to the procedures for direct billing set forth under § 381.107.

Subpart E—Fees Applicable to Matter Under Parts II and III of the Federal Powers Act and the Public Utility Regulatory Policies Act of 1978 [Reserved]

Subpart F—Fees Applicable to the Interstate Commerce Act [Reserved]

18 CFR Part 271

[Docket No. RM79-76-157 (Texas—22 Addition—II)]

High-Cost Gas Produced From Tight Formations; Texas

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This Notice of Proposed Rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the Railroad Commission of Texas that an additional area of the Strawn-detrital Formation be designated as a tight formation under § 271.703(d).

DATE: Comments on the proposed rule are due on February 7, 1983. Public hearing: No public hearing is scheduled in this docket as yet. Written requests for a public hearing are due on January 7, 1983.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357-8511, or Walter W. Lawson, (202) 357-8556

SUPPLEMENTARY INFORMATION:

Issued December 23, 1982.

I. Background

On November 9, 1982, the Railroad Commission of Texas (Texas) submitted to the Commission a recommendation, in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that an additional area of the Strawn-Detrital Formation in Crockett County, Texas, be designated as a tight formation. The Commission previously adopted a recommendation that a portion of the Strawn-Detrital Formation be designated as a tight formation [Order No. 249 issued August 24, 1982, in Docket No. RM79-76-111 (Texas—22)] and currently has under consideration a recommendation to designate the Detrital Formation in the Perner Ranch Area as a tight formation [Notice of Proposed Rulemaking issued December 2, 1982, Docket No. RM79-76-150 (Texas—22 Addition:]. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether Texas' recommendation that an additional area of the Strawn-Detrital Formation be designated a tight formation should be adopted. Texas' recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

Texas recommends that the Strawn-Detrital Formation in the area of the University Block 31 and Howards Creek (Penn) Fields in Crockett County, Texas, Railroad Commission District 7C, be designated as a tight formation. The recommended area consists of Sections 19, 20, S ½ of 21, 29, 30, 31, and 32, University Lands Survey, Block 30; Sections 1, 2, 3, S ½ of 4, 5, 6, 7, 8, S ½ of 9, 11, 12, 13 and 14, University Lands Survey, Block 33; Sections 29, 31, 50, 51, north 320 acres of 30, SE ¼ of 53, S ½ of

32, SW ¼ of 12, Block UV, G.C. & S.F.R.R. Co. Survey. The area recommended is west and northwest of the city of Ozona, Texas, and is an extension of the area of the Strawn-Detrital Formation designated as a tight formation by the Commission's Order No. 249.

Type logs within the designated area show the top of the Strawn-Detrital Formation at approximate depths of 7,924 feet in the north to 8,296 feet in the south, and the base is located at approximately 7,980 feet in the north of 8,668 feet in the south.

III. Discussion of Recommendation

Texas claims in its submission that evidence gathered through information and testimony presented at a public hearing in support of this recommendation demonstrates that:

(1) The average *in situ* gas permeability throughout the pay section of the proposed area is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulations, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formation is expected to produce more than five (5) barrels of oil per day.

Texas further asserts that existing State and Federal regulations assure that development of this formation will not adversely affect any fresh water aquifers that are or are expected to be used as a domestic or agricultural water supply.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued in Docket No. RM80-68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by Texas that the Strawn-Detrital Formation as described and delineated in Texas' recommendation as filed with the Commission, be designated as a tight formation pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before February 7, 1983. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM79-76-157 (Texas—22 Addition II) and should give reasons including supporting data for any recommendation. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at a public hearing should notify the Commission in writing of a desire to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than January 7, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301-3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Subchapter H, Chapter I, Title 18, Code of Federal Regulations, as set forth below, in the event Texas' recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

Section 271.703 is amended by revising paragraph (d)(106) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.*

* * * * *

(106) *Strawn-Detrital Formation in Texas.* RM 79-76-111 (Texas-22).

(i) *University Block 31 (Strawn-Detrital) Field.*

* * * * *

(ii) *Perner Ranch Area.*

* * * * *

(iii) *University Block 31 (Strawn-Detrital) and Howards Creek (Penn) Fields.*

(A) *Delineation of formation.* The Strawn-Detrital Formation in the area of the University Block 31 and Howards Creek Fields is located in Crockett County, Texas, Railroad Commission District 7C. The designated area consists of Sections 19, 20, S½ of 21, 29, 30, 31 and 32, University Lands Survey, Block 30; Sections 1, 2, 3, S½ of 4, 5, 6, 7, 8, S½ of 9, 11, 12, 13 and 14, University Lands Survey, Block 33; Sections 29, 31, 50, 51, north 320 acres of 30, SE¼ of 53, S½ of 32, SW¼ of 12, Block UV, G.C. & S.F.R.R. Co. Survey.

(B) *Depth.* Type logs within the designated area show the top of the Strawn-Detrital Formation at approximate depths of 7,924 feet in the north to 8,296 feet in the south, and the base is located at approximately 7,980 feet in the north to 8,668 feet in the south.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Parts 804, 805, 813, 860, 865, 880, 881, 882, 883, 884, 886 and 889

[Docket No. 82-981]

Definition of Income, Income Limits, Rent and Reexamination of Family Income for the Public Housing and Section 8 Housing Assistance Payments Programs

AGENCY: Office of Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Proposed rule.

SUMMARY: HUD proposes to implement recent statutory changes relating to the establishment of income limits for eligibility, definition of income, calculation of rent, and reexamination of income in the Public and Indian Housing and Section 8 Housing Assistance Payments Programs.

DATE: Comment Due Date: February 28, 1983.

ADDRESS: Interested persons are invited to submit comments to the Rules Docket Clerk, Office of General Counsel, Room 10278, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410. Each comment should include the commentor's name and address and must refer to the docket number indicated in the heading of this rule. A copy of each comment will be available for public inspection and copying during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Edward Whipple, Office of Public Housing, (202) 426-0744; James Tahash, Program Planning Division, Office of

Multifamily Management, (202) 755–5654; or Monica Sussman, Office of State Agency and Bond Financed Programs, (202) 755–7172; Department of Housing and Urban Development, Washington, D.C. 20410. These are not toll-free telephone numbers.

SUPPLEMENTARY INFORMATION: The Housing and Community Development Amendments of 1981 ("Amendments"), contained in Title III, Subtitle A, of the Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97–35), amend several provisions of the United States Housing Act of 1937, as amended (the " '37 Act"). This rulemaking proceeding covers those changes relating to rents, income limits, definition of income, and reexamination of income and family composition which apply to both the Public and Indian Housing and the Section 8 Programs. Statutory changes applicable to only one of these programs and changes related to other areas of program administration will be implemented in other regulations.

Prior to enactment of the Amendments, fundamental differences existed between the Section 8 and public housing programs. Both programs were subject to statutory minimum and maximum family contributions toward rent, and the maximum was generally limited to 25% of the adjusted income. (Section 202 of the Housing and Community Development Amendments of 1979 authorized the Secretary to establish the maximum contribution toward rent for tenants commencing occupancy after December 31, 1979, at 30% of adjusted income in the case of most families with incomes between 50% and 80% of the area median income, but such authorization was not implemented by the Department.) Prior to the amendments, the '37 Act established minimum rents for public housing at 5% of family gross income or the shelter component of welfare assistance in "as-paid" states. Public Housing Agencies (PHAs) were authorized to establish maximum rents at levels up to the 25% of income ceiling, and also were authorized to establish income limits which might exceed the Section 8 income limits but ordinarily were less than the Section 8 limits.

For the Section 8 program, the '37 Act, prior to the Amendments, established income eligibility limits at 80% of area median income. Unlike the public housing programs rental rates in the Section 8 program were established as both maximum and minimum rates, except that a number of different rates were applicable in different circumstances, with the maximum rate set by regulation generally at 25% of income after allowances.

The principal effects of the Amendments were to (1) Require HUD to increase the amount of rent payable by a Section 8 tenant family from 25% to 30% of the adjusted income, (2) severely restrict the number of families participating in the Section 8 program whose annual incomes are between 50% and 80% of area median income, and (3) make the revised income eligibility and rent computation requirements applicable to the public housing program as well as to the Section 8 program. The Amendments also eliminated statutory provisions governing the calculation of "income" under the public housing and Section 8 programs in favor of a single uniform definition for all programs under the '37 Act, under which the establishment of deductions from income to be utilized for calculation of "adjusted income" would be left to the discretion of the Secretary.

Separate interim rules which implemented only the change in the income-percentage formula for determining the tenant rental payment required in the Public Housing and Section 8 programs, without altering the existing regulations governing the definition and calculation of income and adjusted income, were published on May 4, 1982 (47 FR 19120 and 19128) and became effective on August 1, 1982 (47 FR 30969 and 30971) (the "Interim Increase Rules"). Public comments on the Interim Increase Rules were received until June 18, 1982, and have been considered in the preparation of this proposed rule. Discussion of such comments appears elsewhere in this preamble. The publication of this proposed rule in no way impairs the effectiveness of the Interim Increase Rules. However, they will be superseded by the final rule resulting from this proceeding. The regulatory changes proposed in this proceeding, when adopted as a final rule and effective, will complete the implementation of the Amendments affecting tenant contribution toward rent in the programs covered by the rule.

This proposed rule would add a new Part 813—Definition of Income, Income Limits, Rent and Reexamination of Family Income for the Public Housing and Section 8 Housing Assistance Payments Programs, to Title 24 of the Code of Federal Regulations, replacing various regulation sections now scattered throughout other Parts pertaining to individual programs. In addition, other conforming amendments are proposed to various program regulations.

The Amendments enacted similar income eligibility and rent calculation provisions governing other subsidized programs (rent supplement and Section 236 rental assistance payments). These changes will be implemented throughout separate rulemaking proceedings.

A summary of the changes proposed in this proceeding follows:

1. *Definition of Annual Income—Section 813.104.* Section 322 of the Amendments deleted the specific exclusions and deductions from income which were previously contained in Section 3 of the '37 Act which applied to the Public and Indian Housing Programs. "Income" is defined in the Amendments as income from all sources of each member of the household, as determined in accordance with criteria prescribed by the Secretary. This was also the definition of income under Section 8 prior to the Amendments. "Adjusted income" is defined in the Amendments as the income which remains after exclusion of such amounts or types of income as the Secretary may prescribe. These definitions now apply to all housing assisted under the '37 Act.

The proposed rule uses the term "annual income" as the equivalent of the statutory term "income," and uses the statutory term "adjusted income" for its statutory meaning.

Consistent with current policy, annual income would be defined as anticipated income of each member of the family with certain exclusions. Section 813.104(b) lists examples of the types of income which must be included. This list is based on the current definition of annual income in Part 889, which applies to the Section 8 programs. There are, however, several differences, outlined below:

—Existing Section 8 regulations prescribe, in effect, one definition of "income" for eligibility purposes and another for rent computation purposes (see 24 CFR 889.103). The proposed rule adopts for all purposes under the '37 Act the essential features of the definition utilized currently for determination of eligibility. Under this definition, income would include the higher of (i) Actual income from assets, or (ii) if Net Family Assets exceed $5,000, 10 percent of the value of such assets. For the purpose of this computation, Net Family Assets includes the difference between the value of assets disposed of for less than fair market value during the two years preceding the date of application for the program or the date of reexamination, as applicable, and the consideration received therefor. These changes are designed to assure that only those in need of assistance will be eligible and

that tenant rent will reflect a tenant household's resources.

—A clarifying change is proposed in § 813.104(a)(6). Under the current Part 889 and these proposed regulations, the amount included in income from public assistance in "as paid" States where the welfare agency adjusts the shelter and utility component of the welfare grant in accordance with actual housing costs is the amount of the grant exclusive of the shelter and utility component, plus the maximum possible grant component for shelter and utilities. Since the amount of public assistance depends on the tenant family's actual rent and the amount of the rent depends on the tenant's public assistance, it is necessary to determine how much to include in income. The maximum possible grant component for shelter and utilities has been chosen as the amount to be included in income in order to establish a fixed point for computing income, even though the family may not actually receive that amount, in order to carry out Congressional intent to maximize the amount that the PHA receives from welfare recipients in such States.

Consistent with current Section 8 program policy and the rent calculation provisions of the Interim Increase Rules, the new provision being proposed for use in all housing assisted under the '37 Act would state that in "as paid" States which reduce the assistance amount payable by a percentage ("ratable reduction"), the ratable reduction shall be applied to the maximum payment only one time for the purpose of determining the amount of welfare assistance to be included in income. This policy will avoid a series of recomputations by the welfare agency and by the PHA or owner which would otherwise occur. For example, once the PHA or owner determines a family's rent under Part 813, based on income including the full amount possible for the shelter and utility component reduced once by the appropriate percentage under the public assistance program, the welfare agency may reduce that amount again. If HUD were to reduce income a second time and redetermine tenant rent, the public assistance agency might apply its ratable reduction a third time, and the process might continue through further rounds of reduction.

Several commenters took exception to the rent calculation provision which embodies a concept found in the Interim Increase Rules (Sections 860.404(a)(3) and 889.105(a)(3)) analogous to this income calculation provision. One legal aid society stated that the welfare rent provision (Section 3(a)(3) of the '37 Act as amended) should not apply in States that reduce the grant by a ratable reduction since Congress did not intend that such welfare tenants pay more for shelter than they receive for that purpose from the welfare agency. The other comment was that no ratable reduction should be recognized because it only encourages welfare agencies to pay less. We find the legislative history of the most recent welfare rent provision and its predecessor in the public housing program devoid of any discussion of the ratable reduction of welfare rents. However, the plain language of the Amendments requires families in as-paid States to pay an assisted housing rent based on the welfare rent. The Department is not authorized to establish an exception from that requirement in States that apply a ratable reduction. Administrative practice with respect to rent and income calculations in the public housing program and with respect to income calculations in the Section 8 program has been to apply the welfare rent provision to ratable reduction States with a one-reduction rule. In adopting the welfare rent provisions for use in all '37 Act programs, Congress did not repudiate this practice. On the other hand, refusal to recognize even one application of the ratable reduction would ignore the fact that the maximum shelter grant a family could ever obtain is the State's maximum for shelter multiplied by the reduction factor once.

Considering the small impact on the family (since both the public assistance grant and the family gross rent ratchet downward), the great administrative burden of several rounds of recomputation, and the need to have a starting point for computing income, the Secretary has determined that imputing income and limiting percentage reductions of public assistance to one adjustment for purposes of § 813.106 is reasonable exercise of the Secretary's administrative discretion under section 3(b)(4) of the '37 Act to define "income."

—Section 813.104(c) defines "temporary, non-recurring or sporadic income" which is not counted as income. Section 813.104(d) specifies other amounts which are excluded from the definition, including benefits from other Federal programs which are excluded by statute from consideration as income for housing subsidy calculation purposes. This subsection also continues existing provisions excluding foster child care payments and modifies the exclusion of income of minors by excluding only earned income and by deleting full-time students from the definition of minor in the Section 8 program.

The reason for including unearned income while excluding earned income of minors was to reach the maximum income available to the household for its support while leaving an incentive for minors to work. In addition, the income earned by minors is usually insignificant in amount, sporadic, and of a nature that is difficult to verify (e.g., babysitting and lawnmowing). The prior exclusion of income of full-time students has caused many anomalies in the program, such as the exclusion of most of a family's income where a grandmother is the head of household and her full-time student daughter receives welfare payments for two children. Scholarships and educational benefits paid to veterans are still excluded from income.

2. *Definition of Adjusted Income—Section 813.102.* The proposed rule would define adjusted income as annual income minus: (1) $400 per minor and (2) $300 for an elderly, disabled or handicapped head of household.

Section 3(b)(5) of the '37 Act provides that the Secretary, in defining adjusted income, may take into account the number of minors in the family and such other factors as the Secretary may determine are appropriate. The Secretary's intention to provide for deductions of $400 per minor (representing an increase from $300) and $300 for an elderly, disabled or handicapped head of household was indicated in testimony before the Congressional Committees considering the Amendments. Housing and Community Development Amendments of 1981: Hearings Before the Subcommittee on Housing and Community Development of the House Committee on Banking, Finance and Urban Affairs, 97th Cong., 1st Sess. 576–577, 581 (1981); see S. Rep. No. 87, 97th Cong., 1st Sess. 29 (1981). The objective of the proposal was to "replace two current systems which have as many as 7 deductions for determining net income" (S. Rep. No. 87, 97th Cong., 1st Sess. 29 (1981)), and which necessitate administratively burdensome documentation and verification requirements, by a more simple formula involving two standard deductions.

While Congress adopted the Department's legislative proposal eliminating the former specification of itemized deductions, the Conference Report on the Amendments nevertheless stated the Conferees' "concern" that "the Secretary should retain a deduction related to those child care expenses that are necessary to permit a tenant to be

employed" (H.R. Rep. No. 208, 97th Cong., 1st Sess. 688 (1981)).

The Department has considered the recommendations contained in the Conference Report but has determined to propose adherence to the formula presented in testimony before the Committees. The Department recognizes that elimination of itemized deductions will affect some families more than others. In particular, elimination of a dependent-care deduction and a separate deduction for work-related expenses (currently allowed in public housing, see 24 CFR 860.403(f)(3)) will bear more heavily on working families than welfare families and may be considered by some as creating work disincentives. Elimination of an itemized deduction for excess medical expenses may also affect working families more heavily in view of the availability of Medicaid to welfare families. However, notwithstanding the impact that elimination of itemized deductions may have in individual circumstances, the Department continues to believe that a system providing for a series of itemized deductions requiring verification and documentation creates administrative costs that outweigh its benefits.

In addition, the basis for proposing the standard deduction of $300 for elderly and handicapped heads of households was that it would approximately offset the elimination of other, itemized deductions and redistribute the benefit of the deductions toward very low-income elderly households. Based on 1979 data, the average annual medical deduction taken by all Section 8 elderly tenants was $197; by Section 8 elderly tenants of less than 20% of median income was $82; and by Section 8 elderly tenants of more than 30% but less than 50% of median income was $247. In all such cases, the $300 standard deduction more than offsets the average medical deduction. HUD data also indicates that only a small portion of tenant households would appear eligible for the dependent care deduction.

In view of the importance of the questions involved, as evidenced by the expression of concern contained in the Conference Report, the Department specifically invites comment on its proposal to utilize a system limited to two standard deductions rather than permit additional itemized deductions subject to verification requirements.

Comments on the Interim Increase Rules included statements about anticipated revisions in the system of deductions that actually appear for the first time in this proposed rule. Some public housing agencies ("PHAs") complained that the increase in the deduction for minors, combined with an anticipated child care expense deduction would more than offset the increase in rental income derived from the increase of 25% of adjusted income. The Department believes that the increase is justified in recognition of inflation and to mitigate the effect of the elimination of additional itemized deductions. Other comments received are covered in the discussion above relating to itemized deductions.

3. *Income Limits—Section 813.103.* Section 322 of the Amendments provides that dwelling units shall be rented only to families who are lower income at the time of their initial occupancy, consistent with the previous requirement under the Section 8 Program. Lower income families are defined in the statute as families with incomes that do not exceed 80 percent of the median income of the area as determined by HUD with adjustments for family size and other factors. The Amendments thus prescribe, for the first time, statistically defined income limits for the Public Housing Program. The responsibility for establishing such limits was previously vested in the local public housing agencies (PHAs) and Indian Housing Authorities (IHAs) which administer the program.

Within the class of lower income families, the statute defines very low income families as families with incomes that do not exceed 50 percent of the median income of the area. Section 323 of the Amendments limits the participation of lower income families other than very low income families. Specifically, only 10 percent of those public housing and section 8 units under contract and available for occupancy before October 1, 1981 and leased on or after that date may be leased to lower income families other than very low income families. In addition, no more than 5 percent of any public housing and Section 8 units which first become available for occupancy on or after October 1, 1981 may be leased to lower income families other than very low income families.

One comment received on the Interim Increase Rules stated that the cost of the programs would not be reduced since the percentage of very low income families has been increased significantly, increasing subsidy requirements. The criticism misses the point of the legislative changes. As stated by the Senate Banking Committee:

> "Although this lower eligibility limit will tend to increase housing program costs, the Committee rejects the argument that for cost reasons moderate-income people should get housing while the poor wait in line. It will always be less expensive to house only those who can afford to pay more of the rent themselves. The government's purpose in lower-income housing programs though should be to help those who most need assistance." S. Rep. No. 87, 97th Cong., 1st Sess. 5 (1981).

To minimize Federal intervention in local housing programs and to avoid the disruption of established housing patterns, this rule does not contain any specific limitations applicable to project-based programs placed under contract and available for occupancy before October 1, 1981. HUD monitoring procedures will be established to assure that the 10 percent limitation is not exceeded, and under this rule the Department reserves the right to limit occupancy if necessary.

Under the proposed rule, HUD may approve occupancy by lower income families with incomes above 50 percent of the median for up to 5 percent of the units placed under contract and available for occupancy on or after October 1, 1981. For this purpose, the post-October 1, 1981 universe includes units for which lease approval under the Section 8 Existing Housing Program (see 24 CFR section 882.210) is first granted after such date, including units to which certificate holders now being assisted move. The regulations provide for priority for approval of lower income families with incomes above 50% of median to projects being rehabilitated if necessary to avoid displacement, to bond-financed Section 8 projects, to projects where there is a commitment to occupancy for a broad range of incomes, and to projects where such tenants are needed for financial viability.

Mutual Help and Turnkey III homeownership projects may house lower income families other than very low income families without prior HUD approval. This is due to the small size of the programs, their homeownership nature, and the need to house families who can afford program costs.

4. *Rent—Section 813.105.* Section 322 of the Amendments establishes formulas for computing the rent which families participating in public housing and Section 8 will pay. For all families, rent is the greatest of 10 percent of gross income, 30 percent of adjusted income, or if the family receives welfare assistance, a portion of which is designated for housing and is adjusted in accordance with actual housing costs, that portion designated for housing ("welfare rent"). PHA discretion to set rents in the public housing program is eliminated. The Amendments delete the several Section 8 rent formulas which varied depending on such factors as

whether a family was a large very low-income family, a very large lower-income family, or a family with exceptional medical expenses.

Section 322(i) of the Amendments authorizes the Secretary to provide for delayed applicability or staged implementation of the rent computation requirements for tenants already occupying assisted housing if the Secretary determines that immediate application of the procedures would be impracticable, would violate the terms of existing leases, or would result in extraordinary hardship for any class of tenants. The Amendments require tenants whose occupancy begins after the effective date of the Amendments to be subject to immediate application of the revised rates except that the Secretary, in his discretion, may provide for delayed applicability or staged implementation if he determines that immediate application would be impracticable or that uniform procedures for assessing rents would significantly decrease administrative costs and burdens. Section 322 also restricts rent increases pursuant to the statutory changes to a maximum of 10 percent during any 12-month period and further provides that such procedures shall not result in reduction of a tenant's rent below the amount paid on the day before the effective date of the Amendments. The 10 percent ceiling upon annual increases also applies to increases resulting from changes effective on or after October 1, 1981, in other Federal law defining which governmental benefits shall or may be counted as income. All of these provisions are reflected in the proposed regulations as discussed below.

The welfare rent statutory language which previously applied only to public housing now applies to Section 8 families who are recipients of public assistance in "as paid" States. For essentially the same reasons given in explaining the clarifying change proposed for § 813.104(a)(6) described above, a new sentence is being proposed in § 813.105(a)(3) (as incorporated in the already effective Interim Increase Rules), consistent with past practice in the public housing program, to provide that in States which apply a percentage reduction factor to the actual rent paid, the amount designated by the public agency administering the welfare assistance program shall be reduced by such percentage one time. Considering the small impact on the family (since both the grant and the family gross rent ratchet downward) and the great administrative burden of several rounds of recomputation, the Secretary has determined that limiting percentage adjustment reductions of public assistance to one adjustment for purposes of § 813.105(a)(3) is a reasonable exercise of administrative discretion and is not inconsistent with Section 3(a)(3) of the '37 Act.

Commenting on the Interim Increase Rules, many PHAs complained about the elimination of ceiling rents, set at a fixed amount, which they argued attracted and retained working families for whom 25% of income would have been greater. They stated that keeping such families in occupancy was a stabilizing influence on public housing projects. They also criticized the elimination of flexibility to set rents which had allowed them to take into account such factors as the relative undesirability of a particular project, which helped them keep units occupied. The elimination of authority for ceiling rents and PHA flexibility in setting rents was effected by the statute and the regulations merely implement the revised statutory scheme in these respects.

As he has done in the Interim Increase Rules, the Secretary here proposes to exercise his discretion under Section 322(i) of the Amendments to phase in rent increases for tenants already occupying assisted housing at the effective date of the Interim Increase Rules in order to minimize hardship to persons relying upon established low rents. For tenants whose occupancy begins after the effective date of the Interim Increase Rules, the Secretary proposes not to exercise his discretion to provide for delayed applicability (beyond the delay from October 1, 1981, to August 1, 1982, which was the effective date of the Interim Increase Rules) or staged implementation since they do not have the same hardship. New tenants are likely to be paying less for housing upon entering an assisted program at 30% of income than they were paying before, and they have no reason to rely on rents at 25% of income. More importantly, the Secretary's discretion under the statute to delay or phase in application of the revised rates to new tenants is not based upon hardship to tenants, as in the case of existing occupants, but is related solely to administrative burdens. The Secretary recognizes that the phase-in of the revised rates for existing tenants creates some administrative burden but does not believe that the failure to apply similar provisions to new tenants increases those burdens. (Numerous comments on the Interim Increase Rules asserted that such increased burdens would result from the failure to phase in the increase for new tenants, but such comments were made principally by tenants and not by administering agencies.)

The phase-in of the new system would begin at the first reexamination occurring after the effective date of the rule. For Federal Fiscal Year 1983, the rent will be computed using 27 percent of adjusted income, in Fiscal Year 1984, using 28 percent of adjusted income, etc., until in Fiscal Year 1986, the full 30 percent will be used. In no case will tenant rents increase by more than 10 percent during any 12-month period because of these changes or other changes in Federal law regarding the counting of other governmental benefits as income, nor will there be a decrease in rent because of these changes.

Many PHAs have objected to the phase-in schedule as administratively burdensome; a few PHAs and legal aid organizations also have objected to it as inequitable to tenants. Some PHAs pointed out that as many as four percentages could be applied to various categories of tenants during 1982 just to compute the rent under the first of at least two calculations required for each family under Section 3(a) of the '37 Act as amended. (The assumption was that during the first several months after October 1, 1982, and until all current tenants had received their first reexamination following August 1, 1982, various tenants might be paying rents at 25%, 26%, 27%, or 30% of adjusted income.) The programming costs for this requirement were stated to be enormous at a time when resources are scarce. However, while different tenants might be subject to different percentages depending upon the dates when their calculations occur, that does not mean that more than one percentage calculation must be made as to any particular tenant family. Further, at hearings before the Congressional committees considering the Amendments, the Secretary expressed his commitment to phasing the higher rents in over a period of five years. [House hearings cited above; Housing and Community Development Amendments of 1981: Hearings before the Subcommittee on Housing and Urban Affairs of the Senate Committee on Banking, Housing and Urban Affairs, 97th Cong., 1st Sess. 6 (1981).] The Secretary feels bound by his representations to Congress, and he believes that the hardship that would be imposed on tenants if the 30 percent increase were implemented more rapidly, subject only to the 10 percent annual increase cap, outweighs the

burden imposed on PHAs. Furthermore, when Congress enacted the Amendments it approved the mandatory increase based on the Secretary's assurance that he would phase in the increase gradually. The decision to implement the increase immediately for new tenants is not inequitable since it is clearly contemplated by the statute and there is a logical and justifiable distinction between established program beneficiaries and new entrants to the program.

Several commentors suggested that clarification was required as to who would be considered a new entrant to the program for purposes of the percentage of adjusted income to be paid. The National Housing Law Project, for example, suggested that the following should not be classified as new tenants: (1) Tenants who transfer from one unit in a project to another, from one project to another, or from one program to another; (2) family members who move out of the household but remain in the project, the program, or another assisted program; and (3) Section 8 Existing Housing Certificate holders who receive the certificates before August 1, 1982, but locate units afterwards. The Department agrees that tenants in the first category should not be considered new tenants but disagrees as to the second two categories. When family members move out of the household, the remaining "Family" in the original unit or program will be considered as a prior tenant, but there appears to be no sound reason for extending the same status to the new household unit. From the perspective of financial hardship, persons who have received a Section 8 Certificate but are not yet occupying a unit and paying a subsidized rent are in no different position from other new entrants to an assisted program. Clarifications consistent with the foregoing determinations have been incorporated into the proposed rule at § 813.105(b)(2).

Several commentors pointed out that, in accordance with the Amendments, the 10 percent cap should apply to the use of the new definitions of income and adjusted income, when implemented, and to any increases resulting from any provision of Federal law becoming effective on or after October 1, 1981, redefining which governmental benefits are required to or may be considered as income, as well as to the increased percentages. Section 813.105(c) of the proposed rule covers the application of the 10 percent cap to increases resulting from such clauses.

One legal services corporation suggested that rents of assisted tenants should not be raised to 30% of income because rents paid by tenants in the nation generally average less than 30% of income. It would be sufficient to respond that the 30% rate is set by statute. However, it is also noted that the data relied upon by the commentor is not wholly pertinent. The commentor cited data in the Annual Housing Survey: 1979, published by the Department, indicating that the median percentage of income paid as gross rent by all renters is 26%. (The comparable figure in the Annual Housing Survey: 1980 is 25%.) However, such figure represents a percentage of gross income, not adjusted income. Moreover, the Department believes that the more pertinent comparison is with rents paid by unassisted households in comparable income ranges. Recent data indicated that while the rent paid by all market-rate nonelderly renters averaged 29% of gross income, the rents paid by market-rate nonelderly renters with 30% or less of median income averaged 67% of gross income, and the rents paid by market-rate nonelderly renters with more than 30% but less than 50% of median income averaged 37% of gross income. The same data source indicated that the rent paid by all market-rate elderly renters averaged 33% of gross income; that rents paid by market-rate elderly tenants with less than 30% of median income averaged 48% of gross income; and that the rents paid by market-rate elderly tenants with more than 30% but less than 50% of median income averaged 37% of gross income. Report to the Congress: Social Security Benefits and Assisted Housing Rent Charges, Appendix 2 (Office of Policy Development and Research, HUD, May 1981).

Section 813.105(d) exempts Mutual Help projects from the rent formulas otherwise applicable to housing assisted under the 1937 Act. The authority for this exemption is found in Section 203 of the Housing and Community Development Act of 1974 (42 U.S.C. 1437f Note), which permits special rent schedules where approved by HUD for Mutual Help projects.

5. *Annual reexaminations for all tenants—Section 813.107.* Section 322 of the Amendments also requires that the incomes of all families (including elderly) be reexamined no less frequently than annually. This proposed rule provides for reexamination annually for all tenants by the owner of PHA, as appropriate, or more frequently than annually at the option of the owner or PHA.

Since the Section 202/8 program regulations in 24 CFR Part 885 do not cover determination of eligibility for admission or reexamination of family income and composition, § 813.107 would make Subpart F of Part 880 or 881 applicable to projects developed under Part 885, for purposes of Part 813. Section 813.102 similarly would make Part 880 or 881 applicable in the determination of utility allowances for Section 202/8 projects.

In response to concerns expressed by Congress and the General Accounting Office, HUD is proposing to add a provision clarifying that PHAs and owners may require applicants and tenants to provide copies of their income tax returns and requiring the applicant or tenant to sign a release and consent authorizing any depository of private source of income, or any Federal, State, or local agency, to provide information necessary to determine or audit a family's eligibility to receive assistance or the amount of a family's gross rent. The use or disclosure of such information would be limited to purposes directly related to Part 813 and the applicable assistance program. In section 210 of the Housing and Community Development Amendments of 1979, (42 U.S.C. 1437f(k)), Congress specifically directed the Secretary to take such steps to assure that the information provided by applicants for Section 8 assistance is accurate. The Department does not interpret this specific direction applicable to the Section 8 program as indicating a lack of Secretarial authority to impose such requirements generally in income-based programs.

6. *Changes to Other Regulations Required by the Amendments.* This rule proposes to revoke or amend several regulations for the reasons indicated:

(a) Part 860, Subpart A, Income Limits, and Part 860, Subpart D, Minimum and Maximum Rent-Income Ratios and Minimum Rent requirements would be revoked. Since the Amendments establish income limits, rent formulas, and a method for phasing in increases, these Subparts are obsolete. Section 860.204(b)(3) would be amended to indicate that the requirement in section 6(c)(4)(A) of the Act that public housing agencies establish a policy to attain a tenant body with a broad range of incomes is subject to the statutory changed implemented by Part 813, which limits the number of tenants which may be lower income families other than very low income families. The provision of Part 860 recently proposed (47 FR 55689 (December 13, 1982)), stating circumstances under which an applicant or resident Family is to be provided an opportunity for an informal hearing, is

modified to incorporate a reference to Part 813. (This modification does not affect the remaining parts of the recent proposal regarding procedures for the conduct of such hearings.)

(b) Part 861, PHA-owned Projects-Rents, has been revoked by the Interim Increase Rules. One PHA applauded this revocation as published in the Interim Increase Rules, while a tenant organization and a legal aid society criticized it. The complaint raised was that it effectively eliminated tenant comment concerning the establishment or revison of utility allowances incorporated in rent schedules which then had been subject to comment under Part 861, allegedly in violation of tenants' due process rights. A proposed rule has been published to revise Part 865, Subpart D—Utilities (47 FR 55869, December 13, 1982). This comment will be considered in the development of that rule.

(c) Parts 804, Low Rent Homeownership Opportunities, and 805, Indian Housing, would be amended to reflect the changes in Part 813.

(d) Part 865, Parts 880 through 884 and Part 886 would be amended to: (i) Conform to new definitions in Part 813, (ii) eliminate the requirement that at least 30 percent of the units be leased to very low income tenants, and (iii) (for Parts 880, 881, and 883) eliminate the requirement that owners use their best efforts to achieve average tenant incomes of 40 percent of the median for the area.

(e) Part 889, Section 8 Housing Assistance Payments Program-Determination of Income for Eligibility and Gross Family Contribution, would be revoked. Since the Amendments revise the rent formulas and income limit requirements and make them the same as those for public housing, Part 889 will not longer be necessary.

An interim rule was published recently amending Parts 880 and 881 to implement Section 329H of the 1981 Amendments concerning Section 8 assistance for families residing in manufactured homes. When the final rule in this proceeding is published, it will reflect changes to conform to that interim rule.

This proposed rule includes most, but not all, of the conforming changes in affected Parts of Title 24 that will be included when the final rule is promulgated. Subject to changes in the final rule which are the result of public comment, additional conforming and technical changes will be consistent with the changes set out in this rule.

7. *Utility Reimbursement.* The term "rent" is not defined statutorily with specific reference to the context in which utilities and other essential housing services are not supplied by the owner (and therefore not included in the rent payment) but are purchased directly by the tenant. However, the Department historically has considered that "rent" in this circumstance should take into account some amount paid by the tenant family for utilities and accordingly has permitted a deduction to be made from the rent paid to the owner on account of the separate payment being made to the utility supplier. Where the estimated cost of a reasonable level of utility consumption by the tenant family is equal to or greater than the maximum "rent" payable based upon tenant income, the payment for shelter rent made to the owner is reduced to zero. This practice is continued in the proposed rule (see definition of Family Contract Rent in § 813.102).

Administrative practice also went beyond this point. In instances in which the estimated cost of a reasonable level of utilty consumption by a tenant family in an individually-metered unit has exceeded the maximum "rent" payable based upon tenant income, it has been the Department's practice to require that the tenant family be reimbursed for the excess. In the Section 8 programs other than Existing Housing, this reimbursement takes the form of an additional housing assistance payment made to the owner for the purpose of being paid over by the owner to the tenant (see, e.g., 24 CFR 881.501(e)). In the Section 8 Existing Housing program, an unlabeled payment is made directly to the tenant family by the PHA administering the program (24 CFR 882.210(c)). In all Section 8 programs, this practice is provided for by an existing regulation, except for the Farmers Home Administration program under Part 884, where it is covered by contract. In the public housing program, this practice is implied in the definition of contract rent in 24 CFR 865.472, and HUD Handbooks instruct the PHA owner to make a payment to the tenant equal to the amount by which the estimated reasonable utility cost exceeds the maximum "rent" payable by the family (Handbook 7466.1 REV, Par. 3–4). Since these payments are made by owners to tenants, they are sometimes called "negative rents."

As indicated, the '37 Act does not require explicitly that payment of this nature be made by owners or PHA's to tenants. However, in the case of tenants occupying master-metered units for whom the cost of utilities is included in the rent payment made to the owner, the '37 Act clearly imposes a ceiling, based upon income, on the amount payable by such tenants for housing expense including the reasonable cost for utilities. (The "ceiling" imposed by the '37 Act does not extend beyond reasonable utility costs. The Department has long recognized that tenants may be surcharged for excess utility consumption determined by individual checkmeter (see 24 CFR 866.4(b)). In the case of individually-metered public housing or Section 8 units, the cost of excess utility consumption is borne by the tenant through the measurement of the credit allowed against rent—plus, where applicable, the "negative rent" payment—on the basis of reasonable utility costs. Therefore, elimination of "negative rent" payments to tenants occupying individually-metered units would create a disparity in economic outcomes between tenants with equal adjusted incomes, depending on whether they reside in units where utilities are supplied by the owner and included in the rent payment made to the owner or in units where they are not. Moreover, the inequity produced by such disparity would be aggravated by the fact that tenants in master-metered projects tend to have a higher consumption rate because their actual utility cost is not related to their actual consumption and they therefore have less financial incentive to be conservative in their energy consumption.

Accordingly, the proposed regulation continues the Department's existing practice in this regard and includes this practice, for the first time, as a regulatory requirement in the public housing program. Section 813.102 defines "Utility Reimbursement" as the amount, if any, by which the Utility Allowance for the unit, if applicable, exceeds the Family Gross Rent for the Family occupying the unit. Section 813.106 provides that, where applicable, Utility Reimbursement shall be paid to the family in the manner provided in the pertinent program regulation. A provision requiring such payment has been added to the public housing regulation at § 860.206, and is continued throughout the Section 8 program regulations. The definition of Utility Allowance has been revised throughout to incorporate the standard of "reasonable consumption * * * by an energy-conservative household of modest circumstances consistent with the requirements of a safe, sanitary, and healthful living environment" recently proposed by the Department to be applicable to public housing tenants (47 FR 35249 (August 13, 1982)).

8. *Response to Other Comments on the Interim Increase Rules.* One PHA

asked how the percentages of income used to determine a family's contribution toward rent could be changed by those rules if the family had an outstanding long-term lease-purchase agreement providing for payment of 20 percent or 25 percent of income. A PHA which believes it is subject to such a contract should submit a copy to the Department and request a determination as to applicability of the rent increase rules.

Other Matters

The Department has determined that this rule does not constitute a "major rule" as defined in Executive Order 12291 because while its economic impact, when considered together with the Interim Increase Rules, may exceed $100 million annually, such impact results to the greatest degree from the legislative enactment and only to a substantially lesser degree from its administrative implementation embodied in the Interim Increase Rules and in this rulemaking.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR Part 50, which implements Section 102(2)(C) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection and copying (at a charge of 10 cents per page) during regular business hours in the Office of General Counsel, Rules Docket Clerk, at the address listed above.

Pursuant to Section 605 (b) of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., the undersigned hereby certifies that this rule would not have a significant economic impact on a substantial number of small entities.

This rule was listed in the Department's Semiannual Agenda of Regulations, published pursuant to Executive Order 12291 and the Regulatory Flexibility Act on October 28, 1982 (47 FR 48423), as item H–79–82.

(The Catalog of Federal Domestic Assistance numbers are: 14.146, Lower Income Housing-Assistance Program (Public Housing), and 14.156, Lower-Income Housing Assistance Program (Section 8)).

List of Subjects

24 CFR Part 813

Lower income housing, Public housing.

24 CFR Part 804

Grant programs—housing and community development, Loan programs—housing and community development, Low and moderate income housing, Public housing, Homeownership.

24 CFR Part 805

Grant programs—housing and community development, Grant programs—Indians, Loan programs—Indians, Low and moderate income housing, Public housing, Homeownership.

24 CFR Parts 860 and 861.

Public housing.

24 CFR Part 865

Energy consrvation, Loan programs—housing and community development, Public housing, Utilities.

24 CFR Parts 880 and 881

Grant programs—housing and community development, Rent subsidies, Low and moderate income housing.

24 CFR Part 882

Grant programs—housing and community development, Housing, Mobile homes, Rent subsidies.

24 CFR Part 883

Grant programs—housing and community development, Rent subsidies, New construction and substantial rehabilitation.

24 CFR Part 884

Grant programs—housing and community development, Rent subsides, Rural areas, Low and moderate income housing.

24 CFR Part 886

Grant programs—housing and community development, Low and moderate income housing, Rent subsidies.

24 CFR Part 889

Rent subsidies.

Accordingly, the Department proposes to amend 24 CFR Chapter VIII as follows:

1. A new Part 813 would be added to read as follows:

PART 813—DEFINITION OF INCOME, INCOME LIMITES, RENT AND REEXAMINATION OF FAMILY INCOME FOR THE PUBLIC HOUSING AND SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAMS

Sec.

813.101 Purpose and applicability.
813.102 Definitions.
813.103 Income eligibility for admission.
813.104 Annual income.
813.105 Gross rent.
813.106 Utility reimbursement.
813.107 Examination, verification, and reexamination of family income and composition.

Authority: Secs. 3, 6, 8, and 16, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437d, 1437f, 1437n); secs. 322 and 323, Omnibus Budget Reconciliation Act of 1981, Pub. L. 97–35; sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 813.101 Purpose and applicability.

This Part establishes definitions, policies and procedures related to income limits and the determination of eligibility, income and rent for applicants and tenants assisted in housing pursuant to the United States Housing Act of 1937. These policies and procedures are applicable to:

(a) Public Housing, including Indian Housing, the Section 10(c) and the Section 23 Leased Housing Programs, the Section 23 Housing Assistance Payments Program, the Turnkey III Homeownership Opportunities Program, and (except as otherwise noted) the Mutual Help Homeownership Opportunities Program.

(b) The Section 8 Housing Assistance Payments Program.

§ 813.102 Definitions.

Adjusted Income.

Annual income less:

(a) $400 for each minor; and

(b) $300 for an elderly, disabled, or handicapped (see 24 CFR Part 812) head of household.

Annual Income: See § 813.104.

Family. All members of the household residing in an assisted unit or participating in an assistance program to which this Part is applicable, or applying for admission to such a unit or to such participation, provided that all such members are eligible for such admission or continued occupancy or participation under Part 812 of this chapter. "Family" includes individuals to the extent permitted by Part 812 of this chapter.

Family Contract Rent. The amount paid monthly by the Family as rent to the owner (including a PHA). Where all utilities (except telephone) and other essential housing services are supplied by the owner, Family Contract Rent equals Family Gross Rent. Where some or all utilities (except telephone) and other essential housing services are not supplied by the owner and the cost thereof are not included in the amount paid as rent to the owner, Family Contract Rent equals Family Gross Rent less Utility Allowance. If the Utility Allowance is equal to or greater than the Family Gross Rent, then the Family Contract Rent is zero.

Family Gross Rent. The amount calculated pursuant to § 813.105. Family Gross Rent does not include charges for excess utility consumption or other miscellaneous charges (see, *e.g.*, 24 CFR 865.477, 866.4(b)(2) and (3)).

Lower Income Family. A Family whose Annual Income does not exceed 80 percent of the median income for the area, as determined by HUD with adjustments for smaller or larger families, except that HUD may establish income limits higher or lower than 80 percent of the median income for the area on the basis of its findings that such variations are necessary because of the prevailing levels of construction costs or unusually high or low incomes.

Minor. A member of the Family (excluding foster children), other than the family head or spouse, who is under 18 years of age.

Monthly Adjusted Income. One twelfth of Adjusted Income.

Monthly Income. One twelfth of Annual Income.

Net Family Assets. Value of equity in real property, savings, stocks, bonds, and other forms of capital investment. (In cases where a trust fund has been established and the trust is not revocable by, or under the control of, any member of the Family or household, the value of the trust fund will not be considered an asset as long as the fund continues to be held in trust. Any income distributed from the trust fund should be counted when determining Annual Income.) In determining Net Family Assets, PHAs and owners shall include the value of any assets disposed of by an applicant for less than fair market value (including a disposition in trust) during the two years preceding the date of application for the program or reexamination, as applicable, in excess of the consideration received therefor. The value of necessary items of personal property such as furniture and automobiles shall be excluded.

Owner. For Section 8 programs, the meaning ascribed to such term in the pertinent program regulations. For public housing, the PHA.

PHA. The meaning ascribed to such term in pertinent program regulations. As used in this Part 813, where appropriate, "PHA" shall also include an Agency as defined in Part 883 of this chapter.

Utility Allowance. If the cost of utilities (except telephone) and other essential housing services for an assisted unit is not included in the Family Contract Rent paid directly to the owner (including a PHA) but is the responsibility of the Family occupying the unit, an amount equal to the estimate made or approved by a PHA or HUD pursuant to applicable sections of these regulations (see Parts 865, 880, 881, 882, 883, 884, and 886 of this chapter, and Part 880 or 881 for projects under Part 885) of the monthly cost of a reasonable consumption of such utilities and other services for the unit by and energy-conservative household of modest circumstances consistance with the requirements of a safe, sanitary, and healthful living environment.

Utility Reimbursement. The amount, if any, by which the Utility Allowance for the unit, if applicable, exceeds the Family Gross Rent for the Family occupying the unit.

Very Low-Income Family. A Lower-Income Family whose Annual Income does not exceed 50 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families.

§ 813.103 Income eligibility for admission.

(a) *General Provisions.* No Family shall be eligible for admission which is not a Lower-Income Family. No Family shall be admitted to the Section 8 Existing Housing (Finders-Keepers) Program which is not a Very Low-Income Family, unless assistance to such Family is being converted to Section 8 Existing Housing from another Federal housing assistance program (see, *e.g.*, 24 CFR 882.123).

(b) *Contract.* As used in this Section, "contract" means Annual Contributions Contract (ACC) for the public housing program and Housing Assistance Payments (HAP) Contract for the Section 8 programs.

(c) *Units under contract and available for occupancy prior to October 1, 1981.* With respect to units (other than units in the Finders-Keepers Program) under contract and available for occupany prior to October 1, 1981, HUD may limit the admission of Lower-Income Families other than Very Low-Income Families.

(d) *Units not under contract and available for occupancy prior to October 1, 1981.* Admission to units (other than units in the Finders-Keepers Program) which were not both under contract and available for occupancy prior to October 1, 1981 shall be limited to Very Low-Income Families unless admission of Lower-Income Families other than Very Low-Income Families has been approved by HUD. This limitation does not apply to Mutual Help Homeownership Opportunities projects and units included in the Turnkey III Homeownership Opportunities Program.

(e) *Procedures.* HUD may approve the admission of Lower-Income Families other than Very Low-Income Families in up to five percent of the units placed under contract or made available for occupancy on or after October 1, 1981. For purposes of the calculation required by this subsection, "units placed under contract or made available for occupancy on or after October 1, 1981" shall include units for which Lease Approval under the Section 8 Existing Housing program (see 24 CFR 882.210) is first granted after such date, including units to which certificate holders move from other units occupied with assistance. In deciding which projects may fill some units with Lower-Income Families other than Very Low Income Families, priority will be given to:

(1) Section 8 Substantial Rehabilitation and Moderate Rehabilitation projects that are occupied by Lower-Income Families who would otherwise be displaced;

(2) Section 8 projects financed by State Agencies or tax exempt obligations under Section 11(b) of the U.S. Housing Act of 1937, as amended;

(3) Projects which, because of diminished markets or for other reasons, need such tenants to preserve the financial or management viability of housing or reduce Federal expenditures; and

(4) Projects where there is a local commitment to attaining occupancy by families with a broad range of incomes.

§ 813.104 Annual income.

(a) Annual Income is the anticipated total annual income of each member of the Family from all sources, including all net income derived from assets or from the operation of a business or profession, for the 12-month period following the effective date of determination of income, exclusive of income which is temporary, non-recurring or sporadic as defined in paragraph (c) and exclusive of certain other types of income specified in paragraph (d).

(b) Income shall include, but not be limited to:

(1) The full amount, before any payroll deductions, of wages and salaries, overtime pay, commissions, fees, tips and bonuses, and other compensation for personal services;

(2) Net income from operation of a business or profession (for this purpose, expenditures for business expansion or amortization of capital indebtedness and an allowance for depreciation of capital assets shall not be deducted to determine the net income from a business);

(3) Interest, dividends, and other net income of any kind from real or personal property. Where the Family has Net Family Assets in excess of $5,000, Annual Income shall include the actual

amount of income, if any, derived from all of the Net Family Assets or 10 percent of the value of all such assets, whichever is greater.

(4) The full amount of periodic payments received from social security, annuities, insurance policies, retirement funds, pensions, disability or death benefits and other similar types of periodic receipts whether payable to or on behalf of members of the Family;

(5) Payments in lieu of earnings, such as unemployment and disability compensation, workmen's compensation and severance pay (but see paragraph (c)(3) of this section).

(6) Public Assistance. If the public assistance payment includes an amount specifically designated for shelter and utilities which is subject to adjustment by the public assistance agency in accordance with the actual cost of shelter and utilities, the amount of public assistance income to be included as income shall consist of:

(i) The amount of the allowance or grant exclusive of the amount specifically designated for shelter and utilities, plus

(ii) The maximum amount that the Public Assistance Agency could in fact allow the Family for shelter and utilities. If the family's welfare assistance is ratably reduced from the standard of need by applying a percentage, the amount calculated under this paragraph (a)(6)(ii) shall be the amount resulting from one application of the percentage.

(7) Periodic and determinable allowances, such as alimony and child support payments, and regular contributions or gifts received from persons not residing in the dwelling;

(8) All regular pay, special pay and allowances of a member of the Armed Forces (whether or not living in the dwelling) who is head of the Family or spouse.

(c) Temporary, non-recurring or sporadic income includes:

(1) Casual, sporadic or irregular gifts;

(2) Amounts which are specifically for or in reimbursement of the cost of medical expenses;

(3) Lump-sum additions to Family assets, such as inheritances, insurance payments (including payments under health and accident insurance and workmen's compensation), capital gains and settlement for personal or property losses;

(4) Amounts of educational scholarships paid directly to the student or to the educational institution, and amounts paid by the Government to a veteran for use in meeting the costs of tuition, fees, books and equipment. Any amounts of such scholarships, or payments to veterans, not used for the above purposes and which are available for subsistence are to be included in income.

(d) Income shall not include:

(1) Earned income of minors and foster children under the age of 18 years;

(2) Payments for the care of foster children;

(3) Amounts specifically excluded by any other Federal statute from consideration as income for purposes of determining eligibility or benefits under a category of other assistance programs which would include assistance under the United States Housing Act of 1937. The following types of income are subject to such exclusion:

(i) Relocation payments made pursuant to title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4621 et seq.);

(ii) The value of the allotment provided to an eligible household for coupons under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.);

(iii) Payments to volunteers under the Domestic Volunteer Service Act of 1973 (42 U.S.C. 4951 et seq.);

(iv) Payments received under the Alaska Native Claims Settlement Act (43 U.S.C. 1620(c));

(v) Income derived from certain submarginal land of the United States which is held in trust for certain Indian tribes (Pub. L. 94–114, section 6, 25 U.S.C. 459e);

(vi) Payments or allowances made under a Federal program for the purpose of energy assistance, such as the Department of Health and Human Services' Low-Income Energy Assistance Program or the Office of Community Services' Crisis Intervention Program, where the authorizing statute provides for exclusion of the assistance from income for purposes of other Federal programs.

(vii) Payments received from the youth incentive entitlement pilot projects, the youth community conservation and improvements projects, and the youth employment and training programs under Title IV of the Comprehensive Employment and Training Act Amendments of 1978 (29 U.S.C. 921).

(viii) Income derived from the disposition of funds to the Grand River Band of Ottawa Indians (Pub. L. 94–540, 90 Stat. 2503).

(e) If it is not feasible to anticipate a level of income over a 12-month period, a shorter period may be used subject to a redetermination at the end of such period.

§ 813.105 Gross rent.

(a) *Family gross rent for families whose initial lease is effective on or after August 1, 1982.* Family Gross Rent shall be the highest of the following, rounded to the nearest dollar:

(1) 30 percent of Monthly Adjusted Income.

(2) 10 percent of Monthly Income.

(3) If the Family receives welfare assistance from a public agency and a part of such payments, adjusted in accordance with the Family's actual housing costs, is specifically designated by such agency to meet the Family's housing costs, the portions of such payments which is so designated. If the family's welfare assistance is ratably reduced from the standard of need by applying a percentage, the amount calculated under this paragraph (a)(3) shall be the amount resulting from one application of the percentage.

(b) *Family gross rent for families whose initial lease is effective prior to August 1, 1982.* (1) At the first reexamination occurring on or after August 1, 1982, Family Gross Rent shall be calculated in accordance with § 813.105(a), except that instead of 30 percent the percentage applied to Monthly Adjusted Income shall be as follows:

Effective date of reexamination	Percentage
August 1, 1982–September 30, 1983	27
October 1, 1983–September 30, 1984	[illegible]
October 1, 1984–September 30, 1985	[illegible]
October 1, 1985 and after	[illegible]

(2) For purposes of paragraphs (a) and (b) of this section, a Family that resided in a unit under lease with assistance under a program to which this Part applies prior to August 1, 1982, and whose assistance under such a program has been continuous thereafter, shall be considered a Family whose initial lease was effective before August 1, 1982, notwithstanding that the Family after that date may have moved from one unit to another, from one project to another, or from one such program to another.

(c) The Family Gross Rent charged is subject to the following conditions:

(1) Family Gross Rent shall not be increased by more than 10 percent during any 12-month period as a result of: (i) Application of the percentages in paragraph (b) of this section; (ii) for families subject to paragraph (b) of this section, an increase resulting from regulatory changes in the definition of Monthly Adjusted Income or Monthly Income, or other regulatory changes caused by this Part 813; and (iii) any other provision of Federal law becoming

effective on or after October 1, 1981, redefining which governmental benefits are required to or may be considered as income. However, Family Gross Rent may be increased by more than 10 percent during any 12-month period to the extent that the portion of such increase above 10 percent is attributed solely to increases in income not caused by the regulatory changes referred to in (c)(1)(ii) of this section or redefinitions referred to in (c)(1)(iii) of this section.

(2) Family Gross Rent of any Family shall not be decreased below the amount, if any, payable by such Family as of August 1, 1982, by application of the definitions and procedures of this Part unless due to decreases in Monthly Income or Monthly Adjusted Income not caused by this Part.

(d) *Mutual Help Projects.* This section shall not apply to Mutual Help projects (see CFR 805.416).

§ 813.106 Utility reimbursement.

Where applicable, the Utility Reimbursement shall be paid to the Family in the manner provided in the pertinent program regulation.

§ 813.107 Examination, Verification, and Reexamination of Family Income and Composition.

(a) *Responsibility for Examination and Reexamination.* The owner or PHA shall be responsible for determination of eligibility for admission, and for annual reexamination of family income and composition, as provided in pertinent program regulations and handbooks (see, *e.g.*, 24 CFR Part 860 Subpart B, Part 880 Subpart F, Part 881 Subpart F, Part 882 Subpart B, Part 882 Subpart E, Part 883 Subpart G, Part 884 Subpart B, Part 886 Subpart A, and Part 886 Subpart C; for purposes of this Part, the provisions of Subpart F of Part 880 or 881 shall be applicable to projects developed under part 885). For Families in occupancy on August 1, 1982, the annual reexamination cycle must begin no later than the first anniversary date occurring after the date of their last reexamination.

(b) *Verification.* As a condition to admission to our continued occupancy of any assisted unit under any housing program covered by this Part, the person or agency responsible for determination of eligibility or reexamination of income may require any Family member to provide a copy, at the Family member's expense, of his or her preceding year's Federal Income Tax return, and shall require the Family head and other such Family members as it shall designate to execute a release and consent authorizing any depository or private source of income, or any Federal, State or local agency, to furnish or release to such responsible person or agency and to HUD such information as such responsible person or agency, or HUD, shall determine to be necessary for purposes of determining or auditing a Family's eligibility to receive housing assistance or the determination of Family Gross Rent, or verifying information related thereto. The use or disclosure of information obtained from a Family, or from another source pursuant to such release and consent shall be limited to purposes directly connected with administration of this Part 813 or the housing program under which the Family is receiving or applying for assistance.

* * * * *

PART 860—INCOME LIMITS FOR ADMISSION TO, AND OCCUPANCY OF, LOW-INCOME PUBLIC HOUSING

2. The title of Part 860 would be revised to read as follows:

PART 860—ADMISSION TO, AND OCCUPANCY OF, PUBLIC HOUSING PROJECTS

3. The authority citation for Part 860 would be revised to read as follows:

Authority: Secs. 3, 5, 6 and 16 of the United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, 1437d, 1437n); Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Subparts A and D—[Removed]

4. Subpart A and Subpart D of Part 860 would be removed in their entirety. Subpart A would be reserved.

5. The title of Subpart B would be revised to read as follows:

Subpart B—Admission, Rent and Reexamination

6. Section 860.201 would be revised to read as follows:

§ 860.201 Purpose and scope.

The purpose of this Subpart is to prescribe standards and criteria for tenant selection and annual reexamination of income and family composition by each public housing agency (PHA) in accordance with the U.S. Housing Act of 1937 (the Act) and the Annual Contributions Contract (ACC).

7. Section 860.204(b) would be revised to read as follows:

§ 860.204 PHA tenant selection policies.

* * * * *

(b) Such policies and procedures shall be designed to: (1) Avoid concentrations of the most economically and socially deprived families in any one or all of the PHA's lower-income housing projects; (2) preclude admission of applicants whose habits and practices reasonably may be expected to have a detrimental effect on the tenants or the project environment; and (3) subject to the requirements and limitations of Part 813 of this chapter, attain, within a reasonable period of time, a tenant body in each project composed of families with a broad range of incomes and rent-paying ability which is generally representative of the range of incomes of lower-income families, but families whose incomes are between 50% and 80% of area median income shall not be given a priority by virtue of their income.

* * * * *

8. Section 860.206(a) would be revised to read as follows:

§ 860.206 Verification procedures.

(a) *General.* Adequate procedures shall be developed to obtain and verify information with respect to each applicant. Information relative to the acceptance or rejection of an applicant shall be documented and placed in the applicant's file.

9. New §§ 860.208 through 860.210 would be added after § 860.207, to read as follows:

§ 860.208 Rent; utility reimbursement.

The amount of rent payable by the tenant to the PHA shall be the Family Contract Rent, as defined in and calculated pursuant to 24 CFR Part 813. Where applicable, the Utility Reimbursement (as defined in 24 CFR 813.102) will be paid to the tenant by the PHA.

§ 860.209 Reexamination.

The PHA shall reexamine the income and composition of all tenant families at least once each year. Upon verification of the information, the PHA shall make appropriate adjustments in the Family Gross Rent and Family Contract Rent in accordance with Part 813 of this chapter and such reexaminations of unit size appropriate for the Family as may be required under the standards established by the PHA for determining the appropriate unit size for families of different sizes and compositions. The PHA may schedule reexaminations more frequently than once a year.

§ 860.210 Restriction on eviction of families based upon income.

No PHA shall commence eviction proceedings, or refuse to renew a lease, based on the income of the tenant family unless: (a) It has identified, for possible rental by the family, a unit of decent,

safe, and sanitary housing of suitable size available at a rent not exceeding 30 percent of monthly adjusted income as defined in Part 813 of this chapter, or (b) it is required to do so by local law.

10. Section 860.208, Informal hearings, proposed at 47 FR 55689 (December 13, 1982) would be redesignated as a new § 860.211, Informal hearings, and paragraph (a) thereof would be revised. As revised § 860.211 reads as follows:

§ 860.211 Informal hearings.

(a) *When required.* The PHA shall provide an opportunity for an informal hearing:

(1) To an applicant determined to be ineligible for admission under the requirements of 24 CFR Parts 812 and 813 or this Subpart (on the basis of income or Family composition or for any other reason) or to an applicant to whom listing on the PHA waiting list is denied on the basis of other PHA selection criteria; and

(2) To a Family desiring to challenge the PHA's initial determination or redetermination of Family income, or the PHA's computation of Family rent based on such determination or redetermination;

(b) *Limitation on hearing right.* The PHA shall not be required to provide an informal hearing in accordance with paragaph (a):

(1) Except (i) to consider factual determinations by the PHA relating to the individual circumstances of an applicant or Family; or (ii) to consider whether determinations by the PHA relating to the individual circumstances of an applicant or Family are in accordance with law, HUD regulations or PHA rules;

(2) To consider a challenge to discretionary administrative determinations by the PHA, or to consider general policy issues, class grievances or grievances between tenants not involving the PHA;

(3) To consider a challenge to a factor generally applicable to families participating in the PHA's Public Housing program, or to families in such program who are similarly situated (e.g., application of HUD-required admission requirements or rental increases; changes in the Allowance for Utilities and Other Services).

(c) *Notification.* The PHA shall give the applicant or Family prompt written notification of a PHA determination for which the PHA is required to provide an informal hearing in accordance with paragraph (a) of this section, and of the basis for such determination. The Notice shall state that the applicant or Family may request an informal hearing and shall specify a reasonable date by which the applicant or Family must request the hearing.

(d) *Hearing procedures.* The PHA shall adopt and publish procedures for the conduct of hearing required by this section. Notification of the availability and format of such procedures (including indentification of the PHA representative with whom initial contact shall be made by an applicant or Family) shall be communicated to applicants and to tenants in such manner as the PHA shall deem appropriate, which shall include, in any event, posting in project offices. Hearing procedures may contain appropriate variations depending upon the nature and relative seriousness of the subject matter and the importance of the private interest affected in a particular instance. For example, a PHA may adopt different procedures for applicants from those adopted for current tenants. In determining hearing procedures, the PHA shall give due consideration to the following elements:

(1) *An unbiased tribunal.* If the procedures call for a hearing officer who is a PHA officer or employee, such officer or employee must not have participated in the PHA's original decisions.

(2) *Presentation of basis of decision.* The procedures shall state the manner in which the PHA will be required to present the factual or other basis for its decision, and whether, and the manner and extent to which the applicant or Family will be permitted to examine evidence and examine and question witnesses.

(3) *Opportunity to present reasons why proposed action should not be taken.* The procedures shall specify the manner in which the applicant or Family will be permitted to present reasons why the action proposed by the PHA should not be taken, including whether presentation may be oral or written or both.

(4) *Decision based on evidence.* The procedures shall indicate whether and the extent to which the decision of the tribunal (whether an individual or panel) must be based on evidence presented in the hearing proceeding, and the extent to which decision of some factual matters and other matters may be based on the tribunal's own knowledge and experience.

(5) *Counsel.* The procedures shall indicate whether, or the circumstances under which, the applicant or Family will be entitled to be represented, at its own expense, by a lawyer or other representative.

(6) *Decision.* The procedures shall indicate whether, or the circumstances under which, the tribunal (whether an individual or panel) will issue a written statement of the factual or other reasons for its decision, in which event a copy of such statement will be furnished promptly to the applicant of Family.

(7) *Review.* The procedures shall indicate whether, or the circumstances under which, further review of the tribunal's decision will be available, and the effect or weight to be given to the tribunal's decision in such subsequent review.

PART 805—INDIAN HOUSING

11. The authority citation for Part 805 would be revised to read as follows:

Authority: Secs. 3, 4, 5, 6, 9, 11, 12, and 16, the United States Housing Act of 1937 (42 U.S.C. 1437a, 1437b, 1437c, 1437d, 1437g, 1437i, 1437j, 1437n); sec. 7(d), the Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

12. Section 805.302(a) would be revised to read as follows:

§ 805.302 Admission policies.

(a) Income and Assets Limits.

(1) IHA's shall admit families in accordance with Part 813 of this Chapter.

(2) Where decent, safe and sanitary housing is not otherwise being provided in the Indian area even for those of relatively high income, the IHA may request that HUD increase income limits for lower income families in the Indian area because of unusually high family incomes.

* * * * *

13. Section 805.302(b)(2)(i) would be revised to read as follows:

§ 805.302 Admission policies.

* * * * *

(b) * * *

(2) These regulations shall be designed:

(i) Subject to the requirements and limitations of Part 813 of this chapter, to attain at initial occupancy or within a reasonable period of time for Projects beyond the state of initial occupancy (but without prejudice to contract rights of Homebuyers in Turnkey III or MH Projects), a tenant or Homebuyer body in each Project composed of families with a broad range of incomes and rent-paying ability which is generally representative of the range of incomes of those low income families in the Indian area who would be qualified for admission to the type of project (Rental or Mutual Help);

(ii) To avoid concentrations of the most economically and socially deprived families in any one or all of the IHA's Projects.

14. Sections 805.304 (a) and (c) would be revised to read as follows:

§ 805.304 Determination of rents and homebuyer payments.

(a) *Rental and Turnkey III Projects.* The amount of rent or Homebuyer payment required of a tenant in a rental Project or a Homebuyer in a Turnkey III Project shall be determined in accordance with the provisions of Part 813 of this chapter.

* * * * *

(c) *Examination and Reexamination of Family Income.* For purposes of determining rent and Homebuyer payment amounts under paragraphs (a) and (b) of this section, making adjustments in the amounts so determined, and determining whether an MH Homebuyer is required to purchase the home under § 805.422(e), the IHA shall examine the Family's earnings and other income prior to initial occupancy, and shall make periodic reexaminations thereafter at least once a year.

For each examination or reexamination, the tenant or Homebuyer shall furnish to the IHA certification of his Family's earnings and other income and Family composition, including any information and evidence required by the IHA.

§ 805.416 [Amended]

15. Section 805.416(a)(1)(ii) would be amended by changing "25" to "30" percent.

16. Section 805.416(a)(2) would be removed and reserved.

17. Section 805.416(c)(1) would be revised to read as follows:

(1) "Family income" shall have the same meaning as "Adjusted Income" as defined in Part 813. "Total Family Income" shall have the same meaning as "Monthly Income" as defined in Part 813;

* * * * *

§ 805.423 [Amended]

18. Section 805.423(a)(2) is amended by changing "25" to "30" percent.

PART 889—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—DETERMINATION OF INCOME FOR ELIGIBILITY AND GROSS FAMILY CONTRIBUTION—[REMOVED]

29. Part 889 would be removed.

PART 865—PHA-OWNED OR LEASED PROJECTS—MAINTENANCE AND OPERATION

20. Section 865.472 would be amended by removing the definitions of "contract rent" and "gross rent" and by adding definitions for "Family contract rent" and "family gross rent" to read as follows:

§ 865.472 Definitions.

Checkmeter. * * *

Family Contract Rent. The amount paid monthly by the Family as rent to the PHA. Where utilities (except telephone) and other essential housing services are supplied by the PHA, Family Contract Rent equals Family Gross Rent. Where utilities (except telephone) and other essential housing services are not supplied by the PHA and the costs thereof are not included in the amount paid as rent to the PHA, Family Contract Rent equals Family Gross Rent less the Utility Allowances provided under Section 865.478 below. If the Utility Allowance is equal to or greater than the Family Gross Rent, then the Family Contract Rent is zero.

Family Gross Rent. The amount defined in, and calculated in accordance with, 24 CFR Part 813.

Mastermeter System. * * *

Surcharge. * * *

Utility. * * *

PART 880—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM FOR NEW CONSTRUCTION

21. The authority citation for Part 880 would be revised to read as follows:

Authority: Secs. 3, 5 and 8, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, 1437f); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

22. Section 880.101(c) would be revised to read as follows:

§ 880.101 General.

* * * * *

(c) *Tenant Rents and Eligible Families.* In addition to the housing assistance payments, the project owner receives a tenant rent, known as "Family Contract Rent," directly from the assisted family. The total amount received by the owner for rent is called the Contract Rent. Eligible families must have incomes within the HUD specified income limits and pay a prescribed amount of their income towards rent in accordance with HUD regulations in Part 813 of this chapter.

* * * * *

23. Section 880.201 would be amended by removing the definitions for "tenant rent", "total family contribution", and "total housing expense", by adding definitions for "family contract rent", "family gross rent", and "utility reimbursement", and by revising the definitions for "family (eligible family)", "housing assistance payments", "lower-income family", and "utility allowance" to read as follows:

§ 880.201 Definitions.

Family (eligible family). As defined in Part 813 of this chapter.

Family Contract Rent. The portion of the Contract Rent payable directly to the owner by an eligible family participating in this program, determined in accordance with Part 813 of this chapter.

Family Gross Rent. The amount defined in, and calculated in accordance with, Part 813 of this chapter.

* * * * *

Housing Assistance Payment. The payment made by the contract administrator to the owner of an assisted unit as provided in the Contract. Where the unit is leased to an eligible family, the payment is the difference between the contract rent and the family contract rent. A housing assistance payment, known as a "vacancy payment", may be made to the owner when an assisted unit is vacant. An additional payment is made to the family when the utility allowance is greater than the family gross rent. In the case of a family renting only a manufactured home space, the housing assistance payment is the sum of the contract rent for the space, the monthly payment made by the family to amortize the purchase price of the manufactured home, and any applicable utility allowance, less the family gross rent; but such payment may not exceed the contract rent for the space.

* * * * *

Lower-Income Family. A family whose annual income does not exceed 80 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families. HUD may establish income limits higher or lower than 80 percent of the median income for the area on the basis of its findings that such variations are necessary because of the prevailing levels of construction costs or unusually high or low incomes.

* * * * *

Utility Allowance. An estimate, made or approved by HUD, of the amount defined in 24 CFR 813.102, where applicable.

Utility Reimbursement. As defined in 24 CFR 813.102

24. Section 880.501(e) would be revised as follows:

§ 880.501 The contract.

* * * * *

(e) *Additional Housing Assistance Payments to Families.* Where applicable, the Utility Reimbursement will be paid to the family as an additional housing assistance payment. The Contract will provide that the

owner will make this payment on behalf of the contract administrator. Funds for this purpose will be paid to the owner in trust solely for the purpose of making the additional payment.

25. Section 880.603 would would be amended by removing paragraph (c), by redesignating paragraph (d) as new paragraph (c) and revising paragraph (b) introductory text and newly redesignated paragraph (c)(1) and (3) to read as follows:

§ 880.603 Selection and admission of assisted tenants.

* * * * *

(b) *Determination of Eligiblity and Selection of Tenants.* The owner is responsible for determining whether the applicant is eligible in accordance with Parts 812 and 813 of this chapter and for the selection of families:

* * * * *

(c) *Reexamination of Family Income and Composition.*

(1) The owner is responsible for reexamining the income and composition of all families at least once each year. Upon verification of the information, the owner shall make appropriate adjustments in the family gross rent in accordance with Part 813 of this chapter. The owner will adjust family contract rent and the housing assistance payment to reflect any change in family gross rent. The owner may schedule reexaminations more frequently than once a year.

* * * * *

(3) A Family's eligibility for housing assistance payments continues until the Family Gross Rent equals the Contract Rent plus, if applicable, the Utility Allowance as defined in 24 CFR 813.102. However, the termination of eligibility at such point will not affect the family's other rights under its lease nor will such termination preclude resumption of payments as a result of changes in income or rents or other relevant circumstances during the term of the Contract.

26. Section 880.604 would be revised to read as follows:

§ 880.604 Family contract rent.

The eligible family pays the Family Contract Rent directly to the owner.

§§ 880.501 and 880.610 [Amended]

27. Sections 880.501(d)(1) and 880.610 would be amended by changing the term "tenant rent" to "Family Contract Rent."

§§ 880.603 and 880.608 [Amended]

28. Sections 880.603(c)(2) and 880.608(a) would be amended by changing the term "total family contribution" to "Family Gross Rent."

PART 881—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM FOR SUBSTANTIAL REHABILITATION

29. The authority citation for Part 881 would be revised to read as follows:

Authority: Secs. 3, 5 and 8, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, 1437f); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

30. Section 881.101(c) would be revised as follows:

§ 881.101 General.

* * * * *

(c) *Tenant Rents and Eligible Families.* In addition to the housing assistance payments, the project owner receives a tenant rent, known as "Family Contract Rent," directly from the assisted family. The total amount received by the owner for rent is called the Contract Rent. Eligible families must have incomes within the HUD specified income limits and pay a prescribed amount of their income toward rent in accordance with HUD regulations in Part 813 of this chapter.

* * * * *

31. Section 881.201 would be revised by: (i) Deleting the definitions of tenant rent, total family contribution, and total housing expense; (ii) adding definitions of family contract rent, family gross rent and utility reimbursement; and (iii) revising the terms family (eligible family), housing assistance payment, lower-income family, and utility allowance to read as follows:

881.201 Definitions.

* * * * *

Family (eligible family). As defined in Part 813 of this chapter.

Family Contract Rent. The portion of the contract rent payable directly to the owner by an eligible family participating in this program, determined in accordance with Part 813 of this chapter.

* * * * *

Housing Assistance Payment. The payment made by the contract administrator to the owner of an assisted unit as provided in the Contract. Where the unit is leased to an eligible family, the payment is the difference between the contract rent and the family contract rent. A housing assistance payment, known as a "vacancy payment," may be made to the owner when an assisted unit is vacant. An additional payment is made to the family when the utility allowance is greater than the family gross rent. In the case of a family renting only a manufactured home space, the housing assistance payment is the sum of the contract rent for the space, the monthly payment made by the family to amortize the purchase price of the manufactured home, and any applicable utility allowance, less the family gross rent; but such payment may not exceed the contract rent for the space.

* * * * *

Lower-Income Family. A Family whose annual income does not exceed 80 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families., HUD may establish income limits higher or lower than 80 percent of the median income for the area on the basis of its findings that such variations are necessary because of the prevailing levels of construction costs or unusually high or low incomes.

* * * * *

Utility Allowance. An estimate, made or approved by HUD, of the amount defined in 24 CFR 813.102, where applicable.

Utility Reimbursement. As defined in 24 CFR 813.102.

32. Section 881.501(e) would be revised as follows:

§ 881.501 The contract.

* * * * *

(e) *Additional Housing Assistance Payments to Families.* Where applicable, the Utility Reimbursement will be paid to the family as an additional housing assistance payment. The Contract will provide that the owner will make this payment on behalf of the contract administrator. Funds for this purpose will be paid to the owner in trust solely for the purpose of making the additional payment.

33. Section 881.603 is amended by removing paragraph (c), redesignating paragraph (d) as paragraph (c), by revising paragraph (b) introductory text and newly redesignated paragaphs (c)(1) and (3) to read as follows:

§ 881.603 Selection and admission of assisted tenants.

* * * * *

(b) *Determination of Eligibility and Selection of Tenants.* The owner is responsible for determining whether the applicant is eligible in accordance with 24 CFR Parts 812 and 813 and for the selection of families:

* * * * *

(c) *Reexamination of Family Income and Composition.*

(1) The owner is responsible for reexamining the income and composition of all families at least once each year. Upon verification of the information, the owner shall make

appropriate adjustments in the Family Gross Rent in accordance with 24 CFR Part 813. The owner will adjust Family Contract Rent and the housing assistance payment to reflect any change in Family Gross Rent. The owner may schedule reexaminations more frequently than once a year.

(2) * * *

(3) A Family's eligibility for housing assistance payments continues until the Family Gross Rent equals the Contract Rent plus, if applicable, the Utility Allowance as defined in 24 CFR 813.102. However, the termination of eligibility at such point will not affect the family's other rights under its lease nor will such termination preclude resumption of payments as a result of changes in income or rents or other relevant circumstances during the term of the Contract.

34. Section 881.604 would be revised to read as follows:

§ 881.604 Family contract rent.

The eligible family pays the contract rent directly to the owner.

35. Sections 881.501(d)(1) and 881.610 would be amended by changing the term "tenant rent" to "Family Contract Rent."

§§ 881.603 and 881.608 [Amended]

36. Sections 881.603(c)(2) and 881.608(a) would be revised by changing the term "total family contribution" to "Family Gross Rent."

PART 882—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—EXISTING HOUSING

37. The authority citation for Part 882 would be revised to read as follows:

Authority: Secs. 3, 5 and 8, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, 1437f); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

38. Section 882.102 would be revised by: (i) Deleting definitions of Gross Family Contribution, Housing Assistance Payment on Behalf of Eligible Family, and Eligible Family; (ii) by adding definitions for Family (eligible family), Family Contract Rent, Family gross rent, housing assistance payment, utility allowance, utility reimbursement; and (iii) by revising allowance for utilities and other services ("allowance"), gross rent and lower-income family to read as follows:

§ 882.102 Definitions.

* * * * *

Allowance for utilities and other services ("allowance"). See the definition of utility allowance.

* * * * *

Family (eligible family). As defined in Part 813 of this Chapter.

Family Contract Rent. The portion of the Contract Rent payable directly to the owner by an eligible Family participating in this program, determined in accordance with 24 CFR Part 813.

Family Gross Rent. The amount defined in, and calculated in accordance with, 24 CFR Part 813.

* * * * *

Gross Rent. Contract Rent plus any Utility Allowance.

* * * * *

Housing Assistance Payment. The payment made by the PHA to the owner of an assisted unit as provided in the Contract. Where the unit is leased to an eligible family, the payment is the difference between the contract rent and the family contract rent. A housing assistance payment may be made to the owner when a unit is vacant in accordance with 24 CFR 882.105. An additional payment is made by the PHA to the family when the utility allowance is greater than the family gross rent.

* * * * *

Lower-Income Family. A family whose annual income does not exceed 80 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families. HUD may establish income limits higher or lower than 80 percent of the median income for the area on the basis of its finding that such variations are necessary because of the prevailing levels of construction costs or unusually high or low incomes.

* * * * *

Utility Allowance. An estimate, made or approved by a PHA or HUD, of the amount defined in 24 CFR 813.102, where applicable.

Utility Reimbursement. As defined in 24 CFR 813.102.

§ 882.113 [Removed and Reserved]

39. Section 882.113 would be removed and reserved.

40. Section 882.210(c) would be revised as follows:

§ 882.210 Request for lease approval.

* * * * *

(c) *Amount of Rent Payable by Family to Owner.* The amount of rent payable by the Family to the Owner shall be the Family Contract Rent. Where applicable, the Utility Reimbursement will be paid by the PHA directly to the Family.

* * * * *

41. Section 882.212 would be revised as follows:

§ 882.212 Reexamination of family income and composition.

(a) The PHA is responsible for reexamining the income and composition of all families at least once each year. Upon verification of the information, the PHA shall make appropriate adjustments in the Family Gross Rent in accordance with 24 CFR Part 813. The owner will adjust Family Contract Rent and the Housing Assistance Payment to reflect any change in Family Gross Rent. The PHA may schedule reexaminations more frequently than once a year.

(b) A Family's eligibility for housing assistance payments shall continue until the Family Gross Rent equals the Contract Rent plus, if applicable, the Utility Allowance as defined in § 813.102. However, the termination of eligibility at such point will not affect the Family's other rights under its lease nor will termination preclude resumption of payments as a result of changes in income or rents or other relevant circumstances during the term of the Contract.

(c) If the Contract terminates at a time when the Family is ineligible for payments, the contract shall not be renewed. In addition, if one year has elapsed since the date of the last housing assistance payment, the contract shall be terminated (with the consent of the Owner if the contract does not provide for termination under such circumstances) even if the termination date has not yet been reached.

(d) A family may at any time request a redetermination of its Family Gross Rent on the basis of changes in family income or other relevant circumstances.

§ 882.412 [Removed and Reserved]

42. Section 882.412 would be removed and reserved.

§ 882.602 [Amended]

43. In § 882.602, the term and definition for "*Family Contribution*" would be removed and the following term and definition substituted thereof.

* * * * *

Family Gross Rent. The Family Gross Rent shall be determined in accordance with § 813.105. The last sentence of § 882.210(c) shall not apply.

* * * * *

PART 883—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—STATE HOUSING AGENCIES

44. The authority citation for Part 883 would be revised to read as follows:

Authority: Secs. 3, 5 and 8, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, 1437f); sec. 7(d) Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

45. Section 883.101(c) would be revised as follows:

§ 883.101 General.

* * * * *

(c) *Tenant Rents and Eligible Families.* In addition to the housing assistance payments, the project owner receives a tenant rent, known as "Family Contract Rent," directly from the assisted family. The total amount received by the owner for rent is called the Contract Rent. Eligible families must have incomes within the HUD specified income limits and pay a prescribed amount of their income towards rent in accordance with HUD regulations in Part 813 of this chapter.

* * * * *

46. Section 883.302 would be revised by: (i) Deleting the definitions of "tenant rent," "total family contribution," and "total housing expense"; (ii) adding definitions of "family contract rent," "family gross rent" and "utility reimbursement," and by revising the definitions for "family (eligible family), housing assistance payment, lower-income family, and utility allowance to read as follows:

§ 883.302 Definitions.

* * * * *

Family (eligible family). As defined in Part 813 of this chapter.

Family Contract Rent. The portion of the contract rent payable directly to the owner by an eligible family participating in this program, determined in accordance with Part 813 of this chapter.

Family Gross Rent. The amount defined in, and calculated in accordance with Part 813 of this chapter.

* * * * *

Housing Assistance Payment. The payment made by to the owner of an assisted unit by the State Agency as provided in the Contract. Where the unit is leased to an eligible family, the payment is the difference between the contract rent and the family contract rent. A housing assistance payment, known as a "vacancy payment," may be made to the owner when an assisted unit is vacant. An additional payment is made to the family when the utility allowance is greater than family gross rent. In the case of a family renting only a manufactured home space, the housing assistance payment is the sum of the contract rent for the space, the monthly payment made by the family to amortize the purchase price of the manufactured home, and any applicable utility allowance, less the family gross rent; but such payment may not exceed the contract rent for the space.

* * * * *

Lower-Income Family. A family whose annual income does not exceed 80 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families. HUD may establish income limits higher or lower than 80 percent of the median income for the area on the basis of its findings that such variations are necessary because of the prevailing levels of construction costs or unusually high or low incomes.

* * * * *

Utility Allowance. An estimate, accepted by HUD, of the amount defined in 24 CFR 813.102.

Utility Reimbursement. As defined in 24 CFR 813.102.

47. Section 883.602(e) would be revised as follows:

§ 883.602 The contract.

* * * * *

(e) *Additional housing assistance payments to families.* Where applicable, the Utility Reimbursement will be paid to the family as an additional housing assistance payment. The Contract will provide that the owner will make this payment on behalf of the Agency. Funds for this purpose will be paid to the owner in trust solely for the purpose of making the additional payment.

48. Section 883.704 would be amended by removing paragraph (c), redesignating paragraph (d) and new (c), and by revising paragraph (b) introductory text and newly redesignated paragraphs (c)(1) and (3) to read as follows:

§ 883.704 Selection and admission of assisted tenants.

* * * * *

(b) *Determination of Eligibility and Selection of Tenants.* The owner is responsible for determining whether the applicant is eligible in accordance with 24 CFR Parts 812 and 813 and for the selection of families:

* * * * *

(c) *Reexamination of Family Income and Composition.*

(1) The owner is responsible for reexamining the income and composition of all families at least once each year. Upon verification of the information, the owner shall make appropriate adjustments in the family gross rent in accordance with 24 CFR Part 813. The owner will adjust family contract rent and the housing assistance payment to reflect any change in family gross rent. The owner may schedule reexaminations more frequently than once a year.

* * * * *

(3) A Family's eligibility for housing assistance payments continues until the Family Gross Rent equals the Contract Rent plus, if applicable, the Utility Allowance as defined in § 813.102. However, the termination of eligibility at such point will not affect the family's other rights under its lease nor will such termination preclude resumption of payments as a result of changes in income or rents or other relevant circumstances during the term of the Contract.

49. Section 883.705 would be revised to read as follows:

§ 883.705 Family Contract Rent.

The eligible family pays the family contract rent directly to the owner.

§ 883.602 and 883.711 [Amended]

50. Sections 883.602(d) (1) and (2) and 883.711 would be amended by changing the term "tenant rent" to "family contract rent".

§ 883.709 [Amended]

51. Section 883.709(a) would be revised by changing the term "total family contribution" to "family gross rent".

PART 884—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM, NEW CONSTRUCTION SET-ASIDE FOR SECTION 515 RURAL RENTAL HOUSING PROJECTS

52. The authority citation for Part 884 would be revised to read as follows:

Authority: Secs. 3, 5 and 8, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, 1437f); sec. 7(d) Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

53. Section 884.102 would be revised by: (i) Deleting definitions of Eligible Family, Housing Assistance Payment on Behalf of Eligible Family, Gross Family Contribution, and Gross Rent, (ii) adding definitions of family, family contract rent, family gross rent, housing assistance payment, utility allowance and utility reimbursement, and (iii) by revising the definitions of "allowance for utilities and other services ("allowance")" and "lower-income family" to read as follows:

§ 884.102 Definitions.

* * * * *

Allowance for utilities and other services ("allowance"). See the definition of utility allowance.

* * * * *

Family. A family, as defined in 24 CFR Part 812, which is determined eligible for

admission in accordance with Part 813 of this Chapter.

Family Contract Rent. The portion of the contract rent payable directly to the owner by an eligible family participating in this program, determined in accordance with Part 813 of this Chapter.

Family Gross Rent. The amount defined in, and calculated in accordance with, Part 813 of this Chapter.

* * * * *

Housing Assistance Payment. The payment made by the contract administrator to the owner of an assisted unit as provided in the Contract. Where the unit is leased to an eligible family, the payment is the difference between the contract rent and the family contract rent. A housing assistance payment may be made to the owner when a unit becomes vacant in accordance with the terms of the Contract. An additional housing assistance payment is made to the family when the utility allowance is greater than the family gross rent. In the case of a family renting only a manufactured home space, the housing assistance payment is the sum of the contract rent for the space, the monthly payment made by the family to amortize the purchase price of the manufactured home, and any applicable utility allowance, less the family gross rent; but such payment may not exceed the contract rent for the space.

* * * * *

Lower-Income Family. A family whose annual income does not exceed 80 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families. HUD may establish income limits higher or lower than 80 percent of the median income for the area on the basis of its finding that such variations are necessary because of the prevailing levels of construction costs or unusually high or low incomes.

* * * * *

Utility Allowance (allowance for utilities and other services). An estimate, made or approved by HUD, of the amount defined in 24 CFR 813.102.

Utility Reimbursement. As defined in § 813.102.

54. Section 884.106(a) would be revised as follows:

§ 884.106 Housing assistance payments to owners.

(a) *General.* Housing assistance payments shall be paid to Owners for units under lease by eligible families, in accordance with the Contract and as provided in this section. These housing assistance payments will cover the difference between the Contract Rent and the Family Contract Rent. Where applicable, the Utility Reimbursement will be paid to the family as an additional housing assistance payment. The Contract will provide that the Owner will make this payment on behalf of the contract administrator. Funds for this purpose will be paid to the Owner in trust solely for the purpose of making the additional payment. No Section 8 assistance may be provided for any unit occupied by an Owner; however, cooperatives are considered rental housing rather than Owner-occupied housing for this purpose.

§ § 884.116 and 884.117 [Removed and Reserved]

55. Sections 884.116 and 884.117 would be removed and reserved.

56. Section 884.218 would be revised as follows:

§ 884.218 Reexamination of family income and composition.

(a) The Owner is responsible for reexamining the income and composition of all families at least once each year. Upon verfication of the information, the Owner shall make appropriate adjustments in the Family Gross Rent in accordance with 24 CFR Part 813. The Owner shall adjust Family Contract Rent and the Housing Assistance Payment to reflect any change in Family Gross Rent. The Owner may schedule reexaminations more frequently than once a year.

(b) A family's eligibility for housing assistance payments continues until the Family Gross Rent equals the total Contract Rent plus, if applicable, the Utility Allowance as defined in § 813.102. However, the termination of eligibility at such point will not affect the family's other rights under its lease nor will such termination preclude resumption of payments as a result of changes in income or rents or other relevant circumstances during the term of the Contract.

PART 886—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAMS—SPECIAL ALLOCATIONS

57. The authority for Part 886 would be revised to read as follows:

Authority: Secs. 3, 5 and 8, United States Housing Act of 1937 (42 U.S.C. 1437a, 1437c, 1437f); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

58. Section 886.102 would be amended by: (i) Deleting the definitions of Eligible Family, Gross Family Contribution, Gross Rent and Housing Assistance Payment on behalf of Eligible Family, (ii) adding definitions of familiy, family contract rent, family gross rent, housing assistance payment, utility allowance and utility reimbursement, and (iii) by revising the definitions for gross rent, and lower-income family, to read as follows:

§ 886.102 Definitions.

* * * * *

Allowance for utilities and other services ("allowance"). See the definition of utility allowance.

* * * * *

Family (eligible family). A family, as defined in 24 CFR Part 812, which is determined eligible for admission and continued occupancy in accordance with Part 813 of this Chapter.

Family Contract Rent. The portion of the contract rent payable directly to the owner by an eligible family participating in this program, determined in accordance with Part 813 of this chapter.

Family Gross Rent. The amount defined in, and calculated in accordance with, Part 813 of this chapter.

* * * * *

Gross Rent. Contract Rent plus any Utility Allowance.

Housing Assistance Payment. The payment made by HUD to the owner of an assisted unit as provided in the Contract. Where the unit is leased to an eligible family, the payment is the difference between the contract rent and the family contract rent. A housing assistance payment may be made to the owner when a unit is vacant in accordance with 24 CFR 886.109. An additional housing assistance payment is made when the utility allowance is greater than the family gross rent. In the case of a family renting only a manufactured home space, the housing assistance payment is the sum of the contract rent for the space, the monthly payment made by the family to amortize the purchase price of the manufactured home, and any applicable utility allowance, less the family gross rent; but such payment may not exceed the contract rent for the space.

Lower-Income Family. A family whose annual income does not exceed 80 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families. HUD may establish income limits higher or lower than 80 percent of the median income for the area on the basis of its finding that such variations are necessary because of the prevailing levels of construction costs or unusually high or low incomes.

* * * * *

Utility Allowance (Allowance for utilities and other services). An

estimate, made or approved by HUD, of the amount defined in § 813.102.

Utility Reimbursement. As defined in § 813.102.

59. Section 886.109(a) would be revised as follows:

§ 886.109 Housing assistance payments to owners.

(a) *General.* Housing assistance payments shall be paid to Owners for units under lease by eligible families, in accordance with the Contract and as provided in this section. These housing assistance payments will cover the difference between the Contract Rent and the Family Contract Rent. Where applicable, the Utility Reimbursement will be paid to the family as an additional housing assistance payment. The Contract will provide that the owner will make this payment on behalf of HUD. Funds for this purpose will be paid to the Owner in trust solely for the purpose of making the additional payment.

* * * * *

§ 886.117 [Removed and Reserved]

60. Section 886.117 would be removed and reserved.

61. Section 886.118(a) would be revised as follows:

§ 886.118 Establishment of amount of housing assistance payments.

(a) See 886.109(a).

* * * * *

62. Section 886.124 would be revised as follows:

§ 886.124 Reexamination of family income and composition.

(a) The Owner is responsible for reexamining the income and composition of all families at least once each year. Upon verification of the information, the Owner shall make appropriate adjustments in the family gross rent in accordance with Part 813 of this Chapter. The Owner will adjust family contract rent and the housing assistance payment to reflect any change in family gross rent. The owner may schedule reexaminations more frequently than once a year.

(b) A Family's eligibility for housing assistance payments shall continue until the Family Gross Rent equals the Contract Rent plus, if applicable, the Utility Allowance as defined in § 813.102. However, the termination of eligibility at such point will not affect the Family's other rights under its Lease nor will termination preclude resumption of payments as a result of changes in income or rents or other relevant circumstances during the term of the Contract. A family may at any time request a redetermination of its Family Gross Rent on the basis of changes in family income or other relevant circumstances.

63. Section 886.302 would be revised by: (i) Deleting definitions of Eligible Family and Gross Family Contribution, (ii) adding definitions of Family, Family Contract Rent, Family Gross Rent, Utility Allowance and Utility Reimbursement, and (iii) by revising the definitions of allowance for utilities and other services ("allowance"), housing assistance payment, and lower-income family.

§ 886.302 Definitions.

* * * * *

Allowance for utilities and other services ("allowance"). See the definition of utility allowance.

* * * * *

Family (eligible family). A family, as defined in 24 CFR Part 812, which is determined eligible for admission in accordance with Part 813 of this Chapter.

Family Contract Rent. The portion of the contract rent payable directly to the owner by the Family, determined in accordance with 24 CFR Part 813 of this Chapter.

Family Gross Rent. The amount defined in, and calculated in accordance with Part 813 of this Chapter.

* * * * *

Housing Assistance Payment. The payment made by the contract administrator to the owner of an assisted unit as provided in the Contract. Where the unit is leased to an eligible family, the payment is the difference between the contract rent and the family contract rent. A housing assistance payment may be made to the owner when a unit is vacant in accordance with the terms of the Contract. An additional housing assistance payment is made when the utility allowance is greater than the family gross rent.

* * * * *

Lower-Income Family. A family whose annual income does not exceed 80 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families. HUD may establish income limits higher or lower than 80 percent of the median income for the area on the basis of its finding that such variations are necessary because of the prevailing levels of construction costs or unusually high or low incomes.

* * * * *

Utility Allowance. An estimate, made or approved by HUD, of the amount defined in 24 CFR 813.102.

Utility Reimbursement. As defined in § 813.102.

64. Section 886.309(a) would be revised as follows:

§ 886.309 Housing assistance payment to owners.

(a) *General.* Housing assistance payments shall be paid to owners for units under lease by eligible families, in accordance with the Contract and as provided in this section. These housing assistance payments will cover the difference between the Contract Rent and Family Contract Rent. Where applicable, the Utility Reimbursement will be paid to the family as an additional housing assistance payment. The Contract shall provide that the owner shall make this payment on behalf of HUD. Funds for this purpose will be paid to the owner in trust solely for the purpose of making the additional payment.

* * * * *

§§ 886.316 and 886.317 [Removed and Reserved]

65. Section 886.316 would be removed and reserved.

66. Section 886.317 would be removed and reserved.

67. Section 886.324 would be revised to read as follows:

§ 886.324 Reexamination of family income and composition.

(a) The owner is responsible for reexamining the income and composition of all families at least once each year. Upon verification of the information, the owner shall make appropriate adjustments in the family gross rent in accordance with Part 813 of this chapter. The owner will adjust family contract rent and the housing assistance payment to reflect any change in family gross rent. The owner may schedule reexaminations more frequently than once a year.

(b) A Family's eligibility for housing assistance payments shall continue until the Family Gross Rent equals the Contract Rent plus, if applicable, the Utility Allowance as defined in 24 CFR 813.102. However, the termination of eligibility at such point will not affect the Family's other rights under its Lease nor will termination preclude resumption of payments as a result of changes in income or rents or other relevant circumstances during the term of the Contract. A family may at any time request a redetermination of its Family Gross Rent on the basis of changes in family income or other relevant circumstances.

PART 804—LOW RENT HOUSING HOMEOWNERSHIP OPPORTUNITIES

68. The authority citation for Part 804 would be revised to read as follows:

Authority: United States Housing Act of 1937 (42 U.S.C. 1437, et seq.); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

69. In § 804.104, paragraph (h)(1) would be revised to remove reference to a maximum monthly payment and to include reference to the Family Contract Rent and to read as follows:

§ 804.104 Eligibility and selection of homebuyers

* * * * *

(h) *Eligibility for continued occupancy.*

(1) A homebuyer shall cease to be eligible for continued occupancy with the aid of HUD annual contributions when the LHA determines that his adjusted monthly income has reached the level, and is likely to continue at such level, at which the current amount of his required montly payment equals or exceeds the monthly housing cost (see paragraph (h)(2) of this section). In such event, if the LHA determines, with HUD approval, that suitable financing is available, the LHA shall notify the homebuyer that he shall either: (i) Purchase the home; or (ii) move from the development; provided, however, that if the LHA determines that, due to special circumstances, the homebuyer is unable to find decent, safe and sanitary housing within his financial reach although making every reasonable effort to do so, the homebuyer may be permitted to remain for the duration of such a situation.

* * * * *

70. In § 804.107, paragraph (j)(1) would be revised, paragraph (j)(3) would be removed, and paragraph (j)(4) would be redesignated as paragraph (j)(3) and revised to read as follows:

§ 804.107 Responsibilities of homebuyer.

* * * * *

(j) *Homebuyer's required monthly payment.*

(1) The term "required monthly payment" as used herein means the monthly payment the homebuyer is required to pay to the LHA on or before the first day of each month. Although the total monthly housing cost consists of the sum of the breakeven amount (see § 804.106) and the debt service (payments of principal and interest) on the applicable share of the capital cost of the development, the homebuyer is not required to pay the full amount, but is assisted by HUD annual contributions. The homebuyer's required monthly payment, which is based upon his income, shall be the amount of Family Contract Rent as determined in accordance with Part 813 of this chapter, plus the monthly amounts budgeted by the PHA for EHPA and NRMR.

* * * * *

(3) The LHA shall not refuse to accept monthly payments because of any other charges (i.e., other than overdue monthly payments) owed by the homebuyer to the LHA; however, by accepting monthly payments under such circumstances the LHA shall not be deemed to have waived any of its rights and remedies with respect to such other charges.

Dated: October 22, 1982.

Philip Abrams,

Assistant Secretary for Housing, Federal Housing Commissioner.

[FR Doc. 82-34778 Filed 12-28-82; 8:45 am]

BILLING CODE 4210-27-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Parts 1 and 4a

Source of Interest and Dividends

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains a notice of proposed rulemaking with respect to the source of interest derived from resident alien individuals and domestic corporations and the source of dividends derived from domestic corporations under section 861 of the Internal Revenue Code of 1954. In the Rules and Regulations portion of this **Federal Register**, temporary income tax regulations relating to the same subject are published.

DATE: Written comments and requests for a public hearing must be delivered or mailed before February 28, 1983.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-296-82), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Martha E. Kadue of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (LR-296-82), 202-566-3236, not a toll-free call.

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 861 of the Internal Revenue Code of 1954. These amendments are proposed to be issued under the authority contained in section 7805 (68A Stat. 917, 26 U.S.C. 7805) of the Internal Revenue Code of 1954.

Discussion

Section 861 prescribes rules for determining when certain items of gross income shall be treated as income from sources within the United States. Subsection (a)(1) states that interest on indebtedness of a United States resident (including a corporation) is generally treated as income from U.S. sources. One of the exceptions to this general rule, found in section 861(a)(1)(B), is for U.S. resident alien individuals and domestic corporations that have derived less than 20 percent of their gross income for their prior three taxable years from U.S. sources. Interest received from these individuals and corporations is treated as income from sources outside the United States under section 862(a)(1).

Subsection (a)(2)(A) of section 861 provides generally that dividends from domestic corporations are treated as income from U.S. sources. However, if the domestic corporation derived less than 20 percent of its gross income for its prior three taxable years from sources within the United States, the dividend is treated as income from sources outside the United States under section 862(a)(2).

Guam, the Commonwealth of the Northern Mariana Islands, and the Virgin Islands of the United States each have a separate territorial income tax system and generally apply the Internal Revenue Code as their territional income tax law by substituting the name of the possession for the words "United States" as appropriate. These "mirror codes" include the source rules described above. Except as otherwise required, United States corporations are foreign corporations under these mirror codes. While each of these possessions has a separate tax system, each of those mirror codes together with the Internal Revenue Code forms an integrated scheme of income taxation.

Fixed and determinable annual and periodical income received by a U.S. person from sources within the above-mentioned possessions is not subject to tax to the recipient by certain of these possessions. These tax rules are generally designed to encourage U.S. investment in such possessions. They are not intended or designed to allow income earned in such possessions by a foreign person (not a citizen, resident, or

domestic corporation of either jurisdiction) to avoid taxation by both the possession and the United States under sections 871(a) and 881(a) of their respective tax codes. Accordingly, these proposed regulations provide that income derived from Guam, the Commonwealth of the Northern Mariana Islands, and the Virgin Islands of the United States that is not subject to tax to the recipient by that jurisdiction is treated as U.S. source income for purposes of the source of income rules in section 861 (a)(1)(B) and (a)(2)(A).

Comments and Requests for a Public Hearing

Before adopting as final regulations these proposed regulations, consideration will be given to any written comments that are submitted (preferally seven copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the **Federal Register.**

Certification of Nonapplicability of Regulatory Flexibility Act of 1980 and Exceutive Order 12291

Although this document is a notice of proposed rulemaking which solicits public comment, the Internal Revenue Service has concluded that the proposed regulations are interpretative and that the notice and public comments procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act of 1980 (5 U.S.C. Chapter 6). The Commissioner of Internal Revenue has determined that this proposed rule is not subject to Executive Order 12291.

Drafting Information

The principal author of these regulations is Martha E. Kadue of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other office of the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of substance and style.

List of Subjects in 26 CFR 1.861-1 Through 1.997-1

Income taxes, Aliens, Exports, DISC, Foreign investment in U.S., Foreign tax credit, Sources of income, United States investments abroad.

List of Subjects in 26 CFR Part 4a

Income taxes, Sources of income.

Proposed Amendments to the Regulations

The proposed amendments to 26 CFR Parts 1 and 4a are as follows:

PART 1—INCOME TAX REGULATIONS

Paragraph 1. Section 1.861–2 is amended as follows:

1. Paragraph (b)(2) is revised to read as set forth below.

2. The first sentence of paragraph (e) is revised to read: "This section applies with respect to taxable years beginning after December 31, 1966, except that paragraph (b) (2) (ii) applies with respect to interest received or accrued after [date which is 30 days after publication of final regulations in the **Federal Register**]."

§ 1.861-2 Interest.

* * * * *

(b) *Interest not derived from U.S. sources.* * * *

(2) *Interest from a resident alien individual or domestic corporation deriving substantial income from sources without the United States*—(i) *In general.* Interest received from a resident alien individual or a domestic corporation shall be treated as income from sources without the United States when it is shown to the satisfaction of the district director that less than 20 percent of the gross income from all sources of such individual or corporation has been derived from sources within the United States, as determined under the provisions of sections 861 to 864, inclusive and the regulations thereunder, for the 3-year period ending with the close of the taxable year of such individual or corporation preceding its taxable year in which such interest is paid or credited, or for such part of such period as may be applicable. If 20 percent or more of the gross income from all sources of such individual or corporation has been derived from sources within the United States, as so determined, for such 3-year period (or part thereof), the entire amount of the interest from such individual or corporation shall be treated as income from sources within the United States.

(ii) *Special rule for certain income.* For purposes of this paragraph (b) (2), income derived from Guam, the Commonwealth of the Northern Mariana Islands, or the Virgin Islands of the United States that is not subject to tax to the recipient by that jurisdiction shall be considered income from sources within the United States.

* * * * *

Par. 2. Section 1.861–3 is amended as follows:

1. Paragraph (a)(2) is revised to read as set forth below.

2. The first sentence of paragraph (d) is revised to read: "This section applies with respect to dividends received or accrued after December 31, 1966, except that paragraph (a)(5) of this section applies to certain dividends from a DISC or a former DISC in taxable years ending after December 31, 1971, and that paragraph (a)(2)(ii) of this section applies with respect to dividends received or accrued after [date which is 30 days after publication of final regulations in the **Federal Register**]."

§ 1.861-3 Dividends.

(a) *General*—* * *

(2) *Dividend from a domestic corporation*—(i) *In general.* A dividend described in this subparagraph (2) is a dividend from a domestic corporation other than a domestic corporation which has an election in effect under section 936, and other than a domestic corporation less than 20 percent of the gross income of which is shown to the satisfaction of the district director to have been derived from sources within the United States, as determined under the provisions of sections 861 to 864, inclusive, and the regulations thereunder, for the 3-year period ending with the close of the taxable year of such corporation preceding the declaration of such dividend, or for such part of such period as the corporation has been in existence. See subparagraph (5) of this paragraph for the treatment of certain dividends from a DISC or former DISC.

(ii) *Special rule for certain income.* For purposes of this paragraph (a)(2), income derived from Guam, the Commonwealth of the Northern Mariana Islands, or the Virgin Islands of the United States that is not subject to tax to the recipient by that jurisdiction shall be considered income from sources within the United States.

BILLING CODE 4830-01-M

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 9

[Notice No. 444; Re: Notice No. 418]

Alexander Valley Viticultural Area; Public Hearing

AGENCY: Bureau of Alcohol, Tobacco and Firearms, Treasury.

ACTION: Notice of hearing on a proposed rule.

SUMMARY: This notice announces the time and place of a public hearing to be held by the Bureau of Alcohol, Tobacco and Firearms (ATF) concerning establishment of a viticultural area in northeastern Sonoma County, California, to be known as "Alexander Valley." In Notice No. 418 (47 FR 36221) published in the Federal Register on August 19, 1982, ATF detailed two proposals for establishment of this viticultural area and requested comments. In consideration of the comments received, ATF has determined that the public interest would best be served by the holding of a public hearing on this matter. The purpose of the hearing is to gather additional information and to receive evidence with respect to the establishment of this viticultural area, the proposed boundaries, and other possible boundaries.

DATES: The hearing will be held on January 24, 1983, at 9:30 a.m. (an evening session may be held if necessary at 7:00 p.m.).

Persons desiring to make oral comments at the hearing should submit a letter notifying ATF of their intent to comment on or before January 17, 1983. Written comments must be received on or before February 7, 1983.

ADDRESSES: The hearing will be held at the: Santa Rosa Veterans Memorial Building, 1351 Maple Avenue, Santa Rosa, CA 95402.

Letter notifications and written comments are to be submitted to: Chief, Regulations and Procedures Division, Bureau of Alcohol, Tobacco and Firearms, P.O. Box 385, Washington, DC 20044–0385, Attention Notice No. 444.

FOR FURTHER INFORMATION CONTACT: Jim Whitley, Research and Regulations Branch, Bureau of Alcohol, Tobacco and Firearms, Washington, DC (202–566–7626).

SUPPLEMENTARY INFORMATION:

Background

On August 19, 1982, ATF published notice of proposed rulemaking No. 418 (47 FR 36221) in the Federal Register. In the notice, proposals for the establishment of a viticultural area in northeastern Sonoma County, California, to be known as "Alexander Valley" were detailed. These proposals, identified as Group "A" proposal and Group "B" proposal, resulted from petitions filed by grape/wine industry groups in the area. Both groups proposed that the viticultural area be established in the valley area lying north of the town of Healdsburg. The point of disagreement is the northern boundary. As required by 27 CFR 4.25a(e)(2), each group submitted supporting evidence. On the basis of this evidence, the proposals were determined to have equal merit. Interested persons were invited to submit comments on the proposals. The 60-day comment period ended October 18, 1982.

We received seven (7) comments in response to the notice. Comments were received from the petitioning industry groups, from members of a petitioning group, and from wineries and associations in the area. The comments from the petitioning groups and members thereof reiterated their position on the matter. In addition, the comment of Group "A" also contained additional historical evidence. Furthermore, we received two (2) comments prior to publication of the notice. A comment expressed support for the proposal of Group "B." The other concerned a boundary modification.

Hearing

Based on the facts and representations presented in the comments, it is apparent that disagreement remains between the petitioners on a boundary for the viticultural area. In addition, ATF desires to obtain additional information on the establishment of this viticultural area, the proposed boundaries, and other possible boundaries.

For these reasons, ATF has determined that a hearing is necessary and serves the public interest. The purpose of the hearing is to obtain evidence for the record and to afford interested parties an opportunity to express their views. Evidence obtained and views expressed will be considered in the preparation of any final rule on this matter.

Participation

Any person desiring to participate in the hearing should notify ATF by submitting a letter specifying the name, address, and telephone number of the individual who will present oral comments. Any preference a person may have as to the time of day for presentation of comments should also be stated. The letter must be accompanied by an outline which briefly summarizes the topics the commenter will discuss and the information to be presented. Each topic to be discussed should be separately numbered and each numbered topic should specify with particularity the information to be presented. Assurance of having the opportunity to be heard is given only to those persons notifying ATF prior to the scheduling cutoff date of January 17, 1983.

Any person unable to attend the hearing or who prefers not to present oral comments may submit written comments before or after the hearing. ATF will accept written comments until February 7, 1983. In written comments, each topic to be discussed should be separately numbered and each numbered topic should specify with particularity the factual basis supporting the views, data, or arguments presented. All written comments received will be considered in the development of a decision on this matter.

General Information on Hearing Procedures

The hearing will be conducted under the procedural rules contained in 27 CFR 71.41(a)(3) and will be open to the public, subject to the limitations of space. In the event attendance exceeds available seating space, persons scheduled to present oral comments will be given preference in respect to admission.

Time limitations make it necessary to limit the length of oral presentations to ten (10) minutes. Commenters will not be permitted to trade their time to obtain a longer presentation period. However, the hearing officer may allow any person additional time after all other comments have been heard. To the extent that time is available after presentation of oral comments by those who are scheduled to comment, others will be given an opportunity to be heard.

In order to insure that ATF will have the full benefit of their views even if time constraints limit an oral presentation, persons presenting oral comments are urged to supplement their oral statement with a more complete written statement. A written statement submitted to the hearing officer at the time of presentation of the oral statement will be considered part of the hearing record.

After making an oral presentation, a person should be prepared to answer questions from the hearing panel on not only the topics presented but also on matters relating to any written comments which he or she has

submitted. Other persons will not be permitted to question a commenter. However, questions may be submitted, in writing, to the hearing officer who will evaluate their relevance. If the hearing officer determines that elicitation of further discussion would be beneficial, they may be presented to a commenter for a response.

Persons will be scheduled, whenever possible, according to the time preference, if any, mentioned in their letter notification to ATF. ATF will confirm by telephone the time a person is scheduled to present oral comments. A letter notification received prior to the cutoff date ensures that a person will be scheduled to comment. Letter notifications received after the cutoff date will be honored to the extent practicable on a first-come-first-served basis up to one (1) working day preceding the hearing. Any scheduled commenter not present at the hearing when called will lose his or her place in the scheduled order, but will be recalled after all other scheduled commenters have been heard.

ATF will prepare an agenda listing the persons scheduled to comment and copies will be available at the hearing. In addition, copies of the petitions and all received written comments will be available at the hearing for public inspection.

Comments

Any person participating in the hearing or submitting written comments may present such data, views, or arguments as they desire. Comments that provide the factual basis supporting the views or suggestions presented will be particularly helpful in developing a reasoned regulatory decision on this matter. However, comments consisting of mere allegations or denials are counterproductive to the rulemaking process.

ATF specifically requests that commenters consider making comments on the following questions:

(a) What are the historical and current boundaries of the area known as "Alexander Valley?"

(b) Why and how should the proposed boundaries be modified?

(c) What number of viticultural areas should be established in the areas encompassed by the proposed boundaries?

(1) What historical or current evidence supports establishment of such viticultural areas?

(2) What names would be appropriate for such viticultural areas?

(3) What geographical characteristics support establishment of such viticultural areas?

(d) What similarities of geographical characteristics in the proposed areas support establishment of a single viticultural area?

(e) What geographical characteristics distinguish the proposed areas from each other?

(f) To what extent have grapes grown in a proposed area been or not been marketed as "Alexander Valley" grapes?

(g) Does a price differential exist between the grapes grown in the proposed areas? If so, how much?

(h) What geographical name other than "Alexander Valley" has been applied to a proposed area?

(i) What do wineries outside of the proposed areas consider to be the "Alexander Valley" grape growing area?

(j) To what extent have wineries in a proposed area identified themselves as being in the "Alexander Valley?"

(k) How do grapes grown/wines produced in the proposed areas differ from one another?

(l) To what extent are the proposed areas considered by local, county, State, Federal and national entities to be separate and distinct; to be one and the same?

Paraquat; Proposed Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes that tolerances be established for residues of the desiccant, defoliant, and herbicide paraquat (1,1'-dimethyl-4,4'-bypyridinium ion) in or on a variety of raw agricultural commodities and crop groups. The proposed regulation to establish maximum permissible levels for residues of the pesticide in or on the commodities and crop groups was submitted in a petition by the Interregional Research Project No. 4 (IR-4).

DATE: Comments must be received on or before January 28, 1983.

ADDRESS: Written comments to: Emergency Response Section, Process Coordination Branch, Registration Division (TS-767C), Environmental Protection Agency, Rm. 716B, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: Donald Stubbs (703-557-1192) at the address given above.

SUPPLEMENTARY INFORMATION: The Interregional Research Project No. 4 (IR-

4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, N.J. 08903, has submitted the following pesticide petitions to EPA on behalf of the IR–4 Technical Committee and the named Agricultural Experiment Stations: 0E2345 on behalf of the Agricultural Experiment Stations of Arkansas, California, Florida, Georgia, Illinois, Kentucky, Louisiana, Maryland, Michigan, New Jersey, New York, North Carolina, Ohio, Texas, and Washington; 9E2229 and 2E2611 on behalf of the Agricultural Experiment Station of California; and 8E2048 on behalf of the Agricultural Experiment Stations of Idaho, Indiana, Oregon, Washington, and Wisconsin, and the United States Department of Agriculture.

Pesticide petition 0E2345 requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, propose the establishment of tolerances for residues of the desiccant, defoliant, and herbicide paraquat (1,1'-dimethyl-4,4'-bypyridinium ion), resulting from application of either the bis(methyl sulfate) or the dichloride salt (both calculated as the cation), in or on the following raw agricultural commodities and crop groups: beans (lima, snap) (succulent form), cabbage, carrots, cauliflower, Chinese cabbage, collards, cucurbits (watermelon, cantaloupe/muskmelon, pumpkin, squash, cucumber), fruiting vegetables (eggplants), peas (succulent form), and turnips (tops and roots) at 0.05 part per million (ppm); beans (forage) at 0.1 ppm; and peas (forage) at 0.2 ppm. The petition was later amended to include proposed tolerances for beans (hay) at 0.4 ppm and peas (hay) at 0.8 ppm.

Petitions 9E2229 and 2E2611 requested that the Administrator propose the establishment of tolerances for residues of paraquat, resulting from application of either the bis(methyl sulfate) or the dichloride salt (both calculated as the cation), in or on the raw agricultural commodities kiwifruit (PP 2E2611) and pistachio nuts (9E2229) at 0.05 ppm.

Petition 8E2048 requested that the Administrator propose the establishment of a tolerance for residues of paraquat, resulting from application of either the bis(methyl sulfate) or the dichloride salt (both calculated as the cation), in or on the raw agricultural commodity mint hay at 0.5 ppm. In addition IR–4 has submitted a related Feed Additive Petition (8H5181) proposing to amend 21 CFR 561.289 by establishing a regulation permitting residues of paraquat in spent mint hay at 3.0 ppm.

The data submitted in the petition and other relevant material have been evaluated. The pesticide is considered useful for the purposes for which the tolerances are sought. The toxicological data considered in support of the proposed tolerances were several rat acute oral feeding studies with LD_{50} values of 112–150 milligrams (mg) paraquat cation/kilogram (kg) of body weight (bw); a 90-day dog feeding study with a no-observed-effect level (NOEL) of 20 ppm of paraquat cation (0.5 mg/kg bw), based on systemic effects; a one-generation rat reproduction study with a NOEL of 100 ppm paraquat cation (10 mg/kg bw, highest level tested); two teratology studies, rat and mouse, with NOEL's of 1.0 mg paraquat cation/kg bw and 10 mg paraquat cation/kg bw, respectively; mutagenic studies with *Salmonella typhimurium* (paraquat was not mutagenic with the following histidine-requiring strains: TA 1535, TA 1537, TA 1538, TA 98, TA 100); and a mutagenic dominant lethal test (no observed mutagenicity to male CD–1 strain of mice). A subchronic dog feeding study and a rat chronic feeding/oncogenic study are currently lacking but not needed to support these proposed tolerances; however, the rat study is in progress. Mouse oncogenic and 2-generation rat reproduction studies have been submitted and are currently under review; a preliminary review indicated no adverse effects.

The theoretical maximum residue contribution (TMRC) from existing tolerances for a 1.5 kg daily diet is calculated to be 0.1010 mg/day. The current action for all named commodities in petition OE2345 taken as a whole will increase the TMRC by 3.13%; taken individually, the increases in TMRC on a per-crop basis will range from 0.020 percent to 0.732 percent. Tolerances have previously been established on a wide variety of food commodities, including meat, milk, grain, fruits, vegetables, and nuts, at levels ranging from 0.01 ppm to 2 ppm. There are existing tolerances for peppers, tomatoes, and melons at 0.05 ppm; the proposed tolerances for the crop groups fruiting vegetables and cucurbits will negate the need for these individual tolerances which will therefore be deleted from the regulation.

The current action on kiwifruit and pistachio nuts will increase the TMRC by 0.00004 mg/day (0.04 percent). The current action on mint hay will increase the TMRC by 0.00023 mg/day (0.23 percent). Residues are not expected to concentrate in mint oil and currently established tolerances for negligible residues of paraquat in meat and milk are adequate to cover any secondary residues resulting from spent mint hay used as animal feed.

The Agency has concluded that the amount of paraquat added to the diet from the proposed uses will not significantly increase dietary exposure in humans. Thus, the tolerances that will be established by this proposed rule are considered to pose a negligible increment in risk.

The nature of the residues in plants is adequately understood and an adequate analytical method, spectrometry, is available for enforcement purposes. EPA has reviewed paraquat as a candidate for a rebuttable presumption against registration (RPAR), and determined that potential effects do not merit issuance of an RPAR.

Based on the above information considered by the Agency, the fact that there is no reasonable expectation of secondary residues in eggs, meat, milk, and poultry from the use for kiwifruit and pistachio nuts, and the fact that currently established tolerances for meat and milk are adequate to cover any residues resulting from the other treated crops used as animal feed, the tolerances established by amending 40 CFR 180.205 would protect the public health. It is proposed, therefore, that the tolerances be established as set forth below.

Any person who has registered or submitted an application for registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, which contains any of the ingredients listed herein, may request with 30 days after publication of this notice in the **Federal Register** that this rulemaking proposal be referred to an Advisory Committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. Comments must bear a notation indicating the document control number, "[PP 8E2048/9E2229/0E2345/2E2611/P264]". All written comments filed in response to this petition will be available for public inspection in the office of Donald Stubbs at the above address from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

This Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–534, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that regulations establishing new tolerances

or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346a(e))).

List of Subjects in 40 CFR Part 180

Administrative practice and procedure, Agricultural commodities, Pesticides and pests.

Dated: December 15, 1982.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

PART 180—[AMENDED]

Therefore, it is proposed that 40 CFR 180.205 be amended by removing the entries melons, peppers, and tomatoes, and adding and alphabetically inserting the proposed raw agricultural commodities and crop groups to read as follows:

§ 180.205 Paraquat; tolerances for residues.

* * * * *

Commodities	Parts per million
* * * * *	
Beans, forage	0.1
Beans, hay	0.4
Beans, lima (succulent)	0.05
Beans, snap (succulent)	0.05
* * * * *	
Cabbage	0.05
Carrots	0.05
* * * * *	
Cauliflower	0.05
* * * * *	
Chinese cabbage	0.05

BILLING CODE 6560-50-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 663

[Docket No. 21221-255]

Pacific Coast Groundfish Fishery

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of preliminary fishery specifications and request for comment.

SUMMARY: This notice announces and requests comment on the preliminary 1983 management specifications for Pacific whiting, sablefish, Pacific ocean perch, shortbelly rockfish, and widow rockfish caught in the fishery conservation zone (3–200 nautical miles from shore) and territorial waters (0–3 nautical miles from shore) off the coasts of Washington, Oregon, and California. The intended effect of this notice is to identify the acceptable biological catch as well as the optimum yield and its distribuiton among domestic and foreign fishing operations, as required in the regulations implementing the Pacific Coast Groundfish Fishery Management Plan.

DATE: Comments on the preliminary specifications for 1983 must be received by January 13, 1983.

ADDRESSES: Send comments to H. A. Larkins, Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way NE, BIN C15700, Seattle, Washington 98115.

FOR FURTHER INFORMATION CONTACT: H. A. Larkins, 206–527–6150.

SUPPLEMENTARY INFORMATION: The Pacific Coast Groundfish Fishery Management Plan (FMP) was approved by the Assistant Administrator for Fisheries, NOAA, on January 4, 1982. The FMP and its implementing regulations at 50 CFR Part 663 (47 FR 43974, published on October 5, 1982) state that management specifications for certain species (Pacific whiting, sablefish, Pacific ocean perch, shortbelly rockfish, and widow rockfish) will be evaluated each calendar year, that preliminary specifications will be published in the Federal Register, public comment will be requested, and final specifications for the succeeding calendar year will be published. The management specifications are made for the acceptable biological catch (ABC), an estimate of the annual catch that could be taken without jeopardizing a resource's productivity, and the optimum yield (OY), based on socio-economic as well as biological factors and thus not necessarily equal to the ABC. The OYs for these five species are the maximum amounts of fish (in round weight) that may be taken and retained or landed each year from the fishery conservation zone (3–200 nautical miles) and the territorial sea (0–3 nautical miles) off Washington, Oregon, and California.

The OY for each of these five species is comprised of several components that will be reassessed near July 1. The domestic annual harvest (DAH), which consists of estimates of domestic annual processing (DAP) and joint venture processing (JVP), is verified by surveys of the fishing industry in November and June. The total allowable level of foreign fishing (TALFF) is the remainder, if any, of OY after domestic needs (DAH) have been confirmed. A reserve is established for any species with a TALFF in order to accommodate any underestimates in DAH.

The OYs and ABCs may be changed during the year under the procedures outlined in the regulations at 50 CFR 663.22.

The preliminary specifications for 1983 were reviewed and approved by the Pacific Fishery Management Council (Council) and received public comment at the Council's November 17–18, 1982, meeting in Monterey, CA. The aggregate data upon which these preliminary specifications are based are available for public inspection at the Regional Director's office during business hours until the end of the comment period.

The 1983 preliminary management specifications are listed below, followed by a discussion of the specifications for each species.

TABLE 1.—PRELIMINARY SPECIFICATIONS OF ABC FOR 1983

[In thousands of metric tons]

Species/areas	Vancouver	Columbia	Eureka	Monterey	Conception	Total
Groundfish:						
Lingcod	1.0	4.0	0.5	1.1	0.4	7.0
Pacific cod	2.2	0.9	(1)	(1)	(1)	3.1
Pacific whiting						175.5
Sablefish				[3]2.5		[2]13.4
Rockfish:						
Pacific ocean perch	0.0–0.6	0.0–0.95	(1)	(1)	(1)	0.0–1.55
Shortbelly						[2]10.0
Widow	0.4	[4]6.5	1.5	2.1	(1)	10.5
Other rockfish: [6]						
Bocaccio	(1)	(1)	(1)	4.1	2.0	6.1
Canary	4.0	1.3	0.6	(1)	(1)	5.9
Chilipepper	(1)	(1)	(1)	1.3	1.0	2.3
Yellowtail	1.4	1.5	0.3	(1)	(1)	3.2
Remaining rockfish	2.0	2.5	1.9	4.3	3.3	14.0
Flatfish:						
Dover sole	1.0	4.0	8.0	5.0	1.0	19.0
English sole	0.6	2.0	0.8	0.9	0.2	4.5
Petrale sole	0.6	1.1	0.5	0.8	0.2	3.2
Other flatfish (except arrowtooth flounder)	0.7	3.0	1.7	1.8	0.5	7.7
Others Fish: [7]						
Jack mackeral						[2]12.0
Others	3.0	7.0	2.0	2.0	2.0	16.0

[1] These species are not common or important in the areas footnoted. Accordingly, for convenience, Pacific cod is included in the "other fish" category for the areas footnoted, and rockfish species are included in the "remaining rockfish" category for the areas footnoted only.
[2] Total all areas.
[3] Monterey Bay only.
[4] 1,600 metric tons for that portion of the Columbia subarea north of Cape Lookout (45°20' N. latitude), and 4,900 metric tons for that portion of the Columbia subarea south of Cape Lookout.
[5] Insufficient data available to estimate ABC.
[6] "Other rockfish" means rockfish species, listed in § 663.2, which do not have a numerical OY.
[7] "Other fish" includes sharks, skates, ratfish, morids, grenadiers, jack mackerel, arrowtooth flounder, and, in the Eureka, Monterey, and Conception areas, Pacific cod. "Other fish" is part of the "other species" category listed in § 663.2.
[8] North of 39°00' N. latitude.

TABLE 2.—PRELIMINARY SPECIFICATIONS OF OY AND ITS DISTRIBUTION FOR 1983

[In thousands of metric tons]

Species	Total OY	DAH	DAP	JVP	Reserve	TALFF
Pacific whiting	175.5	105.0	5.0	100.0	15.0	35.5
Sablefish	[1]17.4	17.4	17.4	[2]0.0	0.0	[2]0.0
Pacific ocean perch	[3]1.55	1.55	1.55	[2,4]0.0	0.0	[2]0.0
Shortbelly rockfish	10.0	10.0	6.0	[2,4]4.0	0.0	[2,4]0.0
Widow rockfish	10.5	10.5	10.5	[2,4]0.0	0.0	[2,4]0.0
Other species	(5)	(5)	(5)	[2,6]0.0	0.0	[2,6]0.0

[1] Of this 13,400 metric tons, 2,500 metric tons is from part of the Monterey subarea. See § 663.21(a)(2).
[2] Incidental catch allowance percentages (based on TALFF) and incidental retention allowance percentages (based on JVP) are: sablefish 0.173%, Pacific ocean perch 0.062%, rockfish excluding Pacific ocean perch 0.738%, flatfish 0.1%, jack mackerel 3.0%, and other species 0.5%. See footnotes 4 and 6 of this table. See § 611.70(c)(2) for application of incidental retention allowance percentages to joint venture operations.
[3] Of this 1,550 metric tons, 600 metric tons is for the Vancouver subarea and 950 metric tons is for the Columbia subarea. Pacific ocean perch from other subareas are included in the OY for "other species." See § 663.21(a)(3).
[4] In foreign trawl and joint venture processing operations, shortbelly and widow rockfishes are included in the category "rockfishes excluding Pacific ocean perch."
[5] The total OY for "other species" is that amount of fish that may be lawfully harvested and/or processed under § 611.70 and Part 663. See § 663.2 for species listing.
[6] In foreign trawl and joint venture processing operations, "other species" means all species, including non-groundfish species, except Pacific whiting, sablefish, Pacific ocean perch, rockfish excluding Pacific ocean perch, flatfish, jack mackerel, and prohibited species.

Pacific whiting. The 1983 preliminary specifications for ABC, OY, DAH, DAP, JVP, TALFF, and reserve are the same as in 1982. Shore-based processors indicate their intent to process about 5,000 metric tons (mt) of Pacific whiting in 1983; joint venture operations are expected to process near 100,000 mt.

Sablefish. The 1982 ABC for sablefish of 13,400 mt is maintained for 1983 because there are no new data or analyses to justify a change.

In 1982, ABC=OY=13,400 mt. Catches in 1982 exceeded OY, but the fishery was not immediately closed when OY was reached because the Council had not had sufficient time to reevaluate the appropriateness of OY, the regulations implementing the FMP had just taken effect, and the industry had had insufficient time to react to an impending closure. The Secretary of Commerce (Secretary) subsequently imposed a trip limit of 3,000 pounds of sablefish taken and retained or landed per vessel per trip to slow the growth of the fishery, allow incidental catches of sablefish to be landed (rather than discarded, which a complete closure would have required), and to give the Council time to determine whether the OY should be increased. By the time the Council met in November, landings had exceeded the maximum possible increase to OY (30 percent) that could be allowed in 1982, but the Council was unable to document evidence of stress on the stock. Consequently, the 1982 ABC is unchanged and remains at 13,400 mt for 1983. The 1982 OY, as it is proposed to be increased by 30 percent to 17,400 mt, is specified as the preliminary OY for 1983. Because domestic processors can fully utilize the harvest, there are no sablefish available to JVP or TALFF in 1983.

Pacific ocean perch. Pacific ocean perch have been overfished and are managed under a rebuilding schedule specified in the FMP. A trip limit of 5,000 pounds or 10 percent by weight (all round weights) of all fish on board, whichever is greater, per vessel per fishing trip, is imposed under 50 CFR 663.27(b)(2). Domestic processors will fully utilize OY so there are no Pacific ocean perch available for JVP or TALFF in 1983.

Shortbelly rockfish. The preliminary 1983 ABC, OY, and DAH specifications for shortbelly rockfish are the same as in 1982, all three at 10,000 mt. In 1982, JVP was set at 1,000 mt and DAP at 9,000 mt, but domestic shore-side landings were well below the DAP estimate. The November survey of the

domestic fishing industry's intentions for 1983 indicated that a DAP of 6,000 mt would adequately supply domestic processing needs, leaving 4,000 mt available for JVP.

Widow rockfish. In the FMP, ABCs for 1982 were determined for only two statistical subareas (Columbia and Eureka); data were too inconclusive to estimate a coastwide ABC. The 1982 OY of 26,000 mt was higher than the combined ABCs to allow stocks to be fished down to maximum sustainable yield (MSY) levels; stress on the stock had not been definitively documented at that time. By mid-summer of 1982, however, stress on the widow rockfish stock was well documented, and a trip limit of 75,000 pounds (round weight) per vessel per trip was implemented on October 13, 1982 (47 FR 46287).

The preliminary specification for the 1983 coastwide OY and ABC is 10,500 mt, less than half the 1982 estimates. This reflects the large declines in availability and abundance of widow rockfish. Data have become available that facilitate specification of 1983 ABCs for all the surbareas where widow rockfish have been caught in major quantities. Widow rockfish will be fully utilized by domestic processors in 1983; none is available for JVP or TALFF.

Other species. The other species managed under the FMP do not have numerical OYs. For the most part, they cannot be harvested selectively and are regulated by management measures such as gear specifications and area closures rather than quotas. Full utilization by domestic processors of some species in this multispecies complex precludes joint venture or foreign fishing operations on any other species in the complex, because large incidental catches of the fully utilized species are likely to result. Consequently, no numerical specifications for DAH, DAP, JVP, and TALFF are made for 1983 because JVP and TALFF are not available for any other species in the multispecies complex.

However, ABCs are specified for the major species or species groups in this complex. At this time, only one ABC, for yellowtail rockfish, is lower in 1983 than 1982. However, analyses of other species are on-going and it is likely that ABCs may also be reduced for Dover sole and canary rockfish during 1983.

Classification

These preliminary specifications are made under the authority of 50 CFR 663.24. This action is in compliance with Executive Order 12291 and is covered by the Regulatory Flexibility Analysis prepared for the authorizing regulations.

Wednesday, December 29, 1982

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

Leases and Exchanges of Historic Properties

AGENCY: Advisory Council on Historic Preservation.

ACTION: Notice.

SUMMARY: On December 9, 1982, the Chairman of the Advisory Council on Historic Preservation ratified the Programmatic Memorandum of Agreement with the National Park Service, Department of the Interior and the National Conference of State Historic Preservation Officers regarding the lease and exchange of historic properties owned or under the control of the National Park Service.

FOR FURTHER INFORMATION CONTACT: J. Cullinane, Senior Architect, Advisory Council on Historic Preservation, 1522 K Street, NW., Washington, DC 20005 (202–254–3974).

Dated: December 22, 1982.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Forms Under Review by Office of Management and Budget

December 23, 1982.

The Department of Agriculture has submitted to OMB for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) since the last list was published. This list is grouped into new proposals, revisions, extensions, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form number(s), if applicable; (4) How often the information is requested; (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to provide the information; (8) An indication of whether section 3504(h) of Pub. L. 96–511 applies; (9) Name and telephone number of the agency contact person.

Comments and questions about the items in the listing should be directed to the agency person named at the end of each entry. If you anticipate commenting on a form but find that preparation time will prevent you from submitting comments promptly, you should advise the agency person of your intent as early as possible.

Copies of the proposed forms and supporting documents may be obtained from: Richard J. Schrimper, Statistical Clearance Officer, (202) 447–6201.

Revised

• Farmers Home Administration
Coordinated Financial Statements
On occasion
Individuals, farms: 8,500 responses; 42,500 hours; not applicable under 3504(h)
Molly T. Baldrige, (202) 447–7597

Extension

• Food and Nutrition Service
Food Stamp Redemption Certificates
FNS–278 and FNS–278–4
On occasion
Businesses or other institutions: 23,407,848 responses; 5,016,301 hours; not applicable under 3504(h)
Haywood Taylor, (703) 756–3534

• Rural Electrification Administration
Annual Supplement to December 31 Financial and Statistical Report
REA Form 479a
Annually
Businesses or other institutions: 1,000 responses; 4,000 hours; not applicable under 3504(h)
John Rose, (202) 382–8532

BILLING CODE 3410–01–M

ARMS CONTROL AND DISARMAMENT AGENCY

General Advisory Committee; Closed Meeting

In accordance with the Federal Advisory Committee Act, as amended, the U.S. Arms Control and Disarmament Agency announces the following meeting:

Name: General Advisory Committee on Arms Control and Disarmament
Date: January 13 and 14, 1983
Time: 9:00 a.m. each day
Place: State Department Building, Washington, D.C.
Type of Meeting: Closed
Contact person: Dr. Charles M. Kupperman, Executive Director of the General Advisory Committee, Room 5927, U.S. Arms Control and Disarmament Agency, Washington, D.C. 20451, telephone (202) 632–5176.
Purpose of advisory committee: To advise the Director of the U.S. Arms Control and Disarmament Agency on arms control and disarmament policy and activities, and from time to time to advise the President and the Secretary of State respecting matters affecting arms control, disarmament, and world peace.
Agenda: Will include the following discussions and presentations:

January 13

A.M.—U.S. START and INF Negotiating Positions and Tactics
P.M.—Soviet Negotiating Positions and Tactics

January 14

A.M.—Discussion of the foregoing and possibly other similar matters.
Reason for closing: The GAC members will be reviewing and discussing matters specifically required by Executive Order to be kept secret in the interest of national defense and foreign policy.
Authority to close meeting: The closing of this meeting is in accordance with a determination by the Director of the U.S. Arms Control and Disarmament Agency dated December 10, 1982, made pursuant to the provisions of Section 10(d) of the Federal Advisory Committee Act, as amended.

John E. Grassle,

Committee Management Officer.

BILLING CODE 6820–32–M

DEPARTMENT OF COMMERCE

International Trade Administration

Wool From Argentina; Termination of Countervailing Duty Investigation

AGENCY: International Trade Administration, Commerce.

ACTION: Termination of Countervailing Duty Investigation.

SUMMARY: On October 18, 1982, we initiated under section 303 of the Tariff Act of 1930, as amended (the Act), a countervailing duty investigation of wool from Argentina. This notice terminates the countervailing duty investigation with respect to the wool included in the initiation that is duty-free, and as such requires an injury determination in order for countervailing duties to be assessed.

EFFECTIVE DATE: December 29, 1982.

FOR FURTHER INFORMATION CONTACT: G. Leon McNeill, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230, Telephone: (202) 377–1273.

SUPPLEMENTARY INFORMATION: On September 21, 1982, we received a petition from the National Wool Growers Association, Inc. on behalf of the U.S. industry producing wool. In compliance with the filing requirements of § 355.26 of the Commerce Regulations (19 CFR 355.26), the petition alleges that the manufacturers, producers, or exporters of wool in Argentina receive, directly or indirectly, bounties or grants within the meaning of section 303 of the Tariff Act of 1930, as amended, (the Act).

After reviewing the petition and finding that it was in proper form, we published a notice of initiation of a countervailing duty investigation under section 303 of the Act in the **Federal Register** of October 18, 1982, (47 FR 46349).

Since Argentina is not a "country under the Agreement" within the meaning of section 701(b) of the Act, section 303 of the Act applies to this investigation. Therefore, the domestic industry is not required to allege that, and the U.S. International Trade Commission is not required to determine whether dutiable imports of this product cause or threaten to cause material injury to a U.S. industry.

However, since Argentina is a member of the General Agreement on Trade and Tariffs (GATT) and certain of the wool subject to this investigation is non-dutiable, the domestic industry is required to allege that, and the U.S. International Trade Commission is required under section 303(a)(2) of the Act to determine whether non-dutiable imports of this product cause or threaten to cause material injury to the U.S. industry in question. Under the provision of this paragraph, the Department lacks the authority to impose duties on duty-free goods from Argentina unless an affirmative injury determination has been made. Therefore, we are terminating our countervailing duty investigation with regard to duty-free wool from Argentina.

Scope of Investigation Termination

The following non-dutiable wool from Argentina for which this investigation is being terminated is currently provided for under items 306.3132 and 306.3334 of the *Tariff Schedules of the United States Annotated (TSUSA)*. The imported dutiable merchandise which is wool, finer than 44s, not on the skin, from Argentina, is currently provided for under items 306.3152, 306.3172, 306.3253, 306.3273, 306.3354, and 306.3374. We are not terminating our investigation with regard to this merchandise.

Gary N. Horlick,

Deputy Assistant Secretary for Trade Administration.

December 22, 1982.

[FR Doc. 82-35270 Filed 12-28-82; 8:45 am]

BILLING CODE 3510-25-M

Applications for Duty-Free Entry of Scientific Instruments

The following are notices of the receipt of applications for duty-free entry of scientific instruments published pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the instrument is intended to be used is being manufactured in the United States.

Comments must be filed in accordance with § 301.5(a)(3) and (4) of the regulations. They are to be filed in triplicate with the Director, Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the **Federal Register**.

A copy of each application is on file in the Department of Commerce, and may be examined between 8:30 A.M. and 5:00 P.M., Monday through Friday, Room 2097, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 82–00033R. Applicant: University of Utah, Salt Lake City, UT 84112. Instrument: Gas Chromatograph/Mass Spectrometer with Data System, MM7025. Application is a resubmission, notice of which was published in the **Federal Register** of December 8, 1981.

Docket No. 82–00176R. Applicant: State of New York Department of Environmental Conservation, 50 Wolf Road, Albany, New York 12233. Instrument: Trace Analysis System, TAGA 3000. Application is a resubmission, notice of which was published in the **Federal Register** of June 3, 1982.

Docket No. 83–74. Applicant: Henry Ford Hospital, 2799 West Grand Boulevard, Detroit, MI 48202. Instrument: NMR Spectrometer, Model TMR–32/200. Manufacturer: Oxford Research Instruments, United Kingdom. Intended use of instrument: The instrument is intended to be used for the study of energy metabolism of the brain of living animals and the energy metabolism of human muscle. Several disease states will be studied. The experiments will concentrate on the effect of experimental stroke on changes in brain energy metabolism together with the potential for recovery of energy metabolism in brain when stroke is reversed. Energy metabolism will be studied in the muscle of the arm or the leg in the human by simply placing the limb inside the magnet. By this means it is possible to measure the biochemical substances of glucose phosphate, ATP, creatine phosphate, inorganic phosphate and pH. Application received by Commissioner of Customs: November 19, 1982.

Docket No. 83–77. Applicant: University of Connecticut, Institute of Materials Science, U–136, Storrs, Connecticut 06268. Instrument: Electron Microscope EM 420 with Accessories. Manufacturer: Philips Electronic Instruments, The Netherlands. Intended use of instrument: The instrument is intended to be used for studies of nickel and iron base alloys; ion implanted microstructures, fatigue structures and phase transformations. Experiments will consist of structural analysis of changes in grain shape, dislocation geometry and content, spinodal geometry. The instrument will also be used to teach students techniques for revealing the microstructure of crystalline metals in the courses Materials Characterization 236 and Electron Microscopy 323. Application received by Commissioner of Customs: November 23, 1982.

Docket No. 83–79. Applicant: University of Illinois at Urbana-Champaign, 223 Administration Building, Urbana, Illinois 61801. Instrument: Analytical 2AB–HF Mass Spectrometer and Accessories. Manufacturer: VG Analytical Instruments Limited, United Kingdom. Intended use of instrument: The instrument is intended to be used for studies of compounds of high molecular weight and low volatility. Molecular weights and molecular formulas of the compounds will be determined by mass spectrometry from low resolution and high resolution data recording masses of molecular ions. In addition, masses of fragment ions will be determined which may allow assignment of sequences of amino acids in polypeptides, nucleotides in oligonucleotides, sugars in oligosaccharides, etc. Application received by Commissioner of Customs: November 23, 1982.

Docket No. 83–80. Applicant: National Institutes of Health, Biomedical Engineering & Instrumentation Branch, Building 13, Room 3W13, Bethesda, MD 20205. Instrument: Ion Source and Power Supply. Manufacturer: Ion Tech Limited, United Kingdom. Intended use of instrument: The instrument is intended to be used to modify mass spectrometers for analysis of high molecular weight compounds of biological interest. Application received by Commissioner of Customs: November 23, 1982.

Docket No. 83–81. Applicant: University of California, Los Alamos National Laboratory, P.O. Box 990, Los Alamos, NM 87545. Instrument: Surface Analysis Spectrometer. Manufacturer: Leybold-Heraeus, Incorporated, West Germany. Intended use of instrument: The instrument is intended to be used for the study of surface-catalyzed chemical reactions. The approach in studying model catalytic reactions will be to perform detailed structural and compositional characterization of the working catalyst's surface immediately before and after high pressure reactions, and to correlate these results with the transient and steady-state kinetics measured under realistic pressure conditions. The aim of this research is to gain fundamental understanding of the relationship of surface structural, compositional and electronic factors to the rates and mechanisms of this important class of slower processes. Application received by Commissioner of Customs: November 22, 1982.

Docket No. 83–82. Applicant: SUNY at Stony Brook, Department of Neurobiology and Behavior, Stony Brook, N.Y. 11794. Instrument: Single Microelectrode Clamp, ASFI with Bridge and Accessories. Manufacturer: Audivac Instruments, Australia. Intended use of instrument: The instrument is intended to be used to perform voltage clamp studies on mammalian neurons, using glass microelectrodes and brain slices. A microelectrode will be connected to the single electrode clamp and impaled onto a suitable nerve cell. Membrane currents set up by appropriate voltage command waveforms will be measured. The effects of ions and pharmacological agents on these responses will be studied, so as to improve the understanding of brain functions and pathology. Application received by Commissioner of Customs: November 23, 1982.

Docket No. 83–85. Applicant: MIT National Magnet Laboratory, 150 Albany Street, Cambridge, MA 02139. Instrument: Millimeter Wave Open Reonator System with 28 GHZ Mirror. Manufacturer: National Physical Laboratory, United Kingdom. Intended use of instrument: The instrument is intended to be used for the study of dielectrics, semiconductors and magnetic materials. Investigations will be conducted to learn and record fundamental physical properties of materials and to reveal the relative feasibility for applications in high technology communications and radar systems. Application received by Commissioner of Customs: December 2, 1982.

Docket No. 83–87. Applicant: Sandia National Laboratories, P.O. Box 5800, Division 1111, Albuquerque, NM 87185. Instrument: Electron Microscope Accessories. Manufacturer: JEOL Limited, Japan. Intended use of instrument: The instruments are intended to be used for experiments which are related to ongoing research into surface alloys. These studies will include examination of crystalline and non-crystalline solids, including iron, aluminum, and stainless steels, which have been ion implanted with a second species. The resulting surface alloys will be examined (a) just after implantation, (b) after furnace annealing, and (c) after pulsed electron beam or pulsed laser irradiation. Application received by Commissioner of Customs: December 1, 1982.

Docket No. 83–88. Applicant: Department of Health, Education & Welfare, National Institute of Health, National Cancer Institute, Division of Cancer Biology & Diagnosis, Building 31, Room 3A–05, Bethesda, MD 20205. Instrument: Gammacell–40 (Small Animal Irradiator). Manufacturer: Atomic Energy of Canada Limited, Canada. Intended use of instrument: The instrument is intended to be used for irradiation of mice to produce chimeras that are to be used in the investigation of immunologic functions. Mice will be lethally irradiated (950R) followed by transplantation of hematopoietic cells from strains different than recipient. This will allow Cancer Institute immunologists to study functions of the immune system by producing T-cell or B-cell different animals. Application received by Commissioner of Customs: December 2, 1982.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials).

Richard M. Seppa,

Director, Statutory Import Programs Staff.

BILLING CODE 3510–25–M

National Bureau of Standards

[Docket No. 21102–223]

Revision to Federal Information Processing Standard 86; Additional Controls for Use With ASCII

Under the provisions of Pub. L. 89–306 (79 Stat. 1127; 40 U.S.C. 759(f)) and Executive Order 11717 (38 FR 12315, dated May 11, 1973), the Secretary of Commerce (Secretary) is authorized to establish uniform Federal automatic data processing standards.

On January 29, 1981, a notice was published in the **Federal Register** (46 FR 9687–9688) announcing the approval of Federal Information Processing Standards Publication (FIPS PUB) 86, Additional Controls for Use with ASDII.

On February 5, 1982, a notice was published in the **Federal Register** (47 FR 5450) indicating that the Secretary had amended FIPS PUB 86 by changing the effective date from January 29, 1982 to September 30, 1982, and indicating that a proposed revision to the applicability section of FIPS PUB 86 would be forthcoming.

On May 21, 1982, a notice was published in the **Federal Register** (47 FR 22139) announcing proposed revisions to FIPS PUB 86 section 8, *Applicability,* and section 10, *Qualifications,* and soliciting comments concerning these proposed revisions. As a result of that solicitation, no Federal agency objected to the proposed revisions, and only one comment was received from industry, suggesting minor editorial changes in the text, which have been incorporated into the revised FIPS PUB 86, along with minor editorial rearrangement of the text.

The purpose of this announcement is to confirm that FIPS PUB 86 became

effective on September 30, 1982, and that on December 14, 1982, the Secretary has approved the following revised sections on Applicability and Qualifications:

"8. *Applicability.* This standard is applicable to the acquisition and use of all ADP equipment and services that involve character imaging which: 1) employ the character set and encoding conventions prescribed by FIPS PUB 1–1 (ASCII) and FIPS PUB 35 (Code Extension in 7 or 8 Bits); 2) employ primarily character-oriented controls; and 3) are consistent with the device architectural assumptions given in Appendix B of ANSI X3.64–1979. All ADP terminal devices containing alphanumeric keyboards and either CRT displays or printers that may be used in any form of on-line interactive applications (such as data entry) of stand-alone off-line data preparation, and which satisfy all three of the conditions above, are covered by this standard. A waiver must be requested in accordance with the waiver provisions in section 12 below for the acquisition of ADP terminal equipment having control functions defined by this standard (or their operational equivalents) which are performed by means that do not conform with the provisions of this standard."

"10. *Qualifications.* Terminals conforming with this standard need not implement all of the control functions defined by this standard, and they may implement supplemental character-oriented control functions not defined by this standard. However, when any of the control functions defined by this standard (or their operational equivalents) are implemented, they must be implemented in accordance with the provisions of this standard. Additionally, computer resident control software may be, or may not be, required to implement specific features of this standard, at the option of the procuring agency."

Persons desiring further information about these revisions to FIPS PUB 86 may contract Mr. John L. Little, System Components Division, Center for Computer Systems Engineering, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, DC 20234, telephone: 301/921–3723.

Dated: December 23, 1982.

Ernest Ambler,

Director.

BILLING CODE 3510-CN-M

National Oceanic and Atmospheric Administration

Issuance of Permit

On November 12, 182, Notice was published in the **Federal Register** (47 FR 51178), that an application had been filed with the National Marine Fisheries Service, by Mr. Richard Flyer, 5484 Reservoir Road, Apt. B39, San Diego, California 92120, for a permit to take by harassment Pacific pilot whales over a two year period for the purpose of scientific research.

Notice is hereby given that on December 21, 1982, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit for the above taking subject to certain conditions set forth therein.

The Permit is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: December 21, 1982.

Richard B. Roe,

Acting Director, Office of Protected Species and Habitat Conservation, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Receipt of Application for General Permit

Notice is hereby given that the following application has been received to take marine mammals incidental to the pursuit of commercial fishing operations within the U.S. fishery conservation zone, as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), and the regulations thereunder.

The Embassy of the Republic of Korea has applied for a Category 1: "Towed or Dragged Gear" general permit to incidentally take 100 otariid seals, 100 phocid seals, and 50 cetaceans within the U.S. fishery conservation zone in 1983.

The application is available for review in the Office of the Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.

Interested parties may submit written views on the application within 30 days of the date of this notice to the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235.

Dated: December 21, 1982.

Richard B. Roe,

Acting Director, Office of Protected Species and Habitat Conservation, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Mid-Atlantic Fishery Management Council; Public Meetings

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: The Mid-Atlantic Fishery Management Council, established by Section 302 of the Magnuson Fishery Conservation and Management Act of 1976 (Pub. L. 94–265), has established a Surf Clam and Ocean Quahog Subpanel, which will meet to discuss alternatives to Amendment No. 4 to the Surf Clam and Ocean Quahog Fishery Management Plan.

DATE: The Meeting will convene at 10:00 A.M. on January 28, 1983 and will adjourn at approximately 4:00 P.M. The meeting may be lengthened or shortened, or agenda items rearranged, depending upon progress of the agenda.

ADDRESS: The meeting will take place at the Sheraton, Route 13, Dover, Delaware 19901, Phone: 302–678–8500.

FOR FURTHER INFORMATION CONTACT: John C. Bryson, Executive Director, Mid-Atlantic Fishery Management Council, Room 2115, Federal Building, 300 South New Street, Dover, DE 19901, Phone: 302–674–2331.

Dated: December 23, 1982.

Joe P. Clem,

BILLING CODE 3510–22–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Establishing Import Restraint Levels for Certain Cotton, Wool, and Man-Made Fiber Textile Products From Republic of Korea Under New Agreement

December 22, 1982.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing the import restraint levels for certain cotton, wool, and man-made fiber textile and apparel products, produced or manufactured in Korea and exported during the twelve-month period which began on January 1, 1982 and extends through December 31, 1982, under a new agreement.

SUMMARY: On December 14, 1982, the Governments of the United States and the Republic of Korea signed an agreement concerning cotton, wool, and man-made fiber textile products, produced or manufactured in Korea, and exported during the six-year period beginning on January 1, 1982, and extending through December 31, 1987. The new agreement establishes ceilings, among other categories, for Categories 333/334, 335, 338/339, 340, 341, 347/348, 353/354/653/654; 433/434, 440, 443, 444, 445/446, 604, 605 pt., 633/634/635, 638/639, 640, 641, 643, 645/646, 648, 659 pt., and 669 pt. for the agreement year which began on January 1, 1982. Accordingly, there is published below a letter from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that entry into the United States for consumption, or withdrawal from warehouse for consumption, of cotton, wool, and man-made fiber textile products in the foregoing categories be limited to the designated amounts during the agreement year which began on January 1, 1982. In accordance with the flexibility provisions of the new agreement the base levels for Categories 353/354/653/654, 443, 605 pt., 633/634/635, 640, and 669 pt. have been adjusted to account for flexibility, as follows. All of the remaining categories affected by this action have been adjusted to include swing.

Category	Base level	Adjustment	Adjusted level
353/354/653/654	210,012 dozen	Deduction for Swing	130,013 dozen.
443	26,838 dozen	Swing	28,180 dozen.
605 pt. (only TSUSA Nos. 316.5500 and 316.5800)	2,000,000 pounds	Swing	2,120,000 pounds.
633/634/635	1,382,921 dozen	Swing and Carryforward	1,424,409 dozen.
(633)	174,684 dozen	Swing and Carryforward	(179,925 dozen).
(634)	804,704 dozen	Swing and Carryforward	(828,845 dozen).
(635)	610,970 dozen	Swing and Carryforward	(629,299 dozen).
640 pt. (only TSUSA Nos. 379.3130, 379.3334, 379.9535, and 379.9540, and 379.9639).	3,729,287 dozen	Deduction for Special Carryforward Applied in 1981 plus Shift.	3,992,216 dozen.
640 pt. (except TSUSA Nos. 379.3130, 379.3334, 379.9535, and 379.9540, and 379.9639).	2,486,191 dozen	Deduction for Carryforward Applied in 1981 plus Shift.	1,873,282 dozen.
669 pt. (only TSUSA Nos. 348.0065, 348.0075, 348.0565 and 348.0575).	1,500,000 dozen	Deduction for Swing	993,302 dozen.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709).

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: December 29, 1982.

FOR FURTHER INFORMATION CONTACT: William J. Boyd, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

December 22, 1982.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229

Dear Mr. Commissioner:

This directive cancels and supersedes the directive of December 14, 1981, as amended, which directed you to prohibit entry of certain specific categories of cotton, wool, and man-made fiber textile products, produced or manufactured in Korea.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; pursuant to the Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of December 14, 1982, between the Governments of the United States and the Republic of Korea; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982 and for the twelve-month period extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, and man-made fiber textile products in Categories, produced or manufactured in Korea, in excess of the indicated levels of restraint:

Category	12-month level of restraint[1]
333/334	59,400.
335	60,654 dozen.
338/339	596,076 dozen.
340	184,266 dozen.
341	14,797 dozen.
347/348	274,694 dozen.

Category	12-month level of restraint[1]
353/354/653/654	130,012 dozen.
433/434	17,613 dozen of which not more than 13,447 dozen shall be in Category 433 and not more than 6,896 dozen shall be in Category 434.
440	217,443 dozen.
443	28,180 dozen.
444	4,121 dozen.
445/446	53,198 dozen.
604	519,878 pounds.
605 pt.[2]	2,120,000 pounds.
633/634/635	1,424,409 dozen of which not more than 179,925 dozen shall be in Category 633; not more than 828,845 dozen shall be in Category 634, and not more than 629,299 dozen shall be in Category 635.
638/639	5,670,912 dozen.
640 pt.[3]	3,992,216 dozen.
640 pt.[4]	1,873,262 dozen.
641	1,050,780 dozen.
643	62,219 dozen.
645/646	3,282,736 dozen.
648	324,813 dozen.
659 pt.[5]	2,411,858 pounds.
669 pt.[6]	993,302 pounds.

[1] The levels of restraint have not been adjusted to account for any imports after December 31, 1981.
[2] In Category 605, only TSUSA numbers 316.5500 and 316.5800.
[3] In Category 640, only TSUSA numbers 379.3130, 379.3334, 379.9535, 379.9540, 379.9639.
[4] In Category 640, all TSUSA numbers in the category except those listed in footnote 3.
[5] In Category 659, only TSUSA numbers 703.0500, 703.1000, and 703.1515.
[6] In Category 669 only TSUSA numbers 348.0065, 348.0075, 348.0565, and 348.0575.

In carrying out this directive, entries of textile products in the foregoing categories, except Categories 604, 605 pt.[1] 648, and 669 pt.[2] which have been exported to the United States on and after January 1, 1981, and extending through December 31, 1981, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during that twelve-month period. In the event the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter. Textile products in Categories 604, 605 pt.[1] 648, and 669 pt.[2] that have been exported prior to January 1, 1982, shall not be subject to this directive.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on December 13, 1982 (47 FR 55709).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of cotton, wool, and man-made textile products from Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

[1] In Category 605, only TSUSA numbers 316.5500 and 316.5800.

[2] In Category 669, only TSUSA numbers 348.0065, 348.0075, 348.0565, and 348.0575.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Additional Import Controls on Certain Cotton Textile Products From Taiwan, Effective on January 1, 1983

December 22, 1982.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Controlling imports of cotton sweaters in Category 345 and cotton nightwear in Category 351, produced or manufactured in Taiwan and exported during the twelve-month period beginning on January 1, 1983, at respective levels of 82,000 dozen and 291,259 dozen.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on December 13, 1982 (47 FR 55709).

SUMMARY: Under the terms of the bilateral agreement of November 18, 1982 concerning cotton, wool, and man-made fiber textile products from Taiwan, the United States Government has decided to control imports of cotton textile products in Categories 345 and 351, produced or manufactured in Taiwan and exported to the United States during the twelve-month period beginning on January 1, 1983, in addition to those categories previously designated. These two categories will also become specific ceilings at these levels.

EFFECTIVE DATE: January 1, 1983.

FOR FURTHER INFORMATION CONTACT: Ronald J. Sorini, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-4212).

SUPPLEMENTARY INFORMATION: On December 22, 1982, there was published in the Federal Register (47 FR 57083) a letter dated December 16, 1982 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, which established levels of restraint for certain specified categories of cotton, wool, and man-made fiber textile products, produced or manufactured in Taiwan, which may by entered into the United States for consumption, or withdrawn from warehouse for consumption, during the twelve-month period beginning on January 1, 1983. In accordance with the terms of the bilateral agreement, the United States Government has decided also to control imports of cotton textile products in Categories 345 and 351, produced or manufactured in Taiwan and exported to the United States during the twelve-month period beginning on January 1, 1983. Accordingly, in the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to prohibit entry for consumption, or withdrawal from warehouse for consumption of cotton textile products in Categories 345 and 351, produced or manufactured in Taiwan and exported during the twelve-month period beginning on January 1, 1983, in excess of 82,000 dozen and 291,259 dozen, respectively.

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

December 22, 1982.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C.

Dear Mr. Commissioner: This directive amends, but does not cancel, the directive issued to you on December 16, 1982 by the Chairman of the Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton, wool, and man-made fiber textile products, produced or manufactured in Taiwan.

Effective on January 1, 1983, the directive of December 16, 1982 is amended to establish specific levels of restraint for cotton textile products in Categories 345 and 351 at the following levels.

Category	Twelve-month level of restraint (dozen)
345	[illegible]
351	291,259

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on December 13, 1982 (47 FR 55709).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the authorities in Taiwan and with respect to imports of cotton textile products from Taiwan have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc 82-35225 Filed 12-28-82; 8:45 am]

BILLING CODE 3510-25-M

Import Levels for Certain Cotton, Wool, and Man-Made Fiber Textile Products From the Republic of the Philippines, Effective on January 1, 1983, Under New Bilateral Agreement

December 22, 1982.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import levels for certain cotton, wool, and man-made fiber textile products imported from the Philippines, effective on January 1, 1983.

SUMMARY: On November 24, 1982, the Governments of the United States and the Republic of the Philippines signed a new four-year Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement beginning on January 1, 1983 and extending through December 31, 1986. The new agreement establishes levels of restraint for cotton, wool, and man-made fiber textile products in Categories 331, 333/334, 335, 336pt., 337pt., 340, 341, 347, 348, 431, 435, 443, 445/446, 604, 631, 635pt., 636pt., 641pt., 645/646, 648pt., 649, and 652pt., among other categories, during the areement year which begins on January 1, 1983 and extends through December 31, 1983. In the letter published below, the Chairman, Committee for the Implementation of Textile Agreements, directs the Commissioner of Customs to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of textile products in the foregoing categories, produced or manufactured in the Philippines and exported during the twelve-month period which begins on January 1, 1983, in excess of the designated levels. As agreed between the two governments, the levels for Categories 337(NT), 341(T), 348(NT), and 645/646pt.(NT) have been reduced to account for carryforward used in 1982.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709).

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1983.

FOR FURTHER INFORMATION CONTACT: Carl Ruths, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-4212).

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; pursuant to the bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of November 24, 1982, between the Governments of the United States and the Republic of the Philippines; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1983 and for the twelve-month period extending through December 31, 1983, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, and man-made fiber textile products in Categories 331, 333/334, 335, 336pt., 337pt., 340, 341, 347, 348, 431, 435, 443, 445/446, 604, 631, 635pt., 636pt., 641pt., 645/646, 648pt., 649, and 652pt., produced or manufactured in the Philippines, in excess of the following levels of restraint:

Category	Twelve-month level of restraint
331	639,301 dozen pairs.
333/334	83,475 dozen.
335 pt.[1]	35,797 dozen.
335 pt.[2]	36,963 dozen.
336 pt.[3]	27,654 dozen.
337 pt.[4]	39,461 dozen.
340	250,294 dozen.
341 pt.[5]	67,369 dozen.
341 pt.[6]	90,739 dozen.
347	260,526 dozen.
348 pt.[7]	205,874 dozen.
348 pt.[8]	229,642 dozen.
431	56,980 dozen pairs.
435	2,216 dozen.
443	2,238 dozen.
445/446	17,949 dozen.
604	2,221,641 pounds.
631	1,700,267 dozen pairs.
635 pt.[9]	220,884 dozen.
636 pt.[10]	42,701 dozen.
641 pt.[11]	185,421 dozen.
645/646 pt.[12]	87,806 dozen.
646 pt.[13]	238,702 dozen.
648 pt.[14]	57,053 dozen.
649	3,899,758 dozen.
652 pt.[15]	60,449 dozen.

[1] In Category 335, all TSUSA numbers except 383.3405, 383.3410, 383.3415, 383.3445, 383.3446, 383.3450, 383.3460, and 383.3465.

[2] In Category 335, only TSUSA numbers listed in footnote 1.

[3] In Category 336, all TSUSA numbers except 383.0308, 383.0815, 383.2920, 383.4816, 383.4820, and 383.4823.

[4] In Category 337 all TSUSA numbers except 383.0335, 383.0830, 383.5035, and 383.5047.

[5] In Category 341, only TSUSA numbers 383.0508, 383.4704, 383.4707, and 383.4711.

[6] In Category 341, all TSUSA numbers except those listed in footnote 5.

[7] In Category 348, only TSUSA numbers 383.0611, 383.0616, 383.2836, 383.4749, 383.4755, 383.4759, and 383.4763.

[8] In Category 348, all TSUSA numbers except those listed in footnote 7.

[9] In Category 635, all TSUSA numbers except 383.8116.

[10] In Category 636 pt., all TSUSA numbers except 383.2016, 383.8622, 383.2315, and 383.9230.

[11] In Category 641, all TSUSA numbers except 383.2215 and 383.9030.

[12] In Category 645/646, all TSUSA numbers except 383.1857 and 383.8070.

[13] In Category 646, only TSUSA numbers 383.1857 and 383.8070.

[14] In Category 648, all TSUSA numbers except 383.1940, 383.8148, 383.2260, and 383.9071.

[15] In Category 652, only TSUSA numbers 378.6030.

In carrying out this directive, entries of textile products in the foregoing categories, except Categories 333/334, 435, 631, 636pt.,[1] 646pt.,[2] and 652pt.,[3] which have been exported to the United States on and after the period beginning on January 1, 1982 and extending through December 31, 1982, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during that twelve-month period. In the event the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter. Textile products in Categories 333/334, 435, 631, 636pt.,[1] 646pt.,[2] and 652pt.,[3] that have been exported prior to January 1, 1983, shall not be subject to this directive.

The levels of restraint are subject to adjustment according to the provisions of the bilateral agreement of November 24, 1982 between the Governments of the United States and the Republic of the Philippines which provide, in parts, that: (1) Specific levels of restraint may be exceeded during the agreement year by designated percentages; (2) specific levels of restraint may be adjusted for carryover and carryforward; and (3) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of the Philippines and with respect to imports of cotton, wool, and man-made fiber textile products from the Philippines have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register.**

[1] In Category 636pt., all TSUSA numbers except 383.2016, 383.8622, 383.2315, and 383.9230.

[2] In Category 646, only TSUSA numbers 383.1857 and 383.8070.

[3] In Category 652, only TSUSA number 378.6030.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Announcing Continuation of Export Visa Requirement for Certain Cotton, Wool, and Man-Made Fiber Textile Products From China

On August 5, 1980 a letter dated August 1, 1980 from the Chairman of the Committee for the Implementation of Texile Agreements to the Commissioner of Customs was published in the **Federal Register** (45 FR 51872), which established an export visa requirement for certain cotton, wool, and man-made fiber textile products, produced or manfactured in China and exported to the United States.

The purpose of this notice is to advise the public that export visas will still be required from January 1, 1983 and until further notice for cotton, wool, and man-made fiber textile products subject to the terms of the Bilateral Cotton, Wool, and Man-Man Fiber Textile Agreement of September 17, 1980, as amended, between the Governments of the United States and the People's Republic of China, which expires on December 31, 1982.

Interested persons are advised to take all necessary steps to ensure that cotton, wool, and man-made fiber textiles and apparel, produced or manufactured in China and exported on and after January 1, 1983, which are to be entered into the United States for consumption, or withdrawn from warehouse for consumption, will continue to meet the established visa requirements.

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

Intent To Prepare a Draft Environmental Impact Statement (DEIS) for Improvements to Navigation at Coquille River, Oregon

AGENCY: Army Corps of Engineers, Department of Defense.

ACTION: Notice of intent to prepare a DEIS.

SUPPLEMENTARY INFORMATION: The Corps of Engineers, Portland District, is currently investigating several alternatives for improvements to navigation at Coquille River, Oregon. Navigation improvements will be recommended to assure project depths in the channel throughout the year, reduce harmful wave activity at the entrance bar and assure a protected and safe entrance. River entrance improvements, channel deepening and channel extension alternatives will be studied in detail to provide a recommended plan of improvement. Our detailed studies will also include analysis of a 500-foot jetty extension at the request of the Port of Bandon. The Environmental Impact Statement (EIS) will be prepared to insure provisions for the quality of both the natural and human environment.

The scoping process will formally commence in January 1983, with the issuance of a public notice containing a draft outline of alternatives and potential effects which will be discussed in the DEIS. Federal, State, and local agencies, Indian tribes, and interested organizations and individuals will be asked to comment on the draft outline and to identify significant issues relating to the effects of the alternatives. The DEIS is scheduled for agency and public review in January 1984. The final EIS is scheduled for publication in the fall of 1984.

ADDRESS: If you have any questions or need additional information, please contact Steve Stevens, (503) 221-6438 (FTS 423-6438), U.S. Army Corps of Engineers, Natural Resources Branch, P.O. Box 2946, Portland, Oregon 97208.

Dated: December 20, 1982.

R. L. Friedenwald,

Colonel, Corps of Engineers, District Engineer.

BILLING CODE 3710-AH-M

DEPARTMENT OF ENERGY

Office of Conservation and Renewable Energy

[Case No. F—005; Docket No. CAS—RM—79—104]

Energy Conservation Program for Consumer Products; Decision and Order Granting Waiver From Furnace Test Procedures to Arkla Industries, Inc.

AGENCY: Office of Conservation and Renewable Energy, DOE.

ACTION: Decision and order

SUMMARY: Notice is given of the Decision and Order (case no. F-005) granting Arkla Industries, Inc. a waiver for its model UR and DR series condensing furnace line from the existing DOE test procedures for furnaces.

FOR FURTHER INFORMATION CONTACT:

Michael J. McCabe, U.S. Department of Energy, Office of Conservation and Renewable Energy, Mail Station CE-113.1, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585 (202) 252-9127.

Eugene Margolis, Esq., U.S. Department of Energy, Office of General Counsel, Mail Station GC-33, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585 (202) 252-9510.

SUPPLEMENTARY INFORMATION:

In accordance with 10 CFR 430.27(g), notice is hereby given of the issuance of the Decision and Order set out below. In the Decision and Order, Arkla Industries, Inc. has been granted a waiver for its models UR and DR condensing warm air furnaces, permitting the company to use an alternate test method and in-house test facilities.

Issued in Washington, D.C., December 20, 1982.

Joseph J. Tribble,

Assistant Secretary, Conservation and Renewable Energy.

Decision and Order of the Department of Energy Assistant Secretary for Conservation and Renewable Energy

[Case No. F-005]

In the Matter of: Arkla Industries, Inc.

Background

The Energy Conservation Program for Consumer Products was established pursuant to the Energy Policy and Conservation Act, Pub. L. 94-163, 89 Stat. 917, as amended by the National Energy Conservation Policy Act, Pub. L. 95-619, 92 Stat. 3266, which requires the Department of Energy (DOE) to prescribe standardized test procedures to measure the energy consumption of certain consumer products, including furnaces. The intent of the test procedures is to provide a comparable measure of energy consumption that will assist consumers in making purchase decisions. These test procedures appear at 10 CFR Part 430, Subpart B.

The Department of Energy amended the prescribed test procedure regulations, by adding § 430.27, to allow the Assistant Secretary for Conservation and Renewable Energy to waive temporarily test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics which prevent testing of the basic model according to the prescribed test procedures or when the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption characteristics as to provide materially inaccurate comparative data. 45 FR 64108 (Sept. 26, 1980).

Pursuant to § 430.27(g), the Assistant Secretary shall publish in the **Federal Register** notice of each waiver granted, and any limiting conditions of each waiver.

Arkla Industries, Inc. (Arkla), filed a "Petition for Waiver" in accordance with § 430.27 of 10 CFR Part 430. DOE published in the **Federal Register** the Arkla petition and solicited comments, data, and information respecting the petition. 47 FR 27957 (June 28, 1982). Notice of the petition for waiver was sent to known manufacturers of domestically marketed condensing furnances, i.e., Lennox Industries and Hydro Therm Inc. Comments were received from Hydro Therm Inc., a manufacturer of furnaces. The comments were sent to the petitioner on August 19, 1982, and no rebuttal comments were submitted by Arkla. DOE consulted with the Federal Trade Commission on August 2, 1982, concerning the petition from Arkla.

Assertions and Determinations

The Arkla petition contends that even though the DOE test procedures for furnaces were amended to allow testing of condensing furnaces, 45 FR 53714 (Aug. 12, 1980), the company's model UR and DR condensing furnace lines, when tested according to those procedures, will yield materially inaccurate comparative data.

The Arkla petition seeks a waiver from the present DOE Test method basing condensation calculations on the average flue gas temperature. Arkla contends that its model UR and DR furnace lines condenses more of the water vapor than is calculated by the DOE test method. In lieu of the current test method, Arkla requests the use of the condensate measuring test method as set forth in Appendix C of the National Bureau of Standards (NBS) Interagency Report 80–2110, "Recommended Testing and Calculation Procedures for Estimating the Seasonal Performance of Residential Condensing Furnaces and Boilers" (hereafter referred to as the alternate test method), dated April 1981, to determine the energy efficiency of its model UR and DR furnace lines.

Arkla further seeks permission to conduct testing using the alternate test method at its in-house test facilities. Such allowance for in-house testing was rejected in a previous Decision and Order on the grounds that the reliability of the alternate test method was suspect. 46 FR 34621 (July 2, 1981). Arkla contends that the alternate test method is of sufficient reliability to permit in-house testing by manufacturers.

The comments from Hydro Therm support Arkla's assertion that the existing condensing furnace test procedures understate the seasonal efficiency of a condensing furnace, such as the Arkla UR and DR condensing furnace. In addition, NBS investigated Arkla's claims and reported that efficency improvement attributable to the condensing mode of operation could be understated as a result of the existing DOE Test procedures. Based on this information, DOE has determined that Arkla should be granted a waiver to use the alternate test method when testing its UR and DR condensing furnaces.

Hydro Therm also supported Arkla's request for in-house testing. Hydro Therm commented that the results of tests conducted at an independent laboratory using the alternate test method were substantially identical to results the company obtained through its own in-house testing. Thus, Hydro Therm states the alternate test method has been shown to be of sufficient reliability to permit "in-house" testing.

Based principally on the statement of Hydro Therm concerning the reliability of the alternate test method, and in order to save the manufacturer time and money, DOE has determined to grant Arkla's request for in-house testing.

It is therefore ordered that:

(1) The "Petition for Waiver" filed by Arkla Industries Inc. is hereby granted as set forth in paragraph (2) below, subject to the provisions of paragraphs (3) and (4).

(2) Notwithstanding any contrary provisions of Appendix N of 10 CFR, Part 430, Subpart B, Arkla Industries Inc. shall be permitted to use in-house test facilities to test its model UR and DR model condensing warm air furnace on the basis of the test procedures specified in 10 CFR, Part 430, with the modifications set forth below:

(i) *Test Conditions.*—(A) The test unit shall be installed according to the requirements given in section 2.

(B) Control devices shall be installed to allow cyclical operation of the unit and return water as described in section 3.3.

(C) The test unit shall be leveled prior to test.

(D) Operation times and the beginning and end of condensate collection shall be determined by a clock or timer with a minimum resolution to one second.

(E) Control of on or off operation actions shall be within ± 6 seconds of the scheduled time.

(F) Condensate drain lines shall be attached to the unit as specified in the manufacturer's installation instructions.

(G) The flue pipe installation must not allow condensate formed in the flue pipe to flow back into the unit. An initial downward slope from the unit's exit, an offset with a drip leg, annular collection rings, or drain holes must be included in the flue pipe installation without disturbing normal flue gas flow (as given in section 2.2), and temperature measurement instrumentation (as given in section 2.6). Flue gases shall not flow out of the drain with the condensate.

(H) Collection-containers must be glass or polished stainless steel, so removal of interior deposits can be easily made.

(I) The collection-container shall have a vent opening to the atmosphere.

(J) The scale for measuring the containers and condensate sample mass shall be calibrated with an error no larger than ±0.5 percent over the range of interest.

(ii) *Test Method.*—(A) The condensing furnace is to have steady-state, cool-down, and heat-up tests conducted in accordance with the procedures for non-condensing units given in section 3, using the flue gas, air or water flow, and room ambient conditions given in section 2 of the condensing furnace test procedure.

(B) The condensate collection containers shall be dried prior to each use and be at room ambient temperature prior to a sample collection.

(C) Tare weight of the collection-container must be measured and recorded prior to each sample collection.

(D) Operating times for on and off periods at 22.5 percent on time schedule shall be: 3 minutes 52 seconds on and 13 minutes 20 seconds off for warm air furnaces.

(E) The unit should be operated in a cyclical manner until flue gas temperatures at the end of each on period are within 50°F (2.8°C) of each other for two consecutive cycles.

(F) Begin the three test cycles.

(G) Return air temperature for furnaces shall be equal to those required for steady-state test periods, and shall remain within the limits given in the existing test procedure.

(H) Begin condensate collection at one minute before start up of the first test on-period.

(I) Three cycles later, the container shall be removed at the end of the cool down cycle one minute prior to the beginning of what would be the fourth cycle period.

(J) Condensate mass shall be measured immediately at the end of the collection period to prevent evaporation loss from the sample.

(K) Fuel input shall be recorded during the entire test period starting at the beginning of the on-time of the first cycle to the beginning of the on-time of the second cycle, etc., for each of the three test cycles. Fuel Higher Heating Value (HHV), temperature and pressures necessary for determining fuel energy input, Q_c, will be observed and recorded. The fuel quantity and HHV shall be measured with errors no greater than one percent.

(iii) *Calculating the condensing Annual Fuel Utilization Efficiency (AFUE).*—(A) Determine the Mass of Condensate for three cycles, m_c, by subtracting the tare container weight from the total container and condensate weight at end of the three cycles of operations.

(B) Calculate the fuel energy input during the three cycles, Q_c, in Btu/(3 cycles).

(C) Calculate the heat gain due to condensation, L_G, in percent by the following equation:

$$L_G = \frac{m_c(\text{lbm}/(3\text{ cycle})) \times 1053.3(\text{Btu}/\text{lbm}) \times 100}{Q_c(\text{Btu}/(3\text{ cycles}))}$$

(D) Calculate the loss, L_c, due to hot condensate going down the drain, correcting the fact that this condensate did not go up the flue as heated vapor.

$$L_c = \frac{L_G[1.0(T_{f.\,ss} - 70) - .45(T_{f.\,ss} - 42)]}{1053.3}$$

(E) Calculate the condensing AFUE by adding the percent heat gain due to condensing, L_G, to the previously calculated non-condensing AFUE and by subtraction L_c.

$$AFUE_c = AFUE_{NC} + L_G - L_c$$

(iv) With the exception of the modifications set forth in subparagraphs (i), (ii) and (iii) above, Arkla Industries Inc. shall comply in all respects with the test procedures specified in Appendix N of 10 CFR, Part 430, Subpart B.

(3) The waiver shall remain in effect from the date of issuance of this order until the Department of Energy prescribes final test procedures appropriate to the type of condensing warm air furnace manufactured by Arkla Industries Inc.

(4) This waiver is based upon the presumed validity of statements, allegations, and documentary materials submitted by the applicant and commenters. This waiver may be revoked or modified at any time upon a determination that the factual basis underlying the application is incorrect.

Issued in Washington, D.C., December 20, 1982.

Joseph J. Tribble,

Assistant Secretary, Conservation and Renewable Energy.

[FR Doc. 82-35219 Filed 12-28-82; 8:45 am]

BILLING CODE 6450-01-M

Economic Regulatory Administration

Columbia Gas System, Inc.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of action taken on Consent Order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces that it has adopted a Consent Order with Columbia Gas System, Inc. (Columbia) as a final order of the Department.

EFFECTIVE DATE: November 22, 1982.

FOR FURTHER INFORMATION CONTACT: David H. Jackson, Director, Kansas City Office, Economic Regulatory Administration, 324 East 11th Street, Kansas City, Missouri 64106–2466, (816) 374–2092.

SUPPLEMENTARY INFORMATION: On October 5, 1982, 47 43999, the ERA published a notice in the **Federal Register** that it executed a proposed Consent Order with Columbia Gas System, Inc. of Wilmington, Delaware, on September 24, 1982 which would not become effective sooner than 30 days after publication of that notice. The Consent Order settles alleged regulatory violations brought by the Department of Energy (DOE) against Columbia, involving natural gas liquid and natural gas liquid product price overcharges by Columbia's subsidiaries Columbia Hydrocarbon Corporation and Columbia Gas Transmission Corporation during the period September 1, 1973 through January 27, 1981. Under the terms of the Consent Order, Columbia agrees to pay $800,000 to customers listed in the Consent Order and $5,000 in civil penalties.

Pursuant to 10 C.F.R. 205.199J(c), interested persons were invited to submit comments concerning the terms and conditions of the proposed Consent Order. Three comments were received. Each proposed an alternative method of distributing the funds to be paid by Columbia under the terms of the Proposed Consent Order. Each comment suggested that funds remaining, if any, after restitution to purchasers as required in the Consent Order be distributed to the States for redistribution.

ERA considered these comments; but, because there is no reason to believe that the funds cannot be fully distributed to the purchasers identified in the Order, and because in the event that a portion remained undistributed, the amount is likely to be too insubstantial to justify the administrative burden and the expense of determining and making proper allocation to the States, the ERA determined that deposit in the United States Treasury would be an appropriate disposition of any undistributed funds.

Issued in Kansas City on the 2d day of December, 1982.

David H. Jackson,

Director, Kansas City Office, Economic Regulatory Administration.

BILLING CODE 6450-01-M

RECO Petroleum, Inc.; Proposed Remedial Order

Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration (ERA) of the Department of Energy hereby gives notice of a Proposed Remedial Order which was issued to Reco Petroleum, Inc., 100 North 4th Street, Reading, Pennsylvania 19603. This Proposed Remedial Order charges Reco with pricing violations in the amount of $172,502.00, exclusive of interest, in connection with the sale of motor gasoline at its company operated retail stations during the period March 1, 1979 through September 30, 1979.

A copy of the Proposed Remedial Order, with confidential information deleted, may be obtained from Robert J. McKee, Jr., Director, Philadelphia Field Office, ERA, (215) 597–2633. Within 15 days of publication of this notice, any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals, 12th & Pennsylvania Avenue, Washington, D.C. 20461, in accordance with 10 CFR 205.193.

Issued in Philadelphia, Pennsylvania on the 7th day of December, 1982.

Robert J. McKee, Jr.,

Director, Philadelphia Field Office, ERA.

[FR Doc. 82-35215 Filed 12-28-82; 8:45 am]

BILLING CODE 6450-01-M

[Docket No. ERA-FC-82-38; FC Case No. 67047-9224-01-24]

Sunlaw Energy Corp.; Acceptance of Petition

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of acceptance of petition for exemption and availability of certification by Sunlaw Energy Corporation.

SUMMARY: On November 22, 1982, the Sunlaw Energy Corporation, hereinafter referred to as petitioner, filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) requesting a permanent cogeneration exemption for an electric powerplant from the prohibitions of Title II of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8301 *et seq.*) ("FUA" or "the Act"). Title II of FUA prohibits the use of petroleum and natural gas as a primary energy source in new powerplants and certain new major fuel burning installations. Final rules setting forth criteria and procedures for petitioning for exemptions from the prohibitions of Title II of FUA were published in the **Federal Register** at 46 FR 59872 (December 7, 1981) ("final rules"). A revised final rule governing eligibility and evidentiary requirements for the cogeneration exemption was issued on June 25, 1982 (47 FR 29209 (July 6, 1982)).

The proposed powerplant for which the petition was filed is a 25.2 megawatt (NW) combined cycle cogeneration facility capable of using natural gas or No. 2 distillate oil, and designed to produce electricity and a refrigerant at the petitioner's plant located in Vernon, California.

It is expected that more than fifty percent of the net annual electric power generation of the petitioner's turbine generator will be sold to Southern California Edison Company (SCE), making the cogeneration facility an electric powerplant pursuant to 10 CFR 500.2.

ERA has determined that the petition appears to include sufficient evidence to support an ERA determination, and is therefore accepted pursuant to 10 CFR 501.3. A review of the petition is provided in the SUPPLEMENTARY INFORMATION section below.

As provided for in sections 701(c) and (d) of FUA and 10 CFR 501.31 and 501.33 of the final rules, interested persons are invited to submit written comments in regard to this petition and any interested person may submit a written request that ERA convene a public hearing.

The public file containing a copy of this Notice of Acceptance and Availability of Certification as well as other documents and supporting materials on this proceeding are available upon request through DOE, Freedom of Information Reading Room, 1000 Independence Avenue, SW., Room 1E–190, Washington, D.C. 20585, Monday through Friday, 8:00 a.m. to 4:00 p.m. ERA will issue a final order granting or denying the petition for exemption from the prohibitions of the Act within six months after the end of the period for public comment and hearing, unless ERA extends such period. Notice of any such extension, together with a statement of reasons therefor, would be published in the **Federal Register.**

DATES: Written comments are due on or before February 14, 1983. A request for a public hearing must be made within this same 45-day period.

ADDRESS: Fifteen copies of written comments or a request for a public hearing shall be submitted to: Case Control Unit, Office of Fuels Programs, Room GA–093, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C. 20585. "Docket No. ERA–FC–82–36" should be printed on the outside of the envelope and the document contained therein.

FOR FURTHER INFORMATION CONTACT:

Roland DeVries, Office of Fuels Programs, Economic Regulatory Administration, Forrestal Bldg., Room GA–093, 1000 Independence Avenue, SW., Washington, D.C. 20585, Phone (202) 252–6002

Allan Stein, Esq., Office of General Counsel, Department of Energy, Forrestal Bldg., Room 6B–222, 1000 Independence Avenue, SW., Washington, D.C. 20585, Phone (202) 252–2967

SUPPLEMENTARY INFORMATION: The petitioner proposes to install a 21.5 MW gas-fired combustion turbine, with the capability of burning distillate oil as a backup fuel, at its plant located in Vernon, California. An unfired heat recovery steam generator will produce 65,000 pounds/hour of steam, which will be used to generate 3.7 MW of power in an extraction steam turbine and provide low pressure steam to an absorption chiller. All the electric power generated will be sold to the Southern California Edison Company, and the refrigerant will be sold to the U.S. Growers Cold Storage and Pacific Cold Storage facilities.

The cogeneration facility is classified as a powerplant under FUA because more than 50 percent of its net annual electric power generation will be sold.

Section 212(c) of the Act provides for a permanent cogeneration exemption from the prohibitions of Title II of FUA. In accordance with the certification procedures of 10 CFR 503.37(a)(1), the petitioner certified that:

1. The oil or gas to be consumed by the cogeneration facility will be less than that which would otherwise be consumed in the absence of the cogeneration facility, where the calculation of savings is in accordance with 10 CFR 503.37(b); and

2. The use of a mixture of petroleum and natural gas and an alternate fuel in the cogeneration facility for which an exemption under 10 CFR 503.38 would be available, would not be economically or technically feasible.

In accordance with the evidentiary requirements of 10 CFR 503.37(c), the petitioner has also included as part of its petition:

1. Exhibits containing the basis for the certifications described above; and

2. An environmental impact analysis, as required under 10 CFR 503.13.

Pursuant to 10 CFR 501.3, ERA hereby accepts the petitioner's petition for a permanent cogneration exemption. ERA retains the right, however, to request additional relevant information from the petitioner at any time during the pendency of these proceedings. As provided in 10 CFR 501.3(b)(4), acceptance of this petition by ERA does not constitute a determination that the petitioner is entitled to the exemption requested. That determination will be based on the entire record of these proceedings, including any comments received during the public comment period provided for in this notice.

Issued in Washington, D.C. on December 22, 1982.

Robert L. Davies,

Deputy Director, Office of Fuels Programs, Economic Regulatory Administration.

[FR Doc. 82–35217 Filed 12–28–82; 8:45 am]

BILLING CODE 6450–01–M

[Docket No. ERA–FC–82–033; OFP Case No. 65007–9075–05–12]

Mobay Chemical Corp.; Acceptance of Petition

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of acceptance of petition for exemption and availability of certification.

SUMMARY: On November 24, 1982, Mobay Chemical Corporation, hereinafter referred to as petitioner, filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) requesting a permanent cost exemption from the prohibitions of Title II of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8301 *et seq.*) ("FUA" or "the Act"). Title II of FUA prohibits the use of petroleum and natural gas as a primary energy source in certain new major fuel burning installations (MFBI's). Final rules setting forth criteria and procedures for petitioning for exemptions from the prohibitions of Title II of FUA were published in the **Federal Register** at 46 FR 59872 (December 7, 1981). Eligibility and evidentiary requirements governing the permanent cost exemption are contained in 10 CFR 503.32.

The proposed MFBI for which the petition is filed is a package boiler (designated as Unit #5) burning natural gas, to be installed at the petitioner's Baytown Plant located in Chambers County, Texas.

ERA has determined that the petition appears to include sufficient evidence to support an ERA determination, and is therefore accepted pursuant to 10 CFR 501.3. Pursuant to this section, ERA retains the right to request additional information from the petitioner at any time during the course of these proceedings. A review of the petition is provided in the **SUPPLEMENTARY INFORMATION** section below.

As provided for in section 701(c) and (d) of FUA and 10 CFR 501.31 and 501.33, interested persons are invited to submit written comments in regard to this petition and any interested person may submit a written request that ERA convene a public hearing.

The public file containing a copy of this Notice of Acceptance and Availability of Certification as well as other documents and supporting material on this proceeding are available upon request through the DOE Freedom of Information Reading Room, Room 1E–190, 1000 Independence Avenue, SW., Washington, D.C. 20585, Monday through Friday, 8:00 a.m. to 4:00 p.m. ERA will issue a final order granting or denying the petition for exemption from the prohibitions of the Act within six months after the end of the period for public comment and hearing, unless ERA extends such period. Notice of any such extension,

together with a statement of reasons therefor, would be published in the Federal Register.

DATES: Written comments or a request for public hearing concerning this petition are due on or before February 14, 1983.

ADDRESS: Fifteen copies of written comments or a request for a public hearing shall be submitted to: Department of Energy, Economic Regulatory Administration, Office of Fuels Programs, Case Control Unit, Room GA–093, Forrestal Bldg., 1000 Independence Avenue, SW., Washington, D.C. 20585.

Docket No. ERA–FC–82–033 should be printed on the outside of the envelope and the document contained therein.

FOR FURTHER INFORMATION CONTACT:

William H. Freeman, Office of Fuels Programs, Economic Regulatory Administration, Forrestal Bldg., Room GA–093, 1000 Independence Avenue, S.W., Washington, D.C. 20585, Phone (202) 252–2993.

Marya Rowan, Esq., Office of General Counsel, Department of Energy, Forrestal Bldg., Room 6B–222, 1000 Independence Avenue, S.W., Washington, D.C. 20585, Phone (202) 252–2967.

SUPPLEMENTARY INFORMATION: Title II of the Act prohibits the use of natural gas and petroleum as a primary energy source in certain new MFBI's unless an exemption from the prohibitions stated therein has been granted by ERA. The petitioner proposes to install a package boiler, Unit #5, at its Baytown Plant located in Chambers County, Texas. Unit #5 will have a maximum fuel heat input rate of 236 MM Btu per hour and will be used primarily to provide secure peak steam generating capacity; the primary energy source will be natural gas.

Section 212(a)(1)(A)(ii) of the Act provides for a permanent exemption due to lack of an alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum. In accordance with 10 CFR 503.32(b) which implements that section, the petitioner has provided ERA with duly executed certifications stating that (a) A good faith effort has been made to obtain an adequate and reliable supply of an alternate fuel for use as a primary energy source of the quality and quantity necessary to conform with the design and operational requirements of the unit; (b) the cost of using such a supply would substantially exceed the cost of using imported petroleum as a primary energy source during the useful life of the proposed unit; and (c) the use of mixtures is not feasible as required under 10 CFR 503.9. In accordance with the other evidentiary requirements of 10 CFR 503.32(b), the petitioner has also included exhibits containing the bases for its certifications; the environmental impact analysis required under 10 CFR 503.13; the fuels search required under 10 CFR 503.14; and all data required under 10 CFR 503.6, necessary for computing comparative fuel cost using the formula for cost calculations, set forth therein.

In processing this exemption, ERA will comply with the requirements of the National Environmental Policy Act of 1969 (NEPA); the Council on Environmental Quality's implementing regulations 40 CFR § 1500 *et seq.;* and DOE's guidelines implementing those regulations, published at 45 FR 20694 on March 28, 1980. NEPA compliance may involve the preparation of (1) An Environmental Impact Statement (EIS); (2) an Environmental Assessment; or (3) a memorandum to the file finding that the grant of the requested exemption would not be considered a major federal action significantly affecting the quality of the environment. If an EIS is determined to be required, ERA will publish a Notice of Intent to prepare an EIS in the Federal Register as soon as practicable. No final action will be taken on the exemption petition until NEPA compliance has been completed.

The acceptance of the petition by ERA does not constitute a determination that the petitioner is entitled to the exemption requested. That determination will be based on the entire record of these proceedings, including any comments received during the public comment period provided for in this notice.

Issued in Washington, D.C. on December 17, 1982.

James W. Workman,

Director, Office of Fuels Programs, Economic Regulatory Administration.

BILLING CODE 6450–01–M

Vessels Gas Processing Co. and Vessels Gas Processing, Ltd.; Proposed Remedial Order

Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration hereby gives notice of a Proposed Remedial Order which was issued to Vessels Gas Processing Company and Vessels Gas Processing, Ltd., of Denver, Colorado.

The Proposed Remedial Order charged these affiliated companies with pricing violations in the amount of $1,883,155.91, plus accrued interest in sales of propane and natural gas liquids during the period of September 1, 1973 through December 31, 1977.

A copy of the Proposed Remedial Order, with confidential information deleted, may be obtained from David H. Jackson, Director, Kansas City Office, Economic Regulatory Administration, 324 East 11th Street, Kansas City, Missouri 64106–2466. Within 15 days of publication of this notice, any aggrieved person may file a Notice of Objections with the Office of Hearings and Appeals, 12th & Pennsylvania Avenue, N.W., Washington, D.C. 20461, in accordance with 10 CFR 205.193.

Issued in Kansas City, Missouri on the 1st day of December, 1982.

David H. Jackson,

Director, Kansas City Office, Economic Regulatory Administration.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. GP83–7–000]

Amoco Production Co.; Petition of Amoco Production Company for Expedited Issuance of a Declaratory Order To Remove Uncertainty

December 22, 1982.

Take notice that on December 16, 1982, Amoco Production Company (Amoco) filed a "Petition For Expedited Issuance of a Declaratory Order To Remove Uncertainty." Amoco requests the Commission to determine on an expedited basis whether the commitment of gas reserves to its interstate pipeline purchaser limits the reserves committed and dedicated to interstate commerce to the volumes stated in the contract with that purchaser.

Amoco characterizes its petition as a request that the Commission remove an uncertainty which Amoco claims exists as a result of footnote 4 on page 4 of the Federal Energy Regulatory Commission's (FERC) "Order Determining High Cost Gas and Prescribing Incentive Price Under Section 107 of the NGPA" issued on September 22, 1982, in Docket No. GP82–27–000. 20 FERC ¶ 61,330. Amoco asserts that the footnote creates uncertainty with respect to whether allegations may be made in the future that gas sold in intrastate commerce to purchasers other than Natural Gas Pipeline Company of America (NGPL) by Amoco from the Old Ocean Field, Brazoria and Matagorda Counties, Texas, was committed or dedicated to interstate commerce on November 8, 1978, and subject the

FERC's jurisdiction uder the Natural Gas Act.

Amoco claims that notice of its petition is not necessary because it is a request for clarification of an order in a proceeding to which intervention has already been granted all interested parties. Because Amoco's petition requests resolution of an issue that was not addressed in that proceeding, the petition has been given a separate docket number, and notice of petition is hereby given.

Amoco requests expedited considerations of its petition because it claims that the uncertainty it seeks to alleviate jeopardizes the initiation of the time-sensitive nitrogen injection project which it seeks to commence in the Larsen Reservoir of the Old Ocean Field.

Any person desiring to be heard or to protest this petition should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before January 12, 1983. Answers to Amoco's Petition should be filed no later than January 28, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the petition are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-35198 Filed 12-28-82; 8:45 am]

BILLING CODE 6717-01-M

Iowa Public Service Co.; Notice of Extension of Time

[Docket No. ER83-164-000]

December 22, 1982.

On December 20, 1982, the City of Estherville, Iowa (Estherville) filed a motion for an extension of time to file motions to intervene and protests in response to the Commission's Notice of Filing issued December 8, 1982, in the above-docketed proceeding. The motion states that additional time is required because Estherville only recently retained counsel to represent the city in this proceeding and because of a delay in Estherville's receipt of a copy of the Commission's notice.

Upon consideration, notice is hereby given that an extension of time for the filing of protests and petitions to intervene is granted to and including December 29, 1982.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register.**

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 mile rule)
102–3: New well (1000 ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal seams
107–DV: Devonian shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[OPTS–42019; TSH–FRL#2246–8]

Acetonitrile; Response to the Interagency Testing Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In the Fourth Report of the Interagency Testing Committee (ITC) the ITC designated acetonitrile for priority consideration for health effects testing. Subsequent to the publication of the ITC report, the National Toxicology Program (NTP) began testing acetonitrile for chronic and mutagenic effects. In addition, the American manufacturers of acetonitrile presented to the EPA a plan for additional mutagenicity and teratogencity testing of acetonitrile. EPA believes that the collective testing activities of the NTP and the acetonitrile manufacturers respond adequately to all of the ITC recommendations other than that for an epidemiological study. EPA believes that requiring such a study is not warranted at this time. Therefore, the Agency is not, at this time, initiating rulemaking under section 4(a) of the Toxic Substances Control Act (TSCA) to require health effects testing of acetonitrile. This notice constitutes the Agency's response to the designation of acetonitrile by the ITC, as required by section 4(e) of TSCA. EPA seeks comment on the Agency's conclusions and on the adequacy of the proposed testing program.

DATE: All comments should be submitted on or before February 14, 1983.

ADDRESS: Written comments should refer to the document control number OPTS–42019 and should be submitted in triplicate to: Document Control Officer (TS–793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E–401, 401 M St. SW., Washington, D.C. 20460.

The administrative record supporting this action is available for public inspection in Rm. E–107 at the above address from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: Douglas G. Bannerman, Acting Director, Industry Assistance Office (TS–799), Office of Toxic Substances, Environmental Protection Agency, Rm. E–511, 401 M St. SW., Washington, D.C. 20460, Toll Free: (800–424–9065); in Washington, D.C.: (554–1404); outside the USA: (operator 202–554–1404).

SUPPLEMENTARY INFORMATION:

I. Background

Section 4(a) of TSCA (Pub. L. 94–469, 90 Stat. 2006; 15 U.S.C. 2601 *et seq.*) authorizes the EPA to promulgate regulations requiring testing of chemical substances and mixtures in order to develop data relevant to determining the risks that such chemicals may present to health and the environment. Section 4(e) of TSCA established an Interagency Testing Committee (ITC) to recommend to the EPA a list of chemicals to be considered for the promulgation of testing rules under section 4(a) of the Act.

The ITC placed acetonitrile on its priority testing list in June, 1979 (44 FR 31866). The ITC recommended testing of acetonitrile for carcinigenicity, mutagenicity, teratogenicity, and other chronic effects and also recommended epidemiology studies.

Acetonitrile is a polar molecule with a high dielectric constant. Its molecular formula is $H_3C–C{\equiv}N$. The annual production of acetonitrile for 1980 was reported to be 25.2 million pounds (Ref. 1). The Agency believes, however, that actual acetonitrile production is greater than the annual reported production because a significant portion of the total acetonitrile production is disposed of in unisolated form (Ref. 1).

The physical properties of acetonitrile make this chemical well-suited for use as a polar solvent. Thus, the commercial uses of acetonitrile utilize its solvent properties either in the separation of olefin-diolefin mixtures, as a reaction medium or intermediate for the synthesis of pharmaceuticals and pesticides, or in the crystallization of a variety of chemicals. The major commercial application for acetonitrile is as a solvent for the extractive distillation of butene-butadiene mixtures yielding high purity butadiene suitable for polymerization (Ref. 1).

Human exposure to acetonitrile appears to be limited to the workplace. The National Institute for Occupational Safety and Health (NIOSH) estimated that 25,671 workers may be exposed to acetonitrile (Ref. 2). According to NIOSH most occupational exposures to nitriles result from inhalation of vapor or aerosols, or from dermal contact (Ref. 3). The American Conference of Governmental Industrial Hygenists (ACGIH) recommended Threshold Limit Value (TLV) for workplace exposure, based on acute effects, is 40 ppm (Ref. 4). There does not appear to be any significant exposure to the general population as a result of manufacturing, processing, use, distribution or disposal of acetonitrile (Ref. 5). The Agency has no evidence that acetonitrile is contained in consumer products (Ref. 6).

II. Testing Subsequent to ITC Recommendations

Monsanto Company conducted a teratogenicity study of acetonitrile in mated Charles River rats (Ref. 7). Daily dosage levels of 125, 190, and 275 mg/kg were administered by gavage on days six to 19 of qestation at a constant volume of 10 ml/kg/day. Maternal deaths, reduced maternal body-weights and embryotoxic effects were reported for the high dose group. No teratogenic responses were observed at any of the three dose levels.

In a study by Willhite (in press), pregnant hamsters were exposed to

acetonitrile by inhalation, ingestion, or intraperitoneal injection (Ref. 8). On the eighth day of gestation, inhalation of 1,800 or 3,800 ppm acetonitrile for 60 minutes failed to induce malformations in the offspring, whereas inhalation of 5,000 or 8,000 ppm acetonitrile was associated with the production of severe axial skeletal (dysraphic) disorders. A single oral or intraperitoneal dose of 100, 200, 300 or 400 mg/kg acetonitrile in hamsters of equivalent gestational age also caused malformations identical to those noted following inhalation exposure. Some dams exposed to the highest concentrations or doses of acetonitrile displayed overt signs of poisoning.

In addition, the Agency is aware of an ongoing teratogenic study at Duquesne University by Edward G. Hyde, Jr. in which mice are being exposed to acetonitrile via intraperitoneal administration. Although verbal communications between Mr. Hyde and the Agency has provided some information on the protocol being used in this study, complete written documentation of the protocol and results will not be available to the Agency until the end of 1982 (Ref. 9).

The National Toxicology Program (NTP) is performing studies on subchronic toxicity and mutagenicity of acetonitrile. The 90-day subchronic toxicity study being performed by NTP is using inhalation as the route of exposure to both rats and mice. At each of the following atmospheric concentrations: 25 ppm, 50 ppm, 100 ppm, 200 ppm, and 400 ppm, 10 animals per sex per species will be exposed to the test atmosphere six hours per day, five days per week, for 13 weeks (Ref. 10). The results of this study will be available in January 1983 (Ref. 11). After evaluation of the data, NTP may perform a full bioassay of acetonitrile, but NTP will not commit resources to this study until subchronic and mutagenicity data are evaluated and a priority for carcinogenicity testing has been determined.

The NTP mutagenicity testing includes an Ames bioassay using *Salmonella, in vitro* cytogenetic testing for chromosomal aberrations with Chinese Hamster ovary cells, sister chromatic exchange using Chinese Hamster ovary cells, and tests for sex-linked recessive lethal and reciprocal translocation effects using *Drosophila*. The results of the NTP mutagenicity testing, expected in early 1983, will be obtained by the EPA when available (Ref. 12).

III Proposed Testing

In June 1982, E. I. Dupont de Nemours and Company, Incorporated; Monsanto Chemical Intermediates Company, and the Vistron Corporation presented to the EPA a detailed testing proposal for a eukaryotic cell gene mutation study of acetonitrile using Chinese Hamster ovary cells (Ref. 13).

In October 1982, the above named acetonitrile manufacturers presented to the EPA a detailed testing proposal for a teratology study of acetonitrile using rabbits as the test species and gavage as the route of administration. (Ref. 14.)

These tests would be initiated upon final approval of this program by the EPA. The Agency's final approval of this program is contingent upon identification of the laboratory that would perform each study, receipt and approval of the protocols to be used in in conducting each study, and evaluation of all comments received on the Agency's conclusions and on the adequacy of the proposed testing program presented in this notice.

In conducting the mutagenicity and teratology studies, industry has agreed to adhere to the Good Laboratory Practice Standards issued by the Food and Drug Administration (43 FR 60013). The industry has also agreed to permit laboratory audit/inspections in accordance with the procedures outlined in TSCA section 11, at the request of authorized representatives of the EPA. These inspections may be conducted for purposes which include verification that testing has begun, that schedules are being met, that reports accurately reflect the raw data, and that the studies are being conducted according to Good Laboratory Practice Standards. EPA will also approve all test protocols and the companies will supply EPA with the data as soon as they become available.

In addition, industry has agreed that all raw data, documentation, records, protocols, specimens, and reports generated as a result of the studies will be retained as specified in the proposed TSCA Good Laboratory Practice Standards (44 FR 27334) and made available during an inspection or submitted to EPA if requested by EPA or its authorized representative.

Industry understands that TSCA section 14(b)(1)(A)(ii) governs Agency disclosure of all test data submitted pursuant to this agreement.

The Agency plans to publish quarterly in the **Federal Register** a notice of the receipt of any test data submitted under this agreement. Subject to TSCA section 14, the notice will provide information similar to that described in TSCA section 4(d). Except as otherwise provided in TSCA section 14, such data will be made available by the EPA for examination by any person.

Finally, industry understands that failure to conduct the testing according to the specified protocols or failure to follow Good Laboratory Practices may invalidate the tests. In such cases, a data gap may still exist, and the Agency may decide to promulgate a test rule or otherwise require further testing.

The companies also have agreed to meet with the Agency and determine the need for oncogencity or other further testing of acetonitrile upon completion of the ongoing NTP mutagenicity and subchronic toxicity testing and the industry-sponsored teratogenicity and mutagenicity testing. This decision would be made in 1983 after all parties have analyzed the data. In the event that test results indicate a need to perform additional testing that the companies are unwilling to perform, the Agency can promulgate a test rule.

IV. Decision Not To Initiate Rulemaking

The Agency's reasons for not initiating rulemaking to require the testing recommended by the ITC are outlined below.

1. *Teratogenicity*. Teratogenicity testing of acetonitrile has been completed using two species, the rat and hamster, and is being conducted in a third species, the mouse (see unit II.).

The Monsanto study (see unit II.), which found no evidence of malformation in rats, conforms to EPA's TSCA guidelines (Ref. 15) and the Organisation for Economic Cooperation and Development (OECD) guidelines (Ref. 16). It is considered by the Agency to be an adequate teratology study.

The Willhite study (see unit II.), using hamsters, is considered inadequate for Agency use to fully assess the teratogenic potential of acetonitrile because acetonitrile was administered only on a single day (day 8) of gestation and because positive effects were observed only at dose levels which induced maternal toxicity. As a result, a No Observed Effect Level (NOEL) can only be determined for a single day of gestation and cannot be determined for the major period of organogenesis. Both the OECD and TSCA test guidelines recommend exposure to a test agent throughout the major period of organogenesis, which in the hamster is days 6–14. In addition, it cannot be determined if lower, non-maternally toxic dose levels administered on more than one day of gestation would result in similar teratogenic events.

Based on information obtained through verbal communication the Hyde study (see unit II.), using the mouse appears to be similarly flawed in that it too does not provide for dosing the test

animals over the major period of organogenesis. Also, the Hyde study apparently has only three animals per dose group and uses a route of administration, intraperitoneal, that may persent problems in interpreting the data. The Hyde study may, however, provide the agency with additional information on species sensitivity to acetonitrile as a teratogenic agent.

Because teratogenicity data are adequate for only one species, the rat, and the OECD and TSCA test guidelines recommend adequate data in at least two mammalian species, the Agency concluded that there are insufficient data available on acetonitrile to prepare an adequate teratogenic evaluation.

The teratogenicity testing to be conducted by the manufacturers of acetonitrile (see unit III.) will provide teratogenicity data for a second mammalian species. The acetonitrile manufacturers propose to use rabbits as the test species and gavage as the route of administration.

Rats and rabbits are the recommended species for teratogenicity testing in both the OECD and TSCA test guidelines. Willhite's observation of teratogenic effects in the hamster following exposure to acetonitrile might suggest using the hamster for further teratogenicity testing of acetonitrile, since sensitivity of the species to this chemical has been demonstrated. On the other hand, the hamster is used infrequently for teratogenicity studies and the resulting lack of an historical data base on the species would make interpretation of the test data less sure than for data obtained in the rabbit. Depending on the outcome of Hyde's study, the mouse might be considered the species of choice for further evaluation of acetonitrile's teratogenic potential. EPA will consider the outcome of the Hyde study and any comments received in response to this Notice in reaching a final conclusion on the appropriate species for further teratogenicity testing of acetonitrile.

The willhite study has demonstrated that exposure to acetonitrile via gavage and inhalation produce similar teratogenic effects. As a result, the use of gavage as the route of administration in lieu of inhalation, the primary route of acetonitrile exposure to workers, is scientifically appropriate and les expensive.

The Monsanto study, in conjunction with the teratogenicity testing to be conducted by the manufacturers of acetonitrile, will provide the teratogenicity data for two mammaliam species that EPA would have normally required under a section 4 test rule. These data will be sufficient to reasonably determine or predict the teratogenic potential of acetonitrile. Therefore, it is not necessary for EPA to initiate rulemaking to require teratogencity testing of acetonitrile.

2. *Mutagenicity.* The mutagenicity testing being performed by NTP (see unit II.) with the exception of a eukaryotic cell gene mutation study, will complete the first tier battery and provide the mutagenicity data that EPA would have normally required under a section 4 test rule. The eukaryotic cell gene mutation study to be conducted by the manufacturers of acetonitrile (see unit III.) will complete this first tier battery. In addition, a provision is contained in the industry testing proposal that provides for EPA and industry to evaluate the need for further matagenicity testing at the conclusion of the NTP and industry-sponsored mutagenicity testing. In view of the ongoing and proposed tests, further mutagencity testing is unnecessary at this time.

3. *Chronic Effects.* For the purposes of TSCA section 4, EPA believes that properly conducted subchronic toxicity testing normally can be used as a surrogate for chronic toxicity testing except for oncogenicity and age-related endpoints. EPA is aware of no data indicating that acetonitrile may cause those age-related effects that a subchronic toxicity study would not detect. Therefore, the NTP 90-day subchronic toxicity study of acetonitile is likely to provide adequate data to assess its chronic toxicity for section 4 purposes. For this reason no further chronic effects testing of acetonitrile will be required at this time.

4. *Carcinogenicity.* The results of the short-term mutagenicity tests and the results of the NTP 90-day inhalation toxicity study will be important in determining the need for longer-term testing because carcinogenic events can occur through several mechanisms. NTP will decide whether to conduct a long-term bioassay by analyzing the results of both the mutagencity and the 90-day subchronic toxicity studies. This decision is expected to be made in January, 1983. In anticipation that NTP will begin a long-term bioassay of acetonitrile if such a study is warranted by the data, the Agency is not initiating rulemaking to require carcinogencity testing at this time. However, should NTP decide that it will not sponsor a two-year bioassay, the Agency, with the manufacturers of acetonitrile, will evaluate the data and determine the need for this test. If the Agency concludes carcinogenicity testing of acetonitrile is needed and the manufacturers are unwilling to perform such testing, then the Agency will initiate rulemaking to require this test.

5. *Epidemiology.* The ITC recommended epidemiology testing of acetonitrile. The Agency does not believe that this study is warranted at this time because there is no documentable health hazard on which to base an epidemiologic study. However, should the additional data on acetonitrile's toxicity now being developed indicate the existence of a well-defined effect, the Agency will reevaluate the need for epidemiological studies.

EPA believes that the available data, the NTP testing currently in progress and the industry-sponsored mutagenicity and terategenicity testing respond to the concerns of the ITC and that sufficient data are likely to be provided to reasonably characterize the toxicity profile of acetonitrile. EPA also believes that the additional mutagenicity and teratogenicity data will be provided more expeditiously via the acceptance of the industry-sponsored acetonitrile testing program than under a rule. Therefore, EPA has determined not to initiate a rule to require further testing of acetonitrile at this time.

VI. Public Record

EPA has established a public record for this testing decision (docket number OPTS–42019) which is available for inspection from 8:00 a.m. to 4:00 p.m., Monday through Friday except holidays in Rm. E–107, 401 M St., SW., Washington, D.C. 20460. This record includes basic information considered by the Agency in developing this decision. The record includes:

(1) **Federal Register** notice containing the designation of acetonitrile to the priority list and all comments on acetonitrile received in response to that notice.

(2) Communications received prior to industry testing proposal consisting of letters, contact reports of telephone conversations and meeting summaries of Agency-industry and Agency-public meetings.

(3) Testing proposal and protocols.

(4) Published and unpublished data.

(5) **Federal Register** notice requesting comment on the negotiated testing proposal and all comments received in response to that notice.

The Agency will supplement the record periodically with additional relevant information received.

(Sec. 4, 90 Stat. 2003; 15 U.S.C. 2061)

Dated: December 20, 1982.

Anne M. Gorsuch,

Administrator.

BILLING CODE 6560–50–M

[OPTS–42022; BH–FPC 2249–2]

Hexachlorocyclopentadiene; Response to the Interagency Testing Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice constitutes EPA's response to the Interagency Testing Committee's recommendation that EPA require health and environmental effects testing of hexachlorocyclopentadiene (HCCP) under section 4(a) of the Toxic Substances Control Act (TSCA). EPA is not initiating rulemaking under section 4(a) to require further health or environmental effects testing of HCCP at this time. EPA does not believe that there is a sufficient basis to find that the current manufacture, distribution in commerce, processing, use, or disposal of this substance may present an unreasonable risk to the environment or of mutagenic or teratogenic health effects, or that there is substantial or significient human exposure or substantial environmental release. In addition, adequate data exist to reasonably predict the chronic health effects of HCCP and an oncogenicity bioassay is under way. Therefore, additional testing for these effects is unnecessary.

FOR FURTHER INFORMATION CONTACT: Douglas G. Bannerman, Acting Director, Industry Assistance Office (TS–799), Office of Toxic Substances, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460, Toll free: (800–424–9065), In Washington, D.C.: (554–1404), Outside the USA: (Operator–202–554–1404).

SUPPLEMENTARY INFORMATION:

I. Background

Section 4(e) of TSCA (Pub. L. 94–469, 90 Stat. 2003 *et seq.*; 15 U.S.C. 2601 *et seq.*) established an Interagency Testing Committee (ITC) to recommend a list of chemicals for EPA to consider for promulgation of testing rules under section 4(a) of the Act. The ITC may designate substances on the list for priority consideration by EPA. TSCA requires EPA to respond to these designations by initiating rulemaking under section 4(a) or by stating its reasons in the **Federal Register** for not initiating rulemaking.The ITC designated hexachlorocyclopentadiene (HCCP) for priority consideration in its Fourth Report, published in the **Federal Register** of June 1, 1979 (44 FR 31866), recommending that HCCP be considered for testing for carcinogenicity, mutagenicity, teratogenicity, and other chronic effects. The Committee also recommended testing consideration for environmental effects, with emphasis on chronic effects in aquatic and terrestrial systems.

The ITC's recommendations were based on evidence of substantial production, potential human exposure in the workplace and more generally as a result of industrial release and disposal, and indications of a potential for persistence and bioaccumulation in the environment. Since that time, new information has become available or is under development that, in EPA's judgment, indicates that further testing of HCCP is not warranted at this time.

This notice provides EPA's response to the ITC's designation of HCCP for testing.

II. Decision Not To Initiate Rulemaking

EPA has decided not to initiate rulemaking to require testing of HCCP under section 4 of TSCA because EPA does not believe that there is a sufficient basis to find that the current manufacture, distribution in commerce, processing, use or disposal of HCCP may present an unreasonable risk of injury to the environment or of mutagenic and teratogenic health effects. Neither has EPA found evidence that there is substantial or significant human exposure to or substantial environmental release of HCCP. In addition, certain new studies have become available since the ITC's report or are under way, making additional testing for chronic and oncogenic effects unnecessary.

A. Release and Exposure

The ITC indicated that annual production of HCCP was greater than 8 million pounds, which the Agency considers to be a substantial quantity. EPA has received confidential information from the manufacturer which leads the Agency to believe that current and expected production continue to be substantial.

Velsicol Chemical Company is the sole producer of HCCP in the United States. It manufactures the chemical at two locations: Marshall, Illinois and Memphis, Tennessee. All of the chemical produced at the Marshall location is used at that location in the production of a registered pesticide product. Part of the HCCP produced at Memphis, Tennessee is used at that site in the production of registered pesticide products and other chemicals, principally chlorendic anhydride (Ref. 5). There is one major customer for the rest (Ref. 6).

In assessing the potential exposure to HCCP, EPA cannot identify any uses other than as a chemical intermediate, almost entirely in the production of a number of pesticides and of chlorendic anhydride. Because of HCCP's extreme acute toxicity (exposure to 1.5 ppm for 7 hours killed 3 of 3 rabbits, 4 of 5 mice, 1 of 4 rats (Ref. 14)), all reactions are carried out in tightly-controlled closed

systems, while workers in potential exposure areas are required to wear respirators and protective clothing (Ref. 6). Velsicol Chemical Company has informed EPA that approximately 157 employees are potentially exposed to HCCP at their facilities (Ref. 6). Representative area and personnel monitoring levels from the HCCP production and use facilities have been made available by Velsicol. Time-weighted average concentrations ranged from 0.0003 to 0.035 ppm, although ceiling values reached 0.2325 ppm when HCCP wastes were being loaded (Ref. 6). Human exposure levels are expected to be significantly lower due to the use of respirators and protective clothing. On the basis of these facts, EPA has concluded that there is not significant or substantial worker exposure to HCCP.

Confidential information submitted by Velsicol indicates that HCCP is released to the air in small quantities from the chemical's manufacture and use as a chemical intermediate. Atmospheric releases of HCCP can be expected to undergo rapid degradation because HCCP's atmospheric lifetime is an estimated 0.2 days (Ref. 1).

HCCP is listed as a toxic waste under the Resource Conservation and Recovery Act (RCRA) (Pub. L. 94–580, as amended). The generation, treatment, storage, and disposal of HCCP-containing wastes are all subject to RCRA regulations (40 CFR Part 261). Producers of toxic wastes in amounts greater than 1,000 kg/month must dispose of said wastes in a RCRA-authorized manner. According to Velsicol, approved disposal of HCCP and associated solid wastes occurs through deep-well injection, incineration, or in regulated landfills (Ref. 6).

Underground injection is subject to permits issued under an Underground Injection Control (UIC) program approved or promulgated under the Safe Drinking Water Act (Pub. L. 95–523, as amended), according to regulations contained in 40 CFR Parts 122, 123, 124, and 146. Underground injection under these regulations is designed to avoid release to the environment.

Process water from HCCP production in Memphis goes to the city sewage plant and is finally discharged into the Mississippi River after treatment (Ref. 6). The Memphis Waste Water Facility monitors levels of HCCP in the effluent; during the months of February through June of 1982, the concentration of HCCP in the sewage treatment plant's effluent ranged from non-detectable to 3.04 ppb, with monthly levels averaging 0.30 ppb (limit of detection is 0.01 ppb) (Ref. 7). Immediate dilution by river water reduces the concentration much further. Furthermore, aqueous photolysis of HCCP occurs extremely rapidly (half-life less than 10 min.) (Refs. 18, 20) and is little affected by suspended sediment (Ref. 18), while the hydrolysis half-life at environmental temperatures is 3–11 days at or below pH 7, and less than 2 hrs. at pH 12 (Refs. 18, 19). These data were not available to the ITC, which had expressed concern about the environmental persistence of HCCP.

The available data on exposure lead EPA to conclude that a section 4(a)(1)(B) finding of significant or substantial human exposure cannot be made for HCCP. Although production volume is clearly substantial, the numbers of workers exposed are low, and the levels of HCCP to which they are exposed are not significant, given the protective measures applied during typical work practice. No TSCA-related consumer exposure is known.

The environmental fate data and the low levels of HCCP release have persuaded EPA that, while HCCP is produced in substantial quantities, its environmental release is not substantial and human exposure through the environment via either air or water will be extremely low. Therefore, EPA further evaluated the ITC's testing recommendations for HCCP in the context of whether a finding of potential unreasonable risk could be made under section 4(a)(1)(A).

B. Health Effects

The ITC recommended that HCCP be considered for testing for carcinogenicity, mutagenicity, teratogenicity and other chronic effects. A 2-year inhalation oncogenicity bioassay is being performed under the National Toxicology Program (NTP) (Ref. 17) and this is expected to provide sufficient data to characterize the carcinogenic properties of HCCP. While a mammalian chronic toxicity bioassay has not been performed on HCCP, an adequate subchronic study is available (Ref. 12). For purposes of section 4 of TSCA, EPA has generally accepted subchronic studies as allowing it to reasonably predict the chronic toxicity of a substance.

Since the ITC's report, teratology studies in three species (Refs. 3, 10), and a number of mutagenicity studies (Refs. 2, 4, 8, 15, 17) have been published in the literature or submitted to EPA as unpublished data. While these studies were not definitive, none of them have yielded any evidence suggesting a potential for these effects that might support a testing requirement under section 4(a)(1)(A) of TSCA. In view of the above, EPA is not initiating rulemaking to require further health effects testing of HCCP at this time.

C. Environmental Effects

The ITC recommended that HCCP be considered for environmental effects testing, placing emphasis on determining HCCP's chronic effects in aquatic and terrestrial systems. The ITC based its recommendations for environmental effects testing of HCCP on indications that it might persist in the environment and bioaccumulate in organisms.

As discussed in Unit II.A on release and exposure, available data indicate that HCCP is not expected to persist in the atmosphere or in water. HCCP's release to soil is closely restricted as discussed in Unit II.A.

A paper cited by the ITC (Ref. 9) indicated that in a model ecosystem some HCCP was retained in organisms exposed to HCCP, but the amount was considerably less for HCCP than for three other chlorinated compounds tested. Although the data in the paper were difficult to interpret, mosquito fish appeared to metabolize HCCP to a considerable extent. In more quantitative experiments, goldfish (Ref. 11) and fathead minnows (Ref. 13), have been found to metabolize and eliminate HCCP readily; the bioconcentration factor for fathead minnows was less than 11, a very low value. Thus, EPA believes that these data allow it to reasonably predict that HCCP will not bioaccumulate to significant levels in the environment, given the small releases of the substances.

The available information, some of which has become available since the ITC made its recommendation, indicates that HCCP is recognized to be a hazard to the environment at low levels with acute and chronic LC_{50}'s for fish and invertebrates at or above 7 ppb (Refs. 13, 16). Because existing data have led to controls that have in turn resulted in extremely low environmental exposures, EPA is unable to find under section 4(a)(1)(A) of TSCA that sufficient HCCP is released to or remains in the environment so that it might present an unreasonable risk of injury to the environment. Under these circumstances, EPA does not believe that additional environmental effects testing can be justified under section 4(a)(1)(A) of TSCA.

IV. Public Record

EPA has established a public record for this testing decision (docket number OPTS-42022) which includes:

(1) **Federal Register** notice containing the designation of hexachlorocyclopentadiene to the Priority List.

(2) Communications (public).

(a) Non-confidential letters.

(b) Confidential letters (separately held).

(c) Contact reports of telephone conversations.

(d) Meeting summaries.

(3) Published and unpublished data.

This record which includes basis information considered by the Agency in developing this decision is available for inspection in the OTS reading room from 8:00 a.m. to 4:00 p.m. on working days in Rm. E-107, 401 M St., SW., Washington, D.C. 20460.

(Sec. 4, 90 Stat. 2003 (15 U.S.C. 2601))

Dated: December 20, 1982.

Anne M. Gorsuch,

Administrator.

BILLING CODE 6560-50-M

(OPTS-42017; TSH-FRI 2238-1)

Methyl Isobutyl Ketone and Methyl Ethyl Ketone; Response to the Interagency Testing Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In the Fourth Report of the Interagency Testing Committee (ITC), published in the **Federal Register** of June 1, 1979, (44 FR 31866) the ITC designated methyle isobutyl ketone (MIBK) and methyle ethyl ketone (MEK) for priority consideration for health effects testing. Following publication of the ITC report, additional testing data were made available to EPA, and the major U.S. manufacturers of MIBK and MEK presented to the EPA plans for testing further the health effects of these chemicals. The Agency has concluded that the existing data are sufficient to evaluate some of the effects recommended for testing by the ITC. In other cases, the EPA believes that testing recommended by the ITC is not warranted by the available data. Finally, EPA has tentatively decided to accept the industry proposal in lieu of rulemaking to fill the remaining data gaps of concern to the Agency. Consequently, the EPA is not, at this time, initiating rulemaking to require health effects testing of MIBK and MEK. This notice constitutes EPA's response to the ITC as required by section 4(e) of the Toxic Substances Control Act. Interested persons are invited to comment on EPA's Conclusions as to what testing is needed and on the adequacy of the industry program.

DATE: All comments must be submitted by February 14, 1983.

ADDRESS: Written comments should bear the document control number OPTS-42017 and should be submitted in triplicate to: Document Control Officer (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-409, 401 M St. SW., Washington, D.C., 20460.

The administrative record supporting this action is available for public inspection in Rm. E-107 at the above address from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: Douglas G. Bannerman, Acting Director, Industry Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. E-511, 401 M St. SW., Washington, D.C., 20460, Toll Free: (800-424-9065), In Washington, D.C.: (554-1404), Outside the USA: (Operator-202-554-1404).

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 4(a) of the Toxic Substances Control Act (TSCA) authorizes the EPA to promulgate regulations requiring testing of chemical substances and mixtures in order to develop data

relevant to determining the risks that such chemicals may present to health and the environment. Section 4(e) of TSCA [90 Stat. 2010; (15 U.S.C. 2601 et seq.)] established an Interagency Testing Committee (ITC) to recommend to the EPA a list of chemicals to be considered for the promulgation of testing rules under section 4(a) of the Act.

The ITC placed methyl isobutyl ketone (MIBK) and methyl ethyl ketone (MEK) on its priority testing list submitted to the Administrator in April, 1979 and published in the Federal Register of June 1, 1979 (44 FR 31866). This notice is EPA's response to the ITC's recommendation that testing be required for MIBK and MEK.

II. Methyl Isobutyl Ketone

A. Background

Methyl isobutyl ketone (MIBK) is a saturated aliphatic ketone whose molecular formula is $C_6H_{12}O$.

Annual production capacity is believed to be 231 million pounds (Ref. 1). MIBK's annual production for the past 10 years has ranged from 150–210 million pounds. Imports have amounted to about 6 million pounds (Ref. 2).

MIBK is used primarily in industrial operations. The Chemical Economic Handbook states that sixty-four percent of the MIBK produced is used as a solvent for industrial coatings, 16 percent is exported, 10 percent is used as a raw material for antioxidant manufacture, and the remaining 10 percent is consumed in a variety of uses such as lube oil dewaxing, rare metal refining, and as a component of agricultural insecticides and of adhesives (Ref. 3). Consumer products containing MIBK include adhesives, fixatives and solvents (Ref. 4).

Releases of MIBK to the atmosphere can occur through fugitive emissions and incomplete removal of vapors from reaction gases before they are vented. MIBK may be released to water during the discharge of spent scrubbing water. Other releases may occur as a result of accidental spillage or disposal of solid wastes or sludges that contain ketones (Ref. 2).

The known chemical properties of MIBK include moderate water solubility, moderate rate of volatilization from water, soil and the pure material, and moderate atmospheric oxidation and photolysis in the presence of oxidants. Thus, MIBK would be expected to partition into the atmosphere where it would be photochemically degraded. This would lead to a short half-life for MIBK in the environment and minimal exposure to the general population (Ref. 2). MIBK is readily biodegraded in normal wastewater treatment facilities and in seawater (Ref. 5).

Human exposure to MIBK has been estimated by the National Institute for Occupational Safety and Health (NIOSH) to range between 1.5 and 1.8 million workers (Ref. 6). The affected industries have indicated that only 10 percent of the people included in the NIOSH estimates (150,000–180,000) are actually exposed to MIBK (Ref. 7). However, EPA considers that even the lower industry estimates indicate a substantial exposure to MIBK. The Agency believes that there is consumer exposure to MIBK as a result of uses of products containing MIBK, but the number of persons and level of exposure cannot be determined.

The ITC recommended MIBK for health effects testing because of high exposure. Specific ITC recommendations and the rationale for testing included: mutagenicity testing because of lack of data; teratogenicity testing because of the indication of possible teratogenicity of the related aliphatic ketone, MEK; chronic effects testing because although subchronic toxicity is well-characterized, long-term toxic effects of MIBK have not been studied sufficiently to predict chronic effects; and performance of an epidemiology study because of lack of data on long-term toxic effects and on chronic effects on humans. The ITC did not recommend any environmental effects or fate studies because MIBK exhibits high vapor pressure and undergoes chemical and biological degradation in the environment and therefore, "does not appear to pose a hazard to terrestrial animals" (44 FR 31868, June 1, 1979).

B. Testing Proposed by Industry

The Chemical Manufacturers Association (CMA) Ketones Program Panel (the Panel) has submitted protocols (Ref. 8) for the following tests which they have agreed to perform: (1) Mutagenicity of MIBK; (2) inhalation teratology of MIBK; (3) 90-day subchronic toxicity of MIBK. EPA will examine the data from these tests and determine whether there is need for additional testing. The Panel is prepared to undertake any further testing on MIBK, including carcinogenicity studies, that industry and EPA scientists agree is scientifically justified on the basis of the initial test results.

1. *Mutagenicity testing.* The Panel has proposed to test MIBK using a battery of five mutagenicity tests.

These tests are listed below; they will be initiated following publication of EPA's final decision following review of comments on this notice.

(a) Ames test (*Salmonella* +/− Activation).

(b) Mouse Lymphoma (L5178Y TK +/−).

(c) BALB/3T3 Mouse embryo cell transformation.

(d) Cytogenetic Study (Mouse micronucleus).

(e) Unscheduled DNA synthesis.

2. Inhalation Teratology Testing.

The Panel will initiate teratology test in two species (rats and mice) for MIBK. At least three doses will be used along with a negative control. Dose levels will be established after the completion of the subchronic toxicity study. The doses will be designed to satisfy the criteria in the Organization for Economic Cooperation and Development Teratogenicity Guideline No. 414 (Ref. 9). A schedule for initiation, completion, and delivery of results will be provided to the Agency.

3. *90-day Subchronic testing.* While subchronic inhalation studies have been conducted with MIBK, the CMA Ketones Panel will sponsor another study because (1) the MacEwen study (Ref. 11) cited by the ITC was done under hyperbaric conditions, and exposures were 24 hours per day (not typical of workplace exposure), and (2) female animals have generally not been studied.

The Ketones Panel study is designed to measure parameters indicative of toxicity (such as changes in body weight, organ weight, blood cytology, clinical chemistry and urine analysis) as well as an extensive histopathology examination of major organs and tissues. This study will be performed on male and female rats and mice, using whole body inhalation exposure to MIBK vapor, six hours per day, five days per week for 13 weeks at doses of 50, 250, and 1000 ppm. The study is now on test at Bushy Run Research Center, sponsored by CMA, and results should be available in early 1983. A 9-day vapor inhalation range-finding study was completed in June, 1982.

At the conclusion of the 90-day study, the Panel will report these data to the Agency. EPA will evaluate these data and make recommendations on the need for further testing to the Panel.

C. Decision Not To Initiate Rulemaking

The Panel's proposed testing program will resolve unanswered questions on mutagenicity, teratogenicity and chronic health effects of MIBK. These are the health effects of concern designated for consideration by the ITC.

For most chronic effects except oncogenicity, EPA generally will accept, for TSCA section 4 purposes, a well-conducted 90-day subchronic study as providing sufficient data to determine chronic risk from exposure to a chemical. While the protocols of the ongoing MIBK study are not identical to the TSCA Test Guidelines for a 90-day subchronic study, they are sufficiently similar with respect to histopathology, dosing regimen and data analysis to be acceptable for TSCA purposes.

The Panel's mutagenicity battery will provide a basis for determining the need for additional testing. The Panel's battery is similar to the testing scheme EPA normally uses under TSCA section 4, as it contains gene mutation and cytogenetics tests, and will provide an equivalent amount of data necessary to determine the need for more testing. Therefore, EPA believes that additional mutagenicity testing of MIBK need not be required at this time.

The Panel's teratology tests in two species are consistent with TSCA Testing Guidelines published by the Agency and are expected to provide adequate data to evaluate MIBK's teratogenic potential.

The Agency does not believe that the ITC recommended epidemiology study is warranted at this time. The Agency has not identified a toxic endpoint in any of the available data which would serve as a basis for epidemiologic testing. However, should the data to be developed demonstrate a defined effect, the Agency will reevaluate this decision.

III. Methyl Ethyl Ketone

A. Background

Methyl ethyl ketone (IMEK) is a saturated aliphatic ketone with molecular formula C_4H_8O.

Production reported in 1978 totaled 396 million pounds. Imports amounted to about 55 million pounds in 1978 (Ref. 12).

MEK is used in industrial operations including solvents for industrial coatings (55–75 percent), adhesives (12–20 percent), petroleum refining (3–10 percent), and miscellaneous and export (10–20 percent). Both industrial and consumer uses of MEK-containing degreasers and adhesives are expected to occur. Consumer exposure occurs primarily during the use of paint thinners and removers, varnish removers, stripping compounds, paint brush cleaners, various glue and adhesive products (particularly the fast-drying and epoxy glues) and automotive carburetor cleaners and engine degreasers (Ref. 13).

Releases of MEK can occur through fugitive emissions and venting of gases to the atmosphere. MEK is released to water and air. It has been detected in wastewater from manufacturing facilities and synthetic fuel plants, in groundwater near synthetic fuel plants, and in drinking water (Ref. 13). It has also been detected in air emissions from chemical plants (Ref. 13), processing facilities (Ref. 13), and automobile exhaust (Ref. 14).

Available chemical data on MEK include a high vapor pressure and high water solubility. Partitioning calculations indicate rapid volatilization from the pure material, and MEK's chemical reactivity favors subsequent rapid atmospheric oxidation and photolysis. The high water solubility of MEK will result in partitioning to water where data also indicate that MEK will be readily biodegraded (Refs. 15, 16). As a result it is not expected that MEK would bioconcentrate.

Worker exposure was estimated by NIOSH at 3 million in 1977 (Ref. 5). The 1980 quarterly NIOSH Hazard Report gave a revised estimate of 38,000 persons occupationally exposed (Ref. 17). This figure does not include the persons exposed to consumer products containing MEK. EPA is unable to determine the magnitude of this latter exposure.

The ITC recommended testing of MEK for chronic effects (with special emphasis on neurological effects), and performance of an epidemiology study. The basis for the neurological effects recommendation was the 1944 study by Smith and Mayers which reported a numbness of the skin (Ref. 18). The ITC did not recommend any environmental effects or chemical fate studies.

B. Testing Submitted Subsequent to ITC Recommendations

1. *Subchronic Toxicity.* The Chemical Industry Institute of Toxicology (CIIT) has recently completed a 13-week subchronic toxicity test on MEK (Ref. 19). The study exposed rats and mice at levels of 1,250, 2,500, and 5,000 ppm, for six hours per day, five days per week. Virtually no effects were shown at any exposure level. Because of the lack of effects, CIIT decided it would be inappropriate to proceed with long-term testing. The Panel submitted this report to the Agency as fulfillment of the chronic testing recommendation by the ITC. The Agency, after review of the study, has found it adequate to predict chronic toxicity of MEK.

2. *Neurological Testing.* An extensive literature review on the health effects of MEK revealed no reports that MEK alone induced neuropathological changes or neurotoxicological effects including its reported use and effects from "glue-sniffing." (Ref. 20). Only if MEK and methl-n-butyl ketone or MEK and n-hexane were combined and animals exposed to the binary mixtures were some neurotoxic effects observed. It should be noted that methl-n-butyl ketone and N-hexane are neutrotoxic agents by themselves. While it appears that MEK may exert a synergistic effect with the two neurotoxicants on the test animals, the data from previously performed experiments clearly indicated that MEK is not a neurotoxicant.

Furthermore, in the CIIT subchronic toxicity study on MEK, animals were examined for neurological changes both in daily observations and histologically after sacrifice. There was no functional deficit reported in the daily observation nor were there any neurological tissue changes found in the histopathology after exposure to 1,250, 2,500, and 5,000 ppm (Ref. 19). Part of the study done by CIIT was designed specifically to address neurotoxicity.

Five males and five females from each exposure group and the control group were used exclusively in the special neurotoxicity study. Vascular perfusion was performed with lactated Ringer's solution and glutaraldehyde. Following perfusion, the brain, spinal cord, right and left sciatic and tibial nerves were removed and preserved. A minimum of 50 nerve fibers/animal were evaluated by light microscopy for evidence of nueropathy. Specimens from all groups were examined. Lesions attributable to MEK were not demonstrated or observed (Ref. 19).

C. Testing in Areas Not Recommended by the ITC

The Ketones Panel has proposed to test MEK using the following mutagenicity battery. These studies would be initiated following publication of EPA's final decision following review of comments on this notice.

(a) Ames test (*Salmonella* + / – Activation).

(b) Mouse Lymphoma.

(c) BALB/3T3 Mouse embryo cell transformation.

(d) Cytogenetic Study (Mouse micronucleus).

(e) Unscheduled DNA synthesis.

EPA will examine the data from these tests and determine whether there is need for additional testing. The Panel is prepared to undertake any further testing on MEK, including carcinogenicity studies, that industry and EPA scientists agree is scientifically justified on the basis of the initial test results.

D. Decision Not To Initiate Rulemaking

The Agency believes that the completed 90-day subchronic test which was submitted after publication of the ITC report provides an adequate basis for determining MEK's chronic toxicity including neurotoxicity. While the protocols are not identical to the TSCA Test Guidelines for this test, they are sufficiently similar with respect to histopathology, dosing regimen and data analysis to be acceptable for TSCA purposes. For most chronic effects except oncogenicity, EPA generally will accept for TSCA section 4 purposes a well-conducted 90-day subchronic study as providing sufficient data to determine chronic risk from exposure to a chemical. Therefore, EPA believes that no further chronic toxicity testing of MEK is necessary at this time.

The Panel's mutagenicity battery will provide a basis for determining the need for additional testing. The Panel's battery is similar to the testing scheme EPA normally uses under TSCA section 4 as it contains gene mutation and cytogenetics tests and will provide an equivalent amount of data necessary to determine the need for more testing. Therefore, EPA believes that additional mutagenicity testing of MIBK need not be required at this time.

The Agency does not believe that the ITC recommended epidemiology study is warranted at this time. The Agency has not identified a toxic endpoint in any of the available data which would serve as a basis for epidemiologic testing. However, should the data developed in this testing program demonstrate a well-defined effect, the Agency will reevaluate this decision.

IV. GLP's and Other Provisions

The Panel has agreed to adhere to the FDA's Good Laboratory Practice (GLP) Standards (21 CFR Part 58). It has acknowledged EPA's right to conduct laboratory audit/inspections in accordance with the procedures outlined in TSCA section 11, at the request of authorized representatives of the EPA for the purpose of determining compliance with the submitted protocols and GLP's. These inspections may be conducted for purposes which include verification that testing has begun, that schedules are being met, that reports accurately reflect the raw data, and that the studies are being conducted with adequate quality assurance procedures.

In addition, the Panel has agreed that all raw data, documentation, records, protocols, specimens, and reports generated as a result of a study will be retained and made available during an inspection or submitted to EPA if requested by EPA or its authorized representative. This is consistent with the proposed TSCA GLPs published in the **Federal Register** of May 9, 1979 (44 FR 27362).

The Panel has also acknowledged that TSCA section 14(b) governs Agency disclosure of all test data submitted to the Agency under this testing program.

The Panel understands that the Agency plans to publish quarterly in the **Federal Register** a notice of the receipt of any test data submitted under this agreement. Subject to TSCA section 14, the notice shall provide information similar to that described in TSCA section 4(d). Except as otherwise provided in TSCA section 14, any data submitted shall be made available by EPA for examination by any person.

Failure to adhere to the terms of the protocols submitted or GLP's may invalidate the tests. In such cases, a data gap may still exist, and the Agency may decide to promulgate a test rule.

VI. Public Record

The EPA has established a public record for this testing decision (docket number OPTS–42017) which is available for inspection in the OTS Reading Room from 8:00 a.m. to 4:00 p.m. Monday through Friday in Rm. E–107, 401 M St., SW., Washington, DC 20460. This record includes basic information considered by the Agency in developing this decision. The Agency will supplement the record periodically with additional relevant information received. The record includes the following information:

(1) **Federal Register** notice containing the designation of the MIBK and MEK to the priority list.

(2) Communications before industry testing proposal.

(a) Letters.

(b) Contact reports of telephone conversations.

(c) Meeting summaries of Agency-industry and Agency-public meetings.
(3) Testing proposal and protocols.
(4) Published and unpublished data.
(5) **Federal Register** notice requesting comment on the negotiated testing proposal and comments received in response thereto.

(Sec. 4, 90 Stat. 2003; (15 U.S.C. 2061))

Dated: December 20, 1982.

Hexachloro-1,3-Butadiene; Response to the Interagency Testing Committee

AGENCY: Enviromental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice constitutes EPA's response to the Interagency Testing Committee's recommendation that EPA require environmental effects testing of hexachloro-1,3-butadiene (HCBD) under section 4(a) of the Toxic Substances Control Act (TSCA). EPA is not initiating rulemaking under section 4(a) to require further environmental effects testing of HCBD. EPA does not believe that there is a sufficient basis to find that the current manufacture, distribution in commerce, processing, use, or disposal of HCBD may present an unreasonable risk to the environment. The available information indicates that HCBD is recognized to be a hazard to the environment at low levels and both voluntary and regulatory measures have been taken to control the release of HCBD to the environment.

FOR FURTHER INFORMATION CONTACT: Dougal G. Gannerman, Acting Director, Industry Assistance Office (TS-799), Office of Pesticides and Toxic Substances, Environmental Protection and Toxic Substances, Environmental Protection Agency, 401 M St. SW., Washington, DC, 20460, Toll Free: (800-424-9065), In Washington, DC: (554-1404), Outside the USA: (Operator-202-554-1404).

SUPPLEMENTARY INFORMATION:

I. Background

Section 4(e) of TSCA (Pub. L. 94-469, 90 Stat. 2003; 15 U.S.C. 2601 *et seq.)* established an interagency Testing Committee (ITC) to recommend a list of chemicals for EPA to consider for promulagation of testing rules under section 4(a) of the Act. The ITC may designate substances on the list for priority consideration by EPA. TSCA requires EPA to respond to these designations by initiating rulemaking under section 4(a) or by publishing reasons in the **Federal Register** for not initiating rulemaking.

The ITC designated hexachloro-1,3-butadiene (HCBD) for priority consideration in its First Report, published in the **Federal Register** of October 12, 1977 (42 FR 55057), recommending that it be tested for the following environmental effects: aquatic fate, effects on aquatic organisms (invertebrates, fish, higher vertebrates, plants), and uptake by terrestrial plants and/or foraging species.

The ITC's recommendations were based on evidence of widespread distribution of HCBD in the aquatic environment, report of bioaccumulation in fish and other aquatic organisms, and the appearance of HCBD in some European agricultural products.

This notice provides EPA's response to the ITC's designation of HCBD for testing.

I. Decision Not to Initiate Rulemaking

EPA has decided not to initiate rulemaking to requre testing of HCBD under section 4 of TSCA because EPA does not believe that there is a sufficient basis to find that the current manufacture, distribution in commerce, processing, use of disposal of HCBD may present an unreasonable risk to the environment. HCBD appears to be widely recognized as a hazardous substance and both voluntary and regulatory measures have been taken to control the release of HCBD to the environment. Development of further environmental effects data would not be expected to play a significant role in further regulatory efforts.

The available information indicates that HCBD is recognized to be a hazard to the environment at low levels. Some of this information has become available since the ITC made its recommendation. HCBD has been characterized as very persistent in the aquatic environment. The logarithm of the octanol/water partition coefficient for HCBD has been estimated to be 4.78 indicating that HCBD is preferentially bound to organic matter (Ref. 1). Studies have demonstrated that HCBD preferentially binds to soil and sediments but that it also can be released from sediments back into the water column (Ref. 10). HCBD has been reported to have moved through soil into ground water from a waste disposal site (Ref. 19) and has been reported as ubiquitous at low levels (ug/L range) in surface waters in the U.S. (Ref. 18). HCBD has been shown to bioaccumulate in a wide range of aquatic organisms to 2-3 orders of magnitude over water concentrations (Refs. 7, 10, 12, 15). Several studies indicate that HCBD does not biomagnify along food chains (Refs. 7, 10, 15).

Studies on the effects of HCBD show that fish and aquatic invertebrates demonstrate acute effects at concentrations (LC_{50}s) between 100 and 1,000 ug/L of HCBD (Refs. 10, 11, 12, 21). A study of chronic effects resulted in an estimated maximum acceptable toxicant concentration (MATC) level of 9.3 ug/L for an embryo-larval study of the flathead minnow, with an acute-chronic ratio of 11 (Ref. 20). Exposure to 3.7 ug/L for up to 10 days has produced evidence of hepatopancreatic damage in crayfish (Ref. 10). Marine crustaceans appear more sensitive with acute static tests showing lethal concentration (LC_{50}) values as low as 59 and 32 ug/L for mysid and grass shrimp (Ref. 21).

In recognition of the hazard HCBD poses to the environment, both voluntary and regulatory measures have been taken to control the release of HCBD to the environment. There are currently two sources of HCBD in the U.S.: (1) Imports and (2) HCBD-containing hex-wastes resulting from the production of chlorinated hydrocarbons. In 1981, 145,000 pounds of HCBD were imported into the U.S. (Ref. 8). The major domestic use of imported HCBD is as a chemical intermediate in the manufacture of rubber compounds (Refs. 8 and 24). Small quantities also are apparently used as a laboratory reagent (Ref. 17). Confidential business information received by the Agency, from industry demonstrates that very little HCBD is released to the environment through these uses (Ref. 13). Previously, HCBD was used as a solvent for the recovery of chlorine-containing gas in chlorine plants. More recent information indicates that HCBD is no longer being used in this process (Refs. 2, 4, 14, 23).

The predominant source of HCBD in the U.S. (approximately 99.5 percent of the annual volume of 28 million pounds) is inadvertent production as a waste by-product from the production of certain chlorinated hydrocarbons (Refs. 2, 3, 6, 9, 14, 16, 23). The waste streams, known as "hex-wastes", typically contain 33-80 percent HCBD. The HCBD is not recovered from the hex-wastes, but is disposed of by various methods. Over the last 10 years, disposal practices for hex-wastes have shifted from landfill operations to incineration. In 1982, manufacturers reported that of the approximately 27 million pounds of HCBD generated annually as hex-wastes, approximately 68 percent is now

disposed of by incineration, 32 percent by deepwell injection and less than 0.2 percent by hazardous waste landfill operations (Refs. 2, 3, 6, 9, 14, 16, 23). The incinerators used for this purpose reportedly achieve greater than 99.99 percent destruction efficiency (Refs. 3, 6, 14, 23). Monitoring data from 1982 indicate HCBD levels released were below a detection level of 10 ppb in incinerator and process water effluents and in incinerator air emissions (Ref. 14).

On the basis of the above information, it is estimated that of the approximately 19 million pounds of HCBD incinerated per year, less than 1,900 pounds would be released to the environment. Exposure modelling by EPA produced worst case water concentration estimates of less than 0.1 part per trillion (ppt) HCBD in shallow ponds adjacent to incinerators (Ref. 22). EPA believes that HCBD concentrations in water bodies farther away from incinerator sources would be much lower. Even taking into consideration the persistence of HCBD, it is not expected that at this release rate environmental levels would reach significantly high levels.

Underground injection is subject to permits issued under an Underground Injection Control (UIC) program approved or promulgated under the Safe Drinking Water Act (Pub. L. 95–523, as amended) according to regulations contained in 40 CFR Parts 122, 123, 124, and 146. Underground injection under these regulations is designed to avoid release to the environment. Some hex-wastes also contain polychlorinated biphenyls (PCBs) at levels exceeding 50 ppm (Refs. 2, 3, 6, 14, 23) and thus must be handled according to the regulations governing PCBs under TSCA, 40 CFR Part 761. These regulations include disposal in EPA-approved incinerators (99.9999 percent destruction efficiency), secured landfills, or high-efficiency boilers.

Finally, regulatory action under the Resource Conservation and Recovery Act (RCRA) (Pub. L. 94–580, as amended) is being directed toward the proper disposal of HCBD. The generation, treatment, storage, and disposal of HCBD-containing wastes are all subject to RCRA regulations. HCBD and hex-waste streams are listed as hazardous wastes under RCRA, 40 CFR Part 261. Although data gaps do exist for HCBD (e.g., rate of anaerobic degradation, chronic toxicity to marine invertebrates and benthic organisms, effects on aquatic plants), the available environmental effects data, showing HCBD is toxic at low levels, combined with human health data, showing HCBD is carcinogenic, already appear to be adequate to support regulatory controls sufficient to protect from potential unreasonable environmental risk from this chemical. Therefore, EPA believes that data from further environmental effects testing would be unlikely to have regulatory significance to further RCRA control efforts.

HCBD is also present as an intermediate in the production of chlorofluorocarbons. However, the HCBD is generated and entirely consumed within the closed manufacturing process. The manufacturer estimates that a total of less than 70 pounds of HCBD per year are released into the environment from storage tanks, equipment cleaning, sampling, etc. (Ref. 5).

It is anticipated that only very small quantities of HCBD will be released to the environment in light of the current importation volume and uses of HCBD, the handling and disposal practices for HCBD-containing hex-wastes, and the voluntary and regulatory actions taken to limit HCBD releases. Although biological activity has been observed for HCBD at low (ppb) levels, considering current control measures for this chemical and the resultant low release levels, the Agency believes there is not a strong basis for concluding that HCBD may present an unreasonable risk at the levels expected in the environment. EPA, therefore, believes that further environmental effects testing of HCBD is not warranted at this time.

If monitoring data or other data indicate an increase in release or exposure to HCBD or if a lack of data proves to be a barrier to further regulation, this decision not to require testing will be reconsidered at that time.

IV. Public Record

EPA has established a pubic record for this testing decision (docket number OPTS–42020) which is available for inspection in the OPTS Reading Room from 8:00 a.m. to 4:00 p.m. on working days in Rm. E–107, 401 M St. SW., Washington, D.C. 20460. This record includes basic information considered by the Agency in developing this decision such as:

(1) Federal Register notice containing the designation of HCBD to the Priority List.

(2) Public comments on the ITC report.

(3) Communications (public, intra-agency, and interagency) consisting of memoranda and letters, contact reports of telephone conversations, and meetings.

(4) Published and unpublished data.

The Agency will supplement the record with additional relevant informaiton as it is received.

(Sec. 4, 90 Stat. 2003; (15 U.S.C. 2061))

Dated: December 20, 1982.

Pyridine; Response to the Interagency Testing Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice is EPA's response to the Interagency Testing Committee (ITC) designation of pyridine for consideration for health and environmental effects testing under section 4(a) of the Toxic Substances Control Act (TSCA). EPA has decided not to initiate rulemaking to require testing of pyridine under section 4(a) of TSCA for carcinogenicity, chronic effects, or environmental effects. EPA has concluded that sufficient data have been or are being developed on pyridine for carcinogenicity and chronic effects by the National Toxicology Program. EPA is not initiating rulemaking to require testing of pyridine for environmental effects because the Agency has found no evidence of substantial environmental release of pyridine and, because pyridine is not likely to persist or bioaccumulate, no reason to believe pyridine may present an unreasonable risk to the environment. EPA has made tentative decisions not to initiate rulemaking to require testing of pyridine for mutagenicity, teratogenicity, or neurotoxicity at this time. Considering the numbers of people exposed, the probable levels of exposure, and the nature of existing data, the Agency has concluded that a finding that pyridine may present an unreasonable risk for these effects is not warranted. Because of the difficult nature of the issues involved, EPA is soliciting comment and submission of any additional data relevant to the Agency's tentative decisions.

DATES: Submit written comments on or before February 14, 1983.

ADDRESS: Written comments should bear the document control number OPTS-42014 and should be submitted in tripicate to: Document Control Officer, Management Support Division (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St. SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Douglas G. Bannerman, Acting Director, Industry Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. E-511, 401 M St. SW., Washington, DC 20460, Toll Free: (800-424-9065), in Washington, DC (554-1404), outside the USA: (Operator 202-554-1404).

SUPPLEMENTARY INFORMATION:

I. Background

Section 4(e) of TSCA [Pub. L. 94-469, 90 Stat. 2003; 15 U.S.C. 2601 *et seq.*] established an Interagency Testing Committee (ITC) to recommend a list of chemicals for EPA to consider for promulgation of testing rules under section 4(a) of the Act. The ITC designated pyridine for testing in its Second Report, published in the Federal Register of April 19, 1978 (43 FR 16684), and recommended that pyridine be evaluated for: (1) Carcinogenicity, (2) mutagenicity, (3) teratogenicity, (4) other chronic effects on the liver, kidney and central nervous system, (5) environmental effects, and (6) epidemiology.

The basis for the ITC recommendations was that: (1) Sixty million pounds of pyridine were reported to be produced in 1976, (2) the National Institute for Occupational Safety and Health (NIOSH) estimated that 249,000 persons might be exposed to pyridine, and (3) there was a paucity of data and a lack of long-term tests on the effects of pyridine on human health and the environment.

This notice is EPA's response to the ITC designation of pyridine for testing.

II. Decisions Not To Initiate Rulemaking

The Agency is not initiating rulemaking to require testing of pyridine for carcinogenicity and for chronic effects on the liver and kidney because a subchronic test and an oncogenicity bioassay using rats and mice have been conducted by the National Toxicology Program (NTP). The animals from the bioassay were sacrificed in January, 1982, and the results will be available for review in 1983. It is expected that these tests will prove adequate to determine pyridine's oncogenicity and its chronic effects on the liver and kidney.

EPA is not initiating rulemaking to require testing of pyridine for chronic environmental effects because the Agency has found no evidence of substantial environmental release of pyridine and no reason to believe that pyridine may present an unreasonable risk to the environment. The present pattern of use of pyridine appears to preclude substantial release of pyridine. Of the less than 26 million pounds (12 million kilograms) of pyridine produced in the U.S. each year, approximately half is exported (Ref. 34). Up to 80 percent of the remaining pyridine is converted into other chemicals, i.e., agricultural chemicals, such as herbicides and insecticides, pharmaceuticals, and chemicals such as piperidine for use in the rubber industry (Ref. 34).

Most of the residual 20 percent of the pyridine used in the U.S. is used as a reaction solvent in chemical manufacturing or as a component of the Karl Fischer reagent in laboratories. Because of the high cost of pyridine, the chemical is recovered and recycled when used as a chemical solvent. In the Karl Fischer reaction, the pyridine is fully spent in the reaction. The pyridine industry reported that in 1977, 660,000 pounds of pyridine were disposed of, half of it via publicly owned treatment works (Ref. 34). Because this figure does not distinguish between input into treatment systems and ultimate environmental release, ultimate environmental release of pyridine is likely to be lower than this figure indicates. There are limited data on pyridine being present in industrial effluents (Ref. 38), in aqueous effluents from coke-oven quenching operations at 11 ppm (Ref. 10) and from coal gasification operations in the range of 0.1 to 0.2 ppm (Ref. 33). No reports were found in the EPA STORET data base on the presence of pyridine in ambient waters.

In addition, pyridine is not likely to be persistent in the environment because it has been shown to be readily metabolized by several microorganisms (Refs. 8, 12, 16, 17, 39 through 42, and 45). Based upon its physicochemical properties, pyridine is also not expected to bioaccumulate (Ref. 25). The octanol/water partition coefficient for pyridine is quite low, i.e., log P=0.65 (Ref. 25). Because pyridine is not likely to persist in the environment and is not likely to bioaccumulate, EPA finds no basis to believe that there is a potential for long-term exposure to pyridine in the

environment and thus no reason to believe that pyridine may present an unreasonable risk of chronic toxicity to the environment. Acute toxic data noted in aquatic and terrestrial organisms reveals that, overall, pyridine is toxic only at high levels of exposure and such levels are not likely to occur in the environment (Refs. 2 through 7, 9, 20, 24, 27, and 44).

Finally, EPA is not initiating rulemaking to require an epidemiological study of pyridine because a suitable cohort has not been identified with a sufficiently large number of workers who are routinely exposed to pyridine to make such a study meaningful.

III. Tentative Decisions Not to Initiate Rulemaking

EPA has tentatively decided not to initiate rulemaking to require mutagenicity, teratogenicity, or neurotoxicity testing of pyridine because the Agency believes that human exposure to pyridine is not substantial or significant and because there is insufficient basis to find that pyridine may present an unreasonable risk for these effects. With respect to mutagenicity, some mutagenicity data have become available since the ITC's designation of pyridine. These data, although incomplete, do not indicate that pyridine is likely to be mutagenic.

EPA's decisions not to initiate rulemaking to require testing to determine pyridine's potential to cause teratogenic effects and effects on the central nervous system have required substantially more difficult judgments than the Agency's decisions with respect to the other effects for which the ITC recommended testing. Existing data indicate that pyridine might have the potential to cause teratogenic or neurotoxic effects and the recently completed chronic testing by the NTP is not expected to resolve this uncertainty. Nevertheless, after carefully considering the existing evidence for such effects and the available evidence concerning human exposure to pyridine, the Agency believes that it cannot reasonably make the findings necessary to require the testing of pyridine under section 4(a) of TSCA. The information considered by EPA and the basis of its judgment not to initiate rulemaking are explained more fully below.

A. Information on Exposure

Various factors lead EPA to believe that human exposure to pyridine is much less than the ITC had reported, and is not substantial or significant. As already reported above, of the 28 million pounds of pyridine produced per year, approximately half is exported, up to 80 percent of the remaining pyridine is converted into other chemicals, and most of the residual 20 percent is used as a reaction solvent in chemical manufacturing or as a component of the Karl Fischer reagent in laboratories. In the past, pyridine was used in the textile industry. This use has been phased out due to the high cost and unpleasant odor of pyridine, however. Pyridine is also created as a by-product during coke-oven (Ref. 30) and coal gasification operations (Ref. 33).

Human exposure to pyridine appears to be confined largely to the laboratory, coke-oven, and manufacturing and processing environments. Based on actual observed use of pyridine in its 1972 to 1974 survey, NIOSH observed 903 persons exposed to pyridine (Ref. 29) and estimated that 29,285±12,000 persons could be exposed to pyridine (Ref. 28). This survey did not consider exposure from coke-ovens. The occupational categories listed for 88.7 percent of the estimated workers were laboratories (agricultural, biological, and chemical) (Ref. 28).

A collective response from the manufacturers of pyridine accurately herein referred to as the Pyridine Task Force (PTF), estimated that 30,000 laboratory workers could be exposed to pyridine annually, which is roughly consistent with the NIOSH estimate (Ref. 34). However, while laboratory use of Karl Fischer reagent appears to be the most dispersive of the uses of pyridine, there is reason to believe that actual exposure is quite low (Refs. 35 and 36). Both pyridine's noxious odor and the nature of its use require that the chemical be handled in closed systems and ventilated hoods. The Karl Fischer reagent, which is used for analytical moisture determinations, is prepackaged and automatically dispensed in a closed, anhydrous system. Because leaks in the system sufficient to lead to human exposure would be sufficient to invalidate the testing due to moisture contamination, there is reason to believe that precautions are taken to avoid such leaks (Refs. 35 and 36). The pyridine is fully converted in the reaction to the hydroiodide salt of pyridine which does not volatilize. The spent solution automatically empties into a waste collection bottle in a ventilated hood. EPA believes therefore that exposures to pyridine through this use, if they occur, will be infrequent and at quite low levels. In recent monitoring of laboratory technicians working with pyridine in laboratories of one of the pyridine manufacturers, the highest concentration measured over a 6-hour period was 0.09 ppm time weighted average (TWA) (Ref. 37). Because pyridine usage in these quality control and research and development laboratories is believed to be far heavier than in any other type of laboratory, EPA believes exposure levels in other laboratories are generally lower.

With regard to possible exposure as a result of coke-oven emissions, a study conducted for OSHA estimated that 30,000 persons may be exposed annually (Ref. 14). Because other components of coke-oven emissions were determined to pose a significant risk of cancer to coke-oven workers, OSHA has set a Permissible Exposure Limit (PEL) of 150 $\mu g/m^3$ for these emissions, measured as the benzene-soluble fraction of total particulate matter (BSFTPM), averaged over an 8-hour period (Ref. 30). The PTF calculated that 33 pounds of BSFTPM occur in 10,000 cubic feet of gas released from coke ovens, and that 0.1 pound of pyridine could be present in the same volume of gas (Ref. 34). Based on this ratio of 330 BSFTPM to 1 of pyridine, a worker exposed to the PEL of 150 μg BSFTPM/m^3 would be exposed to approximately 0.5 μg pyridine/m^3 (Ref. 34).

On the basis of a questionnaire sent by the PTF to the major manufacturers and users of pyridine, the PTF reported that 813 persons were occupationally exposed to pyridine during its manufacture and first tier use (presumably as synthetic intermediate) (Ref. 34). Of these, 557 persons were reported to be exposed to pyridine for no longer than a period of 8 hours during a typical work week (Ref. 34). The current OSHA PEL for pyridine is 5 ppm (15mg/m^3) averaged over an 8 hour work shift (8-hr TWA) (Ref. 31). The PTF reported that 0.008–1.0 ppm pyridine (8-hr TWA) was present in the workplaces they monitored (Ref. 34).

In addition, pyridine possesses a penetrating noxious odor with a human odor threshold as low as 0.12 ppm (Ref. 35). Although olfactory fatigue does occur following human exposure to pyridine, a definite taste remains (Ref. 31). For this reason, OSHA lists pyridine as having good warning properties (Ref. 31). In spite of its long history of use, it has been cited that pyridine has a remarkable accident-free history (Ref. 32).

B. Information on Effects

1. *Teratogenicity.* On the basis of three teratogenicity studies, one in the chick embryo and two in the African Clawed Frog (*Xenopus laevis*), it appears possible that pyridine may possess teratogenic activity. The effects noted in both the chick embryo and the

African Clawed Frog studies occurred at quite high levels of exposure (Refs. 13, 15, and 23). No mammalian studies are available.

In the chick embryo study, muscular hypoplasia was observed when pyridine was injected at 10 mg/egg and 20 mg/egg but not at 5 mg/egg. Abnormal beaks and short and twisted necks were also observed among some embryos at the 20 mg/egg dose level. At the highest level tested (40 mg pyridine/egg) only 1 of the 85 embryos escaped early death. Muscular hypoplasia and a shortened upper beak were observed in the one surviving embryo (Ref. 23).

The first study in the African Clawed Frog exposed embryos at the early cleavage to mid-blastula stage of development to pyridine. Abnormalities (inability of embryos to develop into free swimming larvae) were produced in six percent of embryos after 48 hours of exposure to pyridine at 10 mg/L and in 33 percent of embryos after exposure at 50 mg/L (Ref. 13).

In the second study in the African Clawed Frog, the 96-hour EC_{50} value for pyridine to embryos in the mid-blastula stage development was 1200 mg/L. Acridine, quinoline, and aniline yielded 96 hour EC_{50} values of 2.4, 29, and 370 mg/L respectively. Similar abnormalities were noted for the four chemicals tested. They consisted of exogastrulation, edma, and formation of blisters on both dorsal and ventral surfaces, particularly in the head and anterior abdominal regions. The 96-hour LC_{50} values for acridine, quinoline, aniline, and pyridine to free-swimming larvae were 4.5, 95, 150, and 1,090 mg/L respectively. The authors of the study concluded that the data suggest that acridine, aniline, and quinoline have toxic and teratogenic effects at sufficiently low concentrations as to make them potential environmental hazards. No such conclusion was made for pyridine (Ref. 15).

The significance of these results and how they relate to humans are uncertain. The chick embryo test uses an a typical route of exposure while in the African Clawed Frog study high levels of exposure were needed to obtain effects that were statistically valid. EPA believes the data raise the level of concern as to the teratogenic of pyridine. However, the Agency also believes that the data, at best, are only weakly suggestive of teratogenic activity.

2. *Neurotoxicity.* Pyridine has been characterized as a general depressant similar to hypnosedatives such as phenobarbital (Ref. 26). Studies have indicated possible central nervous system effects (Refs. 21 and 26). Short of lethal doses, in no instance was permanency of effects noted. Human case histories of exposure to pyridine suggest possible central nervous system impairment from chronic exposures to the chemical (Ref. 43). With the exception of one case of acute exposure (Ref. 22), the case histories reported could be traced to chronic exposure to pyridine at quite high concentrations due to the lack of occupational hygiene and safeguards (Ref. 43). However, because of the high levels of exposure at which effects were elicited, the significance of these results is uncertain. The Agency has no evidence that exposure to pyridine currently is occurring at the levels at which central nervous system effects were reported, or that effects are likely to be seen at lower levels.

3. *Mutagenicity.* Based on data which have become available since the ITC made its recommendation, the Agency believes that the available data indicate that pyridine is likely to be nonmutagenic and thus that there is insufficient basis for a finding that pyridine may present an unreasonable risk from this effect. Pyridine was shown to be negative in the Ames Test with and without microsomal activation (Refs. 11 and 18). While pyridine induced a small but significant increase in sister chromatid exchange in cultured cells of the Chinese Hamster, a dose effect was not shown (Ref. 1). Chromosomal aberrations in the Chinese Hamster cells did not occur even when doses of pyridine were elevated to near lethal concentrations, where no cell mitosis was observed (Ref. 19).

C. Discussion of Decisions and Request for Comment

Under section 4(a) of TSCA, EPA can require testing of a chemical substance or mixture if, along with other findings, the Agency finds that (a) the manufacture, distribution in commerce, processing, use, or disposal of the substance or mixture may present an unreasonable risk of injury to health or the environment (section 4(a)(1)(A)) or (b) the substance or mixture is or will be produced in substantial quantities and (I) it enters or reasonably may be anticipated to enter the environment in substantial quantities or (II) there is or may be significant or substantial human exposure to the substance or mixture (section 4(a)(1)(B)).

Although the current production volume of pyridine may be regarded as substantial, EPA believes that the available information on its expected release to the environment and human exposure do not provide a basis for requiring testing under section 4(a)(1)(B). Pyridine should not be considered to be released to the environment in substantial quantities because it is rapidly biodegraded by soil and water microorganisms, and half of the estimated annual release of approximately 660,000 pounds is to publically owned treatment works where its degradation by microorganisms is expected (Refs. 8, 12, 16, 17, 34, 39 through 42, and 45).

While the legislative history of section 4 of TSCA indicates the types of factors EPA should take into account in making a finding of substantial human exposure (including number of persons, duration, and level of exposure), neither it nor the statute gives explicit guidance as to when exposure should be considered "substantial." There is also no discussion of the factors for determining that exposures are "significant." EPA has not proposed any quantitative criteria for making those determinations, but has instead approached the issue on a case-by-case basis.

With respect to pyridine, EPA has concluded that although coke-oven workers and certain laboratory personnel are exposed to pyridine, the levels and duration are too low to support a finding of substantial human exposure. Current data cannot provide absolute assurance that pyridine or another chemical could not present a risk at these exposure levels, but EPA believes that exposure of this number of persons at these levels is not so great as to raise the inherent concern over the possible effects of a chemical that section 4(a)(1)(B) was intended to address. Such exposure levels could be considered substantial if a larger number of persons were exposed, however. Data available to EPA indicate that smaller numbers of workers in manufacture and first tier use of pyridine may be exposed to higher levels of pyridine (Ref. 34). However, EPA does not believe that a substantial exposure finding is warranted due to the low number of persons involved. Finally, EPA believes that the currently available data provide no basis to expect that any of these exposures are likely to be great enough to be of clear biological significance, especially given the strong odor of pyridine which can be expected to strongly limit the levels and durations of such exposures.

Because EPA concluded that human exposure to pyridine is not sufficient to be judged substantial or significant in the context of section 4(a)(1)(B), the Agency evaluated the question of whether testing of pyridine should be required under the criteria of section

4(a)(1)(A). In order to make a finding that the chemical "may present an unreasonable risk to human health," the Agency must possess some evidence which suggests that the chemical has the potential to induce a health effect. In addition, the Agency must have a basis for believing that there is human exposure to the substance at a level which might pose a risk. Although the data discussed in unit III.B above indicate that pyridine may have a potential to cause teratogenic, neurotoxic, and mutagenic effects, EPA believes that a finding that pyridine may present an unreasonable risk from these effects is not justified considering the evidently low exposure to this substance and the lack of strongly suggestive data.

EPA has not to date attempted to articulate generally applicable criteria for the degree of likelihood that a chemical will cause an effect at anticipated human exposure levels, or the minimum levels of exposure, necessary to support a finding that a chemical may present an unreasonable risk. However, the Agency has generally recognized that there is an inverse relationship between the degree of concern about the potential hazard of a chemical (both its nature and likelihood) and the degree of exposure which would warrant testing. That is, the more severe and likely the potential health effect, the less exposure is necessary to conclude that there is sufficient concern to justify testing, and vice versa.

In this case, the data suggesting that pyridine may be teratogenic are only weakly suggestive. Available data indicate that neurotoxicity in humans follows only prolonged exposure to the chemical at high levels (Ref. 43). Data on mutagenicity indicate that pyridine is likely to be nonmutagenic (Refs. 1, 11, 18, and 19). In addition, the available information indicates that the limited uses and strong, disagreeable odor of pyridine can be expected to restrict human exposure to the substance to low concentrations and infrequent exposures (Refs. 31, 34, 35, 36, and 37). The Agency cannot conclude on the basis of this evidence that the chemical presents no risk to humans from these effects; however, it is the Agency's judgment that a significant risk of such effects is unlikely. Therefore, the Agency does not believe that a finding that pyridine may present an unreasonable risk to humans of teratogenicity, neurotoxicity or mutagenicity should be made.

EPA's decisions not to require testing of pyridine for teratogenicity, neurotoxicity, and mutagenicity are close ones. Therefore, the Agency encourages public comment on this issue, including the submission of any data different from or in addition to those discussed in this notice. If comments indicate to the Agency that exposures occur at significantly higher levels than available evidence indicates, or that there is a significantly stronger basis for believing that pyridine may present a hazard from teratogenic, neurotoxic, or mutagenic effects at levels to which humans may be exposed, the Agency will reconsider its decisions in this matter.

V. Public Record

EPA has established a public record for this testing decision on pyridine (docket number OPTS–42014) which is available for inspection in the OPTS Reading Room from 8:00 a.m. to 4:00 p.m. on working days in Rm. E–107, 401 M St. SW., Washington, DC 20460. This record includes basic information considered by the agency in developing this decision, such as:

(1) Federal Register notice containing the ITC Report designating pyridine to the Priority List.

(2) Public comments on the ITC Report.

(3) Communications (public, intraagency, and interagency) consisting of memoranda and letters, contact reports of telephone conversations, and meetings.

(4) Published and unpublished data.

The Agency will supplement the record with additional relevant information as it is received.

[Sec. 4, 90 Stat. 2003; (15 U.S.C. 2061)]

Dated December 20, 1982.

Anne M. Gorsuch,

Administrator.

[OPP–180616; PH–FRL 2273–1]

Emergency Exemptions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted specific exemptions for the control of various pests in the States listed below. Also listed below are three crisis exemptions initiated by certain States.

DATES: See each specific and crisis exemption for its effective dates.

FOR FURTHER INFORMATION CONTACT: See each specific and crisis exemption for the name of the contact person. The following information applies to all contact people: Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 716, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–1192).

SUPPLEMENTARY INFORMATION: EPA has granted specific exemptions to the:

1. California Department of Food and Agriculture for the use of carbaryl on pomegranates to control filbert worms, effective from October 23, 1982 to August 30, 1983. (Jack E. Housenger)

2. California Department of Food and Agriculture for the use of fenvalerate on bell peppers to control beet armyworms, effective from October 15, 1982 to July 19, 1983. California had initiated a crisis exemption for this use. (Jack E. Housenger)

3. California Department of Food and Agriculture for the use of metalaxyl on boysenberries, olallie berries, and raspberries to control *Phytophthora* root rot, effective from October 12, 1982 to September 1, 1983. California had initiated a crisis exemption for this use. (Libby Welch)

4. California Department of Food and Agriculture for the use of methiocarb on artichokes to control snails and slugs, effective from January 1, 1983 to December 31, 1983. (Gene Asbury)

5. California Department of Food and Agriculture for the use of permethrin on mushrooms to control adult sciarid flies, effective from November 6, 1982 to October 31, 1983. (Jack E. Housenger)

6. Delaware Department of Agriculture for the use of permethrin on mushrooms to control adult sciarid flies, effective from October 23, 1982 to October 15, 1983. (Jack E. Housenger)

7. Florida Department of Agriculture and Consumer Services for the use of benomyl on potatoes to control *Sclerotinia*, effective from October 21, 1982 to October 31, 1982. EPA completed a rebuttable presumption against registration (RPAR) of this chemical; the final determination was published in the Federal Register of October 20, 1982 (47 FR 46747). (Jim Tompkins)

8. Florida Department of Agriculture and Consumer Services for the use of metolachlor on cabbage, broccoli, and collards to control chickweed, dock, pigweed, purslane, ragweed, signalgrass, and crabgrass, effective from October 21, 1982 to October 1, 1983. (Libby Welch)

9. Georgia Department of Agriculture for the use of hexakis on pecans to control mites, effective from October 15, 1982 to October 31, 1982. Georgia had initiated a crisis exemption for this use. (Libby Welch)

10. Michigan Department of Agriculture for the use of metalaxyl on potatoes to control late blight, effective from October 21, 1982 to October 31, 1982. Michigan had initiated a crisis exemption for this use. (Jim Tompkins)

11. Michigan Department of Agriculture for the use of paraquat on dry beans as a harvest aid, effective

from October 27, 1982 to October 31, 1982. Michigan had initiated a crisis exemption for this use. (Jim Tompkins)

12. Minnesota Department of Agriculture for the use of metalaxyl on sunflower seeds to control downy mildew, effective from October 23, 1982 to April 30, 1983. (Jim Tompkins)

13. New Mexico Department of Agriculture for the use of fenvalerate on lettuce to control *Heliothis* spp., effective from October 20, 1982 to June 1, 1983. New Mexico had initiated a crisis exemption for this use. (Libby Welch)

14. New York State Department of Environmental Conservation for the use of permethrin on mushrooms to control adult sciarid flies, effective from October 23, 1982 to October 15, 1983. (Jack E. Housenger)

15. North Dakota Department of Agriculture for the use of metalaxyl on potatoes to control late blight, effective from October 21, 1982 to October 31, 1982. North Dakota had initiated a crisis exemption for this use. (Jim Tompkins)

16. Oregon Department of Agriculture for the use of carbofuran on mint to control strawberry root weevils, effective from October 11, 1982 to October 30, 1982. (Jim Tompkins)

17. Oregon Department of Agriculture for the use of paraquat on peppermint to control weeds, effective from October 23, 1982 to March 31, 1983. (Jack E. Housenger)

18. Pennsylvania Department of Agriculture for the use of permethrin on mushrooms to control adult sciarid flies, effective from October 23, 1982 to October 15, 1983. (Jack E. Housenger)

19. Texas Department of Agriculture for the use of metalaxyl on sunflower seed for export to control downy mildew, effective from October 23, 1982 to October 15, 1983. (Jack E. Housenger)

20. Washington Department of Agriculture for the use of metalaxyl on potates to control late blight, effective from October 21, 1982 to October 31, 1982. Washington had initiated a crisis exemption for this use. (Jim Tompkins)

21. U.S. Department of Agriculture for the use of chlorpyrifos on ornamental sod to control imported fire ants in Alabama, Arizona, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Texas, effective from October 11, 1982 to December 31, 1982. (Jack E. Housenger)

Crisis exemptions were initiated by the:

1. California Department of Food and Agriculture on October 21, 1982, for the use of triadimefon on tomatoes (fresh market) to control powdery mildew. Since it was anticipated that this program would be needed for more than 15 days, California has requested a specific exemption to continue it. The need for this program is expected to last until October 21, 1983. (Jack E. Housenger)

2. California Department of Food and Agriculture on September 30, 1982, for the use of vinclozolin on grapes (wine) to control bunch rot. The need for this program ended on December 1, 1982. (Libby Welch)

3. Hawaii Department of Agriculture on October 1, 1982, for the use of thiabendazole on papayas to control post-harvest fungal diseases. Since it was anticiapted that this program would be needed for more than 15 days, Hawaii has requested a specific exemption to continue it. The need for this program is expected to last until October 1, 1983. (Gene Asbury)

(Sec. 18, as amended, 92 Stat. 819 (7 U.S.C. 136)).

Dated: December 14, 1982.

James M. Conlon, Acting Director,

Office of Pesticide Programs.

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-673-DR]

Arkansas; Amendment to Notice of Major-Disaster Declaration

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster for the State of Arkansas (FEMA-673-DR), dated December 13, 1982, and related determinations.

DATED: December 20, 1982.

FOR FURTHER INFORMATION CONTACT: Sewall H. E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 287-0501.

NOTICE: The notice of a major disaster for the State of Arkansas dated December 13, 1982, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of December 13, 1982:

For Public Assistance:

The Counties of Cleburne, Independence, Izard, Jackson, Johnson, Lawrence, Newton, Pope, Searcy, Sharp, Stone and Van Buren.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Jack W. McGraw,

Acting Associate Director, State and Local Program and Support, Federal Emergency Management Agency.

BILLING CODE 6718-02-M

FEDERAL MARITIME COMMISSION

Mediterranean/U.S.A. Great Lakes Westbound Freight Conference Agreement No. 8260; Notice of Agreement Termination

The Federal Maritime Commission gives notice that it shall terminate its approval of the Mediterranean/U.S.A. Great Lakes Westbound Freight Conference Agreement, as amended, effective January 4, 1983, the effective date of the withdrawal of Yugoslav Great Lakes Lines from membership in the agreement. Yugoslav G. L. Lines' withdrawal will reduce the agreement membership to only one party, thereby

terminating the agreement as a matter of law. Section 15 of the shipping Act, 1916, only recognizes agreements between two or more persons subject to the Act.

By Order of the Federal Maritime Commission.

Dated: December 23, 1982.

Francis C. Hurney,

Secretary.

[FR Doc. 82-35178 Filed 12-28-82; 8:45 am]

BILLING CODE 6730-01-M

Agreements Filed

The Federal Maritime Commission hereby gives notice that following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10327; or may inspect the agreements a the Field Offices located at New York, N.Y.; New Orleans, Louisiana; San Franciso, California; Chicago, Illinois; and San Juan, Puerto Rico. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D. C. 20573, within 20 days after the date of the **Federal Register** in which this notice appears. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

Agreement No.: T-4066-1

Filing party: Mr. John E. Nolan, Assistant Port Attorney, Port of Oakland, 66 Jack London Square, P.O. Box 2064, Oakland, California 94604.

SUMMARY: Agreement No. T-4066-1 between the Port of Oakland (Port) and Hong Kong Islands Shipping Co., Ltd. (HKIS) modifies the basic agreement which provides for the nonexclusive use by HKIS at the Port's Outer Harbor Terminal, Berth 6 for the handling of vessels operated in its Transpacific service. The purpose of the modification is to amend Paragraph No. 5 of the Agreement to provide, that in the event that Crescent Wharf and Warehouse Company, the manager of Berth 6, is required to utilize adjacent Berth 5 for HKIS's vessels, the 90 percent of dockage tariff charges shall also apply as is provided when Berth 6 is utilized.

Agreement No.: T-4079.

Filing party: Mr. John E. Nolan, Assistant Port Attorney, Port of Oakland, 66 Jack London Square, P.O. Box 2064, Oakland California 94604.

SUMMARY: Agreement No. T-4079 between the Port of Oakland (Port) and Westwood Shipping Lines (WSL), is a Terminal Use Agreement which provides that WSL shall have nonexclusive right to assigned premises at the Outer Harbor Terminal, Berth 6, for the berthing, loading, discharging, and related operations in its all water North Europe-Pacific Coast Service and its all water Mediterranean and Pacific Service in the event such services have a need to call at Northern California Ports. WSL agrees that the assigned premises shall be its published regularly scheduled Northern California port of call. The authority to manage the premises for the Port is vested in Crescent Wharf and Warehouse Co. (Crescent), as separately provided for under Agreements No. T-4067. The provisions of the Port's Tariff No. 2 shall apply to WSL's use of the premises. As a consideration for its regular use of the Port, WSL will pay to the Port 90 percent of tariff dockage and wharfage revenues, instead of 100 percent of said charges. In event that Crescent, for terminal operational reasons, berths WSL's vessel at adjacent Berth No. 5, the 90 percent payment of revenues will also apply at the adjacent berth. If WSL generates in excess of 31,000 revenue tons per acre in a year, the amount of such excess wharfage tariff revenues, shall be refunded by the Port to WSL. The term of the Agreement commences upon Commission approval and shall run through August 31, 1986.

Agreement No. 9973-9

Filing party: R. Frederic Fisher, Esq., Lillick, McHose & Charles, Two Embarcadero Center, San Francisco, Calofornia 94111.

SUMMARY: Agreement No. 9973-9 modifies the Johnson Scanstar Service Agreement to: (1) Add service to inland points in the United States; (2) add service via intermodal or connecting carrier service to ports and points in foreign countries served; (3) add service between the U.S. West Coast and the West Coast of Canada; (4) eliminate the limitation of 400 TEU's imposed on single space charters by Johnson Scanstar to meet peak seasonal demand; and (5) eliminate the restriction of such ad hoc charters to carriers not regularly serving the same trades.

By Order of the Federal Maritime Commission.

Dated: December 23, 1982.

Francis C. Hurney,

Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Formation of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become bank holding companies by acquiring voting shares or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, indentifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Federal Reserve Bank of New York** (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045.

1. *Bath National Corporation,* Bath, New York; to become a bank holding company by acquiring 90 percent of the voting shares of the successor by merger to the Bath National Bank, Bath, New York. Comments on tis application must be received not later than January 21, 1983.

B. **Federal Reserve Bank of St. Louis** (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. **Bancorp. of Southern Indiana,** Seymour, Indiana; to become a bank holding company by acquiring 100 percent of the voting shares, less directors' qualifying shares, of the successor by merger to Jackson County Bank, Seymour, Indiana. Comments on this application must be received not later than January 21, 1983.

2. *Country Bancorp, Inc.* Mount Olive, Illinois, to become a bank holding company by acquiring 100 percent of the voting shares of National Bank of Mount Olive, Mount Olive, Illinois. Comments on this application must be received not later than January 21, 1983.

Board of Governors of the Federal Reserve System, December 22, 1982.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 82-35195 Filed 12-28-82; 8:45 am]

BILLING CODE 6210-01-M

Bank Holding Companies; Notice of Proposed De Novo Nonbank Activities

The organizations identified in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 115.4(b)(1)), for permission to engage de novo, directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to these applications, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated. comments and requests for hearing should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than the date indicated.

A. Federal Reserve Bank of New York (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Citicorp,* New York, New York (finance company and credit related insurance activities; Nevada): To expand the activities and service areas of two existing offices of its subsidiary, Citicorp Person-to-Person Mortgage Corporation, and to establish two *de novo* offices of Citicorp Homeowners, Inc. at the same locations. The activities in which the *de novo* offices of Citicorp Homeowners, Inc. propose to engage are: the making or acquiring of loans and other extensions of credit, secured or unsecured, for consumer and other purposes; the extension of loans to dealers for the financing of inventory (floor planning) and working capital purposes; the sale of credit related life and accident and health or decreasing or level (in the case of single payment loans) term life insurance by licensed agents or brokers, as required; the sale of consumer oriented financial management courses; the servicing, for any person, of loans and other extensions of credit; the making, acquiring, and servicing, for its own account and for the account of others, of extensions of credit to individuals secured by liens on residential or non-residential real estate; and the sale of mortgage life and mortgage disability insurance directly related to extensions of mortgage loans. The proposed service area for each of the *de novo* offices of Citicorp Homeowners, Inc. shall comprise the entire State of Nevada for all the aforementioned proposed activities. The new activities in which the offices of Citicorp Person-to-Person Morgage Corporation propose to engage *de novo* are: the making, acquiring, and servicing, for its own account and for the account of others, of extensions of credit to individuals secured by liens on residential or non-residential real estate; and the sale of mortgage life and mortgage disability insurance directly related to extensions of mortgage loans. The proposed service area for each office of Citicorp Person-to-Person Mortgage Corporation shall be the entire State of Nevada for the aforementioned proposed activities, and for the following activities which have been previously approved for Citicorp Person-to-Person Mortgage Corporation: the making or acquiring of loans and other extensions of credit, secured or unsecured, for consumer and other purposes; the extension of loans to dealers for the financing of inventory (floor planning) and working capital purposes; the sale of credit related life and accident and health or decreasing or level (in the case of single payment loans) term life insurance by licensed agents or brokers, as required; the sale of consumer oriented financial management courses; and the servicing, for any person, of loans and other extensions of credit. Credit related life, accident, and health insurance may be written by Family Guardian Life Insurance Company, an affiliate of Citicorp Person-to-Person Mortgage Corporation and Citicorp Homeowners, Inc. The aforementioned activities will be conducted from the following two locations: Las Vegas and Reno, Nevada. Comments on this application must be received not later than January 21, 1983.

2. *Citicorp,* New York, New York (finance company and credit related insurance activities; New Mexico and Texas): To expand the activities and service areas of two existing offices of its subsidiary, Citicorp Person-to-Person Financial Center, Inc., and to estabish two *de novo* offices of Citicorp Homeowners, Inc. at the same locations. The activities in which the *de novo* offices of Citicorp Homeowners, Inc. propose to engage are: the making or acquiring of loans and other extensions of credit, secured or unsecured, for consumer and other purposes; the extension of loans to dealers for the financing of inventory (floor planning) and working capital purposes; the sale of credit related life and accident and health or decreasing or level (in the case of single payment loans) term life insurance by licensed agents or brokers, as required; the sale of consumer oriented financial management courses; the servicing, for any person, of loans and other extensions of credit; the making, acquiring, and servicing, for its own account and for the account of others, of extensions of credit to individuals secured by liens on residential or non-residential real estate; and the sale of mortgage life and mortgages disability insurance directly related to extensions of mortgage loans. The proposed service area for each of the *de novo* offices of Citicorp Homeowners, Inc. shall be the entire States of New Mexico and Texas for all the aforementioned proposed activities. The new activities in which the offices of Citicorp Person-to-Person Financial Center, Inc. propose to engage *de novo* are: the making, acquiring, and servicing, for its own account and for the account of others, of extensions of credit to individuals secured by liens on residential or non-residential real estate; and the sale of mortgage life and mortgage disability insurance directly related to extensions of mortgage loans. The proposed service area for each office of Citicorp Person-to-Person Financial Center, Inc. shall be the entire States of New Mexico and Texas for the aforementioned proposed activities, and for the following activities which have been previously approved for Citicorp Person-to-Person Financial Center, Inc.: the making or acquiring of loans and other extensions of credit, secured or

unsecured, for consumer and other purposes; the extension of loans to dealers for the financial of inventory (floor planning) and working capital purposes; the sale of credit related life and accident and health or decreasing or level (in the case of single payment loans) term life insurance by licensed agents or brokers, as required; the sale of consumer oriented financial management courses; and the servicing, for any person, of loans and other extensions of credit. Credit related life, accident, and health insurance may be written by Family Guardian Life Insurance Company, an affiliate of Citicorp Person-to-Person Financial Center, Inc. and Citicorp Homeowners, Inc. The aforementioned activities will be conducted from the following two locations: Albuquerque and Santa Fe, New Mexico. Comments on this application must be received not later than January 21, 1983.

B. **Federal Reserve Bank of Philadelphia** (Thomas K. Desch, Vice President) 100 North 6th Street, Philadelphia, Pennsylvania 19105:

1. *FB & T Corporation,* Hanover, Pennsylvania (mortgage banking, servicing, and credit insurance activities; Pennsylvania): To engage through its subsidiary, FB & T Mortgage Company, in making and acquiring loans and other extensions of credit secured by real estate mortgages and deeds of trust and acting as agent for the sale of credit life and accident and disability insurance directly related to its extensions of credit. These activities will be conducted from offices in Hanover, Pennsylvania, serving Pennsylvania. Comments on this application must be received not later than January 21, 1983.

2. *Univest Corporation of Pennsylvania,* Souderton, Pennsylvania (financial management and related services, Pennsylvania, New Jersey, Delaware, Florida, Maryland and Virginia): To engage, through its subsidiary, Univest Financial Planning Corporation acting as investment or financial advisors and providing portfolio investment advice and financial advice to the extent authorized by section 225.4(a)(5) of Regulation Y. These activities will be conducted from offices in Souderton, Montgomery County, Pennsylvania, serving Pennsylvania, New Jersey, Delaware, Florida, Maryland and Virginia. Comments on this application must be received not later than January 18, 1983.

C. **Federal Reserve Bank of Richmond** (Lloyd W. Bostian, Jr., Vice President) 701 East Byrd Street, Richmond, Virginia 23261:

1. *Maryland National Corporation,* Baltimore, Maryland (leasing and commercial lending activities: continental United States): To engage through its subsidiaries Maryland National Leasecorp and Maryland National Leasing Services Corporation in the following activities: engaging generally in the business of leasing real property where the lease is the functional equivalent of an extension of credit; originating real property leases as principal or agent; servicing real property leases for affiliated or non-affiliated individuals, partnerships, corporations or other entities; buying, selling and otherwise dealing in real property leases as principal, agent or broker; acting as adviser in real property leasing transactions; engaging generally in commercial lending operations including, but not limited to, secured or unsecured commercial loans and other extensions of credit to commercial enterprises; and acting as advisor or broker in commercial lending transactions. These activities would be conducted from the present offices of the subsidiaries in Towson, Maryland. The geographic area to be served will be the continental United States. Comments on this application must be received not later than January 21, 1983.

D. **Federal Reserve Bank of Atlanta** (Robert E. Heck, Vice President) 104 Marietta Street, N.W., Atlanta, Georgia 30303:

1. *First Railroad & Banking Company of Georgia,* Augusta, Georgia, (banking, consumer finance, insurance premium financing, and bank data processing; Alabama, Florida, Georgia, North Carolina, South Carolina, Tennessee and Virginia): To engage through its subsidiary, First Financial Management Corporation, in providing data processing and transmission services, facilities, data bases, and access to such services, facilities and data bases both for the internal operations of the Application and its subsidiaries and for other customers. These data processing services will be provided from two major computer centers located in Atlanta, Georgia, and Miami, Florida to customers in Georgia, Florida, Alabama, North Carolina, South Carolina, Tennessee and Virginia. These services will be provided through existing and future remote input/output data collection centers located within the states being served, through input/output equipment located in the customers' offices, through a transmission network of ground couriers and through any other technological means which may be feasible. Comments on this application must be received not later than January 12, 1983.

2. *Southeast Banking Corporation,* Miami, Florida (mortgage banking activities; Florida): To engage through its subsidiary, Southeast Mortgage Company, in origination and servicing of loans and other extensions of credit secured by real estate mortgages. The activities would include preparing applications for loans, assembling credit information and solicitation of loan business. These activities would be conducted from an office to be located in Ponte Vedra Beach, Florida, serving St. Johns County and portions of Duval County which are in close proximity to office. Comments on this application must be received not later than January 19, 1983.

E. **Federal Reserve Bank of Kansas City** (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *First City Bancorp,* Oklahoma City, Oklahoma (financing activities, credit-life, accident and health insurance activities; Oklahoma): To engage directly in making or acquiring loans and other extensions of credit, both secured and unsecured, including commercial loans secured by a borrower's inventory, accounts receivable or other assets, consumer loans, residential and commercial construction loans, and loans secured by second real estate mortgages, such as would be made, for example, by a mortgage, finance, credit card or factoring company; to continue to engage indirectly in the sale of credit-life, accident, and health insurance directly related to an extension of credit by the applicant or its subsidiary bank. These activities would be conducted from offices in Oklahoma City, Oklahoma, serving the State of Oklahoma. Comments on this application must be received not later than January 20, 1983.

Board of Governors of the Federal Reserve System, December 22, 1982.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of Human Development Services

Administration on Aging; SCAN Data Bases; Activity Notice

AGENCY: Office of Human Development Services, HHS.

ACTION: Extension of closing date for receipt of applications for assumption of certain data bases at no cost to the Federal Government.

SUMMARY: The Administration on Aging (AoA) announced on December 1, 1982 (47 FR 54266) that competing applications would be accepted for assumption, dissemination and utilization of information in the SCAN Information System. The present notice extends the closing date of the December 1, notice.

DATE: Closing date for receipt of applications is extended to January 31, 1983.

SUPPLEMENTARY INFORMATION: At the information sharing meeting on December 10, 1982, a representative of an organization interested in applying for these activities suggested that the closing date be extended because of the loss of work time that is expected during the holidays. This was supported without exception by the more than 30 persons who attended the meeting. As a result, the closing date for submissions of applications is extended to January 31, 1983. Conditions for meeting the closing date remain as stated in the December 1 notice.

Dated: December 16, 1982.

Lennie-Marie P. Tolliver,

Commissioner on Aging.

Dated: December 22, 1982.

Dorcas R. Hardy,

Assistant Secretary for Human Development Services.

BILLING CODE 4130-01-M

National Institutes of Health

Board of Regents, the Extramural Programs Subcommittee, and the Lister Hill Center and National Medical Audiovisual Center Subcommittee; Meetings

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Board of Regents of the National Library of Medicine on January 27-28, 1983, in the NMAC Classroom, Lister Hill Center Building of the National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland, and the meetings of the Extramural Programs Subcommittee of the Board of Regents and the Lister Hill Center and National Medical Audiovisual Center Subcommittee on the preceding day, January 26, 1983, from 1:00 to 5:00 p.m., in the 5th floor Conference Room, and from 2:00 to 5:00 p.m. in the 7th-floor Conference Room of the Lister Hill Center Building, respectively.

The meeting of the Board will be open to the public from 9:00 a.m. to 5:00 p.m. on January 27 and from 10:15 a.m. to adjournment on January 28 for administrative reports and program discussions. The entire meeting of the Lister Hill Center and National Medical Audiovisual Center Subcommittee will be open to the public for a discussion of program directions of the National Medical Audiovisual Center. Attendance by the public will be limited to space available.

In accordance with provisions set forth in Sections 552b(c)(4), 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the entire meeting of the Extramural Programs Subcommittee on January 26 will be closed to the public, and the regular Board meeting on January 28 will be closed from 9:00 to 10:15 a.m. for the review, discussion, and evaluation of individual grant applications. These applications and the discussion could reveal confidential trade secrets or commercial property, such as patentable material and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. Robert B. Mehnert, Chief, Office of Inquiries and Publications Management, National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland 20209, Telephone Number: 301-496-6308, will furnish a summary of the meeting, rosters of Board members, and other information pertaining to the meeting.

BILLING CODE 4140–01–M

National Advisory Council on Aging; Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the National Advisory Council on Aging, National Institute on Aging, on February 3–4, 1983, in Building 31, Conference Room 10, National Institutes of Health, Bethesda, Maryland.

The meeting will be open to the public on Thursday, February 3, from 9:00 a.m. until noon, for a status report by the Acting Director, National Institute on Aging, a report from the Council ad hoc Program Committee and a report on Indirect Costs. It will be open to the public on Friday, February 4, from 9:00 a.m. until adjournment for the Epidemiology, Demography and Biometry and Intramural Program Reviews. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Section 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Public Law 92–463, the meeting will be closed to the public on February 3, 1983, from 1:00 p.m. until adjournment for the review, discussion and evaluation of grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Ms. June C. McCann, Council Secretary, National Institute on Aging, Building 31, Room 2C–05, National Institutes of Health, Bethesda, Maryland 20205 (Area Code 301, 496–5898), will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.866, Aging Research, National Institutes of Health)

Dated: December 10, 1982.

Betty J. Beveridge,

Committee Management Officer, National Institutes of Health.

BILLING CODE 4140–01–M

National Advisory Allergy and Infectious Diseases Council, Allergy and Immunology Subcommittee, Microbiology and Infectious Diseases Subcommittee; Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the National Advisory Allergy and Infectious Diseases Council, National Institute of Allergy and Infectious Diseases, and its subcommittees on January 27–28, 1983, at the National Institutes of Health, Building 31C, Conference Room 10, Bethesda, Maryland 20205.

The meeting will be open to the public on January 27 from approximately 9:00 a.m. to 9:30 a.m. for opening remarks of the Institute Director and again from 1:30 p.m. to approximately 5:00 p.m. for discussion of procedural matters, Council business, and a report from the Institute Director which will include a discussion of budgetary matters. The primary discussions will be on Occupational Health and Acquired Immunodeficiency Disease Syndrome. On January 28 the meeting will be open to the public from approximately 9:00 a.m. to 10:00 a.m. for the report of the director of the Immunology, Allergic and Immunologic Diseases Program and the director of the Microbiology and Infectious Disease Program. Attendance by the public at all open sessions will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code, and section 10(d) of Public Law 92–463, the meetings of the NAAIDC Allergy and Immunology Subcommittee and of the NAIDC Microbiology and Infectious Diseases Subcommittee will be closed to the public for approximately three hours for the review, evaluation, and discussion of individual grant applications. It is aniticipated that this will occur from 9:30 a.m. until approximately 12:30 p.m. on January 27, 1983. The meeting of the full Council will be closed from approximately 10:00 a.m. until adjournment on January 28 for the review, evaluation, and discussion of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. Robert L. Schreiber, Chief, Office of Research Reporting and Public Response, National Institute of Allergy and Infectious Diseases, Building 31, Room 7A32, National Institutes of Health, Bethesda, Maryland 20205, telephone (301) 496–5717, will provide summaries of the meetings and rosters of the Council members as requested.

Dr. John W. Diggs, Director, Extramural Activities Program, NIAID, NIH, Westwood Building, Room 703, telephone (301) 496–7291, will provide substantive program information.

(Catalog of Federal Domestic Assistance Program Nos. 13.855, Pharmacological Sciences; 13.856, Microbiology and Infectious Diseases Research, National Institutes of Health.)

Dated: December 16, 1982.

Betty J. Beveridge,

National Institute of Health Committee Management Officer.

BILLING CODE 4140–01–M

National Advisory Research Resources Council; Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the National Advisory Research Resources Council, Division of Research Resources (DRR), February 3–4, 1983, Conference Room 6, Building 31, National Institutes of Health, 9000 Rockville Pike, Bethesda, MD 20205.

The meeting will be open to the public on February 3 from 9:00 a.m. to recess for the following: Opening remarks by

the Director, DRR, comments by the Deputy Director, NIH (tentative), consideration of the minutes of the previous meeting, consideration of future meeting dates, Council discussion of the report of the Director, DRR, a report of the Council Planning Committee, review of the Council Operating Procedures, a report on the Department of Defense Equipment Program by a member of the Council, a presentation on clinical research coordinated by the Program Director, General Clinical Research Centers Program, DRR, and consideration of new business. Attendance by the public will be limited to space available.

In accordance with provisions set forth in Sections 552b(c)(4) and 552b(c)(6) Title 5, U.S. Code and Section 10(d) of Pub. L. 93–463, the meeting will be closed to the public on February 4 from approximately 8:30 a.m. to adjournment for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. James Augustine, Information Officer, Division of Research Resources, Rm. 5B10, Bldg. 31, National Institutes of Health, Bethesda, MD 20205, (301) 496–5545, will provide summaries of the meeting and rosters of the Council members. Dr. James F. O'Donnell, Deputy Director, Division of Research Resources, Rm. 5B03, Bldg. 31, National Institutes of Health, Bethesda, MD 20205 (301) 496–6023, will furnish substantive program information and will receive any comments pertaining to this announcement.

BILLING CODE 4140–01–M

National Heart, Lung, and Blood Advisory Council; Meetings

Pursuant to Public Law 92–463, notice is hereby given of four public briefing meetings to be sponsored by the National Heart, Lung, and Blood Advisory Council of the National Institutes of Health. The meetings will be held at the following times and locations:

February 24–25, 1983: Washington, D.C., 9:00 a.m. to adjournment, Lister Hall Auditorium, Building 38A, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20205.

March 3–4, 1983: San Francisco, California, 9:00 a.m. to adjournment, San Francisco Hilton and Tower, 333 O'Farrell Street, San Francisco, California 94102.

March 24–25, 1983: New Orleans, Louisiana, 9:00 a.m. to adjournment, International Hotel, 300 Canal Street, New Orleans, Louisiana 70130.

April 14–15, 1983: Chicago, Illinois, 9:00 a.m. to adjournment, Radisson, Chicago Hotel, 505 North Michigan Avenue, Chicago, Illinois 60611.

These meetings will be open to the public for the purpose of informing biomedical scientists, administrators, volunteer health organizations, and the public about the status of the National Heart, Lung, and Blood Institute and about possible strategies for achieving and maintaining a balance of program mechanisms for protecting the number of research grants awarded by the Institute. These briefing meetings are designed as an educational effort that will also provide the opportunity for the Council and the National Heart, Lung, and Blood Institute to hear directly from those interested in and concerned about the future of the Institute's extramural programs.

Those who wish to speak at a briefing meeting must submit a written request to Dr. Jay Moskowitz, address given at the end of this notice, no later than January 21, 1983. The request to speak must include the following: (1) The name of the person who wishes to address the Council; (2) the professional affiliation of the requesting speaker, if appropriate; (3) a brief summary of the statement that would be presented; and (4) the address and telephone number where the requesting speaker can be reached during business hours.

Speakers will be selected from the constituencies who look to the Institute to advance knowledge about heart, lung, and blood diseases and from others whose interests correspond to the extramural programs of the National Heart, Lung, and Blood Institute.

Each speaker will be allowed about ten minutes. A list of speakers for a meeting will be sent in advance to the region in which that particular meeting will be held. Additional written comments of any length may be submitted, at any time, for distribution to the Council. The results of these briefing meetings, including the texts of the speakers and all other materials submitted, will be available in the summer of 1983.

Further information concerning the meetings and the results of the briefing meetings can be obtained from: Dr. Jay Moskowitz, Public Briefing Meetings, National Heart, Lung, and Blood Advisory Council, National Heart, Lung, and Blood Institute, Building 31, Room 5A–03, Bethesda, Maryland 20205, (301) 496–6331.

BILLING CODE 4140–01–M

Neurological Disorders Program—Project Review B Committee; Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Neurological Disorders Program—Project Review B Committee, National Institutes of Health, February 21, 22, and 23, 1983, at the Linden Hill Hotel & Racquet Club, 5400 Pooks Hill Road, Bethesda, Maryland 20814.

The meeting will be open to the public from 2:00 p.m. until 2:30 p.m. on February 21, 1983, to discuss program planning and program accomplishments. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Section 552b(c)(4), and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92–463, the meeting will be closed to the public on February 21st from 2:30 p.m. to adjournment on February 23rd, for the review, discussion and evaluation of individual grant applications. The applications and the discussion could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Sylvia Shaffer, Chief, Office of Scientific and Health Reports, Building 31, Room 8A03, NIH, NINCDS, Bethesda, MD 20205, telephone 301/496–5751, will furnish summaries of the meeting and roster of committee members.

Dr. Ellen G. Archer, Executive Secretary, Federal Building, Room 9C10B, Bethesda, MD 20205, telephone 301/496-9223, will furnish substantive program information.

BILLING CODE 4140-01-M

Public Health Service

General Powers and Duties of Public Health Service; Delegation of Authority

Notice is hereby given that in furtherance of the delegation of January 14, 1981 (46 FR 10016) by the Secretary of Health and Human Services to the Assistant Secretary for Health of authority under Title III of the Public Health Service Act the Assistance Secretary for Health has delegated to the Director, National Center for Health Statistics the following authorities:

(1) Section 301 of the Public Health Service Act (42 U.S.C. 241), as amended, authority relative to research, investigation, and testing functions.

(2) Section 304 of the Public Health Service Act (42 U.S.C. 242b), as amended, general authority respecting research, evaluations, and demonstrations in health statistics, health services, and health care technology.

(3) Section 306 of the Public Health Service Act (42 U.S.C. 242k), as amended, authority pertaining to the National Center for Health Statistics.

(4) Section 307 of the Public Health Service Act (42 U.S.C. 2421), as amended, international cooperation authority.

(5) Section 310 of the Public Health Service Act (42 U.S.C. 242o), as amended, authority relative to health conferences and health education information.

The above authorities do not include: (a) The authority to prescribe regulations; (2) the authority under section 304(b)(4) relative to the acquisition, construction, improvements, repair, operation, and maintenance of real property; or (3) the authority under section 306(k) relative to the establishment of and the selection of members to the National Committee on Vital and Health Statistics and the designation of the tems of offices for members upon their appointment or reappointment to said committee.

The Director, National Center for Health Statistices, may redelegate: (1) The authority under sections 301, 307, and 310 within the National Center for Health Statistics and exercise them insofar as they pertain to the functions assigned to the National Center for Health Statistics, and (2) the authority under sections 304 and 306 as specified by statute or as appropriate.

The December 24, 1981, delegation by the Deputy Assistant Secretary for Health Research, Statistics, and technology to the Director, National Center for Health Statistics, has been superseded insofar as it pertains to authorities under Title III of the Public Health Service Act. Provision has been made for previous delegations and redelegations to other officials within the National Center for Health Statistics to continue in effect, provided they are consistent with the delegation to the Director, National Center for Health Statistics.

In addition to the delegation to the Director, National Center for Health Statistics, the Assistant Secretary for Health has amended the August 4, 1981 delegation to the Director, Centers for Disease Control, by cancelling the authority under section 304, General Authority Respecting Research, Evaluations, and Demonstrations in Health Statistics, Health Services and Health Care Technology and under section 308, General Provisions Respecting Sections 304, 305, 306, 307, and 309 of the Public Health Service Act, from the area of authority assigned to the Centers for Disease Control. All other Title III authorities delegated to the Director, Centers for Disease Control remain in effect.

The delegation to the Director, National Center for Health Statistics and the amendment to the August 4, 1981 delegation to the Director, Centers for Disease Control became effective on December 2, 1982.

Dated: December 2, 1982.

Edward N. Brandt, Jr.,

Assistant Secretary for Health.

BILLING CODE 4160-17-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. N-82-1193]

Federal National Mortgage Association—Maximum Debt-to-Capital Ratio

AGENCY: Office of the Secretary, HUD.

ACTION: Notice of Fixing of Maximum Debt-to-Capital Ratio.

SUMMARY: This Notice announces a change in FNMA's maximum debt-to-capital ratio from 25-to-1 to 30-to-1.

FOR FURTHER INFORMATION CONTACT: John A. Maxim, Jr., Associate General Counsel for Insured Housing and Finance, Office of General Counsel, Department of Housing and Urban Development, Room 9238, 451 Seventh Street, S.W., Washington, D.C. 20410, (202) 755-6274. (This is not a toll-free number).

SUPPLEMENTARY INFORMATION: Section 304(b) of the FNMA Charter Act, 12 U.S.C. 1719, provides that FNMA:

> Is authorized to issue * * * and have outstanding at any one time obligations having such rate or rates of interest as may be determined by the corporation * * *; but the aggregate amount of obligations of the corporation under this subsection outstanding at any one time shall not exceed fifteen times the sum of its capital, capital surplus, general surplus, reserves, and undistributed earnings unless a greater ratio shall be fixed at any time or from time to time by the Secretary of Housing and Urban Development.

Section 304(e) of the Charter Act provides that, for the purpose of the above limitation, the amount of FNMA's outstanding subordinated obligations are deemed to be capital.

By a document published at 33 FR 14779, effective October 1, 1968, the Secretary fixed the maximum ratio described in section 304(b) at 20-to-1. By a document published at 34 FR 19656, effective December 8, 1969, the Secretary changed the ratio to 25-to-1. That maximum ratio was incorporated into HUD regulations implementing the Secretary's authority over the conduct of FNMA's secondary market operations promulgated in 1978 (43 FR 36200).

By a final rule published at 47 FR 31866 (July 22, 1982), effective September 10, 1982, 24 CFR 81.15 was amended to provide that upon request submitted by FNMA, including justification satisfactory to the Secretary, the Secretary from time to time may fix such greater maximum ratio than the statutory ratio of 15-to-1 as the Secretary, in his discretion, may determine, which shall remain in effect as FNMA's maximum ratio until otherwise specified by the Secretary. The regulation further provides that upon fixing or changing a maximum ratio, the Secretary shall cause notice of such action to be published in the Federal Register.

Pursuant to such provisions, FNMA recently requested that the Secretary increase the maximum debt-to-capital

ratio from 25-to-1 to 30-to-1. In support of its request, FNMA advised that its actual debt-to-capital ratio at August 31, 1982, adjusted on a pro forma basis for a stock-for-debentures exchange and a subordinated debenture private placement which occurred after that date, was 23-to-1. Based on a projection of its foreseeable debt financing needs at then-current interest rates (which have declined substantially since the date of FNMA's request), FNMA predicted that it would reach the 25-to-1 maximum ratio at the end of the calendar year or shortly thereafter. FNMA therefore requested that the Secretary increase the maximum ratio to 30-to-1.

The setting of a maximum debt-to-capital ratio for FNMA by the Secretary does not indicate a Secretarial judgment as to the soundness of FNMA's financial condition under the circumstances of such a capitalization structure nor does it imply Federal backing of any sort for FNMA debt issued within the limits set. As acknowledged by the Chairman of FNMA in his request to the Secretary, "The financial market must, of course, determine for itself the appropriateness of FNMA's ratio in making judgments about yield and term requirements for FNMA's debt." Federal financial backing of FNMA is limited to the authority of the Secretary of the Treasury, granted by Section 304(c) of the FNMA Charter Act, to purchase obligations of FNMA up to a maximum of $2.25 billion outstanding at any time, as a public debt transaction.

The Secretary recognizes, however, that the maximum ratio set by him may affect FNMA's borrowing ability, or the attractiveness of its securities, in another way. As FNMA's actual debt-to-capital ratio approaches the limit set by the Secretary, indicating the possibility of an urgent need for an increase in the near future, uncertainty and consequent adverse market reaction could result. The Secretary believes, therefore, that it is both prudent and in the interest of facilitating FNMA's continued ability to meet its statutory purposes that the maximum ratio be maintained at a level which will permit continuation of projected activities without artificial hindrance for the proximately foreseeable future.

Accordingly, the Secretary has granted FNMA's request and has fixed FNMA's maximum debt-to-capital ratio at 30-to-1, effective December 22, 1982.

Dated: December 22, 1982.

John J. Knapp,

General Counsel.

[FR Doc. 82-35233 Filed 12-28-82; 8:45 am]

BILLING CODE 4210-01-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

California; Realty Action

In the matter of Recreation and public purposes—lands suitable for lease/sale of public lands in Shasta County, California.

Pursuant to 43 CFR 2400, the Bureau of Land Management proposes to classify and segregate the following described land as suitable for application under the Recreation and Public Purposes Act of June 14, 1926, as amended (43 U.S.C. 869, et seq.).

Shasta County, California

T. 32 N., R. 5 W M.D.M.
Section 32, all or portion of lots 141, 143, 151, 152, 153, 154, 156, 157, 158, and a portion of the Homestake No. 3, all lying within the NW¼ (lying at the NW corner of the intersection of Highway 299 W and Iron Mountain Road)
The tract as described contains aproximately 19 acres.

The California Department of Forestry (CDF) has expressed an interest in establishing a forest fire station on the above referenced site (CA 12988), through the Recreation and Public Purposes Act, as amended.

This decision/notice is based upon the following rationale:

1. The proposed classification and use is in conformance with existing land use plans.

2. The lands have been found to be suitable and valuable for public purposes and/or recreation uses.

3. The land is not of national significance and not essential to any Bureau of Land Management program.

4. The proposed use will have no known significant effect on the human and natural environment. Further study will be evaluated prior to issuing a lease, with option to purchase.

5. Leasing, with option to purchase, of the above-described lands, will provide land necessary to serve the public interest.

Classification of these lands under the provisions of the Recreation and Public Purposes Act will segregate them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws and applications under the Recreation and Public Purposes Act.

For a period of 45 days from the date of this notice, interested parties may submit comments to the Area Manager, 355 Hemsted Drive, Redding, California 96002. Any adverse comments will be evaluated by the State Director who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become a final determination of the Bureau of Land Management.

Dated: December 9, 1982.

Robert Korfhage,

Acting Area Manager.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 104-TAA-14]

Bicycle Tires and Tubes From the Republic of Korea

AGENCY: International Trade Commission.

ACTION: Institution of countervailing duty investigation and scheduling of a hearing to be held in connection with the investigation.

SUMMARY: Pursuant to section 104(b)(2) of the Trade Agreements Act of 1979 (19 U.S.C. 1671 note), the United States International Trade Commission is instituting this countervailing duty investigation to determine whether an industry in the United States would be materially injured, or would be threatened with material injury, or the establishment of an industry in the United States would be materially retarded, by reason of imports of bicycle tires and tubes from the Republic of Korea (Korea) provided for in items 772.48 and 772.57 of the Tariff Schedules of the United States, covered by an outstanding countervailing duty order, if the order were to be revoked.

EFFECTIVE DATE: December 21, 1982.

FOR FURTHER INFORMATION CONTACT: Jim McClure, Supervisory Investigator, Office of Investigations, U.S. International Trade Commission, Washington, D.C. 20436, telephone 202-523-0439.

SUPPLEMENTARY INFORMATION:

Background.—On January 12, 1979,

the Department of the Treasury (Treasury) issued a countervailing duty order T.D. 79-131, under section 303 of the Tariff Act of 1930 (19 U.S.C. 1303), on bicycle tires and tubes imported from Korea manufactured by Korea Inoue Kasei Co. (KIK) (44 FR 2570).

On January 1, 1980, the provisions of the Trade Agreements Act of 1979 (Public Law 96-39) became effective, and on January 2, 1980, the authority for administering the countervailing duty statutes was transferred from Treasury to the Department of Commerce (Commerce).

As required by section 751(a)(1) of the Traiff Act of 1930 (19 U.S.C. 1675(a)(1)), Commerce has conducted its first annual review of the countervailing duty order on bicycle tires and tubes from Korea. As a result, Commerce determined that bicycle tires and tubes manufactured by KIK have benefitted from a total net subsidy of 1.05 percent of the f.o.b. invoice price of the merchandise (46 FR 38736, July 1981). On July 20, 1982, Commerce published in the **Federal Register** (47 FR 31412) the preliminary results of its second annual review. As a result of that review, Commerce has preliminarily determined the net subsidy on bicycle tires and tubes from Korea manufactured by KIK to be 0.95 percent of the f.o.b. invoice price of the merchandise.

Participation in the investigation.—Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the Commission's Rules of Practice and Procedure (19 CFR 201.11, as amended by 47 FR 6189, Feb. 10, 1982), not later than 21 days after the publication of this notice in the **Federal Register.** Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the entry.

Upon the expiration of the period for filing entries of appearance, the Secretary shall prepare a service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation, pursuant to § 201.11(d) of the Commission's rules (19 CFR 201.11(d), as amended by 47 FR 6189, Feb. 10, 1982). Each document filed by a party to this investigation must be served on all other parties to the investigation (as identified by the service list), and a certificate of service must accompany the document. The Secretary will not accept a document for filing without a certificate of service (19 CFR 201.16(c), amended by 47 FR 33682, Aug. 4, 1982).

Staff report.—A public version of the staff report containing preliminary findings of fact in this investigation will be placed in the public record on February 14, 1983, pursuant to section 207.21 of the Commission's rules (19 CFR 207.21).

Hearing.—The Commission will hold a hearing in connection with this investigation concurrently with the hearing for antidumping investigation No. 731-TA-94 (Final), bicycle tires and tubes from Taiwan, beginning at 10:00 a.m., on March 1, 1983, at the U.S. International Trade Commisssion Building, 701 E Street, NW., Washington, D.C. 20436. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission not later than the close of business (5:15 p.m.) on February 18, 1983. All persons desiring to appear at the hearing and make oral presentations should file prehearing briefs and attend a prehearing conference to be held at 10:00 a.m., on February 22, 1983, in room 117 of the U.S. International Trade Commission Building. The deadline for filing prehearing briefs is February 25, 1983.

Testimony at the public hearing is governed by section 207.23 of the Commission's rules (19 CFR 207.23, as amended by 47 FR 33682, Aug. 4, 1982). This rule requres that testimony be limited to a nonconfidential summary and analysis of material contained in prehearing briefs and to information not available at the time the prehearing brief was submitted. All legal arguments, economic analyses, and factual materials relevent to the public hearing should be included in prehearing brief in accordance with section 207.22 (19 CFR 207.22, as amended by 47 FR 33682, Aug. 4, 1982). Post hearing briefs must conform with the provisions of section 207.24 (19 CFR 207.24, as amended by 47 FR 6191, Feb. 10, 1982) and must be submitted not later than the close of business on March 8, 1983.

Written submission.—As mentioned, parties to this investigation may file prehearing and posthearing briefs by the dates shown above. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation on or before March 8, 1983. A signed original and fourteen (14) true copies of each submission must be filed with the Secretary to the Commission in accordance with § 201.8 of the Commission's rules (19 CFR 201.8, as amended by 47 FR 6188, Feb. 10, 1982, and 47 FR 13791, Apr. 1, 1982). All written submissions except for confidential business data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commissions.

Any business information for which confidential treatment is desired shall be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of section 201.6 of the Commission's rules (19 CFR 201.6).

For further information concerning the conduct of the investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, Part 207, Subparts A and C (19 CFR Part 207, as amended by 47 FR 6190, Feb. 10, 1982, and 47 FR 33682, Aug. 4, 1982), and Part 201, Subparts A through E (19 CFR Part 201, as amended by 47 FR 6188, Feb. 10, 1982; 47 FR 13791, Apr. 1, 1982; and 47 FR 33682, Aug. 4, 1982).

This notice is published pursuant to § 207.20 of the Commission's rules (19 CFR 207.20, as amended by 47 FR 6190, Feb. 10, 1982).

By order of the Commission.

Issued: December 22, 1982.

BILLING CODE 7020-02-M

[Investigation No. 731-TA-94 (Final)]

Bicycle Tires and Tubes From Taiwan

AGENCY: International Trade Commission.

ACTION: Institution of final antidumping investigation and scheduling of a hearing to be held in connection with the investigation.

EFFECTIVE DATE: December 7, 1982.

SUMMARY: As a result of an affirmative prelimary determination by the U.S. Department of Commerce that there is a reasonable basis to believe or suspect that imports from Taiwan of bicycle tires and tubes, provided for in items 772.48 and 772.57 of the Tariff Schedules of the United States, are being, or are likely to be, sold in the United States at less than fair value (LTFV) within the meaning of section 731 of the Tariff Act of 1930 (19 U.S.C. 1673), the United States International Trade Commission hereby gives notice of the institution of

Investigation No. 731-TA-94 (Final) under section 735(b) of the act (19 U.S.C. 1673d(b)) to determine whether an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of such merchandise. Unless the investigation is extended, the Department of Commerce will make its final dumping determination in the case on or before February 8, 1983, and the Commission will notify the Department of Commerce of its final injury determination by April 5, 1983 (19 CFR 207.25).

FOR FURTHER INFORMATION CONTACT: Jim McClure, Supervisory Investigator, Office of Investigations, U.S. International Trade Commission, telephone 202-523-0439.

SUPPLEMENTARY INFORMATION:

Background.—On June 14, 1982, the Commission notified the Department of Commerce, on the basis of the information developed during the course of its preliminary investigation, that there is a reasonable indication that an industry in the United States is threatened with material injury by reason of alleged LTFV imports of bicycle tires and tubes from Taiwan. The preliminary investigation was instituted in response to a petition filed on April 30, 1982, by counsel for Carlisle Tire & Rubber Co., the sole domestic producer of bicycle tires and tubes.

Participation in the investigation.—Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the Commission's Rules of Practice and Procedure (19 CFR 201.11, as amended by 47 FR 6189, Feb. 10, 1982), not later than 21 days after the publication of this notice in the **Federal Register**. Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the entry.

Upon the expiration of the period for filing entries of appearance, the Secretary shall prepare a service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation, pursuant to § 201.11(d) of the Commission's rules (19 CFR 201.11(d), as amended by 47 FR 6189, Feb. 10, 1982). Each document filed by a party to this investigation must be served on all other parties to the investigation (as identified by the service list), and a certificate of service must accompany the document. The Secretary will not accept a document for filing without a certificate of service (19 CFR 201.16(c), amended by 47 FR 33682, Aug. 4, 1982).

Staff report.—A public version of the staff report containing preliminary findings of fact in this investigation will be placed in the public record on February 14, 1983, pursuant to section 207.21 of the Commission's rules (19 CFR 207.21).

Hearing.—The Commission will hold a hearing in connection with this investigation beginning at 10:00 a.m., on March 1, 1983, at the U.S. International Trade Commission Building, 701 E Street NW., Washington, D.C. 20436. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission not later than the close of business (5:15 p.m.) on February 18, 1983. All persons desiring to appear at the hearing and make oral presentations should file prehearing briefs and attend a prehearing conference to be held at 10:00 a.m., on February 22, 1983, in room 117 of the U.S. International Trade Commission Building. The deadline for filing prehearing briefs is February 25, 1983.

Testimony at the public hearing is governed by section 207.23 of the Commission's rules (19 CFR 207.23, as amended by 47 FR 33682, Aug. 4, 1982). This rule requires that testimony be limited to a nonconfidential summary and analysis of material contained in prehearing briefs and to information not available at the time the prehearing brief was submitted. All legal arguments, economic analyses, and factual materials relevant to the public hearing should be included in prehearing briefs in accordance with section 207.22 (19 CFR 207.22, as amended by 47 FR 33682, Aug. 4, 1982). Posthearing briefs must conform with the provisions of section 207.24 (19 CFR 207.24, as amended by 47 FR 6191, Feb. 10, 1982) and must be submitted not later than the close of business on March 8, 1983.

Written submission.—As mentioned, parties to this investigation may file prehearing and posthearing briefs by the dates shown above. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation on or before March 8, 1983. A signed original and fourteen (14) true copies of each submission must be filed with the Secretary to the Commission in accordance with § 201.8 of the Commission's rules (19 CFR 201.8, as amended by 47 FR 6188, Feb. 10, 1982, and 47 FR 13791, Apr. 1, 1982). All written submissions except for confidential business data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission.

Any business information for which confidential treatment is desired shall be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of § 201.6 of the Commission's rules (19 CFR 201.6).

For further information concerning the conduct of the investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, Part 207, Subparts A and C (19 CFR Part 207, as amended by 47 FR 6190, Feb. 10, 1982, and 47 FR 33682, Aug. 4, 1982), and Part 201, Subparts A through E (19 CFR Part 201, as amended by 47 FR 6188, Feb. 10, 1982; 47 FR 13791, Apr. 1, 1982; and 47 FR 33682, Aug. 4, 1982).

This notice is published pursuant to § 207.20 of the Commission's rules (19 CFR 207.20, as amended by 47 FR 6190, Feb. 10, 1982).

By order of the Commission.

Issued: December 20, 1982.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

[Investigations Nos. 731-TA-116 and 117 (Preliminary)]

Carton-Closing Staples and nonautomatic Carton-Closing Staple Machines From Sweden

AGENCY: International Trade Commission.

ACTION: Institution of preliminary antidumping investigations and scheduling of a conference to be held in connection with the investigations.

EFFECTIVE DATE: December 17, 1982.

SUMMARY: The United States International Trade Commission hereby gives notice of the institution of preliminary antidumping investigations under section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Sweden of carton-closing staples and nonautomatic carton-closing

staple machines, provided for in items 64.620 and 662.20, respectively, of the Tariff Schedules of the United States, which are alleged to be sold in the United States at less than fair value.

FOR FURTHER INFORMATION CONTACT: Ms. Mairiam A. Bishop, Office of Investigations, U.S. International Trade Commission, 701 E St. NW., Washington, D.C. 20436, telephone 202–523–0291.

SUPPLEMENTARY INFORMATION:

Background.—These investigations are being instituted in response to a petition filed December 17, 1982, on behalf of International Staple and Machine Co. The Commission must make its determination in these investigations within 45 days after the date of the filing of the petition or by January 31, 1983 (19 CFR 207.17).

Participation.—Persons wishing to participate in these investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided for in § 201.11 of the Commission's Rules of Practice and Procedure (19 CFR 201.11, as amended by 47 FR 6189, February 10, 1982), not later than seven (7) days after the publication of this notice in the Federal Register. Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the notice.

Service of documents.—The Secretary will compile a service list from the entries of appearance filed in these investigations. Any party submitting a document in connection with the investigations shall, in addition to complying with section 201.8 of the Commission's rules (19 CFR 201.8, as amended by 47 FR 6188, February 10, 1982, and 47 FR 13791, April 1, 1982), serve a copy of each such document on all other parties to the investigations. Such service shall conform with the requirements set forth in § 201.16(b) of the rules (19 CFR 201.16(b), as amended by 47 FR 33682, August 4, 1982).

In addition to the foregoing, each document filed with the Commission in the course of these investigations must include a certificate of service setting forth the manner and date of such service. This certificate will be deemed proof of service of the document. Documents not accompanied by a certificate of service will not be accepted by the Secretary.

Written submissions.—Any person may submit to the Commission on or before January 14, 1983, a written statement of information pertinent to the subject matter of these investigations (19 CFR 207.15, as amended by 47 FR 6190, February 10, 1982). A signed original and fourteen (14) copies of such statements must be submitted (19 CFR 201.8, as amended by 47 FR 6188, February 10, 1982, and 47 FR 13791, April 1, 1982).

Any business information which a submitter desires the Commission to treat as confidential shall be submitted separately, and each sheet must be clearly marked at the top "Confidential Business Data." Confidential submissions must conform with the requirements of section 201.6 of the Commission's rules (19 CFR 201.6). All written submissions, except for confidential business data, will be available for public inspection.

Conference.—The Director of Operations of the Commission has scheduled a conference in connection with these investigations for 9:30 a.m., on January 10, 1983, at the U.S. International Trade Commission Building, 701 E Street NW., Washington, D.C. Parties wishing to participate in the conference should contact the staff investigator, Ms. Miriam A. Bishop (202/523–0291), not later than January 6, 1983, to arrange for their appearance. Parties in support of the imposition of antidumping duties in these investigations and parties in opposition to the imposition of such duties will each be collectively allocated one hour within which to make an oral presentation at the conference.

Public inspection.—A copy of the petition and all written submissions, except for confidential business data, will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street, NW., Washington, D.C.

For further information concerning the conduct of these investigations and rules of general application, consult the Commission's Rules of Practice and Procedure, Part 207, subparts A and B (19 CFR Part 207, as amended by 47 FR 6182, February 10, 1982, and 47 FR 33682, August 4, 1982), and Part 201, Subparts A through E (19 CFR Part 201, as amended by 47 FR 6182, February 10, 1982, 47 FR 13791, April 1, 1982, and 47 FR 33682, August 4, 1982). Further information concerning the conduct of the conference will be provided by Ms. Bishop.

This notice is published pursuant to § 207.12 of the Commission's rules (19 CFR 207.12).

Issued: December 22, 1982.

[Investigation No. 337-TA-112]

Certain Cube Puzzles; Termination of Two Respondents on the Basis of Settlement Agreements

AGENCY: International Trade Commission.

ACTION: Termination of investigation as to respondents F. W. Woolworth and Sears, Roebuck & Co. on the basis of settlement agreements.

SUMMARY: On June 29, 1982, complainant Ideal Toy Corp. and respondents F. W. Woolworth and Sears, Roebuck & Co. moved in two joint motions (motions nos. 112–23 and 112–24) to terminate the investigation as to the above-named respondents based on settlement agreements. On July 14, 1982, the presiding officer recommended that the two joint motions be granted. A Federal Register notice was published on August 25, 1982, seeking comments from interested members of the public and other Government agencies on the proposed termination of the aforementioned respondents (47 FR 37310). Comments were received from respondent P. G. Continental, the Department of Justice, and Ideal Toy Corp. On December 8, 1982, the Commission granted the joint motions to terminate the investigation as to respondents F. W. Woolworth and Sears, Roebuck & Co. on the basis of settlement agreements.

SUPPLEMENTARY INFORMATION: This investigation is being conducted under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) and concerns alleged unfair trade practices in the importation into, and sale in, the United States of certain cube puzzles. Notice of the institution of the investigation was published in the Federal Register of December 29, 1981 (46 FR 62964).

Copies of any nonconfidential documents filed in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0161.

FOR FURTHER INFORMATION CONTACT: William E. Perry, Esq., Office of the General Counsel, U.S. International Trade Commission, 701 E Street NW.,

Washington, D.C. 20436, telephone 202–523–0499.

By order of the Commission.

Certain Cube Puzzles; Notice of Termination of Respondents Based on Settlement Agreements

AGENCY: International Trade Commission.

ACTION: Termination of investigation as to respondents BMJ Trading, Ltd., and Vanguard Jewelry Corp. based on settlement agreements.

SUMMARY: On October 26, 1982, complainant Ideal Toy Corporation (Ideal) and respondent BMJ Trading, Ltd. (BMJ), jointly moved (Motion No. 112–33C) to terminate the investigation as to BMJ on the basis of a settlement agreement. On October 29, 1982, complainant Ideal and respondent Vanguard Jewelry Corp. (Vanguard) jointly moved (Motion No. 112–34C) to terminate the investigation as to Vanguard on the basis of a settlement agreement. The Commission published a **Federal Register** notice on November 24, 1982, seeking comments from interested members of the public and other Government agencies on the proposed terminations of BMJ and Vanguard based on settlement agreements (47 FR 53148). No comments were received.

On December 20, 1982, the Commission granted the joint motions to terminate the investigation as to respondents BMJ and Vanguard on the basis of settlement agreements.

SUPPLEMENTARY INFORMATION: This investigation is being conducted under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) and concerns alleged unfair trade practices in the importation into and sale in the United States of certain cube puzzles. Notice of the institution of the investigation was published in the **Federal Register** of December 29, 1981 (46 FR 62964).

BILLING CODE 7020–02–M

[Investigation No. 337–TA–135]

Certain Direction-Reversing Musical Crib Toys; Notice of Investigation

AGENCY: International Trade Commission.

ACTION: Institution of investigation pursuant to 19 U.S.C. 1337.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on November 23, 1982, under section 337 of the Tariff Act of 1930 (19 U.S.C. 13337), on behalf of Mattel, Inc., 5150 Rosecrans Ave., Hawthorne, Calif. 90250. An amended complaint was filed on December 8, 1982. An amendment to the amended complaint was filed on December 15, 1982. The complaint, as amended, alleges unfair methods of competition and unfair acts in the importation of certain direction-reversing musical crib toys into the United States, or in their sale, by reason of the alleged direct and/or induced infringement of the claims of U.S. Letters Patent 4,285,159. The complaint further alleges that the effect or tendency of the unfair methods of competition and unfair acts is to destroy or substantially injure an industry efficiently and economically operated, in the United States.

The complainant requests that, during the pendency of the investigation, the Commission issue both a temporary exclusion order, prohibiting importation of the articles into the United States except under bond, and a temporary cease and desist order, and, after a full investigation, issue both an exclusion order, prohibiting importation of the articles into the United States for the life of the patent in issue, and cease and desist order.

Authority: The authority of institution of this investigation is contained in section 337 of the Tariff Act of 1930 and in § 210.12 of the Commission's Rules of Practice and Procedure (19 CFR § 210.21).

Scope of the Investigation

Having considered the complaint, the U.S. International Trade Commissioin, on December 21, 1982, ordered that—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, an investigation be instituted to determine whether there is reason to believe that there is a violation or whether there is a violation of subsection (a) of section 337 in the unauthorized importation of certain direction-reversing musical crib toys into the United States, or in their sale by reason of the alleged direct and/or induced infringement of the claims of U.S. Letters Patent 4,285,159, the effect or tendency of which is to destroy or substantially injure an industry, efficiently and economically operated, in the United States.

(2) For the purpose of the investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainant is—Mattel, Inc., 5150 Rosecrans Ave., Hawthorne, California 90250.

(b) The respondents are the following companies, alleged to be in violation of section 337, and are the parties upon which the complaint is to be served:
Durham Industries of Hong Kong Ltd., 19th Fl., Eastern Commercial Centre, 397 Hennessy Road, Hong Kong.
Durham Industries, Inc., 41 Madison Ave., New York, New York 10010.

(c) Ralph Elsas-Patrick, Unfair Import Investigations Division, U.S. International Trade Commission 701 E Street NW., Washington, D.C. 20436, shall be the Commission investigative attorney, a party to this investigation; and

(3) For the investigation so instituted, Donald K. Duvall, Chief Administrative Law Judge, U.S. International Trade Commission, shall designate the presiding officer. Pursuant to Commission rule 210.30)c), discovery should be allowed in connection with the temporary relief phase of the investigation only to the extent necessary to weigh the standards that are applicable in determining whether temporary relief should be granted.

Responses must be submitted by the named respondents in accordance with § 210.21 of the Commission's Rules of Practice and Procedure (19 CFR 210.21). Pursuant to §§ 210.16(d) and 210.21(a) of the rules, such responses will be considered by the Commission if

received not later that 20 days after the date of service of the complaint. Extensions of time for submitting a response will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice maybe deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the presiding officer and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter both an initial determination and a final determination containing such findings.

The complaint, except for any confidential information contained therein, is available for inspection during official working hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0161.

FOR FURTHER INFORMATION CONTACT: Ralph Elsas-Patrick, Unfair Import Investigations Division, U.S. International Trade Commission, telephone 202–523–0440.

By order of the Commission.

Issued: December 22, 1982.

[Investigation No. 337–TA–119]

Certain High Precision Solenoids and Components Thereof; Notice of Termination of Investigation Based on a Settlement Agreement

AGENCY: International Trade Commission.

ACTION: Termination of investigation.

SUMMARY: The Commission has granted the parties' joint motion to terminate the above-captioned investigation on the basis of a settlement agreement.

SUPPLEMENTARY INFORMATION: This investigation is being conducted under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) and concerns alleged unfair trade practices in the importation into and sale in the United States of certain high precision solenoids and components thereof. Notice of the institution of the investigation was published in the Federal Register of March 18, 1982 (47 FR 11330). Complainant Ledex, Inc., respondents Shindengen Electric Manufacturing Co., Ltd., Densitron Corp., Photo Chemical Products of Calif., Inc., E–M Devices, Dynel Co., Zaslow Sales Co., Inc., and Taylor Marketing and Sales Co., and the Commission investigative attorney have jointly moved (Motion No. 119–4) to terminate the investigation as to all respondents pursuant to Commission rule § 210.51(c). On September 17, 1982, the presiding officer recommended that the joint motion be granted (Order No. 11). Notice of the proposed termination was published in the Federal Register of October 20, 1982 (47 FR 46774).

Copies of any non-confidential documents filed in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0161.

Settlement Agreement

The relevant terms of the public version of the settlement agreement are summarized as follows:

1. In full and complete satisfaction and settlement of all claims by Ledex, Shindengen agrees to pay Ledex a certain sum of money and other good and valuable consideration, receipt of which is acknowledged.

2. Except for Respondents' obligations under the Settlement Agreement, Ledex for itself and its successor remises, releases, and forever discharges Shindengen, Densitron, Photo Chemical, E–M Devices, Zaslow, Taylor and Dynel from any and all liability, claims, demands and/or causes of actions and claims for damages and/or royalties at law or in equity claimed or arising out of or in connection with any claim against Shindenge, Densitron, Photo Chemical, E–M Devices, Zaslow, Taylor, and Dynel.

3. Shindengen, Densitron, Photo Chemical, E–M Devices, Zaslow, Taylor and Dynel, for themselves and their successors, remise, release and forever discharge Ledex from any and all liability, claims, demand and/or causes of action, and claims for damages in law oir in equity, arising out of or in connection with any claims, which against Ledex, Shindengen, Densitron, Photo Chemical, E–M Devices, Zaslow, Taylor and Dynel ever had or now have, and attorneys' fees, including costs.

4. In the event any provision of the Settlement Agreement shall be held illegal or invalid by any duly constituted authority, such illegality or invalidity shall not affect the validity or enforceability of the remaining provisions.

FOR FURTHER INFORMATION CONTACT: Warren H. Maruyama, Esq., Office of the General Counsel, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436; telephone 202–523–0375.

[Investigation No. 337–TA–128]

Certain Cupric Hydroxide Formulated Fungicides and Cupric Hydroxide Preparations Used in the Formulation Thereof; Notice of Commission Decision Not To Review Initial Determination

AGENCY: International Trade Commission.

ACTION: Notice is hereby given that the Commission has determined not to review the presiding officer's initial determination terminating Calabrian Chemical Co. as a respondent in the above-captioned investigation. Accordingly, as of December 20, 1982, the initial determination, became the Commission's determination with respect to this matter.

AUTHORITY: The authority for the Commission's disposition of this matter is contained in section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) and in §§ 210.53(c) and 210.53(h) of the Commission's Rules of Practice and Procedure (47 FR 25134, June 10, 1982; to be codified at 19 CFR 210.53 (c) and (h)).

SUPPLEMENTARY INFORMATION:

On November 4, 1982, complainant Kocide Chemical Corp., and respondent Calabrian Chemical Corp. ("Calabrian") jointly moved (Motion No. 128–13) to terminate the Commission's investigation with respect to Calabrian. On December 3, 1982, the presiding officer granted Motion No. 128–13 and terminated Calabrian as a respondent in the investigation.

Pursuant to rule § 210.53(h)(2), an initial determination of the presiding officer under rule § 210.53(c) becomes the determination of the Commission fifteen (15) days from the date of service, unless the Commission orders review of the initial determination. As pointed out by the presiding officer in Order No. 21, rulings with respect to motions to terminate a respondent pursuant to rule § 210.51(c) are initial determinations under rule § 210.53. Rule

§ 210.53 controls over any language to the contrary in rule § 210.51(c)(2).

Having examined the record in this investigation, including Motion No. 128–13, the papers filed in connection therewith, and the initial determination of the presiding officer, the Commission finds no grounds for review of the initial determination.

Copies of the nonconfidential version of the presiding officer's initial determination and all other nonconfidential documents filed in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0161.

FOR FURTHER INFORMATION CONTACT: Warren H. Maruyama, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202–523–0375.

By order of the Commission.

Issued: December 20, 1982.

Kenneth R. Mason,

Secretary.

[Investigation No. 701–TA–184 (Final)]

Frozen Concentrated Orange Juice From Brazil

AGENCY: International Trade Commission.

ACTION: Institution of final countervailing duty investigation and scheduling of a hearing to be held in connection with the investigation.

EFFECTIVE DATE: December 16, 1982.

SUMMARY: As a result of an affirmative preliminary determination by the U.S. Department of Commerce that there is reason to believe or suspect that certain benefits which constitute subsidies within the meaning of section 701 of the Tariff Act of 1930 (19 U.S.C. 1671) are being provided to manufacturers, producers, or exporters in Brazil of frozen concentrated orange juice, provided for in item 165.35 of the Tariff Schedules of the United States, the United States International Trade Commission hereby gives notice of the institution of investigation No. 701–TA–184 (Final) under section 705(b) of the act (19 U.S.C. 1671d(b)) to determine whether an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of such merchandise. The Department of Commerce is scheduled to make its final subsidy determination in the case on or before February 24, 1983, and the Commission will make its final injury determination by April 14, 1983 (19 CFR 207.25.

FOR FURTHER INFORMATION CONTACT: Mr. David Coombs (202–523–1376), Office of Investigations, U.S. International Trade Commission.

SUPPLEMENTARY INFORMATION:

Background.— On August 30, 1982, the Commission determined, on the basis of the information developed during the course of its preliminary investigation, that there was a reasonable indication that an industry in the United States was materially injured or threratened with material injury by reason of allegedly subsidized imports of frozen concentrated orange juice from Brazil. The preliminary investigation was instituted in response to a petition filed on April 12, 1982, by counsel for Florida Citrus Mutual, an association of orange growers.

Participation in the investigation.— Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the Commission's Rules of Practice and Procedure (19 CFR 201.11, as amended by 47 FR 6189, Feb. 10, 1982), not later than 21 days after the publication of this notice in the **Federal Register.** Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the entry.

Upon the expiration of the period for filing entries of appearance, the Secretary shall prepare a service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation, pursuant to § 201.11(d) of the Commission's rules (19 CFR 201.11(d), as amended by 47 FR 6189, Feb. 10, 1982). Each document filed by a party to this investigation must be served on all other parties to the investigation (as identified by the service list), and a certificate of service must accompany the document. The Secretary will not accept a document for filing without a certificate of service (19 CFR 201.16(c), as amended by 47 FR 33682, Aug. 4, 1982).

Staff report.—A public version of the staff report containing preliminary findings of fact in this investigation will be placed in the public record on February 18, 1983, pursuant to § 207.21 of the Commission's rules (19 CFR 207.21).

Hearing.—The Commission will hold a hearing in connection with this invetigation beginning at 10:00 a.m. on March 8, 1983, in Grand Hall C of the Holiday Inn International, 65157 International Drive, Orlando, Florida. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission not later than the close of business (5:15 p.m.) on February 24, 1983. All persons desiring to appear at the hearing and make oral presentations should file prehearing briefs and attend a prehearing conference to be held at 10:00 a.m. on March 2, 1983, in room 117 of the U.S. International Trade Commission Building. The deadline for filing prehearing briefs is March 1, 1983.

Testimony at the public hearing is governed by section 207.23 of the Commission's rules (19 CFR 207.23, as amended by 47 FR 33682, Aug. 4, 1982). This rule requires that testimony be limited to a nonconfidential summary and analysis of material contained in prehearing briefs and to information not available at the time the prehearing brief was submitted. All legal arguments, economic analyses, and factual materials relevant to the public hearing should be included in prehearing briefs in accordance with § 207.22 (19 CFR 207.22, as amended by 47 FR 33682, Aug. 4, 1982). Posthearing briefs must conform with the provisions of section 207.24 (19 CFR 207.24, as amended by 47 FR 6191, Feb. 10, 1992) and must be submitted not later than the close of business on March 16, 1983.

Written submissions.— As mentioned, parties to this investigation may file prehearing and posthearing briefs by the dates shown above. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation on or before

March 16, 1983. A signed original and fourteen (14) true copies of each submission must be filed with the Secretary to the Commission in accordance with section 201.8 of the Commission's rules (19 CFR 201.8, as amended by 47 FR 6188, Feb. 10, 1982, and 47 FR 13791, Apr. 1, 1982). All written submissions except for confidential business data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission.

Any business information for which confidential treatment is desired shall be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of § 201.6 of the Commission's rules (19 CFR 201.6).

For further information concerning the conduct of the investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, Part 207, Subparts A and C (19 CFR Part 207, as amended by 47 FR 6190, Feb. 10, 1982, and 47 FR 33682, Aug. 4, 1982), and Part 201, Subparts A through E (19 CFR Part 201, as amended by 47 FR 6188, Feb. 10, 1982; 47 FR 13791, Apr. 1, 1982; and 47 FR 33682, Aug. 4, 1982).

This notice is published pursuant to section 207.20 of the Commission's rules (19 CFR 207.20, as amended by 47 FR 6190, Feb. 10, 1982).

By order of the Commission.

Issued: December 23, 1982.

Kenneth R. Mason,

Secretary.

BILLING CODE 7035-01-M

Motor Carrier Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publiction no later than the 15th calendar day after the date the notice of filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for us in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

Notice No. F-225

The following applications were filed in Region 2. Send protests to: ICC, Fed. Res. Bank Bldg., 101 North 7th St., Rm. 620, Philadelphia, Pa. 19106.

MC 165042 (Sub-II-1TA), filed December 7, 1982. Applicant: ATHA TRUCKING, INC., Route 2, Box 531, Bridgeport, WV 26330. Representative: James D. Gray, P.O. Box 2190, Clarksburg, WV 26302-2190. *Concrete sectional grave liners and burial vaults* from points in Franklin and Crawford Counties, OH to points in WV. An underlying ETA seeks 120 days authority. Supporting shipper: Mountaineer Vault Company, Inc., P.O. Box 46, Salem, WV 26426.

MC 163072 (Sub-II–2TA), filed December 7, 1982. Applicant: B/T EXPRESS TRUCKING CO., 1536 Montvale Circle, West Chester, PA 19380. Representative: Donald Britt (same address as applicant). *General commodities* (except Classes A & B explosives, commodities in bulk, and those commodities which because of size or weight require of special handling or equipment) between all points in the U.S. (except AK & HI), for 270 days. An underlying ETA seeks 120 days authority. Supporting shipper: Dafoe & Dafoe, 155 Great Valley Pkwy., Malvern, PA 19355.

MC 124333 (Sub-II–13TA), filed December 7, 1982. Applicant: BAKER PETROLEUM TRANSPORTATION CO., INC., Pyles Lane, New Castle, DE 19720. Representative: Joseph F. Fogarty (same address as applicant). *Contract,* irregular: *Petroleum and petroleum products, in bulk, in tank vehicles,* between points in DE, NJ and PA. BILLING CODE 7035–01–M

[Volume No. OP 5–296]

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: December 17, 1982.

90–Day Intrastate Motor Common Carriers of Passengers.

The following applications, filed on or after November 19, 1982, are governed by Part 1168 of the Commission's Rules of Practice. See 49 CFR Part 1168, published in the **Federal Register** on November 24, 1982, at 47 FR 53275. For compliance procedures, see 49 CFR 1168.6 and 49 U.S.C. 10922 (c)(2)(E).

Persons wishing to oppose an application must follow the rules under 49 CFR Part 1168. In addition to fitness grounds, applications may be opposed on the grounds that the transportation to be authorized would directly compete with a commuter bus operation and would have a significant adverse effect on all commuter bus service in the area in which the competing service will be performed. Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that

each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 25 days from date of publication, (or if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will issued. Once this compliance is met, the authority will be issued.

Within 30 days after publications an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board Number 3, Members Krock, Joyce and Dowell.

Note.—All applications are filed under 49 U.S.C. 10922(c)(2)(A) for authority to operate as a motor common carrier of passengers in intrastate commerce on a route over which applicant has interstate, regular-route authority on November 19, 1982.

Please direct status inquiries to Team 5, (202) 275–7289.

MC 61599 (Sub–142), filed December 7, 1982. Applicant: TRAILWAYS SOUTHEASTERN LINES, INC., 200 Spring St., NW, Atlanta, GA 30303. Representative: George W. Hanthorn, 1500 Jackson St., Dallas, TX 75201, (214) 655–7937. Applicant seeks authority in intrastate commerce to conduct service at all intermediate points on routes in No. MC 61599 Sub 141, in part, as follows: To operate over the route between Atlanta, GA and Greenville, SC, to provide intrastate service at all intermediate points between Chamblee and Lavonia, GA, including Chamblee and Lavonia.

Kathleen King,

Acting Secretary.

[FR Doc. 82–35248 Filed 12–28–82; 8:45 am]

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Motor Common and Contract Carriers of Property (except fitness-only); Motor Common Carriers of Passengers (public interest); Freight Forwarders; Water Carriers; Household Goods Brokers.

The following applications for motor common or contract carriers of property, water carriage, freight forwarders, and household goods brokers are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common carriage of passengers, filed on or after November 19, 1982, are governed by Subpart D of 49 CFR Part 1160, published in the **Federal Register** on November 24, 1982 at 47 FR 53271. For compliance procedures, see 49 CFR 1160.86. Carriers operating pursuant to an intrastate certificate also must comply with 49 U.S.C. 10922(c)(2)(E). Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E. In addition to fitness grounds, these applications may be opposed on the grounds that the transportation to be authorized is not consistent with the public interest.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings:

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations.

We make an additional preliminary finding with respect to each of the following types of applications as indicated: common carrier of property—that the service proposed will serve a useful public purpose, responsive to a public demand or need; water common carrier—that the transportation to be provided under the certificate is or will be required by the public convenience and necessity; water contract carrier, motor contract carrier of property, freight forwarder, and household goods broker—that the transportation will be consistent with the public interest and the transportation policy of section 10101 of chapter 101 of Title 49 of the United States Code.

These presumptions shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor

common carrier of passengers are duly noted. Please direct status inquiries to Team 1 at (202) 275–7992.

Volume No. OP1–239

Decided: December 21, 1982.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier. (Member Parker not participating.)

MC 28670 (Sub-7), filed December 15, 1982. Applicant: STAR MOTOR FREIGHT, INC., P.O. Box 253, Lewiston, ID 83501. Representative: Kevin M. Clark, 2417 Bank Drive, Suite 8, Boise, ID 83705, (208) 344–7714. Transporting *general commodities* (except classes A and B explosives, and commodities in bulk), between points in WA, OR, ID, UT, and MT.

MC 2890 (Sub-60), filed December 6, 1982. Applicant: AMERICAN BUSLINES, INC., 1500 Jackson St., Dallas, TX 75201. Representative: George W. Hanthorn (same address as applicant), (214) 655–7937. Over regular routes, transporting *passengers,* (a) between Cleveland, OH, and Cincinnati, OH, over Interstate Hwy 71, serving all intermediate points and serving Ashland, OH, as an off-route point, (b) between junction Interstate Hwy 71 and OH Hwy 82 and Strongsville, OH, over OH Hwy 82, serving all intermediate points, (3) between junction Interstate Hwy 71 and OH Hwy 18 and Medina, OH, over Hwy 18, serving all intermediate points, (4) between junction Interstate Hwy 71 and U.S. Hwy 30 and junction Interstate Hwy 71 and OH Hwy 13, from junction Interstate Hwy 71 and U.S. Hwy 30, over U.S. Hwy 30 to junction OH Hwy 13, then over OH Hwy 13 to junction Interstate Hwy 71, and return over the same rout, serving all intermediate points, (5) between Toledo, OH, and Cincinnati, OH, over Interstate Hwy 75, serving all intermediate points and serving North College Hill as an off-route point, (6) between junction Interstate Hwy 75 and U.S. Hwy 6 and Bowling Green, OH, from junction Interstate Hwy 75 and U.S. Hwy 6, over U.S. Hwy 6 to junction OH Hwy 25, then over OH Hwy 25 to Bowling Green, OH, and return over the same route, serving all intermediate points, (7) between junction Interstate Hwy 75 and OH Hwy 47 and Sidney, OH, over OH Hwy 47, serving all intermediate points, (8) between junction Interstate Hwy 75 and OH Hwy 122 and Middletown, OH, over OH Hwy 122, serving all intermediate points, and (9) between Akron, OH and junction Interstate Hwy 76 and Interstate Hwy 71, over Interstate Hwy 76, serving all intermediate points.

Note.—Applicant seeks to provide regular-route service in interstate or foreign commerce.

MC 55830 (Sub-2), filed December 13, 1982. Applicant: THRU-WAY TRANSFER INCORPORATED, 320 Woodmont Rd., Milford, CT 06460. Representative: Ronald I. Kathleen King,

Acting Secretary.

[FR Doc. 82–35246 Filed 12–28–82; 8:45 am]

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Motor Common and Contract Carriers of Property (fitness-only); Motor Common Carriers of Passengers (fitness-only); Motor Contract Carriers of Passengers; Property Brokers (other than household goods).

The following applications for motor common or contract carriage of property and for a broker of property (other than household goods) are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** on December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common or contract carriage of passengers filed on or after November 19, 1982, are governed by Subpart D of the Commission's Rules of Practice. See 49 CFR Part 1160, Subpart D, published in the **Federal Register** on November 24, 1982, at 49 FR 53271. For compliance procedures, see 49 CFR 1160.86. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E.

These applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings:

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains apropriate compliance. the unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Please direct status inquiries to Team 2, (202) 275–7030.

Volume No. OP2–329

Decided: December 16, 1982.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier. (Member Parker not participating.)

MC 119843 (Sub-11), filed November 22, 1982. Applicant: ROESCH LINES, INC., 844 East 9th St., San Bernardino, CA 92402. Representative: Fred H. Mackensen, Suite 4150, 2029 Century Park East, Los Angeles, CA 92402, (213) 879–5955. Transporting *passengers*, in charter and special operations, between points in the U.S.

Note.—Applicant seeks to provide privately-funded charter and special transportation.

MC 123773 (Sub-4), filed December 13, 1982. Applicant: BLACK HILLS STAGE LINES, INC., 720 East Norfolk Ave., Norfolk, NE 68701. Representative: D. Douglas Titus, 340 Insurance Exchange Bldg., Sioux City, IA 51101, 712–277–1434. MC 15364 (Sub-20), filed November 29, 1982. Applicant: WISCONSIN-MICHIGAN COACHES, INC., 725 Smith St., Green Bay, WI 54302. Representative: H. Barney Firestone, 180 N. Michigan, Suite 1700, Chicago, IL 60601, (312) 263–1600. Over *regular routes*, transporting *passengers*, Between Duluth, MN, and Abbottsford, WI: From Duluth over U.S. Hwy 2 to Ashland, WI, and then over WI Hwy 13 to Abbottsford, serving all intermediate points. Condition: The person or persons who appear to be engaged in common control of another regulated carrier must either file an application under 49 U.S.C. 11343(a), or submit an affidavit stating why Commission approval is unnecessary, or submit a petition of exemption to the Secretary's office. In order to expedite issuance of any authority please submit a copy of the affidavit or petition or proof of filing the application(s) for common control to Team 3, Room 2158.

Note.—(1) Applicant seeks to serve a community not regularly served by an ICC-authorized motor common carrier of passengers;

(2) Applicant seeks to provide service to a community to which the only motor common carrier of passengers providing interstate transportation to such community applies to discontinue such transportation under 49 U.S.C. 10925(c) or applies to reduce its intrastate service to such community under 49 U.S.C. 10935; and

(3) This regular-route authority may be tacked with carrier's existing authority.

MC 15364 (Sub-21), filed December 6, 1982. Applicant: WISCONSIN-MICHIGAN COACHES, INC., 725 Smith St., Green Bay, WI 53402. Representative: H. Barney Firestone, 180 N. Michigan Ave., Suite 1700, Chicago, IL 60601, (312) 263–1600. Transporting *passengers*, in charter and special operations, between points in the U.S. (except AK and HI).

Note.—Applicant seeks to provide privately-funded charter and special transportation.

Condition: The person or persons who appear to be engaged in common control of another regulated carrier must either file an application under 49 U.S.C. 11343(a), or submit an affidavit stating why Commission approval is unnecessary, or submit a petition of exemption to the Secretary's office. In order to expedite issuance of any authority please submit a copy of the affidavit or petition or proof of filing the application(s) for common control to Team 3, Room 2158.

MC 54534 (Sub-9), filed December 6, 1982. Applicant: GRAND ISLAND TRANSIT CORP., 5355 Junction Rd., Lockport, NY 14094. Representative: Ronald W. Malin, Bankers Trust Bldg., Fourth Floor, Jamestown, NY 14701, (716) 664–5210. Transporting *passengers*, in special and charter operations, between points in the U.S.

BILLING CODE 7035–01–M

[Finance Docket No. 30073]

Rail Carriers; the Atchison, Topeka and Santa Fe Railway Co.—Trackage Rights Exemption—Over Southern Pacific Transportation Company and Alameda Belt Line; Notice of Exemption

December 22, 1982.

By notice of exemption filed on November 19, 1982, pursuant to 49 CFR 1180.2(d)(5) [formerly 49 CFR 1111.2(d)(5)] the Atchison, Topeka and Santa Fe Railway Company (Santa Fe) seeks to acquire trackage rights over a 6.249-mile segment of track of the Southern Pacific Transportation Company (SP) between SP mileposts 6.35 and 10.43 in Oakland, CA and over a 2.04-mile segment of track of the Alameda Belt Line (ABL) between ABL mileposts 0.00 and 2.04 in Alameda, CA.

Santa Fe formerly operated a barge line between Richmond and Alameda, CA to interchange rail carload traffic with ABL. Due to the destruction by fire of the Alameda barge slip in 1970 and the high cost of restoring that slip, interim arrangements were made for SP to bridge Santa Fe cars over SP's line from an existing point of interchange at Oakland to interchange with ABL at Alameda. Santa Fe now has executed long-term agreements for trackage rights over the lines of ABL and SP and for the bridging by SP of Santa Fe cars to the rail yard of ABL. Consummation of the trackage rights and bridging agreements will enable Santa Fe to relocate its former barge service. There will be no diminution of service under the proposed agreements. This is an exempt transaction under 49 CFR 1180.2(d)(5).

Santa Fe shall protect its employees as required in *Norfolk and Western Ry. Co.-Trackage Rights-BN,* 354 I.C.C. 605 (1978), as modified by *Mendocino Coast Ry., Inc.-Lease and Operate,* 360 I.C.C. 653 (1980).

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

Kathleen M. King,

Acting Secretary.

BILLING CODE 7035–01–M

[Finance Docket No. 30055]

Rail Carriers; National Railroad Passenger Corp.—Compensation—Commuter Use of Northeast Corridor

AGENCY: Interstate Commerce Commission.

ACTION: Notice of decision.

SUMMARY: The National Railroad Passenger Corporation (Amtrak) has submitted to the Commission, for resolution, disputes regarding the proper amount of compensation to be paid by commuter services for use of the Northeast Corridor (NEC). Specifically, Amtrak seeks settlement of compensation disputes with Southeastern Pennsylvania Transportation Authority and New Jersey Transit Corporation. The Commission is instituting a proceeding to resolve these disputes.

DATES: Responses by interested parties should be filed with the Commission and served on Amtrak no later than February 2, 1983. Rebuttal by Amtrak should be filed and served no later than February 21, 1983.

ADDRESSES: An original and 15 copies of all responses should be filed with: Rail Section, Room 5349, Interstate Commerce Commission, Washington, D.C. 20423. A copy of each response should be served on: Paul F. Mickey, Jr., National Railroad Passenger Corporation, 400 N. Capitol Street NW., Washington, D.C. 20001. Pleadings should refer to Finance Docket No. 30055.

FOR FURTHER INFORMATION CONTACT: Stephen Grimm, (202) 275–0839 or Elaine Kaiser, (202) 275–0907.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. For a copy of the full decision, contact the Office of the Secretary, 12th and Constitution Ave., N.W., Washington, D.C. 20423, (202) 275–7428.

DECIDED: December 17, 1982.

By the Commission, Chairman Taylor, Vice Chairman Gilliam, Commissioners Sterrett, Andre, Simmons, and Gradison.

Kathleen M. King,

Acting Secretary.

BILLING CODE 7035–01–M

[No. MC–F–15027]

Midatlantic Coast Delivery Systems, Inc.; Control Exemption; Command Cargo Corp.

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Proposed Exemption.

SUMMARY: Pursuant to 49 U.S.C. 11343(e), added by section 21 of the Bus Regulatory Reform Act of 1982, Pub. L. 97–261 (September 20, 1982), Midatlantic Coast Delivery Systems, Inc. (Midatlantic), a regulated Motor carrier (No. MC–105369), and, in turn, Raymond Taibi and Herschel Frankel, who jointly own all of the common stock of

Midatlantic, and James McDiarmid, who owns all of the common stock of Command Cargo Corporation (Command), a regulated motor carrier (No. MC–141684), and who will acquire a portion of the common stock of Midatlantic, seek an exemption from the requirement under section 11343 of prior regulatory approval for the acquistion of control of Command.

DATES: Comments must be received on or before January 28, 1983.

ADDRESSES: Send comments to:

(1) Motor Section, Room 2139, Interstate Commerce Commission, Washington, D.C. 20423;

and

(2) Petitioner's representative, Bruce J. Robbins, Robbins & Newman, P.C., 18 East 48th Street, New York, NY 10017.

Comments should refer to No. MC–F–15027.

FOR FURTHER INFORMATION CONTACT: Warren C. Wood, (202) 275–7949.

SUPPLEMENTARY INFORMATION: Please refer to the petition for exemption, which may be obtained free of charge by contacting petitioner's representative. In the alternative, the petition for exemption may be inspected at the offices of the interstate Commerce Commission during usual business hours.

Decided: December 27, 1982.

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

James H. Bayne,

Acting Secretary.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 82–15]

K & B Successors, Inc.; New York, New York; Hearing

Notice is hereby given that on March 30, 1982, the Drug Enforcement Administration, Department of Justice, issued to K & B Successors, Inc., an Order To Show Cause as to why the DEA Certificate of Registration, AK5280132, issued to Respondent pursuant to Section 303 of the Controlled Substances Act (21 U.S.C. 823), should not be revoked.

Thirty days having elapsed since the said Order To Show Cause was received by Respondent and written request for a hearing having been filed with the Drug Enforcement Administration, notice is hereby given that a hearing in this matter will be held commencing at 10:00 a.m. on Thursday, January 6, 1983 in Courtroom No. 3–B, Room 309, U.S. Court of Claims, 717 Madison Place, NW., Washington, D.C.

Dated: December 21, 1982.

Francis M. Mullen, Jr.,

Acting Administrator, Drug Enforcement Administration.

[FR Doc. 82–35231 Filed 12–28–82; 8:45 am]

BILLING CODE 4410–09–M

Office of Legal Policy

Federal Justice Research Program; Notice of Solicitation

The Federal Justice Research Program (FJRP) is a departmental program for conducting research relating to the administration of civil and criminal justice in the United States.

The Effect of the Speedy Trial Act on Prosecutorial and Investigative Activities

FJRP announces a competitive grant solicitation for a study to determine the effects that the Speedy Trial Act of 1974, as amended, 18 U.S.C. 3161 *et seq.*, has had on federal prosecutorial and investigative activities since the sanctions became effective under the Act on July 1, 1980.

The Speedy Trial Act of 1974, as amended by the Speedy Trial Act Amendments Act of 1979, constitutes the congressional determination of the time period within which federal criminal cases are to be tried. The time requirements of the Act are intended to protect both the right of defendants to a speedy trial and the interest of the public in the expeditious trial of criminal cases.

The 1974 Act originally had a four-year phase-in period, with the final time limits and the sanctions to become effective on July 1, 1979. In July 1979, the Congress passed the Speedy Trial Act Amendments Act of 1979 which made a number of substantive changes in the Act and postponed the effective date of the sanctions to July 1, 1980.

The sanctions under the Act apply to all cases brought after July 1, 1980. If an indictment or information is not filed, or a trial is not begun within the applicable time period, the case is subject to dismissal under section 3162 (a) or (b).

The Federal Justice Research Program had previously funded a study on the levels and patterns of compliance prior to the imposition of sanctions. *See* The Processing of Federal Criminal Cases Under the Speedy Trial Act of 1974 (published July 1980). This follow-up study should address the impact of the Act after the effective date of the sanctions on the manner in which federal criminal cases are investigated and prosecuted, including:

(1) Prosecutorial and investigative case acceptance/declination policies and practices;

(2) Arrest and indictment practices and policies;

(3) Changes, if any, in investigative and prosecutorial caseloads;

(4) Plea negotiation practices;

(5) Other effects of the Act on investigative and trial preparation policies and practices;

(6) Reasons that the cases dismissed pursuant to the Act failed to meet time limits.

Deadlines

All papers postmarked before midnight, February 25, 1983, and received by the FJRP within ten (10) working days after that date will be considered. Submissions received after this prescribed period will be returned to the submitter.

Level and Duration of Funding

This announcement envisions a grant award not to exceed $150,000 with an expected duration of ten (10) months.

Eligibility

Eligible applicants include: universities, agencies involved in the criminal justice process, other not-for-profit research organizations, and profit-making organizations that are willing to waive their fee or profit.

Application Requirements and Procedures

Parties interested in responding to this solicitation should prepare and submit a proposal (not to exceed 15 double-spaced typewritten pages) which should include:

(1) A 150–200 word abstract summarizing the proposed research design and methodology.

(2) A clear, concise statement of the issues surrounding the problem area and of the research hypotheses or questions to be explored. A discussion of the relationship of the proposed work to the existing literature is also expected.

(3) A detailed statement of the proposed research design and analytical methodologies. Delineate carefully and completely the proposed data sources, data collection strategies, variables to be examined, and procedures of analysis to be employed.

(4) The organization and management plan to conduct the study. Include a list of major milestones of events, activities and products and a timetable for completion, including the time

commitments of key staff to individual project tasks.

(5) The anticipated number and type of interim and/or final products of the project.

(6) A budget outlining all direct and indirect costs for personnel, fringe benefits, travel, equipment, supplies, subcontracts, and overhead. Percentage of time and man-months of effort to be devoted by principal staff should also be included.

(7) A statement of the competence of the research team, indicating the variety of skills to be used, a description of the relevant research experience, educational background, and the demonstrated ability to produce a final product that is readily comprehensible and usable. Include resumes of all known staff.

Seven (7) copies of the proposals should be submitted to: Federal Justice Research Program, 10th and Constitution Avenue, N.W., Room 4237, Washington, D.C. 20530.

Selection Process

Notification: Applicants will receive a letter acknowledging receipt of the submission.

Review: A panel of reviewers with expertise in the subject area will evaluate the proposals submitted. Based on the criteria set forth below, this panel will then recommend proposals that the Assistant Attorney General, Office of Legal Policy, may consider for award.

Criteria for Review of Proposals

Proposals will be assessed according to the following criteria:

(1) *Conceptualization of the Problem.* Demonstration of the applicant's firm grasp of the issues underlying the problem area including ongoing and past relevant research. (40%)

(2) *Soundness of Research Design and Methodology.* The design and methodology for the proposed study in terms of clarity, specificity, appropriateness and feasibility. (40%)

(3) *Qualifications of the Applicant.* The competence of the research team, the appropriateness of the proposed combination of skills, its prior relevent research experience, the demonstrated ability to produce a final product which is readily comprehensive and usable, adequacy of the time commitment of key staff, and the quality and specificity of the organization and management plan to accomplish the proposed project. (15%)

(5) *Costs.* The reasonableness of cost estimates and personnel allocations, and the appropriateness of the costs to the expected products. (5%)

Contact Helen Lessin Shaw, Administrator, Federal Justice Research Program (202) 633–2034 if you have any questions concerning this request for solicitation.

Dated: December 17, 1982.

Approved:

Jonathan C. Rose,

Assistant Attorney General, Office of Legal Policy.

BILLING CODE 4410-01-M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92–463), as amended, notice is hereby given that a meeting of the Music Advisory Panel (Recording Section) to the National Council on the Arts will be held on January 18–19, 1983, from 9:00 a.m.–5:30 p.m. in room 1422 of the Columbia Plaza Office Complex, 2401 E Street NW., Washington, D.C. 20506.

A portion of this meeting will be open to the public on January 19, 1983, from 2:30 p.m.–4:00 p.m. to discuss policy and guidelines review.

The remaining sessions of this meeting on January 18, 1983, from 9:00 a.m.–5:30 p.m. and on January 19, 1983, from 9:00 a.m.– 2:30 p.m. and 4:00 p.m.–5:30 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the **Federal Register** of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and 9(b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Office, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634–6070.

John H. Clark,

Director, Office of Council and Panel Operations, National Endowment for the Arts.

BILLING CODE 7555-01-M

OFFICE OF THE FEDERAL INSPECTOR FOR THE ALASKA NATURAL GAS TRANSPORTATION SYSTEM

Design Approval for the Alaska Gas Conditioning Facility Segment of the Alaska Natural Gas Transportation System

AGENCY: Office of the Federal Inspector for the Alaska Natural Gas Transportation System.

ACTION: Notice.

EFFECTIVE DATE: December 6, 1982.

FOR FURTHER INFORMATION CONTACT: Edward Hengerer, General Counsel, Office of the Federal Inspector, ANGTS, Room 3407, 1200 Pennsylvania Avenue, NW., Washington, D.C. 20044, (202) 275–1144.

SUPPLEMENTARY INFORMATION: Take notice that by letter of December 6, 1982, from the Federal Inspector, John T. Rhett, to Northwest Alaskan Pipeline Company, the Office of the Federal Inspector (OFI) approved the current design for the Alaska Gas Conditioning Facility (AGCF). This approval is a final agency action pursuant to Sections 102 and 202(a) of Reorganization Plan No. 1 of 1979, 44 FR 33663 (June 12, 1979).

The AGCF will be located in the Prudhoe Bay field, and will be connected at its outlet flange to the Alaskan pipeline segment of the Alaska Natural Gas Transportation System (ANGTS). The design for the AGCF, as discussed below, reflects a gas conditioning process selected by the

sponsors in 1981. The OFI notes, however, that the ANGTS Design and Engineering Board has publicly announced additional study of a different process, the stated purpose being to possibly reduce construction time and construction and operating costs. The December 6th design approval recognizes the possibility of a new design based on a different process and provides for subsequent OFI action. But should the current process be retained, this approval functions to permit procurement.

Northwest Alaskan currently estimates the direct capital costs at $3.3 billion (mid-1981 U.S. dollars, excluding contingency). The AGCF is essential for treating the raw natural gas stream to make it of pipeline quality and thus acceptable for transportation. The conditioning process entails separation of the natural gas liquids (NGL's), removal of impurities and most of the carbon dioxide (CO_2), reblending of certain NGL's into the gas stream, compression to pipeline pressure, and refrigeration. The AGCF also generates certain by-products, including large volumes of CO_2 mixed with hydrocarbons (to be used as fuel at Prudhoe Bay) and some additional NGL's over and above those that can be transported through ANGTS.

Since its inception in 1979, the OFI has been working with the sponsors of the Alaskan segment of ANGTS to assure eventual compliance with the terms and conditions imposed on ANGTS by the President in Section 5 of the 1977 *Decision*.[1] At that time this Alaskan segment of ANGTS only consisted of the pipeline; ANGTS was legally described to "commence at the discharge side of the gas plant facilities in the Prudhoe Bay field." *Decision*, at 6. As such, the AGCF was subject neither to the Presidential terms and conditions in Section 5 of the *Decision* nor to the specific expediting and enforcement authorities of the OFI under Reorganization Plan No. 1 of 1979 (44 FR 36633).

Congressional approval of the President's October 15, 1981, proposed waiver of law (S.J. Res. 115, Pub. L. 97-93), substantially changed this regulatory environment. Among other things, the waiver brings the AGCF into ANGTS: "to include the gas conditioning plant in the approved transportation system [that is, as the Alaskan plant segment of ANGTS] * * *." The waiver also clarifies that the AGCF will be certificated by the FERC as an interstate transportation facility which is part of ANGTS. *See*, H.R. Rep. 97-350 (Part 1), 97th Cong. 1st Sess. 22 (1981); H.R. Rep. 97-350 (Part 2), 97th Cong. 1st Sess. 15 (1981); and S. Rep. 97-272, 97th Cong. 1st Sess. 33-34 (1981). The waiver legislation moreover provides that all but one of the terms and conditions in the *Decision*, as well as OFI enforcement authority under the Reorganization Plan, do apply to the AGCF.[2]

Northwest Alaskan filed the current design for the AGCF with the OFI during 1982. The OFI Office of Engineering Review reviewed the various design packages, met and consulted with Northwest, and requested and analyzed additional information and several specific studies. This resulted in technical approval of the current design by the Office of Engineering Review, also on December 6, 1982. That technical approval was adopted by the Federal Inspector in his approval.

In approving the current design, the Federal Inspector concluded that "[t]he sponsors can rely on the approval for procurement and detailed design elaboration—though not for project execution—consistent with the approved design." This approval was, however, subject to certain conditions.

Copies of the design approval are available upon request from the OFI.

Dated: December 23, 1982.

John T. Rhett,

Federal Inspector.

BILLING CODE 6119-01-M

[1] *Decision and Report to Congress on the Alaska Natural Gas Transportation System*, September 1977, approved by H.J. Res. 621, Pub. L. 95-158.

[2] The Senate Committee on Energy and Natural Resources pointed out that "[a]s one consequence of the integration of the gas conditioning plant into ANGTS, that facility will now be subject to the full terms and conditions of the President's 1977 *Decision*." S. Rep. No. 97-272, 97th Cong., 1st Sess. at 34 (1981).

OVERSEAS PRIVATE INVESTMENT CORPORATION

Agency Report Forms Under OMB Review

AGENCY: Overseas Private Investment Corporation.

ACTION: Request for comments.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35), agencies are required to submit information collection requests to OMB for review and approval, and the publish a notice in the **Federal Register** notifying the public that the Agency has made such a submission. The proposed form under review is summarized below.

DATE: Comments must be received within 14 calendar days of this notice. If you anticipate commenting on the form but find that time to prepare will prevent you from submitting comments promptly, you should advise the OMB reviewer and the Agency Submitting Officer of your intent as early as possible.

ADDRESS: Copies of the subject form and the request for review submitted to OMB may be obtained from the Agency submitting Officer. Comments on the form should be submitted to the Agency Submitting Officer and the OMB reviewer.

FOR FURTHER INFORMATION CONTACT:

OPIC Agency Submitting Officer: L. Jacqueline Brent, Office of Personnel and Administration, Overseas Private Investment Corporation, Room 405, 1129 20th Street, N.W., Washington, D.C. 20527; Telephone (202) 653-2818.

OMB Reviewer: Francine Picoult, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, D.C. 20503; Telephone (202) 395-7231.

Summary of Form Under Review:

Type of Request: Revision.

Title: Request For Registration For Political Risk Investment Insurance.

Form Number: OPIC 50.

Frequency of Use: Other—once per investor per project.

Type of Respondent: Businesses or other institutions (except farms).

Standard Industrial Classification Codes: All.

Description of Affected Public: U.S. investors considering application for OPIC insurance coverage for their overseas investments.

Number of Responses: 500.

Reporting Hours: One half hour per response.

Federal cost: $0.00.

Authority for Information Collection: Section 231(k) of the Foreign Assistance Act of 1961, as amended.

Abstract (Needs and Uses): (1) The addition of two questions about the named broker would eliminate the need for investors to send OPIC a separate, formal letter designating their broker and/or authorized representative for the named project. (2) Changing the name of the category to "Broker And/Or Authorized Representative . . ." would more accurately reflect the fact that a broker may also serve as authorized representative of the investor. (3) Under "Coverage Requested" the words, "and Civil Strife" need to be added to "War,

Revolution, Insurrection" because OPIC is now authorized to add Civil Strife Coverage to this category.

Dated: December 17, 1982.

Leo H. Phillips, Jr.,

Office of the General Counsel.

[FR Doc. 82-35170 Filed 12-28-82; 8:45 am]

BILLING CODE 3210-01-M

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 22795; 70-6821]

Central Power and Light Co.; Proposed Issuance and Sale of Long-Term Debt and Preferred Stock at Competitive Bidding

December 21, 1982.

Central Power and Light Company ("CP&L"), 120 North Chaparral Street, Corpus Christi, Texas 78401, an electric utility subsidiary of Central and South West Corporation ("CSW"), a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to Sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rules 42 and 50 promulgated thereunder.

CP&L proposes to issue and sell at competitive bidding up to $100 million aggregate principal amount of long-term debt and up to 500,000 shares of authorized preferred stock, $100 par value per share, in one or more series and in one or more sales from time to time through December 31, 1983. The sale of debt securities will be accomplished through the issuance of first mortgage bonds unless CP&L is unable to meet certain charter or indenture requirements relating to minimum gross income, minimum net earnings and expenditures for bondable property, in which case, long-term, unsecured debentures may be substituted for, or combined with, the sale of bonds. In no event, however, will the sale of bonds and/or debentures exceed an aggregate principal amount of $100 million. The sale of preferred stock is subject to the authorization, by preferred and common shareholders of CP&L, of an increase in the number of authorized preferred shares at a special shareholder meeting scheduled for January 11, 1983.

Each series of bonds will have a term of not less than five nor more than thirty years and will be sold at a price and annual interest rate determined by competitive bidding at the time of sale. The bonds will be issued under a mortgage indenture, dated November 1, 1943, as supplemented and amended, and as to be further amended by a proposed supplemental indenture. Each series of preferred stock will be sold at a price to CP&L of not less than $100 nor more than $102.75 per share, plus dividends accrued from date of issue. Depending upon market conditions, the offering of the preferred stock may provide for periodic redemption through the operation of a cash sinking fund. If CP&L is unable to issue bonds in an aggregate amount of $100 million, long-term, unsecured debentures will be issued for terms up to thirty years under an indenture dated April 1, 1982, as amended and supplemented by a proposed supplemental indenture.

CP&L may employ alternative competitive bidding procedures in accordance with the Commission's statement of policy pursuant to Rule 50(a)(5) under the Act (HCAR No. 22623, September 2, 1982). CP&L also indicates, however, that it may eventually request an exception from all competitive bidding requirements under Rule 50(a)(5) so that the debt instruments or preferred stock may be offered through a negotiated public offering or private placement. The net proceeds from the issuance and sale of the long-term debt and the preferred stock will be used, combined with common equity contributions from CSW, to finance portions of CP&L's construction program, and to retire certain amounts of outstanding short-term debt.

The declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by January 17, 1983, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the declaration, as amended or as it may be further amended, may be permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 82-35264 Filed 12-28-82; 8:45 am]

BILLING CODE 8010-01-M

[File No. 81-670]

The Children's Place, Inc.; and Opportunity for Hearings

December 22, 1982

Notice is hereby given that The Children's Place, Inc. ("Applicant") has filed an application pursuant to Section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act"), for exemption from the periodic reporting requirements under Sections 13 and 15(d) of the 1934 Act.

The application states in part:

Applicant believes that the exemptive order it requests is appropriate in view of the fact that it has no public shareholders as of August 6, 1982. On that date, Federated Department Stores, Inc., then the holder of 97.7% of Applicant's common stock, exercised its option to call the 2.3% of Applicant's outstanding common stock then held by fifty-six public shareholders.

For a more detailed statement of the information presented all persons are referred to said application which is on file in the Office of the Commission at the Public Reference Room, 450 Fifth Street, NW., Washington, DC 20549.

Notice is further given that any interested person not later than Jan. 17, 1983 may submit to the Commission in writing his views on any substantial facts bearing on the application or the desirability of a hearing thereon. Any such communication or request should be addressed; Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert.

Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 82-35269 Filed 12-28-82; 8:45 am]

BILLING CODE 8010-01-M

Cincinnati Stock Exchange; Applications for Unlisted Trading Privileges and of Opportunity for Hearing

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the following stocks:

Chrysler Corp.:
$2.75 Cumulative Preferred, No Par Value (File No. 7-6399)
Carolina Freight Carriers Corporation:
Common Stock, $.50 Par Value (File No. 7-6400)
Consolidated Freightways Inc.:
Common Stock, $0.625 Par Value (File No. 7-6401)
Missouri Pacific Corp.:
Common Stock, $5 Par Value (File No. 7-6402)
Natomas Company:
Common Stock, $1 Par Value (File No. 7-6403)
Overnite Transportation Co.:
Common Stock, $1 Par Value (File No. 7-6404)
Rio Grande Industries:
Common Stock, $1 Par Value (File No. 7-6405)
Transway International Corp.:
Common Stock, No Par Value (File No. 7-6406)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before January 14, 1983 written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[File No. 81-668]

Coast Federal Savings and Loan Association; Application and Opportunity for Hearing

December 22, 1982.

Notice is hereby given that Coast Federal Savings and Loan Association (the "Applicant"), has filed an application pursuant to Section 12(h) of the Securities Exchange Act of 1934, as amended ("1934 Act") for exemption from certain reporting requirements under Section 13 and the operation of Section 16 of the 1934 Act.

The Applicant states in part:

In the absence of an exemption, the Applicant would be required to file reports adhering to all the items requirements of the Forms 10-K, 10-Q, 8-K as well as reports pursuant to Section 16 of the 1934 Act.

Accordingly, Applicant believes that the exemptive order requested by it is appropriate in view of the fact that Form 10-Q and certain items of the Forms 10-K and 8-K, as well as reports required pursuant to Section 16 of the 1934 Act are inapplicable to the pass-through mortgage pool arrangement.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the office of the Commission at 450 Fifth Street, NW., Washington, D.C. 20549.

Notice is further given that any interested person not later than January 17, 1983, may submit to the Commission in writing his views on any substantial facts bearing on the application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert.

Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Rel. No. 12915; 812-5352]

Dean Witter Reynolds InterCapital Inc., et al.; Filing of Application

December 21, 1982.

In the matter of Dean Witter Reynolds InterCapital Inc., InterCapital Dividend Growth Securities Inc., InterCapital High Yield Securities Inc., InterCapital Income Securities Inc., InterCapital Industry-Valued Securities Inc., InterCapital Liquid Asset Fund, Inc., InterCapital Natural Resource Development Securities Inc., InterCapital Tax-Exempt Securities Inc., InterCapital Tax-Free Daily Income Fund Inc., Active Assets Money Trust, Active Assets Tax-free Trust, Active Assets Government Securities Trust, 5 World Trade Center New York, NY 10048; Dean Witter Reynolds Organization, Inc. 45 Montgomery Street, San francisco, CA 94104; Sears, Roebuck and Co. and Edward R. Telling, Sears Tower, Chicago, IL 60684.

Notice is hereby Given that InterCapital Dividend Growth Securities Inc., InterCapital High Yield Securities Inc., InterCapital Income Securities Inc. ("Income Securities"), InterCapital Industry-Valued Securities Inc., InterCapital Liquid Asset Fund Inc., InterCapital Natural Resource Development Securities Inc., InterCapital Tax-Exempt Securities Inc., InterCapital Tax-Free Daily Income Fund Inc., Active Assets Money Trust, Active Assets Tax-Free Trust, and Active Assets Government Securities Trust (collectively, the "Funds"), each of which is registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified, management investment company, with the exception of Income Securities which is registered as a closed-end, diversified, management investment company, Sears, Roebuck and Co. ("Sears"), Dean Witter Reynolds Organization, Inc. ("DWRO"), Dean Witter Reynolds InterCapital, Inc. ("InterCapital"), and Edward R. Telling (collectively, "Applicants"), filed an application on October 25, 1982, requesting an order of the Commission pursuant to Section 6(c) of the Act, exempting Mr. Telling from the definition of "interested person" of an investment adviser as set forth in

Section 2(a)(19) of the Act, solely for purposes of determining compliance with the requirements of Section 15(f)(1)(A) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicants state that InterCapital, a company registered under the Investment Advisers Act of 1940, serves as the investment adviser for each of the Funds pursuant to investment management agreements adopted and approved in accordance with the requirements of Sections 15(a) and 15(c) of the Act. They further state that DWRO owns all of the outstanding securities of InterCapital, and that Dean Witter Reynolds, Inc. ("DWR"), another wholly-owned subsidiary of DWRO, is a broker-dealer registered under the Securities Exchange Act of 1934 and serves as principal underwriter for certain of the Funds. According to the application DWRO is a wholly-owned subsidiary of Sears, having been acquired by Sears in late 1981 in a two-step transaction involving a cash tender offer and a subsequent merger of DWRO into a subsidiary of Sears. The application states that the merger was approved by stockholders of DWRO and became effective on December 31, 1981.

Applicants note that, in accordance with the provisions of Section 15(a)(4) of the Act, the various investment management agreements pursuant to which InterCapital has served as investment adviser to the Funds have each provided for their automatic termination in the event of an "assignment." They further note that, as required by the provisions of Section 15(b)(2) of the Act, the distribution agreements pursuant to which DWR has served as principal uderwriter of certain of the Funds have contained similar provisions. The term "assignment" is defined in Section 2(a)(4) of the Act to include any direct or indirect transfer or hypothecation of a contract or of a controlling block of the assignor's outstanding voting securities by a security holder of the assignor.

Applicants state that, although it was anticipated that the transactions pursuant to which Sears acquired control of DWRO would not as a practical matter result in a change of the actual management or operations of InterCapital or DWR, it was determined to be necessary to adopt new investment management agreements and distribution agreements for the Funds due to the fact that the Sears acquisition of DWRO Might be deemed to consitute an assignment having the effect of terminating the then effective investment management and distribution agreements. Applicants further state that such new agreements were approved by the Boards of Directors (or Trustees) of the Funds on October 28, 1981. It is asserted that the new investment management agreements are in all in material respects identical to the agreements they replaced and were approved by the shareholders of each of the Funds during the period December 17–21, 1981.

Applicants state that they believe that the terms of the transactions pursuant to which Sears acquired control of DWRO have been entirely consistent with the fiduciary responsibilities owed by InterCapital to the Funds and have not resulted in any improper benefit to InterCapital or DWRO, or caused any detriment to the Funds. Applicants maintain, however, that to remove any possible doubt concerning the propriety of any compensation or benefit which may have flowed to DWRO in connection with its acquisition by Sears, Applicants have each determined it to be prudent to seek to comply with the requirements of Section 15 of the Act.

Applicants state that, prior to the acquisition of DWRO by Sears and at present, the Boards of Directors (or Trustees) of each of the Funds have been comprised of the same five persons and that only one of such persons may be deemed to be an interested person of the Funds' investment adviser. According to the application, InterCapital has proposed to the Boards of Directors (or Trustees) of the Funds that Mr. Edward R. Telling, Chairman of the Board and Chief Executive Officer of Sears, be appointed to serve as a director or trustee of each of the Funds. Applicants believe that the addition of Mr. Telling to the Boards would be beneficial to the Funds and their shareholders. In their view, Mr. Telling would provide the Boards with a special expertise which would better enable the Funds to pursue and to develop services and programs made available by virture of Sears' relationships with DWRO and its subsidiaries.

Applicants state that because of Mr. Telling's position with Sears he is an "affiliated person" of Sears. Applicants further state that because Mr. Telling owns securities issued by Sears and because Sears controls DWRO and thereby controls its wholly owned subsidiary, InterCapital, Mr. Telling may be deemed to be an "interested person" of InterCapital. Accordingly, the addition of Mr. Telling to the Boards of Directors (Tustees) of the Funds would result in each of the funds having Boards comprised of six persons, two of whom may be deemed to be "interested persons" of InterCapital. This would mean that only 66⅔% of each Fund's Directors (Trustees) would not be interested persons of the Funds' investment adivser, rather than the 75% required by Section 15(f)(1)(A) of the Act. Applicants believe that it would be both appropriate and desirable to appoint Mr. Telling to serve as a Director (Trustee) of the Funds. However, at the same time, Applicants do not want to eliminate the availability of the "safe harbor" provided by Section 15(f) of the Act. Accordingly, they request an order, pursuant to Section 6(c) of the Act, exempting Mr. Telling from the definition of "interested person" of an investment adivser set forth in Section 2(a)(19) of the Act, solely for purposes of determining compliance with Section 15(f)(1)(A) of the Act.

Section 6(c) of the Act provides, in part, that the Commission may, by order upon application, exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from any provision or provisions of the Act, or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and aprovisions of the Act.

In support of their request for an order, Applicants assert that it would be in the best interests of the Funds and their shareholders to add to the Board of Directors (Trustees) of the Funds an individual familiar with the business operations of Sears and its plans for the development of new financial services and products. Applicants submit that Mr. Telling is well qualified in this regard to serve as a member of the Boards.

Applicants note that Mr. Telling could be appointed to serve as a Director (Trustee) of the Funds, without running afoul of the 75% requirement of Section 15(f)(1)(A) of the Act, if two additional "disinterested" directors were appointed to the Boards of each of the Funds. According to the application, however, the Funds' present Directors (Trustees) believe that an increase in the size of each of the Boards to eight persons, as would be necessary, would result in unwieldy and possibly less effective Boards. Applicants further assert that expanded Boards would cause the Funds to incur increases in expenses since the Funds pay the fees and expenses of their "disinterested"

directors and would thus be required to bear the costs of the director fees and expenses that would be payable to the two additional "disinterested" directors.

Applicants contend that the interests of shareholders of the Funds would continue to be well protected if Mr. Telling were to become a member of the Boards of the Funds, since four of the six Directors (Trustees) of each of the Funds would not be "interested persons" of the Funds or Inter-Captial. Applicants assert that these four Directors are highly capable and qualified individuals, well recognized in their respective areas of expertise, who collectively exert a controlling influence over the decisions made by the Boards of the Funds. Applicants submit that these for directors would continue to be in a position to exert such a controlling influence once Mr. Telling was appointed to the Boards of the Funds because they would constitute a 66⅔% majority of each of the Boards. Under these circumstances, Applicants assert that the objective of the 75% requirement of Section 15(f)(1)(A) of the Act would not be frustrated if the requested exemption were granted and Mr. Telling appointed to the Boards.

In view of the foregoing, Applicants submit that the granting of the requested order would be appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than January 17, 1983 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communicaton should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such reqest shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contempraneously with the request. An order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon its own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George a. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 34-19358; File No. SR-MCC-82-18]

Midwest Clearing Corp.; Proposed Rule Change; Self-Regulatory Organizations

In the matter relating to proposed change in the minimum net capital requirements for participants of MCC.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on November 15, 1982, the Midwest Clearing Corporation filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Attached as Exhibit A is the proposed change to Rule 14, Section 2(a) of the Rules of the Midwest Clearing Corporation.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the amendment to the Midwest Clearing Corporation Rule is to increase the minimum net capital requirements for participants of MCC. With the proliferation of new products and investment strategies in the industry, increased assurance of financial integrity of security firms is needed to protect MCC, its participants, and, in general, public investors.

With the increased volatility of the markets, MCC believes that the requirement of a minimum of $50,000 in excess of the net capital requirement of a participant's designated examining authority is a more prudent standard to be used in evaluating new applicants as to their financial ability to meet their obligations to MCC and other participants. In addition, participants will be required to maintain such net capital level or be subject to limited usage of MCC services. For any Participants which do not currently meet such requirements, a period of 3 months will be given in which to come into compliance, with an additional 3 month extension for extenuating circumstances.

MCC believes that an increased capital requirement is a relatively small pat of our overall program to protect the Clearing Corporation from unanticipated exposure. For example, recently installed automated and manual procedures provide more timely review of participants' positions.

The proposed rule change is consistent with Section 17A of the Securities Exchange Act of 1934, in that it is the intention of the amendment to require MCC Participants to demonstrate increased financial responsibility, thereby helping to assure the safeguarding of securities and funds which are in the custody or control of MCC, or for which it is responsible, and providing for increased protection of investors and persons facilitating transactions by and on behalf of investors. Also, the rule is not designed to promote unfair discrimination in the admission of Participants or among Participants in the use of the clearing agency.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Midwest Clearing Corporation does not believe that any burdens will be placed on competition as a result of the proposed rule change.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Comments have neither been solicted nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: December 21, 1982.

George A. Fitzsimmons,

Secretary.

Exhibit A—Participants and Participants' Fund

Rule 14

Approval of Applicants

Sec. 2. The Corporation shall approve the application to become a Participant of any applicant meeting the qualifications of Section 1 upon a determination by the Corporation that the applicant meets the following additional standards of qualification:

(a) The applicant has sufficient financial ability to pay its anticipated contribution to the Participants Fund and to meet its obligations to the Corporation on the basis of the value of the positions which the applicant proposes to maintain with, and the transactions which the applicant proposes to process through, the Corporation. *Broker/dealer applicants should have and must maintain upon acceptance as a Participant a minimum of $50,000 in excess net capital over the requirement imposed by the broker/dealer's designated examining authority. All other applicants shall be required to meet and maintain upon acceptance as a participant financial stability standards as are applicable to the industry in which the applicant is associated.*

(b) No change in text.

(c) No change in text.

No change in remainder of Section 2.

BILLING CODE 8010-01-M

[Release No. 34-19360; File No. SR-MSTC-82-24]

Midwest Securities Trust Co.; Proposed Rule Change; Self-Regulatory Organizations

In the matter relating to proposed change in the minimum net capital requirements for participants of MSTC.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on November 19, 1982 the Midwest Securities Trust Company filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Attached as Exhibit A is the proposed change to Rule 8, Section 2(a) of the Rules of the Midwest Securities Trust Company.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B), and (C) below of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the amendment to the Midwest Securities Trust Company Rule is to increase the minimum net capital requirements for participants of MSTC. With the proliferation of new products and investment strategies in the industry, increased assurance of financial integrity of security firms is needed to protect MSTC, its participants, and, in general, public interest.

With the increased volatility of the markets, MSTC believes that the requirement of a minimum of $50,000 in excess of the net capital requirement of a participant's designated examining authority is a more prudent standard to be used in evaluating new applicants as to their financial ability to meet their obligations to MSTC and other participants. In addition, Participants will be required to maintain such net capital level or be subject to a limited usage of MSTC services. For any Participants which do not currently meet such requirements, a period of 3 months will be given in which to come into compliance, with an additional 3 month extension for extenuating circumstances.

MSTC believes that an increased capital requirement is a relatively small part of our overall program to protect the Trust Company from unanticipated exposure. Recent automated and manual programs provide timely review of participants' positions, for example.

The proposed rule change is consistent with Section 17A of the Securities Exchange Act of 1934, in that it is the intention of the amendment to require MSTC participants to demonstrate increased financial responsibility thereby assuring the safeguarding of securities and funds which are in the custody or control of MSTC, or for which it is responsible, and providing for increased protection of investors and persons facilitating transactions by and on behalf of investors. Also, the rule is not designed to permit unfair discrimination in the admission of Participants or among Participants in the use of the clearing agency.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Midwest Securities Trust Company does not believe that any burdens will be placed on competition as a result of the proposed rule change.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Comments have neither been solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such period if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

Dated: December 21, 1982.

George A. Fitzsimmons,
Secretary.

Exhibit A—Participants and Participants' Fund

Note.—Additions italicized.

Rule 8

Approval of Applicants

Sec. 2. The Corporation shall approve the application to become a Participant of any applicant meeting the qualifications of Section 1 upon a determination by the Corporation that the applicant meets the following standards for qualification:

(a) The applicant has sufficient financial ability to pay its anticipated contribution to the Participants Fund (if any) and to meet its obligations to the Corporation on the basis of the value of the positions which the applicant proposes to maintain with, and the transactions which the applicant proposes to process through, the Corporation. *Broker/dealer applicants should have and must maintain upon acceptance as a Participant a minimum of $50,000 in excess net capital over the requirement imposed by the broker/dealer's designated examining authority. All other applicants shall be required to meet and maintain upon acceptance as a participant financial stability standards as are applicable to the industry in which the applicant is associated.*

(b) No change in text.

(c) No change in text.

No change in remainder of Section 2.

BILLING CODE 8010-01-M

[Rel. No. 12914; 812-5355]

Tax-Free Instruments Trust; Filing of Application

December 21, 1982.

Notice is hereby given that Tax-Free Instruments Trust ("Applicant"), 421 Seventh Avenue, Pittsburgh, PA 15219, registered under the Investment Company Act of 1940 ("Act"), as an open-end, diversified, management investment company, filed an application on October 25, 1982, seeking an order of the Commission pursuant to Section 6(c) of the Act exempting Applicant from the provisions of Section 12(d)(3) of the Act to the extent necessary to permit Applicant to acquire puts from brokers or dealers for the purpose of facilitating portfolio liquidity. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The application states that Applicant's investment objective is to provide current income exempt from Federal income taxes consistent with stability of principal. Applicant asserts that it will pursue this objective by investing in a professionally managed diversified portfolio of municipal securities including Industrial Development Bonds with remaining maturities of one year or less at the time of purchase by Applicant. Applicant states in its prospectus that, from time to time on a temporary basis or for defensive purposes, Applicant may invest in "Temporary Investments" which mature in one year or less at the time of purchase, including: other obligations issued by or on behalf of municipal or corporate issuers; United States Treasury Bills; all other marketable obligations issued or guaranteed by the United States Government, its agencies or instrumentalities; instruments of banks and savings and loans which are members of the Federal Deposit Insurance Corporation or Federal Savings and Loan Insurance Corporation; and repurchase agreements. Finally, Applicant maintains that it will not seek profits through short-term trading, but intends to hold its portfolio securities to maturity.

Federated Research Corp. is Applicant's investment adviser and Federated Securities Corp. is Applicant's distributor. Both of these corporations are wholly-owned subsidiaries of Federated Investors, Inc. of Pittsburgh, Pennsylvania.

Applicant asserts that it will seek to maintain a constant $1.00 net asset value per share and a relatively stable daily dividend rate by keeping its average weighted portfolio maturity under 120 days. All of Applicant's portfolio securities will be valued at amortized cost.[1]

Applicant represents that, in addition to the desire for a constant net asset value per share, the investors for which it is designed require the ability to receive same-day redemption proceeds in Federal funds. According to the application, the maturities of short-term tax-exempt obligations are ordinarily not as frequent as other money market instruments and maturity dates are ordinarily not negotiable and are

[1] On February 26, 1982, Applicant applied to the Commission for an exemptive order permitting Applicant's assets to be valued at amortized cost. *See*, Investment Company Act Release No. 12848, November 24, 1982.

sufficiently infrequent that Applicant cannot rely on day-to-day scheduled maturities to meet net redemptions. Therefore, a portion of Applicant's assets will be retained in cash or very short-term instruments, thereby reducing the investor's yield. The application states that, in order to enable Applicant to assure same-day settlements on portfolio sales, and thereby facilitate the same-day payment of redemption proceeds in Federal funds, Applicant will adopt policies permitting the acquisition of "puts" from banks, brokers and dealers. Applicant states that when it purchases a municipal security from a bank, broker or dealer, it may also acquire the option to sell the same principal amount of such security back to the institution at a specified price. Such an option or right is sometimes referred to as an "optional delivery," or a "stand-by commitment," and is referred to herein as a "put." Applicant further represents that the intended purpose of utilizing puts is to facilitate portfolio liquidity.

The application states that puts may be exercisable by Applicant at any time prior to the maturity of the underlying security, and that Applicant's right to exercise the puts will be unconditional and unqualified. Applicant asserts that although the puts will not be transferable, municipal securities purchased subject to the puts could be sold at any time even though the put was outstanding. It is stated in the application that a put will not obligate Applicant to sell the underlying securities to the issuer of the put nor entitle the issuer to demand the return of the securities at its option. Applicant represents that a sale of the underlying securities to a third party would terminate its rights under the related put to sell the securities back to the issuer of the put. Applicant represents that puts it acquires will be in writing and will be physically held by its custodian, State Street Bank and Trust Company. According to the application, the exercise price of puts will be substantially as follows: (i) Applicant's acquisition costs of the municipal securities which are subject to the put (excluding any accrued interest that Applicant paid on their acquisition), less any amortized market premium or plus any amortized market or original issue discount during the period the Fund owned the securities, plus (ii) all interest accrued on the securities since the last interest payment date during the period the securities were owned by Applicant. Absent extraordinary circumstances, Applicant will value municipal securities on an amortized cost basis as referred to above. Accordingly, Applicant represents that the amount payable by the issuer of a put during the time the put is exercisable will be substantially the same as the value of the underlying securities. Applicant maintains that if necessary and advisable, it will pay for puts either separately in cash or by paying a higher price for the municipal securities which are acquired subject to the put (thus reducing the yield to maturity otherwise available for the same securities).

According to the application, the acquisition or exercisability of a put will not affect the valuation or assumed maturity of Applicant's underlying municipal securities, which will continue to be valued on the basis of the amortized cost method. During the term of a put, it will be very difficult if not impossible to evaluate the likelihood of eventual exercise of the put or to quantify the potential benefit to Applicant if that put were exercised. In light of such uncertainties, Applicant states that it will deem the put to have a "fair value" of zero, regardless of whether Applicant paid any direct or indirect consideration for the put. When Applicant pays for a put, its costs will be reflected as unrealized depreciation for the period during which the commitment is held by Applicant. Notwithstanding the foregoing, in calculating the dollar-weighted average maturity of its Portfolios, Applicant represents that puts will always be valued at zero, and the dollar-weighted average maturity will not be affected by the acquisition of the puts. Applicant states that it believes there to be little risk of an event occurring that would make amortized cost valuation of its portfolio securities inappropriate. However, in the unlikely event that the market or fair value of its portfolio securities is not substantially equivalent to their amortized cost value, Applicant maintains that its Trustees may determine that the instruments should be valued on the basis of available market quotations. Applicant expects that any puts covering such instruments would continue to be valued as described above because it expects that it would refrain from exercising the puts to avoid imposing a loss on the bank, broker, or dealer and jeopardizing the business relationship with that entity.

Section 6(c) of the Act provides, in part, that the Commission may, upon application, conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from any provision or provisions of the Act or the rules thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant requests an order pursuant to Section 6(c) of the Act exempting it from the provisions of Section 12(d)(3) of the Act to the extent necessary to permit its acquisition of puts from brokers or dealers. Applicant asserts that it believes the requested relief to be appropriate in the public interest, and consistent with the protection of investors. The application states that the proposed acquisition of puts is not expected to affect Applicant's net asset value per share for purposes of sales and redemptions, will not pose new investment risks, but will improve liquidity and its ability to pay redemption proceeds the same day in Federal funds.

Notice is further given that any interested person may, not later than January 17, 1983, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. An order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon its own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Rel. No. 22794; 70-6820]

West Texas Utilities Co.; Proposed Issuance and Sale of Long-Term Debt and Preferred Stock at Competitive Bidding

December 21, 1982.

West Texas Utilities Company ("West Texas"), 301 Cypress, Abilene, Texas 79601, an electric utility subsidiary of Central and South West Corporation ("CSW"), a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to Sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rules 42 and 50 promulgated thereunder.

West Texas proposes to issue and sell at competitive bidding up to $25 million aggregate principal amount of long-term debt and up to 250,000 shares of authorized preferred stock, $100 par value per share, in one or more series and in one or more sales from time to time through December 31, 1983. The sale of debt securities will be accomplished through the issuance of first mortgage bonds unless West Texas is unable to meet certain charter or indenture requirements relating to minimum gross income, minimum net earnings and expenditures for bondable property, in which case, long-term, unsecured debentures may be substituted for, or combined with, the sale of bonds. In no event, however, will the sale of bonds and/or debentures exceed an aggregate principal amount of $25 million.

Each series of bonds will have a term of not less than five nor more than thirty years and will be sold at a price and annual interest rate determined by competitive bidding at the time of sale. The bonds will be issued under a mortgage indenture, dated August 1, 1943, as supplemented and amended, and as to be further amended by a proposed supplemental indenture. Each series of preferred stock will be sold at a price to West Texas of not less than $100 nor more than $102.75 per share, plus dividends accrued from date of issue. Depending upon market conditions, the offering of the preferred stock may provide for periodic redemption through the operation of a cash sinking fund. If West Texas is unable to issue bonds in an aggregate amount of $25 million, long-term, unsecured debentures will be issued for terms up to thirty years under an indenture dated June 1, 1982, as amended and supplemented by a proposed supplemental indenture.

West Texas may employ alternative competitive bidding procedures in accordance with the Commission's statement of policy pursuant to Rule 50(a)(5) under the Act (HCAR No. 22623, September 2, 1982). West Texas also indicates, however, that it may eventually request an exception from all competitive bidding requirements under Rule 50(a)(5) so that the debt instruments or preferred stock may be offered through a negotiated public offering or private placement. The net proceeds from the issuance and sale of the long-term debt and the preferred stock will be used, combined with common equity contributions from CSW, to finance portions of West Texas' construction program, and to retire certain amounts of outstanding short-term debt.

The declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by January 17, 1983, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the declaration, as amended or as it may be further amended, may be permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

SMALL BUSINESS ADMINISTRATION

[Proposed License No. 06/06-5058]

Mile Hi Small Business Investment Co.; Notice of Application for a License To Operate as a Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration pursuant to § 107.102 of the Regulations governing small business investment companies (13 CFR 107.102 (1982)), under the name of Mile Hi Small Business Investment Company, 1385 South Colorado Avenue, Denver, Colorado 80222, for a license to operate as a small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958, as amended) the Act), (5 U.S.C. 661 et seq.), and the Rules and Regulations promulgated thereunder.

The proposed officers, directors and shareholders of the Applicant are as follows:

Mile Hi Cablevision Associates, Ltd.,[1] 1385 South Colorado Boulevard, Denver, Colorado 80222—100%
Timothy H. David, 2930 E. 3rd Avenue, Denver, Colorado 80203—Investment Advis. Manager
Lucius Ashby, 3861 S. Rosemary Way, Denver, Colorado 80203—Director
Richard J. Davies, Jr., 160 Inverness Drive West, Englewood, Colorado 80112—Director
Maria Garcia, 1330 Gaylord, Apt. 405, Denver, Colorado 80206—Director
Shelby F. Harper, 3108 S. Dallas Court, Denver, Colorado 80210—Director
Manuel Martinez, 732 Elati Street, Denver, Colorado 80210—Director
David E. O'Hayre, 160 Inverness Drive West, Englewood, Colorado 80112—Director/Treasurer
Jerry Presley, 2930 E. 3rd Avenue, Denver, Colorado 80203—Director/Vice President
Fred Vierra, 2930 E. 3rd Avenue, Denver, Colorado 80203—Director/President
Stanley B. William, 2990 So. Whiting Way, Denver, Colorado 80231—Director.

The applicant, a Colorado corporation with its principal place of business at 1385 South Colorado Boulevard, Denver, Colorado 80222, will begin operations with $550,000 paid-in capital and paid-in surplus.

The applicant will conduct its activities principally in the State of Colorado.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed owners and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA Rules and Regulations.

Notice is hereby given that any person may, not later than fifteen (15) days from the date of publication of this notice, submit to SBA, in writing, comments on the proposed licensing of this company. Any such communications should be addressed to the Deputy Associate Administrator for Investment, Small Business

[1] Owned principally by: American Television & Communications Corporation, 160 Inverness Drive West, Englewood, Colorado 80112 (42.5%) Daniels & Associates Partners, Limited, 2930 E. 3rd Avenue, Denver, Colorado 80203 (42.5%).

Administration, 1441 L Street, N.W., Washington, D.C. 20416.

A copy of this notice will be published in a newspaper of general circulation of Denver, Colorado.

BILLING CODE 8025-01-M

DEPARTMENT OF STATE

Office of the Secretary

[Public Notice 840]

Eradication of Cannabis; Herbicide Paraquat

AGENCY: State Department.

ACTION: Notice of a Record of Decision regarding the Department of State's action on the proposal to support efforts of foreign Western Hemisphere nations to eradicate cannabis by aerially applying the herbicide paraquat. The environmental consequences in the U.S. of the proposed action and the reasonable alternatives to the proposal were evaluated in a Final Environmental Impact Statement (FEIS), which was prepared pursuant to the National Environmental Policy Act of 1969 (NEPA) 42 U.S.C. 4332. The FEIS was filed with EPA on November 5, 1982. This Record of Decision is being issued pursuant to the Council on Environmental Quality (CEQ) Regulations for Implementing the Procedural Provisions of NEPA of 1978 (40 CFR 1505.2) and Implementing Regulations of the Department of State (22 CFR 161.(h)).

Decision

The Department of State has decided to support the efforts of foreign Western Hemisphere nations to eradicate cannabis by aerially applying the herbicide paraquat. In implementing this decision, the Department now intends to engage in formal discussions with cannabis-producing Western Hemisphere nations.

Basis for Decision

The United States is party to the 1961 Single Convention on Narcotic Drugs and is therefore obligated to limit production, manufacture, export, import, distribution of, trade in, use and possession of drugs including marijuana to medical research and scientific purposes. Section 481 of the Foreign Assistance Act of 1961, as amended, states that "effective international cooperation is necessary to put an end to the illicit production, smuggling, trafficking in, and abuse of dangerous drugs" and authorizes the Department, on behalf of the President, to conclude agreements and develop international programs aimed at reducing the flow of foreign-origin illegal drugs into the U.S. Toward this end, the Department has negotiated numerous previous agreements for drug control with Western Hemisphere nations.

From 1978 to December 1981, the U.S. Government was, however, effectively precluded by domestic legislation from assisting any foreign government in a marijuana herbicidal eradication program using paraquat. The legislation was a result, in part, of health concerns regarding paraquat use on marijuana as expressed by the Department of Health, Education and Welfare (HEW), based on preliminary data. However, during that period the Government of Mexico engaged on its own in an eradication campaign against cannabis, using paraquat. The program was highly effective and that government states it has resulted in no significant environmental or health impacts. A decline in marijuana availability in Mexico led, however, to an increase in production in other countries.

Based on the preceding, and since subsequent tests and studies were completed which diminished concern about marijuana with paraquat residues as a potential health hazard, the Congress removed the herbicide restrictions from the Foreign Assistance Act in December 1981. It also stipulated that the Department notify the Department of Health and Human Services (HHS) of programs involving herbicide use for cannabis control and that HHS monitor the public health for possible adverse effects from any herbicide application, and required that work continue to identify a marking agent to be used in such herbicidal eradication programs.

Because in our view a U.S.-supported, large-scale aerial herbicidal eradication program represents a "major federal action" within the meaning of NEPA, the Department prepared a programmatic EIS. This EIS addressed the various alternatives available to the U.S. which could be utilized in a cannabis control program; namely, no action, alternative eradication techniques use of alternative herbicides the use of a marking agent in conjunction with a herbicide, when available increased enforcement efforts different land use programs legalization and aerial application of paraquat, the proposed action.

As the flourishing marijuana supply indicates, the no action alternative will not reduce the marijuana supply. While current interdiction levels could be increased, the United Nations Narcotics Laboratory concluded that illicit narcotics can only be effectively controlled in the source country at the stage of production. As noted in the EIS, legalization is not an option available to the Department. Congress, in its passage of the Foreign Assistance Act of 1961, as amended, and the U.S. Government in its ratification of the Single Convention, expressed the intent that the U.S. Government engage in international cooperation to control dangerous drugs including marijuana. Considering the health hazards associated with smoking marijuana as identified in the EIS, a significant reduction in the U.S. marijuana supply should also result in beneficial health impacts as well as a significant reduction of marijuana associated criminal activity and law enforcement costs.

Based on the information contained in the EIS, the use of the herbicide paraquat for cannabis eradication is the most effective alternative swiftly to eliminate marijuana production destined for the US. The following herbicides were compared for effectiveness and toxicity: 2,4-D, 2,4,5,-T, diquat, glyphosate, and paraquat. Based on this comparison paraquat is the most effective means of eradication. While its potential toxicity to personnel handling the herbicide is higher, the proposed monitoring program should adequately mitigate any adverse health impacts. Furthermore, available evidence indicates that it is not likely that significant adverse health effects would result from consuming marijuana with paraquat residues.

Other alternatives addressed by the EIS would not be cost-effective or successful for a program of this magnitude over the long-term. In order to mitigate any adverse impact, any spray operations are to be in accordance with generally accepted professional standards and appropriate training will be provided to the cooperating nation which, in turn, will be able to establish monitoring programs. This should minimize possible contamination of food crops. In addition, the Secretary of HHS, as authorized by the 1961 amendments to the Foreign Assistance Act, will monitor the impact on the health of persons who may consume marijuana with herbicide residues. The Government will continue to explore the feasibility of using in the program a marker, which would alert marijuana users to the presence of herbicides.

Based on the findings of the EIS, the decision was therefore made to support the efforts of foreign Western Hemisphere nations to eradicate cannabis by aerially applying the herbicide paraquat.

Dated: December 21, 1982.

Dominick DiCarlo,

Assistant Secretary for International Narcotics Matters.

FEDERAL COMMUNICATIONS COMMISSION

Deletion of Agenda Items From December 22nd Open Meeting

December 21, 1982.

The following item has been deleted at the request of the Office of Commissioner Dawson from the list of agenda items scheduled for consideration at the December 22, 1982 Open Meeting and previously listed in the Commission's Notice of December 15, 1982.

Agenda, Item No., and Subject

General—2—*Title:* Notice of Proposed Rulemaking to allocate spectrum for the establishment of a nationwide public air-ground telephone system. *Summary:* The Commission will consider the merits of RM–3524, filed by Airfone, Inc. and RM–3885, filed by Aeronautical Radio, Inc. Each petitioner has requested the allocation of spectrum in the 900 MHz region to establish a nationwide public air-ground telephone system.

Common Carrier—2—*Title:* Petition for Reconsideration of GTE Satellite Corporation 90 FCC 2d 1009 (1982). *Summary:* The Commission will consider the petition of United States Satellite Broadcasting Company, Inc. requesting rescission of the grant, or in the alternative, conditioning the grant by prohibiting the offering of television service to individual residences.

Issued: December 21, 1982.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 10:30 a.m. on Thursday, December 23, 1982, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider the following matters:

Application for Federal deposit insurance:

Dakota Bank of Wahpeton, Wahpeton, North Dakota, a proposed new bank to be located at 1005 Dakota Avenue, Wahpeton, North Dakota.

Application for Federal deposit insurance, for consent to acquire assets and assume liabilities, and for consent to establish a branch:

Alvarado Bank, Richmond, California, a proposed new bank in organization, to be located at 3000 Hilltop Mall Road, Richmond, California, for Federal deposit insurance; for consent to acquire the assets of and to assume the liability to pay deposits made in the Hilltop Branch, Richmond, California, of Union Bank, Los Angeles, California; and for consent to establish a de novo branch at 2160 Vale Road, San Pablo, California.

Application for consent to acquire assets and assume liabilities and establish two branches:

The North American Bank & Trust Company, Stratford, Connecticut, an insured State nonmember bank, for consent to acquire the assets of and assume the liability to pay deposits made in the Waterbury Branch and the Meadow Street Drive-in Branch of The Connecticut National Bank, Bridgeport, Connecticut, and to establish those two offices as branches of The North American Bank & Trust Company.

Application for consent to merge and establish four branches:

Andover Savings Bank, Andover, Massachusetts, an insured mutual savings bank, for consent to merge, under its charter and title, with Valley Cooperative Bank, Lawrence, Massachusetts, a nonfederally insured institution, and to establish the four offices of Valley Cooperative Bank as branches of the resultant bank.

Application for consent to merge and establish three branches and for consent to exercise limited trust powers:

Provident Savings Bank, Jersey City, New Jersey, an insured mutual savings bank, for consent to merge, under its charter and title, with Bloomfield Savings Bank, Bloomfield, New Jersey, to establish the three offices of Bloomfield Savings Bank as branches of the resultant bank, and for consent to exercise limited trust powers.

Application for consent to purchase assets and assume liabilities and to establish two branches:

Goldome Bank for Savings, Buffalo, New York, an insured mutual savings bank, for consent to purchase certain assets of and assume the liability to pay certain deposits made in the Dunkirk Branch and the Gowanda Branch of The Permanent Savings Bank, Niagara Falls, New York, and to establish those two branches as branches of Goldome Bank for Savings.

Application for consent to convert to membership in the Federal Savings and Loan Insurance Corporation:

The Long Island Savings Bank, Syosset, New York, an insured mutual savings bank.

Recommendation regarding the Corporation's assistance agreement with an insured bank pursuant to section 13(e) of the Federal Deposit Insurance Act.

Application for assistance pursuant to section 13(i) of the Federal Deposit Insurance Act and the FDIC's Capital Assistance Plan:

Name and location of bank authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Recommendation regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 45,534–L (Amended)—Metropolitan Bank and Trust Company, Tampa, Florida
Case No. 45,548–L—Metropolitan Bank and Trust Company, Tampa, Florida
Memorandum and Resolution re: Farmers and Mechanics Savings Bank, Minneapolis, Minnesota
Memorandum and Resolution re: Village Bank, Pueblo West, Colorado

Memorandum re: Cost allocation system for the regional offices of the Division of Liquidation.

Memorandum re: Classification of expenses charged to individual liquidations.

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured banks or officers,

directors, employees, agents or other persons participating in the conduct of the affairs thereof:

Name of persons and names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(6)).

In calling the meeting, the Board determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director C. T. Conover (comptroller of the Currency), that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting pursuant to subsections (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), (c)(9)(B), and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), (c)(9)(B), and (c)(10)).

The meeting was held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Dated: December 23, 1982.

Federal Deposit Insurance Corporation.

Alan J. Kaplan,

Deputy Executive Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Board of Directors of the Federal Deposit Insurance Corporation met in open session at 10:00 a.m. on Thursday, December 23, 1982, to consider the following matters:

Recommendations with respect to payment for legal services rendered and expenses incurred in connection with receivership and liquidation activities:

Morrison, Hecker, Curtis, Kuder & Parrish, Kansas City, Missouri, in connection with the liquidation of The Mission State Bank and Trust Company, Mission, Kansas.

Feldstein, Gelpi & Hernandez, Old San Juan, Puerto Rico, in connection with the liquidation of Banco Credito y Ahorro Ponceno, Ponce, Puerto Rico.

Report of the Director, Division of Liquidation:

Memorandum re: Banco Credito y Ahorro Ponceno, Ponce, Puerto Rico (Case No. 45,540–L)

Memorandum re: Accounting and Capital Adequacy Concerns Regarding Intangible Assets Resulting from Bank Mergers and Acquisitions.

Memorandum re: Purchase of Office Space in the Ecker Square Condominium Office Building, San Francisco, California.

Memorandum re: Budget of Liquidation Expenses for Budget Year 1983.

Resolution re: Amended delegations of authority relating to FDIC's Capital Assistance Plan.

Memorandum and Resolution re: Final amendment to Part 329 of the Corporation's rules and regulations, entitled "Interest on Deposits," which eliminates the requirement that retail repurchase agreements of insured State nonmember banks be issued for 89 days or less.

In calling the meeting, the Board determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Directory C. T. Conover (Comptroller of the Currency), that Corporation business required its consideration of the matters on less than seven days' notice to the public and that no earlier notice of the meeting was practicable.

The meeting was held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

SECURITIES AND EXCHANGE COMMISSION

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 47 FR 56596, December 17, 1982.

STATUS: Closed meeting.

PLACE: 450 5th Street, N.W., Washington, D. C.

DATE PREVIOUSLY ANNOUNCED: Tuesday, December 14, 1982.

CHANGES IN THE MEETING: Additional/deletion items. The following additional items were considered at a closed meeting scheduled for Tuesday, December 21, 1982, following the 10:00 a.m. open meeting:

Settlement of injunctive action.
Formal order of investigation.

The following item was not considered at a closed meeting scheduled for Tuesday, December 21, 1982, following the 10:00 a.m. open meeting.

Freedom of Information Act appeal.

The following item will be considered at a closed meeting scheduled for Wednesday, December 22, 1982, at 2:00 p.m.

Access to investigative files by Federal, State, or Self-Regulatory authorities.

Chairman Shad and Commissioners Evans, Thomas, Longstreth and Treadway determined by vote that Commission Business required the above changes and that no earlier notice thereof was possible.

At times changes in Commission priorities require alternations in the scheduling of meeting items. For further information and to ascertain what, if any matters have been added, deleted or postponed, please contact: Bob Zutz at (202) 272–2091.

Part II

Department of Commerce

International Trade Administration

Commodity Control List; Revision of Format

DEPARTMENT OF COMMERCE

International Trade Administration

[Docket No. 21117-232]

15 CFR Parts 371, 372, 373, 374, 375, 378, 379, 385, and 399

Reformat of the Commodity Control List

AGENCY: Office of Export Administration, International Trade Administration, Commerce.

ACTION: Interim rule with request for comments.

SUMMARY: The Office of Export Administration maintains a listing of commodities subject to Department of Commerce export controls, the Commodity Control List (CCL). This rule, which neither expands not limits the provisions of the Export Administration Regulations, revises the CCL, Supplement No. 1 to § 399.1, by placing it in a new, simpler format that is easier to read and use. In addition, Supplement No. 1 to Part 385, Advisory Notes for Selected CCL Entries, is removed from the Regulations because its provisions are now included within the CCL itself. Section 399.1, The Commodity Control List and How to Use It, is also revised to reflect the new CCL format.

EFFECTIVE DATE: This rule is effective December 29, 1982. Comments must be received by the Department by February 28, 1983.

ADDRESS: Written comments (six copies) should be sent to: Richard J. Isadore, Director, Operations Division, Office of Export Administration, Department of Commerce, P.O. Box 273, Washington, D.C. 20044.

FOR FURTHER INFORMATION CONTACT: Archie Andrews, Director, Exporters' Service Staff, Office of Export Administration, Department of Commerce, Washington, D.C. 20230 (Telephone: (202) 377-4811).

SUPPLEMENTARY INFORMATION: The United States participates in an international security export control system. The Coordinating Committee (COCOM) of this system reviews proposals to ship strategic commodities and technical data to certain communist countries. The Office of Export Administration maintains the Commodity Control List (CCL), which includes all commodities multilaterally restricted for export by COCOM and those controlled unilaterally by the U.S. Department of Commerce.

This rule revises the format of the CCL (Supplement No. 1 to § 399.1) to make it easier for exporters to use in conjunction with the rest of the Export Administration Regulations (15 CFR Parts 368-399).

Major features of the new format include:

1. Removal of column headings. Information previously expressed in columns is now explained below the commodity description in a paragraph format.

2. Inclusion of the Advisory Notes (previously, Supplement No. 1 to Part 385) within the CCL itself. Each Note is shown with the particular CCL entry it affects.

3. Elimination of footnotes. Information previously contained in footnotes is now incorporated in the paragraph format.

4. Consolidation of export control-related information from other parts of the Regulations. It will be easier for exporters to determine the special limitations applicable to their particular commodities or technical data without consulting other parts of the Regulations.

This rule also removes Supplement No. 1 to Part 385, Advisory Notes for Selected CCL Entries, from the Export Administration Regulations. The information previously contained in the Advisory Notes is now incorporated in the body of the CCL. Also, § 399.1, The Commodity Control List and How to Use It, is rewritten to reflect the substitution of a paragraph format for the column headings of the CCL.

Various references to Supplement No. 1 to Part 385 are removed from the Regulations, and references to information located in *columns* of the CCL are amended to refer to the new *paragraph* format. Those commodity interpretations that are incorporated in the new CCL are removed from Supplement No. 1 to § 399.2.

The Office of Export Administration reminds exporters that this rule does not alter any of the regulatory provisions of the Commodity Control List, the Advisory Notes, or the Export Administration Regulations. This rule revises the format only; the regulatory substance is not affected.

Rulemaking Requirements

In connection with various rulemaking requirements, the Office of Export Administration has determined that:

1. Under section 13(a) of the Export Administration Act of 1979 (Pub. L. 96-72, 50 U.S.C. app. 2401 *et seq.*) ("the Act"), this rule is exempt from the public participation in rulemaking procedures of the Administrative Procedure Act. This rule does not impose new controls on exports, and is therefore exempt from section 13(b) of the Act, which expresses the intent of Congress that where practicable "regulations imposing controls on exports" be published in proposed form.

However, these regulations are issued in interim form and comments will be considered in developing final regulations. These regulations may be revised before the end of the comment period. Accordingly, interested persons who desire to comment are encouraged to do so at the earliest possible time to permit the fullest consideration of their views.

2. This rule does not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

3. This rule is not subject to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*

4. This rule is not a major rule within the meaning of section 1(b) of Executive Order 12291 (46 FR 13193, February 19, 1981), "Federal Regulation."

The period for submission of comments will close February 28, 1983. All comments received before the close of the comment period will be considered by the Department in the development of final regulations. While comments received after the end of the comment period will be considered if possible, their consideration cannot be assured. Public comments that are accompanied by a request that part or all of the material be treated confidentially because of its business proprietary nature or for any other reason will not be accepted. Such comments and materials will be returned to the submitter and will not be considered in the development of final regulations.

All public comments on these regulations will be a matter of public record and will be available for public inspection and copying. In the interest of accuracy and completeness, comments in written form are preferred. If oral comments are received, they must be followed by written memoranda which will also be a matter of public record and will be available for public review and copying. Communications from agencies of the United States Government or foreign governments will not be made available for public inspection.

The public record concerning these regulations will be maintained in the International Trade Administration Freedom of Information Records Inspection Facility, Room 4001-B, U.S. Department of Commerce, 14th Street and Pennsylvania Avenue, NW., Washington, D.C. 20230. Records in this facility, including written public

comments and memoranda summarizing the substance of oral communications, may be inspected and copied in accordance with regulations published in Part 4 of Title 15 of the Code of Federal Regulations. Information about the inspection and copying of records at the facility may be obtained from Patricia L. Mann, the International Trade Administration Freedom of Information Officer, at the above address or by calling (202) 377–3031.

List of Subjects

15 CFR Parts 371 Through 375

Exports.

15 CFR Part 378

Exports, Nuclear energy.

15 CFR Part 379

Exports, Science and technology.

15 CFR Part 385

Communist countries, Exports.

15 CFR Part 399

Exports.

Accordingly, the Export Administration Regulations (15 CFR Parts 368–399) are amended as follows:

PART 371—[AMENDED]

§ 371.5 [Amended]

1. Section 371.5(a)(1) is amended by revising the phrase: "in the column headed 'GLV $ Value Limits T & V' " to read: "in the paragraph of that entry titled 'GLV $ Value Limits T & V' ".

2. Footnote 1 to § 371.5(a)(1) is revised to read as follows:

[1] Some commodities may not be shipped to Country Group T or V under General License *GLV*. However, another general license may apply. Check the appropriate CCL entry for special restrictions.

3. Section 371.5(a)(2) is revised to read as follows:

§ 371.5 General license GLV; shipments of limited value.

(a) * * *

(2) To a destination in Country Group P or Q, provided that the net value of the commodity included in a single entry on the Commodity Control List does not exceed the amount specified in the "GLV $ Value Limit" paragraph for that entry.

* * * * *

4. Footnote 2 to § 371.5(a)(2) is removed.

PART 372—[AMENDED]

§ 372.4 [Amended]

5. Paragraph (d) of § 372.4 is amended by revising the phrase: "in the column headed 'Processing Code' " to read: "in the paragraph titled 'Processing Code' ".

§ 372.9 [Amended]

6. Paragraph (c) of § 372.9 is amended by revising the phrase: "in the 'Unit' column of the Commodity Control List" to read: "in the 'Unit' paragraph of an entry on the Commodity Control List"; and by revising the phrase: "by a footnote in this column" to read: "as stated in the 'Unit' paragraph of the CCL entry".

Part 372, Supplement No. 1—[Amended]

7. In Supplement No. 1 to Part 372, "Instructions for preparing an application for a validated license," Item 9. (a) is revised to read as follows:

Supplement No. 1 to Part 372—Instructions for Preparing an Application for a Validated License

* * * * *

Item 9. (a). Give the quantity to be shipped, using units specified in the Commodity Control List (Supplement No. 1 to § 399.1) in the paragraph of the applicable CCL entry titled "Unit of Quantity."

PART 373—[AMENDED]

§ 373.4 [Amended]

8. § 373.4(b)(1) is amended by revising the phrase: "and is either described in the Advisory Notes in Supplement No. 1 to Part 385" to read: "and is either described in the Advisory Notes for that commodity in the CCL (Supplement No. 1 to § 399.1)".

§ 373.7 [Amended]

9. Section 373.7(d)(1)(iv)(B)(*5*) is amended by revising the phrase "see § 399.1(j)" to read "see § 399.1(b)".

PART 374—[AMENDED]

§ 374.3 [Amended]

10. Section 374.3(e)(1)(i)(B) is amended by revising the phrase "notes in Supplement No. 1 to Part 385" to read "Advisory Notes " for those commodities in the CCL (Supplement No. 1 to § 399.1)".

Part 374, Supplement No. 1—[Amended]

11. In Supplement No. 1 to Part 374, Item 8(a) is revised to read as follows:

Supplement No. 1 to Part 374—Instructions for Preparing Form ITA–699P, "Request To Dispose of Commodities or Technical Data Previously Exported"

* * * * *

Item 8(a). Show the quantity of each commodity, using units specified in the "Unit" paragraph of the applicable entry on the Commodity Control List (Supplement No. 1 to § 399.1).

* * * * *

PART 375—[AMENDED]

§ 375.7 [Amended]

12. Section 375.7(b)(1) is amended by revising the phrase: "in the column on the Commodity Control List titled 'Validated License Required' " to read: "to the paragraph in any entry on the Commodity Control List titled 'Validated License Required' ".

13. Section 375.7(b)(3) is amended by revising the phrase: "to the column on the Commodity Control List entitled 'Validated License Required' " to read: "to the paragraph in any entry on the Commodity Control List titled 'Validated License Required' ".

PART 378—[AMENDED]

§ 378.2 [Amended]

14. Section 378.2(a) is amended by revising the phrase: "that have the number 4 in the column titled 'Reason for Control' " to read: "with 'nuclear non-proliferation' included in the 'Reason for Control' paragraph of the applicable entry".

PART 379—[AMENDED]

§ 379.4 [Amended]

15. Section 379.4(f)(2)(i) (*a*) and (*b*), (ii) and (ii)(*b*) are amended by revising the phrase: "identified by the symbol 'W' in the column of the Commodity Control List titled 'Validated License Required' " to read: "identified by the symbol 'W' in the paragraph of any entry on the Commodity Control List titled 'Validated License Required' ".

§ 379.4 [Amended]

16. The paragraph numbered "2" in the "Note" following § 379.4(f)(2)(ii)(*c*) is amended by revising the phrase: "by the information set forth in the column titled 'Validated License Required' " to read: "by the information set forth in the applicable CCL entry in the paragraph titled 'Validated License Required' ".

§ 379.8 [Amended]

17. Section 379.8(b)(3)(i)(B) is amended by revising the phrase: "in the notes in Supplement No. 1 to Part 385" to read: "in the Advisory Notes in any entry on the Commodity Control List (Supplement No. 1 to §399.1)".

PART 385—[AMENDED]

§ 385.2 [Amended]

18. Section 385.2(a)(4) is amended by revising the phrase: "See Supplement No. 1 to this part" to read: "See the Advisory Notes for the applicable entry on the Commodity Control List (Supplement No. 1 to § 399.1)".

19. Section 385.3(c) is revised to read as follows:

§ 385.3 Country Group P: People's Republic of China

* * * * *

(c) Although each application will be considered individually, certain goods on the CCL are more likely to be approved than others. The "Advisory Notes" in the CCL describe goods likely to be approved for China, as well as certain other country groups. Those Notes in the CCL headed "Note for Country Group P only" provide guidance on equipment more likely to be approved for China than for Country Groups Q, W and Y.

* * * * *

§ 385.4 [Amended]

20. Section 385.4 (a)(2)(iii) and (a)(5)(i) are amended by revising the phrase: "*not* identified by a '1' in the 'Reason for Control' column of the Commodity Control List" to read: "*not* identified in the 'Reason for Control' paragraph of any entry on the Commodity Control List as being controlled for 'national security' ".

21. Section 385.4(d)(5)(iv) is amended by revising the phrase: "identified by a '1' in the 'Reason for Control' column of the Commodity Control List" to read: "identified in the 'Reason for Control' paragraph of any entry on the Commodity Control List as being controlled for 'national security' ".

Part 385, Supplement No. 1—[Reserved]

22. Supplement No. 1 to Part 385, Advisory Notes For Selected CCL Entries, is removed and reserved.

PART 399—[AMENDED]

§ 399.2 Supplement No. 1—[Amended]

23. Commodity Interpretations 30 and 32 are removed from Supplement No. 1 of § 399.2.

24. Section 399.1, The Commodity Control List and How to Use It, and Supplement No. 1 to § 399.1, the Commodity Control List, are revised to read as follows:

§ 399.1 The Commodity Control List and How to Use It

(a) Commodity Coverage. The Office of Export Administration (OEA) maintains the Commodity Control List (CCL), which includes all commodities subject to U.S. Department of Commerce export controls. The CCL does not include those commodities exclusively controlled for export by another department or agency of the U.S. Government. For example, arms, ammunition, and implements of war are controlled for export by the Office of Munitions Control, U.S. Department of State. See § 370.10 for a listing of exports controlled by other U.S. Government departments and agencies.

(b) Commodity Groups. The commodities under OEA jurisdiction are grouped on the CCL under 10 general categories. Each CCL entry is preceded by a four-digit Export Control Commodity Number (ECCN) and a code letter. The first digit relates to the strategic level of control; the second digit identifies the Group to which the commodity belongs; and the remaining two digits identify related commodities within a Group. Within each group, the entries are numbered consecutively by the third and fourth digits.

Commodity group No.	Commodity groups	Commodity control list page No.
0	Metal-Working Machinery	CCL
1	Chemical and Petroleum Equipment	CCL
2	Electrical and Power-Generating Equipment.	CCL
3	General Industrial Equipment	CCL
4	Transportation Equipment	CCL
5	Electronics and Precision Instruments	CCL
6	Metals, Minerals, and Their Manufactures.	CCL
7	Chemicals, Metalloids, Petroleum Products and Related Materials.	CCL
8	Rubber and Rubber Products	CCL
9	Miscellaneous	CCL

Within the ten general categories, specific CCL entries define the commodities controlled to the country groups and individual destinations specified in the paragraph titled "Validated License Required" under each ECCN. See Supplement No. 1 to Part 370 for a listing of the countries included in each country group.

(c) Embargo Destinations. Almost all CCL entries include Country Groups S and Z, embargo destinations, under the heading "Validated License Required." Generally, the last entry in each commodity category is a "basket" entry asserting control over exports to destinations in Country Groups S and Z of commodities that are not elsewhere specified in that commodity category. In a few instances, however, certain entries, or portions of entries, are excepted from the general embargo policy and are specifically identified. You may export the excepted commodities under General License *G–DEST*. Certain other General Licenses may also apply, *e.g.*, General License *GIFT*. With these exceptions, you may not export or reexport any commodity to a destination in Country Group S or Z—

(1) Unless you have filed an export license application (Form ITA–622P) or request to reexport (Form ITA–699P) with OEA, and

(2) Until OEA issues a validated export license or reexport approval covering your proposed transaction.

See general policy statements regarding embargo destinations in § 385.1 (Country Group Z) and § 385.7 (Country Group S).

(d) All Other Destinations, Except Canada. (1) If you intend to export a commodity to a destination in Country Group P, Q, T, V, W or Y and that commodity is covered by a CCL entry that includes P, Q, T, V, W, or Y under the heading "Validated License Required," you must usually file an export license application or reexport request with OEA. OEA must then issue a validated export license or reexport authorization covering your proposed transaction before you make a shipment.

(2) If your commodity is covered by a CCL entry, but you intend to export it to a country that is *not* included in a country group for which there are controls, you may ship the commodity under General License *G–DEST*, provided that none of the parties involved is currently denied export privileges (see Supplement No. 1 to Part 388) and the export is not restricted by the special licensing requirements summarized in paragraph (f)(4) of this section.

(3) You should review the General License provisions in Part 371 before filing an export license application or reexport request to see whether your shipment requires a validated license or if it may be shipped under a general license. For example, you may be able to export a small value shipment of a commodity included in a CCL entry to a destination in Country Group Q, T or V under General License *GLV*. In addition, one of the other, more specialized, General Licenses explained in Part 371 may apply.

(e) Canada. Canada is not included in any of the Country Groups, and you may export most commodities to Canada for consumption or use in that country without an export license. In the few instances where a validated license is required, Canada is specifically named in the CCL entry. See § 385.6 for a general policy statement regarding exports to Canada. Note also the special licensing requirements summarized in (f)(4) below.

(f) How To Use the CCL. (1) *General categories.* First, identify which CCL entry covers the commodity you wish to export. Do this by reviewing the appropriate general category within which the commodity is most likely to be included. If you do not know, or cannot find, the proper CCL entry,

consult the Exporters' Service Staff, Office of Export Administration.
